MANIAC, ARMED WITH BOMBS, ON HUNT FOR LIVES

AURORA (ILL.) PLUMBER KILLS WOMAN AND SELF AND WOUNDS TWO OTHERS.

STRAPS GUNS TO HIS BODY.

Wanted to Slay All the Inhabitants of a City Block and Terrorizes Whole Community.

SAID GOSSIPS WERE MALICIOUS.

AURORA, Ill., April 8 .- John Anderson, a plumber whose mind had been affected, became suddenly violent today and armed himself with two pistols, a shotgun and three bombs which he fas tened to his person by means of a har-ness, started out to kill the inhabitants of a city block in which he said malicious gossip concerning himself had been circulated. He killed one woman, narrowly missed slaying her husband, wounded another woman, and then committed sui-

In a public contest held Nov. 17, 1908, at the Creamery of the Door County Creamery Co., on Cedar St., Sturgeon Bay, Wis., the Iowa Separator won a decisive victory over the DeLaval Separator. Wulf & Co., Messrs. Evans and Alexander, two DeLaval experts, conducted and directed the skimming operations of the DeLaval Separator.

OUR CHALLENGE.

We stand ready to test the "IOWA" Separator against any other make of separator and will deposit in the Bank of Campbellsport ONE HUNDRED DOLLARS to any other separator company's FIFTY that the Iowa will skim closer on the average runs at temperatures of 50, 60, 70, 80 and 90 degrees, and a cream of not less than 25 to 50 per cent than any other separator, all machines to be run exactly as printed instruction book sent out with such machine. Furthermore, if five machines enter the contest we will contribute towards St. Matthews Church, Campbellsport, one hundred dollars if two out of the five do not leave an average of five times as much butterfat in the skim milk as the Iowa, tests to be made by a competent person or submitted to the Dairy School at Madison. We to use in these tests No. 2 or 3 Iowa Separators, this being the size in general use by our farmers. There are no Wulf tricks in this challenge, and we have deposited Fifty Dollars in the bank as

forteit if we refuse to enter the contest. I will give any farmer \$25 who will bring this contest about, no nachine in the world barred. This is no bluff, try us and find out.

Signed, Michael Degenhardt,

Campbellsport, Wis. Mr. Degenhardt is the agent for the Iowa in Fond du Lac county and by purchasing separators in car load lots he is able 'o quote prices exceedingly low and which appeal to the farmers. From time to time, agents for "cheap" trashy separators make wild and extravagant claims in a vain effort to mislead the farmers and palm off their worthless machines. In this case, it is the agent for the Iowa separator. A machine that is made at the same factory and by the same peoble who make the Sears, Roebuck & Co's separators. And in common jus-

ice to the farmers, ought to be sold for the same price. The so-called challenge issued by this Iowa agent in the several papers "bluff," and a fake from start to finish, especia The Iowa agent refused to deposit his money and sign the following which embodies all the conditions of his challenge. Read it over carefully and note that it conforms with his conditions and that it is fair and impar ial in every respect; it simply demands that each machine must tulfill al laims made for it. Yet he refused to sign this agreement and deposit his noney, in face of the fact that he advertised that he had \$50 on deposit which he would forfeit if he refused to enter a contest. The following is

the agreement: We, the undersigned, each agree with the other to enter into a skimming contest, under the following conditions (1) Each machine must be taken out of the regul r stock and must be of the same construction, dimensions, style and capacity as sold to the regular trade, heretofore. (2) Each machine must be operated according to the regu-

trade, and must skim the full amount of milk for which it is rated per hour, at each of the following temperatures, 50, 60, 70, 80 and 90 degrees. (3) Samples to be taken every ten minutes of the skim milk and tested by a competent person or sent to the State Experimental Station, Madison, Wis. Cream to test from 25 per

The \$50 Check That Was Worth \$100

A man handed a dry goods merchant a check for \$50 to apply on account. The merchant neglected to give the proper credit, and about six months

later rendered a statement to the customer. The customer called the merchant's attention to his error in failing to credit the check, which the merchant denied receiving. When the customer produced the cancelled check, bearing the firm's en-

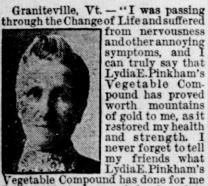

dorsement, there were abject apologies—but no arguments. Without that check as evidence of payment, the customer would have been forced to pay again.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what LydiaE. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffer-

ing women I am willing to make my trouble public so you may publish this letter."—Mrs. Chas. Barclay, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and un-qualified endorsement. No other med-

qualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclaysays, it is "worth mountains of gold" to suffering women.

But the air business is described as the direct development of the boom in skyscrapers, which require more than their share of oxygen. Far seeing speculators of New York in many cases have secured such a monopoly of the air supply that owners of towering structures cannot get air in the open market, but must pay fancy prices for it.

In order to get air the owners of skyscrapers are forced to pay a heavy consideration to their neighbors to prevent the blocking up of the windows of their apartments. They rent the air, paying a fixed price for a period of years, the covenant being that there shall be placed no impediment in the way of free circulation of atmosphere.

The Fardish law gives an owner of disease that science has been able to cure

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's In all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfa/es of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it falls to cure. Send for list of testimonials.

No "Tipping" on German Railways. Germany appreciates more and more every year the financial benefits accru-ing from "the tourist industry," and is especially desirous of attracting American travelers, because they are the most lavish of all in the expenditure of "I hope you

Tourists generally will be interested in the new regulations which are to go into force on the German railways on the 1st of next month. They are drastic, which of next month. They are drastic, which is not a unusual quality in German rules, and on the whole they seem to be just and practical. Tipping of railway employes on trains is prohibited; passengers giving tips will be punished and the official bribed will be dismissed. The railways will be responsible for passengers' luggage for fourteen days and at all times responsible for luggage lost. Children over 10 years will not be permitted to travel in compartments reserved for women. If a train is full, a traveler, although he may have a ticket, may be compelled to wait for the next train. A friend taking leave of a traveler and remaining in a train until it train. A friend taking leave of a traveler and remaining in a train until it moves will have to pay a fine of \$1.50.

Other European countries would do well to follow the good example which Germany has set in abolishing tipping on railways, for the exaction has been a nuisance not only in Germany, but also in Russia, in Italy, and, of late years, in France. One reform leads to others. Europeans object to the American sleeping car, with its open berths, averring Europeans object to the American sleeping car, with its open berths, averring
that it is immodest. This is an imputation at which Americans feel disposed
to smile. The European compartment
system has never commanded their approval. Its supposed privacy is sometimes invaded by railroad employes with
skeleton keys who manage to get from
one stateroom to another through a connecting toilet, and who often make serious depredations upon baggage. This is ous depredations upon baggage. This is a risk of travel which does not exist to the same extent in America.
