MANGLED BODY OF JANITOR IS FOUND IN RIVER

EMIL WALLSCHLAGER, WHO DISAPPEARED A MONTH AGO, MAY HAVE BEEN MURDERED.

ARM AND LEG FOUND BROKEN.

Bruises and Torn Coat Sleeve Lead to Theory That He Was Killed for Money.

IDENTIFIED BY BROTHER-IN-LAW.

MILWAUKEE, Wis., April 14, 1909.—The body of Emil Wallischlager, mangled and bruised, was found in the Milwaukee river this morning, and the indications are that the man was murdered.

The body had been in the water two weeks. The right arm was broken and the bones of the left leg were also fractured. The sleeve of Wallischlager's coat was torn. Other marks were found which lead the family to believe that the long missing janitor of the Unitarian church was attacked and robbed and his body thrown into the river.

Seek Rough Characters. There is also the possibility that the injuries and marks on the body were caused by the propeller wheels of passing steamers. Wallischlager was seen after he left his home with a considerable sum of money in his pocket, in the company of some rough characters who will now be sought by the police and, if possible, they will be connected with the man's disappearance.

Found in a Pocket. The body which was identified partly by Unitarian tracts found in his pockets, was found floating in the Milwaukee river.

DIES FROM GANGRENE

POSTMORTEM EXAMINATION HELD OVER BODY OF C. A. WHITE.

Internally Bruised by Fall of Truck—Funeral Will Be Held Thursday.

FOND DU LAC, Wis., April 14.—[Special.]—A postmortem examination over the body of Charles A. White yesterday disclosed the fact that the fall which Mr. White sustained last Friday bruised the center and the edge of the intestines and cut off the circulation which later caused gangrene from which death ensued. A short time before his death Mr. White stated that a small truck had fallen on his abdomen and in this manner the injury was sustained. The case is an unusual one owing to the fact that there was no external evidence of a bruise. The funeral will be held from the cathedral at 3:30 Thursday afternoon. The body will be taken to Mr. White's old home in New York for interment.

MAGAZINE IS NO MORE.

Editor and Business Manager of Intercollegiate Spectator Leave College and Publication Ceases.

MADISON, Wis., April 14.—[Special.]—The disappearance of the Intercollegiate Spectator, a magazine published by students at the University of Wisconsin, has caused much comment among advertisers and subscribers. The Spectator is the only intercollegiate magazine published in the United States, and was established last fall. Since the last number failed to appear, it has been reported that the Spectator was sold to the University of Wisconsin. The Spectator is reported to be financially sound, and the University is reported to be considering the purchase of the magazine for the current year.

Hydrophobia on Increase.

MADISON, Wis., April 14.—[Special.]—Dr. M. P. Ravenel, director of the hygienic laboratory at the University of Wisconsin, reports that an increasingly large number of cases of hydrophobia seem to be developing in the state. Specifics have been placed on a number of districts, but as they were not in many cases packed in ice, the doctors were unable to make proper investigations.

Milwaukeeans on Committee.

MADISON, Wis., April 14.—[Special.]—Louis Coorsen and Leo Dieckhauser, Milwaukee students at the state university, have been placed on a committee appointed by President C. R. Van Dusen to consider the advisability of consolidating the three of the publications at the university, the Wisconsin Literary and Dramatic, Sphinx and Spectator.

RAILROAD TIES GETTING SCARCE

CORPORATIONS ARE SCOURING THE COUNTRY FOR AN ADEQUATE SUPPLY.

WHITE OAK IS BEST TIMBER.

Southern Pine, Douglas Fir, Cedar, Beech and Hemlock Are Also Used Extensively.

NO SUBSTITUTE FOR WOOD FOUND.

WASHINGTON, D. C., April 15.—[Special.]—That the lumber railroad is a most important factor in the material development of the country is a great truth that is little understood by people outside of railroad circles. The putting engine that speeds at the rate of a mile or more a minute over the country is a slave to the two steel rails that insure a smooth and safe road, and these rails in turn depend on the old-fashioned wooden cross-tie which holds them in place.

No Substitute Found.

Yankee invention has not yet found a substitute which has induced the railroads to give up wood, although experts say that the material will surely come when the country's forests will no longer be called upon to supply the demand for ties. Up to the present time it seems that no other material has been found which has the resiliency of wood, and which at the same time causes less wear and tear on the rails, fastenings and the ties themselves.

Use Oak the Most.

Over 40 per cent of the ties recently purchased by the railroads for use in the country are oak, according to latest statistics of the United States forest service. Cross-ties of southern pine formerly were used less than 25 per cent. Douglas fir ties ranked third, with approximately 10 per cent of the total. Natural white pine, in the form of ties, is used in the manufacture of these two timbers will increase the supply of oak ties. This is also true of cedar, chestnut, cypress, pine, tamarack, hemlock and other trees which are coming into the market as tie timber.

Cedar, which is very durable, has been extensively used to take the place of white oak for ties, but it is so soft that it is readily cut by the rails. This necessitates the use of iron plates and other protective devices when cedar ties are used. As the supply of cedar is being rapidly exhausted, it is necessary for the railroads to seek further for new tie timber. One of the woods which has all the qualities of oak, but is more abundant, is the beech.

A beech tie generally consists largely of sawed, which is partly cut into its length of durability, but on the other hand, allows a thorough and easy preservative treatment. Beech ties are used very extensively. Beech is found widely distributed throughout the eastern part of the United States, and is abundant and abundant. If, therefore, the railroads whose lines are located in the section where beech is abundant, they can use this wood, treated with some suitable preservative, another source of supply of tie timber will be opened up.

Stumpage Values Increase.

Stumpage values have been increasing so rapidly during the last few years that many railroads have found it necessary to modify their timber policy, and they yearly apply preservatives to a greater number of ties and sleepers. The substitution of woods naturally vary with different sections of the country, and in most cases they have been found to be of great value. The substitution of woods naturally vary with different sections of the country, and in most cases they have been found to be of great value.

TAFT COTTAGE PRETTY.

Summer Home for President and Family Is One of New England's Show Places.

BEVERLY, Mass., April 15.—The cottage which President Taft and his family will occupy as a summer residence here has long been one of the show places of this section of New England. The house, which is two stories and a half, occupies a commanding position on the shore front and is a beautiful and spacious lawn and luxuriant greenery. Access to the grounds is by a private street, where a wide entrance, the driveway, and great stone posts mark the beginning of a winding avenue leading to the cottage. There is a covered porch over the private driveway leading to the house. A wide veranda circles the edifice on three sides.

SAVED BY TELEPHONE.

FOND DU LAC, Wis., April 12.—[Special.]—The telephone saved Lucien Close and his family, who live near Woodhall, from possible death Sunday afternoon in a fire that totally destroyed their residence. Mr. Close and his family were in the city at the time of the fire. He had seen the flames issuing from the roof near the chimney. After notifying Close of the danger, the telephone, telephoned by other farmers in the vicinity and told them of the fire, when they arrived on the scene the house was burned to the ground. The loss will amount to about \$15,000 and is partially covered by insurance.

MEMORIAL DAY PLANS.

Although nothing definite has been done, the members of the G. A. R. are discussing plans for a proper observance of Memorial day. Notices from the state commander have been received by the local G. A. R. in regard to a Memorial day programme. It is probable that the programme this year will be the same as last year, consisting of a parade in the afternoon followed by a literary and musical programme at the armory.

## THE IOWA WINS.

In a public contest held Nov. 17, 1908, at the Creamery of the Door County Creamery Co., on Cedar St., Sturgeon Bay, Wis., the Iowa Separator won a decisive victory over the DeLaval Separator. Wulf & Co., Messrs. Evans and Alexander, two DeLaval experts, conducted and directed the skimming operations of the DeLaval Separator.

### OUR CHALLENGE.

We stand ready to test the "IOWA" Separator against any other make of separator and will deposit in the Bank of Campbellsport ONE HUNDRED DOLLARS to any other separator company's FIFTY that the Iowa will skim closer on the average runs at temperatures of 50, 60, 70, 80 and 90 degrees, and a cream of not less than 25 to 50 per cent than any other separator, all machines to be run exactly as printed instruction book sent out with such machine. Furthermore, if five machines enter the contest we will contribute towards St. Matthews Church, Campbellsport, one hundred dollars if two out of the five do not leave an average of five times as much butterfat in the skim milk as the Iowa, tests to be made by a competent person or submitted to the Dairy School at Madison. We to use in these tests No. 2 or 3 Iowa Separators, this being the size in general use by our farmers. There are no Wulf tricks in this challenge, and we have deposited Fifty Dollars in the bank as a forfeit if we refuse to enter the contest.

I will give any farmer \$25 who will bring this contest about, no machine in the world barred. This is no bluff, try us and find out.

Signed,  
**Michael Degenhardt,**  
Campbellsport, Wis.

Mr. Degenhardt is the agent for the Iowa in Fond du Lac county and by purchasing separators in car load lots he is able to quote prices exceedingly low and which appeal to the farmers. These cream separators can be seen at his headquarters in Campbellsport or Mr. Degenhardt will be pleased to call on a prospective buyer. Write today to Mr. Degenhardt if you are interested.

Among the purchasers of the last few days are the following: Anthony Bowers, Wm. Kitter, Campbellsport; Wm. Gibbons, Eden; John O'Brien, Osceola; Edward Graham, Osceola; A. Scheuerman, Ashford; Paolo Bros., Armstrong; Charles Peterson, Patrick Fitzgerald, Wm. Berg, Charles H. Schwartz, C. D. Klautz, John Blackman, John M. Mauel, John Feuerhammer, Auburn; John Kniekel, James Cahill, Osceola; Ang. C. Luedke of Lomira and John McCarty each purchased a No. 5, 1000 lb. per hour, for \$125. Ed. Flood, Eden; Louis Petri, Wayne; Anton Koelg, John F. Schrauth, Ed. Clark, North Fond du Lac; Thoma Smith, Thomas Ryan, George Fitzgerald, Charles Ziegler, Herman Gillson, Charles Brown, Henry Schmitz, William C. Schmitt, Herman Holland, William Maher, Henry Schaefer, Charles Schaefer, Herm. n. Seefeld, Charles Rodgers, George C. Hughes, Henry C. Nigh, H. F. Bloch, Henry G. Bartel.

Remember that these Cream Separators are the best in the world and Degenhardt stands back of every sale he makes and the company stands back of him.

## TEN YEARS AHEAD OF ALL OTHER CREAM SEPARATORS

In skimming efficiency, simplicity, durability and convenience, the new 1908-1909 improved De Laval Cream Separators are fully ten years ahead of any other machine on the market today. Thirty years of experience, protecting patents, and the many valuable improvements devised and perfected by the De Laval engineers in all parts of the world during the past three years, are responsible for this fact. Every feature of the De Laval has been improved from the supply can to the base. The new centre-balanced bowl with its separate spindle is alone a triumph in separator construction and must be seen to be fully appreciated. Then there is the new one-piece "anti splash" sanitary supply can, adjustable shelves for skim-milk and cream receptacles, new frame designs, and many other but less important improvements,—all combining to make the De Laval as nearly ideal as a separator for farm and dairy use can be made. There is the proper size machine for every size dairy from the smallest to the largest and no cow owner can afford to be without one of these improved machines. It will cost you nothing to see and examine the new De Laval and right at your own home too, if you will but say the word. Our new illustrated catalog describing the De Laval improvements in detail is sent for the asking. Write us at once and you will receive this interesting book by first mail with full information as to how you may have a free demonstration of the improved De Laval in your own home. It will pry you to do so and your only regret will be that you didn't investigate sooner.

\*ANNOUNCEMENT.
To the Subscribers and Advertisers of THE STATESMAN: I desire to announce to the patrons of THE STATESMAN that Geo. H. Schmidt of this village has purchased a half interest in the business and that he will hereafter be joint owner of the property with me. Mr. Schmidt is a young man of ability and education and he is a hustler. He has for a number of years been the assistant of his father, Joseph Schmidt, as secretary of the Kewaskum Mutual Fire Insurance company, and for the past year has been traveling representative of the Chicago News Co. In both these capacities he has proven his business ability. He is well known to the patrons of the office and also well acquainted in the field in which the paper circulates. With his assistance we confidently expect to make THE STATESMAN a better paper than ever. It is our intention to enlarge the paper in the near future to enable us to take care of the increased demand for advertising without encroaching upon the space devoted to reading matter. In this way we will be able to give our readers more information and make the paper one of the best in the state. The contemplated change will entail a heavy expense which will have to be met when the material is purchased. To be ready to meet that expense it will be necessary to call upon those who are in arrears on subscription or other accounts, to adjust these accounts as soon as possible. A statement will be sent to each subscriber whose account shows a balance due the office and to all others who are indebted to the office on their accounts. We hope that all will give these statements prompt attention so that we may be free to carry out our plans to add to the value of THE STATESMAN as a home paper. Respectfully, C. E. KRAHN.

\*Shipped His Herd of Cattle.
One of the largest shipments of cattle ever made out of Kewaskum took place last Tuesday when J. B. Day shipped his herd to Chicago. The shipment consisted of nine carloads of the finest cattle which ever left this station. There were 151 head in all, 108 head of steers and 43 head of heifers, for which Mr. Day received a net price of \$14,024.32. Mr. Day received the stock from Dakota on the 3rd day of November and the average weight at that time was 987 pounds each, and when sold they averaged 1411 pounds each. The cost of feeding the stock for the five months was about \$12,000 besides the hay etc., which Mr. Day raised on the farm. He has on hand 3 head out of the herd valued at about \$200, and has about \$300 worth of feed on hand, which will net him about \$2,524.32 on the deal. Mr. Day states that the stock was inspected by the government at Chicago and were found in perfect condition. They were at once tagged and shipped to Liverpool, England, excepting fifteen head which were left at Chicago.

This is the only store in town selling XTRAGOOD clothes for boys.
Plenty of clothes last half as long—plenty look half as good. But none can compare with these.
One can always pick out every boy on the street who wears an XTRAGOOD suit. There's something distinctive about him.
XTRAGOOD clothes are made by Ederheimer-Stein—the exclusive tailors to young people.
XTRAGOOD suits contain 1 more cloth than the common. Boys don't soon outgrow them.
All XTRAGOOD trousers are lined. That doubles their wear.
Yet XTRAGOOD clothes cost no more than the common. You may as well have them. You are wronging yourself if you don't.

Burglars Busy
There are hundreds of robberies every day of the year about which we hear nothing, but through which people who are careless about money, lose it. The person who keeps his or her money in a bank, has but little fear from the hold-up man or the house-breaker, it is the man who carries money on his person that usually gets "touched." Your money, if deposited with this bank, will be absolutely secure.
