LONG A LEADER IN WISCONSIN POLITICS, SUFFERS AFTER LONG ILLNESS.

END COMES IN WASHINGTON. Was Badger Representative Seven Terms and Chairman of Republican Congressional Committee.

CLOSE OF A NOTABLE CAREER.

WASHINGTON, D. C., April 27.—[Special.]—Former Representative Joseph W. Babcock of Wisconsin, for fourteen years a member of the lower house of Congress, and for many years chairman of the national Republican congressional committee, died at his home here at 9:45 a. m. today.

He had been ill for some weeks with a complication of liver and kidney troubles. Mr. Babcock was an ardent champion of the national capital and as chairman for many years of the House committee on the District of Columbia he worked with great zeal for any movement looking to the improvement of this city. Mr. Babcock was personally very popular with his colleagues in the House, where his defeat having been brought about by a combination between the La Follette faction of the republican party and the Democrats in Wisconsin, resulted in the election to the Sixtieth Congress of Representative Murphy, a Democrat.

Born in Vermont. Joseph Weeks Babcock was born in Swanton, Vt., March 6, 1830, a descendant of the Pilgrims. He was the youngest of four children and when he was 5 years of age his parents removed to Cedar Falls, Ia. In 1872 he returned to the district school and when the family removed to Cedar Falls he attended the public schools of the state. Later on supplementing his elementary training with a brief course at Mount Vernon college.

SACK COATS TAFT'S STYLE.

Washington Follows President and Discards Frock and Silk Hat.

WASHINGTON, D. C., April 27.—This is a sack coat administration. As the sack coat has been generally looked upon as distinctive business garb, old-fashioned Washington is pointing to the official dress as a sure indication of a business administration. President Taft has set the fashion in sack coats. His secretary, Fred Carpenter, has a sack coat to the sack coat habit. For the first time in seven years Assistant Secretary Latta of the Senate chamber has a message from the President, wearing a sack coat. President Roosevelt's administration was one of silk hats and frock coats.

WISCONSIN MAN LEFT MILLIONS BY RICH UNCLE

H. WORLICKA, A MARINETTE LABORER, GETS WORD THAT HE HAS \$6,000,000 IN GERMANY.

FOUR HEIRS TO BIG ESTATE.

Worlicka, However, Offers to Sell His Share for \$10,000, a Farm and a Horse.

FRIENDS TO SEND HIM TO GERMANY.

MARINETTE, Wis., April 29.—[Special.]—For the paltry sum of \$10,000, with a 100-acre farm and a horse thrown in, there is a fortune of \$10,000,000 waiting in a little hamlet in the province of Schleswig-Holstein in the dear old fatherland. At least, Herman Worlicka, a city laborer, who last night received word that he was one of the four heirs to an estate of \$24,000,000, is willing to sell his share for the above mentioned modest sum.

Last night Worlicka, who has lived here for the last thirty years, received news from Germany that he had been left a large fortune by an uncle. Two letters came yesterday, one from his sister, Mary Worlicka, who still resides in Marquette, Wis., and another from a friend explaining the remarkable turn in luck of the American laborer.

Forty years ago Worlicka's uncle left his home in Germany and went to South Africa. He secured work in the famous Kimberly diamond mines and after years of privation and ceaseless toil amassed an immense fortune. Several years ago he left the land that had made him rich and went to England to spend his declining days. Early in the year he passed away, and word was sent to his nephew in Marquette that he had died in the old country that he has suddenly become rich, although there is every indication of truth in the story.

Seated in a saloon last night with a glass of beer before him, Worlicka was told by a Swiss cheese sandwich, he stated that he would make no effort to locate any money that might be due him. He was found who informed the British authorities that her brother was somewhere in America, although she had not heard from him in over fourteen years. Worlicka is not particularly impressed with the tale that has come from the old country that he has suddenly become rich, although there is every indication of truth in the story.

Snow Deep in Yellowstone.

Reports from the high lands are to the effect that snow is plentiful in the mountains and in the Yellowstone National park it is deeper than it has been known any winter during the past twenty years. This is the report brought into Butte from residents of Livingston, and after being in the evening playing in the feet of snow on the level in many parts of the park. In some places it reaches a depth of 10 feet. This condition is probably out of the ordinary, as reports from other parts of the state are that the snow is not so deep. It is well that there is only a comparatively small amount of snow in storage.—Anconada Standard.

HEAD OF SPIES SHOT DOWN.

Only Remaining Member of Cabinet Under Old Regime Is Now in Hiding in London.

CONSTANTINOPLE, April 29.—Nadir Pasha, the second uncle of the late Sultan, was hanged today on the Galata bridge, the great thoroughfare that connects Istanbul with the quarters of Galata and Pera.

The body was allowed to swing until 8 o'clock in the morning, and thousands of the people stopped to look at the great Nubian whose name was a terror under Abdul Hamid. The dead man's face showed an undergrowth of hair, thick, and he had been fully 6 feet 4 inches tall.

Nadir Pasha was executed after a trial by court-martial on the charge that he instigated the mutiny of the troops on April 13. He was reputed to be an ambitious, unscrupulous and cruel man, and the sufferings of others. He was one of the trio that formed Abdul Hamid's private cabinet under the old regime. There appears to be some question as to the cause of death. Schaeffer was 45 years old and is survived by his wife and two children.

BATHS AND ITS HEART. Hot Baths Diminish Size, Cold Baths Increase It. The effects of warm and cold baths upon the size of the heart have been discussed a great deal by physicians and lately the method of measuring the dimensions of the heart proposed by Moritz has enabled observers to determine changes in this respect quite accurately. The method of measuring the dimensions of the heart and his findings are reported in the Medical Record. All patients subjected to these experiments had the size of their hearts measured immediately before the baths and the operation was repeated at intervals of ten minutes. The results obtained were quite uniform. The effect of the hot bath was to diminish the size of the heart, the amount of the change being quite considerable in most cases. In one case the heart remained unchanged in size.

Mrs. M. T. Scott is Now President of the D. A. R.

WASHINGTON, D. C., April 23.—By a vote of 436 to 428, Mrs. Matthew T. Scott of Illinois was today declared elected president-general of the Daughters of the American Revolution over Mrs. William Cumming Story of New York. Mrs. Scott's election was a victory for the administration faction. A number of delegates refused to make the election unanimous on Mrs. Story's motion.

The election of Mrs. Matthew T. Scott as president general of the national society of the Daughters of the American Revolution, has a particular interest for Milwaukee, since the successful candidate is the mother of Mrs. Charles S. Brownell, wife of Maj. Brownell, who has recently succeeded Maj. W. V. Judson as United States engineer for the Milwaukee.

Mrs. Brownell will come to Milwaukee to reside during the coming summer, and it is therefore not unlikely that Mrs. Scott will visit here as her guest. Mrs. Scott is a sister of Mrs. Adlai E. Stevenson, who held the office of president general some years ago.

The Daughters of the American Revolution in Wisconsin will be glad that Mrs. Scott is elected, said Miss Mary L. Atwood, at the residence of her sister, Mrs. E. F. Vilas, Astor street, this morning. "Wisconsin was very decidedly for Mrs. Scott when the contest was so fierce, and endorsed Mrs. Scott as one whose election would insure the finishing of the continental hall and the carrying out of Mrs. McLean's policies."

"It is very gratifying indeed that the election has come to the middle west," said Mrs. J. V. Quarles. "I have met Mrs. Scott in Washington, and found her a woman of interesting and delightful personality."

James G. Flanders, too, expressed gratification over the recognition of the west which was evidenced by Mrs. Scott's election.
