Locals Unable to Hold the Fast Milwaukee Aggregation and Lose by a Score of 26 to 16

Last Saturday evening the local basketball five lined up against the crack basketball five of the Northminster Chapel of Milwaukee and were defeated in a very fast and interesting game by a fice in Campbellsport at 1 o'clock score of 26 to 16. The locals were Monday afternoon. Officers were outclassed in speed, the visitors having the best of them in team work, doing some very good passing. When the game started it looked very sad for the locals as itors scored three baskets netting them six points, but it did not take long before the locals woke up and all through this half kept the game nip and tuck and finally ended by a score of 14 to 16 in favorof the Chapel Five. Every morn she stands and watches, Till the postman comes along, Listens for his merry whistle, And his blithe and cheerful song.

'No letter for you mother, Says that postman every day, Sees the dim eyes fill with moisture, As she sadly turns away.

Though the months and years have flown, Forgotten are the scenes of childhood, And the humble cottage home.

Forgotten is the solemn promise That you gave that mother heart, As with tears, and sighs and blessings She saw her only son depart.

Every morn in prayer she's kneeling And her constant prayer at night "Oh dear Heavenly Father above us Pray guide my wandering boy aright."

"And dear kind and loving Father, Shield him with your powerful arm : Keep from him all sin and sorrow, Keep from him all earthly harm." \* \* \* \* \* \*

Far away across the Ocean, In a strange and foreign land, Sits a young man proud and comely A black edged letter in his hand.

And as he reads his lips grow ashen, Keen sorrow bends the bright young head, For that black edged letter tells him Boy, your poor old mother's dead.

Senate.

In the Senate on the 12th the greater part of the session was taken up by the introduction of new bills. The resolution calling upon the secretary of the treasury to certify to the claims for extra allowances for postmasters who served from 1864 to 1874 was discussed at length. A resolution formally accepting the statue of Gen. Lew Wallace, placed in Statuary hall, was passed.

The Senate while it spent no money.

The Senate, while it spent no money, put in more than two hours on the 13th in discussion as to whether it should allow about \$4,000,000 worth of claims for additional salaries to cer-tain postmasters who served during the decade from 1864 to 1874. The claims question was finally referred to the postmaster, and the Senate adjourned to 2:30 p. m. until Monday.

The Senate was not in session on the 14th. The Senate was not in session on the 15th.

Euclided States district on the 17th. logies were heard on the late George L. Shoup, former senator from Idaho, in connection with the acceptance of his

After cleaning up the calendar by passing about forty bills, the majority of them being of a private character, the Senate on the 18th adopted a resolution requesting the secretary of the treasury to advise the Senate if newspaper reports were true that the custom house at Newport News, Va., was to be closed tomorrow in observance of the anniversary of Gen. R. E. Lee's birthday.

The House could not agree on the Senate's amendment to the Ballinger-Pinchot inquiry resolution on the 12th and sent that measure to a conference. The Bennet-Sabath white slave bill was passed in spite of the efforts of Representative Mann, father of a rival bill, to sidetrack it.

The fortifications appropriation bill, carrying more than \$5,000,000, was passed on the 13th.

Partisan feeling was injected into the discussion about the destruction of 10,000 tons of worthless documents, presidential messages among them. Representative Fitzgerald humorously commented on the number of Roosevelt messages consigned to the waste basket. A resolution was passed granting additional clerical help to the nine committees on expenditure in the various executive departments, but not until after Mr. Fitzgerald had provoked protests by calling attention to the failure of these committees to scrutinize departmental extravagances.

The passing of March 4 as "inauguration day" is foreshadowed by a joint resolution proposing to the states an amendment to the constitution having that end in view, and fixing the date the last Thursday in April. It was before the House on the 14th and a final vote on it was prevented by an early adjournment. Ratification by at least thirty-five states will be necessary after the resolution is adopted by both houses of Congress and approved by the President. The message of the President on conservation of natural resources was presented and read at the opening of the session. The bills embracing the President's recommendations were not introduced because Representative Mondell of Wyoming, chairman of the House committee on public lands, refused to stand sponsor for them. Representative Murdock of Kansas introduced a resolution demanding that the postmaster general shall furnish the House with information relative to the infringement on the government's mail carrying monopoly by express com-

The fight between two committees over the jurisdiction of the Henry resolution proposing a constitutional amend-ment to change the date of the presidential inauguration from March the last Thursday in April resulted in the House committing the matter back to the judiciary committee, which had reported it on the 15th. An effort will be made to reach an understanding with the committee on election of Presi-dent and vice president, which had reported an almost identical measure, and the judiciary committee will report the Henry resolution back within ten days. The territories committee reported, rec-ommending statehood for New Mexico and Arizona. After eulogies by a number of members on the late United States Senator Shoup of Idahe, the House passed a concurrent resolution accepting the Shoup statue just placed

in Statuary hall. The House passed the bill granting separate statehood to the territories of Arizona and New Mexico on the 17th. Consideration of the urgent deficiency appropriation bill, carrying more than \$5,000,000, was begun.

Without debate and by a viva voce vote the House on the 18th adopted the conference report on the Ballinger-Pinchot inquiry resolution, and then de voted almost five hours to further discussion of the urgent deficiency approof this The sespriation bill. ## The Liability of the Carrier.

The appellate court of the First district at Chicago has held that an exprescompany is liable for the full value of goods destroyed in transit through the negligence of the carrier, rather than the arbitrary value of \$50 placed on all express packages where the value is no specifically stated by the shipper when the consignment is made. The cour found its authority for the ruling in th Illinois statute which denies the carrie the right to limit the common law lia bility by any stipulation or limitation e pressed in the receipt given for the good to be transported. The case was appealed by Rodman B. Ellison and other of Philadelphia against the Adams Express company. The ruling of the court sends the case back to the trial court for a court trial.

Wall street had barely time to price of Columbus and Hocking Coal eatch its breath when the chairman of the Stock exchange announced from the rostrum the failure of Lathrop, Haskins & Co., and a few minutes later of J. M. Fiske & Co.

No Signs of Panic.

A dissolution of a pool which had successfully manipulated the stock from about \$20 to \$91.50, and the calling of Society Has Become Too Artificial for loans secured by the Hocking Coal stock by certain banks, is given as the primary cause for the slump in Hocking Coal stock. Standard shares in the general list were weak during the Hocking Coal crash, but there were no signs of panic. No early statement was had from either of the firms whose failure had been announced. It was said that the

supposed in some quarters to be the consequence of the activities of a stock market pool. From 21¾ in February of last year, the price has been carried up to 92½ since the first of January of this year. Bearish traders who had the temerity to sell the stock short were severely punished from time to time, and the stock showed every evidence of being entirely controlled by the pool. The assumption was promptly drawn that a rupture had occurred in the pool and its holdings were thrown into the market for what they would bring.

Causes Firm's Failure.

It was reported on the floor of the stock exchange that the failure of La-throp, Haskins & Co. had been caused by the sharp decline in the stock. While the decline was in progress the general list was very weak. Prices broke all around, in the stock market in sympathy with the collapse in Hocking Coal, which reached 53¼ points. A service also will be maintained from Hamburg to Cologne

The craft will be 984 feet in length and 85 feet in diameter and will be driven by motors. News of the enterprise developed through visits which Zeppelin's chief engineer, Colsmann, made to Hamburg and to this city, where on Monday he discussed with the mayor of Cologne arrangements for the construction of landing and departure

It is planned to employ four motors in ordinary weather, reserving the others for use in case those in service become overheated or get out of order, or in the further event of a storm necessitating the development of greater power. It is learned that the ministry of war has not contracted for more of Zeppe-lin's dirigibles, but has decided to wait upon the development of aeroplanes.

with a sense of satisfaction. But, as a matter of fact, Fate, if she had a hand in it all, had not settled that the ways of these two young men should part. They were destined to meet that night at Mrs. Matthieson's dinner table.

Mrs. Matthieson was a widow. Her husband had been nephew and heir-presumptive to the Duke of Castletree, a gentleman who had been three times married, but had never been blessed with more family than one daughter. But the duke still lived to laugh at his great-nephew with the threat that he would marry a fourth wife and have s son yet.

Mrs. Matthieson took, or professed to take, this threat seriously, and would fain have urged her son to work hard at a profession and forget the possible prospect of a dukedom. But young Kenneth Matthieson rather pertinently pointed out that his great -uncle treated him not merely as an heir, but as a son. Mrs. Matthieson's only other child was a daughter. Agnes Matthieson was world that, were it not for the fear that several years older than her brother, and suspicion of having made away with her thought herself very much cleverer. ## WORTH KNOWING.

Simple Remedy That Anyone Car Prepare at Home.

Most people are more or less subject to coughs and colds. A simple remedy that will break up a cold quickly and cure any cough that is curable is made by mixing two ounces of Glycerine, a half-ounce of Virgin Oil of Pine compound pure and eight ounces of pure Whisky. You can get these in any good drug store and easily mix them in a large bottle. The mixture is highly recommended by the Leach Chemical Co. of Cincinnati, who prepare the genuine Virgin Oil of Pine compound pure for dispensing.

## A WOMAN'S CATCH.

She Lands a Big Salmon in Seventeen

Minutes. To Lady Edith Trotter belongs the distinction of having captured the biggest salmon of the season, on the Sprouston water of the Tweed. It turned the scale at 48½ pounds and was landed in seventeen minutes. The fish was 50 inches in length and 27 inches in with the season or for was 50 inches in length and 27 inches in girth. "No larger fish this season or for many seasons has been recorded as caught, with rod and line in British waters," said Mr. Marston, editor of the Fishing Gazette. "To take so large a fish is certainly a great achievemnt for a lady. The time in which it was taken is also remarkable. The roughand-ready rule for large fish is a pound a minute. A forty-eight-pound fish might have taken another half-hour to land."

## WITCHCRAFT IN INDIA.

Belief So Strong That Human Sacrifice Is Still Practiced.

The belief in witchcraft is still fast rooted in parts of India, and the unfortunate persons suspected of the black art are not uncommonly done to death. In Bengal last year several cases of he kind came before the courts. In the Sonthal Parganahs a woman was murdered by her mother and brother, who believed her to be a witch. In Palamau a man was killed, as the villagers held that he was a wizard.

another case two women were murdered

caused the death of three children by cholera. Human sacrifice also is still practiced among the uncivilized tribes

of Bengal. In Angul some Khonds sacrificed a girl as a propiatory offering against cholera, and in Palamau aboy was enticed into the jungle and killed as a sacrifice. There can be little doubt that any relaxation of vigilance would result in a serious increase of witch killing and human sacrifices.—Allahabad Pioneer.

# NOW CONVICT NO. 686

FORMER BANKER A PRISONER AT FT. LEAVENWORTH.

PASSES EASY NIGHT ON TRAIN FROM CHICAGO.

LEAVENWORTH, Kan., Jan. 19 .-John R. Walsh, the convicted Chicago banker, arrived at the federal penitentiary here at 12:06 today and began serving his sentence of five years. His number as a convict will be 6864.

Walsh passed an easy night on the train between Chicago and Kansas City. He retired at 11 o'clock after having chatted, laughed and joked with friends for several hours. He ate two lunches on the train before retiring. At 7 a. m. Walsh was out of bed, jesting with the other members of his party. He ate a hearty breakfast.

hearty breakfast.

As the party of officials and relatives that accompanied Mr. Walsh was alighting from the Chicago train in Kansas City, Mo., a newspaper photographer who had raised his camera to take a snapshot of the traveler, was attacked by John W. Walsh, son of the prisoner.

Young Mr. Walsh had preceded his father and was carrying a heavy suit case. The son the moment he caught sight of the photographer, darted toward him. Swinging the suitcase with surprishim. Swinging the suitcase with surpris-ing force, the young Chicagoan mowed down the newspaperman, driving him and the picture machine in a bunch against the side of a Pullman sleeper.

The photographer fell in a heap and his camera landed beneath the car half a dozen feet away. The elder Walsh gave a hurried glance at his son and then at the prostrate man, while the officers and others in the party gave vent to a hearty laugh. Only a few persons knew of the arrival of the ex-banker, and there were less than a half dozen people close enough at hand to witness the incident.

## DEATH CALLS EDITOR.

## MINERS' UNION SPLITS.

President Lewis' Faction Is Charged with Padding National Convention Now in Session at Kansas City.

INDIANAPOLIS, Ind., Jan. 19 .- The charge that the national administration of the United Mine Workers of North L. Lewis, had attempted to "pack" the convention of the organization now in session in this city, so that certain policies or interests could be forwarded,

brought on a bitter factional fight on the floor of the convention today. The anti-Lewis element, led by Frank J. Hayes, John H. Walker and Duncan McDonald of Illinois, and William Green of Ohio, succeeded at the opening of today's session in suspending the rules for the introduction of a motion by Hayes that the salaries of the national organizers should be suspended while they are in attendance in the convention as repre sentatives of local unions.

A long series of heated speeches on both sides of the question followed and President Lewis announced that he would be heard in his defense before the matter was finally put to vote.

So far was this desire for secrecy carried that the three attending physicians left their automobiles at the foot of the slope leading to her palace, and went on foot, entering as unostentatiously as possible. However, when three months had passed since she had been seen at all uspicion was aroused, and it was then known that she was afflicted with the most painful form of neuralgia, which legan in her shoulder and ran up into the head, causing such excruciating agony that her head was wrapped constantly in cotton wool. At length she recovered sufficiently to leave Rome, and luring the summer she was much better, but again now at Stupinigi, her castle in the north, she has had a return of the pain, and although little is made of it, those who saw her suffer before know that again her strength has been taxed to the uttermost. ## UNCOOKED FOOD.

A Banquet in the Rooms cf a Boston

Uncooked food does not begin to taste quite as raw as it sounds when served as it was by Mr. and Mrs. Isidor Phillips at their uncooked food banquet in the Twentieth Century club room, Bos-ton. It was not to introduce a new form of social entertainment that this Brookline couple gave a close-to-nature meal, but to help along the cause of simple diet, dealing the butcher, the baker and the canned goods maker a swift blow in the cash register. It served also to aid the furtherance of the peace movement, for the money received from tickets was turned over to the American Peace se ciety. The menu was as follows:

Bananas in Pods, Lemon Sauce,
Cream of Pea.
Unfired Bread. Sweet Butter.
Combination Nut Butter.
Cold Slaw, Twentieth Century Style,
Ripe Olives. Stuffed Celery.
Orange Eggs.
Combination Pineapple Salad.
Protoid Nuts.
Jellied Eggs in Watercress Nests.
Whipped Ice Cream.
Fruit and Nut Cake.
Grape Juice. Confections.

Grape Juice. Confections. Apple Juice.
Cream Cheese. Fruit Wafers,
Banana Coffee.

"Bananas in pods" were the banana ruit rolled into balls and laid upon the half of a banana skin and covered with lemon sauce, or juice, to be exact. No more delicious start could be devised. and, of course, they slipped down very speedily.

Next came cream of pea soup, which did not taste any different from other soups except that it had a Cook-Peary Unfired bread, which looked and tasted

good dear like caked oatmeal; sweet utter or butter without salt, and combination nut butter, not unfamiliar al-ready, were put before the diners at the same time.
Ripe olives and protoid nuts were

handy at all times, and stuffed cheese mingled with nuts in the concavity of the celery stick was always available. Cold slaw, Twentieth century style,

was, as might be expected, finely chopped cabbage. Orange eggs! If you have not tried 'em, don't put it off. Just beat up an egg and add orange juice and you have something you'll want many times again. The "jellied eggs in watercress nests" was fearfully gelatinous. Something like tion as to cost makes the cost to probled in a "nest" of watercress. It had a mission of its own. It was timed to a second. Jellied eggs after combination of \$12.50 per acre, leaving a balance of \$12.50 per acre. The \$7.50 carries pineapple salad and protoid nut is in-disputable vegetarian etiquette. Its po-sition, a little over half way down the menu, has never been contested by either stuffed celery or orange eggs.

prize-winning exhibit being 13,170 words on the back of an ordinary postal card. Mr. Farwell's work does not compare in minuteness with that of Rila Kittredge of Belfast, Me., who died recently at the age of 92 years, he having written 46,000 words on a postal card of the ordinary size. To crowd the Lord's Prayer eight times upon a space no larger than a 5-cent piece was easy for Rila Kittredge. He wrote the whole of the New testament, over 181,000 words, on four ordinary postal cards, and put one of President McKinley's messages on one postal card. All of Mr. Kittredge's work was done with an ordinary steel pen, and at the age of 87 years he did some of his very best examples, having at that time very best examples, having at that time a clear eye and a steady hand. He never used magnifying glasses or any other aid, wearing ordinary spectacles bought in a local jeweler's shop.

## A Sealed Legacy.

A mysterious legacy has been bequeathed by Prince Rudolph Liechen-stein, First Lord Chamberlain of the Imperial Court, Vienna, who died some months ago. It is in the form of a case of documents securely sealed, but supposed to be of great historic interest, and it was left to the Vienna Academy of Science. of Science. In announcing the legacy the president, Prof. Suss, said there was a stipulation to the effect that the seals were not to be broken for fifty years. So not be satisfied on the subject until the

## A Prince on the Stage.

Prince Edward of Wales was one of Sir Joseph Porter's sisters and cousins and aunts in a performance of Gilbert and Sullivan's "H. M. S. Pinaforte," which was given by the officers, masters and cadets in the great hall of the Britannia Royal Naval college, at Dartmouth, England. The young prince wore a dainty costumes which was designed mouth, England. The young prince wore a dainty costumes which was designed for him by Mrs. Napier, wife of Capt. T. D. W. Napier, R. N., and entered thoroughly into the spirit of the performance. He was received with much ipplause.

## Nuns and Monks Evicted

Having become impatient of the delay in the fulfillment of the promises made by the Turkish commission and the Greek orthodox synod, the Arab natives of Jerusalem recently raided nine convents in the city, evicted the monks and nuns dwelling therein, and occupied them again with their wives and children. The troops arrived in the dren. The troops arrived in time to prevent them from entering the tenth and largest of the convents.

## 90,000 AMERICAN SETTLERS GO TO CANADA.

The Year 1909 Has Shown an Increase of Over Eighty Per Cent in American Settlement.

Recent advices from Canada, our next door neighbor, the neighborly country across the boundary line, are that upwards of ninety thousand settlers from the United States went into Western Canada during the past year, most of them for the purpose of taking up and settling upon the vacant lands, 160 acres of which are given free by the government, and lands adjoining held by railway and land companies are selling at from nine to fifteen and twenty dollars per acre. Even if thirty or forty dollars per acre were paid, the price would then be low, as the lands produce wonderfully, and at these higher figures there is a large interest on the money and labor invested. The ninety thousand settlers of this year, followed about sixty thousand last year, and for several years the figures have been running into these large figures. There must be a reason for it. It may be found in the single phrase, "They are satisfied." Nothing attracts people more than the success of others, and the news of this reaching other thousands causes them to investigate. The investigation in this case is always satisfactory. The splendid land of Iowa, of Indiana, of Nebraska, Kansas, Minnesota, Wisconsin, Michigan, Ohio and other states has risen to a high value, and it is worth every dollar asked for it. But there is not room now for all on these lands. With the ever increasing demand for grain there comes the ever increasing demand for land. Canada is the only country on the continent in a position to supply it. Land there that costs, say, \$15 an acre, produces on a reasonable calculation twentyfive bushels of wheat to the acre, or about \$20. The most liberal calculagood wages for the farmer, and all other conceivable contingencies. With conditions like this, covering the entire area of about 500,000 square miles, "Whipped ice cream" had a recognizable and familiar look, but lacked flavoring. Fruit and nut cake was apparently a very tightly compressed bunch of figs last year. Canadian government agencies at different points in the Union are always ready to give information regarding the free homestead lands, ready to advise the settler as to the districts which would suit him best.

# Inswer! His Diloktim

When shown positive and reliable proof that a certain remedy had cured numerous cases of female ills, wouldn't any sensible woman conclude that the same remedy would also benefit her if suffering with the same trouble?

Here are two letters which prove the efficiency of Lydia E. Pinkham's Vegetable Compound.

Fitchville, Ohio.- "My daughter was all run down, suffered from pains in her side, head and limbs, and could walk but a short distance at a time. She came very near having nervous prostration, had begun to cough a good deal, and seemed melancholy by spells. She tried two doctors but got little help. Since taking Lydia E. Pinkham's Vegetable Compound, Blood Purifier and Liver Pills she has improved so much that she feels and looks like another girl."—Mrs. C. Cole, Fitchville, Ohio. Irasburg, Vermont.-"I feel it my duty to

say a few words in praise of your medicine. When I began taking it I had been very sick with kidney and bladder troubles and nervous prostration. I am now taking the sixth bottle of Lydia E. Pinkham's Vegetable Compound and find myself greatly improved. My friends who call to see me have noticed a great change." - Mrs. A. H. Sanborn, Irasburg, Vermont.

We will pay a handsome reward to any person who will prove to us that these letters are not genuine and truthful -or that either of these women were paid in any way for their testimonials, or that the letters are published without their permission, or that the original letter from each did not come to us entirely unsolicited.

What more proof can any one ask?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## Calf Cholera

Calf Cholera is characterized by an unnatural increased action of the bowels, the trouble usually originating from some derangement of the digestive organs. Indigestion often results from inactivity of the bowels, improper feeding, or from being improperly housed.

The activity of the digestive organs can be greatly increased by properly exercising the animals and giving them plenty of fresh air and sunlight.

When the digestive organs cease to do their natural duty the calf is subject to diarrhoea or scours, which at this stage is not infectious but later on the germs may propogate and multiply, causing the animal to become afflicted with an infectious disease, which is commonly called scours in calves but properly called Calf Cholera.

Calf Cholera differs from diarrhoea in the full grown animal, taking the form of an infectious, intestinal catarrah which is of a far more serious nature than diarrhoea usually appearing suddenly in young calves and in many instances causing death.

Owing to the fact that this is a germ disease, it is very important that the calf has none of the germs made his regular call here Wed- in its system before it is born and for this reason proper care and attention should be given the mother while she is pregnant.
