ROW OVER NAME.

It Separates the "Pa" and "Ma" of the Innocent Cause of It.

What's in a name? Oh, a great deal. For instance, a disagreement in church that prevented a christening, the breaking up of a home after many years of married life, a suit by the wife for separate maintenance and an order to her husband to pay her \$60 a week. These are a few of the things that grew out of the problem of choosing a name for the 16-year-old son of Mr. and Mrs. Frank H. Barr of Summit, N. J. The boy had never been christened and last summer all arrangements were made for the event. When the family party arrived at the church, Mr. Barr, who is president of the Barr-Thaw-Frazer company of Hoboken, suggested the last name of his sister by marriage. Mrs. Barr ob-jected, it is said, and, according to reports, the parents of the boy quarreled on the way home, the disagreement being the first step toward their final parting several months ago. Vice Chancellor Howell in Newark signed the order directing Mr. Barr to pay his wife \$60 a week for her separate maintenance. She lives in a \$25,000 house in Summit, which she owns, and the court intimated that the order might be changed if she did not move into a less pretentious home. The court seemed to hint also that the expense of maintaining such a house had caused some of the trouble between husband and wife.-New York American.

A BOY'S ALLOWANCE.

His Uncle Asks the Court to Fix It at \$6500 a Year.

Does a boy of 15 need an allowance of \$6500 a year? The question was raised in the supreme court yesterday when Mortimer M. Singer filed a petition asking that his ward, Robert A. Chambers, 15 years old, be granted a personal allowance of \$6500 annually from the estate inherited from his mother and father. Furthermore, Master Chambers desires to purchase and maintain two borses, with harness, livery and a tiny brougham, to which he had grown at-

tached during the lifetime of his parents.

The boy's father died on February 7 of last year, and his mother's death occurred on November 10. Robert Chambers, the father, left Robert, Jr., by will personal property valued at \$95,000, several valuable lots in Trenton, N. J., and a farm at Newton, N. J. The income from this property amounts to \$5700 a year. The mother, who was Miss Josephine Blanche Singer, a member of the Singer sewing machine family, willed her son an estate which brings in annually about \$30,000. The combined incomes, therefore, amount to \$35,000 a year. Mr. Singer, the guardian, who is a Mr. Singer, the guardian, who is a brother of Robert's mother, explained in court that "young Chambers should have at least \$6500 a year to enable him to maintain his station in life." He explained further that the boy had been reared in luxury.—New York American.

BARES RAIL STOCK OWNERSHIP. Comptroller Says Union Pacific Holds \$32,900,000 Illinois Central.

NEW YORK, March 9. - William Mahl, comptroller of the Union Pacific railroad, was the final witness called Tuesday before adjournment was taken in another phase of the complicated legal battle of the government to dissolve the Union Pacific-Southern Pacific merger. Adjournment was taken until March 28, at which time the defense may put in ad-

ditional testimony if desired.
Statements submitted by Mr. Mahl showed that the Union Pacific held \$23,-700,000 of the stock in the Illinois Cen tral railroad and owned 99.93 per cent. of the stock of the Railroad Securities company, which in turn owns \$9,200,000 of Illinois Central stock, making the stock in this road controlled by the Union Pacific an aggregate of \$32,900,

The holdings of Chicago and Northwestern, held in the name of the Oregon Short Line, he testified, have increased from \$2,572,000 to \$4,750,000, and the New York Central Holdings also in the name of the Oregon Short line, from \$14,285,745 to \$17,857,125. There had been no change in the stock ownership by the Union Pacific in the Chicago & Alton or the Baltimore and Ohio.

It appeared that at the present time the Union Pacific owns \$126,610,000 of the stock of the Southern Pacific, out of a total of \$272,672,205, or 46.40 per

HEBREW INSTITUTE BURNS.

Chicago Jews Lost Building Once Sacred to Nuns.

CHICAGO, Ill., March 9 .- The main building of the Chicago Hebrew insti-tute, West Taylor and Lytle streets, was destroyed by fire Tuesday. The struc-ture for many years was the Convent of the Sacred Heart, where hundreds of Chicago's most prominent women had been students. The alarm was turned in at 7:40 a. m., and within an hour the long building of additions and halls, four stories high, was a ruin. Twenty-five engine companies fought the blaze, but its spread was so rapid their efforts were fruitless, except in saving the two annex buildings. The loss is estimated at from \$75,000

to \$100,000, with insurance of \$40,000.

DIVORCE FOR ASQUITHS.

Wife of British Premier Will Seek Separation.

vorite conversational topic in London so

It is now almost certain that Asquith will resign the leadership of the Liberal party and retire as prime minister. He will be made a peer by King Edward, if the present programme is carried out, and find a scope for his ability in other channels.

The very fact that Asquith is to be made a peer would delay any legal steps that might be taken toward a separation, Mrs. Asquith being ambitious to become a peeress. She is said to be all ready to leave for the continent to seek a judicial separation, but will probably

wait for the title.

The wife's fondness for Maud Allan the dancer, has been the cause of more than one family squabble. Miss Allan has a great influence over the premier's wife and has had her social support despite a circle of frowns.

One of the things it is planned that Col. Roosevelt shall do upon his return is that he shall make a speaking tour across the country in behalf of the party and the Taft administration.

Mail Long Overdue.

Sixty-eight letters and sixty-nine postards mailed four years ago were delivered recently in Paterson, N. J., to the ersons to whom they were addressed. The mail matter was found in two pack ages in one of the lockers at the post-office, and when Postmaster Pillitt communicated with the authorities at Wash ington he was instructed to have it de-livered at once. The discovery of the overdue letters and postcards came about through the request of a substitute carrier for a locker of his own. He was given a locker formerly used by John J. Merrey, a carrier who was dismissed last

December for neglect of duty. In cleaning out the locker the undelivered mail matter was found, and a reference to the records showed that it was Merrey's business to make the deliveries. No complaint was ever made by the businessmen or private citizens about the non-delivery of the mail.

President Taft Pleads for University Education of Blacks.

WASHINGTON, D. C., March 9 .-President Taft, in an address to an audience of several hundred negroes here Tuesday night at a rally in the interest of Wilberforce university of Ohio, made a strong plea for university education for the negro.

"The negro race is a great and growing race," said the President. "At the close of the war there were in this country 4,000,000 negroes: today there are 10,000,000, a race with whose history the United States has been bound and with whose progress and improvement it always must be bound and united. "While the white people and the ne-groes live contentedly together in this country, the negro race must have highly

educated leaders who must come from a highly educated class. We hear many criticisms of higher education of the negro, and many say that money spent on university education of the negro is "I do not agree with these. French Official Confesses and Other

Frauds May Be Unearthed. PARIS, March 9 .- M. Duez, judicial trustee to the tribunal of the Seine and formerly liquidator of the properties of the dispossessed religious congregations which were dissolved by the law of 1901, has been arrested on a charge of embezzling \$1,000,000, of which \$800, 000 belonged to the congregations and \$200,000 to the common law affairs.

After the arrest M. Duez confessed his frauds. He said he had lost the money in stock speculations. He was removed from the post of liquidator some months ago owing to the manner in which the property was administered, but he undertook to clear himself. The matter had been discussed frequently in the Senate.

It is rumored that other revelations of misappropriations of the funds of the congregations are impending. TOWS NINEY-FOOT WHALE TO PORT Pilot Boat Has Struggle, but Finally

As soon as she realized her mistake she ran for medical aid and her promptness probably will save her life.

But no sleep came to Aubrev Montresor as he lav back on his cushion and gazed out into the dusk on the shadowy landscape flying by, and inhaled the sweet fragrance that floated into the carriage from the blossom-laden acacias that bordered the railway line. The more he dwelt on his unexpected encounter with Langrishe the yonug men were what they had been on more did the dull ache that had possessed him for the last three years intensify to acute pain, and when at last he fell into an uncomfortable doze, his

years, and I believe it was his surname. "We went on by train from Liverpool to London. On the way to the hotel where I had telegraphed for rooms it occurred to me that I wanted a new comb, and that I might as well buy it at once. When I went into the hairdresser's shop to buy that comb I had no thought at all of giving Masham the slip. But when I came out to find my cab I saw my maid absorbed in the street sights, oblivious of my existence, and the driver engaged in discourse with a fellow Jehu. I failed immediately to attract his attention, and then the

thought struck me, 'Now is my time!' "So I quietly walked away along Bond street, and, thanks to my study of the London map, I was able to walk along as if I had lived all my life in London, and so found my way to the little house which my fellow conspirators had taken for me in Pimlico. My housekeeper and parlormaid were awaiting me. There was some fear that I might have been seen arriving, but time proved this fear to be unfounded.

"Then, when the advertisement for Denzilia Lavenham had been several times repeated, I made my appearance as Denzil Caterhouse. You know I always could assume any voice and almost any appearance I pleased; but I was none the less careful to show myself as little as possible. When, for the sheer fun of the thing, I admitted Alick Langrishe to an interview I confess I was a little uneasy as to the result; but I need not have been. He had no suspicion.

"For a long time I and my friends enjoyed ourselves hugely. We did all the work of the house ourselves, and I think did it very creditably. As the months went on, however, we began to be a little bored by the monotony of the parts we played. We therefore meditated a new departure.

"My faithful parlormaid, with many ecautions, procured me a new disguise. This time I took the part of a young lady who, having lost all her money and compelled to earn her own living. In this character I took rooms in an artisan's tenement, and from that abode advertised for pupils in the art of miniaor giving lessons in miniature painting.

'My advertisement was answered by a Mrs. Matthieson, who contentedly actinental to her inquiries. From this time the game was one of which its boldness alone saved from ruin. During my absences my housekeeper and parlormaid made frequent appearances in London and renewed their acquaintance with their fellow passengers. The only precaution they observed was that they professed not to be staying in London. They always came up from the country, and for the day.

"One morning, meeting one of their male steamer friends in the park. Miss Grier, for such was the name by which they were known, remarked how much she would like to see Marlingham. Mrs. Grier was a discreet chaperon who effaced herself as much as she could while the maiden and the gentleman flirted.

"The next day I found I had been recognized. Alick Langrishe came, with another young man, who was enthusiastically eager to play the amateur detective in search of Denzilia Lavenham, to see me. Thinking something might come of

TALKS ODD LANGUAGE.

FOND DU LAC, Wis., March 5 .-When Sheriff W. J. Seeve arrested Victor LaMarr for using abusive language to Michael Adler, he found that his prisoner spoke a strange tongue and was practically a hermit. LaMarr lives on a twenty-acre farm east of the city and the interior of his house and barn are covered with queer symbols. There s only one room in the house and this s partly filled with cornstalks that La-Marr uses for fuel. A stove, an old bed and two boxes are the only furniture. The authorities are of the opinion that LaMarr is insane. He recently tried to buy a gun with which to shoot the windows out of his house. He will be examined as to his sanity.

GEN. GRANT'S WOUND.

Youthful Fred D. Is Declared Not to Have Been Hurt in Line of Duty.

February 20 was the forty-seventh anniversary of the day that Maj. Gen. Frederick D. Grant was shot during the siege of Vicksburg-the event which has been the basis of the demand by Vice President Sherman that Gen. Grant be enrolled as a Civil war veteran.

Dr. C. A. Blake of West Brookfield has come out with evidence to show that the wound received by Gen. Grant was not in the line of military duty. The man who handled the rifle which was responsible for the wound, says Dr. Blake, was the late Caleb Perry, for many years a carpenter on the state farm at Bridge-water and prior to that a hunter and

sharpshooters of note.

At the beginning of the siege of Vicksburg Perry was stationed about the regular Union forces on the Mississippi river, with orders to shoot at all persons and craft attempting to pass him without permission. The boy Grant and a companion, according to the story related to Dr. Blake by Perry, were in camp with their parents and went out on excursions, which had nothing to do with duty and which frequently placed them in jeopardy.
On the night of February 20, 1863, so

Perry's story goes, the two boys were out in a canoe, and in returning to camp passed the spot where the sharpshooter lay concealed. Perry said they did not heed his warning to stop, and, after fir-ing in the air, he took aim and wounded young Grant. The next day Perry was called on the carpet, for it had been ascertained by Gen. U. S. Grant that he was the man responsible for the shooting. What threatened to be, if not a court martial, at least a severe lecture, turned into dismissal from headquarters when he exhibited his order to shoot all who passed without heeding his warning. Perry puts Gen. Grant on record as being moved almost to tears when he found that his son had unwittingly strayed into the trap set by Union soldiers for Confederate soldiers, and the outcome of the affair was that Fred got more of a reprimand than had been originally intended for Perry.—Boston Cor. New York Sun.

ANOTHER AMERICAN COUNTESS.

An Italian Nobleman Wins Love of a San Francisco Girl.

A San Francisco girl is to add one more to the long list of American countesses. Miss Alice Meade of that city visited Paris recently to order her trousseau and in this informal way announced her forthcoming marriage to Count Paola Labia, in Venice. Miss Meade is a beautiful girl, well known in European society. The count is tall and dark, and belongs to an old aristocratic family which has produced doges, cardinals and priests famous in the history of the Venetian republic. In addition to his rank, Count Paola is one of the wealthiest men in Italy. The young couple met about eighteen months ago at a reception given at her palace on the Grand canal by Countess Morosini, the noted beauty who has the annual honor of receiving the German Kaiser. Regularly thereafter Count Paola proposed on the first of each month, refusing to take "No" for an answer. Finally he was accepted on February 1. The date of the marriage has not been set. According to the marriage laws of Italy, the bride must produce not only her birth certificate but those of her parents. Miss Meade is now trying to procure these papers from San Francisco, but is not entirely sure that they exist. Just as soon as she proves to the satisfaction of the Italian authorities that she was ever born and that her parents were, the date of the marriage will be announced.

Burdens Lifted From Bad Backs

Weary is the back that bears the burden of kidney ills. There's no rest nor peace for the man or woman who has a bad back. The distress begins in early morning. You feel lame and not refreshed. It's hard to get out of bed. It hurts to stoop to tie your shoes. All day the ache keeps up. Any sudden movement sends a sharp twinge through the back. It is torture to stoop or straighten. At night the sufferer retires to toss and twist and groan. Backache is kidney ache - a throbbing, dull aching in the kidneys. To cure backache you must first cure the kidneys. Plasters or liniments won't do. You must get at the cause, inside.

Doan's Kidney Pills Cure Sick Kidneys

Six Months of Misery Doan's Kidney Pills Brought About a Complete Restoration.

CHARLES EASTER, E. Locust St., Watseka, Ill., says: "In the summer of 1904 I was attacked by pains in the small of my back and as the time passed, the trouble increased until my whole right hip was affected. For six months I could not sit in a chair and I was unable to sleep nights. I lost forty pounds in weight and was so lame and sore that I could not raise my hands to my face. I was languid, had no energy and was bothered by a shortness of breath. During all that time I doctored and used a great amount of medicine but to no avail. Sometimes there was an almost complete retention of the kidney secretions and there was much sediment in them. My wife finally persuaded me to try Doan's Kidney Pills. They gave me such prompt relief that I continued taking them and gradually my condition improved. The trouble with my kidneys was corrected and my aches and pains were removed. I am so grateful for this cure that I cheerfully recommend Doan's Kidney Pills to other persons suffering from kidney complaint." CHARLES EASTER, E. Locust St., Watseka,

HOW TO TELL WHEN THE KID-NEYS ARE DISORDERED

Painful Symptoms-Backache, sideache, pains when stooping or lifting, sudden sharp twinges, rheumatic pains, neuralgia, painful, scanty or too frequent urination, dizzy spells, dropsy.

Urinary Symptoms - Discolored or cloudy urine. Urine that contains sediment. Urine that stains the linen. Painful passages. Blood or shreds in the urine. Let a bottleful of the morning urine stand for 24 hours. If it shows a cloudy or fleecy settling, or a layer of fine grains, like brick-dust, the kidneys are disordered.

Twice-Told Testimony A Wonderful Cure Fully Verified By the Test of Time.

MRS. J. M. BARNHART, 952 N. Jackson St., Frankfert, Ind., says: "Several years ago I was running into Bright's disease. My body bloated a great deal and I had such terrible pains in the small of my back that I could scarcely stand. I rested poorly and the kidney secretions contained a sediment, also being distressing in passage. I tried various preparations but steadily grew worse and when Doan's Kidney Pills were brought to my attention, I procured a supply. The contents of the first box did me so much good that I continued taking the remedy until I was cured. I gave a public statement on July 19, 1906, recommending Doan's Kidney Pills and now I can add that I have had no need of a kidney remedy in over a year.'

ORRIS ROOT.

How It Is Grown and Gathered on the Hills Near Florence.

Most people know that orris root is one of the chief ingredients of violet powder; many others are well acquainted with the strangely shaped pieces of white root, that seems like dried ginger, which gives out the delicate and subtle scent of the violet, and perhaps the privileged few know that it is made from the | bad washouts are reported roots of a kind of iris.

Erratic California Rivers.

The unfortunate situation of settlers in the valleys of San Gabriel and Santa Ana rivers in southern California calls attention to the danger threatening that region in any season of unusual rainfall. The beds of these rivers are as dry as a bone during the greater part of the year, the water being diverted for purposes of irrigation, but in time of flood they often become raging torrents. As the river beds have mostly been choked with deposited sand and silt the course that a flood may take is quite uncertain. It is in fact more likely to cut a new channel through highly improved proper-

ty than to stick to the path assigned on the map.

This is what the San Gabriel river has done in the Los Nietos valley, a fertile alluvial plain studded with valuable or-chards and homes. In fact the course of this river has changed more than once since the American settlement, as the name "old river" and "new river" serve to indicate. Something of the same sort is happening on the upper reaches of the Santa Ana river near Riverside, and even on the lower reaches in Orange county had we should are reached.

In a season of big rainfall in the early '60s the whole valley between Anaheim and the present site of Santa Ana was flooded.—San Francisco Call.

The record for the first month of 1909 is being exceeded by the ratio of applications so far this month. Dr. Bacer attributes the increase to improved facilities for obtaining the papers, but Superintendent Maxwell and Principal Larkin declared recently it was due to the improvement in business. Prosperity always opens up opportunities for the boys and those not committed to the entire course get restless and leave," said Dr. Maxwell. "That is the case right now. The boys are tempted with jobs and go out to help their parents support the house. The high cost of living is an incentive to greater earnings for the family."—New York American.

FOR THE GRIP.

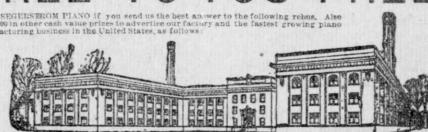

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despond-

The Overland's success is also due to 1,500. Thus has the Overland—after one year's experience—captured the farming states.

It has captured the cities, too. New York City takes 1,000 Overlands this year. Boston takes 500—San Francisco 500—Washington 500—Philadelphia 450.

Our agents have contracted for 20,000 Overlands—for \$24,000,000 worth of Overlands—to supply the demand for this year. It is a 25 H. P. car with a speed of 50 miles an hour.

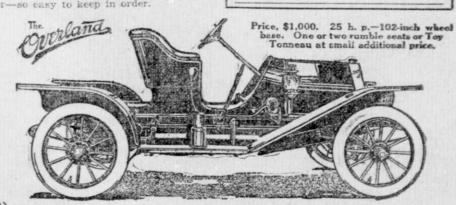

So with the \$1,250, \$1,400 and \$1,500 Overlands. Each offers a fifth more than ever before for the money.

They imagine that the mail carriers must bring them their mail, even though they themselves cannot get to town without walking. ANNUAL STATEMENT OF

PIANO SALES

YEAR OF 1909

For the past three years, I have published annually the names of persons to whom I have sold new upright pianos. Those who remember the previous annual statements, will be able to observe in a comparison herewith that my sales are increasing each year. My sales the past year have been largely in the localities of my previous efforts, which is a silent word of recommendation in my favor, as the persons to whom I made piano sales are thoroughly satisfied with their purchase and inform their neighbors and friends, consequently my sales are considerably more than any other individual representative.

When it is considered that I have no partner, agents or salaried help of any kind, do my own selling, delivering and placing instruments in homes, it does not take a person with a keen mind to reason that I am able to sell cheaper than if I had to meet such expenses. Consequently I am able to save prospective purchasers many dollars on a piano.

Read my 1909 list of purchasers as follows:
