## **GAME FORFEITED** TO KEWASKUM

Slinger Forfeited Game to Locals at Slinger Last Sunday by a Score of 9 to 0. Fond du Lac Drops From League. Port Washington Tomorrow.

STANDING OF THE CLUBS

The locals journeyed to Schleisdecision by the umpire in the 8th Hartford. inning, the score then being 4 to 3 in favor of Kewaskum.

of the doubt.

The score up to the 8th was 4 to 1, when Slinger got lucky and made two singles, scoring 2 runs. With a man on 1st and 3rd they attempted a double steal but the man running from 3rd to home was caught at the plate, the ampire announcing him out, this decision they would not abide by, so the umpire gave them time. After time was up Slinger still refused to play when the umpire gave the locals the game 9 to 0.

Fohey had steam to burn.

The treatment accorded the locals was the rankest ever received, they also refused to pay our boys' expenses, which showed their smallness. It is not because the locals need the money, but the principal of the act from a business standpoint, that the Slinger boys have lost their friendly feeling with the locals. The editor also wishes to recall the statement he made in last week's issue saying that Slinger has a bunch of gentlemen in their ball team. Af- ic by Gates' Harp Orchestra of ter refusing to pay the locals expenses the manager of the local club at once challenged Slinger for Groeschel's South Side Park hall, a \$50 side bet and all gate receipts music by the Gibson's orchestra of for a game to be played on neu- Appleton. tral grounds with a neutral umpire, both teams to line up against each other, man for man, the same as they did at Schleisingerville, Sunday, July 10th. This challenge still holds good, so it is up to the Slinger boys, if they are not quitters, to come to terms. The locals are also anxious to have this game pulled off in the very near future.

Port Washington here Sunday. Fohey pitched rings around De-

Buildings in first class condition, a good well, plenty of water, stream running through the land on two sides. Payments easy. For further particulars inquire at this office or see Robert Mc Cullough, Kewaskum, Wis.

## **CONGRESSMAN WEISSE ENTERS THE RACE AGAIN**

Four Other Candidates Are Out for Seat Which Mr. Weisse Had Announced His Intention to Vacate. Warm Contest May Result.

Congressman Chas. H. Weisse is a candidate to succeed himself as congressman from the Sixth District. He announced his candidacy last Tuesday after the district convention meeting held at Milwaukee. This means that there will be a warm contest in this district for the nomination. There are 4 other candidates for the nomina-

Mayor Michael Burke of Beaver Dam is in the contest to remain

Mayor Clark of Fond du Lac is a candidate and his friends are prepared to make an aggressive campaign for him.

M. K. Reilly of Fond du Lac and

Washington county is strongly in favor of Weisse's renomination. At the Democratic County convention held at West Bend last week Saturday the following resolution was adopted:

Whereas, the Hon. Chas. H. Weisse, the present Democratic representative in Congress of the Sixth District of Wisconsin, has proven himself a constructive legislator, a great power, and an able and fearless champion of the rights of the people and of the principles of the vacancy. Port Washington has one Democratic Party, and an indefatigable worker for the interests of his constituents.

Now therefore, be it resolved that it is the sense of this convention that Hon. Chas. H. Weisse stand as a candidate for re-nomination as congressman from this District at the coming primary election.

Resolved further that a copy of this resolution be forwarded to Hon. Chas. H. Weisse by the Secreary of unis convention.

## Smoking will be More Expensive.

The reduction of the sizes of packages of tobacco and the maintenance of the former price on these same packages will make even smokers notice the additional cost of living.

The exact time of introducing the change in sizes is not as yet definitely known, but it is probable that it will be in the very near future as manufacturers state that as soon as their stock of the old sizes is exhausted, they will begin using smaller sized boxes and packages for the wrapping of their product.

Cigarette boxes in most of the popular brands will be reduced in size so that boxes holding eight cigarettes will be substituted for waukee Sunday after a weeks vis- boxes which formerly held ten. it here with her aunt, Mrs. M. D. The larger packages containing fifteen cigarettes will be substituted for the variety of packages now containing twenty cigarettes.

> The use of the fractional third in measuring ounces of smoking tobacco will be supplanted by fourths so that hereafter a pouch containing one and one-fourth ounces will take the place of the former packages containing one and one-third ounces.

It is said that a new revenue law which becomes effective sometime this month will make the changes necessary.

## Notice.

Notice is hereby given by the undersigned school board of Joint District No. 5 of the Village and Town of Kewaskum that sealed bids will be received up to July 23 Milwaukee in the former's auto to 1910 at 7 P. M. for putting in the school house a new steam furnace. Plans and specifications can be had from any member of the school

Also at the same time there will be received bids for whitewashing the interior of the school house. The board reserves the right to

reject any or all bids. Dated at Kewaskum, Wis., this 13th day of July, 1910.

## SPEAKING OF THE NEXT FIGHT-

Already One Site Is Prominently Mentioned.

THREE YOUTHS HOLD UP THE "KATY" FLYER.

TRAIN ROBBERS ARE FOILED

Crew Slips From Under Muzzles of Revolvers, Regains Cab and Dash Away.

St. Louis. - Cleverness on the part of the engineer prevented three youthful and apparently inexperienced bandits from robbing the Missouri, Kansas & Texas Southwestern flyer, No. 3, near Larimore, about

fifteen miles from St. Louis. Three young men were arrested as suspects and are in jail pending investigation. The police do not believe they are the men wanted and are searching for three others.

The bandits compelled the engineer and fireman, at the points of revolvers, to descend from the cab and go with them to the baggage car to assist them in uncoupling it.

While tinkering about the coupling the engineer and fireman in the darkness managed to glide away from the bandits. The two started on a run for the cab. The bandits soon became aware that the crew was dashing for the cab and opened fire.

The engineer and fireman sprang into the cab, the engineer threw the throttle wide open and dashed away with the train.

Several shots were fired during the attempted hold-up, and the passengers, who filled five coaches, were thrown into a panic. Conductor Walker, who also displayed great coolness in the crisis, devoted his time to calming the passengers.

The train was in the hands of the bandits 40 minutes. For half an hour they tried of their own accord to uncouple the baggage car. It was not until they found themselves unable to do the work that they got the engineer and fireman.

According to the railroad officials here there were thousands of dollars in the baggage car in addition to the mail.

## RELIGIONS TO UNITE

John D. Rockefeller Quotes Letter From Roman Catholic Bishop to Support His Prediction.

Cleveland, O. - John D. Rockefeller, Sr., in an address before the Bible class of the Euclid Avenue Baptist church, prophesied the amalgamation of all the religions of the world. To bear out his statement, he quoted a letter from a Roman Catholic bishop, whose name he did not dis-

"There is more of the spirit of greatest power. People who love him are coming together and they will unite. Regardless of the slight difference due to many religious organizations, the same spirit is there and the motive will accomplish as much."

## BEGINS AN INFAMOUS RULE

Nicaragua Adopts Reconcentration Policy Under Which, for Years, Spain Governed Cuba.

Washington.-The state department is informed that Nicaragua has begun the reconcentration policy which made Spanish rule in Cuba so infamous.

The department has the text of an the department of Granada, which commands "all the inhabitants of the Mombacko Ridge to assemble within forty or fifty more of the men were twenty-four hours in Granada, without distinction of age or sex."

## RAIL LINES ARE PROSPEROUS

Roads Are Placing Enormous Orders for Equipment-Dividends Show Big Increase.

New York.-Continued evidences of the great prosperity that is surging all over the country are given in the enormous orders placed within the last few days by the large railroads of the country for additional equipment.

No such tremendous sums of money have ever been spent by the railroads, it is said, except in the initial construction of a road, or in a large extension. The Baltimore & Ohio Railroad company alone has appropriated \$7,000,000 for new equipment.

Not merely in money spent for improvements of facilities, but in the declaring of dividends by the railroads lies the proof that the good times which returned a year or more ago have in no way diminished.

Since January 1 eighty-six railroads

and industrial corporations in this country have increased their disbursements or declared initial or resumed dividends to the extent of \$57.625,000 a year. Twenty-three of these corporations are railroads, their increase alone representing \$15,000,000. Up to June 1 of this year the aggregate dividend payments from the eightyamounted to about \$298,000,000, which is an increase of about \$46,230,000 over the first five months of last year.

## CALL RATES CONFISCATORY

Pullman Company Lawyer Says Commission's Order Means Bankruptcy for Big Concern.

Chicago.-Contending that the interstate commerce commission's order for a reduction of sleeping car rates is confiscatory, attorneys representing the Pullman company and the railroads appeared in the United States circuit court to argue for a rehearing of their petition for an injunction to prevent the order being put into ef-

An injunction was previously denied them, but they seek to reopen the case on the ground that they have

new facts to present. Attorney Fernald of the Pullman company told the court that the new schedule of rates would ultimately mean bankruptcy for the sleeping car

It would mean a loss of \$116,000 annually on fares between St. Paul and the points of Fargo, N. D., and Seattle, Wash., alone, he said.

The reduction from St. Paul to Fargo is 40 per cent. on upper berths and 25 per cent. on lower, and from Christ in the world today than ever St. Paul to Seattle the fare is lowered before," said the oil king. "It is the 29 per cent. on upper and 6 2-3 per cent. on lower.

## ESTRADANS WIN NAVAL FIGHT

Repulse Surprise Attack by Two Madriz Gunboats on Town on Pearl Lagoon.

Bluefields.-The combined defense of a force of American planters and merchants and the Estrada soldiers successfully balked an attack against Pearl Lagoon Saturday when the Madriz gunboat San Jacinto, backed up by the gunboat Venus, directed a heavy fire into the center of the town.

THREE YOUTHS HOLD UP THE "KATY" FLYER.

Crew Slips From Under Muzzles of Revolvers, Regains Cab and Dash Away.

St. Louis. - Cleverness on the part of the engineer prevented three youthful and apparently inexperienced bandits from robbing the Missouri, Kansas & Texas Southwestern flyer, No. 3, near Larimore, about fifteen miles from St. Louis.

Three young men were arrested as suspects and are in jail pending investigation. The police do not believe they are the men wanted and are searching for three others.

The bandits compelled the engineer and fireman, at the points of revolvers, to descend from the cab and go with them to the baggage car to assist them in uncoupling it.

While tinkering about the coupling the engineer and fireman in the darkness managed to glide away from the bandits. The two started on a run for the cab. The bandits soon became aware that the crew was dashing for the cab and opened fire.

The engineer and fireman sprang into the cab, the engineer threw the throttle wide open and dashed away with the train.

Several shots were fired during the attempted hold-up, and the passengers, who filled five coaches, were thrown into a panic. Conductor Walker, who also displayed great coolness in the crisis, devoted his time to calming the passengers.

The train was in the hands of the bandits 40 minutes. For half an hour they tried of their own accord to uncouple the baggage car. It was not until they found themselves unable to do the work that they got the engineer and fireman.

According to the railroad officials here there were thousands of dollars in the baggage car in addition to the

## RELIGIONS TO UNITE

John D. Rockefeller Quotes Letter From Roman Catholic Bishop to Support His Prediction.

Cleveland, O. - John D. Rockefeller, Sr., in an address before the Bible class of the Euclid Avenue Baptist church, prophesied the amalgamation of all the religions of the world. To bear out his statement, he quoted a letter from a Roman Catholic bishop, whose name he did not dis-

"There is more of the spirit of greatest power. People who love him are coming together and they will unite. Regardless of the slight difference due to many religious organizations, the same spirit is there and the motive will accomplish as much."

## TRAIN ROBBERS ARE FOILED RAIL LINES ARE PROSPEROUS

Roads Are Placing Enormous Orders for Equipment-Dividends Show Big Increase.

New York.-Continued evidences of the great prosperity that is surging all over the country are given in the enormous orders placed within the last few days by the large railroads of the country for additional equipment.

No such tremendous sums of money have ever been spent by the railroads, it is said, except in the initial construction of a road, or in a large extension. The Baltimore & Ohio Railroad company alone has appropriated \$7,000,000 for new equipment.

Not merely in money spent for improvements of facilities, but in the declaring of dividends by the railroads lies the proof that the good times which returned a year or more ago have in no way diminished.

Since January 1 eighty-six railroads and industrial corporations in this country have increased their disbursements or declared initial or resumed dividends to the extent of \$57,625,000 a year. Twenty-three of these corporations are railroads, their increase alone representing \$15,000,000. Up to June 1 of this year the aggregate dividend payments from the eightysix corporations in question have amounted to about \$298,000,000, which is an increase of about \$46,230,000 over the first five months of last year.

## CALL RATES CONFISCATORY

Pullman Company Lawyer Says Commission's Order Means Bankruptcy for Big Concern.

Chicago.-Contending that the interstate commerce commission's order for a reduction of sleeping car rates is confiscatory, attorneys representing the Pullman company and the railroads appeared in the United States circuit court to argue for a rehearing of their petition for an injunction to prevent the order being put into ef-

An injunction was previously denied them, but they seek to reopen the case on the ground that they have

new facts to present. Attorney Fernald of the Pullman company told the court that the new schedule of rates would ultimately mean bankruptcy for the sleeping car companies.

It would mean a loss of \$116,000 an nually on fares between St. Paul and the points of Fargo, N. D., and Seattle, Wash., alone, he said.

The reduction from St. Paul to Fargo is 40 per cent. on upper berths and 25 per cent. on lower, and from Christ in the world today than ever | St. Paul to Seattle the fare is lowered before," said the oil king. "It is the 29 per cent. on upper and 6 2-3 per cent. on lower.

GATHER IN ALHAMBRA THEATER, EXPRESS FULL CONFIDENCE IN COMING ELECTION.

### FLAY THE REPUBLICAN PARTY

Successful Opponent of Years Becomes the Target for Oratorical Sarcasm and Argumentative Opposition. Gov. Folk Not Here.

Milwaukee.—The morning session of the Democratic state convention the express provision that such inwas devoted to the assembling of the various districts throughout the state for the purpose of electing representatives to the several state committees and for settling some of the more vital questions of the convention.

The committees as selected in the various district caucuses were announced as follows:

ON RESOLUTIONS. ON RESOLUTIONS.

First district—Thomas M. Kearney, Racine.
Second—H. C. Truesdell, Green Lake.
Third—W. C. Graves, Viroqua.
Fourth—J. L. O'Connor, Milwaukee.
Fifth—James H. Stover, Milwaukee.
Sixth—H. W. Bolens, Ozaukee.
Sixth—H. W. Bolens, Ozaukee.
Seventh—Paul W. Mahoney, La Crosse.
Eighth—J. E. McMullen, Calumet.
Ninth—G. R. Hustings, Kaukauna.
Tenth—L. J. Nash, Ward.
Eleventh—T. J. Cunningham, Chippewa.

ON CREDENTIALS. First district—Judge John C. Slater, Kenosha.
Second—Alexander Buchanan, Jefferson.
Third—W. W. Gliman, Boscobel.
Fourth—M. W. Kalaher, Milwaukee.
Fifth—George Grunnell, Waukesha.
Sixth—Chris Pickart, Fond du Lac.
Seventh—J. B. Salker, Clark.
Eighth—W. C. Kimball, Winnebago.
Ninth—Joseph H. Ray, Kewaunee.
Tenth—A. D. McDonald, Ashland.
Eigenth—A. J. Kinney, Hudson.

ON PERMANENT ORGANIZATION First district—Judge J. B. Simpson, LaFayette. Second—J. E. Jones, Columbia.
Third—J. O'Neill, Waukesha.
Fourth—A. J. Einmerman, Milwaukee.
Fifth—C. E. Armin, Waukesha.
Sixth—Thomas O'Meara, Washington county.
Seventh—A. C. Smith, Pepin.
Eighth—S. W. Randolph, Manitowoc.
Ninth—Joseph Martin, Green Bay.
Tenth—F. A. Wolf, Shawano.
Eleventh—J. R. Hawley, River Falls. STATE CENTRAL COMMITTEE.

Second district— Third—E. L. Lucknow, Baraboo; T. L. Cleary. Sixth—George Thiesen, Dodge county; William Yoakum, Ozaukee county. Eighth-Fred D. Rawson, Waushara.

enth-John W. Walsh, Washburn; A. J. Kin-

### STATE TICKET.

United States Senator-Burt Williams, Ashland. For Governor-A. J. Schmitz, Mil-

waukee. For Lieutenant Governor-M. J. Scholey, Kenosha; H. W. Bolens, Port Washington.

Secretary of State-George Theisen, Dodge county; John M. Callahan, Oshkosh.

State Treasurer-E. C. Zimmerman, Wausau.

Insurance Commissioner-John A. Haselwood, Jefferson.

Attorney General-John F. Doher-

ty, La Crosse. Beginning early with the district

-caucuses, the convention was called to order at 1 o'clock. Temporary Chairman M. K. Reilly of Fond du Lac made his speech and appointed the chairmen of the various committees and the committees had retired for deliberation, all before 3 o'clock. Reconvening at 4:30, William F. Wolfe of La Crosse was introduced as the permanent chairman and Joseph M. Crowley as the permanent secretary. Mr. Wolfe made his address and other business was cleared away so that the convention could adjourn at 6 o'clock to reconvene at 7:30 o'clock to adopt a platform and finish its business. Temporary Chairman Reilly ap-

pointed as chairman of the three important committees the following well known Democrats: Resolutions, James Martin, Green Bay; credentials, George Herzog, Racine; organization, J. F. La Mont, Wausau. Congressman C. W. Weisse of the Sixth district, the only Democratic congressman from Wisconsin, announced positively after the adjournment of the convention that he would again be a candidate for congress. "I shall accept the call of my constituents," was Mr. Weisse's brief statement. It is understood the other announced Democratic candidates

largely to the discussion of the plat- eral appearance of the beet crop. form and the advisability of nominata ing a state ticket. There was an abundance of oratory. The vote in favor of recommending a ticket to be voted on at the September primary was 396 to 295 against the proposition.

The following is the platform unanimously adopted by the conven-

We believe that the right of home rule is inherent in the smallest of by twenty-nine voters, twenty-two of the divisions into which the state is whom signed as laborers, demanding divided for governmental purposes a special election on the question, and that all questions of local con- was filed with City Clerk Denniston cern should be determined by the Saturday. ## Rap Janesville City Attorney,

Janesville.—The charges which were brought by City Attorney Maxfield against Mayor Wilbur C. Carle ing into Winegard's grocery store. and Chief of Police Appleby for allowing a disorderly house to be run two weeks, stealing small amounts in the city, were dropped by the bar of money and merchandise. and police commission after an investigation, and the city attorney was reprimanded for having brought them, rather than notifying the & Ross at Schofield was destroyed police authorities of the existing conditions.

sistent with the terms of the state constitution; and we believe it is strictly in accordance with the principles of home rule that the citizens of municipalities should be permitted by the state legislature to determine whether or not they should adopt the initiative, referendum and

We condemn the action of the Republican party of Wisconsin for enacting a law which they intended to prevent the Democratic party from having a place as a party on the ticket.

We favor the amendment of the constitution of the United States in such manner as to permit of the election of United States senators by direct vote of the people.

The Democratic party favors the conservation and government control of the natural resources of the state and nation; and true to its past history of conservation demands the enactment of laws which shall provide that every grant or franchise to individuals or corporations for their use of any of the natural resources of the state, shall be coupled with dividuals or corporations shall pay into the state treasury annually such percentage of the gross earnings derived through the use of such natural resources as may be determined by the rate commission of the state to be just and reasonable; and that in case of forfeiture all improvements made by any such grantee on the public lands of the state shall be forfeited to the state. We charge that the Republican party has been a reckless squanderer of our natural resources. Of our public domain, once the greatest heritage of our people, the Republican party has, from the year 1862 down to the present time, granted to corporations 181,419,568 acres, and to foreign capitalists and noblemen a total of 17,172,000 acres, equal in size in the aggregate to ten average states of the Union; from all of which the people of the United States have derived no profit or compensation The Democratic party whatever. during its history added to our public territory the lands bounded by the Mississippi river on the east and the Pacific ocean on the west; and consistently conserved these lands for the use of the homesteaders of the nation. During approximately threequarters of a century of Democratic rule there was granted to the several states in trust only for the education of the people 67,893,919 acres of During the whole of that period Democracy opposed the countless schemes and importunities of favorites and refused to grant any of the public domain except to bona fide homesteaders and for the purposes of free public education. We point to these facts of history as evidence of the attitude of the Democracy in respect to the conservation

of our natural resources. We favor the enactment of a law requiring the publication of all campaign contributions and expenses prior to the time of election.

We favor the enactment and the rigorous enforcement of a stringent corrupt practice act to the end that politics may be purified and members of corrupt combinations in poliics adequately punished.

We denounce the infamous Payne-Aldrich tariff law passed by the last congress as a betrayal of the interests of the people, and as a measure enacted for the benefit of special interests offering no relief whatever to the consumers of our country; and we approve of the gallant opposition of the Democratic members of congress to the same; and declare for a prompt reduction of the tariff in favor of the people, and not in the interest of the product of any trust or combination whatsoever.

We favor an amendment to the constitution of the United States authorizing congress to enact an income tax law.

We reaffirm our devotion to the Democratic principle of economy inpublic expenditures, both state and national. We denounce the reckless and unjustifiable extravagance of the Republican state and national administrations; and we oppose the practice of creating unnecessary offices for the purpose of supplying places to political henchmen, whose chief occupation is that of keeping the Republican party in power at the expense of the tax payers of the

## Sugar Beets Doing Well.

Chippewa Falls .- Today R. G. Wagner of Milwaukee, president of the Chippewa Sugar Company, and J. G. Kremere, superintendent of the sugar factory at Madison, made an extended auto tour among the sugar beet fields of Chippewa county and found that the plants stood the drought well and look the best of any The beets growing on light will not retire from the nomination sandy soil were injured, but in fine shape on heavy soil. President Wag-The evening session was devoted ner was much pleased with the gen-

## ROOSEVELT - HUGHES

PLANS FIGHT BY WHICH THEY HOPE TO ADOPT DIRECT NOMINATION PLANK.

### SEES ASSEMBLY SPEAKER

Much Heralded Conference on New York State Politics Lasts Until Far Into Night. Chairman Woodruff to See Ex-President.

Oyster Bay .- Theodore Roosevelt and Charles Hughes spent the evening at Sagamore Hill in their long expected and much heralded conference on New York state politics.

No word of the result was allowed to become known beyond the fact that the entire political situation in this state was taken up. Col. Roosevelt said on previous occasions that the defeat of the direct nominations bill by the republican state organization would be one of the main topics of discussion.

publican candidate for governor came up is not known.

Col. Roosevelt will have more politicians at Sagamore Hill on Wednesday, perhaps the most conspicuous of chairman of the republican state committee.

Gov. Hughes reached Sagamore Hill from New York, accompanied by William R. Wilcox, chairman of the public service committee of the First district. Mr. Wilcox departed almost immediately for Glen Cove. Col. Roosevelt and the governor withdrew to the colonel's library, where they

talked far into the night. Col. Roosevelt had made clear that he will fight for the direct nominations bill, and James Wadsworth, speaker of the state assembly, when he called on Col. Roosevelt in New York on Tuesday, said that the bill was the one thing which "loomed up

as a rock in the smooth seas ahead." The speaker's chat with the colonel was brief, but, to judge from appearances, to the point. The speaker said afterward that his position was unchanged, and that so far as he was concerned, there would be no "sacrifice of principle.'

When Col. Roosevelt came out of his office a little later he said: "I talked politics with the speaker. We discussed direct nominations.

That is all I can say.'

It is supposed, therefore, that the governor and the former president went over the situation with the speaker in detail and mapped out tentatively the program announced in advance of taking steps to force into the platform, when the republican state convention is held, a plank declaring without equivocation for direct nominations.

It is regarded as unlikely, however, will be obtainable, even after Gov. Hughes has departed.

Mr. Woodruff's visit on Wednesday is awaited with interest, for he is one of the men with whom the colonel must reckon if he is to carry to a successful end his fight for a direct nomination bill.

Representative Charles N. Fowler of New Jersey, who is an ardent insurgent, will be at Sagamore Hill on Wednesday. Mr. Fowler's conference with the former president is regarded as of interest because of the fact that he is one of Speaker Cannon's bitterest opponents.

## GETS LARGE MAJORITY.

Woman's Suffrage Bill Passes to Second Reading by Vote of 299 to 190 London.-The house of commons, by a vote of 299 to 190, on Tuesday passed the second reading of the women's suffrage bill, which provides for the granting of the parliamentary franchise to women who are possessed of the property qualification and who already exercise the franchise in municipal actions.

The unexpectedly large majority of 109 gives an important impetus to women's suffrage, but many obstacles must yet be overcome before the principle is legalized by the necessary majority of 145. The house referred the bill to a committee of the whole, which means that the bill will be shelved until next year.

Many leading men, including Winston Spencer Churchill, secretary for home affairs, and A. J. Balfour, leader of the opposition in the house of commons, who favored the principle of women's suffrage, objected to the present bill and contended that the whole country must pronounce unreservedly in favor of women voting before parliament sanctioned such a change in the constitution.

Premier Asquith declared that if women had a vote they must inevitably have seats in parliament and might take the speaker's chair or sit in the cabinet.

### Y. M. C. A. to Build. Eau Claire, Wis .- The first collec-

tion following the pledges of local citizens for the Y. M. C. A. building in Eau Claire, has been taken with good results. A \$100,000 structure will be started in the fall or early spring so as to be finished by the fall of 1911. It will be four stories high and will be placed on a site which has been purchased by the council in the center of the business section.

## Directors to Furnish a Million.

Louisville.-Admission that the shortage of August Ropke, defaulting assistant secretary of the Fidelity Trust company, is "very large," was made at the trust company's offices late on Tuesday.

At the same time it was announced that the directors of the company had pledged themselves to an increase of \$1,000,000 in the capital stock after such an increase is necessary. Ropke's shortage is placed by current rumor at about \$500,000.

## SEEN AND HEARD IN WISCONSIN

Chippewa Falls .- Rain temporarily checked the forest fires which have been raging for several days in the pineries north of this city and which already have caused losses ag-

gregating more than a million dollars. The burned area extends about fifty miles north of Prentice and about forty miles wide between Stanley and Thorpe.

Several farmers in the district have been burned out and scores are prostrated fighting to save homes and crops. The heaviest losers are lumber and logging companies. Twenty-five villages in the burned

district narrowly escaped destruction. More rain is needed to prevent the fire from spreading further. Holcombe was saved by heroic work

of nearly every inhabitant. Fires have been raging near Holcombe for a month, but the high southwest winds drove them into the village. Water was hauled from the Chippe-

wa river in barrels. The Chippewa fire Whether the proposition of a re- department was asked for aid and a special train was ordered. In an hour the wind had ceased and the flames were checked.

For a time the state home park was in danger, but attendants fought the whom will be Timothy L. Woodruff, fire back. The east portion of Taylor county reports big forest fires. The villages of Gilman, Polley, Ruby, Arnold and Hannibal are fighting fires and trying to save the sawmills. Great quantities of cordwood, logs and timber are burning.

> La Crosse.-Roland Dickson, Dresbach, Minn., and Mrs. Bertha Mc-Govern, this city, are in hospitals believed to be fatally injured as the result of the alleged attempt of Mrs. McGovern to commit suicide following a lovers' quarrel. Dickson claims Mrs. McGovern sent word by the police that she was seriously ill, and that when he reached her home she locked the door and, backing into a corner, flashed a revolver and fired. The woman claims she shot herself twice and that Dickson was shot while trying to wrest the gun from her. Neither will throw any light upon the motive. One bullet entered Mrs. Mc-Govern's intestines and a second was prevented from piercing her heart by a corset stay.

Milwaukee.-The funeral of Rev. Carl F. W. Gausewitz was held from the Grace Lutheran church, Rev. John Bading, an old friend, officiating, Interment was at Union cemetery. Rev. H. Knuth, John Jenny, O. Hagerdorn, E. F. Dornfeld, H. Bergmann and Adolph Baeberoth acted as pallbearers. All three sons of Mr. Gausewitz, his only children, were present. They were Rev. Carl Gausewitz of the Grace Lutheran church, William of Owaton na, Minn., and Herman of Ft. Worth, Tex., superintendent of the Ft. Worth & Denver railroad. The funeral was attended by many Wisconsin pastors, members of the Wisconsin synod, who had known Mr. Gausewitz intimately during his years of work in this state and in Minnesota.

Eau Claire.-Fires which originated northeast of Eau Claire swept down two farmhouses and threatened to gain headway on the city. Mayor Flemming issued a hurry call to the police department to gather all men possible to battle the flames. An interurban car took a load to the scene. The fire department was useless, as it was out of range of the hydrants. The danger is now over, with little property dam-

Manitowoc. - Her dress catching fire from paper which she lighted while starting a fire, Mrs. Carl Henschel, a pioneer resident of Centerville, was fatally burned and died within a few hours. Her aged husband was in the room at the time of the accident, but, being deaf, did not hear his wife's screams for help, and the woman rushed from the house into the yard, where she attempted to extinguish the flames under a pump.

Menomonie.-Ferdinand Harms, a carpenter, seventy-three years old, committed suicide by hanging himself in a woodshed. Mental derangement, caused by the extreme heat, is supposed to have led to the act. He leaves a wife and family.

Stoughton.-Tollef Olson, seventynine years old, reputed one of the wealthiest men in Stoughton, died of hemorrhage of the brain, following sunstroke, at Madison. The funeral was held at McFarland. Olson came to America from Norway in 1848.

Wausau.-Mary Glodcheski, 112 years old, died in Parcherville. She retained all her faculties up to within a few weeks.

Waupaca.-Breeze Klemsbed, eleven years old, drowned in Columbia lake, while bathing. His mother, a widow, lives at Glencoe, Ill.

Menasha.-A Prohibition convention for Winnebago county has been called to meet in Omro in Good Templars' hall.

Appleton .- A horse, said to belong to Jacob T. Griesbach. Greenville, dropped dead from fright.

Menasha.-John Kuepper, a wealthy Harrison farmer, was struck by a Chicago, Milwaukee and St. Paul passenger train at the Sherwood crossing and probably fatally injured. The carriage was smashed to splinters. Beloit.-While climbing a cliff

at the ledges, Roy Hammil was attacked by a mother eagle, which he killed with a club after it had attacked him savagely with its wings. He captured four young eagles.

Sheboygan.-Frank Kirch committed suicide by jumping into the Sheboygan river. His body was found. No reason is known for the act.

## BLIND MAN CLIMBS STATUE

Goes to Top of Liberty Monument and Is Told of Sights He Cannot See.

Coming over from the Statue of Liberty in New York harbor, a passenger fell into conversation with a blind man who boasted that he had climbed to the top of the statue.

"It was a pretty good pull," he said, but I have done better. Bunker Hill monument tired me a lot more, and the Washington monument in Baltimore was something of a clip; but the climb that pretty near tuckered me out was coming down the monument in Washington. Maybe you can't call that climbing, since it was walking down instead of up, but for a man who can't see the coming down from these high places is always harder than going up.

"Everybody you meet on top of a tower is mighty good to a blind man. They point out the bay on this side, the river up yonder, the islands to the front and the tip end of the city over there. While I was doing Liberty statue a shipload of immigrants passed within hailing distance. I couldn't see them, but a woman told me all about them, how they were all packed together in the bow of the ship for their first glimpse of the city and everything. I suppose some folks wonder why a man without eyes is so anxious to climb 400 or 500 feet to the top of a place that is noted for its view, but the charm is not all lost, and anyhow I've got the satisfaction of saying I've been there."

### WHERE THEY LEFT MARGARET

Reckless Chauffeur Who Was Tardily Informed of the Loss of One of His Passengers.

"Speaking of automobile speeding," said a man who drives his own car, "I heard a good one the other day. A young Irishman who, having left home and made a lot of money, was visited by his two married sisters, neither of whom had ever ridden in an automobile. So, he planned for them a trip in his automobile, thinking they would enjoy both the novelty of the ride and the city sights. With a view to a little fun at his sisters' expense, he told the chauffeur to 'let 'er out' as much as was consistent with safety, at the same time warning the sisters that they shouldn't speak to the chauffeur as he was a very nervous man and mustn't be disturbed when he was driving a car.

"Everything was quiet in the tonneau while the driver went rushing out into the suburbs and through the parks. Sometimes it was on four wheels and sometimes on two, but there was no protest. He had entered into the spirit of the affair, and he made up his mind he would make those women cry 'enough.' So he picked out some rough going and humped the bumps for a half hour. Finally the younger sister leaned forward and touched him timidly on the shoulder.

"'Excuse me,' she said trembling, 'I know I ought not to speak to you. but I thought I ought to say that we left Margaret some ten minutes back." -- Columbus Dispatch.

Feminine Nature of Crowds. Crowds are everywhere distinguished by feminine characteristics, not always revealing the best instincts which are associated with the nature of woman but this crowd was remarkable for its kindly tolerance, womanly tenderness and consideration for the woman and children and for those who were overcome by the long hours of waiting and the sufferings of the heat and thirst. So much attention has been paid to the criminal actions of crowds that the influence they exert has come to be looked upon as necessarily demoralizing. History has many instances of the heroism of crowds; it is by witnessing the disinterested unselfishness of such a crowd as this that one can hope to realize in some measure the devotion and self-sacrifice of which collectivities are capable.

## Remarkable Tyrolese Dance.

A student of the Tyrol and Tyrolese people describes a remarkable dance in which the male dancers beat time on the ceiling with their feet.

"In Brandenburg and one or two

other Tyrolese valleys which boast of a particularly muscular fair sex," says the writer, "the girl at the conclusion of her swain's fantastical jumps catches hold of him by his braces and hoists him up in the air. He of course helps by jerking himself upward when she lifts, and then, balancing with his hands on her shoulders, he treads the ceiling of the low room to the tune of the music and she continues to dance around on the floor of the room. Such dances are rapidly falling into disuse, and it is almost impossible for the ordinary tourist to witness one nowadays."

## Use of the Hardy Ferns.

Graceful effects may be developed in foregrounds, in drives through glades, and in many other positions, by the bold use of the larger hardy ferns. Few people seem to give much attention to hardy ferns, and in most gardens, if there are any at all, they are usually planted in some out of the way spot where no one sees them.

Rarely do we find them well grown or an important item in the garden picture. The bold and handsome ferns of our own and other countries deserve something better than to be condemned to a miserable existence among a lot of decaying roots, which the conventional idea always associated with them .- Garden Illustrated.

## Your Liver is Clogged up

That's Why You're Tired-Out of CARTER'S LITTLE LIVER PILLS will put you right in a few days. They do their duty.

SMALL PHIL SMALL DOSE, SMALL PRICE

Well, Wasn't He Right?

The minister was addressing the Sunday school. "Children, I want to talk to you for a few moments about one of the most wonderful, one of the most important organs in the whole world," he said. "What is that that throbs away, beats away, never stopping, never ceasing, whether you wake or sleep, night or day, week in and week out, month in and month out, year in and year out, without any volition on your part, hidden awa; in the depths, as it were, unseen by you, throbbing, throbbing rhythmically all your life long?" During this pause for oratorical effect a small voice was heard: "I know. It's the gas meter."

### It Is a Mistake

Many have the idea that anything will sell if advertised strong enough. This is a great mistake. True, a few sales might be made by advertising an absolutely worthless article but it is only the article that is bought again and again that pays. An example of the big success of a worthy article is the enormous sale that has grown up for Cascarets Candy Cathartic. This wonderful record is the result of great merit successfully made known through persistent advertising and the mouth-to-mouth recommendation given Cascarets by its friends and users.

Like all great successes, trade pirates prey on the unsuspecting public, by marketing fake tablets similar in appearance to Carcarets. Care should always be exercised in purchasing well advertised goods, especially an article that has a national sale like Cascarets. Do not allow a substitute to be palmed off on you.

### He Rose to It.

"Do you know," said a little boy of five to a companion the other day, "my father and I know everything. What don't know my father knows, and what my father don't know I know." "All right! Let's see, then," replied the older child, skeptically. "Where's

It was a stiff one, but the youngster never faltered.

"Well, that," he answered coolly, "is one of the things my father knows."—Harper's Bazaar

## He Had Been Observing.

"Why don't you call your invention the 'Bachelor's Button?' " I asked my friend, who was about to put on the market a button that a man could attach without needle or thread.

"I fear that the appellation would imply too much restrictiveness," he answered. "You see," he went on, giving me one of his knowing smiles, "I expect to do just as much business with the married men as with the bachelors."

Midas. Midas had come to that point in his career where everything he touched turned to gold.

"What shall you ever do with the stuff?" asked his entourage in visible

Midas affected not to be uneasy. "Just wait till the boys begin to touch me!" quoth he, displaying an acquaintance with economic tendencies far in advance of his age.-Puck.

Coming Down to Earth. "Happiness," declaimed the philosopher, "is in the pursuit of something, not in the catching of it."

"Have you ever," interrupted the plain citizen, "chased the last car on a rainy night?"

Gust. Utke, Campbellsport, Wis.

of the province of Bahia, Brazil, and gravel, which are put into small where it is mined from river beds and wooden bowls, each capable of holding other alluvium. The miners sell their 8 or 10 pounds. The native miners find to agents of exporting firms in then proceed in Indian file with their the city of Bahia. It is calculated that loads to some convenient part of a this port ships annually about \$4,000, river or stream, where they laborious-000 to \$4,600,000 worth of black dia- ly wash out their material, gradually monds, and, with the adoption of getting rid of all lighter particles and modern methods and machinery in debris until the hidden diamonds, place of the extremely primitive ones whose specific gravity is 31/2, reveal formerly employed, the industry will themselves through their weight and be tremendously stimulated. About peculiar luster. Iron pans with small twenty-five years ago a stone of 1,100 perforated holes are sometimes used carats was found, followed by one of to hasten the process of extraction. A 1,700 carats, and in 1895 a gigantic modification of this plan, where a stone of 3,078 carats, or 615 grams, which was purchased by a New York house for \$32,000 and broken up into er some distance above, with a natural pieces of suitable size for diamond drills. At present prices this stone thither a part of the stream through would be worth about \$262,000. During the past ten years stones of 400 to 800 carats have been discovered. while they are frequently found weighing from 100 to 200 carats.

Previous to 1870 carbonado was practically valueless. From 1870 to for cutting and polishing the white dams are placed at various points gems, and thousands of carats were sold at 50 cents per carat, to be crushed to powder for this purpose. A few years later, when carbonado was employed in diamond drilling, it sold at from \$2 to \$4 a carat. Between 1895 diamond extraction may be continued. and the present the market value has fluctuated between \$25 and \$85 a carat, scribed, they have yielded in the past this high price being caused by the one hundred and eighty years surdecline in the supply of carbonado in prisingly rich returns. According to ast ten years, while the demand has increased. In connection with the subject of black diamond consumption in drilling, it is interesting to remark that in digging the drill hole at Rvbnik (Paruschowitz), Upper Silesia, which attained a depth of nearly 7,000 feet, upward of \$25,000 worth of carbonado was used.

The conditions are entirely different from those of Africa. The gravel, sand, and other material containing diamonds lie in or near the beds of streams and rivers, and have been washed down by erosion from high "chapadas" or plateaus, which are probably the original matrix in which Brazilian diamonds were formed. As is natural, gold and a variety of other substances, such as itacolumnite, elivine, limestone, hematite, granite, gneiss, and clay are associated with the diamonds. The diamond-bearing material of Brazil consists of a conglomerate, sometimes interbedded with hard yellow sandstone, which is washed down through erosion by rivers, or, in some cases, may be badly decomposed and rotten rock. Fossils are generally lacking. The deposits often consist of schists and schistose clay, -diamond-bearing clays, reddish earth, granitic and gneissic formations, and pebbles of various sorts.

The states of the republic which have yielded diamonds are Minas Geraes, Parana, Bahia, Goyaz, and Matto Grosso. It is in the first named that Diamantina, celebrated for the rich diamond mines in its vicinity, is situated. The city is well built and lies at the headwaters of the Jequitinhonha, or Diamond, river, a stream 350 miles long, which empties into the Atlantic at Belmonte. To the east of Diamantina is the peak of Mount Itambe, 5,960 feet, in the Serra Espinaco Range. The mines are situated north of Rio de Janeiro, 800 kilometers, or 497 miles, north of Ouro Preto, the capital of Minas Geraes. The territory in which they are situated forms a vast ellipse, 80 kilo- British papal ambassador in 1848, told meters, or 50 miles, by 40 kilometers, him of the most delicate affair he had or 25 miles, in a plateau 1,000 to 1,200 meters (3,280 to 3,937 feet), contain- Naples, an excellent pistol shot, lived ing a number of valleys cut by the near Cardinal Antonelli's mother, the Jequintinhonha and its left tributaries, Ribeirao do Inferno, Rio Caethe, etc., top of the boundary wall between the and also by the Sao Francisco's af- gardens used to parade a magnificent fluents which flow to the northwest, in Persian cat, the property of the cardia very different basin.

Although diamond mining has been more extensively and systematically saw the cat one morning, and the pursued in the states of Minas Geraes and Bahia than elsewhere in Brazil, fired, and it fell. The excitement was Matto Grosso, Goyaz, and Parana have tremendous, the chanceries of the folk. Many beekeepers claim that bees yielded sufficient results to justify the belief that their future as centers of respondence, but the affair was at diamond production will be prosper- last composed by the efforts of Odo | the bane of the beginner in the indus-

largely in use, according to the local- | nal Antonelli's mother's cat."

RAZIL has practically a monop- | ity to be worked. The first of these, oly of the world's supply of which is found suitable for the diathe black diamond, while the mond-bearing streams of the Diaman-United States is its largest tina district, somewhat resembles market. It is found in La placer gold washing. The process con-Chapada and Lavras districts sists primarily in digging out sand considerable pit has been excavated, consists in finding a curve in the rivfall of 20 or 30 feet, and diverting an artificial channel.

A different method of mining has to be employed in the localities called "chapadas," or plateaus, where diamonds are imbedded in compact, somewhat resistant, conglomerates. A small reservoir, or if necessary, two POTATOES INTO A DRY MEAL doing needed pruning. 1872 it was employed as an abrasive or three reservoirs, are built, rude across the nearest available river, and with the increased water power thus obtained the conglomerates are washed down a ravine to the desired lower level, where the process of further

> Primitive as are the processes dethe best authorities, the total Bra zilian diamond production, including the extensive contraband trade practised during the Portuguese colonial regime, is estimated at 12,000,000 carats, or 21/2 metric tons. The total export value of diamonds of every sort from Brazil in 1906 is conservatively calculated at about \$5,000,000.

> One of the first enterprises to install dredging and hydraulic machinery for the extraction of diamonds such as the alluvial diamantiferous deposits of the Republic require was the Boa Vista company, in 1899, formed in Paris, with a capital of 2,000,000 francs, or \$400,000. Their mining concessions were situated at Boa Vista, on the north bank of the Sao Francisco river. above the Falls of Paulo Affonso, and about 300 miles from the Atlantic.

> The Brazilian diamond-bearing deposits so far discovered are all alluvial and surface, and they possess many natural advantages over the diamantiferous fields of South Africa. which, as has already been explained, are "dry diggings,' requiring the most, expensive processes and machinery and every device that human ingenuity can invent for the successful extraction of diamonds. In Brazil, on the other hand, the diamonds concealed can be easily extracted by means of hydraulic and dredging apparatus. A network of rivers and streams affords an unfailing and copious water supply and power. There is no deep mining to be done, as is the case in South Africa. Only a very small portion of the probable total Brazilian alluvium has been explored, and the river gravels, except in the reaches of only moderate depth, are untouched. Moreover, these gravels in many cases carry enough gold to pay be found.

FOR HATCHING TURKEY EGGS

Have Nest on Ground Made of Clean

Straw-Hen Should be Tested

and Also Free of Vermin.

The principal points I observe in

hatching turkey eggs under hens are

to have the nest on the ground and

made of clean straw. If desired, the

nest may be inclosed in a box or coop,

but it is necessary to allow ample

room for the hen to get on and off,

says a writer in Agriculturist. It is

also advisable to test the hen before

allowing her to set, so as to know she

is not fussy and is bent on business.

I generally do this by giving her

china eggs to commence on for a day

or two, and if she sits quietly, then to

give the turkey eggs. It is particular-

ly desirable that she be free from lice

at the start. I always sprinkle plenty

of lice powder on her and have lots

ning, after they are planted.

A few calves will occupy but little stable room and will require but little additional food and attention.

We can make no greater mistake than to compel them to suffer day after day fighting flies in the blister-

Some dairymen keep their cows inside during the worst part of the fly season, allowing them to run out

After a run out in the pasture they are put in the stable in the morning and it is darkened so that the flies will remain outside.

A little green forage fed while they are kept inside during the day and the loss in milk and flesh is reduced to a minimum.

Few dairymen can afford to with- learns a very few general facts will stand the losses that are due to the fly pest.

It is claimed by good authorities that in some cases an animal loses in May produce the flowers at the tips more than a pint of blood each day of branches that grew the year beand such losses and suffering mean fore-in fact the buds are stored away that they can return no profit at the in the branches during the fall pail when they are handled in this months. manner.

In nearly every dairy section flies cut off from 30 to 40 per cent. in the the matter consideration will know, receipts of the creameries.

No dairying section can afford to stand such severe losses.

Until we find some fly repellant of lasting qualities we must avoid losses duced to a minimum.

The scientific work of handling the for the wood to ripen and the buds dehandle the question.

If we can plan to keep all but one side of the stable darkened the flies will not bother the calves or cows as shrubs produce their flowers on wood badly as when there is no light at all. for they will fly toward the light and pruned very early in spring to force get lost and not be able to find the stock after flying toward the light.

When we stop and consider the intimate relationship between the comfort of the cows and calves and their milk and growth we will not hesitate to do all in our power to improve their condition during fly time.

Process Successfully Accomplished by Prussian Process Saves Decay and Cost of Freight.

The conversion of potatoes into a dry, concentrated meal, successfully accomplished by a Prussian process described by Consul T. H. Norton, not only prevents loss from decay, but reduces the cost of transportation. In Germany potatoes are much used for eeding domestic animals, and the loss from decay amounts to about 11 per cent, equivalent to a value of \$28,500,000 annually. The new process is claimed to be simpler and more effective than numerous earlier ones brought out by an offer of \$6,000 in prizes. The potatoes are washed in a large vat, passed into a mashing machine, pumped into a resrvoir, and then fed between two hollow cylinder of perforated plate covered with linen filtering cloth, the interior of each cylinder being connected with an air exhaust. The pressure of the cylinder and the air suction remove most of the water. The residual mass is taken by a helical conveyor to small cars, which pass through a hydraulic press, removing more liquid, and is then transferred to a revolving drum, heated at one end by steam pipes and cooled at the other by water. Stirred by prongs in the drum, the dried potato emerges as coarse meal. This has a quarter of the original weight of the tubers and occupies an eighth of the space, it smells and tastes like fresh bread, and analysis shows it to contain 80.69 per cent of carbohydrates, 11.50 of water, 3.73 of protein, 2.06 of ash, 1.71 of fiber, and 0.31 of fat. If desired, the meal can be compressed into compact cakes. The residual liquid contains sugar and dissolved salts, and, first yielding about 2 per cent of albumen, is used for irrigating farming land.

## Kill Sick Fowls.

When a fowl becomes ill the best cure in many cases is to kill it. Only in trivial ailments or in the case of hatched. The first meal I give is dried valuable birds which in all probability wheat bread, soaked in sweet milk, have been infected from outside, is an oatmeal and chopped onion tops mixfor dredging, and even platinum may attempt at cure at all recommended, ed together, but not fed wet. At all and even then when the disease is so times I supply plenty of clean water defined that the treatment is fairly and fine grit, and as the poults grow certain. By exercising good care, older I give grain, such as millet, with all that it includes, correct sani- hemp, wheat, cracked corn and oats, tary conditions, good nouses, well depending upon the size of the young sunned and aired, proper food, exer- ones. Corn is fed sparingly while cise and cleanliness and prompt atten- the young ones are growing. Four tion to birds who seem indisposed, will times a day is enough to feed at first. often prove effective in checking what It is especially important that the otherwise might turn to be a very se- birds be kept dry until they have rious epidemic. Remove all sick feathered well. Mine are kept in unfowls from the rest of the flock and til after the dew is off and never alsee that all conditions are correct for lowed to be out in the rains. About preventing the spread of the disease to 4 o'clock I call them to their roosting other members of the flock.

## Tall Building for Bees.

The tall building idea is found to be successful with bees as with city swarm because they have not enough room for their work. Swarming is can be started out with a single story hive. As the season advances a sec- ture of the work is so neglected as ond story can be added. Then a third and on until the capacity of the give no consideration to the question hive will be about 50 pounds. This of the drainage, and the result is a method has been tried with success regular mud blockade during several by beekeepers of experience.

Preserved Cherries One of the Best and Most Delicious of Put-Up Lunches.

There is an ancient superstition that Shrubs furnish one of the most efcherries and milk are a combination fective aids in making the Farmthat will insure speedy death. There-Home-Beautiful, but to get the best fore small boys and girls have been effects from them they must have good tortured with a most terrible uncercare, which includes intelligent prutainty when, surreptitiously, they have gorged themselves with the robin's Pruning, whether it be pinching out perquisite or the later coming choke the bud or sawing off a limb is simply cherries, and have then had bread and cutting away one part of a plant for milk presented to them as their sole the betterment of what is left, yet the choice of evening meal. From a feelmajority of amateur growers seem to ing of wish-I-dared to what-do-I-care, think that pruning and destruction they have proceeded to gather the are synonymous terms, instead of befruit of hidden branches, possessed ing the surest way of improving the with that same eerie uncertainty about bush and forcing it to produce finer the future which a boy may have foliage and flowers, and more of when he courts death with a giant firecracker. Mothers have suffered Each class of shrubs has its own from frightful apprehensions in cher-

ry time. Preserved cherries are amongst the most delicious of all the put-up fruits and are as serviceable for pies and puddings as any there are, if one wishes to extend the cherry flavor in this way. The cooked cherry is delicious, and considerably less sugar is required for it than for preserves. To candy cherries requires a good deal more care than most domestic managers can take, but some think it worth while, since the produce has more flavor than those that are ar-

### GREEN TOMATOES THE BEST

For Frying, the Unripe Ones Will Always Be Found to Give the Most Satisfaction.

Now that the tomato season is here, the fact that green tomatoes are more delicately flavored and more delicious fried than the red ones usually cooked in that way is worth a word of reminder. Jot it down in the household new idea book to be tried for breakfast some morning or at luncheon, with or without a meat dish.

Cut into thin slices some large, per fectly green specimens (they must not have begun to show any sign of ripening, and those freshly pulled are really the best for the dish), sprinkle with salt and dip in cornmeal until covered. Saute in a little butter until a nice brown. Cover the frying pan throughout the cooking process to keep the tomatoes tender. They may be brought to table with the accomranches that need cutting out enti-

> Cream Raspberry Pie. Line a pie dish with rich puff paste,

and fill with a quart of raspberries sweetened to taste. Cover with pastry, but do not press this down at the edges. While it is cooking heat a ed and is in good form with plenty of small teacupful of milk, with a pinch of soda in it, and stir into it half a teaspoonful of corn flour which has been previously wet with a little cold milk; add one tablespoonful of white powdered sugar, and cook for three mintues. Pour the mixture into a small basin, and beat in the frothed whites of two eggs; whip to a cream and let it get cold. When the pie is taken fro mthe oven lift the top crust and pour in the cream you have made; replace the crust and set aside to cool. Sprinkle a little sugar over the top before serving.

Rhubarb Jam. Add to each pound of rhubarb cut without peeling a pound of sugar and one lemon. Pare the yellow peel from the lemon, taking care to get none of the bitter white pith. Slice the pulp of the lemon in an earthen bowl,

discarding the seeds. Put the rhubarb into the bowl with the sugar and lemon, cover and stand away in a cool place over night. In the morning turn into the preserving kettle, simmer gently three-quarters of an hour or until thick, take from the fire, cool a little and pour into jars.

Scotch Shortbread.

One-half pound flour, one-quarter pound unsalted butter, two ounces powdered sugar. Sift flour into bowl, rub in the btuter smoothly and add sugar. Knead well with the hand until soft enough to hold together. Form into a ball, press with the palm of the hand until half an inch thick and level the top with rolling pin. Butter a sheet of note paper and lay on a sheet tin. Decorate the edges with the fingers. Bake in a slow oven until firm and pale brown.

A Breakfast Pudding.

Boil three eggs hard, cut in slices and lay in a buttered baking dish. Make a custard with two whole eggs, one and a half cupfuls of milk, half a saltspoonful of salt, dash of pepper and a grating of nutmeg. Pour this custard over the slices of egg and strew the top thickly with grated cheese. Bake in a moderate oven until firm. Serve hot.

Anchovy Sauce. Wash eight anchovies in cold water.

split open and remove the bones. building of roads is to prevent or less-Wipe dry and pound to a pulp in a mortar.

Add two egg yolks, then dilute slowly with two tablespoonfuls of olive oil and two tablespoonfuls of vinegar or lemon juice. Add white pepper, minced parsley and serve cold.

HIS WISH.

Mrs. Henpeck-Ah Henry, when I'm gone you'll never get another wife like

Mr. Henpeck (sotto voce)-I hope

### A BURNING ERUPTION FROM HEAD TO FEET

"Four years ago I suffered severely with a terrible eczema, being a mass of sores from head to feet and for six weeks confined to my bed. During that time I suffered continual torture from itching and burning. After being given up by my doctor I was advised to try Cuticura Remedies. After the first bath with Cuticura Soap and application of Cuticura Ointment I enjoyed the first good sleep during my entire illness. I also used Cuticura Resolvent and the treatment was continued for about three weeks. At the end of that time I was able to be about the house, entirely cured, and have felt no ill effects since. I would advise any person suffering from any form of skin trouble to try the Cuticura Remedies, as I know what they did for me. Mrs. Edward Nenning, 1112 Salina St., Watertown, N. Y., Apr. 11, 1909."

What's the Answer?

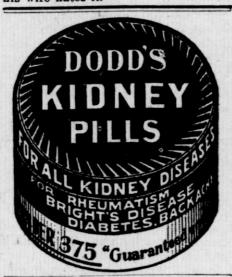

We're ready to quit! After sending two perfectly rhymed, carefully scanned, pleasurably sentimental pieces of poetic junk to seventeen magazines and having them returned seventeen times, we turn to the current issue of a new monthy and find a "pome" modeled after Kipling's "Vampire," and in which home is supposed to rhyme with alone, run on page eleven with all the swell curlycues ordinarily surrounding a piece of real art. If poetizing is a gift we are convinced that this poet's must have been. As for us, we are on our way to the woodshed to study the psychology of the ax or any other old thing that hasn't to do with selling poetry to maga-

Controlled Newspapers.

vertiser has ever tried to control its editorial policy, the remark being occasioned by the charge often made nowadays, that the big advertisers direct the editorial policy of newspapers.

The experience of the Globe is the experience of most newspapers. The merchant who does a great deal of advertising is more interested in the circulation department of a newspaper than in the editorial department. If a daily paper goes to the homes of the people, and is read by them, he is satisfied, and it may chase after any theory or fad, for all he cares. He has troubles of his own, and he isn't trying to shoulder those of the editorial brethren.

There are newspapers controlled by people outside of the editorial rooms, and a good many of them, more's the pity; but the people exercising that control are not the business men who pay their money for advertising space. The newspapers which are established for political purposes are often controlled by chronic officeseekers, whose first concern is their own interests. There are newspapers controlled by great corporations, and the voice of such newspapers is always raised in protest against any genuine reform.

The average western newspaper usually is controlled by its owner, and he is supposed to be in duty bound to make all sorts of sacrifices at all sorts of times; there are people who consider it his duty to insult his advertisers, just to show that he is free and independent. If he shows a decent respect for his patrons, who pay him their money, and make it possible for him to carry on the business, he is "subsidized" or "controlled." The newspaper owner is a business man, like the dry goods man or the grocer. The merchants are expected to have consideration for their customers, and they are not supposed to be subsidized by the man who spends five dollars with them, but the publisher is expected to demonstrate his courage by showing that he is ungrateful for the patronbination when you think it over .-Emporia Gazette.

Unflattering Truth.

A Chicago physician gleefully tells a child story at his own expense. The five children of some faithful patients had measles, and during their rather long stay in the improvised home hospital they never failed to greet his daily visit with pleased acclamation. The good doctor felt duly flattered, but rashly pressed the children, in the days of convalescense, for the reason of this sudden affection. At last the youngest and most indiscreet let slip the better truth.

"We felt so sick that we wanted awfully to do something naughty, but we were afraid to be bad for fear you and the nurse would give us more horrid medicine. So we were awfully glad to see you, always, 'cause you made us stick out our tongues. We stuck 'em out awful far!"

## The Noon Hour

Furnishes a respite that is looked forward to with pleasurable anticipations, especially if you are accus tomed to enjoying with your lunch

## LITHIA BEER.

Its cost is small, while the comfort it affords goes a long way toward lightening the labors of the day. I makes the noon hour particularly cheerful and strengthens you for the

work of the afternoon. The strength in beer is derived from the nourishing, vitalizing barley malt. Added to this you have the nerve soothing effect of the hops a valuable combination, and an ideal workingman's beverage.
