## VILLAGE FATHERS INSPECT VILLAGE

Board Finds That Considerable Improvements are Necessary to be Made This Year.

### TO BE ACTED UPON AT ONCE

All Necessary Improvements Will be Acted Upon at Their Next Meeting, or at the May Meeting

The Village Fathers were out on a complete inspection tour last Monday afternoon. They found that considerable work is necessary to be done in order to get the streets in proper condition. Some of the work found necessary is that Wilhelmina street east of the railroad tracks should be graded. Most of the streets to be overhauled either by graveling or coating them with crushed stone. The foot walk on North Main street, north of the brick yard bridge to be completed. The board will act on these various improvements either at their next meeting, Monday evening, or at their regular monthly meeting in the month of May.

Later on they also expect to have a cement sidewalk laid on Wilhelmina street, which is very necessary. This would be about the only cement sidewalk needed in the village this year.

All the aforesaid improvements are very important and should be done by the board. Not only are they necessary, but it is also a credit to the village to have good and substantial streets and sidewalks. With these improvements the citizens will be in a position to boast of having the prettiest and best streets of any village in this state.

### To Appoint a Supervisor.

The Village Board will at its next regular meeting be compelled to appoint a supervisor to fill the vacancy left by John Muehleis who failed to qualify within the 10 days as required by law. At the present time there are two applicants in the field, namely: John F. Schaefer and John Tiss. What Mr. Muehleis reason was for not qualifying we have been unable to ascertain. Mr. Muehleis was elected to the office at the spring election without an opposition.

## TO PLAT A NEW ADDITION

Moritz Rosenheimer will Have About 5 Acres of Land Laid Out Into a Residence District

### TO CONTAIN ABOUT 100 LOTS

The Addition to Contain About 100 Lots and be Known as Rosenheimer's First Addition

A new residence district will be platted in this village some time next week, when Mr. Moritz Rosenheimer will have Chas. F. Leins, the surveyor, of West Bend here to plat out about five acres of his land. The district will be just off of Fond du Lac Ave., in the rear of his store. It will be the prettiest residence district in this village. It will be known as Rosenheimer's First Addition.

The addition after being platted will contain about 100 lots. Streets will be at once graded trees planted and also some houses built. A diagram of the new addition will appear in this paper within the near future.

Anyone wishing to buy a very suitable lot to build a residence upon, should make application to Mr. Rosenheimer at once. After once being platted the lots will be sold in a hurry.

That the village is very thrifty can be shown by the great interest taken by Mr. Rosenheimer in plating out the land. Now then can the people of this village boast to get a manufacturing industry established in the village. If the business men will give a little boost, an industry ought to be secured with little effort. A more thrifty village for a manufacturing business cannot be found. Remember no boost no industry.

### Young Man Jumps Bail Bond.

The hearing of Archibald Jordan, which was set for last Thursday in Justice Rix's court in this city, was postponed until a date when the accused young man, who jumped his bail bond, can be located and brought back for trial. Jordan was seen in the city on Tuesday with a suit case and it is believed he left on the southbound evening train for parts unknown. District Attorney Sawyer came over from Hartford on Thursday, and while the plaintiff and his witnesses were assembled in the justice's room in the opera house waiting for the stated hour for the hearing, Jordan failed to make his appearance. A new warrant has been issued for his arrest, and efforts will be made to have the \$100 bond collected.—West Bend Pilot.

### A Real Estate Trade.

Last Tuesday the H. J. Lay Estate and Adolph Rosenheimer made a real estate trade whereby Mr. Rosenheimer gave 20 feet frontage on his lot just west of the H. J. Lay Lumber office building for some land in the rear of his lot. The trade was made so that Mr. Rosenheimer would get a square lot on which the new bank building for the Bank of Kewaskum will be built. If this trade would not have been made, it would have meant that the drive way of the H. J. Lay Lumber Company would have been considerably narrowed.

## TO RETIRE FROM HOTEL BUSINESS

Jos. Schmidt Decides to Retire From the Hotel Business in the Near Future as Other Business Interests Require His Entire Time

### TO MOVE TO NEW QUARTERS

The Statesman Compelled to Seek New Quarters as the Present Quarters Lack the Necessary Floor Space. Extensive Improvements to be Made

Joseph Schmidt, proprietor of the Eagle Hotel, and who has conducted a hotel in this village for the past seventeen years, has decided to retire from said business within the near future. In retiring from the hotel, Mr. and Mrs. Schmidt retire from a business in which they have been actively engaged for 32 years. The reason for their retirement is due to the fact that Mr. Schmidt's entire time is required by other business interests, and that Mrs. Schmidt the hostess, deserves the living of an easier life.

The building will undergo extensive improvements, at which work has already been commenced. The improvements are of the nature that the building is to be divided so that it will consist of two separate business places. The north half will be fixed for a printing office and flat, and will be the home of the STATESMAN. The south half will be remodelled for a saloon, living rooms and millinery store. An entire new front will be built in the south half. The insurance office will be moved into the upper floor of the new bank building of the Bank of Kewaskum, as soon as the same is completed.

The north half of the building has been purchased by the proprietor of this paper. This course has been found necessary as the STATESMAN was compelled to seek new quarters as the present quarters lacked the necessary floor space. When the new home is remodelled, the STATESMAN will be proud to say that it will have one, if not the best and finest printing establishments in the state. The upper floor of said place will be remodelled into a flat, where ye editor will in the near future make his happy home.

The improvements in the south half of the building are expected to be finished ready for business, by the first of July. As soon as this part is completed work will be commenced in remodeling the part for the printing office. How soon that this will be completed, we are unable to state, but hope that we will be located in the new quarters some time in the month of August.

The students of a well-known women's college will probably be thrown into spasms of indignation by the statement of one of them that plain girls go to college to try to compete with rivals more endowed with natural gifts in the matrimonial market—that pretty and attractive girls do not need college training to secure husbands. This frank confession will not help to popularize college education, nor the expounds, either, of such startling and ill theories.

# PEACE IS IN SIGHT

### MEXICANS WILL END WAR TO AVERT UNITED STATES INTERVENTION.

### DIAZ TO ACCEPT ARMISTICE

### Government's Reply to Taft is an Apology for Battle on Border—Rebels Evacuate Agua Prieta and Federals March Into Town.

Mexico City.—Peace is in sight. A proposition for an armistice, pending negotiations for a settlement of Mexico's internal troubles, was received by the department of foreign relations from Washington, presumably from Dr. Vasquez Gomez.

The armistice is asked for to avoid "international complications" and is evidently caused by apprehension that the United States would take a hand in the mixup.

The government has sent a reply to the request that it will be glad to receive and consider a formal proposal for a cessation of hostilities.

The suggestion from the Maderistas included a desire for arrangements for pourparlers for peace.

It can be stated on the highest authority that the Mexican government will meet the Maderistas fully half way, that no difficulties will be encountered as to amnesty or as to the honest carrying out of the reform program, and that if the Maderistas are in the slightest degree reasonable peace is assured in a few days' time.

The minister for foreign affairs, Francisco L. de la Barra, stated that the Mexican government in its reply to the note of the American government with reference to the fatalities which had occurred during the first battle of Agua Prieta had expressed its regret for the same and had offered to repeat the orders already given to its soldiers to avoid shooting in the direction of the American frontier, although it pointed out that the shots which had caused the fatalities in question were fired, according to official information corroborated by the press, by the American filibusters who form the majority of the so-called Lopez company of rebels.

In its reply the Mexican government declared its surprise at the procedure of certain subordinate officials, a procedure opposed to the practices of international law and contrary to the friendship which exists between the two nations.

Further, Mr. De la Barra expressed his conviction that these incidents will not affect the friendly relations between the two nations in the slightest, as their respective governments are animated by the most sincere sense of justice.

Agua Prieta, Mexico.—The rebel army, following almost 18 hours of incessant fighting in defense of Agua Prieta, quietly evacuated the town during the night. It moved out silently and when day broke was nowhere to be seen. The Mexican national troops entered the city at dawn, encountering no resistance.

The reason for the evacuation of the city after their all day defense of it was not at first apparent. The most logical conclusion seemed to be that they had exhausted their ammunition.

Later developments showed the rebel army to be disrupted. Its leaders gave up the fight and the men in the ranks appear to have fled in directions of their own individual choosing.

The victorious federal force, which occupied the town, numbered about 1,200 men. Lieut. Col. Reynaldo Diaz was in supreme command. Under him were Major Luis Medina Barron of the rurales and Commandant Francisco Chipla, formerly prefect of the town of Moctezuma.

The government losses may never be known. The federals declined the assistance of the Red Cross, stating that the army would care for its own wounded. During the fighting the federals removed their dead and wounded to the rear. It is understood that those killed were buried on the field. None was brought into the bull ring at Agua Prieta.

# HETTY GREEN BANKER

### WILL ESTABLISH CHAIN OF PRIVATE INSTITUTIONS.

### Places Management in Hands of Son—Young Man Says His Mother Has Been Grossly Misrepresented.

New York.—Mrs. Hetty Green and her son, Col. E. H. R. Green, have decided to consolidate her interests in a private bank with a chain of branches reaching from coast to coast.

"In New York," said Colonel Green, "our firm will be named E. H. R. Green & Co. Branches will be opened in Boston, Chicago, Dallas and San Francisco. We have decided that our interests can best be served from a private bank here in New York. Since the laws of the various states do not give us the right to hold real estate in the name of a corporation or trust company common to all, we have had to organize like other private bankers of this city whose interests extend elsewhere."

Colonel Green pictures his mother as grossly misrepresented in the past. Although she conducts her business on careful and conservative lines, he says

E. H. R. GREEN

she has made it an invariable rule to reinvest her profits in the territory from which they were drawn, for the upbuilding of that territory.

"Her argument has been," he explains, "that every community is entitled to the benefit of its own prosperity."

"Since my mother began her business career she has never asked more than 6 per cent. for her money. The bulk of her loans have been made at considerably lower rates. Because of this attitude and her widely known liberality to her customers in panic times my mother has been able to skim the cream of the borrowers."

"Another point that adds to my pride in her business name is her intense loyalty to her country. She would not invest in a foreign enterprise if it guaranteed a certain profit of 500 per cent. in thirty days."

"Modern financiers look upon her as behind the times and some have volunteered to bring me up to date; but if I am one-half so fortunate in my opinions and judgments as she has been I shall be doing better than any financier I have met."

# OPEN BIG CATHEDRAL

### CHOIR OF ST. JOHN THE DIVINE IN NEW YORK IS CONSECRATED—COST \$15,000,000.

### CEREMONY MOST IMPRESSIVE

### Many Distinguished Clergymen and Laymen Are Present—Two Beautiful Chapels That Are Completed Also Dedicated—Mrs. Taft Present.

New York.—The Cathedral of St. John the Divine, the largest church edifice in the western hemisphere, was formally opened here in the presence of distinguished clergymen from both the United States and Europe together with prominent personages from the various walks of life.

Though the great structure on Morningside Heights may not be fully completed for 75 years to come, the completion of the "crossing" has given between the colossal granite arches of the tower a space where 5,000 people may congregate. It is this part, the choir and the two finished chapels, that was consecrated.

The largest and most distinguished procession ever assembled in an Episcopal church in this country was seen at the opening service. Among those who participated in the ceremonies were 26 bishops, 400 other clergymen and the delegates to the diocese convention. Among prominent laymen who attended the exercises were Mrs. William H. Taft, and Governor and Mrs. Dix. President Taft could not arrange to be present.

Among the bishops who took part in the ceremonies were: Warrell of Nova Scotia, Olmsted of central New York, Millsbaugh of Kansas, Vincent of southern Ohio, Lyons of Newark, Burgess of Long Island, Harding of Washington, Mackay-Smith of Philadelphia, Grafton and Coadjutor Bishop Weller of Fond du Lac, Wis.; Talbot of Bethlehem, Pa.; Whitehead of Pittsburg, Brewster of Connecticut, Kinsman of Delaware, Lawrence of Massachusetts, Knight of Cuba, Sweeney of Toronto and Morris W. Libert, head of the Moravian church in this country.

The formal opening service was at 10:30 o'clock, for which special cards of admission had been distributed. The bishops and other clergy, lay trustees, convention delegates, visiting clergy of other bodies and representatives of educational and similar institutions made up the procession, which marched from Synod hall into the south door of the Cathedral, at the eastern end of the choir. The processional hymn was "Christ Is Made the Sure Foundation," and other hymns were "Rise, Crowned With Light," and "Onward, Christian Soldiers," the last named being the recessional. The anthem was "Unfold, Ye Portals," and was sung by the augmented choir of half a hundred men and boys, among them some of the best known of New York's soloists. The sermon was preached by Bishop Greer.

Much of the structure thrown open for use is temporary. Parts consecrated are the permanent ones only. These are the choir, although that is not yet wholly complete, for much of the interior marble lining is not in; and two of the chapels, both permanent, the one erected by August Belmont, which is the middle one, and is known as St. Saviour's chapel, and the one given by Mrs. Edward King, immediately adjoining and known as the Chapel of St. Columba. The other five chapels are not yet finished.

The cost of the cathedral to date has been between \$3,000,000 and \$4,000,000. Some money has been set aside for endowment, and there is no debt. It is expected that the completed structure will cost a total of \$15,000,000.

### Fire Chief Croker Quits.

# D. A. R. FIGHT CLOSE

### CAMPAIGN FOR PRESIDENT GENERAL TOPIC AT CONGRESS.

### Contest Between Mrs. Scott of Illinois and Mrs. Story of New York Promises to Be Lively.

Washington.—Washington is swarming with Daughters of the American Revolution. And they are busier than the proverbial bees. The twenty-fourth annual congress opened here with daughters from nearly every section of the Union in attendance. Every hotel in the city is practically owned by the fair visitors and hundreds of private homes have been hospitably thrown open for the invaders.

The delegates will be formally received by the president and Mrs. Taft at the White House. The delegates, with other members of the organization and of the Sons of the American Revolution, were given a reception by President-General Mrs. Scott.

When the congress was called to order in Continental Memorial hall by Mrs. Mathew T. Scott of Illinois, the president-general, there began what is expected to be one of the stormiest meetings in the history of the order. Questions of "politics" have resulted in the formation of factions, each with its own ideas, radically different from those of its opponents. Naturally, interest centers chiefly in the election of officers, with Mrs. Scott, the presiding officer, in the strategic point of the conflict.

Mrs. William Cummings Story of New York, defeated candidate for president-general at the last congress, will "carry the fight" to Mrs. Scott and her adherents. She has raised the cry of "oligarchy," and declares that Mrs. Scott is and has been attempting, through the medium of the governing board, to "rule the society against its constitution." As part of the campaign of Mrs. Story's friends in her behalf, 100,000 letters have been sent to the members in the various states petitioning their support in the movement to "dethrone the ruler and her clique."

### BOYLES ALLOWED TO VISIT

### Man and Wife, Convicted of Whittier Kidnaping, Meet for First Time Since Incarceration.

Pittsburg, Pa.—"Jimmy" Boyle and his wife, Helen, met for the first time since their incarceration in the western Pennsylvania penitentiary for kidnaping Willie Whittier of Sharon. Boyle was sentenced to life imprisonment and his wife to 25 years' imprisonment. The couple were permitted to pass half an hour together and hereafter they will be permitted a similar visit once every three months. The woman says she still loves her husband and her one desire is to be free so she can work for his freedom. A local attorney is preparing legal action looking to her release.

### ROOSEVELT ENDS LONG TOUR

### Returns Home After Seven Weeks' Trip Through West—Says He Feels "Bully."

New York.—Col. Theodore Roosevelt arrived home from his seven weeks' tour of the west. As he stepped off a train from Chicago he came into contact with a crowd of outgoing visitors, many of whom greeted him with cheers.

Nearly 200 persons followed the colonel to the carriage door and many grasped his hand just as he jumped into an automobile to be whisked away to Oyster Bay.

Colonel Roosevelt's face was tanned by the western suns, and is said he felt "bully."

### Actress Is Shot Down.

New York.—Vina Wray, an actress, while leaving the stage door of the Hippodrome was shot down and seriously wounded by an unidentified man who had been seen lurking near the theater. Her assailant was arrested.

### Army Aviator Killed by Fall.

Versailles, France.—Captain Carron of the French army aviation corps fell with his aeroplane from a height of twenty-five feet and was crushed to death.

# News Notes of Wisconsin

Waupun.—Lars Hanson, a prisoner in the state penitentiary here, forced open the door of his cell, climbed through a ventilator onto the roof of the prison, and after reaching the ground made his escape unnoticed by the prison guards. The cell door was pried open with a piece of iron bed which was in the prisoners cell. After reaching the roof, Hanson let himself down into the prison yard, entered the knitting shop, where he changed his convict garb for that of a workman and climbed over the wall by means of an improvised rope. Hanson was sent up on a charge of burglary from Superior in January, 1910, for a four year term.

Green Bay.—Despite efforts to adjust labor troubles existing between contractors and carpenters and painters, it does not appear at present as if an agreement would be reached immediately. The strike of the carpenters has been on nearly a month and has held up practically all building work here; two planing mills have shut down, and proposed building work may be put off indefinitely. As a result of the strike much inconvenience has been caused to contractors, and some settlement is hoped for by business interests of the entire city.

Beloit.—Dr. John E. Wells, of Hiram college, Ohio, will take the chair of English literature in Beloit college next year, filling the vacancy caused by the resignation of Prof. Frank H. Chase. Prof. Arthur Craver of the rhetoric department, who will leave Beloit for Miami college, Ohio, next year, will be succeeded by Dr. John Clancy, now at Harvard. Dana Evans, athletic director, will act as baseball coach.

Sparta.—Wisconsin's "strawberry trust" has been openly praised by Gov. McGovern. The trust referred to is known as the Strawberry Sales company and through its effort to make strawberry prices more equalized and grow a better quality of berries, the country in that vicinity has become practically the largest strawberry growing section in the whole country.

Appleton.—After an absence of over half a century, swans, believed to be of the trumpeter species, have reappeared on Lake Winnebago, in the vicinity of Brighton beach. A few days ago a flock, numbering about 50, the largest ever seen on the lake, appeared near the east shore. They have aroused much interest.

Marinette.—Charles Soward of Marinette has invented a device to be used in the emergency of run-aways. By simply pulling a lever the team is set free of the rig.

Beloit.—Beloit college won the first annual freshmen debate with Grinnell college, Ia., Friday night. Beloit had the affirmative of the proposition that the closed shop is justifiable. The Beloit debaters were Glenn L. Cowing, Frank M. Yordy and Will C. Hyde; Grinnell, J. N. Welch, E. D. Baird and W. C. Carter.

Burlington.—Five yegmen, believed to be tramps, blew the safe at the Milwaukee depot at Lyons and secured about \$3. They used so great a charge of explosive that the building also was damaged.

## When a Man Marries

By MARY ROBERTS RINEHART  
Author of *The Circular Staircase*,  
*The Man in Lower Ten*, Etc.

Copyright 1919, by the Bobbs-Merrill Co.  
SYNOPSIS.

James Wilson or Jimmy as he is called by his friends. Jimmy was rotund and looked shorter than he really was. His ambition in life was to be taken seriously, but people steadily refused to do so, his art is considered a huge joke, except to himself. If he asked people to dinner everyone expected a frolic. Jimmy marries Bella Knowles, they live together a year and are divorced. Jimmy's friends arrange to celebrate the first anniversary of his divorce. The party is in full swing when Jimmy receives a telegram from his Aunt Selina, who will arrive in four hours to visit him and his wife. Jimmy gets his funds from Aunt Selina and after he marries she doubles his allowance. He neglects to tell her of his divorce. Jimmy takes Kit into his confidence, he tries to devise some way so that his aunt will not learn that he has no longer a wife. He suggests that Kit play the hostess for one night. Mrs. Wilson proposes. Aunt Selina arrives and the deception works out as planned. Jim's Jap servant is taken ill. Bella, Jimmy's divorced wife, enters the house and asks Kit who is being taken away in the ambulance? Bella insists it is Jim. Kit tells her Jim is well and is in the house. Bella tells Kit it wasn't Jim she wanted to see, but Takahira, the Jap servant. Harbison steps out on the porch and discovers a man tacking a card on the door. He demands an explanation. The man points to the placard and Harbison sees the word "Smilgex" printed on it. The guests suddenly realize their predicament, the women shed tears, the men consider it a good joke. Harbison pleads with Kit to tell him the real situation of things. She finally tells him of Bella's incarceration in the basement. The all important question arises as to who is to prepare the meals and perform the other household duties. Harbison finally solves the matter. He writes out slips containing the various departments of his or her duties. Kit attempts to make an omelet for Aunt Selina, but fails in the attempt and is in a very nervous state when Harbison comes to her rescue and tells her how to make it.

### CHAPTER VII. (Continued.)

"Just told them in," I said desperately. "It isn't difficult." And because I was so transparent a fraud and knew he must find me out then, I said something about butter, and went into the pantry. That's the trouble with a lie: somebody asks you to tell one as a favor to somebody else, and the first thing you know, you are having to tell a thousand, and trying to remember the ones you have told so you won't contradict yourself, and the very person you have tried to help turns on you and reproaches you for being untruthful! I leaned my elbows despondently on the shelf of the kitchen pantry, with the feet of a guard visible through the high window over my head, and waited for Mr. Harbison to come in and demand that I fold a raw egg, and discover that I didn't know anything about cooking, and was just as useless as all the others.

He came. He held the bowl out to me and waved a fork in triumph.

"I have solved it," he said. "Or, rather, Flannigan and I have solved it. The mixture awaits the magic touch of the cook."

I honestly thought I could do the rest. It was only to be put in a pan and browned, and then in the oven three minutes. And I did it properly, but for two things: I should have greased the pan (but this was the book's fault; it didn't say) and I should have lighted the oven. The latter, however, was Mr. Harbison's fault as much as mine, and I had not enough to lay it to absent-mindedness on the part of both of us.

After that, Aunt Selina or no Aunt Selina, we decided to have boiled eggs, and Mr. Harbison knew how to cook them. He put them in the teakettle and then went to look at the furnace. And Officer Timothy Flannigan ground the coffee and gave his opinion of the board of health in no stinted terms. As for me, I burned my fingers and the toast, and felt myself growing hot and cold, for I was going to be found out as soon as Flannigan grasped the situation.

Then, of course, I did the thing that caused me so much trouble later. I put down the toaster—at least the Harbison man said it was a toaster—and went over and stood in front of the policeman.

"I don't suppose you will understand—exactly," I said, "but—but if anything occurs to—to make you think I am not—that things are not what they seem to be—I mean, what I say they are—you will understand that it is a joke, won't you? A joke, you know."

Yes, that was what I said. I know it sounds like a raving delirium, but when Max came down and squizzled some bacon, as he said, and told Flannigan about the robbery, and how, whether it was a joke or deadly earnest, somebody in the house had taken Anne's pearls, that wretched policeman winked at me solemnly over Max's shoulder. Oh, it was awful!

And, to add to my discomfort, the most unpleasant ideas would obtrude themselves. What was Mr. Harbison doing on the first floor of the house

that night? Ice water, he had said. But there had been plenty of water in the studio! And he had told me it was the furnace.

Mr. Harbison came back in a half hour, and I remembered the eggs. We fished them out of the tea kettle and they were perfectly hard, but we ate them.

The doctor from the board of health came that morning and vaccinated us. There was a great deal of excitement, and Aunt Selina was done on the arm. As she did not affect evening clothes (this was entirely natural, but later on in the week, when the wretched things began to take, nobody dared to limp, and Lella made a terrible break by wearing a bandage on her left arm, after telling Aunt Selina she had been vaccinated on the right).

### CHAPTER VIII.

Correspondents' Department.  
The following letters were found in the house post box after the lifting of the quarantine, and later were presented to me by their writers, bound in white kid (the letters, not the authors, of course).

From Thomas Harbison, late engineer of bridges, Peruvian trunk lines, South America, to Henry Llewellyn, care of Union Nitrate company, Iquique, Chile.

Dear Old Man:  
I think I was fully a week trying to drive out of my mind my last glimpse of you with your sickly grin, pretending to be tickled to pieces that the only white man within 200 miles of your shack was going on a holiday. You old bluffer! I used to bang over the rail of the steamer, on the way up, and see you standing as I left you beside the car with its mule and the Indian driver, and behind you a million miles of soul-destroying pampa. Never mind, Jack; I sent yesterday by mail steamer the cigarettes, pipes and tobacco, canned goods and poker chips. Put in some magazines, too, and the collars. Don't know about the ties—guess it won't matter down there.

Nothing happened on the trip. One of the engines broke down three days out, and I spent all my time below decks for 48 hours. Chief engineer raving with D. T's. Got the engine fixed in record time, and haven't got my hands clean yet. It was bully.

With this I send the papers, which will tell you how I happen to be here,

She is a Thoroughbred.

and why I have leisure to write you three days after landing. If the situation were not so ridiculous, it would be maddening. Here I am, off for a holiday and congratulating myself that I am foot free and heart free—yes, my friend, heart free—here I am, shut in the house of a man I never saw until last night, and wouldn't care if I never saw again, with a lot of people who never heard of me, who are almost equally vague about South America, who play as hard at bridge as I ever worked at building one (forgive this, won't you? the novelty has gone to my head), and who belong to the very class of extravagant, luxury-loving, non-producing parasites (isn't that what we called them?) that you and I used to revile from our lofty Andean pinnacles.

To come down to earth: Here we are, six women and five men, including a policeman, not a servant in the house, and no one who knows how to do anything. They are really immensely interesting, these people: They all know each other very well, and it is "Jimmy" here, and "Dal" there—Dallas Brown, who went to India with me; you remember my speaking of him—and they are good-natured, too, except at meal times. The little hostess, Mrs. Wilson, took over the cooking, and although luncheon was better than breakfast, the food still leaves much to the imagination.

I wish you could see this Mrs. Wilson, Hal. You would change a whole lot of your ideas. She is a thoroughbred, sure enough, and of course some of her beauty is the result of the exquisite care about which you and I—still from our Andean pinnacles—used to rant. But the fact is, she is more than that. She has fire, and pluck, no end. If you could have seen her this morning, standing in front of a cold kitchen range, determined to conquer it, and had seen the tilt of her chin when I offered to take over the cooking—you needn't grin; I can cook, and you know it—you would understand what I mean. It was so clear that she was paralyzed with fright at the idea of getting breakfast, and equally clear that she meant to do it. By the way, I have learned that her name was McNair before she married this would-be artist, Wilson, and that she is a daughter of the McNair who financed the Callao branch!

I have not met the others so intimately. There are two sisters named Mercer, inclined to be noisy—they are

playing roulette in the next room now. One is small and dark, almost Hebraic in type, named Lella and called Lollie. The other, larger, very blonde and languishing, and with a decided preference for masculine society, even saving the mark, mine! Dallas Brown's wife, good looking, smokes cigarettes, when I am not around—they all do, except Mrs. Wilson. Then there is a maiden aunt, who is ill today with grippe and excitement, and a Miss Knowles, who came for a moment last night to see Mrs. Wilson, was caught in the quarantine (see papers), and, after hiding all night in the basement, is sulking all day in her room. Her presence created an excitement out of all proportion to the apparent cause.

From the fact that I have reason to know that my artist host and his beautiful wife are on bad terms, and from the significant glances with which the announcement of Miss Knowles' presence was met, the state of affairs seems rather clear. Wilson impresses me as a spineless sort, anyhow, and when the lady of the basement shut herself away from the rest today and I happened on "Jimmy," as they call him, pleading with her through the door, I very nearly licked him down the stairs. Oh, yes, I'll keep out, right enough; it isn't my affair.

By the way, after quarantine and with the policeman locked in the furnace room, a pearl necklace and a diamond bracelet were stolen! Just ten of us to divide the suspicion! Upon my word, Hal, it's the queerest situation I ever heard of. Which of us did it? I make a guess that not a few of us are fools, but which is the knave? The worst of it is, I am the only un-accredited member of the household!

This is more scandal than I ever wrote in my life. Lay it to circumvented environment, and the lack of 20 miles over the pampa before breakfast. We have all been vaccinated, and the officious gentlemen from the board of health have taken their grins and their formaldehyde and gone. Ye gods, how we cough!

The Carlton order will go through all right, I think. 'Phoned him this morning. If it does, old man, we will take a month in September and explore the Mercator property.

Do you know, Hal, I have been thinking lately that you and I stick too close to the grind. Business is right enough, but what's the use of spending one's best years succeeding in everything except the things that are worth while? I'll be thirty sooner than I care to say, and—oh, well, you won't understand. You'll sit down there, with the Southern Cross and the rest of the infernal astronomical galaxy looking down on you, and the Indians chanting in the village, and you will think I have grown sentimental. I have not. You and I down there have been looking at the world through the reverse end of the glass. It's a bully old world, Hal, and this is God's part of it.

Burn this letter after you read it: I suspect it is covered with germs. Well, happy days, old man.

Yours, TOM.

P. S.—By the way, can't you spare some of the Indian pottery you picked up at Callao? I told Mrs. Wilson about it, and she was immensely interested. Send it to this address. Can you get it to the next steamer?—T.

From Maxwell Reed to Richard Burton Bagley, University club, New York.

Dear Dick:

Inclosed find my check for five hundred, as per wager. Possibly you were within your right in protecting your bet in the manner you chose, but while I do not wish to be offensive, your reporters are damnably so.

Yours,

MAXWELL REED.  
(TO BE CONTINUED.)

They Do Things Better in France.  
It is no easy matter to be married in France, says P. Berkeley Smith, in Success magazine. One great thing in favor of so sacred a ceremony is that it cannot be hastily performed. It is an event requiring months of preparation, of the signing of endless papers, the certificates of birth and the consent of parents, until at last the wedding day, which has been arranged for to the entire satisfaction of every one concerned, including the legal authorities, arrives. If marriage is difficult, divorce is even more so. There are no such romantic and youthful adventures as eloping on a \$12 capital—handing ten to the accommodating parson and wiring for forgiveness with the change.

The Migration of Storks.  
Reference has been made to the departure of the storks from Alsace. The ornithological bureau of Budapest has recently published the results of an interesting experiment. To the leg of a number of young birds a light disk was attached, stating the place of origin and in the event of capture asking that the label might be detached and forwarded to Budapest.  
The rings returned show that the birds have reached Basutoland, the Transvaal and Cape Colony. Unfortunately only two of the ten captured birds escaped death. Eight of those graceful creatures had fallen to the unplying and unerring aim of the sportsman, improperly so called.

Gone Before.  
Penn—Do you see anything of our old friend Growel? Last time I saw him he said he didn't like New York. Gothamite—That's so, but I guess he'd rather be in New York than where he is now.  
Penn—Where is he now?  
Gothmite—I wouldn't care to say. He's dead.—Catholic Standard and Times.

Actor Finally Got the Gas Man Awakened and Attending to His Duties.

"Years ago," says Guy Bates Post, the actor, "I appeared in an amateur performance of a play that had a distinct religious flavor. The leading player had studied for the ministry and had a deep and sonorous voice. In one of the scenes the lights were supposed to be turned down and a raging storm simulated. The accompanying lines were:

"Oh, Lord, deliver us from the powers of darkness."

"The leading man spoke the lines, but darkness didn't follow. He spoke them again, and still the stage was distressingly light. Finally he roared:

"Oh, Lord, deliver us from the power of darkness, and also give that fool gas man sense enough to turn down the lights."

"The gas lights went down and the audience roared."—Pittsburg Chronicle-Telegraph.

**Good Reason for It.**

"I see a premiere danseuse is advertised to dance with five snakes twined about her."

"Should think she would. If a snake got on me I'd bet I'd dance."—Stray Stories.

**COFFEE CONGESTION Causes a Variety of Ails.**

A happy old lady in Wisconsin says:

"During the time I was a coffee drinker I was subject to sick headaches, sometimes lasting 2 or 3 days, totally unfitting me for anything. To this affliction was added, some years ago, a trouble with my heart that was very painful, accompanied by a smothering sensation and faintness.

"Dyspepsia, also, came to make life harder to bear. I took all sorts of patent medicines but none of them helped me for any length of time.

"The doctors frequently told me that coffee was not good for me; but without coffee I felt as if I had no breakfast. I finally decided about 2 years ago to abandon the use of coffee entirely, and as I had read a great deal about Postum I concluded to try that for a breakfast beverage.

"I liked the taste of it and was particularly pleased to notice that it did not 'come up' as coffee used to. The bad spells with my heart grew less and less frequent, and finally ceased altogether, and I have not had an attack of sick headache for more than a year. My digestion is good, too, and I am thankful that I am once more a healthy woman. I know my wonderful restoration to health came from quitting coffee and using Postum." Name given by the Postum Co., Battle Creek, Mich.

"There's a reason," and it is this. Coffee has a direct action on the liver with some people, and causes partial congestion of that organ preventing the natural outlet of the secretions. Then may follow biliousness, sallow skin, headaches, constipation and finally a change of the blood corpuscles and nervous prostration.

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

**For Little Misses**

**L**ACY braids, embroidered batiste and mull, nets, laces, hair braids and silk go to make up the majority of hats for young girls and smaller misses. The shapes are more soft and bonnet like than ever and narrow side platings of sheer fabrics and lace are more favored than ever. Cascades of platted ruffles fall about and over considerable of the face. Soft puffed crowns look like quaint old-time ideas revived for youthful wearers.

When the baby girl graduates from the regulation baby bonnet, she will don a bonnet-like hat, or a bonnet made on a light wire frame, quite elaborately trimmed with ribbons and lace and small flowers. Ribbons have always been the favorite trimming for children's millinery. This spring season it is to be used in greater abundance than ever. Small roses, tiny rose foliage and other little flowers like the forget-me-not and valley-lily, the cow-slip and tiny daisy, continue to reign as favorites for children. There is a little round hat made by shirring a large circle of silk or embroidered batiste or other sheer fabrics, on feather-bone. Four rows of shirring form the up-turned brim, and the crown is just a puff of the material. This little cap is finished with a big rosette made of wide ribbon shirred. A variation of this model has a silk crown and brim of point de esprit. It is a highly successful novelty.

The regular plain bonnet is in high favor, and numbers of little hats are simply diminutives of the simple shapes worn by grown-ups. They are simply trimmed with ribbon.

Fig. 1 shows a pretty model of thin silk and lace Tuscan braid. The light wire shape is faced with silk and bound with braid. A soft tan crown of silk makes a foundation for the

large circle of lace Tuscan which is posed over brim and crown. Ribbon, wide and soft, is laced through the braid and tied in a two-looped bow with hanging ends at the back. It is a model which may be worn by children from four to fourteen years old.

A pretty model for an older girl is shown in Fig. 2. The wire frame in this is covered first with chiffon, which is shirred for the facing. The hat is covered with row after row of side platted lace on top of the crown, and about the brim. At the side crown the platted lace is omitted and little stalks of lily-of-the-valley are set plainly over the chiffon.

A saah of wide soft ribbon finished with an immense bow at the back makes a complete finish for the hat. But a bunch of cowslips or other small flowers may be added at the front, as shown in the picture.

**JULIA BOTTOMLEY.**

**PRETTY BLOUSE.**

The girl who likes to lighten a dark costume with dainty frills, should make herself one of the sets of round Dutch collar and cuffs in platted lawn.

The frills are made of fine white lawn or dotted muslin, and are cut three and a half inches wide for the collar, and two inches for the cuffs.

Mark the edge in a tiny scallop, and buttonhole in white or colored mercerized cotton in a shallow line. When finished sew into eighth of an inch side platts and sew into narrow band the right length to fit around wrist and neck. The frill falls softly from the band or in the sleeves may be inverted and turned back, being caught at one side with a lace pin.

Instead of arranging in platts, which are hard to iron, the frills may be run in thread tucks to give the fullness. This model is good for high turnover effects and for the Dutch collar. For the latter the strip should be made narrower at the ends than in the middle.

**Surah Silks Again.**

Surah twill silk in solid color is a material which is claiming much favor, being used by the best model houses in Paris for making tailored suits and three-piece costumes. This new surah has a high luster surface and is used in exactly the same manner as satins have been so freely employed recently.

Surah is especially well adapted for summer use in America. It is durable, sufficiently dressy for a handsome suit, is light weight, and, therefore, comfortable for summer use in many parts of the United States. More than this, domestic silk mills are equipped to produce surah silks.

**Black Velvet Bags.**

Black velvet bags are supplanting the gold mesh purses, long so dear to the heart of every woman. These new bags are of thick velvet and are framed in gold or silver. They are in many shapes, but all are suspended from the arm by heavy silken cords and tassels, very long, so that the bag drops almost to the knees. Some of the new bags are elaborately beaded, but generally the fabric is so fine in quality that it needs no other embellishment than its own elegance.

**What French Brides Are Wearing.**

French brides have taken to wearing bridal dresses of malines or tulle in combination with Brussels lace boucans and voluminous enveloping ruffs are also of the maline or tulle.

**DUTCH COLLAR AND CUFFS**

Dainty Frills That Are Designed to Lighten Up a Dark Costume.

Why? Just Because.

"Papa," said the little boy, "why do they say a woman is 'setting her cap for a man' when she wants to marry him?"

"Because, my son," explains the father, softly, "if she sets her bonnet for him she knows blamed well the price of it will scare him to death."

**Shop Talk.**

The Customer (quite seriously)—"An' how's your liver today, sor?"

The Butcher—"Fine and dandy, Mrs. Flaherty—and only 15 cents a pound!"

Constipation slowly impairs the general health—Garfield Tea corrects constipation and benefits the entire system.

Use Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

It is not the quality of the meat but the cheerfulness of the guests which makes the feast.—Lord Clarendon.

**THE PRICE OF LAND INCREASING**

THE "BACK TO THE LAND" CRY IS EFFECTIVE.

Traveling through the state of Iowa the other day, and Iowa is no exception to the story about to be related, the writer was shown a farm that was offered three years ago for \$250 an acre. That appeared to be a high figure for land upon which the owner depended upon the crops of corn, hogs and cattle that could be raised upon it. But it wasn't. A few weeks since the farm changed hands at \$325 an acre. Over in Illinois, down in Indiana, up in Wisconsin, across the line in Minnesota, the same experience was met with. And then attention is directed to Canada, which has been the Mecca of so many hundred thousand Americans during the past few years. Not only in Eastern Canada has the price of lands increased, but in Western Canada, during the past few weeks, farm lands have increased from three to five dollars an acre, with the prospect of a similar advance during the next three months. The reason for this is very apparent, and in a few words it may be pointed out that the lands are worth a great deal more than the present prices.

The Northwestern Agriculturist of Minneapolis, a paper that was one of the first of the American farm papers to discover the real merits of the lands of Manitoba, Saskatchewan and Alberta, says: "The reciprocity schedule would encourage American farmers to move to Canada, where the virgin soil will produce greater crops of grain with less labor than can be produced in our own farms in the Northwest. The result will be to enhance land values in Canada." This paper is afraid land values in Canada will be enhanced at the expense of land values in the United States. In face of the fact that land values in the United States are increasing the reasoning scarcely holds. The reason for the advance in value of Canadian lands is partly accounted for from the fact, admitted by this paper, that Canada's virgin soil will produce "greater crops of grain with less labor." But that is not the only reason. During the past twelve months 320,000 people have made Canada their home and these are mostly of the farming class. They want farms, and the demand as well as the wealth of the soil is regulating the price. A study of the increase in the acreage of land put under crop last year, which can be had from any Canadian government representative, will prove the point, that the demand is increasing at a greater ratio than even the most sanguine would have predicted.

**Triumph of Courage.**

Courage and the "power of the human eye," saved Walter Sergeant, a prosperous rancher, in the Redwood district, San Jose, when he was confronted by a hungry mountain lion the other evening. Sergeant was driving a herd of cows to his home in the foothills when he noticed the big cat stalking him. As it crouched for a spring, Sargent turned and fixed the beast with his eye. Man and lion remained as immovable as statues for a few seconds and then the animal turned and trotted away.

## MAIL ORDER HOUSES.

A mail order house in Chicago or some other city may be able to sell you anything from a paper of pins to a house and lot, simply by referring you to their catalogues, but they can't sell you a GOOD WATCH that way. WATCHES are very delicate machines that may be put out of order in a dozen ways after leaving the factory. A JEWELER knows how to put the watch into shape, and he won't sell one without doing it. MAIL ORDER HOUSES DO NOT WANT TO BOTHER WITH THAT, AND AS A MATTER OF FACT, THEY CANNOT IF THEY WOULD. When you buy a WATCH go to a JEWELER, tell him what you want, and he will sell you a WATCH in good running order. Do not make the mistake of trying to buy by mail from any catalogue. You won't know what you are getting if you do. IF YOU BUY OF US YOU WILL MAKE NO MISTAKE.

## MAIL ORDER HOUSES.

A mail order house in Chicago or some other city may be able to sell you anything from a paper of pins to a house and lot, simply by referring you to their catalogues, but they can't sell you a GOOD WATCH that way. WATCHES are very delicate machines that may be put out of order in a dozen ways after leaving the factory. A JEWELER knows how to put the watch into shape, and he won't sell one without doing it. MAIL ORDER HOUSES DO NOT WANT TO BOTHER WITH THAT, AND AS A MATTER OF FACT, THEY CANNOT IF THEY WOULD. When you buy a WATCH go to a JEWELER, tell him what you want, and he will sell you a WATCH in good running order. Do not make the mistake of trying to buy by mail from any catalogue. You won't know what you are getting if you do. IF YOU BUY OF US YOU WILL MAKE NO MISTAKE.
