FREE 100 Beautiful Sets Royal Plate Silver Spoons, 100 sets of Gentlemen's Gold Filled and Pearl Tie Pins, Cuff Buttons and Tie Holders, 100 Large Pieces of Beautiful Pressed Cut Glass, 100 Beautiful Pocket Books.

Above Valuable Premiums Will Be Given Absolutely Free for Solving the **GREAT LINCOLN PUZZLE**

FREE To every person that solves the above puzzle, the manufacturers who control and distribute this advertising appropriation, will give absolutely free, the choice of the following valuable premiums: Large piece of beautiful Pressed Cut Glass, Set of Royal Guaranteed Silver Spoons, Set of Gentlemen's Gold Filled and Pearl Cuff Buttons, Tie Pins and Tie Holder or Pocket Book, also a Bona Fide Manufacturers' Credit Voucher for \$120.00, good only on any new piano in our store. For many years piano manufacturers and dealers have tried to reduce the selling expense of pianos. The old way of paying solicitors, paying music teacher's commissions and engaging great artists to play their pianos at fabulous sums are being eliminated, and now it is the question of the best advertising piano, and one in which the purchasers are given the greatest possible value. This is the age of co-operation and the manufacturers correctly believe that the best way to market and introduce their product is to spend the advertising money in making special offers to the people rather than employing world famous demonstrators at fabulous expenses and making the people pay for such methods by asking a heavily inflated price for the piano.

CAN YOU SOLVE IT?
Directions IN THE ABOVE PICTURE ARE SIX FACES. See if you can find five of them. No matter how many you can find, trace the outlines, numbering them 1, 2, 3, 4, 5, etc., on this or a separate piece of paper. Mail or bring your answer to our store. You will be notified by mail and all premiums must be called for within ten days from closing of contest. Only one person in a family can enter.

All Contestants who call at our store and use their Bona Fide Manufacturers' Credit Voucher as part payment towards the purchase of a new piano paying the balance cash, we will give the choice of a beautiful chest of silver, genuine diamond ring, ladies' gold watch, gentlemen's gold watch.

NO GREATER Mistake can be made than imagining that it is economy to buy the cheapest Harness and Saddlery Goods because the price seems low. The shoddy character of cheap goods takes away all apparent saving and always conduces to dissatisfaction. I make a special point on the character of workmanship and material. The lowest price consistent with a high standard of excellence always obtained at my place. I earnestly invite inspection of goods and prices. I positively mean to do the best I can by my patrons. BEATRICE Cream Separator
Efficiency
 Efficiency in a Cream Separator is measured by the amount of work the machine will do and the way it does it. With the BEATRICE you can skim more milk, in the same time, and skim cleaner, than with any other Separator.
Economy
 The BEATRICE is the Separator for real economy, because, capacity considered, the price is lowest; because it gets more cream out of the milk, and because it saves time and labor.
Durability
 The construction of the BEATRICE is all strength and durability. All bearings used are the best. It is the strongest, best looking and most economical Separator. Trouble in operation is almost unknown with and cost of repairs is very low.
Price
 In the BEATRICE you get more than 50% of the separating capacity for the same money—and we guarantee you \$25 in the money if you are not satisfied. The price is \$12.50 for the 10 qt. model, \$15.00 for the 15 qt. model, \$17.50 for the 20 qt. model. Free trial on request. Write for literature. The Star Waterer and the Home Goods Catalogue.

Studebaker

"Yes, our new wagon's a Studebaker — the only kind we KNOW"

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."

"It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most."

"Long service for a fair price means more every time than short service for a few dollars less."

"That's why we stick to Studebaker—and 'Stick to Studebaker' is a pretty good motto for a man who uses wagons."

"Studebaker wagons are built of good stuff. They're made right by people who've had years and years of experience in making them right—people who are trusted the world over."

"Studebaker wagons last, because they're made to last."

"Look out for the dealer who tells you his wagon is just as good as a Studebaker. That's my advice after a good deal of experience—and the experience of all of my people. You get a Studebaker and you've got a safe investment."

How to get Tire Mileage

You cannot possibly get more out of an automobile tire than the manufacturer puts into it. Obviously you should buy tires that are well made.

G&J Tires

contain all of the strong points of four of the world's most famous brand of tires.

They are made the UNITED STATES TIRE COMPANY way.

There is the strength of four in every one.

Consider what it means to you to be able to purchase tires made as United States tires are made.

DID YOU EVER STOP TO "THINK" About the "Twin Tables"

Up to this time, Pedestal Tables have been made with a single pedestal, but their shortcomings are so many that one manufacturer has succeeded in overcoming them by using two pedestals—each oval or oblong and complete in itself. They are called

"Twin" Pedestal Extension Tables

They are superior to others because:
No troublesome lock necessary. Gaping or standing open at bottom impossible. As perfect extended as when closed.

In extending a "Twin" to 6 ft. the tops open without spreading pedestals. Prevents marring of finish on legs. If extended farther than this the pedestals spread, giving the most rigid support possible without exposing unfinished surfaces, locks, bolts, etc., as is the case with the single pedestal tables, a feature worthy of your attention, especially when entertaining friends at luncheon or if table is continually used, in the extended position.

"Twins" are made in numerous designs and finishes.
