A ROMANCE OF STRENUOUS AFFECTION BY REX BEACH

Illustrated by Edgar Bert Smith

SYNOPSIS.

Chapin of the Flying Heart ranch... CHAPTER II.—Continued... CHAPTER III.

Where does this fellow think he is? Here's a postscript, added Chapin...

When they had gone Jean smiled wisely at Helen. "Roberta's such a thoughtful chap," she observed...

"You've got another foot-runner," much as I do at this moment. "We may be gone before you return..."

This great triumph of mechanical skill was accomplished under the superintendence of Domenico Fontana...

"I'm not thinking of the others, I'm thinking of myself," declared the young man, boldly. "I don't want you to go before I return..."

It is appropriate for the demi-toilet or the elegant and more showy shoes are shown with patent vamp and gray buckskin top...

COIFFURE AND HAIR ORNAMENT MOST EFFECTIVE The coiffure pictured here belongs to the class described as the "Casque" coiffure...

Slashed Petticoat. We have had the "tango" gown; now has descended upon us the "tango" petticoat...

Worth Trying. The recipe of a doctor for those who have suffered from blotchy complexion and fatigue is worth trying...

Prevailing Styles in the New Shoes.

Every season finds women more exacting in the matter of foot-wear. Shoes and stockings must be faultless for the well-dressed and up-to-date member of modern society...

The recipe of a doctor for those who have suffered from blotchy complexion and fatigue is worth trying...

Vegetable Salad. Lay lettuce leaves on your dish, then cold potatoes sliced fine, onions chopped fine...

Sweet Potato Squash. Wash and halve the squash, then scrape out the seeds and loose pulp. Place in oven and bake until tender...

ORANGES AND LEMONS

THEIR USEFULNESS AND VALUE IN THE HOUSEHOLD. As Foundations for Dishes, and as Flavoring, They Are Essentially Desirable in the Household Menu.

Enormous numbers of oranges are being imported into our markets now; and they are of the greatest value to us...

English grated orange marmalade: Grate the yellow rind of the orange, but do not grate in any of the bitter white lining...

Small oranges crystallized: Remove the skin and white lining from small oranges and take care not to break the sections apart...

His Preference.

Dealer—You want a ton of coal? What size? Customer—Well, if it isn't asking too much, I'd like a 2,000-pound ton.

Economy's Drawbacks.

Madge—Don't you think a girl should marry an economical man? Dolly—I suppose so; but it's awful being engaged to one.

Natural Trend.

"That funny fellow loves to tell tales about his wonderful bulge!" "Quite natural for a wag to take to dog stories."

The Eternal Feminine.

"Don't buy any of those comforts, You don't need them!" "I know; but they are all marked down."

Home Activities.

"What will the effect of the present legislature be?" "Well," replied Senator Sorghum, "out my way it has already just about broken up the fence-mending industry."

How He Exercises.

Masseur—The muscles of your neck need attention; you should turn your head rapidly, say fifty times, night and morning. Chestnut—But I do. I walk up and down Fifth avenue twice a day.—Lafé.

What He Misses.

"What's Wombat irritated about now?" "These shocking transparent skirts!" "Why should they make him peevish?" "He hears about 'em, but never sees any."—Pittsburgh Post.

Not to Be Believed.

Parishioner (to departing minister) —We're all very sorry to lose you, Mr. Foodle. Mr. Foodle (modestly) —Never mind, Mrs. Foodle. I've no doubt you will get a better man next time.

Not to Be Believed.

Parishioner—Ah, no, Mr. Foodle. That's just what the last minister said when he left.

Toasted to a Golden Brown!

Sounds "smacking good," doesn't it?

HOUSEKEEPERS Must be Watchful

For great efforts are being made in this vicinity to sell baking powders of inferior class, made from alum acids and lime phosphates, both undesirable to those who require high-grade cream of tartar baking powder to make clean and healthful food.

The official Government tests have shown Royal Baking Powder to be a pure, healthful, grape cream of tartar baking powder, of highest strength, and care should be taken to prevent the substitution of any other brand in its place.

Royal Baking Powder costs only a fair price per pound, and is cheaper and better at its price than any other baking powder in the world.

—In keeping with the season, the STATESMAN has made arrangements to print a delightful Christmas story entitled, "Only Jones," in three parts, the first part appearing in our issue of Nov. 23rd. This is a unique story produced in a decidedly unique manner by three of the most popular writers of the day—Henry Kitchell Webster, S. E. Kiser and Wilbur D. Nesbit. Their method of procedure was for each author to supply a part or chapter to the story. Mr. Webster writing Part One and turning his manuscript to Mr. Kiser, who added Part Two and sent it along to Mr. Nesbit, the latter being left to give the finishing touches according to his ideas. With these past-masters of humor collaborating in such a manner, the result is most delightful and our many readers will certainly find "Only Jones" a most original and excellent Christmas story.

Deafness Cannot be Cured

by local application, as they cannot reach the diseased portion of the ear. There is only one cure for deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

CHICAGO AND NORTH WESTERN RAILWAY
Establishes Representatives in the Principal European Cities.
The Passenger Department of the Chicago and Northwestern Railway Company has established representatives of their Traffic Department in eighteen of the principal cities of Europe, including London, Liverpool, Glasgow, Southampton, Antwerp, Rotterdam, Paris, Havre, Marseille, Rome, Genoa, Naples, Berlin, Hamburg, Bremen, Frankfurt, Copenhagen and Christiania.
These representatives are experienced and qualified to plan itineraries, quote rates, check baggage, arrange for payment of customs and supply maps and descriptive matter and assist in arranging all minor details incident to a trip from Europe to and through America over the Chicago and North Western Railway, which comprises over ten thousand miles of perfectly equipped railway, traversing the nine great states west and northwest of Chicago, and by its traffic arrangements with connecting lines operating the most complete through train service over the famous "Overland Route" from its palatial new Chicago Passenger Terminal to the Pacific Coast.
It offers a service of the most modern equipment running over the direct route and historical highway to the Panama-Pacific Exposition, San Francisco, 1915.
The establishment of these offices in Europe will no doubt be greatly appreciated by the thousands of Americans who visit Europe annually as they will find there well equipped offices at their disposal for securing information and assistance relating to travel in Europe, round the World, and for their return journeys.
They will further add greatly in stimulating travel to and through the United States and will bring prominently to the attention of the European traveler the many attractions America has to offer to the tourist as well as the business man.
The exact location of these offices in the cities named above are shown in the complete time table folders and other printed matter issued by this Company. —Advertisement.

Record-Smashing Entries
Entries vastly exceeding in number any list heretofore compiled indicate growing interest in the International Live Stock Exposition, which opens this year at Chicago, November 29th to December 6th. No such list of exhibits has ever before been prepared, nor for that matter have the live stock producers of the North American continent previously manifested such concern in the future of that industry. Every department of the exposition will be full, interest being manifested alike in horses, cattle, hogs and sheep.
The spectacular side of the exposition will be as prominent as the practical. A series of evening attractions of unique character have been prepared and there will be no lack of entertainment to maintain the essential equilibrium. Equipse has always been a characteristic of the "International," and the management intends to attain the standard of perfection in every department of the exposition.
Interest in the fair here, instead of waning is growing and the nightly horse fair will excel even the superb equine display of former years.
It is swine and sheep the breeders of the United States and Canada promise to eclipse all previous efforts. Wisconsin and Ontario, as usual, will make a stellar display, and the Western grower will again demonstrate the merit of range product.
Current and threatened beef scarcity renders the fat cattle display of more than usual interest this year. That the beef industry is "coming back" will be effectively demonstrated, and feelers will be furnished with numerous object lessons on the subject of economy in production. In other words, the master feeders of the country will show and tell how they do it.
If you miss the 1913 International Live Stock Exposition you will be the loser.
