Dassel, Arthur Bassil, Edwin Bassil, Elmer Bassil, Alfred Ramthun, Paul Seefeld, Louis Seefeld, Herbert Ramthun, Allan Brosaman, August Vuoks, Robert Vuoks, Henry Haafschild and Byron Martin.

"IMPERIAL GERMANY"
WHAT IT IS
 By DR. TALCOTT WILLIAMS,
 Director of the Columbia University
 School of Journalism.

Based on the principle, immoral in ethics, tyrannical in operation, and perilous to all liberty, that certain men are born to rule, the "Imperial German Government" has for a generation been the foe of liberty and the enemy of freedom. Its whole influence has been thrown to suppress freedom in the four Balkan states. It has prevented their peaceful development, refused to enforce the Treaty of Berlin, which would have brought peace, and is responsible for four Balkan wars. A score of years ago it supported the bloodthirsty Sultan of Turkey in Armenian massacres, and the officers of the "Imperial German Government" have aided and abetted these massacres now because the Armenians worked and planned for liberty when other races in Turkey were quiescent. It is the "Imperial German Government" which is responsible for 800,000 Armenians, starved to death as Germans themselves testify.

"Secret Enemy."
 In 1908, when the revolutionary Turkish government was for freedom, Germany opposed it; when it became tyrannical Germany made this government its ally. The German government harassed France not merely because it was its ancient enemy, but because its success as a republic made the French people perilous to its power. The German government plotted to restore the Manchu Emperor and the Russian Czar to their thrones.
 Because the American people by its prosperity and power made liberty desired by all the world the German government has been its secret enemy. Thirty years ago it plotted against our treaty rights in Samoa; it sent its fleet to worry and threaten Dewey at Manila in 1898; it offered to England, which refused, to overturn the Monroe Doctrine in Mexico. It has in fifteen years threatened Venezuela, Mexico, Hayti and other American states. When we were maintaining peace under great provocation, it proposed to Mexico and Japan to attack us, both refusing. It betrayed international faith in the dispatches sent through the Swedish Minister. It filled our land with spies, sought unavailingly to entomb us with those of German birth resident in this country, slaughtered our citizens on the high seas, contrary to all law, national and international, human and divine.

"Bore Much."
 We waited long, we bore much, and we are now sending our sons to the war declared against the "Imperial German Government" because the record of thirty years shows that neither liberty nor democratic institutions are safe the world over while that government is powerful. We wisely prefer, after what Belgium suffered, to fight Germany "somewhere in France" rather than in New York harbor; on the Somme, rather than on the Hudson. In one or the other we should have had to fight. In 1776 we sent our sons to fight for American liberty, and we won it. In 1812 we fought for the freedom of the sea, and we won that. In 1861 we sent our sons to fight for the liberty of the slave, and we won that. Today we send our sons out to fight for the liberty of humanity, and we shall win that.

**NEARLY AS MANY AMERICANS
 DIED AS SOLDIERS KILLED
 IN FRANCE**

According to an estimate prepared by the bureau of the census, almost as many Americans have died the past few months of the Spanish influenza and pneumonia, as there were soldiers killed in action in France. The reports from forty-six large cities having a combined population of 25,000,000, show a death list of 22,395, which occurred from the epidemic between September 8th to November 9th, while the death rate in the American Expeditionary Forces for the same period is estimated at about 40,000 to 45,000. The greatest loss occurred during the first two and a half weeks in October, when 10,782 deaths were reported. The greatest death rate however, in proportion to population—7.1 per 1000, occurred in Philadelphia, and the next greatest—6.7 per 1000 was reported in Baltimore. According to these figures the village of Kewaskum up to the present time is very fortunate. Although quite a number of cases have been reported, only one death occurred from the dreadful disease, namely John Keller. Even though the ban has been lifted the terrible loss of life inflicted upon various sections of the United States is ample warning to all citizens to be cautious and follow the rules for the prevention of the disease strictly to the letter. A stitch in time may save nine.
