A STRANGE STORY

Told by a Well Known Detroit Man

Detroit, Mich.—"When I was about twenty-three years of age I suffered from general weakness in health, due to worry and overwork. I was also troubled with catarrh of long standing. To make matters still worse, my lungs became affected and a persistent cough stopped me in my tracks. I had lost my appetite, my sleep, and my health followed."

"All my savings, about \$800.00, went dribbling, dribbling, in payment for drugs and medical attendance. I consulted some of the leading physicians in St. Louis, and I have every reason to believe they tried to help me, but lacked the skill. After seven months of suffering when I had given up all hope of ever being well again, my wife asked me if I would try some more combination of remedies, if only to please her. Of course I complied with her wish, at the same time telling her not to expect too much from them. She had me use Dr. Pierce's Golden Medical Discovery, Dr. Pierce's Pleasant Pellets and Dr. Sage's Catarrh Remedy, according to directions, and in spite of the physicians' predictions, in spite of my own doubts and misgivings, I gradually began to feel better. Hope revived—I took a new interest in life. In less than three months these remedies had affected a cure and I have never been troubled with catarrh since."

"Whenever I don't feel just right I take a few days' treatment of the 'Golden Medical Discovery.' If my bowels need regulating I take the 'Pleasant Pellets.' The result is always the same—almost immediate relief. Can any sane person blame me for having faith in these remedies? And is it not just natural that I should recommend them to my friends? For thirty years have I used Dr. Pierce's remedies and they have never failed me yet. At the age of fifty-three I have the strength, the agility and the general physical efficiency of a man of thirty-five. If I am enthusiastic in the praise of these remedies it is due to the fact that there is a reason."—HARRY VANDERBURG, 313 Euclid Ave.

FRECKLES

Eventful Day in Yuma. What must have been the excitement in Yuma, Ariz., when on January 4 rain fell there for the first time in 45 years? Grown men and women, young men and women, boys and girls who had never seen rain gazed in alarm or delight or wonder at an amazing sight; they saw the heavens veiled for the first time and water falling from the gray curtain drawn across their sky of brilliant sun bursts and patches about in puddles; men and boys throwing off their coats more intimately to feel the delights of a cloud-strewn shower; bath, a shower took on the proportions of an event; a natural phenomenon reached the heights of a treat.

BREAKS YOUR COLD IN JUST A FEW HOURS

"Pape's Cold Compound" instantly relieves stiffness and distress. Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripple misery. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's—Adv.

The Selection. "I have been eating fish for the benefit of my brain." "Weakish?"

AFTER 7 YEARS—STILL WELL

Now Enjoys Best of Health and Does Her Housework Unaided. "I didn't enjoy one day of good health for more than two years," says Mrs. C. E. Wildes, 748 E. Georgia St., Memphis, Tenn. "At first I had nothing more than backache. Afterwards terrible attacks of pain left me weak and limp. My arms and limbs ached. My feet felt weighted with fans of lead. I couldn't walk without a cane and had to be carried to bed every night. I couldn't do a bit of work and kept my people busy rubbing my aching limbs. Sometimes my whole body became rigid. My feet were swollen twice their normal size. It almost killed me to pass the kidney secretions. I lost 42 pounds and each day felt I had aged a year. I was so nervous the rustle of a paper made me scream. Finally I was advised to use Doan's Kidney Pills and seven boxes made me a well woman. I have enjoyed the best of health for seven years, and have done all my housework without any trouble." Sworn to before me. JOHN MCNEELY, Notary Public. Get Doan's at Any Store, 80c a Box. THE BEST KNOWN PORTRAIT OF WASHINGTON—This has been called an idealized portrait of our first president, which has everywhere become the familiar one. It was painted by Gilbert Stuart in 1795.

MANY JEALOUS OF WASHINGTON

Before His Retirement Great Leader Was Not Immune From the Attacks of His Enemies.

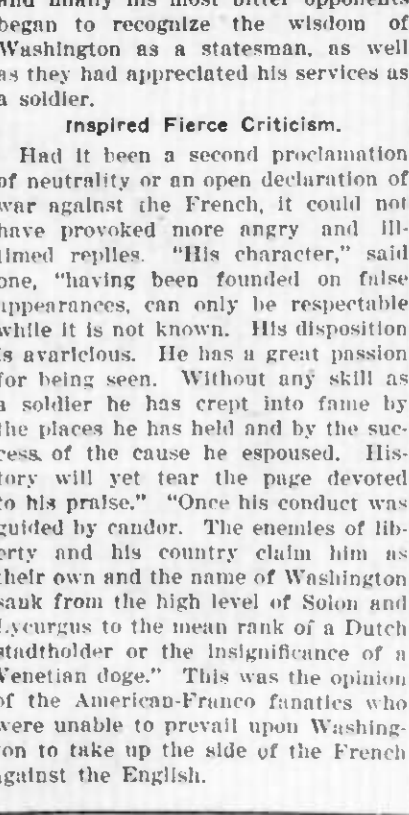

THE fame of George Washington lived down every criticism and critic directed against him. Today his name is revered beyond that of any other American and it is hard to realize that for the great deeds he had accomplished he should have made a great many enemies, who tried by every means to blacken his character and break his popularity with the people. The custom of celebrating February 22 in honor of Washington's birthday dates back to 1783. On that day and year a number of gentlemen who admired him met in a tavern in New York. One had written an ode and another brought a list of toasts. The celebration at once became popular and the historian says: "March was far gone before the Gazette and Advertiser ceased to publish narratives of the bonfires and the barbecues, the feasting, etc., which came in from every town in the land."

Washington "Aristocrat." But there was a considerable part of the community who looked upon these celebrations with hidden rage. A writer in the Pasadena Star-News observes: "These consisted mostly of the admirers of France and the new republic, and they claimed that the president was an aristocrat. Was he not cold and reserved? Did he not carefully avoid the use of the word 'servant' when he signed his letters? Did he not keep a fine coach? Has he ever been seen mingling with his fellow men at the coffee house or on the street? These and many other things were said to his detriment. But Washington paid no attention to the willful misconstruction of his most innocent acts. In 1796 for the first time in the history of the country the office of president was open to competition. Twice had Washington been

chosen by the unanimous vote of the electoral college and twice inaugurated with the warmest approbation of the whole people. But the times had now changed. In 1789 and 1792 every man was for him. In 1793 and 1794 every man was against him. Adams, whom they said, had the simplicity of a republican, but Washington had the ostentation of an eastern push.

When, however, it was known that Washington would not serve again the merits of a number of candidates were urged and discussed, and upon his retirement to Mount Vernon the opposition to him gradually grew less violent and finally his most bitter opponents began to recognize the wisdom of Washington as a statesman, as well as they had appreciated his services as a soldier. Inspired Fierce Criticism. Had there been a second proclamation of neutrality or an open declaration of war against the French, it could not have provoked more angry and ill-timed replies. "His character," said one, "having been founded on false appearances, can only be respectable while it is not known. His disposition is aversive. He has a great passion for being seen. Without any skill as a soldier he has crept into fame by the success of the cause he espoused. History will yet tear the page devoted to his praise." "Once his conduct was guided by candor. The enemies of liberty and his country claim him as their own and the name of Washington sank from the high level of Solon and Lycurgus to the mean rank of a Dutch statesholder or the insignificance of a Venetian doge." This was the opinion of the American-France fanatics who were unable to prevail upon Washington to take up the side of the French against the English.

him so moved. The tears rolled unchecked down his cheek, and when at last he went within a great smothered common voice went through the street throng, as if they sobbed to see their hero go from their side forever.

PAID TRIBUTE TO GREAT MAN

Remarkable Demonstration of the Honor in Which the People Held Their First President.

IT WAS on September 19, 1793, that Washington issued his farewell address to the American people. As Washington's second term drew to a close the public once more turned to him with confidence and affection and would have had him take the presidency a third time, to keep the government steady in its new ways. But he would not have the hard office again. Then he issued his final address, which, he said, was "designed in a more special manner for the young men of the country," and spoke the advice he hoped they might take to heart. When the day came on which he

WASHINGTON AS A BUSINESS MAN.

Washington was a man of extraordinary activity. It was his custom to rise at 4 o'clock, and he claimed that a great deal of his work was done while others slept. "My manner of living," he wrote, "is plain, and I do not mean to be put out by it." It was said of him, "At the time of his marriage it is no great strain of metaphor to say that Washington had now his first chance to sit down since the days when he had pored over his school copybook." After the war and his first term as president Washington found his estates run down and unprofitable, yet he so redeemed his fortunes by his application to his affairs and by good business judgment that he died the second richest man in America at that time.—Christian Her-

SENATE GETS TREATY

FOREIGN RELATIONS COMMITTEE REPORTS PACT TO BODY.

Senator Lodge's 14 Original Reservations Are Still Attached to the Document.

Washington, Feb. 11.—Senator Lodge reported the peace treaty to the senate from the foreign relations committee with the 14 original Lodge reservations attached as the condition of ratification.

It was announced that because of the absence of a number of senators, many of whom are ill, the battle over the question of ratification will not be opened in the senate until Monday.

During the interim the senate leaders hope to be able to get the railroad bill and other important legislation out of the way, in order that these matters shall not be held up if the treaty debate is carried on for another two or three months.

The interval will also be spent by all the mild and little reservationists in endeavors to modify and weaken the Lodge reservations so that they will be less likely to meet with the disapproval of the president.

The efforts of the senators in this classification are chiefly directed at the Lodge reservation on Article X and the Lenox reservation on the equality of voting in the league. President Wilson objects to the former and the British empire, through its spokesman, Viscount Grey, has expressed disapproval of the other. Although Viscount Grey told Senator Hitchcock that Britain would prefer to give the United States six votes rather than permit her colonies to be disfranchised by the Lenox reservation, it is unlikely that the mild reservationists will favor a straight-out provision raising America's representation in the league to an equality with the British empire, as was contemplated by the amendment of Senator Johnson of California, which was defeated by two votes. Senator Johnson himself intends to make the fight for this amendment as soon as his health permits him to resume his seat in the senate.

LLOYD GEORGE ON HIGH COST

British Premier Declares It Due to Depreciation of Money, Not Profiteering.

London, Feb. 11.—Declaring that the duty of the government was to maintain law and order in Ireland, Premier Lloyd George, following the king's speech to parliament, said the high cost of living was attributable to the depreciation of money and not to profiteering. The only remedy was to increase production, he declared.

Dealing at length with the situation in Russia, Mr. Lloyd George said he agreed with the view that Europe could not be restored without putting Russia, with all her strength and resources, "into circulation." Bolshevism was possibly efficient, said the premier, but it was not democracy, and Russia must be restored under an anti-bolshevik regime.

EGYPT "ROLLING IN WEALTH"

Illiterate Mud Hut Dwellers Make Thousands in Cotton Deals—Automobiles in Demand.

London, Feb. 11.—Egypt is "bursting with wealth" accumulated from cotton, says a correspondent of the Daily Express in Cairo. "Illiterate natives living in mud huts have made £20,000 sterling out of cotton deals," he continues. "Some have made £100,000. They are buying land at inflated prices and paying off mortgages which are regarded as family heirlooms. One British official says the country has made at least £100,000,000. Naturally there is an influx of new millionaires in Cairo, with a huge demand for automobiles, jewelry, new houses and all kinds of luxuries, but in the provinces many of the newly rich have not changed their standard of living at all."

BYRNES REPEATS STATEMENT

South Carolina Congressman Tells Committee That Sims Belittled America's Part in War.

Washington, Feb. 11.—Representative Byrnes (Dem.) of South Carolina reiterated before the senate committee investigating naval awards that Rear Admiral Sims in a conversation with him in Paris had sought to belittle America's contribution to the victory over Germany. Mr. Byrnes said he reported the conversation and the circumstances attending it to President Wilson just before the president left for France in December, 1918, to attend the peace conference.

GOLD-SILVER PARITY URGED

Senator Thomas of Colorado Says Only International Bimetallism Can Adjust Exchange.

Washington, Feb. 11.—Declaring that foreign exchange had become the "sinister international problem" within the last six months, and unless adjusted soon "commercial chaos" would overwhelm international trade, Senator Thomas (Dem.), Colorado, urged in a speech the re-establishment of the old ratio between gold and silver and the creation of international bimetallism.

Quieting Influence.

"Did that investigation produce any good results?" "Undoubtedly. It took a matter in hand that seemed likely to create great excitement and made it seem so uninteresting that nobody now pays any attention to it."

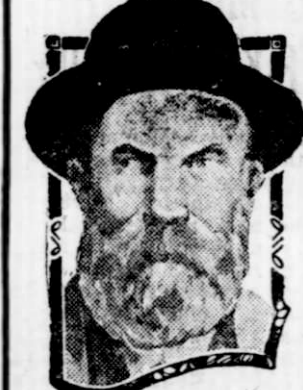

Not According to Rank.

"That was a queer surgical case of the major's." "Why?" "The doctor said it would be a minor operation."

"RESULTS MORE THAN CLAIMED"

So testifies Mr. J. F. ARENDT, Box 44, Hemlig, Texas

PE-RU-NA THE REMEDY FOR EVERYDAY ILLS

"I have used Pe-ru-na for years in cases of colds and catarrh. The results have been good, in fact, more than you claimed. Have also taken Lacupia and can easily say it is one of the best blood purifiers I have ever used."

Mr. J. F. Arendt

For Catarrh and Catarrhal Conditions

The evidence of one man like Mr. Arendt is more convincing proof to you of the merits of Pe-ru-na than any written words of ours. For fifty years Pe-ru-na has been the standby of the American family for diseases due to catarrhal inflammation of the mucous membranes lining the organs of the body. Thousands, like Mr. Arendt, have proved the effectiveness of Pe-ru-na for coughs, colds, nasal catarrh, stomach, bowel and liver disorders or any disease characterized by a catarrhal condition. If your suffering is the result of a catarrhal disorder try Pe-ru-na. It is a true, tried medicine.

BOSCHEE'S SYRUP.

A cold is probably the most common of all disorders and when neglected is apt to be most dangerous. Statistics show that more than three times as many people died from influenza last year, as were killed in the greatest war the world has ever known. For the last fifty-three years Boschee's Syrup has been used for coughs, bronchitis, colds, throat irritation and especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning. Made in America and used in the homes of thousands of families all over the civilized world. A Little Gossip Now and Then.

"Jernallon tells me that his wife is very angry with you because you did not keep your promise not to tell anybody what she told you about her sister-in-law," says Mr. Pifflecker, reprovingly. "Well, she has no reason to censure me," asserts Mrs. Pifflecker. "I never confided it to anybody except you."

DOLLARS AND CENTS

Counting it only in dollars and cents how much did that last cold cost you? A man may not always stop work when he has a cold, but perhaps it would be better if he did. It takes about ten days to get completely rid of a cold under the usual treatment. That time can be much shortened by taking Chamberlain's Cough Remedy and proper care of yourself, in fact, a bottle of this remedy in the house is a mighty good investment during the winter and spring months.—Adv.

- 2—Slips right over your leather shoe
- 3—Fleece-lined—warm and dry

NO more dirty, mud-clogged overshoes! Here's some thing new—an overshoe that you can clean instantly. Dash a pail of water over it—or hold it right under a faucet—and every trace of dirt washes quickly off its smooth rubber surface.

For dozens of odd jobs around the place, you want an overshoe that you can slip on and off in a hurry. Here it is—buckle it on in a second—unbuckle it and push it off with your toe when you're through.

Ever work on a job all day long with wet, cold feet? Then you'll be glad of the soft, fleecy lining in this new overshoe that keeps your feet always warm and comfortable. Dry, too—it's absolutely watertight.

Think of having an overshoe as warm and convenient as an arctic—as watertight and easily cleaned as a rubber boot! That's the new U. S. Walrus—don't forget that

name! In every way, it's the farmer's ideal overshoe.

Ask your dealer today to show you the new U. S. Walrus. Note the smooth, all-rubber surface—the heavy reinforcements at all points of strain. After you've worn a pair of U. S. Walrus for a day or two, you'll realize why they're fast becoming so popular with farmers everywhere.

Other "U.S." models—all built for the hardest wear

Whether you prefer a boot or a bootee for the wet season, a "rubber" for general use, or a cloth-top arctic—you can find in U. S. rubber footwear exactly what you need. Tough, heavy soles—special reinforcements at toe and heel—and always the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. Rubber footwear—it means solid wear and long service for your money.

"U.S." Arctic—Made of snow-tight cashmere, warm and comfortable. Reinforced where the wear is hardest. In one, two, four, and six buckles, all weights and sizes.

"U.S." Boots—Made in all sizes and styles—Short, Storm King, Sporting and High. In red, black, and white.

FOR THE CHILDREN

Too much care cannot be exercised in selecting a cough medicine for children. It should be pleasant to take, contain no harmful drug and most of all, be effective in curing their coughs and colds. Long experience has shown that Chamberlain's Cough Remedy meets these conditions. It is a favorite with many mothers.—Adv.

CHRONIC CONSTIPATION

There are people who never have a movement of the bowels without it is produced by a cathartic. Most of them have brought that condition on themselves by the use of mineral waters and strong cathartics that take too much water out of the system and aggravate the disease. They are meant to relieve. A mild laxative tonic like Chamberlain's Tablets affords a gentle movement of the bowels that you hardly realize has been produced by a medicine, and their use is not so likely to be followed by constipation.—Adv.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional treatment. Hall's Catarrh Medicine is taken internally and acts through the blood on the mucous surfaces of the system thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Make the Most of Your Tractor Power

A TRACTOR will do better and more work if it operates machines and implements especially designed for tractor operation instead of horse machines. A horse plow is inconvenient to use with a tractor, whereas a self-lift power plow works with it like a one-unit machine. The same is true of harrowing. Horse harrows are all very well for harrowing with horses, but when it comes to tractor operation they are not quite as convenient as they might be.

The International Leverless Disk Harrow was designed especially to meet the need for a rugged, efficient disk harrow that could be managed by the tractor operator without difficulty or inconvenience, working as a one-unit outfit. The gangs are set by merely backing the tractor, the operation being automatic. They are straightened by the simple act of pulling a cord tied to the tractor seat, this operation also being automatic, so the operator doesn't have to stop for the wet spots or go around, but straightens the gangs by a jerk on the cord—and rolls across like a wagon.

Tractorize your harrowing just as you have already tractorized your plowing— tractor equipment to work with your tractor. Get an International Leverless Disk Harrow—from us.

Write Out a Check

The business way for a woman to settle a bill—and be safe—is to pay it by check.

If the bill is lost the endorsed check still remains in evidence.

Why not explain to your wife the simplicity and business end of the proceeding?

Let her learn how to care properly for the household expenses and her own funds now before your helping hand is taken away. Fit her for the graver responsibilities of life and tell her how to "write out a check for it."

The Velvet tin is twice as big as shown here

There's a World of Solid Comfort In the Rich, Red Tin

YES, sir, we mean that same warm red and gold tin that smiles a welcoming "Howdy" to you in every tobacco store. Know what those colors mean?

The red is for the friendly warmth, the mellow cheeriness, that Velvet puts into your old pipe. And the gold is where the Kentucky whorl, that ripens good old Velvet, has just sort of soaked through.

Remember what Velvet Joe said about it?
"You've met canned meat and canned music. Ever see any tinned sunshine? Well, look into any Velvet tin."

And think this over:

We don't have to hide Velvet's taste or smell with a lot of this, that and the other thing. Because Velvet has *naturally* what pipe smokers want—real simon-pure *tobacco* taste and fragrance. It's just good, honest Kentucky leaf, made still more friendly and mellow by two years' ageing in wooden hogsheads. Just good tobacco. That's all. But it's mighty near enough for the man who wants a pipeful of tobacco and not a box of bon bons.

The picture of a pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

How's the Velvet holding out in your old red tin?
