DEATH OF MRS. C. SCHEID
Mrs. Christopher Scheid (nee Reinmann) died at the home of her son Frank Scheid at Elmore, March 9th, 1920. Mrs. Scheid was born at Preissen, Germany, April 10, 1843, when a girl of four years she immigrated to America with her parents, settling in the town of Barton. On April 14th, 1862, she was married to Christopher Scheid, and went to town of Ashford, where she resided until her death. Her husband preceded her in death several years ago. This union was blessed with four children, all of whom survive, namely: Mrs. Kathryn Schuppel, Mrs. Louise Cash, Frank Scheid, Mrs. Mima Tschannan; eight grand children and eight great grand children. The funeral was held last Friday, March 13, at 10 o'clock with services in the German Reformed church at Elmore. Interment was made in the congregation's cemetery.

CARD OF THANKS
We, the undersigned, desire to thank all our neighbors, friends and relatives, who so willingly assisted us in our late bereavement, the death of our mother, Mrs. C. Scheid, to the pall bearers for the beautiful floral offerings and to Rev. H. R. Hartman for his kind words of consolation, and to all who attended the funeral.

DEATH OF FRANK BECKER
Word was received here Tuesday of the death of Frank Becker, 1355-11th street, Milwaukee, which occurred at his home there on Tuesday afternoon at 12:30. The funeral was held last evening at 8:30 o'clock from the family residence, Frank during his visit to this village with his aunt, Mrs. J. Eberle, had won a host of friends who were greatly shocked at the news of his early departure.

WHY COLDS ARE DANGEROUS
You are often told to "be careful of a cold," but why? We will tell you. Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ disease, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

G. U. G. TAKES IN NEW MEMBERS

Sunday was a gala day for the local branch of the G. U. G. Germania Society, when exercises in connection with the initiation of thirteen members into the society were held at the Opera House during the afternoon. The initiation was a public affair, and as a result a large number of people from far and near attended. A large delegation from the West Bend society were also present. The exercises were opened with a short talk by N. J. Merette, president of the local branch, which was followed by an English address by Trustee Korn of the Central Society of Milwaukee, and a German address by Beurscher, Inner Guide of the Central Society, both speakers dwelt at length on the welfare and purpose of the organization, and were very interesting and instructive. A male quartette from Milwaukee rendered a number of pleasing selections during the exercises. This is the first time that a public initiation was held by the society in this village, and the event proved to be a great success in every respect. The local branch is in a flourishing condition, new members are being added continually. The society has now a membership of about 80. The candidates who were initiated are as follows: John Schmidt, Albert Probst, John and Henry Mueckel, Edward Fick, of the town of Kewaskum; Walter Keller, Clemens Reinders, Herman Belger of Kewaskum; Albert Wesenberg of the town of Auburn; Math Herriges of St. Michaels, Nick Schiltz of New Fane; Leo Kaas of the town of Auburn and Harvey Kippenhahn of Kewaskum.

EXCHANGE YOUR BONDS NOW
The Third Liberty 4 1/2 per cent bonds can now be exchanged in banks for new certificates, which bear the number of interest coupons that will carry the bonds to maturity. The original bond carried eight coupons which have fallen due, and were paid. The old certificate have no coupons attached, and must be turned in to the banks in exchange for the new bonds. You are requested to look over your Liberty bonds, for although your last coupon may have been clipped, these bonds are not through paying interest on your coupons. Some issues of Liberty bonds were put out in temporary form and should be exchanged within the next month or two for the permanent bonds. They are as follows: First Liberty 4 per cent, on which the last coupon fell due Dec. 15, 1919; second Liberty 4 1/2 per cent, on which the last coupon fell due on Nov. 15, 1919; first Liberty 4 1/2 per cent, on which the last coupon will fall due on June 15 next; the second Liberty 4 1/2 per cent, on which the last coupon will fall due on May 15 next, and the third Liberty 4 1/2 per cent, which fell due on March 15. Third Liberty 4 1/2 per cent bonds should be exchanged for a new permanent bond with full number of coupons to be paid in the future. The other bonds described will be exchanged for permanent bonds next month, as soon as the government can print and send them out.

A BATHROOM FOR THE FARM
In no way is electricity serving the farm family better than in making possible a modern up-to-date bath room.
When water had to be pumped and carried by hand, when it had to be heated on the kitchen stove, and when tubs had to be gotten out especially, then getting ready for and taking a bath meant a lot of disturbance and annoyance. But electricity has done away with all this. The most electric light and power plants now in use on so many farms all over the country furnish plenty of power for the operation of electric pump systems. These systems have been developed to such a great extent in the last few years, that they are now almost entirely automatic. Once installed, the pump, driven by an electric motor and controlled by a pressure switch, keeps water under pressure at faucets all over the house. The water service thus obtained is in itself the same as that obtained in the city. These are very efficient heaters, too, which will heat plenty of water for each bath, or half hour of water which will keep the water hot all the time if desired. All this means that any member of the farm family can now have a hot bath in a real tub at the mere turn of the hot water faucet. State health departments and many many years ago had no such facilities. The wonderful results obtained by the doctor is due to the most thorough and painstaking examination he makes of every one who calls on him, in this way he gets at the direct cause of the disease which he remedies by easy stages. Dr. Karass' treatment is entirely different, he has a system of his own which he uses and gets the desired results. Dr. Karass treats all diseases of the heart, lungs, stomach, liver, kidneys, brain, skin, nerves, including rheumatism, sciatica, lumbago, epilepsy, brain disorder, backward children, paralysis, catarrh, asthma, head aches, deafness, weak lungs, stomach troubles, backaches, bleeding, headaches, and special diseases. He cured without operation gout, gall stones, chronic appendicitis, rupture, piles, fistula, enlarged tonsils, adenoids, and diseases of women. Examination free to all. No matter how long you have been sick, no matter what you have been treated for, if you are not well call on this expert. Dr. Karass is in his office in the Republican House, Kewaskum, Wis., every Friday between 9 A. M. and 12 noon. Milwaukee offices 413-Grand Ave.

TO PLAY CLOSING GAME
Tonight (Saturday) the Kewaskum A. C. team will play its closing game of the season, when they meet the strong Hartford team at the Opera House. The visitors, who claim themselves contenders for the county championship, have a strong lineup, having won most of their games played this season. The locals will have a strong lineup, if possible Eddie Karst, one of Wisconsin's greatest basket ball stars will play with them as forward. The local quintette are bound to win their closing game and will put up a hard fight to accomplish their point in view. Game will start at nine o'clock. Admission 35 and 20 cents. This will be your last chance to see the local team in action on the home floor. Do not miss it. Next week Friday they will journey to Hartford where they will play a return game.

NOTICE
The town board of audit of the town of Kewaskum will meet at Backhaus' Hall in the village of Kewaskum on Tuesday, March 23rd from 9 to 5 to audit the accounts of the town and to make final settlement with the town treasurer.
Adolph J. Habock, Town Clerk.

TO LOCATE AT KEWASKUM

With the prospective boom that is now taking place in the village of Kewaskum, and new citizens moving into the village, comes a report from Grafton, Wis., that Peter J. Greiten, a painter, has decided to locate here in the near future. He is in partnership with his brother-in-law, Albert Beisler, who will start in the painting business in the near future. Mr. Greiten has five years of experience at the painting business. As both men are well posted in their chosen vocation, and well known here through their successful in their new field. We doubt in our Greiten to our village.

HAENTZE FLORAL COMPANY HAS IDEAL BUILDING
The Haentze Floral Company of Fond du Lac, has completed the work of remodeling their green house, which is now known as one of the best and most up-to-date structures in the United States. The main entrance is to the office in the front of the building. The office is ideally equipped. Adjoining the office is a packing room, which is constructed so that it affords plenty of light and air, and contains bins for pots and dirt. This room has double doors at both sides permitting a delivery car entry on one side, where it is loaded for delivery, and is driven out the opposite door. Two large greenhouses now take the place of nine formerly used by the company. Concrete walks are placed between each row of plants. The plant building is 56 by 275 feet in size and contains several thousand varieties of plants, all in a thriving condition. At the rear of this plant, is a cellar 15 by 75 feet, which is used for bulbs, which have to be kept in the dark during the early stages of their growth. Other rooms in the plant are for ferns, palms, smilax, one room is reserved for the growing of 8000 plants in number. Another section is used for the chrysanthemums of which there are as many as 18,000 plants. The second floor is used for storage purposes, designing room and bulb room.

ADDITIONAL PAY FOR CERTAIN SOLDIERS WHO SERVED OVERSEAS.
Congressman Edward Vogt informs us that the Comptroller of the Treasury has just made a ruling that all officers and enlisted men in the army who served in France, Germany, Siberia, China, Philippine Islands or Alaska, on and after July 11, 1919 are entitled to an increase in pay of 10 per cent. This increase applies only to those who served in the army and who were in the above foreign service on or after July 11, 1919. This increase is not given to men in the Marine Corps or the Navy. Mr. Vogt will attend to the collection of the additional pay for any ex-service man who will send him his discharge and also write him a letter, stating name, address, rank, organization and date of returning to United States from foreign service.

WEDDING AT CAMPBELLSPORT
The home of Mr. and Mrs. Herman Paas, Campbellsport, was the scene of a quiet wedding at 2 o'clock Monday afternoon, when Miss Violet Mondy of Jackson, Wis., was united with Mr. McAnulty, a farmer, building near Campbellsport. Herman Paas, justice of the peace performed the ceremony. The bride was dressed in a silk and crepe de chine dress. She was attended by Mrs. J. McAnulty, who was attired in silk messaline and crepe de chine gown. The groom was attended by A. J. McAnulty. In the evening a reception was held at the home of the groom with a number of invited friends and relatives present.

Lichtensteiger, and Herman Wondy; supervisor, Ed. Sonn; justice, T. F. Flanagan; assessor, J. W. Schneider; assessor, Peter Lehman; clerk of the peace, Herman Paas; police justice, W. Guenther and constable, John Schladweiler.

EXCESS OF FOOD BLEMISHED
Dr. Pritchard, an English practitioner, believes that most of the digestive troubles of infants and young children are due to excess of food. And, besides the direct derangements of the stomach and intestines, these have an effect upon the whole system and may in the long run make it more susceptible to entering other diseases.

DEATH OF MRS. C. SCHEID
Mrs. Christopher Scheid (nee Reinmann) died at the home of her son Frank Scheid at Elmore, March 9th, 1920. Mrs. Scheid was born at Preissen, Germany, April 10, 1843, when a girl of four years she immigrated to America with her parents, settling in the town of Barton. On April 14th, 1862, she was married to Christopher Scheid, and went to town of Ashford, where she resided until her death. Her husband preceded her in death several years ago. This union was blessed with four children, all of whom survive, namely: Mrs. Kathryn Schuppel, Mrs. Louise Cash, Frank Scheid, Mrs. Mima Tschannan; eight grand children and eight great grand children. The funeral was held last Friday, March 13, at 10 o'clock with services in the German Reformed church at Elmore. Interment was made in the congregation's cemetery.

CARD OF THANKS
We, the undersigned, desire to thank all our neighbors, friends and relatives, who so willingly assisted us in our late bereavement, the death of our mother, Mrs. C. Scheid, to the pall bearers for the beautiful floral offerings and to Rev. H. R. Hartman for his kind words of consolation, and to all who attended the funeral.

WHY COLDS ARE DANGEROUS
You are often told to "be careful of a cold," but why? We will tell you. Every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases. People who contract pneumonia first take cold. The longer a cold hangs on, the greater the danger, especially from the germ disease, as a cold prepares the system for the reception and development of the germs of consumption, diphtheria, scarlet fever and whooping cough. The quicker you get rid of your cold, the less the danger of contracting one of these diseases. Chamberlain's Cough Remedy has a great reputation as a cure for colds and can be depended upon. It is pleasant to take.

THIRD OF DEAD STAY IN FRANCE

Secretary Baker Says 25,000 Will Remain and 50,000 Be Returned.

BONUS CAUSES ANOTHER ROW

House Committee Told That Members of Congress Will Support Measure to Get Soldier Vote—Fordney Reverts Statement.

Washington, March 15.—The bodies of about 50,000 of the American dead in France will be returned to the United States, while between 20,000 and 25,000 will remain permanently interred overseas.

The secretary, who wrote in response to a senate resolution, estimated the cost of returning the dead and concentrating the bodies remaining in cemeteries overseas at \$30,000,000.

Constitution of the French transportation systems and shortage of materials used in the manufacture of coffins is handicapping the work, Mr. Baker said.

While 111 bodies of American dead have been returned from Arracourt, Secretary Baker said the same number still remained in northern Russia, and that it was improbable that anything could be done toward their removal for a year.

Evacuation of bodies in England is progressing, he added, while in Italy all bodies have been concentrated ready for return to this country.

Members of congress will support soldier bonus legislation in order "to get votes," Frank Keech of New York, a former lieutenant colonel in the inspector general's department, declared before the house war and means committee, which is holding hearings on relief legislation.

"I consider that an insult to members of congress," declared Chairman Fordney.

"I didn't mean it as an insult, but it is true," Keech replied.

"Members of congress are influenced by the will of the people and rightly so," said Representative Garner (Dem.) of Texas.

"I consider it an insult for any person to say that I would spend \$2,000,000,000 of the public money to be elected to congress," declared Chairman Fordney.

NEWBERRY WITNESS IS ILL

Paul King, Campaign Manager, Collapses on Stand—Physician Says Patient Is Physical Wreck.

Grand Rapids, Mich., March 13.—Paul King, Newberry campaign manager, made a vain attempt to resume testimony in the Newberry election conspiracy trial, suffering from effects of a nervous collapse incurred last Tuesday, King was exhausted after five minutes' effort to recollect the happenings of the 1918 senatorial campaign. King was suspended while two physicians and Mrs. King attended him.

Dr. James B. Bradley, former auditor general of Michigan and one of the defendants, was one of the physicians who attended King in court. He said the chief defense witness was "a complete physical wreck" and doubted whether he would fully recover from his attack for a year.

SCHLESWIG AREA IS GERMAN

Second Zone Downs Proposal to Rejoin Denmark Nearly 4 to 1—Vote Stands 48,148 to 13,025.

Copenhagen, March 17.—Latest unofficial figures relative to the plebiscite held in the second zone in Schleswig show that 12,625 votes were cast for Denmark, while 48,148 were in favor of German control. The districts of Goting, Helmsund and Usterum show Danish majorities. Results in four districts have not been learned.

That part of Schleswig comprising the first or northern plebiscite zone voted February 19 to rejoin Denmark.

BARGES SINK; SIX MEN DIE

Capt. James MacWeeney of Charleston, Mass., and Five of Crew Lose Lives Near Block Island, R. I.

Block Island, R. I., March 17.—Capt. James MacWeeney of Charleston, Mass., was drowned and five other men were probably lost when two barges, Nos. 7 and 10, laden with coal from Norfolk for Boston, and owned by the Consolidated Coal company of Boston, broke clear of a three-barge tow and sank six miles northwest of here.

Would Abolish Cabinet Job. Washington, March 16.—A bill to abolish the office of postmaster general and to provide for creation of a postal commission to direct the business of the post office department was introduced by Representative Igoe.

Severe Storm at Pittsburgh. Pittsburgh, Pa., March 15.—Damage estimated at \$1,000,000 was done in the city and vicinity by a 72-mile wind that swept over the district. Thirty derricks in the gas field were wrecked. Many persons were injured.

Killed in Sparring Match. New York, March 15.—A boxing exhibition staged by Columbia university students resulted in the death of Milton Stornfeld of Albany, a former United States army lieutenant and post graduate student.

FATHER FRANCIS KELLEY

Father Francis Kelley, first American Legion chaplain, and winner of the distinguished service cross, the British military cross and seven citations, is anxious that legislation for a bonus to American soldiers and sailors should be granted at this session of congress.

COAL MEN INDICTED

125 Operators and Miners Charged With Conspiracy.

Indictments Drawn Under Sections of Lever Act and of the Criminal Code.

Indianapolis, March 13.—Indictments charging conspiracy were returned against 125 mine operators and coal miners by a special federal grand jury in the United States district court here.

The charge, as reported, is conspiracy to enhance the price of necessities by restricting distribution, limiting manufacture, and by other means, and conspiracy to commit offenses against the United States, as defined in the criminal code.

All the men are said to be active in the fight which embraces Indiana, Illinois, Ohio and western Pennsylvania. More than one-half are said to be mine operators.

The indictments are drawn under sections of the Lever act and of the criminal code. The penalty upon conviction is said to be a fine not exceeding \$10,000, or imprisonment for not more than two years, or both.

The grand jury was called into special session to investigate the affairs of the coal operators and miners. The jury offered its report 49 days later. It was convened on December 17, 1919, but adjourned from time to time.

Judge Anderson's determination to call the grand jury was based largely, according to Mr. Slack's statement, on the alleged facts disclosed in an information filed with the court that officials of the miners' union had violated the injunction and that there were indications that a conspiracy to violate the Lever act might be traced far beyond the officers of the United Mine Workers of America and the mine workers themselves.

The information set out the alleged names of the defendants and others, showing that the injunction had not been disobeyed, but that the Lever act had been and was then being "grossly, openly and defiantly violated."

COAL WAGES AND PRICES UP

Commission Recommends 25 Per Cent Increase, but Labor Member Objects.

Washington, March 13.—A 25 per cent wage increase for bituminous coal miners is recommended in a majority report of the commission appointed by President Wilson to settle the coal strike.

The wage increase proposed will absorb the 14 per cent granted when the miners returned to work last November, so that the actual increase is 11 per cent over present wages.

No change in working hours or conditions was recommended. John P. White, representing the miners, held out for a higher wage increase.

St. Louis, March 13.—Thomas T. Brewster, chairman of the coal operators' scale committee in the central competitive field, asserted the price of coal would be raised if the 25 per cent wage increase be granted.

Ex-Senator S. W. Blair Is Dead. Washington, March 17.—Former United States Senator Samuel W. Blair of New Hampshire died here Sunday, death being ascribed to his age, eighty-five years. His son, James B. Blair, is an attorney in this city.

EBERT DEFIES BERLIN REBELS

Unconditional Resignation of Leaders of New Government Demanded.

KAPP TO EXECUTE STRIKERS

Men Who Act as Pickets in General Walkout Called as Protest Against Reactionary Revolt Threatened With Death—Famine Feared in Capital.

Stuttgart, March 16.—Refusal to negotiate with the reactionary faction headed by Dr. Wolfgang Kapp, head of the new government at Berlin, was decided upon here by the council of the old cabinet, over which President Ebert presided.

Unconditional resignation of the leaders of the new government was demanded by the Ebert cabinet, which arrived here by a special train from Dresden.

The national assembly will meet in this city Wednesday afternoon at 4 o'clock.

"The constitutional government," reads an official announcement, "refuses to negotiate, being responsible to the people for the maintenance of the constitution and negotiations would only occasion distrust and confusion and would prolong disorders."

Berlin, March 16.—Men who act as pickets in this city as a protest against the reactionary revolt are threatened with the death penalty in a proclamation issued by Dr. Wolfgang Kapp, the new chancellor.

The order of infliction of capital punishment will be effective after 4 o'clock this afternoon, and is based on the decree prohibiting any strike or passive resistance in any vital service. The chancellor's proclamation follows:

"Ringleaders who are guilty of acts specified in the decree for safeguarding important services and for the protection of labor and peace will, as well as strike pickets, be punished with death. This decree took effect Tuesday 4 p. m."

There is intense anxiety over the prospect of a continuance of the strike, with a possibility of famine and epidemic resulting from the lack of sanitation and the stoppage of water supply.

No world capital probably ever before experienced such a complete paralysis of all its living and commercial facilities as Berlin did.

The Hotel Adlon made heroic efforts to provide food for the American, British and French missions and newspaper correspondents, but it gave up the task when the last of the kitchen force walked out, leaving foreigners to shift for themselves.

It was a common spectacle subsequently to see frock-coated diplomats returning to the hotel from foraging expeditions carrying brown paper parcels, foodstuffs, oil stoves and other necessities.

London, March 16.—The national strike on the German railways began on Tuesday morning, says a Berlin message to the Exchange Telegraph company.

The railwaymen's officials have declared themselves in solidarity with the workmen of the country.

The railwaymen's central committee, adds the message, is moving from place to place, forcing arrest by officials of the Kapp government.

Mathias Erberger, former finance minister of the Ebert government of Germany, has been placed under arrest, according to a dispatch from Berlin.

The dispatch states an official communication has been issued by the Ebert government at Stuttgart declaring: "The new rulers are trying to make the people believe the constitutional government has entered into negotiations with Doctor Kapp, General Merker acting as mediator. This is untrue."

Eighteen meetings of communists and independent socialists were held at Leipzig Monday night, and a general strike was proclaimed in that city, according to a telegram received here.

After the meeting had been dismissed street fighting took place, and several persons, including two street car conductors, were killed. When this news reached other workers all street car employees left their posts leaving the cars where they stood.

Roumanian Cabinet Resigns. Bucharest, March 17.—The cabinet of Alexander Vaida-Voevod, premier and minister of foreign affairs, resigned today. The king has asked Gen. Ecobea Averescu, minister of the interior in the outgoing cabinet, to form a new ministry.

\$2,000,000 Fire in Texas. Grandview, Tex., March 17.—This farming town of 1,000 inhabitants is virtually in ruins from a fire which destroyed seven of the eight business blocks and 200 residences, causing \$2,000,000 damage.

Nine Killed at Leipzig. Vienna, March 17.—A telephone message received from Leipzig reports that fighting had occurred there between troops of the national guard and socialist or communist, in which nine were killed.

Flames Destroy U. S. Ship. Port Said, Trinidad, March 15.—The American steamship Balabac, owned by the United States shipping board, was destroyed by fire here. The cargo was destroyed and it was awaiting orders.

Negro Shot to Death. Montgomery, Ala., March 15.—William Smith, a negro, and a former soldier, was shot to death by six masked men near Legrand, after his arrest on a charge of attacking a six-year-old white girl.

Mrs. Estelle V. Collier, who has been appointed collector of customs for Salt Lake City, is the first American woman to hold such an office.

Mrs. Collier is chairman of the Democratic women's state committee. She is a native of Utah and the mother of four children. Her husband is a mining engineer.

WILL TEST DRY VOTE

U. S. Supreme Court Grants Permission to New Jersey.

Men Found Guilty of Violating Selective Service Act Must Serve Prison Terms.

Washington, March 16.—New Jersey was granted permission by the Supreme court to institute original proceedings to test the validity of the prohibition amendment.

In applications filed March 8, Attorney General McCran of New Jersey contended the amendment was improperly drawn, was not ratified properly in view of referendum provisions in the constitutions of 21 states and that congress possessed no authority to propose an amendment regulating the habits and morals of the people.

Another case involving the validity of the prohibition amendment reached the court through filing of an appeal in proceedings growing out of the arrest of J. J. Dillon in San Francisco under the prohibition enforcement act. The lower court sustained the amendment and its enforcement state.

Chief Justice White asked the government and the state expedite the New Jersey case so that it could be considered along with the other suits which have been argued.

Under an agreement with Attorney General McCran, Solicitor General King asked the court to fix March 29 as the date for the arguments. He also asked that appeals in the Fitzgerald case from New Jersey and the Wisconsin case, both of which involve the amendment's validity insofar as it relates to beer, be heard at the same time.

By the refusal of the Supreme court to review the cases, convictions in Oklahoma of six men under the selective service and the espionage acts will stand. The defendants were Walter M. Reeder, R. F. Bryant, J. T. Cumble, T. A. Harris, Mack F. Clark and M. E. Stuart.

FOR ARTICLE X RESERVATION

United States Senate Votes 56 to 26 for Lodge Substitute—Another Deadlock Predicted.

Washington, March 16.—Reaffirming its disagreement with President Wilson on the dominating issue of the peace treaty controversy, the senate adopted by a vote of 56 to 26 the new article ten reservation framed by Republican leaders.

Its action brought to an end, at least for the present, the protracted effort for a compromise that would insure ratification, and the senate's decision was accepted generally as hastening the treaty toward another deadlock from which it could be released only by a verdict at the polls next November.

Robbers Make Great Haul. Philadelphia, March 15.—Safebreakers opened two safes on the seventh and eighth floors of the Weightman building and secured \$410,000 worth of bonds, of which \$118,000 are negotiable. Bonds valued at \$390,000 were stolen from the Ocean County Electric company and \$110,000 in bonds were taken from the safe of the Hydro-Electric Finance corporation. The bandits left no clue.

Stunt With Plane in Air Fatal. Memphis, March 17.—Grover C. Ragsdale of Sarah, Miss., formerly a lieutenant in the air force stationed at Rockwell field, San Diego, and Roy H. Bell of Senatobia, Miss., were killed here when their plane fell.

Bavaria King Rules. Paris, March 17.—Re-establishment of the Bavarian monarchy has been proclaimed in Munich, according to a telephone message received in Berlin from the Bavarian capital and telegraphed to The Temps.

Two Little Sisters Killed. Escanaba, Mich., March 16.—Leola and Lillian Bruke, aged eight and four, were killed when they were struck by a Northwestern train. Snow banks were too high for the children to climb over.

Greeley Succeeds Graves. Washington, March 16.—Appointment of Col. W. B. Greeley, assistant forester to succeed Henry S. Graves as chief forester when the latter retires May 1, was announced by Secretary Meredith.

GERMANY TIED UP BY GREAT STRIKE

Food Is Scarce and Berlin Faces Possible Famine.

CIVIL WAR GRIPS COUNTRY

New Government Is Rocked by General Walkout and Its Fall Is Near—Bauer Ministers Are Released by Kapp.

Copenhagen, March 17.—Four hundred workmen were killed and many scores were wounded at Kiel when a cruiser bombarded an organized workers camp that had been established on the heights of Eckernforde in the north of the big naval port. One entire section of Kiel was leveled by the fire from the big naval guns.

Berlin, March 17.—Fifteen persons are reported to have been killed and many wounded in fighting at Steglitz. In the southwest outskirts of Berlin. At Charlottenburg, a western suburb of Berlin, four persons are said to have been killed and six wounded as a result of collisions.

A Dresden dispatch says that the telegraph office there is in possession of the citizens' guard. During Monday afternoon armored cars manned by regular troops drove up to the Post-Platz to turn the workman's guard off of the postal building and a lively fight ensued, resulting in casualties on both sides. Regular troops are reported to be advancing in large numbers to recover the telegraph office, the dispatch states.

Releases Bauer Ministers. Chancellor Kapp has ordered the release of the Bauer cabinet ministers and other individuals who had been detained, with the exception of Prince Joachim Albrecht of Prussia, who was implicated in the anti-French demonstration at the Hotel Adlon, and Doctor Levy, the communist leader.

The opinion was expressed by one of Chancellor Kapp's first lieutenants that President Ebert, Premier Bauer and the other members of the Bauer cabinet would probably be on their way to Berlin within the next 48 hours.

This statement was made in connection with the information given out in official quarters that General Merker had been in consultation with the members of the Kapp government most of the day and that the general, who is the commander of the troops of Saxony, had come to Berlin as a plenipotentiary for the president and the premier of the old government.

It was considered, the Kapp spokesman continued, that the terms offered afforded the Ebert-Bauer government a generous basis for getting together with the opposition forces. It had been promised, he declared, that the cabinet now in Stuttgart would be accorded every protection in the event it came to Berlin to carry on the parleys.

Ministers May Return. Kapp, it is stated, is not opposed to permitting ministers who were attached to the former cabinet to return to office.

An emphatic official denial is made of the report in circulation that the entente had forwarded a definite ultimatum to Kapp. Representatives of the allied powers are said here to have been in conference with him for informative purposes, but it is declared that the entente in no manner has sought official contact as yet with the dictatorial regime.

On leaving the dictator's headquarters the correspondents attempted to find their way home through the outer darkness, over the barred wire entanglements which had been strung up along the Wilhelmstrasse, only to find cover upon their arrival at their living quarters that their messages had to be written by the light of a solitary candle and then carried in person again through the darkness to the main telegraph office.

Men who act as leaders or pickets in the general strike called in this city as a protest against the reactionary revolt are threatened with the death penalty in a proclamation issued by Dr. Wolfgang Kapp, the new chancellor. The chancellor's proclamation follows:

"Ringleaders who are guilty of acts specified in the decree for safeguarding important services and for the protection of labor and peace will, as well as strike pickets, be punished with death. This decree is effective from 4 p. m. Tuesday."

There is intense anxiety over the prospect of a continuance of the strike, with a possibility of famine and epidemic resulting from the lack of sanitation and the stoppage of the water supply.

No world capital probably ever before experienced such a complete paralysis of all its living and commercial facilities as Berlin has.

Same Guineaes Only Bigger. A boy was presented with some guinea pigs by his father's friend. Meeting the boy soon after, the friend inquired about the pets.

"Well, Robbie, how are the guinea pigs getting on; are they in good shape?"

"They are just the same shape, only bigger."

A WELL-KNOWN INSTITUTION.

Probably no institution in America is more widely known than Doctor Pierce's Invalids' Hotel in Buffalo, N. Y. Although established many years ago it is today a modern sanitarium, having all the latest facilities for the correct diagnosis of diseases and their successful treatment through medicine or surgery.

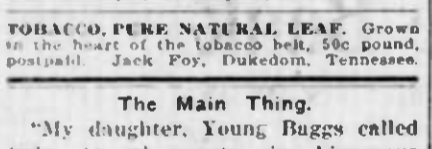

It was Dr. Pierce, 23 founder, who over 50 years ago gave to the world that wonderful stomachic tonic and blood purifier, "Golden Medical Discovery," and that famous non-alcoholic medicine for women, "Favorite Prescription."

In his early professional career, Dr. Pierce realized that every family, but especially those who live remote from a physician, should have at hand an instructive book that would teach them something about First Aid, Physiology, Anatomy, Hygiene; how to recognize different diseases, how to care for the sick, what to do in case of accident or sudden sickness, etc., so he published that great book, "The Medical Adviser," an up-to-date edition of 50 cents that can be procured by sending 50 cents to Doctor Pierce's Invalids' Hotel in Buffalo, N. Y.

Later, Dr. Pierce added another link to his chain of good works by establishing a bureau of correspondence to which any one can write for medical advice, without any expense whatever, and if necessary, medicines especially prepared in Doctor Pierce's Laboratory will be sent by parcel post or express for use at home, at a reasonable cost. Thus those who have symptoms of disease need not suffer mental agony fearing that they have some serious ailment, but can have a diagnosis made free by a physician of high professional standing. Write to Dr. Pierce relating your symptoms if you need medical advice for any chronic disease. All letters regarded as confidential.

PISO'S

The COW PUNCHER

CHAPTER IX.—Continued.

Night had settled when Dave left the office. A soft wind blew from the southwest; June was in the air. June too, was in Dave's heart as he walked the few blocks to his bachelor quarters. What of the drab injustice of business? Let him forget that; now it was night . . . and she had called him Dave.

He dressed with care. It was not until he was about to leave his rooms that he remembered he must die alone; he had been dressing for her, unconsciously. The realization brought him up with something of a shock.

"This will never do," he said. "I can't eat alone tonight, and I can't ask Reenie, so soon after the incident with her mother. I know—Bert Morrison."

He reached for the telephone and rang her number. Her number did not answer. He thought of Edith Duncan. But Edith lived at home, and it was much too late to extend a formal dinner invitation. There was nothing for it but to eat alone. He suddenly became conscious of the great loneliness of his bachelor life. The charm of bachelorhood was a myth which only needed contact with the gentle atmosphere of feminine affection to be exposed.

He took his hat and coat and went into the street. It was his custom to take his meals at a modest eating-place on a side-avenue, but tonight he directed his steps to the best hotel in the city afforded. There was no wisdom in dressing for an event unless he was going to defect his course somewhat from the daily routine.

The dining hall was a blaze of light. Dave paused for a moment, awaiting the beck of a waiter, but in that moment his eye fell on Conrad, seated at a table with Mrs. Hardy and Irene. Conrad had seen him and was nodding to him to join them. The situation was embarrassing, and yet delightful. He was glad he had dressed for dinner.

"Join us, Eiden," Conrad said, as he reached their table. "Just a little dinner to celebrate today's transaction. You will not refuse to share to that extent?"

Dave looked at Mrs. Hardy. Had he been dealing with Conrad and Mrs. Hardy alone he would have excused himself, but he had to think of Irene. That is, he had to justify her by being correct in his manners.

"Do join us," said Mrs. Hardy. It was evident to Mrs. Hardy that it would be correct for her to support Mr. Conrad's invitation.

"You are very kind," said Dave as he seated himself. "I had not hoped for this pleasure." And yet the pleasure was not unmixed. He felt that Conrad had outplayed him. It was Conrad who had done the gracious thing, and Dave could not prevent Conrad doing the gracious thing without himself being ungracious.

After dinner they sat in the lounge room, and Conrad beguiled the time with stories of sudden wealth which had been practically forced upon men who were now regarded as the business framework of the country. As these worthies strolled through the richly furnished room, leisurely smoking their after-dinner cigars, Conrad would make a swift summary of their rise from liverman, cow puncher, clerk or laborer to their present affluence, occasionally appealing to Dave to corroborate his statements. It was particularly distasteful to Eiden to be obliged to add his word to Conrad's in such matters, for, although Conrad carefully refrained from making any direct reference to Mrs. Hardy's purchase the inference that great profits would accrue to her therefrom was very obvious.

Eiden was glad when Mrs. Hardy remembered that she must not remain up late. Her physician had prescribed rest. Early to bed, you know. Dave had opportunity for just a word with Irene before they left.

"How did this happen—tonight?" he asked, with the calm assumption of one who has a right to know.

"Oh, Mr. Conrad telephoned an invitation to mother," she explained. "I

"I have been wanting an opportunity to talk to you—wanting it for weeks," he said. "But it always seemed—"

"Always seemed that you were thwarted," Irene completed his thought. "You didn't disguise your annoyance very well the other night."

"Do you blame me for being annoyed?" "No. But I rather blame you for showing it. You see I was annoyed too."

"Then you had nothing to do with—bringing about the situation that existed?" "Certainly not. Surely you do not think that I would—that I would—"

"I beg your pardon, Reenie," said Dave, contritely. "I should have known better. But it seemed such a strong coincidence."

She was toying with her cup, and for once her eyes avoided him. "You should hardly think, Dave," she ventured—"you should hardly conclude—that what has been, you know, gives you the right—entitles you—"

"To a monopoly of your attentions? Perhaps not. But it gives me the right to a fair chance to win a monopoly of your attentions."

He was speaking low and earnestly, and his voice had a deep, rich timbre in it that thrilled and almost frightened her. She could not resist his straightforwardness. She felt that he was already asserting his claim upon her, and there was something tender and delightful in the sense of being claimed by such a man.

"I must have a fair chance to win that monopoly," he repeated. "How did it happen that Conrad was present?" "I don't know. It just happened. A little after you telephoned me he called up and asked for mother, and the next thing I knew she said he was coming up to spend the evening."

Dave dropped into a sudden reverie. It was not so remarkable as it seemed that Conrad should have telephoned Mrs. Hardy almost immediately after he had used the line. Conrad's telephone and Dave's were on the same circuit; it was a simple matter for Conrad, if he had happened to lift the receiver during Dave's conversation with Irene, to overhear all that

approaching. "Then you will come and visit us?" "I will—Reenie," he whispered, and he was sure the color that mounted to her cheeks held no tinge of displeasure.

CHAPTER X. Eiden lost no time in making his first call upon the Hardys. Irene received him cordially, but Mrs. Hardy evinced no more warmth than propriety demanded. Eiden, however, allowed himself no annoyance over that. A very much greater grievance had been thrust upon his mind. Conrad had preceded him and was already a guest of the Hardys.

Dave knew Conrad well enough to know that purpose always lay behind his conduct, and during the small talk with which they whiled away an hour his mind was roving out and about, exploring every nook of possibility, to arrive if it could at some explanation of the sudden interest which Conrad was displaying in the Hardys. These explanations narrowed down to two almost equally unpalatable. Conrad was deliberately setting about to capture the friendship, perhaps the affection, of either Mrs. Hardy or Irene. Strangely enough, Eiden was more irritated by the former alternative than by the latter. Perhaps this attitude was due to sub-conscious recognition of the fact that he had much more to fear from Conrad as a suitor for the hand of Mrs. Hardy than as a rival for that of Irene. Conrad was a prospective father-in-law was a more grievous nuisance to his peace of mind than Conrad as a defeated rival.

The more he contemplated this aspect of the case the less he liked it. To Conrad the affair could be nothing more than an adventure, but it would give him a position of a sort of semi-paternal authority over both Irene and Eiden.

Premier Bauer Quotes General Von Luetwitz as Demanding That the Great Army Remain and War Materials Be Preserved

Berlin, March 17.—The imperial finance ministry today refused to turn over 10,000,000 marks for current expenditure in the payment of the troops, as demanded by Chancellor Kapp. President Ebert has notified all financial departments that honoring of Kapp's demands for money will be regarded as treason. Deputy Finance Minister Moes has left Berlin.

Chicago, March 17.—The resignation of Doctor Kapp, chancellor of the new government in Berlin, is considered imminent. Field Marshal Hindenburg has written to Doctor Kapp advising him to withdraw. The field marshal also has advised President Ebert to hold elections. Hindenburg's letter is declared to be having a marked effect.

Planned New World War. Geneva, March 17.—One of the conditions proposed to the Ebert cabinet by General Luetwitz was that demobilization of the army of the empire, so provided by the Versailles treaty, must not be executed and war materials not destroyed, according to Premier Bauer of the old government, says a Stuttgart dispatch to the Neue Zeitung.

Premier Bauer also quoted General Luetwitz as saying that the empire, instead, should prepare for a new war. The premier added: "After such a condition, what alas Kapp and his accomplices are pursuing can be judged."

Thirty Killed at Hamburg. Copenhagen, March 17.—Thirty persons were killed, including some women and children, in the fighting in Hamburg between citizens' guards and Baltic troops, advices from that city state.

Among the killed was Captain Berthold, commanding the Baltic troops.

The Hamburg advices report the resignation of Baron Wangenheim, the senior garrison officer there. Herr Lamplar, a supporter of the Ebert government, succeeded him.

A Munich telegram received here by way of Berlin says that quiet prevails at Munich and that the troops are masters of the situation.

Field Marshal Hindenburg, former commander in chief of the German armies, has made a public declaration that he is not connected with the counter-revolution, of which he disapproves, says the Hanover Tagblatt.

The executive committee of the center party has adopted a resolution branding Chancellor Kapp and his associates as criminals and traitors, according to a Berlin dispatch to the Post-Tribune.

Reports of negotiations for a compromise between the Ebert government and the reactionary regime at Berlin are untrue, according to a telephone dispatch from Hamburg to the Social Demokrat. It was said these rumors were spread by adherents of Dr. Wolfgang Kapp "to deceive the public."

In Touch With Dresden. Direct telegraphic communication with Dresden was opened today, and was evidently arranged to facilitate the circulation of news concerning the Ebert government, independent of the Berlin authorities.

Gustav Noske, minister of defense in the old government, has issued a declaration forbidding the circulation of proclamations issued by Berlin authorities in territory outside that city.

President Ebert, in officially notifying Dr. Kapp and his associates in the new German government that no negotiations would be held between officials of the two regimes, declared he would direct the country's affairs with Wuerttemberg as the capital, according to a dispatch received from Berlin.

Say New Regime Will Collapse. Dresden, March 17.—Communications between this city and all parts of Germany are being safeguarded, said a proclamation issued here by the Ebert government.

"Certain as it is that the Berlin venture will collapse of its own weakness and confusion," the proclamation declared, "the fatal political and economic consequences of this step are to be deplored. All authorities are asked to assist German national assemblymen to reach Stuttgart."

CROWN PRINCE CELEBRATES

Much Feasting Within His Quarters Since News of Latest German Revolt Reached Wieringen.

Wieringen, Holland, March 17.—There have been much feasting and other celebrating within the quarters of the former crown prince here since the news of the new developments in Germany began to arrive. Frederick William is reported to regard the situation joyfully, but to have assured the burgomaster that he will not attempt to leave Holland.

Took the Advice. Charged with stealing a motor car, an Irishman is reported to have blamed a policeman. It seems that he asked a policeman the way to Streatham, and the officer said: "Take the car at the end of the road." And he did.—Punch, London.

A Necessity. "There is great need for the catalog of half-cent pieces." "Why so?" "The people can afford to give tips."

The Brighter Side. "Well, did the captain of industry see you?" "No," replied Mr. Gudspar. "You hear up well under the disappointment."

"Yes, you should have seen his private secretary. It was a pleasure to be turned down by such a rare combination of feminine tact and loveliness."—Birmingham Age-Herald.

SITUATION UNKNOWN

ALLEGED NEWS FROM GERMANY PUZZLING AND CONFLICTING.

Officialdom, Press and Public More in the Dark Than Ever, Says London Dispatch.

London, March 17.—The press and public here are more in the dark today regarding the actual situation than they have been since the Ebert regime was overthrown by Dr. Wolfgang Kapp and General Baron von Luetwitz. A steady stream of reports and rumors has poured in all day direct from Berlin and by way of Holland, but none bears the stamp of positiveness or authority.

The latest word from Lord Kilnarnock, British charge d'affaires in Berlin, to the foreign office was that Doctor Kapp and his revolutionary regime "seemed" to hold the whip hand. All subsequent news dispatches tended to show the exact contrary.

One outstanding irrefutable fact is that the whole nation is tied up by strikes, attended by bloody riots in practically every large city and throughout many of the industrial provinces, resulting in a heavy death toll. In Berlin the situation was reported improved as a result of a lessening of military discipline.

British officialdom appears to be no less ignorant of the real situation and the true outlook than the press. A conference is said to have been held by allied statesmen, including Premier Lloyd George, which was attended, the Mail Mail Gazette avers, by an expert on German affairs just back from Berlin. His report is declared to have been to the effect that Gustave Noske, Ebert's minister of defense, is still the strong man in Germany and stands a good chance of getting the situation under control.

SEEKS U. S. VIEWS ON TURKEY

France Gets Reply From Acting Secretary Polk, According to the Paris Temps.

Paris, March 17.—The United States government, according to the Temps, has been sounded as to its views of the settlement under consideration for the solution of the Turkish problem.

The government has not yet replied, adds the newspaper, but Acting Secretary of State Polk expressed his personal opinion on various points of the proposed adjustment.

At the meeting of the council of ministers, Premier Millerand placed the latest developments in the foreign situation before the cabinet, dwelling particularly upon the events in Germany.

Prince Faisal, son of the king of the Hedjaz, has been invited to come to Paris at the earliest possible date as the result of his being proclaimed king of Syria, the Temps says it understands. He will be asked to explain this action to the peace conference.

ASKS CREDIT FOR GERMANY

Congressman Smith of New York, Introduces Bill Providing \$1,000,000,000 Loan for Food.

Washington, March 17.—A government credit of \$1,000,000,000 to enable Germany to buy foodstuffs and raw materials in this country is proposed in a bill introduced in the house by Representative Thomas F. Smith, Democrat of New York. Mr. Smith is secretary of the Tammany society.

The purpose of the proposed credit, he declared, is to anticipate "the greatest depression in our export trade, with the consequent disturbance of industries and lack of employment, that will ensue unless the threatened condition is promptly met."

If England and France are permitted to finance Germany, "as contemplated by the economic council," he said, "the United States will be practically excluded from the German trade."

BACK ACHING?

"That 'back' is probably due to weak kidneys, a trouble that often follows grip, cold, or overwork. It shows in constant dull, throbbing backaches, or sharp twinges when stooping or lifting. You have headaches, too, dizzy spells, a tired, nervous feeling and irregular kidney action. Don't neglect it. Use Doan's Kidney Pills. Thousands have saved themselves serious kidney ills by timely use of Doan's. Ask your neighbor!"

A Wisconsin Case. Harding Butler, machinist, 22 N. Washington Street, Janesville, Wis., says: "My back hurt me and on rising in the morning it would take me a long time to get limbered up. There was a steady, dull pain across the small of my back. I had to get up at night as often as three times. The kidney secretions, which were thick colored, gave me Doan's Kidney Pills advertised so highly that I got three boxes and when I had used them the trouble was gone."

Wash them clean —slip them off

Walk into the house with warm, dry feet—that's the new "U. S." Walrus

QUICKLY cleaned under a faucet or with a pail of water—buckled or unbuckled in an instant—warm and water-tight always—that's why farmers everywhere are buying the new U. S. Walrus. You need a pair for all-year-round use—for dozens of odd jobs around the farm.

You can slip on the U. S. Walrus right over your leather shoes—and slip it off with your toe when you're through. Its thick, fleecy lining keeps your feet comfortable in the coldest weather.

Wherever you go—tramping through snow and slush—splashing through water half a foot deep—the U. S. Walrus gives you perfect protection. And then at your doorstep—no matter how dirty and muddy they may be—a moment's wash under a faucet leaves them as clean as before you started out. Every trace of mire washes quickly off their smooth rubber surface.

Made by the oldest and largest rubber manufacturer in the world, the U. S. Walrus is built to last. At the very points where ordinary overshoes are

weakest, the U. S. Walrus has been made *strongest*. Every point of strain is heavily reinforced.

Ask your dealer to-day to show you the new U. S. Walrus. Look over the rest of his U. S. line—boots, booties, arctics—whatever you need. Tough, heavy soles—special reinforcements at toe and heel—and *always* the highest quality rubber—these points are winning U. S. rubber footwear thousands of new friends every year.

Ask for U. S. rubber footwear—it means solid wear and long service for your money.

"U. S." Arctics—Made of snow-tight cashmere, warm and comfortable. Reinforced where the wear is hardest. In one, two, four and six buckles, all weights and sizes.

Plymouth Self-Feed ENSILAGE CUTTERS

"Plymouth" Feed Cutters are the result of twenty-five years' experience and practical study of conditions and needs in the farm and dairy field. They embrace every advantage known to other similar machines, and many vital features which are original with us and can be had only in the "Plymouth Self-Feed." Below are some mighty strong points for you to think about before you buy a feed cutter:

AUTOMATIC SELF-FEED—This feature consists of a traveling feed chain, made of heavy iron slats securely riveted to a chain which passes over the lower feed roller. Throw the fodder into the feed box and the "Plymouth" does the rest.

DANGER-PROOF SELF-FEED ROLLERS—Here's another strong feature original with the "Plymouth." It consists of four large rollers of cast iron. The traveling feed chain passes over the lower hind roller, just passing the lower front roller, which is six inches in diameter, and smooth. The two upper and lower hind rollers are ribbed. The 8 inch automatic roller at the top, to the rear, is a special feature of the "Plymouth." It acts as a lever or weight to keep the fodder passing through continuously, depending on its own gravity to keep the material going through without a hitch. Two coil springs serve to exert an even and steady pressure on the automatic roller as the volume of fodder increases in going through. The spring pressure is entirely automatic, and is only to be had in the "Plymouth." It absolutely prevents clogging.

"No, Bill, I wouldn't take a
thousand dollars for it."

THAT'S what users say about Delco-Light, the complete electric plant. Levi Stout, Coffee Creek, Montana, says: "I would not take \$2,000 for my Delco-Light if I could not get another." Albert Kaciska, Moccasin, Montana, says: "I would rather quit the ranch than do without Delco-Light." Why are these men so enthusiastic? It's because Delco-Light, with its successful air cooling, its one place oil, its kerosene burning engine and production of four kilowatt hours of electricity per gallon of fuel, gives them maximum service with minimum attention. The experiences of more than 75,000 satisfied users prove these things to be true of Delco-Light. Concluding services were held at 7:15 P. M. at which time Rev. Beyer delivered a very interesting and instructive sermon. This was followed by procession, benediction and Te Deum.

Composition of Pennies.
Pennies are made of 95 per cent copper and 5 per cent nickel and zinc. The material which goes into them costs about 22 cents a pound and this pound makes up into 120 one-cent pieces. Their face value, so the profit is \$1 a pound, less the cost of manufacture, which is not great.

Lincoln's Little Joke.
Once in his law days while Lincoln was in Chicago trying a suit, his wife had the roof taken off their house to make the house higher. On Lincoln's return he manifested great surprise, and asked a passerby, "Stranger, can you tell me where Lincoln lives?" He then gravely desired the domicile.

WHY DRUGGISTS RECOMMEND SWAMP-ROOT

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine.

It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys, liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

PLAN INCREASED EGG PRODUCTION

Marked Attention Should Be Paid to Feeding, Housing, Culling and Breeding.

BREEDING FLOCK ESSENTIAL

Free Range Gives Ideal Conditions for Fowls—Close Confinement Reduces Vitality of Stock—Mash Hoppers Favored.

Poultry keepers interested in increasing the egg production of their flocks will pay marked attention to the methods of feeding, housing, culling and breeding. Probably the least progress on most farms has been made in the art of breeding poultry, says T. S. Townsley of the University of Missouri College of Agriculture, in Extension Circular 72.

To produce high layers only the best individual producers should be used as breeders. This suggests the necessity for having a special breeding flock. On farms where eggs for setting are saved from the entire flock, selection is usually based only on the size and shape of the eggs. With this system the breeder stands a good chance of setting many eggs from the very lowest producers.

Free Range Is Ideal. No special fencing is necessary to handle the flock. Free range gives ideal conditions for breeding fowls. A pen is a great detriment to the efficiency of the breeding flock and is not at all needed on the farm.

Where separate houses are available for the breeding flock and the commercial flocks, free range can be given the birds in each group. If feed is kept constantly available in the mash hoppers in each house the birds will return to the proper house to lay so that the eggs can be kept separate without any attention to yards.

Utility and Quality Are Combined in Fowls of This Kind.

mating may occur on the range between the hens in the commercial flock and the males from the breeding flock, but this does no special harm. On farms where there is only one poultry house, a partition can be put in to keep the two flocks separate.

Number of Breeders. The number of birds to include in the breeding flock should be determined by the number of high-class individuals available and by the number of eggs needed for hatching. If incubators are used, enough breeders should be kept to fill the machines without holding any eggs longer than two to twelve days.

Deep Soil Holds Moisture. A deep soil is conducive to maximum crop production. It will hold more moisture, and when this is exhausted will draw the moisture from the subsoil.

Food Necessary for Eggs. An egg contains everything necessary to produce a living object; and unless a hen receives the right kind of food necessary for these parts, there will be no egg.

Pays to Clean Up. If it paid Uncle Sam to keep camp stables clean, it will pay the farmer to keep his pens, cow sheds and stables clean; and most farmers nowadays realize it.

PRODUCERS BENEFIT BY MEAT INSPECTION

Foreigners Insist on Federally Inspected Product.

Possible to Obtain Detailed Records of Conditions of Animals at Time of Slaughter—Diseases Can Be Traced.

(Prepared by the United States Department of Agriculture.)

"Contrary to the common belief that meat inspection is conducted principally for consumers, it has a side which is of direct help to live stock producers," says the chief of the bureau of animal industry. "In the first place, the bulk of our foreign trade in meats depends almost entirely on the federal meat-inspection service. Most foreign governments will not accept meat that has not been federally inspected. Inspection of import meats,

Inspectors at Work on Regular Post-mortem Examination.

accompanied by rejection of meat products not entitled to entry, is of course a factor in our domestic market.

"Through the federal meat-inspection service it has been possible to obtain very detailed records of conditions of animals at time of slaughter. These records show clearly whether certain animal diseases are on the increase or decrease, and, through a system known as field inspection, centers of infection have in numerous cases been found and wiped out."

"Of course, the main benefit of federal meat inspection to producers is the confidence of the American public in inspected meats, and it is noteworthy that the average per capita consumption of meats has increased as the meat-inspection service has been extended."

BENEFITS OF SWEET CLOVER

Crop Makes Valuable Feed for Live Stock and Enriches Soil by Adding Humus.

The northwest experiment station at Crookston, Minn., strongly recommends the growing of sweet clover on a more extensive scale than heretofore. A recent statement issued at the station says:

"Sweet clover is not only one of the greatest soil enrichers, but is a valuable feed for live stock. It adds humus to the soil, because of the depth to which the roots penetrate and the ease with which they decay. Land that has been cropped with sweet clover which has been incorporated will grow a better stand of alfalfa without further inoculation."

"Sweet clover is commonly sown with a nurse crop. It is more easily plowed up than alfalfa. It is a good cash crop when grown for seed, and should be tried at least on a small scale by every farmer."

DISPOSITION OF DEAD FOWLS

Carcasses of Birds Should Not Be Allowed to Lie Around and Decay—Burning Is Best.

Never allow the carcasses of birds that have died to lie around and decay. Either bury them good and deep or, better still, burn them. If you have no furnace or stove in which you want to burn them, saturate them good with kerosene and set fire to them. If you leave them uncovered and allow them to decay, your whole flock is liable to be stricken with limberneck.

LARGER YIELDS OF ALFALFA

Practically Double the Amount of Clover Hay Obtained in Tests at Wisconsin Station.

Trials conducted on the Wisconsin experiment station farm at Madison show that alfalfa gives yields practically double that of clover hay and three times as much as timothy. An acre of alfalfa produced in a single season three times as much protein as an acre of clover and nine times as much as an acre of timothy.

Fowls Not Given Chance.

One reason poultry does not pay better on some farms is that the fowls are not given a chance to pay. Something need not be expected from nothing.

Store Eggs for Hatching.

In holding eggs for hatching, they should be kept in a room or cellar that is perfectly dry and with a temperature of 50 to 60 degrees.

Give Pigs Plenty Pasture.

Give the pigs plenty of good pasture. They should be kept on pasture as long as possible.

WRAPS FOR FORMAL DRESS

THE loose-hanging ample cape-like wraps, from plain capes to draped dolmans that were worn in rich furs and fabrics during the winter months made a strong appeal to women who dress smartly. They proved very graceful and becoming and excelled in elegance, even when coats were made of the same materials. They grew in popularity and it followed that wraps for wear at the Southern resorts and for evening or formal afternoon dress in the spring, have been designed on the same lines.

TAILORED HATS FOR MOURNING

EXCEPT for the first three months in periods of mourning, crape is used sparingly in mourning millinery. It has been replaced by the several kinds of silk that are used for making the exquisitely neat hats that are approved for this special kind of headwear.

Georgette and malines, with silk nets, are to be counted among available silks, besides the varieties that are manufactured especially for mourning wear. The last is the best-liked by designers when they are required to make tailored hats.

Very little trimming finds place on these tailored hats, and such ornaments as are used, are oftenest made of the same silk as the hat, or of faille or grosgrain ribbon. Both in making hats and trimmings, intricate and perfect workmanship is at a premium. Graceful shapes, conservative in lines and size are the correct beginning for all mourning millinery.

Each of these shapes has a brim that is wide enough to support a veil conveniently to protect the eyes. A good many smart mourning hats are faced with white and in the one of these, white georgette, on the underbrim, proves more becoming than black, and an up-standing flange covered with grosgrain ribbon and a plaited rosette made of it provide the trimming.

The hat at the left has its crown neatly covered with bias folds and a plain brim. A very clever trimming is made of narrow grosgrain ribbon twisted and arranged in two loops that look like two leaves, and ends that simulate stems. The last hat has a plain covering of silk and is draped with irregular folds and wings of silk at the sides.

whole into a costume for street wear, while the dress is suitable for afternoon or even for evening functions. Hand-made roses of organdie are used to decorate frocks of white or organdie. They are inset between wide tucks and placed ingeniously on short sleeves and are used as a finish for the front of a girle of crushed satin or silk ribbon of a contrasting color. Soft pastel shades are used for the roses.

DADDY'S EVENING FAIRY TALE

THE BALTIMORE ORIOLES.

"Ah," said one of the young Baltimore orioles. "It won't be long now before it is spring and in the spring everything so fine happens."

"We choose our mates, and our mates take us after a long while."

"Yes, I heard my father was ever so long waiting for my mother. They said that sometimes he'd ask her a hundred times a day to marry him."

"That was what they said of my father," said the first young Oriole, more oriole whose name was Jackie Oriole, while the second speaker was named Bruce Oriole.

"It is what they said of my father, too," said another oriole, "and that my mother kept my father waiting the same way."

"Just what happened in our family," said yet another.

"And in ours," said still another. "It's the way of the Baltimore orioles," said Jackie. "But I'll keep after the one I care for until I win her," he said, cocking his head on one side. "So will I," said Bruce. "I don't want to take the wrong one. No, indeed, I'd rather wait for the right one, I would."

"But dear me," said Jackie, "how the little dears will keep us waiting!" "It won't be long now before we begin our courtship," said Bruce.

"And we'll go North again," said Jackie.

"When did your parents leave for the South?" asked Bruce.

"The third week in September," said Jackie.

"Mine left the fourth week," said Bruce. "We leave about the same time, don't we? Our great family is much alike—every Baltimore oriole is much alike."

"It's very sensible," said Jackie. "It's nice to think of being further North when they have their beautiful summer. In fact, we go ahead of the summer. We go North, so I've heard, for last year I wasn't around in the early spring, when things are beginning to come out."

"That's very sensible. We see the lovely spring and the summer, and we leave when everything is starting to go the leaves, the summer birds, and the midsummer flowers."

"My father is so handsome," said Bruce, "that it is no wonder my mother loved him."

"Ah, you're handsome, too," said Jackie, "and your turn will come soon."

"Ah," said Bruce, "I don't want to be so handsome as I do want to be loved."

"Birds Like Crumbs."

loved and to have a happy time. Oh, happiness, that's the finest thing in the whole world!"

"It is," agreed Jackie, "and it is just what my family have brought me up to believe."

"Same with me," said Bruce.

"My mother was such a good homemaker," said Jackie.

"Ah, yes," said Bruce, "our home life was very lovely. That's the way it should be. What's the use in having a home life if it isn't happy and nice and comfy and cozy and cheery with each trying to make it so nice for the other."

"That's the nice part of a home and a home life that it can be made so jolly and nice."

"Why, where my family lived last summer there was the nicest family. They lived in their garden and on their back porch so much of the time and without any visitors around I'd hear them laughing and joking and doing things for each other and having such a fine time. And when birthdays came! Well, such celebrations as they used to have."

"And they never forgot that birds like crumbs of birthday cake, too?"

"Well," the Master Oriole said, "we must be moving North soon. It's almost springtime again."

"And in the meantime," said another, "let us not waste too much time in talking, but let us eat lots of grubs and worms before we go, for that helps along nice people."

So the happy, cheerful, gay Baltimore oriole family worked hard eating and destroying bad insects and bugs and chirping all the time, saying, "We like people and we try to help them! Let's all eat yet another bug!"

"And," added Bruce, "it's a very pleasant thing to do, too!"

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like lead of Bladder bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulates them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep the kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.—Adv.

Extravagant.

"She's extravagant."

"What makes you think so?" "She served her husband beef-steak for dinner last night."

"What of that? The poor man has to eat, doesn't he?"

"Of course, but think of serving beefsteak and no company in the house."

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How to Get Quick Relief From Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffing, blowing, headache, dizziness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothing the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly.—Adv.

Evidences of Income.

"Bliggins is trying to dress in a way that will make people think he is making a whole lot of money."

"Not these days. He has to put on a suit of overalls and is carrying a plumber's outfit."

BOSCHEE'S SYRUP.

A cold is probably the most common of all disorders and when neglected is apt to be most dangerous. Statistics show that more than three times as many people died from influenza last year as were killed in the greatest war the world has ever known. For the last fifty-three years Boschree's Syrup has been used for coughs, bronchitis, colds, throat irritation and especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning. Made in America and used in the homes of thousands of families all over the civilized world. Sold everywhere.—Adv.

It requires some thoughtfulness to even send "best regards" to other members of the family.

FAMOUS BOWERY IS NO MORE THERE TO GET INFORMATION

Prohibition and General Good Times Responsible for Disappearance of Its Oldtime Characteristics.

New York's old-time Bowery is no more. No final rites have marked its passage, nor has the last requiem been sung, but of recent months the change has been progressing swiftly and noticeably.

Only old-timers can remember the "Tub of Blood" and other famous dives, but now even the modern hangouts are disappearing one by one before the advent of national prohibition.

Most potent of the changes in America's former driftway of human wreckage is the virtual disappearance of the "Bowery bum." A newspaper feature writer recently sojourned on the street for a time, and he reported that the "bums" are now almost all at least casual workers, and that "cash," or a sizable roll of the "long green," abounds.

Never the Same After That. As I was making a bed one Monday morning a friend came to see me. She walked right in and not seeing me, said: "Are you at home?" I said: "Oh, yes I never go visiting Monday morning." When I thought how I sounded, I was awfully embarrassed, and she never acted the same toward me. Exchange.

WISCONSIN STATE NEWS

Green Bay—Claiming that she feared he would carry out his threat, made in writing, and in person to her, that he would kill her if she refused to marry him, Miss Adeline Ait, of this city, caused the arrest of Clyde J. E. Johnston, whose home is said to be in Kenosha. He was arraigned in Municipal court on a warrant charging him with threatening to kill Miss Ait, and was ordered to jail by Judge N. J. Monahan, until more evidence could be obtained.

Madison—The Northwestern road has been ordered by the railroad commission to pay to the state of Wisconsin \$26,000, the cost of relocating two highways in Racine county which now cross the tracks of the company. The commission, in its order points out that in permitting the relocation of the highways and assessing the cost, it is saving the company the cost of track elevation which would have been necessary because of the danger to highway traffic.

Kenosha—Officials of the health department added insult to injury when they took Miss Agnes Hughes, 12, to the isolation hospital in a hearse after discovering that she had contracted smallpox. The police ambulance is the only conveyance in the city suitable for such use, and fearful of exposing others who might be carried in it, the officials had to resort to the funeral car.

Baraboo—An exciting chase here ended in the capture of Charles Churchill, who escaped from the county jail where he was being held prior to transfer to Waupun. Churchill was sentenced for six years for obtaining money under false pretenses in connection with Canadian land sales. He claims to be a relative of Winston Churchill, British cabinet officer.

Shobogan—Mud baths may be healthy, but pedicarians in the business district are particular about the time and place of taking them. Consequently they have filed complaint with the board of public works that automobiles shoot along the street so as to splash mud in all directions and ask to have this practice curtailed. The board is investigating.

Wausau—A road school is to be held in Wausau Friday, April 2, at which all problems of road building and maintenance will be discussed. All members of town and village boards and all patrolmen and pathmasters in Marathon county are to attend. Members of the Wisconsin highway commission and road experts are to take part in the discussions.

Stevens Point—Increases in salaries aggregating \$12,000 will be paid Stevens Point city school teachers next year. Supt. Snyder's salary is raised from \$3,900 to \$3,500. Principal L. R. Kilinger will get \$278 per month next year and the wages of teachers are boosted an average of 18 per cent. Janitors were also granted a substantial raise.

Chassell—Tom Franchet, octogenarian settler, was found frozen to death in his farm house near here by hunters. An examination revealed that he had become too ill to attend to the fire and it appeared that he had made repeated efforts to administer to his wants while unable to do more than crawl about. He lived alone.

Madison—The eighth annual military ball of the University of Wisconsin will be held on April 9, in the armory. Previous to the dance the officers' dinner and reception will be given. Students and others planning to attend may wear any military uniform they are entitled to wear or have ever been authorized to wear.

Rhineland—While employed in a nearby logging camp Tom Planter, a young woodsman, was bitten by an unknown insect. Blood poisoning developed and physicians fear it will be necessary to amputate his left arm.

Oshkosh—Herman Eilers, prominent here as a banker, died after an illness of several months. He was cashier of the Exchange Bank of Oshkosh for twenty-eight years. He is survived by a wife and two children.

Crivitz—Many new settlers are arriving in this vicinity daily. Five cars of household goods came from Iowa a few days ago and a colony of fifty people from that state will be here soon to locate near High Falls.

Neenah—Dr. R. J. Chady, Oshkosh, was elected president; G. J. Morrell Green Bay, vice-president, and T. J. Sells, Neenah, secretary-treasurer, of the Fox River Valley Dental association which met in Green Bay.

Wausau—Ovid Belanger has been elected president and William Brecher manager of the Wausau Summer Jacks, who will play Saturday, Sunday and holiday baseball this summer. It is proposed to form a strong semi-professional team.

Neenah—Neenah and Menasha will cooperate in providing for the erection of a suitable monument for the soldiers and sailors of the Civil, Spanish-American and World wars. Funds may be raised by popular subscription.

Eau Claire—Rusk G. Henry, son of Capt. and Mrs. Charles H. Henry of this city, has just been named city manager of the city of Hickory, N. C., by the board of aldermen of that place and has already assumed office there, according to word received here.

Madison—Lieut. Col. Edwin J. Winans, better known to Wisconsin soldiers as Gen. Winans, has been nominated for promotion to colonel of cavalry in the regular army. He commanded the Wisconsin infantry brigade (Sixty-fourth) in France.

Madison—When the next general is inaugurated, he will be escorted by a troop of cavalry composed of Madison men. Gen. Holway has designated Madison for the division troop to consist of three officers and ninety-three men. Unlike other troops being organized in this state, this outfit will have in addition to seventy-five officers and men mounted on horses, six chauffeurs and nineteen motorcycle riders. Lieut. James Clark, a service officer, will be commissioned captain to command the troop.

Racine—Killed by a bullet from a revolver of an unknown officer shooting in self-defense and in the discharge of his duty was the verdict of a jury at a coroner's inquest to determine the cause of death of Barney Sekat, killed when federal and local officers raided Sekat's saloon. The federal officers testified that Sekat shot first, and though his revolver was not found, his father, Mike Sekat, who came to the son's help, is credited with the statement that the revolver would not be found.

Fond du Lac—Seventeen passengers were injured, and 80 lives were endangered, when an interurban car, carrying men from work at North Fond du Lac, crashed through the Scott bridge. When the car had reached the center of the bridge, it buckled, letting the rear end down into ten feet of water. The front end hung on the bridge, permitting the passengers to climb upward and to escape through the windows.

Rhineland—After a very successful winter logging operations in Oneida and adjoining counties are being rushed to completion. While logging is still good, lumbermen look for a breakup at any time. The logging industry this winter in northern Wisconsin has given employment to an exceptionally large number of men at the highest wages ever paid in the lumber woods.

Janesville—The trial of the breach of promise suit for \$20,000 brought against Isaac A. Connors of this city by Ruth M. Doyle, 20 year old farm girl, has been postponed. At a preliminary hearing behind closed doors the plaintiff's attorney when called upon to tell about Connors' alleged failure to keep his marriage agreement, Miss Doyle is the mother of a baby.

Tomahawk—C. E. Harris, a Lincoln county farmer, had a novel experience with a wolf which he saw near his farm. He started on the animal's trail and tracked it all day, finally cornering it under a log where he dispatched it with a club. He found that the wolf had been trapped and had escaped with the trap on its leg.

Janesville—This city will be the terminus for three auto bus lines. One will operate between Janesville and Beloit, another between Janesville and Edgerton, and the third will be for the convenience of employees of the Sanson Tractor company whose plant is on the outskirts of the city. George Flakes will operate them.

Manitowish—The death toll of the explosion in the plant of the Alumnum Goods Manufacturing company several days ago was increased to six, when Miss Emily Becker died. The young lady was terribly burned and suffered much. Four girls remain at the hospital, and their chances for recovery are favorable, physicians say.

Manitowish—This county may have a lady candidate for county clerk at the election next fall. Miss Jessie Hobbs, who has been a deputy in the clerk's office and who is conversant with the work, resigned her position with Clerk Adolph E. Schulze and is understood to have intimated that she will be a candidate to the place.

Janesville—Forsaking indecent and improper liberties with the person of Elizabeth Malone, under 16, Patrick Panning, 38 years old, of this city, was sentenced by Judge George Grimm in the Circuit court here to a year at hard labor in state prison at Waupun, the first day to be in solitary confinement.

Racine—The high cost of dying was added to in this city by the cemetery commission when it was decided to increase the cost of grave digging by \$2 for each excavation. It was said the increase was necessary in order to meet the demands of the cemetery employes for higher wages.

Oshkosh—Class room teachers of this city to the number of 120 have organized a branch of the American Federation of Teachers, affiliated with the American Federation of Labor. Temporary officers have been chosen.

Antigo—Two tractors, one of them of the caterpillar type, have been bought by the county to be used by highway patrolmen in maintenance work on three sections of federal trunk line and two of state road.

Madison—Authority to start business has been granted by Commission of Banking Marshall Cousins to the Citizens State Bank of Clintonville. The capital is \$35,000. The incorporators are Charles Bohn, A. L. Pelper and Max Steig.

Waunton—The little son of John Wooderick, who had been having throat trouble for months, was found to have a button lodged in his throat when examined by Fond du Lac physicians. The button had been there for a year.

La Crosse—Millions of dollars' worth of leaf tobacco, which has been held in growers' sheds in western Wisconsin all winter as a result of dry, cold weather, is now being released for marketing, following the first thaw of the winter. Casing weather is two months late.

Two Rivers—The annual convention of the State Federation of Music clubs will be held here in June. The Camp Fire Girls and the MacDowd club, an older organization, will handle the arrangements.

SALAD GREENS AND SALADS.

Salads will always be in style, for they are generally popular, refreshing, and with a good dressing, also nourishing. The very early salads may include the vegetables which we have always considered as greens.

You can get dandelions which have grown under boards or the wood pile make the most dainty and succulent of salad plants. Serve with a good French dressing, with or without a sprinkling of minced onion.

One may use any desired salad dressing, but oil is so appetizing, meaty and full of nourishment that everybody should learn to like good olive oil. The corn oils are much less expensive than a good grade of olive oil just now, and they are good, and can be used in the same manner in making a mayonnaise dressing.

If one is fortunate enough to live near a small brook or creek where the watercourse grows, there is always a most wholesome supply of a most wholesome green. Serve with lamb chops just as a garnish. When eaten without any dressing it is a most piquant and tasty salad. Mixed with lettuce or peppercress or even alone with French dressing, three or four parts oil and one part vinegar with salt and pepper to taste, it is a salad par excellence.

Outside leaves of lettuce rolled and cut with a sharp knife, left unrolled, make very attractive salads and a pretty garnish for many different combinations. The leaves should be fresh and crisp; let the lettuce stand in cold water to freshen.

Radishes cut to simulate tulips make very pretty garnishment. Radishes cut in thin slices and arranged in overlapping rows are another pretty garnish. The rest of the radish should not be used with the red of beets or the orange of carrots, as too many of such colors clash. One may use the artists' taste in the arrangement of food as effectively as with paints.

Beet Salad—Boil eight small beets in boiling salted water; salt when nearly cooked. Remove the skins and cut in one-fourth-inch cubes; mix with shelled pecans and serve with mayonnaise, colored red. Serve in nests of lettuce.

Cottage Cheese Salad—On head lettuce arrange a ring of seasoned cottage cheese; put through a ricer or sieve. In the center place riced hard-cooked egg yolk and serve with a highly seasoned dressing, passed in a bowl.

Beautiful thoughts make beautiful lives.
For every word and deed
Lies in the thought that prompted it.
As the flowers lie in the seed.
—A. E. Godfrey.

SEASONABLE DISHES.

A good meat extender will be found in the following dish:

Beef and Oatmeal Scruppie—Take two pounds of any of the cheaper cuts of beef; the upper part of the shank is good because of the marrow. Save the marrow to fry the scruppie or chop it with the cooked meat. Cover the meat and bone with boiling water and cook until tender. It will take several hours. Let the meat stand until the next day, then chop fine. There should be three or four cupsful of broth; add a teaspoonful of salt for each pint of broth and when boiling stir in about three cupsful of oatmeal to make a smooth mush, neither too thick nor too thin. When the meal is thoroughly cooked stir in the chopped meat. Add such seasonings as is desired, celery salt, pepper, paprika, onion juice or poultry dressing. Let cook over hot water until hot throughout, then turn into well greased single leaf breadpans to mold. When cold, slice in even slices and fry brown on both sides.

Delmonico Pudding—Turn a pint can of peaches with the sirup into a pudding dish. Heat one pint of milk in a double boiler; stir one-third of a cupful of cornstarch to a smooth paste with half a teaspoonful of salt and one-half cupful of cold milk, then stir and cook in the hot milk until the mixture thickens. Cover and let cook 15 minutes. Beat the yolks of two eggs, add one-third of a cupful of sugar and beat again, then stir in the hot mixture; continue beating until the egg is cooked, then pour over the peaches. Beat the whites of two eggs very light, then beat in four tablespoonfuls of sugar and let cook in a slow oven ten minutes. Then increase the heat to color the meringue. Serve neither hot nor cold.

Potatoes and Bacon—Place a layer of thinly sliced potatoes in a buttered baking dish; pour over them a thin white sauce. Over the top lay slices of bacon and cook in the oven until the potatoes are tender and bacon crisp.

Milk Heavier Than Cream. The department of agriculture says that a quart of milk is heavier than a quart of cream. This is explained by the fact that there is more fat in cream than in milk, and that fat is lighter than liquid.

"Show Me!" An English inventor filters the scratchings and metallic sounds from phonographic music by passing it through more than 50 feet of tin tubing filled with peas.

Facts for Sick Women

Reliable Information

All American women know of the great success of Lydia E. Pinkham's Vegetable Compound in restoring to health women who suffered from ailments peculiar to their sex, yet there are some who are skeptical and do not realize that all that is claimed for it is absolutely true—if they did, our laboratory would not be half large enough to supply the demand, though today it is the largest in the country used for the manufacture of one particular medicine.

The Facts contained in the following two letters should prove of benefit to many women:

Buffalo, N. Y.—"I suffered with organic inflammation and displacement. When lifting I had such pain and bearing down that I was not able to stand up, and it hurt me to walk or go up or down stairs. I was going to a doctor without any results and he said the safest thing would be to have an operation. I met a lady who told me she had three operations and was not well until she took Lydia E. Pinkham's Vegetable Compound. I felt relieved after taking two bottles of Vegetable Compound and I kept on with it until I was cured. I always use Lydia E. Pinkham's Liver Pills and they are fine. Everything used to turn sour on my stomach and the Liver Pills relieved that."—Mrs. A. Ruess, 833 Fargo Avenue, Buffalo, N. Y.

Sacramento, Calif.—"I had organic trouble and had such terrible pain and swelling in the lower part of my side that I could not stand on my feet or even let the bed clothes touch my side. I gave up my work thinking I would not be able to go back for months. My mother advised me to take Lydia E. Pinkham's Vegetable Compound as it had saved her life at one time, and it put me in a wonderful condition in a couple of weeks, so I can keep on working. I work in a department store and I do not have any more pain. I surely recommend your Vegetable Compound to all my friends and you may use these facts as a testimonial."—Bertha J. Pankas, 3220 M St., Sacramento, Calif.

HAS HAD STOMACH TROUBLE FOR SEVEN YEARS.
 Theodore Sanford of Fenmore, Mich. has had stomach trouble for seven years and could not eat vegetables or fruit without pain in the stomach and restless nights. By taking Chamberlain's Tablets he is now able to eat vegetables or fruit without causing pain or sleeplessness. If troubled with indigestion give these tablets a trial. They are certain to prove beneficial.

Progressives of Wisconsin
 You know during the war the PROFITEERS lied about LaFollette; how their paid newspapers tried to disgrace him and drive him out of public life. And you know WHY—because he has been the ONE MAN that has fought for the welfare of the COMMON PEOPLE and FOUGHT HARD, and ALL THE TIME. Naturally he made enemies of the plunderband, and when the time came for the profiteers to reap their harvest from the misfortunes of the world, they did not want Bob La Follette in the way. You know what they did to Bob La Follette and how they scared many Progressives off the track. And you know what they did to the PEOPLE—what they are doing now!
WELL, WAKE UP FOR A GOOD FIGHT!
 Bob La Follette was here in Madison resting up to go under the surgeon's knife at Rochester, but contrary to the advice of his physicians he has gone back to Washington to be in the finish of the League of Nations fight.
 But Bob's heart is back in old Wisconsin. He wants to know whether the PEOPLE ARE GOING TO BACK UP HIS WORK IN WASHINGTON. If they do, it will put the FEAR OF GOD into those who are preparing for another great crime—to put all of the cost of the war on the backs of the common people.
GET IN THE GAME
 Get out and TELL YOUR NEIGHBOR about that fight—SPEAK RIGHT UP—TELL THE TRUTH! Keep within the law, but don't let anyone SCARE you into silence.
ANOTHER THING
 Bob is poor, and his friends are poor men, but they are MANY. It takes money to advertise. Let us all chip in who can afford to, and help to make a campaign of education. We want to elect delegates to the National Republican Convention for 1920.
 Won't you kick in with a dollar or two to put this thing over? It is getting late—you will have to HURRY! The other fellows have unlimited cash and have an ORGANIZATION OF BIG PROFITEERS with headquarters at Milwaukee. They have been on the job a long time. They have the KEPT PRESS.
 Send your contributions to SOL LEVITAN, Banker, Madison, Wisconsin, and he will receipt for them.
EDW. F. DITHMAR, Chairman.
L. E. GETTLE, Secretary of Voluntary Committee of Two Hundred.

Bees Do Not Sting Skunks.
 That skunks will not sting is the testimony of E. L. Denslow of Oneida township. He came upon one in the act of moving his hive enough to bring out the bees, and when they came out the skunk ate them. Denslow fired at the animal but missed. Later the skunk came back and repeated the performance, again getting away.

WALLIS
America's Foremost Tractor

Order Your Wallis Now
 ---and avoid disappointment

Hundreds of good business farmers were disappointed last year because they were not able to get a Wallis tractor.

Many have told us, because of their delay in buying, they suffered considerable financial loss. For this reason, we believe, we owe it to our farmer friends to submit the facts regarding Wallis production.

During the past year our plan for increased production of Wallis tractors has been completely carried out. But keeping up Wallis quality of precision, care and accuracy, permits us to safely increase production only a given per cent each year.

Therefore, we know in advance that many who would buy Wallis tractors this year will be disappointed unless their orders are placed immediately.

Our dealer-distributors are vying with each other in placing orders for early shipment, but we have asked them to be content with fewer Wallis tractors than they are demanding, to the end that each community may get its share of the available supply.

We ask you and every other intending purchaser to be fair with himself—to look ahead to the early spring work—to harvest time, when the heat is killing horses in the fields and stopping blades; and to threshing time, when dependable power means saved time and increased profits.

If you are to have a Wallis, you cannot delay placing your order.

There is a Wallis dealer near you who will accept your deposit and hold your Wallis Tractor and J. I. Case Tractor Plover, Lister and Disc Harrow for you. Or, better still, will deliver them immediately.

J. I. CASE PLOW WORKS COMPANY, Racine, Wis., U. S. A.

NOTICE: We want the public to know that the WALLIS TRACTOR is made by the J. I. CASE PLOW WORKS COMPANY of Racine, Wisconsin and is NOT the product of any other company with "J. I. CASE" as part of its corporate name.
