

PE-RU-NA

Made Me a Well Man

Mr. Louis Young, 1652 Clifford St., Rochester, N. Y., writes: "I suffered for thirty years with chronic bowel trouble, stomach trouble and hemorrhages of the bowels. We bought a bottle of Peru and I took it faithfully, and I began to feel better. My wife persuaded me to continue, and I took it for some time as directed. Now I am a well man."

Suffered thirty years with stomach trouble and hemorrhages of the bowels.

Liquid or Tablet Form

Where is Relief From Blazing Skin Diseases?

Must I Endure Forever the Torturous Itching?

The skin is fed from the blood, and upon the condition of the blood depends whether or not your skin will be healthy and free from boils, pimples, scaly irritations, red eruptions and other disfiguring and unsightly disorders. The sensible treatment that will show real results is a remedy that will cleanse the blood thoroughly and kill the germs that cause the trouble. And for this purpose no remedy ever made can approach the record of S. S. S. which cleanses the blood of the disease germs, at the same time building up the general health.

"There's a Reason" Made by Postum Cereal Company, Inc. Battle Creek, Michigan

WISCONSIN STATE NEWS

Milwaukee—An item printed recently by a large number of Wisconsin newspapers stated that Vilas county will not participate in the state fair exhibits this year and that it was claimed by the Vilas County Agricultural Society "that the state fair committee ignored the northern counties in the selection of fair dates this year, which were set for Aug. 1, and rather than display farm produce which could not be matured so early in the season, it will withdraw exhibits from the state fair." This item was a misstatement as to the Wisconsin State Fair dates being set for Aug. 1. The state fair opens Aug. 30 and closes Sept. 4.

Madison—Gov. Philipp announced the following appointments: Herman Grotophorst, Baraboo, member of the state board of education, for the term ending Aug. 1, 1925; Tom O. Mason, Cumberland, member of the Wisconsin Real Estate Brokers' Board, for the term ending July 1, 1923; S. E. Smalley, Cuba City, member of the state school board, for the term ending July 1, 1924; W. N. Smith, Platteville, member of the state mining school board, for the term ending July 1, 1923.

Eagle River—Indications point to an immense crop of blueberries in the north woods this season. The absence of damaging frosts early in the spring, when the plants were in blossom, gave promise of a big yield and later growth has been out of the ordinary, so there will be plenty of the wild berries. Last year's crop was the largest in years. Thousands of quarts were picked by home people and many parties from downstate made special trips to the berry fields to gather the fruit.

Beloit—Albert Porter, 53 years old, was injured probably when he was working in the running gear of a light wagon, in which he was seated, and dragged 300 feet before his team of frightened ponies was halted in a runaway. His hip was fractured and he was nearly disemboweled.

Merrill—William and Edwin Pophal narrowly escaped death when their farm home southwest of the city burned to the ground. The blaze was caused by lightning. The back of William Pophal out of bed. The fall awakened him and he rescued his brother, who was stunned by the bolt.

Marquette—Jacob Chwala, farmer, uncovered a human skull while cultivating land. He fled from the scene without making further investigation and reported to the sheriff. The human fragment was about six inches below the surface.

Kaukauna—Fred Olm dived from the chute at Waverly beach. He was taken to a hospital at Appleton, where an X-ray picture showed that one of the bones of his neck had been broken.

Oshkosh—Peter Marden, 67, general contractor and vice president of the City National Bank of Oshkosh, died of a complication of diseases following illness of one week.

Neenah—When Arthur Hoekstorf, chicken raiser, cracked a hard-boiled egg at breakfast he lost his appetite. A small gold bar pin fell from the egg.

Grand Rapids—The Wisconsin float which won first prize at the Elks' parade at Chicago, was designed by Fred Roenous of this city. The float characterized Wisconsin as "The Fisherman's Paradise," featuring a typical trout stream running over a cliff. The "stream" was stocked with real trout from the state hatchery at Wild Rose. They were forced to bite by mechanical means. Francis Daly of this city played the role of fisherman. The float was the only one in the parade not designed by a professional float builder.

Sheboygan—The old Arndt flour and grist mill, a familiar landmark just north of the city limits, has been sold and all material on the premises will be salvaged by Henry Engelsing, Pigeon River, the new owner. The mill was built in 1885.

Madison—The state highway commission proposes to procure hereafter any builders of power or other electric lines along highways in the state that cut down or needlessly mutilate trees growing along the highway.

Eau Claire—Owing to inability to secure kitchen and dining room help at the Galloway hotel, Eau Claire's present leading hostelry, has been forced to suspend its dining room facilities and is no longer serving meals.

SAY "DIAMOND DYES"

Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes." Easy directions in package.

"FREEZONE"

Lift Off Corns! No Pain! Doesn't hurt a bit! Drip a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Things Apart. My little niece was studying her geography and asked me to bound the state of Nevada. Her grandmother looked up and said: "I am surprised that a little girl that has traveled as much as you have must ask any one to help them with their lessons." Caroline said: "Grandma, when I travel, I travel for joy and not for geography."—Exchange.

Marquette—Five keepers of local saloons, who were refused a license to sell beverages of less than one-half of 1 per cent alcoholic content, paid fines of \$50 and costs for opening their places without the necessary permit. They were Mike Snyder, Axel Johnson, Albert Brendrecht, John J. Levy and W. J. Fredericksen. Three of them conduct hotels. Twenty dealers were granted permits to sell malt beverages.

Beloit—Albert Porter, 53 years old, was injured probably when he was working in the running gear of a light wagon, in which he was seated, and dragged 300 feet before his team of frightened ponies was halted in a runaway. His hip was fractured and he was nearly disemboweled.

NOT MUCH VARIATION THERE

Old Resident Entirely Truthful When He Called the Town's Death Rate "Wonderful Steady."

Wenry after 12 months' hard work, the pretty typist sought solitude among the healthy hills of Halebury. The advertisements had attracted her. Halebury was described as the best, prettiest, finest, and everything-eisest spot in the world.

"Tell me," she said on her first day, when she met a staunch old relic of the district, "what is the death rate in Halebury?"

The local walking advertisement nodded his head reassuringly. "Wonderful steady, ma'am—'wonderful steady!'" he replied. "One death to each person."—London Tit-Bits.

Hard to Believe. A workman in a factory on the West side received a bad cut on the face. Before they could get him to the doctor's office he fainted. The first thing the doctor did was to pour a large drink of bottled-in-bomb down him. The doctor then dressed his wound and the man went his way. But in about a half hour the man was back at the office with his wife, and as he came in he said: "She won't believe me."

"Won't believe what?" exclaimed the doctor. "That I was married and had two little boys. Before the first one came I was weak and nervous, could not eat and was dizzy. After I took the Vegetable Compound I could work and eat. Now I am strong and recommend your medicine to my friends."—Mrs. ANNA SLEVA, 25 East 17th Street, Bayonne, N. J.

Women who recover their health, naturally tell others what helped them. Some write and allow their names and photographs to be published with testimonials. Many more tell their friends.

If you need a medicine for women's ailments, try that well known and successful remedy Lydia E. Pinkham's Vegetable Compound. Write Lydia E. Pinkham Medicine Co. (confidential) for anything you need to know about these troubles.

Eagle Ensilage Cutters

The Eagle Ensilage Cutters are honest in value and meet every requirement of the modern cutter, whether for hand power or engine power. Call in and let us explain and demonstrate the superior qualities of this machine over other machines.

Eagle fodder and ensilage cutters are guaranteed for one year. Should any breakage occur on these machines on account of poor workmanship or flaws in material within one year from date of sale and the broken parts are returned to factory charges prepaid, we replace them

WM. FOERSTER

WAYNE, WISCONSIN

spring of this year as much as in 1919. Prices ought to start an upward trend very soon."
Mr. Hibbard believes that the farmers have been afraid of a general slump in prices. For this reason they have been getting rid of their surplus stock. With grain as high as it is, no farmer wishes to feed more than is necessary. If prices on everything else in general should go down, as there is a possibility of their doing, food prices will fall the least of any or even stay where they are, believes Mr. Hibbard.

Chamberlain's Colic and Diarrhoea Remedy
This medicine always wins the good opinion if not the praise of those who use it. Try it when you have need of such a remedy.—Adv.

The Power of the Hour

MECHANICAL power is stepping swiftly into the breach that has been formed by restless, dissatisfied labor. This is true in the city and it is true on the farm.

Today Titan 10-20 Tractors are the labor-saving power of the hour on the farms of America. Everywhere, reaching to the furthest boundaries of agriculture, you will hear the steady chug-chug of these tireless toilers. They are displacing men and horses and getting more work per day from available farm labor. Soon summer fallowing will be under way in many sections of

the country, and there you will find Titan 10-20 Kerosene Tractors working faithfully from sun-up to sun-down, undisturbed by heat or flies, turning the hard-baked ground in the interests of bumper crops.

New Titans are scarce just now, due to unprecedented demand, and the fact that every user of a Titan 10-20 is a Booster is the best of reasons for you to act at once to secure one of the very few available.

Come in and let us show you why you should buy a Titan 10-20 Farm Tractor.

A. G. Koch, Kewaskum, Wis.

—The new General Hospital at Hartford is nearing completion and will soon be ready to receive patients. The building is one of the finest and most modernly equipped in this section of the state. It is large enough to accommodate seventeen regular patients.
—Frank J. Gehl, a former Hartford boy was drowned while swimming in the Crawford river at Janesville, last week. Not knowing how to swim and not heeding the warning of others not to go too far into the deep water, it is said to have been the result of his fatal plunge.
—Recent statistics published in Germany on that country's war losses state that 1,350,000 men were killed and over 2,000,000 wounded and permanently disabled. There are today 520,000 war widows, according to the statistics, 1,120,000 war orphans and 500,000 maimed or consumptives, supported mostly by charity.
—Having covered enough ground while delivering his route out of the Beloit post office to have carried him around the world five times—and by 17,500 miles on his sixth circumnavigation of the globe—Alfred Perkins, Beloit's oldest mail carrier, is now 70. The total distance he has covered is estimated at 142,500 miles.
—On Tuesday the work of pouring concrete for the highway between West Bend and Milwaukee was commenced. The work was started at the intersection of sections 7, 8, 17 and 18 in the town of Glomontown. The road has been graded for three miles, and the pouring of concrete will be rushed along as fast as possible.
—The fishermen at Fox Lake are up in arms over the using of motors in trolling for pickerel, claiming that many more fish are being caught than would be if the motors were not used. It is said that frequently parties of three or four come in with over 100 pickerel. This will clean the lake of fish if it is kept up.—Hartford Press.

The Samson Model "M" tractor is a close-coupled power unit all by itself from radiator to rear wheels.

SAMSON

Model "M" Tractor

Price
\$840

Complete with platform, fenders, governor, power take-off, brackets for canopy top and regular cleats
f. o. b. Janesville, Wis.

You will choose the Samson because it is mechanically right —and its price is right

The Samson Tractor is the last word in modern tractor construction. It is capable of pulling two 14-inch plows at all times and three 14-inch bottoms under favorable conditions. In the field it will pull a double disc and spike harrow singly or in tandem. At the belt it will operate the thresher or separator and is capable of doing other heavy belt jobs, such as silo filling, running large buzz saw, four-hole corn sheller, heavy grinding, etc.

"It sure will Tickle You"
says the Good Judge

To find how long the full rich taste of the Real Tobacco Chew lasts. That's why it really saves you money to use this class of tobacco instead of the ordinary kinds. Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco

Weyman-Bruton Company, 107 Broadway, New York City

Tire Problems Solved.

Did you ever think that some day some one would invent a device that would solve the Tire Problem? The "Maxotire" is the answer. Thousands are using "MAXOTIRES." Some, of course, with the first casing but many with the second, third and even the fourth. Surely, "MAXOTIRES" must be saving owners considerable money, time and eliminating grief, or there would not be such a great MAXOTIRE demand. No difference how much they save others, they will do you no good unless you USE MAXOTIRES. They will save you buying tires and tubes so often. You can wear your tires down to the last thread—often more than doubling the mileage.

What "Maxotires" Are

They are not "Reliners." They do not reline the casing but encircle the tube completely—holding the pressure within themselves—GET THE DIFFERENCE.

"Magic-Rubber Mend"

is successfully used for repairing casings and inner tubes in place of the expensive process of vulcanizing.

James O'Brien and William Becker, Vincent Calvey, Harry Cook, Clem. Brown, Paul Mazaka motored to Schrauth's Pond and Cedar Lake Sunday afternoon.

Loss of Appetite.

As a general rule there is nothing serious about a loss of appetite, and if you skip a meal or only eat two meals a day for a few days you will soon have a relish for your meals when mealtime comes. Bear in mind that at least five hours should always elapse between meals so as to give the food ample time to digest and the stomach a period of rest before a second meal is taken. Then if you eat no more than you crave and take a reasonable amount of outdoor exercise every day you will not need to worry about your appetite. When the loss of appetite is caused by constipation as is often the case that should be corrected at once. A dose of Chamberlain's Tablets will do it.—Adv.

THE PASSING OF HAND LABOR

Modern business, or rather the manufacturing business, has long realized that volume of business and profit depend to a great extent upon saving labor wherever possible, and particularly upon replacing hand labor with machine labor where a machine can perform the work better and more quickly.
The same change is placing farming upon a better business basis. For years, of course, field work has been done largely by machinery. Otherwise America's tremendous agricultural production would have been impossible. And now this same increase in operating efficiency is spreading to the doing of the lesser work on the farm. Chores have always been a burden. They have faced the farmer or his boy twice a day, once before and once after the regular day's work. They have meant grinding drudgery. And their worst feature has been that they had to be done almost exclusively by hand.

With the coming of electricity to the farm through the medium of the farm electric light and power plant, this condition has been greatly changed. Thousands of farms in America are today entirely free of the tiresome part of chore work. Before dawn in the morning there is plenty of bright electric light in the barns while the milking is going on. And the milking itself is done not by hand, slowly and laboriously as before, but by a small electric motor. One man can easily do the work that took two or three before. The separating and the churning are done in the same way. And so with the grinding stone, the corn sheller, the fanning mill and other light farm machinery. Where two men worked before, one of them always turning the crank, now one man feeds the machine—bosses the job—and the electric motor does the work. And pumping, one of the biggest jobs on the farm, is now done by an electric pump that is entirely automatic.
In the house the same labor saving is seen, only in this case it is the farm women who benefit. Wash day is now a thing of electric machines and irons instead of the old fashion of bending over a tub all day. Sweeping is done better and quicker with electricity.
This is surely the age of efficiency. Hand labor is passing in the country as it has in the city.

WAUCOUSTA

A. C. Buslaff was a Fond du Lac caller Tuesday.
George Kiefer and family of Lomira were callers here Sunday.

Summer Complaint in Children.

There is not anything like so many deaths from this disease now as before Chamberlain's Colic and Diarrhoea Remedy came into such general use. When this remedy is given with castor oil as directed and proper care is taken as to diet, it is safe to say that fully ninety-nine out of every hundred cases recover. Mr. W. G. Campbell of Butler, Tenn., says, "I have used Chamberlain's Colic and Diarrhoea Remedy for summer complaint in children. It is far ahead of anything I have ever used for this purpose."—Adv.

AGENTS WANTED

You can make big money selling our superior Northern Nursery Stock. Pay every week. Free outfit and good territory. Experience unnecessary. The Hawks Nursery Co., Wauwatosa, Wis.

EVERY day we hear a good deal of talk about the reckless spending of motor car owners. True, in some quarters perhaps. But the people we serve as a whole are those who balance value and cost.

Tire users put the responsibility for tire service up to us. We put G & J Tires up to them. On the basis of what G & J Tires do. On the basis of what G & J Tires have been doing for more than a quarter century.

G & J are the American pioneers of pneumatic tires. And the continuance of this original foresight has kept the G & J quality records clean.
