Nobody thinks anything now of going away on a trip

THE railroads were partly responsible. But it wasn't until the automobile reached its present state of development that the old barriers against travel were finally broken down.

II

More people own automobiles today than ever thought of owning a horse and buggy in the old days.

That's because the cost of motoring has been brought within reach of the average citizen's pocketbook.

We look upon it as part of our job to keep it there. If it weren't for the trade of the man with the medium priced car there wouldn't be

much in this tire business for us.

III

The less a man has to spend on motoring, the more important it is that his tires should be of first quality.

Any tire is not good enough for the small car owner. He wants a tire that will give him just as much for his money in the small size as the big car man gets for his money in the large size.

IV

In thinking over what kind of tires we would represent in this community we tried to put ourselves in the place of the car owner. And we believe we hit it exactly when we selected U. S. Tires.

Select your tires according to the roads they have to travel:

In sandy or hilly country, wherever the going is apt to be heavy--The U. S. Nobby.

For ordinary country roads--The U. S. Chain or Usco.

For front wheels--The U. S. Plain.

For best results--everywhere--U. S. Royal Cords.

The Power of the Hour

MECHANICAL power is stepping swiftly into the breach that has been formed by restless, dissatisfied labor. This is true in the city and it is true on the farm.

Today **Titan 10-20 Tractors** are the labor-saving power of the hour on the farms of America. Everywhere, reaching to the farthest boundaries of agriculture, you will hear the steady chug-chug of these tireless toilers. They are displacing men and horses and getting more work per day from available farm labor. Soon summer fallowing will be under way in many sections of

the country, and there you will find **Titan 10-20 Kerosene Tractors** working faithfully from sun-up to sun-down, undisturbed by heat or flies, turning the hard-baked ground in the interests of bumper crops.

New Titans are scarce just now, due to unprecedented demand, and the fact that every user of a Titan 10-20 is a Booster is the best of reasons for you to act at once to secure one of the very few available.

Come in and let us show you why you should buy a Titan 10-20 Farm Tractor.

A new kind of overshoe for farmers

The "U.S." Walrus: watertight as a rubber boot—as warm and easy to slip on as an arctic

THE combination you have always needed—something to keep your feet dry and warm and yet easy to slip on and off! Here it is—the new U. S. Walrus.

This new overshoe slips on and off easily over your leather shoes. Its warm, fleecy lining keeps your feet comfortable in the coldest weather. And its smooth rubber surface can be washed off as quickly and cleanly as a boot.

The comfort and convenience of this new overshoe are backed by real strength. Made by the oldest and largest rubber manufacturer in the world, the U. S. Walrus is built for the roughest wear. Its sole consists of five layers of the finest rubber. All other points where the strain comes are reinforced.

Ask your dealer to show you the U. S. Walrus. After you've worn them you'll

realize why farmers everywhere are buying them.

Other types of "U. S." Footwear—built for rough service

U. S. Boots have the wear and comfort which the accumulated improvements of 74 years have given them.

U. S. Booties lace on over the sock like a leather shoe. You can wear them all day long in the wettest weather. Your feet will stay dry and comfortable.

There is a U. S. model for every need—arctic, rubbers, "overs." Every one has been designed by experts—every one is backed by over half a century of experience. Always look for the U. S. Seal—it means solid wear and long service for your money.

THE BLUE MOON

A TALE OF THE FLATWOODS

By DAVID ANDERSON

Copyright by the Bobbe-Merrill Company

Parting the bushes with the utmost caution, he crept up to the edge of the pool...

his hand on the rumpled curtain over the doorway, about to return to his task of sharpening the fish spear.

He deliberately planned to win my cousin's heart—and hand. The cough threatened to come back.

er. There I loosed a skiff, whose, I never knew, lay down in the stern and set it drifting. There was not a star...

CHAPTER I.

The Iron-Gray-Woman.

A young man stood on the after deck of a small and very dinky houseboat...

He was so tall, with such a spread of shoulder, that he seemed out of place upon so small a deck.

The space between the fore and after decks of the houseboat was occupied by a kind of cabin...

"It's so warm—and flat! It has been long from the spring!"

Without a word he set the cup back on the bench, picked up the bucket, passed out to the front deck...

The spot was known the length of the Wabash, for who has not heard of Fallen Rock with the broad, thin waterfall...

When the man returned to the houseboat the Iron-Gray-Woman still lay back in the shaly rocking chair...

"To a city on the Wabash, in early days, came three families of Virginia's purest blood..."

"The Iron-Gray-Woman shuddered and was silent for a moment. The man picked up a wasted hand...

"My parents both died when I was so small that I can barely remember them, leaving me, their only child..."

"They had a daughter, an only child, almost my age, and of the same name—surname and all..."

"In this same city upon the Wabash lived three other families, as I have told you—your father's family and the family of—of—another man..."

"The Iron-Gray-Woman turned her eyes and studied him so long, so intently, that he trembled lest his question—a question that came in spite of him—had startled her into silence..."

"I Never Knew a Man's Face Could Look as His Looked."

the door opened, and in it—your father; with the maids behind him, I never knew a man's face could look as his looked...

"How long has this been going on? he inquired.

"The Iron-Gray-Woman shuddered. The man kneeling at her side, eagerly drinking in every word, tightened his fingers reassuringly upon her hand."

"I answered never a word, I couldn't," she faltered on. "My breast was hollow; empty as a gray sky."

"The lady can answer that, I heard the voice of the other man sneer."

"There was a cry, and your father sprang at him. The maids screamed. I uncovered my eyes, expecting to look upon death. But the other man leaped through the window and was gone."

"THE HOME OF EXCLUSIVE GROCERIES"

JUST A LITTLE STORY--A TRUE STORY

TWO men met the other day after a separation of many years. One remarked the prosperous appearance of the other as the "other" noted the seedy appearance of his friend. They exchanged experiences. The prosperous one claimed his prosperity due to early thrift and opening a savings account when he was a young man. His savings had started him in business and the habits acquired had guided him in later years. The "other" had not saved. He had put off from day to day his first deposit and because he had not saved had been forced to watch opportunity pass him by. His watchword was "tomorrow" and tomorrow never comes. Moral: Don't wait! Come to the bank NOW and make your first deposit--one dollar will open an account.

Constipation.

The beginning of almost every serious disorder is constipation. If you want to enjoy good health keep your bowels regular. This is best accomplished by proper diet and exercise, but sometimes a medicine is needed and when that is the case you will find Chamberlain's Tablets are excellent. They are mild and gentle in their action, easy and pleasant to take. Give them a trial. They only cost a quarter.

- BUSINESS:** The West Bend Aluminum Company began the manufacture of aluminum cooking utensils in 1911 with a small plant, and capital of \$14,000. Today the West Bend "Quality" aluminum ware is used in the entire United States and in foreign countries; aluminum ware is becoming more popular. - PROPERTY:** The Company is operating in a large, modern, fire proof factory and has an abutment completed upon which a new and larger building can be erected in a short time when conditions warrant. The property includes 23 acres of land between the Chicago and Northwestern Railroad and the Milwaukee River in the City of West Bend, Wisconsin.

The Company agrees to keep net tangible assets of 200% (twice) and net current assets of 120% of the Preferred Stock outstanding at any time.
- ADDITIONAL STOCK RESTRICTIONS:** No Preferred Stock in excess of the \$400,000 now issued shall be issued unless the net tangible assets amount to 200% and the net quick assets 120% of the total Preferred Stock outstanding plus that proposed to be issued, and unless the net profits for the twelve months preceding shall be three times the total dividend charges on the Preferred Stock outstanding and that to be issued.
- REDEMPTION AND SINKING FUND:** Each year beginning January 1, 1922, the Company must set up out of profits a Sinking Fund equal to 5% of the greatest amount of Preferred Stock at any time outstanding, which fund must be used beginning July 1, 1922, to redeem at par each year 5% of the greatest amount of Preferred Stock at any time outstanding.
