SOMETHING TO THINK ABOUT

By F. A. Walker

JUNKING BATTLESHIPS

EVERY little while we read of the junking of obsolete battleships. When the old veterans, scarred and worn from strenuous service, are thus brought to disgrace, there are among the sailors who knew their traces of sorrow.

THE GIRL ON THE JOB

How to Succeed—How to Get Ahead—How to Make Good

WOMEN IN COMMERCE.

WOMEN are an important factor in commerce in America. There are many cities where women are members with men on the boards of the local chambers of commerce.

In England the University of London has just inaugurated a course in commerce, to which women will be admitted under the same conditions as men.

MOTHER'S COOK BOOK

Oh! this is prime! Chestnutting time Has come at last, and so, White birds are white with gleaming prime

THE chestnut is most popular in all parts of the United States, though it is not grown in all places. It is palatable in almost any form and is used from soup to confection.

To remove the shells, make a slit one-half inch long in the side of each nut, then put them into a pan with a little butter, a half teaspoonful to a cupful of nuts, and shake them over the fire to cover with butter and become hot.

Chestnuts on Casserole. Remove the shells and inner skin as above from three cupfuls and with a sharp knife take off the shells and the inner brown skin will come off at the same time.

Protecting the Pets. "You permit tentacles to have pet animals in your apartment house?" "Yes," replied the landlord. "Some of them are fine specimens and exceedingly valuable."

THE ROMANCE OF WORDS

"MISS NANCY." TO STATE that a person is a "Miss Nancy" is now equivalent to declaring that, if a man, he is effeminate or, if a woman, that she is prudish and affected—a custom which had its origin in the person of Mrs. Anna Oldfield, a celebrated actress, who died in 1730 and who was buried in Westminster Abbey.

SCHOOL DAYS

He's buried right here, Joe, beneath this old tree, on the very spot where he last summer got that Gosh, but that was a burty fight!

LYRICS OF LIFE

YOU AND I AND THEY. A SIMPLE thing, humanity— Just you and I and They; And You and I and They are We

THE CHEERFUL CHERUB

I never am lonesome For long Though I'm living unsought and apart For I play with, surprising to say, A mysterious friend in my heart.

THE IDEA Well I declare, I didn't know Bunny went in for aviation.

THE KITCHEN Cabinet

The day of the school lunch has returned and the mother who thinks will realize how important it is that her child should have good nourishing food.

There are many cereal coffees on the market which are both agreeable and nourishing, but the real coffee should never be given to growing children.

Lack of appetite in the morning is often the result of sleeping in an ill-ventilated room. The bad taste in the mouth should be attended to at once.

Children are hungry more often than adults because their digestive organs are very active. A lunch between meals is often necessary, but the habit of continuous lunching is very bad.

In packing the school lunch, care should be taken to appeal to the taste of the child; make it good to look at first, then it will not be hard to make it appetizing.

Never try to bear more than one kind of trouble at once. Some people bear three kinds—all they have had, all they have now, and all they expect to have—Edward Everett Hale.

Character is built out of circumstances. From exactly the same material one man builds palaces, while another builds hovels.

SCHOOL LUNCHES. The day of the school lunch has returned and the mother who thinks will realize how important it is that her child should have good nourishing food.

To start the day right there should be plenty of time for a good wholesome breakfast, which will "stay by" until the noon lunch.

A good-sized dish of some well-cooked cereal, with top milk, with no sugar, is preferable; add a few dates, prunes, figs or raisins for the sweetening.

TRY THESE. For a nice little cake to serve at tea or with a cup of hot chocolate or cocoa there is nothing more satisfying than...

Baked Ham.—Parboil a thick slice of ham from the center of the ham, place in a deep dish or in a fireless cooker dish, cover with one-half cupful of brown sugar mixed with one teaspoonful of mustard and pour around it milk enough to cover the sides of the ham. Bake in a moderate oven for an hour or in the cooker for four or five hours.

Round Steak Birds.—Cut strips of round steak, flatten by pounding until quite thin. Place upon each strip a slice of bacon, a slice of pickle and a slice of onion. Roll up and tie with a string. Dust with salted and peppered flour and brown in a little hot fat. Simmer until tender, never allowing the meat to boil. Serve with the gravy poured around the rolls, after removing the string.

Cream Prune Pie.—Put through a sieve a cupful of stewed prunes, add a cupful of milk, one teaspoonful of cornstarch, a third of a cupful of sugar, the yolks of two eggs well beaten, a pinch of salt, mix well and pour into a pastry-lined pie plate. Cover with a meringue and bake all together or cook the filling, bake the crust and cover with a meringue and brown in the oven.

Graham Bread.—Take two cupfuls of sour milk, two teaspoonfuls of soda, three cupfuls of graham flour, two thirds of a cupful of brown sugar, a pinch of salt. Mix all together and bake in a slow oven one hour.

Pay Attention to Small Cuts. At an inquest held recently at Bow, England, on the body of a publican, 50 years of age, says the Lancet (London), it was proved that the deceased had cut himself when shaving and had paid no attention to the wound had patched it with a piece of beyond covering it with a piece of paper. Severe erysipelas had followed and the man had died. A verdict of accidental death followed, the coroner, Dr. R. L. Guthrie, observing that it might be a counsel of perfection to advise a man who cut himself to use an antiseptic immediately.

Here It Is!—The New

International Manure Spreader

Run Your Eyes Over These Best-yet Features:

1. **Roller Bearings.** Roller bearings at seven points—the only spreader so equipped.
2. **Double Ratchet Drive.** Walking beam transmission from main axle eccentric and extra large ratchet wheel give easy, strong, steady feed. No pounding or jerking, due to extra-long movement of pawls on ratchet wheel—only two power impulses on ratchet for every revolution of 46-inch drive wheels. Box tapered to eliminate friction on box sides. Six feed speeds.
3. **Facilitating Front Axle.** Auto-type, permitting short turn. No polewhipping. No strain on frame.
4. **Power: Both Wheels.** Power is transmitted direct from main axle to beaters, wide-spread spiral and manure conveyor—not through beater to conveyor or vice versa.
5. **Wheels Track.** Rear wheels track with the front wheels, lightning draft.
6. **Tight Bottom.** There is no clogging, jamming apron, because the spreader has a tight bottom. Spreads anything. Retains all liquid manure.
7. **Two Beaters.** Two all-steel beaters with chisel-pointed square teeth work from both top and bottom of the load. Allow extra-high load.
8. **Wide-Spread.** The spiral behind the beaters gives the manure a third beating, and spreads it finely and uniformly beyond the wheels.
9. **All-Steel Main Frame.** Does not check, rot or warp. Wood box sides hold onto the load. Frame holds operating mechanism independent of box; keeps alignment perfect.

The New International—made in two sizes—is unquestionably the best spreader value on the market today, and when you consider it in connection with its price, it is far ahead of all others that there is really no comparison. We have a sample spreader set up for your inspection. Come in and look it over.

ASKING DAD.

Dr. Strickland, re-...
"Well—said the doctor, touched in his gentlest tone, "well! It had to come, perhaps. I can't promise her to you very soon, Mr. Lloyd. But if you both are willing to wait, and if time proves this to be the real feeling, I don't believe you'll find me hard on you."

"That's all I ask, sir," Martin said, resuming his seat and his dinner. And for the rest of the meal harmony and gaiety reigned.

Pretty Things that are made at Home

The fruits, which may be placed in any sort of basket or suitable dish, require wire, crepe paper and colored sealing wax for making them. Wads of cotton, wool batting or crepe paper, rolled into the right size and fastened to a wire stem, are covered with melted sealing wax, which is dripped over them as it melts. They are twisted about to round them, the shape controlled while the wax is pliable, and dipped in water to cool them. Stems are made by winding the wire with strips of green crepe paper or tissue paper. The grapes are made in green, red and purple bunches to the natural color tones. The small apples require two or three colors. After the apple is made in one color, and cooled, it is wiped dry and bits of other colors dropped on it and blended in over the small alcohol or other liquid used for melting the wax.

A SIMPLE ONE-PIECE FROCK

Now that fashion's devotees insist upon the very simplest lines in frocks for daytime wear, the ingenuity of designers is put to the test. Their resourcefulness must save these frocks from becoming monotonous by making the most of their decoration, and they have called upon all sources for inspiration. This saving grace of decoration has been considerably overdone sometimes—one must know where to leave off—but this is the exception and not the rule in the new models presented for winter wear.

Private Park. If the rear yard is properly planted with a border of flowering shrubs and perennial flowers, has a velvety green lawn and a few shade or fruit trees, it will give the family a quiet, peaceful little private park, in which all can enjoy the moonlight during the hot summer evenings without making a long, tiresome trip to the parks. This is the height of pleasure afforded by a well-planted home yard.

Help That Aching Back!

Lame in the morning! A dull back-ache all day long! Worn out every evening comes! The same old round of suffering! To endure such misery is both foolish and unnecessary. Find the cause of your trouble. Likely it is your kidneys and that nagging back-ache may be Nature's warning of kidney weakness. You may have sharp stabbing pains, a depressed feeling and bladder irregularities. Don't risk more serious kidney trouble. Help your weakened kidneys. Doan's Kidney Pills have helped thousands. Ask your neighbor!

A Wisconsin Case
"Every Peter Tells a Story"
Mrs. J. N. Kitchinger, Lancaster, Wis., says: "I had a keen & severe backache. An attack of kidney trouble. My back had a steady dull pain in it which did not go away. I had pains in the joints of my ankles. My kidneys were weak, but Doan's Kidney Pills rid me of the trouble."

POSITIVELY RECOMMENDED BY THE MEDICAL PRESS. For a list of the best interpretations of the name, its lines could hardly be less simple or more becoming and its decoration is everything that could be wished. Beads and silk are used for a design which recalls the motifs used by American Indians in their wonderful bead work, but is carried out in only one color, hence, with steel beads. This combination

Peculiar Disease. Arithmomania—the medical name for another disease—is full of interest. In this the patient has a irresistible impulse to count a certain number of times before doing anything. One case recorded is of a girl who had to tap on the edge of the bed nine times before getting into it; a hundred times before brushing her teeth; to knock three times on a window by the side of the door, and a similar number of times on the door itself before she would unlock it.
