Lights Change Stage Scenes

Turn of Switch Transforms the Scenery, Costumes and Figures in London Theater.

M. Samolloff Asserts He Is Merely Utilizing Harmony Between Light, Line and Color-Principles Are Not New,

London - The wonders accomplished In transforming scenes, costumes and actual figures from one period of history to unother by a mere change of light on the stage of the Hispodrom has set all London talking. In a revue now playing there is a scene representlag a very modern damsel sighting for her lover in a frowning mountar pass. She sings, the echo answers and the sussence is beguiled by the sweet sentimentality of the situation.

Then behind the scenes somebody does something and everything is altered in a flash. The grim moun tains become a Hindu temple, the frowning rocks melt into sands and palms and the tall, slender young woman turns into a stout Indian maiden. It has all been brought about by a change in light, by the manipu lation of more than 100 different switches at the same moment, and the audience is carried back 5,000 years and from one continent to another Every detail is transmogrified, and the girl, who was clad conventionally in facings and a rust-red golf skirt, ap- York to Washington in two hours with no stops, pears now with her bust draped in white, embroniered to black an greceful figured pattern.

Back Goes Everything.

The Key to Success Is Work-There Is no Substitute for It!

In order to do your best work, you must be healthy. You must sleep soundly at night, your nerves must be strong, steady and under perfect

If you are accustomed to drinking tea or coffee with your meals or between meals, you may be loading yourself with a very great handicap. Your nervous system may be stimulated beyond what is natural for you.

For tea and coffee contain thein and caffeine. These are drugs as any doctor can tell you. They are known to irritate the nervous system by their action and to cause restlessness and insomnia, which prevent the proper recuperation of the vital forces.

If you want to be at your best, capable of doing the very best work that lies in you, why not stop drinking tea and coffee? Drink Postum, the rich, satisfying beverage made from scientifically roasted cereals.

Postum contains absolutely no drugs of any kind, but in flavor tastes much like rich coffee. It helps nerve and brain structure by letting you get sound restful sleep.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Ask your grocer for Postum. Sold everywhere.

Lights Change Stage Scenes

Turn of Switch Transforms the dissy and covered with embroidery. When you have worked this out very thought to the state of the state o Scenery, Costumes and Figures in London Theater.

M. Samalloff Asserts He is Merely Utilizing Harmony Between Light, Line and Color-Principles Are Not New.

London.-The wonders accomplished in transforming acenes, costumes and actual figures from one period of history to another by a mere change of light on the stage of the Hippodrome has set all London talking. In a revue now playing there is a scene representing a very modern damsel sighing for her lover in a frowning mountain pans. She sings, the echo answers and the audience is beguited by the sweet sentimentality of the situation.

Then behind the scenes somebody does something and everything is aftered in a flash. The grim mountains become a Hindu temple, the frowning rocks melt into sands and palms and the tall, slender young woman turns into a stout Indian maiden. It has all been brought about by a change in light, by the manipu lation of more than 100 differen switches at the same moment, and the nudlence is carried back 3,000 years and from one continent to another Every detail is transmogrified, and the a yellow artificial silk blouse with blue facings and a rust-red golf skirt, appears now with her bust draped in white, embroidered in black and brown, with her walst unclothed and her fromers-pairt pale cream with a graceful figured pattern.

Back Goes Everything.

An Oriental scene follows, with the customary dances. Men and women in all the finery of the East enter and weave in and out in the mazes of the ballet. The lover comes on, to all uppearances robed in the loose white garments and the troosers of certain custes of Hindus. The action grows fast and furious; the hereine is threatened by a rival; she runs to the here for protection, and as he clasps her to his arms some one throws those switches again.

The Key to Success Is Work— There Is no Substitute for It!

In order to do your best work, you must be healthy. You must sleep soundly at night, your nerves must be strong, steady and under perfect control.

If you are accustomed to drinking tea or coffee with your meals or between meals, you may be loading yourself with a very great handicap. Your nervous system may be stimulated beyond what is natural for you. For tea and coffee contain their and caffeine.

These are drugs as any doctor can tell you. They are known to irritate the nervous system by their action and to cause restlessness and insomnia, which prevent the proper recuperation of the vital forces.

If you want to be at your best, capable of doing the very best work that lies in you, why not stop drinking tea and coffee? Drink Postum, the rich, satisfying beverage made from scientifically roasted cereals.

Postum contains absolutely no drugs of any kind, but in flavor tastes much like rich coffee. It helps nerve and brain structure by letting you get sound restful sleep.

Postum comes in two forms: Instant Postum (in tins) made instantly in the cup by the addition of boiling water. Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Ask your grocer for Postum. Sold everywhere.

Simple Rule to Remember. When should "fewer" be used, and when should "less"? Is it correct, for example, to say "I have no 'less' than 100 bushels"? The rule to avoid this common mistake is to remember that fewer is used when referring to numbers-as in the above example-and less when referring to quantity.

Needs to Be. "The telephone girl is always so cheerful." "Especially when she can't get the number you want."-Louisville Courier-Journal.

Intert Irica d Corn and Hogs are a Stimulus to International Feed Grinder and Corn Sheller Sales.

ARMERS used to say it was good business to raise hogs which sold per pound at one-tenth the price of a bushel of corn. This meant that corn at 70 cents made 7-cent hogs profitable. The present relative prices of these products are decidedly more favorable to hog raising than this. Farmers are going to raise more hogs and they will need feed grinders, corn shellers, and the power to operate them.

Feeding experience shows that ground corn makes much more economical gains in hogs, and keers them healthier. When corn on the cob is fed, large quantities pass through the animal undigested. It will mean more profit to you farmers—this advantage of feeding ground corn.

A Visit to Your Old Home Town

Don't you wish you could make one? But, of course, you haven't the time. It's a fast world! And it's a long, expensive trip. Perhaps, some day!

But just as often as not, "some day" never comes. And you have to be content with just sending your memory back on a skylarking trip among the ghosts of yesterday.

However, those "ghosts" are very much alive, chances are, and are doing a lot of interesting things you'd like to know about. True, you may be getting letters regularly from mother or father, or sister or brother-but they seldom, if ever, mention good old Tom, Dick or Harry. What of them? Somebody knows!

You bet somebody knows! That "some-

body" is the KEWASKUM STATESMAN,

your Home Town Paper. Why, it's got

stories about Tom, Dick and Harry today. You ought to keep in touch with themand you can! It's easy-Subscribe for Your Home Town Paper

Kewaskum Statesman

Letters to the Editors

The Kewaskum Statesman, which always tries to keep abreast of the times, are planning on a novel stunt to put before the readers of this newsy paper, in the form of weekly letters written by the readers and their friends. These letters received weekly from different communities will add greatly to the interest in the Home Town Paper, and with the hearty co-operation of our multitude of readers, the coming of this paper will be looked forward to with keenest delight. All contributors, however, are warned against personal jokes, stories of an injuries character and articles of an advertising nature. Do not write long letters or stories as we would prefer to run as many letters as we can in the column each week. Sign your name to all letters. We will not publish names if requested not to.

Here is a chance for each and every one of you to become an active contributor to one of the best little weeklies in the state. Start the ball a rolling and see what a marked improvement it will make in community co-operation.
