DEATHS OF THE PAST WEEK

The home of his daughter, Mrs. Mathias at Dundee, occurred on the morning of May 28, at 9 o'clock. He was united in marriage to the late Mrs. Mathias on the morning of May 28, at 9 o'clock. He was a native of the village of Farmington, Province Pomerania, Germany, March 6, 1840, where he spent his boyhood days and where he received his education. On Oct. 24, 1862, he was united in marriage to the late Mrs. Mathias of the same place. In June 1867 they came to America and settled in Wisconsin. This union was blessed with ten children, five of whom together with their mother preceded him in death. Those surviving are: Fred, Beechwood, Albert at Dundee, Willie of Dundee and Adelia, Mrs. Henry Kelling, of Dundee and Ida (Mrs. Wm. Mathias) on the home place. Besides these he leaves, 16 grand children, 6 great grand children and many other relatives and friends. Deceased was a good citizen of a quiet disposition, well liked by all who knew him. He was one of the early settlers of Dundee. He lived on the farm life he moved to New Fane where he resided for a few years, then moving to Beechwood, and shortly afterwards, when health commenced to fail, came to Dundee to live with his daughter. His funeral was held on Wednesday at 1:30 p. m., with services in the Dundee Lutheran church. Rev. Carl Appeler officiated. In terment was made in the congregation's cemetery. The pall bearers were Ernest Becker, Carl Koenig, Carl Grosskreutz, Wm. Bartelt, G. W. Baetz, Herman Schellhaus.

CLASS PLAY A GRAND SUCCESS

The class play "The Elopement of Ellen" given by the Senior class of the Kewaskum High School at the Opera House on Tuesday evening, was a grand success, and greatly enjoyed by a large and attentive audience. The hall was taxed to its capacity. People coming from far and near to see the splendid rendition of the play by the cast, which is indeed a great credit to the coach, Miss Emma Windau, the cast, school and to the entire faculty. The interest of the audience was held throughout the entire performance, and at frequent intervals were thrown into an uproar of laughter and applause by the good work of the cast, in representing their different characters. The play was sentimental and very humorous especially the blundering Hume, an absent minded rector, in addition to this the play had a high moral tone, and the manner in which it was presented plainly shows, that it was the result of hard and conscientious work by both the coach and cast who are to be complimented upon the success of same. The cast of characters is as follows:

Molly.....Norma Bunkelmann
Richard Froese.....Raymond Quade
Robert Shepard.....Arnold Boegel
Max Ten Eyck.....Alfred Schaefer
Dorothy March.....Evelyn Perschbacher
John Hume.....Edwin Morgenroth
Jane Haverhill.....Wellesley Quade

Maria Havig in Marcella Havig in the Dundee Lutheran church. Rev. Carl Appeler officiated. In terment was made in the congregation's cemetery. The pall bearers were Ernest Becker, Carl Koenig, Carl Grosskreutz, Wm. Bartelt, G. W. Baetz, Herman Schellhaus.

COMMENCEMENT PROGRAM GIVEN

The commencement exercises held at the Opera House on Wednesday evening were attended by a large and appreciative audience. A very impressive program marked the graduation exercises of the class of 1922, and the occasion had been looked forward to by the relatives and friends of the class for some time. The class this year consisted of seven members, as follows: Arnold Boegel, Alfred Schaefer, Norma Bunkelmann, Edwin Morgenroth, Evelyn Perschbacher, Marcella Havig and Raymond Quade. The programme as rendered is as follows:

Music—High School Chorus "Answering the Call"—Arnold Boegel "Give the World the Best You Have and the Best Will Come Back to You"—Alfred Schaefer "Des Education Pays"—Norma Bunkelmann Memorial Address—Edwin Morgenroth Duet—Alfred Schaefer and Dorothy Dana Class Poem—Evelyn Perschbacher Matthew Arnold's Plea for Humanity—Marcella Havig "The Progress of Science"—Raymond Quade. Last song—Class of 1922. Address—Mr. M. J. Jackson. Mr. Jackson's talk was very interesting, instructive and enjoyable. He talked of his travels in Europe and the manners and customs of living of the people in the different countries, concluding his speech with an address to the class. He was the best speaker heard here in years. Presentation of Diplomas—Pres. of Board of Education.

Tomorrow (Sunday) our boys will cross bats with the Richfield team on the home grounds. The visitors come here recommended as a strong aggregation and are bound to give our boys a race on this occasion. On Sunday, June 11th, the Campbellport team will play here in the first game of a series for the season. This is the first time in years that the teams of these two villages have met and the game promises to be a tough battle and can be looked forward to as both teams are anxious to win.

On Saturday evening, June 3rd, a grand benefit dance will be held at the South Side Park hall by the local team. The public general is invited to attend and help the boys along, as they are working hard to develop into a first-class amateur ball team and give the fans of this village and community some good exhibitions of base ball, in order for them to accomplish this they need the hearty support of the fans.

MANY WEDDINGS THE PAST WEEK

KERN-SCHMIDBAUER WEDDING

At ten o'clock a. m., on Tuesday, May 30 at the St. Kilian church, St. Kilian, a very pretty wedding took place when Miss Olive Kern, daughter of Mr. and Mrs. Joe Kern of St. Kilian became the bride of Arthur Schmidbauer. Rev. J. B. Reichel performed the ceremony. The bride was attended by her sister, Miss Theresa Kern, maid of honor, and Anna Schmidbauer, sister of the groom as bridesmaid. The groom was attended by Alphonse Schmidbauer as best man and Joe Kern as usher. Virginia Strobel of Hartford, a niece of the bride, dressed in white, acted as flower girl and carried a basket of flowers. The church was decorated with ferns and cut flowers.

The bride was dressed in a white champagne, trimmed with chantilly lace tulle veil with train and carried a shiver bouquet of roses and sweet peas. The bride's attendants were dressed in honey dew tulle crepe, trimmed with white georgette, and carried bouquets of pink carnations. After the ceremony the bridal party repaired to the home of the bride where a five course wedding dinner was served with about seventy guests in attendance. The table was decorated with cut flowers, ribbon streamers with place cards, while the color scheme at the home was pink and white crepe paper and white wedding bells. Mr. and Mrs. Schmidbauer left the following day on a honeymoon trip keeping their destination a secret. Upon their return they will reside at St. Kilian, where the groom is engaged in a blacksmith shop. They will be at home after June 15. They have the best wishes of their many friends for a prosperous married life.

Guests from away were: Mr. and Mrs. John Reuter and family, Miss Rosa Ruppinger of Milwaukee, Mrs. Lucia Zehren of Fond du Lac, Mr. and Mrs. Philip Strobel and family, Mr. and Mrs. John Kern and family of Hartford, Mr. and Mrs. J. Gibl, Mr. and Mrs. Arthur Schmidbauer and family, Miss Carrie Deschner and family, J. Schmidbauer of Campbellport, Mr. and Mrs. John Ruppinger of Theresa, Mr. and Mrs. Peter Kiefer and family of Lomira.

IN MEMORY

In loving remembrance of our wife and mother, Mary M. Laughlin, who passed away one year ago June 8th, 1921:

In her lonely grave she sleeps,
As the shadowy sunset falls,
And our loving hearts are weeping,
No more her presence we can call.
Do not ask us if we miss her,
Oh, there's such a vacant place.
Oh we think we hear her footsteps,
Or we see her smiling face.

A loving wife and mother, true and kind,
No friend like her on earth will find,
God called her home, it was his will
But in our hearts she lingers still.

Though she is gone, love impress on
The hearts of those who remain,
May God grant eternal rest,
Sadly missed by husband and daughter.

PLAYS AT ST. MICHAELS DRAW WELL

A full house greeted the players on Tuesday evening, May 30th, at St. Michaels, when the curtain rose for the three-act comedy "Wanted a Maid" and the German play "Das Loch in der Aisenecke", under the auspices of St. Michaels Dramatic Club, and sponsored by the young ladies of the parish. The different parts were so well staged and acted, that all in attendance were highly enthusiastic and cheering the players said in unison "Well Done". This is the greatest satisfaction for the club who promise to be of further service in the line of dramatic entertainments. They kindly thank all who attended and who helped in making this programme such a grand success.

DOINGS OF THE CITY COUNCIL

Kewaskum, Wis., May 31, 1922.

The Village Board, acting as a Board of Public Works, met at the village hall to hear objections to the assessments made against property of the owners fronting or abutting on streets on which sewerage is to be constructed according to official notice published in the Kewaskum Statesman. The following members responded to roll call: Martin, Groeschel, Schmidt and Van Esen. Pres. Morgenroth acting as chairman.

The minutes of the previous meeting were read and on motion adopted.

There being no objections made to said assessment the board made out and signed the report and filed the same with the Village Clerk. There up on motion the Board adjourned.

S. N. Casper,
Village Clerk.

LOCALS WIN OPENING GAME

The local base ball team went into the game last Sunday, at the base ball park, against the strong Keovons nine with vim and "pep", making good their intentions of winning the opening game of the season, on the home grounds by a score of 8 to 14. The locals took the lead at the start and never in danger of coming out of the contest in the short end of the count. The visiting pitcher was left hand, while Elton Rantoun, who was on the mound for the locals, held his own, and kept the visitors hit well scattered.

Tomorrow (Sunday) our boys will cross bats with the Richfield team on the home grounds. The visitors come here recommended as a strong aggregation and are bound to give our boys a race on this occasion. On Sunday, June 11th, the Campbellport team will play here in the first game of a series for the season. GLADYS LESLIE COMING

Gladys Leslie, who in a short period of a few years has come to be one of the most popular and capable of the motion picture screen, will present her vivacious and charming little self once again to local fans when "God's Country and the Law", the latest of James Oliver Currier's picture stories of the North woods will be shown at the Opera House, Wednesday evening, June 7.

Miss Leslie is seen in the feature role of Marie in this big production, and it is one of the triumphs of her career according to reports from photoplay reviewers in other cities.

Previous to taking part in this picture, Miss Leslie acquired an enviable fame as the star of "A Child for Sale".

Miss Leslie, who is only 22 years of age, is one of the leading stars.

Supporting Miss Leslie in "God's Country and the Law" is an especially selected and stellar cast. Fred C. Jones is a well known name and personality to the photoplay fans. He plays the leading juvenile role in this Curwood production and his previous career with some of the biggest of the photoplay companies has made him widely known and popular. The other members of the cast are William H. Tooker, also well known to the fans for his past performances with Fox, Metro and Solmick. He played some of the feature support roles in "The Tropics", "Worlds Apart" and "The Strollers".

Cesare Gravina, who plays the interesting character of Poleen in this picture was at one time one of the leading members of Mary Pickford's cast.

Hope Sutherland, one of the most beautiful and charming newcomers in the ranks of photoplay actresses, adds another pleasing note to the story with her delineation of the role of the half-breed girl. Before making her bow in pictures Miss Sutherland earned her spurs on the speaking stage leaving the cast of "Debuveau" during its big New York run, to be a member of the "God's Country and the Law" cast.

RAIL WORKERS' PAY IS SLASHED

Wages of 400,000 Maintenance of Way Employees Cut by Board.

BASED UPON ADJUSTMENTS

Decreases Decried by the Railroad Labor Board Are From One to Five Cents an Hour, Effective July 1.

Chicago, May 26.—Wages of 400,000 maintenance of way railway employees are cut from 1 to 5 cents an hour, beginning July 1, according to a decision announced by the railroad labor board. The slash will mean an annual saving of approximately \$45,000,000 on pay rolls.

The decision means a return to practically the same scale as that prevailing February 29, 1920, when the roads were turned back to their owners, and is considered indicative of the size of cuts that will be made in the scale of workers in other departments.

A dissenting opinion is filed by three labor members of the board. It is based on the fact that a dissent has been registered under the signature of all members of a group.

The labor group contends that the wage scale provided in the decision is insufficient to sustain life on anything like the basis of American standards. They cite tables and opinions of social workers and arbitration specialists to sustain the dissent.

The pay scale of maintenance of way employees after July 1 will be from 23 to 35 cents an hour as compared with the present rate of 28 to 40 cents.

In announcing a separate decision for this class of rail workers, the board states that it is complying with a request made by the United Brotherhood of Maintenance of Way Employees and Railroad Shop Laborers.

The board calls attention to the fact that this adjustment is based on previous wage adjustments both by the director of railroads under federal control and by the railroad labor board since that time.

All matters were based upon horizontal increases or decreases of the scales prevailing before federal control, all of which were different in various parts of the country and on different divisions of the railroads.

The minimum rates authorized in the present decision will apply only on a few divisions in a small group of states, principally in the South and Southwest.

Washington, May 25.—Reduction in freight rates averaging about 10 per cent was ordered by the interstate commerce commission in a decision resulting from its inquiry into the general rate structure of the nation.

The cut in rates was fixed by the commission at 14 per cent in eastern territory; 13 1/2 per cent in western territory; and 12 1/2 per cent in southern and mountain-Pacific territories. All reductions ordered are effective July 1 and constitute a greater cut than the rate of 10 per cent fixed by the interstate commerce commission in a decision resulting from its inquiry into the general rate structure of the nation.

The commission in ordering the decreases—which are on a horizontal basis—held that the nation's railroads are entitled to earn 5 1/2 per cent on the value of their property rather than the approximate 9 per cent fixed as a reasonable return under the transportation act of 1920.

Transportation charges on passenger and Pullman travel were left unaffected by this decision.

Agricultural products will not be affected by the reduction granted under the commissioner's order. The reduction of 10 1/2 per cent made in the western hay and grain rates last fall and the voluntary 10 per cent cut made in all agricultural products by railroads January 1 will be substituted for the decision on these commodities.

SLAYER IS PARDONED

H. F. Henwood, Who Killed Mining Man, Freed by Governor.

Denver, Col., May 20.—Harold Frank Henwood, serving a life sentence in the Colorado state penitentiary for the murder of George E. Copeland, prominent Cripple Creek mining man, was pardoned yesterday by Governor Simpson. Copeland was shot to death in the bathroom of a Denver hotel on the night of May 24, 1911.

Henwood's pardon is the result of a personal appeal to the governor by John W. Springer, husband of the late Mrs. Springer, named as the woman responsible for the shooting affray in which Copeland, an innocent bystander, was struck by a bullet intended for S. L. (Tom) Von Puhl of St. Louis, with whom Henwood had quarreled over Mrs. Springer.

Von Puhl was also killed and James W. Atkinson of Colorado Springs, like Copeland, an innocent bystander, was struck by a bullet and made a cripple for life.

The Henwood trial was one of the most sensational in the history of Denver. The principals were prominent socially and the eyes of society were focused on the event.

Mrs. Springer, the cause of the quarrel between Henwood and Von Puhl, was a woman of extraordinary beauty. She was subsequently divorced by her husband and died a pauper several years ago in a hospital on Blackwell's island, New York. Von Puhl was a prominent resident of St. Louis and an amateur aviator of international repute.

In presenting his plea for the pardon Springer told Governor Shoup he was convinced that Henwood had been actuated by noble motives and was protecting Mrs. Springer when he became involved in the quarrel with Von Puhl.

The seeming discrepancy in the rate cuts is due to the fact that the new rates do not cover all articles; the new average, however, will be 10 per cent lower.

The commission in ordering the decreases—which are on a horizontal basis—held that the nation's railroads are entitled to earn 5 1/2 per cent on the value of their property rather than the approximate 9 per cent fixed as a reasonable return under the transportation act of 1920.

SAYS BUSINESS IS BETTER

Secretary of Labor Declares Practically No Idle Workmen Can Be Found in New York.

Washington, May 27.—A picture of steadily reviving business activity throughout the country is drawn by Secretary Davis in a statement based on reports of employment conditions to the department of labor.

The reports indicated that unemployment had been "practically eliminated" in New York state, the secretary said; that it has been reduced more than 50 per cent in the last three months in Pennsylvania, while the "slogan of business depression has given way to a cheerful note of improved industrial activity" in Illinois, Minnesota, Wisconsin, Iowa, Michigan, Kansas and Missouri.

There is "unmistakable evidence" of improved industrial conditions prevailing on the Pacific coast, Mr. Davis said, while in the South the reports show steady improvement in Georgia, Tennessee and Alabama and practically no unemployment now exists in North Carolina.

Big Sawmill Burned.

Rhineland, Wis., May 30.—Fire destroyed the sawmill of the Stevens Lumber company here. The mill, one of the largest and most modern in the Northwest, was valued at \$75,000 and was partly insured.

St. Louis, May 30.—Charles Oehrbek and his wife, Laura, were found dead in their home here. Police theory is that Oehrbek was slain by his wife, who then took her own life by inhaling gas.

Blast Kills Man.

E. H. GARY WANTS U. S. SALES TAX

President of American Steel Institute Would Kill the Income Tax.

WANTS THE BONUS SHELVED

Urges Congress to Take Tariff Out of Business and Play No Favorites in its Tendency to Regulate Things.

New York, May 26.—Elihu H. Gary, in his address as president of the American Iron and Steel institute, in session at Hotel Commodore, advocated that congress take the tariff out of business; that it play no favorites in its tendency to regulate things; that it substitute a sales tax for the income tax, and that it forget the soldier bonus bill and the nation is less severely burdened financially.

As for the business future of America, Mr. Gary declared himself an "optimist." In the iron and steel industry, he said, the profits are not satisfactory, but few, if any, ought to be doing business at a loss.

"Try the blind, deaf and foolish pessimist of the United States," he adjured members of the institute. "In a remark which he said was inserted 'as a tone of consolation and hope,' the steel magnate asserted, 'Congressmen are like the ordinary run of individuals—most of them honest and well intentioned, but a few are possessed of less merit.'

"We have not, I think, passed entirely from under the clouds of adversity," he said. "Certainly we are carrying hitherto unheard of heavy governmental financial burdens. At best these will not be fully discharged. To bear them gracefully and consistently there must be not only forbearance, encouragement and assistance from every department of government up to the limit of propriety and justice, but there must also be entertained by every individual, consistently and constantly, a spirit of patience, pluck, energy, generosity, loyalty and charity fully up to his or her intelligence."

The tariff question, he declared, should be delegated for investigation to a committee of well-paid, high-minded, intelligent, competent and not-partisan appointees, authorized to ascertain and communicate the facts and figures.

"As between parties the main difference, as I see it, is that the Republican party has stood for a 'protective tariff' and the Democratic party for a 'tariff for revenue.' The settlement of this controversy should include both."

In a plea for impartial government control, where it is undertaken, he insisted that "all lines and departments of economic activity of similar importance should be subjected to the same treatment. There has been a disposition in recent years," he declared, "to pass laws which measurably exempt labor organizations, and recently farmer associations, from governmental investigations, supervision and control against wronging."

To permit such organizations to do, as the result of combination, things that are claimed to be beneficial to them which are denied to others is to create classes, to favor some and to injure the whole body politic, the steel magnate declared.

"The bonus question," he declared, "is not yet ripe for determination. Even though there may be two sides to the question as to whether or not a soldier who has escaped disability, physical and mental, should be paid, or ask payment of, a bonus, it would not be useful for us to consider or form opinions on the question at present."

"There has been considerable propaganda in behalf of the proposal," he continued. "Personalities and representative comment have been indulged in. Prejudices have been created. Because of this situation a feeling of unrest and resentment has arisen, and the effect upon the natural progress of efforts to return to the normal conditions of peace and industry has been depressing."

"Former soldiers, like all others, need opportunity to work, and continuously to furnish a chance, courage and capital should be given to industry. The load of taxation ought to be lightened, not increased. Enterprise has stagnated under this burden. It would not be difficult to break it back."

"These are not idle words. They are a solemn warning, not only to soldiers but to everyone who is at present asking what is neither reasonable nor patriotic."

Of taxation he said: "The fairest method is found in the sales tax, so called. It is the most easily, cheaply and certainly collected. It has been found in other countries to be practically satisfactory and successful."

DR. GEORGE T. HARDING, JR.

Dr. George T. Harding, Jr., a physician of Worthington, O., and brother of President Harding, at the world conference of Seventh Day Adventists in San Francisco predicted that the end of the world is close at hand. He declared that indications today point to the fact that we are living in the time predicted by the prophets, the time just preceding the second coming of Christ.

Florence—Mrs. Christina Kolar, 50, and her son, Ladda, 15, were burned to death when the Kolar farm house at Fern, a farming community in Florence county, was destroyed by fire. The father and three children escaped, but two of the children received severe burns. They were thrown from a window upstairs and caught by the father and his son, 21 years old. Mrs. Kolar and her son, Ladda, were unable to escape, all exits being a mass of flames. In trying to escape Mrs. Kolar fell back into the burning room.

20 Reasons Why You Will Like the International New 4 Cultivator

1. The only balanced frame, pivot axle cultivator that retains its vertical pivot at all times.
2. Weight carried on two polished steel balls placed directly under frame arch.
3. Single master lever for balancing frame and raising both gangs simultaneously.
4. Each gang equipped with lever for regulating depth and raising to clear trash, independent of the other gang.
5. Width between gangs regulated by convenient lever without stopping team.
6. Singletree adjustment provides instant balance for any weight driver.
7. No neck weight when working and tongue does not fly up when gangs are raised.
8. Seat and pedal adjustment to accommodate any leg length.
9. I-beam gangs of high-carbon steel, heat treated. Light, rigid and strong.
10. Quickly and easily narrowed for 28-inch rows or expanded to 48 inches on wheel centers.
11. Driver always has clear view of row, making thorough cultivation possible.
12. Operates so easily it has been called "the cultivator for boys."
13. Special lever for leveling the cultivator frame.
14. Gangs always run parallel.
15. Gang control especially suited for hillside work.
16. Unusually strong wheels have 10 staggered spokes and dust-proof boxes fitted with hard-oilers.
17. Range of shovel equipment to meet any soil or crop condition.
18. Wide range of gang equipment and special attachments for special purposes.
19. Seat folds over out of the way for adjusting the gangs.
20. No pivot lock needed. Wheels follow straight line unless pedals are pushed.

Keep Canada Thistles Out of Your Grain

You cannot profitably raise grain and thistles on the same ground; therefore eliminate the thistles. Digging them out or cutting them off with a scythe is a slow, back-breaking, unsatisfactory job and always damages the grain.

The K. M. W. Thistle Destroyer

combats the thistles out of the grain—not by uprooting them or cutting them off and merely scattering their growth, but by stripping off leaves and buds and so bruising and breaking the stalks that it puts them out of business for that season, prevents their spreading and discourages their growth that they will disappear. Easy to use—simply hitch a horse to it and go over the entire field before the grain has headed, with no damage to the grain, but big harvest in the making. The increase in grain yield and quality where it is used will compare favorably with the K. M. W. Thistle Destroyer has no moving parts. It is substantially built, simple in construction, and WE GUARANTEE IT TO DESTROY THE THISTLES AND OTHER NOXIOUS WEEDS WITHOUT DAMAGE TO GROWING GRAIN.

Blind and Deaf, She Plays Piano

Kansas Wonder Girl Is in Class With Helen Keller and Willetta Huggins.

'FEELS' MUSIC WITH FEET

Baking Angel Food and Writing on Typewriter Among Her Other Accomplishments—Masters Difficult Classical Music.

Olathe, Kan.—After 25 years in the blind world of those who are sightless, deaf and dumb, Miss Helen May Martin is making her way out. She has chosen the most "reasonable" method of expression imaginable for one so afflicted.

Before a large audience in the Methodist church here, Miss Martin played what is probably the first piano recital in the history of the world to have been given by a person with neither sight nor hearing. It cannot be said that she is without speech, for she articulates even ungrammatical sentences accurately and understandably.

The intricacy of the method by which a person whose sensations are practically limited to those of heat and cold and taste covers a whole new world to her, comprehensible to the normal person. Miss Martin might possibly have been taught to place her fingers on certain of the piano keys and press them down by rote, but that would not explain her ability to grasp rhythm, nor whatever the sense is that tells her when she is about to make a mistake in time to avert it. She never has heard, and has never been able to recognize objects. For a few years after birth she was able to distinguish between light and darkness, but never more. For 20 years there has not even been that travesty on sight.

"Feels" Her Music. Miss Martin is able to "feel" her music best by placing the ball of her foot against the bottom of her upright piano. Her mother, Mrs. Helen May Martin, says:

At the church, however, she did not want to risk having the instrument she was using, so she got approximately the same result by holding her left foot under the "soft" pedal.

Among the "March Fugue" of the "Don Giovanni" of Mozart, Morrison's familiar "Meditation," Lang's equally familiar "Flower Song," the first two movements of Beethoven's "Moonlight" sonata, and Carrie Jacobs Bond's "A Perfect Day" were the numbers used. The precision with which the roused woman picked her notes out of completely blank space, struck them, and managed trills, ornaments and pedal work, surprised all the pieces were taken deliberately, of course, but the dislocations that would have been evident had she learned entirely by rote were absent.

In the second movement of the sonata the rhythm is not simple. Her mother was it too much for Miss Martin. At the end of her program, she recited the "Flower Song" for an encore. Experiments with the piano were begun a good many years ago by the young woman's mother, but only in the last few years have they been pressed. Never has there been available a teacher who understood both the methods used for the sightless and those for the deaf. Miss Andrea Granger who sat on the platform with Miss Martin, is by a coincidence her first and latest teacher. When Miss Martin was a small girl, Miss Granger was with her for a short period, and now she is completing the work begun then.

Has Other Accomplishments. In addition to a repertoire of 30 piano pieces, Miss Martin has many of the accomplishments of the average girl, she reads Braille, and now learns her piano music by reading the notes in Braille for each hand separately.

Afterward firing the parts together. She does weaving, and more remarkable yet, she makes "fritting" that is even more perfect than that of the average person with sight and hearing. The other day she wrote a story for an Olathe newspaper on the type-writer. And she writes her own bank checks. While Miss Martin was completing in five years a course at the Kansas State School for the Deaf, in Olathe, that usually takes deaf but sighted persons eight or nine years to finish, she found time to learn to cook and do much housework. She bakes angel food cakes and pastries as well as cooks all the staples. The last five years she has had a teacher for only one hour a day, since there is no state institution in Kansas for persons with neither sight nor hearing. While on a visit in Lincoln, Neb., her birthplace, recently, she talked for an hour with Helen Keller with a great deal of pleasure.

Flag Sunk in Battle in Berlin Museum

Berlin.—The flag of the German cruiser Scharnhorst, which was sunk in the battle of Falkland, has reached the Berlin Naval museum after a romantic journey. The captain of a Brazilian coasting vessel found the body of a German sailor washed ashore on the south-eastern coast of Brazil lashed to a sea chest containing the flag. A German resident, hearing of this, bought the flag and offered it to the Navy department on condition that he be reimbursed for his outlay.

But funds were lacking until recently, when a private collection furnished the means to acquire the flag, which is now on exhibition alongside the model of the cruiser Goebenau, likewise sunk in the same battle, and other mementos of Germany's naval past.

Says Corn Has High Food Value

U. S. Crop Could Supply Cereal Calorics for 400,000,000 People, Declares Expert.

MOST OF IT FED TO ANIMALS

Trade Commissioner of Department of Commerce Says Corn Furnishes Cheapest Cereal Food Produced in This Country.

Washington.—The corn crop of the United States would supply all the so-called cereal calories for over 400,000,000 people, according to Dr. J. A. LeClere, trade commissioner of the Department of Commerce.

The 20,000,000 starving or undernourished Russians could be supplied with all the cereal part of their diet needed from 5 per cent of America's annual corn crop, is the opinion of Doctor LeClere.

"The corn crop of the United States during the last ten years has averaged over two and three-quarter billion bushels," says Doctor LeClere. "Fully 80 per cent of this is fed directly to animals. Of the amount consumed by hogs and cattle, no more than 10 per cent of the food value is returned in the form of animal food for human consumption. There certainly can be no greater economic problem than to prevent a good human food from being unnecessarily consumed by animals."

Wheat and Corn as Human Food. "During the pre-war years 1909-13 over 50 per cent of the wheat crop of the United States, or approximately 470,000,000 bushels, were used in bread. Of corn, however, only 3 per cent of the crop, or approximately 85,000,000 bushels, were ground into meal or flour suitable for bread purposes. It is thus seen that while this country's corn crop is over three and one-half times greater than its returned wheat crop, less than one-fifth as much of the corn as of the wheat is consumed directly as food.

"Each year the people of this country consume about fifty pounds of corn per capita as a human food. The Italians, on the other hand, eat about 50 per cent more than we do, or 75 pounds per capita. The Rumanians and the people of the other corn-growing countries, e. g., Hungary, Russia, Yugoslavia, grow considerable quantities and consume large amounts of corn.

Food Value High. "Looking at corn flour, corn grits and meal from the standpoint of their composition and food value, it may be asserted from the results of Department of Agriculture experiments that grits and meal have the same nutritional value as rice, and that corn flour and soft winter wheat flour have essentially equal food value. Grits can therefore replace rice in the diet, and corn flour replace a portion of the wheat flour, without decreasing the value of the food one iota. In this country, broken rice has often been as much as 33 per cent more expensive than corn grits; at present wheat flour (clear grade) costs about twice as much as corn flour. Corn flour and corn grits are the cheapest cereal foods produced in this country and are available not only for home consumption, but for export.

"There is an encouraging feature in the probable effect of feeding corn grits to so many children of Europe. Due to the unfortunate condition of certain sections of Europe, there has been a very large and unusual demand for corn grits. Through the activities of the American relief administration about half a million children in Poland, 200,000 in Austria, 50,000 in Hungary, and now 3,000,000 in Russia, are being fed at least one meal a day containing either corn grits or rice as the cereal portion of the diet. Thus it may be seen that a tremendous propaganda for corn grits is being carried on by the American relief administration in feeding almost four million children. This should mean the elimination to a large extent of that prejudice against corn which has in the past characterized a portion of the population of Europe."

Bear Cub Born in Park Zoo.

Chisholm, Minn.—The Chisholm park zoo has a new arrival, a bear cub, born at the park. According to Superintendent Phillips, few cubs born in captivity live long. Several years ago a bear cub was born at the park, but was killed by the male bears. This time the cub was discovered in time to be lussod and taken out of the bear pen. It is being raised on a bottle.

Buys Own Coffin.

Spokane, Wash.—With the pronouncement that he had only a few more days to live, Fred W. Miller, an aged and well-to-do cabinetmaker of Hillyard, purchased a coffin for himself that had caught his eye a year before and bargained and paid cash for all funeral expenses, including the embalming of his own body. He died next day.

ALLURING DINNER GOWNS; HAPPY MEDIUMS IN HATS

WITH a reservation in the matter of length, this handsome dinner gown undertakes to accent the modes of the season. It takes advantage of the continued vogue for bead trimmings, the sleeves make the most of their opportunity to be featured. It affords the last thing in neck lines and the approved low waist line—but it is shorter than the length decreed by style arbiters. In this one particular it lags, with plenty of good company, behind the very long skirt con-

pany and takes its stand among those models that have made a compromise between one extreme and the other. There are wonderful colors this season and women have grown courageous in using them. When considering dinner and evening frocks they may allow themselves to be daring, but for the street they refuse the reckless and have approved beige, tan, wood and other browns, green and dark blue. Gayer colors and many of them make afternoon and dinner frocks and they are elaborated with embroideries and contrasting colors in fabric combinations. When black is used it is worn over a color or brightened with vivid colors in embroidery here, indicate something of the diversity to be found among them. The group leads off with a shape of black flared neck with blue crepe and very simply trimmed with a sash of wide ribbon and a handsome ornament. It can afford to be simple for it is the possessor of most becoming lines. Nearly all faces are flattered by it. Just below it at the left is a fabric hat of a crepe material trimmed with two kinds of beads and a little ornamental stitching. Its shape suggests the poke bonnet and is best suited to youthful faces. Next is a hat made of another millinery fabric with an old sash and hanging ends of crepe. Little pearl sea shells are set about the upturned

portion of the brim. This hat has the lines that matronly wearers like. The flower-trimmed hat with round crown that beads and flat brim is a great favorite in many braids. It is shown with a sash of pleated ribbon that is arranged in four loops, the two longer ones slipping through a slash in the brim. The gown pictured is developed in amber-colored crepe de chine and has sleeves and drop skirt of a lighter tone in georgette. The beads begin with this light tone and shade to rust color. Deep cuffs of the crepe de chine take up the unused width in the sleeves and the girde is made of the crepe de chine.

Chenille Dotted Veils. Combination and French dots are the favorites among veils to be worn with suit hats. At present, the yard veiling dominates the market, but many attractive imported madeup veils are being shown. Rust on blue, brown on ecator, red on black, amber on gray are some of the combinations on gray are comparatively rare. Scroll embroidered effects are generally believed to have been superseded by these dotted patterns. Hexagonal and fllet meshes are both much in vogue. Fastens Shoulder Straps. Women who wear the chenille frock often find the shoulder straps of the chemise appearing above the neck line of the frock. A clever way to prevent this is to sew a narrow piece of ribbon to the frock at the shoulder of the frock, pass it under the shoulder strap of the chemise and then hook it back to the shoulder of the dress. This method straps are firmly held out of sight.

If You Need a Medicine You Should Have the Best

Have you ever stopped to reason why it is that so many products that are extensively advertised, all at once drop out of sight and are soon forgotten? The reason is plain—the article did not fulfill the promises of the manufacturer. It applies more particularly to a medicine. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent results, as many of my customers testify. No other kidney remedy has so large a sale."

According to sworn statements and verified testimony of thousands who have used the preparation, the success of Dr. Kilmer's Swamp-Root is due to the fact, so many people claim, that it fulfills almost every wish in overcoming kidney, liver and bladder ailments; corrects urinary troubles and neutralizes the uric acid which causes rheumatism.

You may receive a sample bottle of Swamp-Root by Parcel Post. Address Dr. Kilmer & Co., Binghamton, N. Y., and enclose ten cents; also mention this paper. Large and medium size bottles for sale at all drug stores.—Advertisement.

Highest Quality—Lowest Prices

The entire Goodyear effort of many years has been toward one result—the tire buyer's advantage. Goodyear has taken two methods to achieve that result. One has been to raise the quality of Goodyear Tires. The other, to lower Goodyear prices. Goodyear has succeeded in both—to your great advantage. Goodyear Tires are better today than ever—larger, heavier and stronger. Many users tell us they are getting double the mileage from them they got from Goodyears ten years ago. Goodyear prices are lower today than ever. On the average they have decreased more than 60% from the prices of 1910. Look at the figures listed below. Think of the fine performance of the Goodyears you have known, and remember that Goodyear Tires are giving even better performance now. You can get these tires at your Goodyear Service Station Dealer's. See him today.

For Ten Dollars and Ninety Cents - This 30 x 3 1/2 Usco

THE 30 x 3 1/2 tire situation today is just this—

The man who buys an USCO at \$10.90 is justified in believing that his money is going farther in tire value than it ever has gone or could go before.

Naturally he appreciates the quality of USCO. That was established long ago.

It is still fresh in his mind that USCO led the national market into the \$10.90 price range.

The makers of U. S. Tires always intended the 30 x 3 1/2 USCO to be the highest value in its field.

At \$10.90 it creates a new classification of money's worth.

Which Is Most Important To You What Goes into a Can of Paint or What Comes Out of It?

A long time ago, Lowe Brothers found out that six different ingredients had to be used in making High Standard Paints. If their customers were to get the satisfaction and lastingness out of every can that they had a right to expect.

They found out, also, that a different mixing and

JAMES OLIVER CURWOOD'S "GOD'S COUNTRY AND THE LAW"

The Code of the Northwest Mounted Police

is—"Get your man!" And seldom have they been known to fail. Doc—the villainous whiskey runner—a snake in this Northland Eden, knew this. Therefore, with the coming of the police on the same night that he drew "the devil's finger" in a card game and lost his horrible rattle-snake charm, the Great Fear came upon him. Like some invisible monster an accusing conscience drove him out into the night. Through the forests he madly tears his way, with always the Great Fear growing and driving him mad. A pitiful victim does a guilty conscience and superstition make of this swaggering villain of whom it was said that he feared neither God, man nor—but yes, the devil. A Curwood story that is a supreme dramatic study of the workings of a guilty conscience.
