By the way she keeps her brooms. Or by peeping at the keeping Of her back and unused rooms. OVEREATING

It seems to be a habit. In season

the trains the family is scarcely settled in their seats before the performance of eating begins. It seems to be largely a form of entertainment, for, at home or abroad, if one is lonely, bored or has nothing especial to do he gets something to eat.

It is small wonder that we are a race of dyspeptics, and a marvel that children who are stuffed all the time are, by a gracious Providence, allowed to grow up.

The healthy and growing child needs food, and plenty of it, and at regular intervals, usually shorter intervals than the grownups, but the constant practice of chewing something all the time

is a most reprehensible one, It isn't what we know about this failing, for we all do realize it is a had habit, and go right on doing it until the continuous fermentation of the stomach causes disturbances which cau never be cured.

When we know something is the matter and we don't know what, we eat; when stupid and cranky, we eat. The only variation made between the appetites of men and women is that men will further ruin their digestions with some drink or cigarettes. A woman who does not smoke or drink the various beverages may be equally sinful in the overindulgence of coffee and food.

It used to be considered "bad form" to eat in public unless it was a regular meal. Let us hope that some of the old-fashioned ideas of our grandmothers may be revived. It was also a shocking thing to see a man in company with a woman smoking; now both smoke in public eating houses, regardless of the nausea of people who could enjoy a meal if it could be served without a smoke screen.

THE EVOLUTION OF LIGHT

M. H. Frank, general manager of the Eastern Wisconsin Electric Company, believes he is selling a commo dity which is perhaps as old as any on record. That is light. The history of glim goes back to King Tut's time When the tomb of King Tut-Ankh-Amen was sealed 3,000 years ago, with its royal dead and its precious con-tents, the discovery of which has cen-tered the eyes of the world on Egypt, rude torches or lighted splinters plac

ed in holders of stone or clay, wer the only means of illumination. The history of lighting can be trac ed back to the time when King "Tut" reigned. From 1000 B. C. to 300 B. C lamps of brass or bronze were devel

oped and became highly artistic. 50 B. C .- Romans used rushes soaked in grease-forerunners of the can-

300 A. D .- Phoenicians introduced andles in Constantinople. 400 to 1700 A. D.—The candle, tallow or wax, vies with lamps and lan-

terns 1700-Oil lamps, with wicks, began to be used

1780-Oil lamps were equipped with ound wicks and glass chimney. 1800-Gas lighting perfected, but candle still most universal light. 1850-Discovery of petroleum, revo-

lutionizing oil lamp lighting. 1879—Edison, apostle of lgiht, pro-duces incandescent electric lamp. 1885-Auer Von Welsbach produced

incandescent gas mantle. 1895—Incandescent electric lights made with carbon filament, in growing

1923-Incandescent electric lights using Tungsten filament, in high state

of perfection. Today the electric industry repre-sents an investment in the United

a lovely boy fifteen months old who weighs forty pounds. I recommend Lydia E. Pinkham's Vegetable Com-pound to my friends and you can cer-tainly use my testimonial in your lit-tle books and in the newspapers, as it might help to make some other it might help to make some other childless home happy by the presence of little ones as it has done mine."— Mrs. CLAUDE P. CANFIELD, 10 Salis-bury St., Cortland, N. Y.

A Message to Mothers

Hamilton, Ohio.-"I have known about Lydia E. Pinkham's Vegetable Compound since girlhood, having taken it when I was younger and suffering from a weakness and back-ache. Lately I have taken it again to strengthen me before the birth of my child, as I was troubled with pains in my back and a lifeless, weak feel-ing. I think if mothers would only take your wonderful medicine they would not dread childbirth as they do. Voted for Gread Childpirth as they do. I recommend the Vegetable Com-pound to every woman."-Mrs. JOS. FALCON, JR., 552 S. 11th Street, Hamilton. Ohio.

Four Interesting Letters Cortland, N. Y.--"I took Lydia E. Pinkham's Vegetable Compound be-cause I was weak and wanted to be-St. Louis, Mo.-" I want to tell you what Lydis E. Pinkham's Vegetable Compound did for me seven years ago. I was run down and had a weakcome strong and have a child. My husband read about it in the Cortland Standard' and thought it might help me. It certainly did for I now have

ness such as women often have. I took Lydia E. Pinkham's Vegetable Compound and after being married sixteen years became the mother of a sweet little girl. I now have four lovely children—three fine boys and the little girl six years old. I had longed for children all the while and went many a day and environment. longed for children all the while and wept many s day and envied every woman with a child. I was 36 years old when my first baby was born. I recommend Lydia E. Pinkham's Veg-etable Compound to any woman who is ailing with female weakness."--Mrs. J. NAUMANN, 1517 Benton St. St. Louis, Mo. Was Weak and Run Down

St. Louis, Mo. - " My mother took Lydia E. Pinkham's Vegetable Compound when I was a girl, and when I was troubled with cramps I took it, and later when I married I again took it to make me strong as the doctor said I was weak and run down and could not have children I took it and got along fine and now I have three girls. So you know why I keep the Compound in the house. I am a well woman and do my work and sewing too."-Mrs. JULIUS HARTMAN, 2501 W. Dodier St., St. Louis, Mo.
