VINES ADD BEAUTY TO SURROUNDINGS

Climbers Make the Home Attractive-Do Not Injure Walls-May Use Trellis.

The impression that vines are in-Jurious to the walls of a house, making them damp or causing woodwork to rot, is erroneous, says the United States Department of Agriculture. On brick and stone buildings some of the clinging vines are most appropriate and attractive in completing the

Vines Beautify Porch.

charm of the home surroundings. On a wooden house the vines should not be permitted to become so thick that they prevent proper ventilation and timely painting, but hot sunshine is very destructive to paint, and the shade of vines helps to preserve it.

There are several devices for growing vines so as to permit removing them from the woodwork when it is necessary to paint the house. A trellis can be made with hinges near the plan is used. The ditch may be closed ground, or a chicken wire placed over hooks at the highest point, so that it may be taken down, vines and all. Another type of trellis can be made of chicken wire on a pipe frame, which will keep vines entirely away from woodwork. Vines are also appropriate on fences, arbors, pergolas er summer houses,

USE THE TRENCH FOR IRRIGATION

Scheme Conserves Water and Labor-Best Way to Reach Roots of Plants.

The proper amount of moisture is about as essential as enough warm sunshine, to produce a good garden crop. Too much moisture is worse than too much sunshine, for in the longer and the top will not crust, latter case the soil can be loosened, conserving what moisture the ground such as is necessary following

THE GARDEN ENEMIES

Life for the gardener would be a has given us the remedy for most of dorious dream if it were not for the our troubles, but no remedy will be many kinds of bugs and worms and effective unless we apply it. plant lice and other creepy, crawly things that he has to fight from early apringtime to late autumn. Sometimes it is hard to down these enemies of the garden, but scientists have sories and tools will do everything in found a remedy for nearly every one the way of cultivation and spare many of them. They can be either poisoned a lame back. If the garden is only a or trapped or in some other way de- quarter of an acre in extent it will be etroyed, but it takes watching and a great economy to get a wheel hoe. prompt attention on the part of the Cultivator teeth, hoe blade, rake sardener to get shead of all these teeth, and a plowshare make up the garden enemies.

UNSEEN GARDEN ENEMIES

Every home gardener is in very much the same position as the old darky who said: is not afraid of thirst. They have no way of asking what I sees, but it is what I don't see for water, except by the wilting of that I is afraid of." It is the slimes their leaves. When this occurs great and molds working at the roots of the injury to their growth has already plants; the spores and other forms been done. The wise gardener anticlof plant disease working invisibly on pates the need of his garden plants the leaves of the plants, and the wilts and gives them water whenever they and blights that are sapping the very need it.

Those Who Oppose Idea Should Remember That Weeds Thrive on Unoccupied Land

IN ONE SEASON

GROW TWO CROPS

PLANT BETWEEN POTATO ROWS

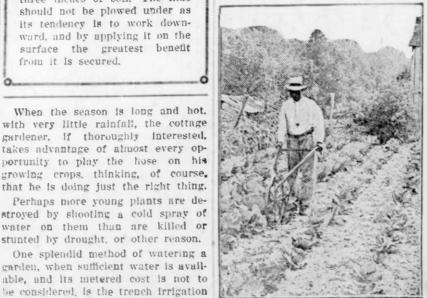

Late Cabbage Is Good for Kraut and Furnishes Dairy Cows Green Feed -Tomatoes Also Are Satisfactory Late Crops.

stops growing, says a writer in an ex- quality of their stock.

This is especially true of the potato patch and why should we not sow or plant it to something profitable rather than allow the worthless, unsightly troublesome weeds to seed the patch to weed pests for another season? If one sees that the soil is failing in fertility the cost of applying a light dressing of rich barnyard manure will still leave a handsome margin of profit from the value of the second crops secured

Profit With Potatoes. Perhaps the most profitable manner in which the potato patch can be handled is to dig the potatoes just as soon as they are suitable for market-

At this season they are invariably high-priced and the land may then be put to whatever use it is desired without damaging the potatoes by cultivation and hoeing. Then, too, one can stir the ground more thoroughly than if the planting were done between the rows of growing potatoes.

Rows.

Almost any garden or field plant will make a fair crop in the potato patch after it is laid by. Sweet corn, ninetylay field corn and pop corn are favorite second crops.

Late cabbage will usually make a their downward growth. Long roots good second crop for kraut and storare advantageous to many plants, age purposes or at least will furnish a lot of green feed for the dairy cows The ditch irrigation plan will be and poultry after the summer greenfound most beneficial and interesting, ness is gone.

Nice Crops in Patch.

Late tomatoes also are reasonably sure of making a satisfactory crop becorn and millet will make nice crops the ground down too much.

crops to be sown in the summer and association, they will make excellent pasturage for as that would tear up the vines so we in full bloom." aim to do the last cultivating just bent the seed into the soil.

Where this is not to be done we sow the seeds while the dirt is still damp after the last plowing.

CARE REQUIRED FOR CHICKS

Where Confined Young Fowls Must Be Given Greens and Animal Feeds, Also Exercise.

Confined quarters increase the mount of work required to raise chicks. If attempted, the care differs from that of range chicks, in that greens and animal foods must be provided, also exercise. If too closely confined, it is almost impossible to most constant and faithful care.

ers are afraid of. Fortunately, science USE FOR SURPLUS SKIM MILK

Dairyman or Farmer Who Doesn't Own Flock of Chickens to Utilize By-Product Is Lacking.

The dairyman or farmer who doesn't have enough chicks to handle his surplus of skim milk, knowing its great value for chickens, should either build up a sideline flock of his own to utilize this valuable by-product profitably, or else market it among the farmers and poultry raisers in his community.

SPREAD MANURE ON FIELDS

To Increase Value and Bulk of Fertilizer It Should Be Hauled Out at Once.

Get the manure out as fast as it is made if it is possible to do so. You can generally find mornings when the ground is frozen in which to do this.

KENTUCKY ACTIVE IN WAR ON SCRUB SIRES

Wayne County Farmers Careful of Breeding Stock.

Twenty-Two Purebred Beef Bulls Placed on Farms During Last Fiscal Year-Grade Animals Were Formerly Used.

Reports received by the United States Department of Agriculture.) States Department of Agriculture from Wayland Rhoads, field agent in animal husbandry for the University of Kentucky, shows effective work in live stock improvement. Following are While some farmers do not approve representative results; in Wayne counof growing two crops on the soil in ty 22 purebred beef bulls were placed one season, we have practiced doing on farms during the last fiscal year. it with the most satisfactory results. These animals were either shipped in Those who claim that double crops or purchased at purebred sire sales. are too much of a drain on the land Wayne county is a mountainous region, should remember how every field and, although the live stock industry grows up in weeds just as soon as the is not highly developed, farmers are first crop of the season is removed or giving a great deal of attention to the

Marriages are made in heaven but High salaries don't pay unless most of the preliminaries are arranged in the porch swing.

Utility Express is the lowest-priced quality truck in the world capable of fast heavy-duty service. It hauls your heavy loads quickly and economically. It is reliable.

Long grades and deep mud are mastered by it without racing the motor or boiling the water because the 3-speed transmission provides correct gear ratios to meet any condition of load or road.

You get fast, heavy-duty service at the lowest operating and maintenance cost with this truck. It leads in high mileage on gasoline, oil and tires, living up fully to the Chevrolet reputation for unequalled economy.

TELLS OF GAIN Declares Tanlac Overçame Stomach Trouble, Restoring Health, Strength and

MRS. J. MILLER

"I am now strong and happy and go about my housework singing, so I think it is only natural that I should praise Tanlac, since that is what has given me such splendid health," declared Mrs. J. Miller, 119 Johnston Ave., Kearney, N. J.

Weight.

"For a year before I started taking Tanlac I was simply in wretched health from stomach trouble and a run-down condition. My appetite left me, I was eating scarcely enough to keep going, and was often so weak I could hardly do any housework. My food often disagreed with me, and I would have suffocating spells and heart palpitation that nearly drove me frantic.

"My mother had been helped wonderfully by the Tanlac treatment, and when she advised me to take it I started right in. It has built me up five pounds, my digestion is perfect, my appetite splendid, and I am always talking Taulac now. It is simply grand."

Tanlac is sold by all good druggists. Over 35 million bottles sold .-- Advertisement.

Bird Well Named.

We are told that Pliny named the ptarmican Lawpus owing, it is thought, to the close resemblance of the bird's feet to the feet of the hare; the legs being thickly covered with short feathers right to the very claws. This thick, warm clothing of the legs, increased in winter, is in direct adaptation to the need of a bird, most of whose life is spent on mountain snowfield or cold plains.

FEELING OF SECURITY

You naturally feel secure when you know that the medicine you are about to take is absolutely pure and contains no harmful or habit producing drugs. Such a medicine is Dr. Kilmer's Swamp-Root, kidney, liver and bladder remedy. The same standard of purity, strength and excellence is maintained in every bot-

and she works at home every night and morning, too. I am a mother who can certainly praise your medicine, and if it will be of any benefit you may use this letter as a reference." — Mrs. GEORGE E. WHITACRE, 621 W. Madison Ave., Mahoningtown, Pa.

daughter to do well in school and te enjoy herself at all times.

Lydia E. Pinkham's Vegetable Compound is a splendid medicine for young girls just entering womanhood. Mothers may depend uponit. Remember it is prepared from roots and herba, contains nothing that can injure, and tends to tone up and strengthen the organs concerned, so that they will work in a healthy and normal manner.

For nearly fifty years it has been used by women of all ages, and these women know its great value.

"For Vision's Sake"

Headaches are in the majority of cases, caused from Eye Strain. Normal eyes use 15 per cent of the vital energy generated by the human system—Strained eyes must use more. Daily they rob some other vital organ of its share—but not without protest—for headaches and "symptoms" are but nature's warning of abuse. LOOK WELL TO YOUR EYES.

> What about organizing a base ball team in Boltonville, other villages and cities are well under way of organizing a team for the coming season. Nothing has been done in this willage to go ahead with the proposition. Boltonville has always had a ball team and we see no reason why a team cannot be organized here this summer. A meeting will be held in the M. W. A. hall next week Tuesday evening at 8 o'clock at which time all interested should make it a point to attend.

Lord Cecil, Noted Briton, Pleads Persuasion as World Redeemer.

SPEECH IN AMERICA

In Address Before Foreign Policy Association of New York He Says Minds of Nation Must Be Turned From Force.

New York, April 3.-Fear and suspicion, twin demons which have possessed the world, and which can be exorcised only by some form of an association of nations, are the forces that stand between France and Germany in the settlement of the reparations question, as they stand in the way of settlement of every other international question, Lord Robert Cecil, noted British exponent of the league of nations, declared in an address be-

fore the Foreign colicy association. Addressing his first American audience, Lord Robert declared it was essential for world safety to "turn the minds of nations from force as the

Take the question of reparations," he said. "What is it that makes that question so intractable? It is that though the French are anxious for the Germans to pay, they are also anxious lest if they are allowed to ger on their feet sufficiently to pay they will become again a danger to the security of Reds Declare They Will Define Own

"Do not think I am attacking the French on that account. No one who has read the history of these countries even cursorily will say the fears of matter of that, the fears of Germany

Wisconsing

Madison, Wis -- Growing sentiment is apparent in the senate and assembly against so-called labor bills that are unreasonable and unworkable in their provisions.

Defeat in the house of the Weber bill to create a basic eight-hour day on all public work came as a distinct setback to Socialists and other memthe limit" on labor legislation.

The Weber bill, which provided that limited to an eight-hour day, was de- of 6,272 officers and men, required to feat. d, 48 to 32. So marked has been the shifting of to Wisconsin, Adjt. Gen. Salsmen told

Hair Gray?

as Values Increase

The tax laws of Western Canada encourage the producing farmer. The tax op land is reduced when it is brought under cultivation—while on your buildings, machinery, improvements, personal property, automobile, there is no tax at all. A single crop is often worth more, acre for acre, than the cost of the land.

Canada welcomes the industrious settler. What you have now isn't so important. If your capital is small, or you cannot sell your present holdings to advantage, rent a fertile Canadian farm and "try it out" for a season or two. Make a good living, increase your capital, and buy later. Farms may be rented from successful settlers on easy terms; in some cases with option of purchase.

Pay Out of Profits

Buy on Exceptional Terms-32 Years to Pay

For the benefit of those wishing to buy land a national non-profit sharing organization—the Canada Colonization Association—has been established with head office at Winnipeg and United States office at St. Paul. This Association offers selected land convenient to railways—much of it at \$15 to \$20 per acre—on very small cash payment; no further payment until third year, balance extended over thirty years, but purchaser may pay up and obtain title at any time if desired. Interest six percent per annum on deferred payments. EASTERN CANADA We Help Find Your Opportunity

The Canadian Government maintains information bu-reaus in leading American centers, where you can get full information, without cost, about all parsof Canada. The men in charge are Government officials, in-terested only in the service of the prospective settler. Get the Facts-No Cost MAIL THE COUPON. Let us know a mething of your position, and receive free book with maps, and free service of the Canadian Government Agent in your territory; also information how special railway rates can be arranged for a trip of inspection.

Concrete Silos

A Concrete Silo is the safest and best investment a farmer can make. It is cheap in first cost, yet permanent. Requires no additional expense for repairs or painting, and will not blow over. You can feed twice as much live stock with little additional cost, by the use of a silo. Feeding silage when the pastures are dry or in the winter, keeps the cows up to their maximum milk production. If you intend to build a silo, now is the time to arrange for it. We can build silos and other circular work of 6, 8, 10, 12, 14 feet and larger diameters. We also build concrete roofs on silos and do all kinds of other concrete work. Our prices are right and our work guaranteed to be satisfactory. Phone, write or call. Phone 1168 Newburg

POULTRY HUSBANDRY

"THE REASON WHY"

Enthusiasm is certainly a wonderful thing. If we do not have it, we car make but a poor success of this life. Plenty of enthus asm will carry a man through many a tight place, and bring him out on top; "everything cannot always be right" there are always some losses to be accounted for

in every business. Some of you might be under the impression that you should convert your present place into a poultry farm; not at all, but we can all improve past results, we have the necessary equipment to house a better flock of chickens. Most of us have a house which will accommodate 75 to 150 birds. Why not improve our present flock by getting pure bred hatching eggs or baby chicks, which will grow into 3 uniform well bred flock of good layers for this coming fall and get in on the high priced eggs.

Just a word about our poultry association, and our proposed poultry show for this coming fall. The poultry show is a dynamo of inspiration; it is the greatest generator of enthusiasm that the amateur can come in contact with; it is am "eye-opener" to the real situation.

The people are beginning to appreciate the name of the poultry shows. It brings the people together from many miles about, the man who has been making use of only twenty per cent of the possibilities comes to the show and sees how far in advance of him his fellow citizens are. He gets a new inspiration to do larger things and goes home resolved to go Wedding bells will soon be ringing. to that show next year as one of the Alma Ramthun is under quarantine high class exhibitors. He did not know the show put him wise.

Some of you may want to know what is a poultry association; what is Mrs. A. Seifert spent Wednesday its purpose? The object of this association is to promote the poultry in-A large crowd attended the spring dustry in all its branches, to encourage the breeding of pure bred poultry, Henry Merjay and Henry Guell to hold one annual show, to promote were Dundee callers one day last the production of more poultry and eggs and the improvement of the

THEGINI

WHAT IS IT?

On Broadway, New York, where sophistication and worldly wisdom are supposed to be centered, the writer saw a crowd looking eagerly in a store window,

A device was being demonstrated. Salesmen walked about interesting people in the purchase of stock.

They called the device "The Gimmik."

"Gimmik" is a term used among circus and carnival grafters who run those mechanical games of chance on which your chance of winning a cheap prize is as slim as the thin man in the side show.

The secret or trick of cheating in one of these crooked contraptions is called "The Gimmik."

It was really brave of the Broadway promoters to name their creation "The Gimmik" and go into the very lair of the wise acres to sell their doubtful stock certificates.

But they were doing business with "The Gimmik" and no one was the wise

How gratifying it is to live in a community where there are no devices or no merchandise distributed with "gimmiks"—no tricky business dealing no double-crossing.

The Kewaskum Statesman will see to it that every advertisement appearing here-in is honest and every business house, local or out-of-town, that delivers its business message through these columns is trustworthy.

Grafters and cheaters must steer clear of Kewaskum.
