PROMINENT YOUNG MEN PASS AWAY

A pall of deep sorrow spread over the village last Monday evening, when it was learned that Dr. William Klumb, one of Kewaskum's most prominent and highly respected citizens and professional men, passed into eternal sleep at the home of his mother, Mrs. Peter Klumb, at West Bend. Dr. Klumb had been suffering with heart disease for the last four years, but his condition was not serious until three months ago, when he was forced to close his office and leave the home of his mother, where he received the best of care in an effort to spare his life, but his ailment had developed to such an extent that all medical aid proved fruitless, and he expired peacefully on Monday evening, April 17, 1923, at the home of his mother in West Bend. He was born in the town of Jackson, Wis., in 1857, and was a graduate of the high school graduating in 1876. He then went to Chicago, where he entered the Northwestern University, taking up the dental course, from which institution he graduated in 1897. After completing this course he came to Kewaskum where he practiced dentistry until three months ago. Dr. Klumb leaves a widow, his untimely death his mother, two brothers and five sisters as follows: Peter Klumb, Miss Rose Klumb and Mrs. Julius Ickstadt of West Bend; Mrs. Frank Gottlieb of Oconomowoc; Mrs. C. P. Wilson of Boise, Idaho.

FIRE AT HIGH SCHOOL BUILDING

At about nine o'clock Thursday morning, the local fire department was called out to extinguish a fire at the high school, believed to have been caused by an overheated chimney. The fire was first noticed by Roman Smith, local ice man, who noticed flames near the chimney, he immediately gave the alarm, and by the time the fire department arrived upon the scene, a large portion of the roof on the north side of the building was in flames. Prompt action by the fire lads in getting the chemical engine into action, is what saved the building from complete destruction. The loss is estimated at \$100.

At the time the fire was noticed, school was not in session, and most of the students and pupils of the lower grades were playing outdoors. Although a great deal of excitement prevailed among the student body, all through the continued practice of fire drills, were called into the various rooms, packed their books and other valuables and then marched out of the building in perfect order. School was dismissed by Prin. Rich until noon.

BARN DESTROYED BY FIRE

Fire of unknown origin and which caused a loss of approximately \$10,000, completely destroyed the barn, tool shed, machinery and automobile and six head of cattle on the Fred Schwartz farm, near Theresa on Tuesday. The loss is partly covered by insurance. The blaze had gained such headway before it was discovered that neighbors who gathered on the scene were in the barn were burned to death. They concentrated their efforts in preventing the fire from spreading to the granary and residence nearby. The fire was discovered by the Schwartz children, who were in the house at the time. The parents were at a neighboring farm when the fire started. The flames were bursting through the roof of the barn before they were noticed. Three calves, a cow and two horses in the barn were reburned to death. A touring car, and several farm machines in the tool shed adjoining the barn, were also destroyed. The barn was a large frame structure and contained several tons of hay.—Fond du Lac Reporter.

FROEMMINGS GET ROAD JOB

The Washington County Highway commission on Tuesday opened the bids received from twelve bidders for doing the concreting on the Allenton-Newburg highway, a distance of 44.10 miles. The lowest bid received for doing the concreting and a little grading was from Froemming Bros., whose bid was \$44,007.96. The biggest part of the grading will be done by the county, and the county will also furnish cement, gravel, etc. The commission figures that the total cost for concreting this part of the highway will be \$112,600, or \$25,590.90 per mile. This is lower by about \$8,000 per mile than what the same kind of work cost the county last year. The Froemmings expect to start on this job as soon as the weather will permit and will finish it before starting on the unfinished portion of highway 55, between Barton and Kewaskum. The stretches to be concreted are on highway 68, One stretch will start at the south road between the George Bastian and Math. Bies residences and run east to connect with the concrete pavement on Cherry street this city. The other stretches will start at the east city limits on Division street and run east two miles.—West Bend Pilot.

A Remarkable Family of Girls.

Juneau, Wis.—The state's original three-year girls, Eleanor, Verma and Viola Prenzlou, 13-year-old triplets, of this city, are believed to be the only triplets in the state who can all play on the same piano at the same time. At least Miss Erna Lindeman, their music teacher, defies the other music masters in the state to produce any triplets to match their prowess on the piano. The Prenzlou girls are about equal in ability in performing on the keyboard. Finds Bills Intact in Old Shaler Fire Safe While digging about in an old safe, a ruin of the Shaler fire a year ago, A. POPULAR YOUNG PEOPLE WEDDED

A very pretty spring wedding took place at the Holy Trinity church on Monday morning at 9:30 o'clock, when Miss Deia Marx, daughter of Mrs. Martha Marx, a popular and estimable young lady, of this village and for many years operator at the local central office of the Theresa Union Telephone company, was united in marriage to Nicholas Stoffel, son of Mr. and Mrs. Simon Stoffel of the town of Kewaskum. Rev. Father Stoffel of Sheboygan, brother of the groom, read the solemn high mass, assisted by Rev. Philip Vogt of here and Rev. P. P. Schaeffer of Oklahoma City. Miss Sylvia Marx, sister of the bride, played the wedding march. The bride, who wore a dark blue poiret tulle suit, and orchid hat, and a corsage bouquet of violets, sweet peas and roses, was attended by Miss Agnes Stoffel, sister of the groom, as maid of honor. She was attired in a brown canton crepe dress with hat to match, and wore a corsage bouquet of violets sweet peas and roses. The groom was attended by Leo Marx, brother of the bride, as best man.

After the ceremony, the bridal party with 35 invited guests repaired to the home of the bride's mother, where a five course wedding dinner was served. Rev. P. P. Schaeffer, was toast master, while Miss Gertrude Marx gave a very appropriate reading. The home was beautifully decorated with white, pink and yellow crepe paper, and pink carnations, yellow jonquils and sweet peas. The newly weds left the same day for a short wedding trip. Upon their return they will go to house keeping on the Stoffel farm. The groom is an industrious young farmer of the town of Kewaskum. He is a graduate of the Kewaskum High School, graduating with the class of 1910. Both he and his bride have the pleasure of enjoying a large circle of friends by whom they are held in high respect.

GREATEST OF PICTURES SOON TO BE SHOWN HERE

"OVER THE HILL", the picture which is hailed throughout the world of motion pictures as the greatest of them all, will be at the Opera House Saturday and Sunday evenings, April 28 and 29. This remarkable photoplay, produced by William Fox, has been taking the country by storm and is smashing every previous record for continuous runs wherever it is shown. It is safe to say that no picture ever shown here has created the interest aroused by "Over the Hill". Local motion picture devotees have been wanting it for many months, and its engagement here is the method which the managers keep faith with their patrons whom they have promised the very best pictures the screen affords. This production does not dazzle the eye. It does not owe its huge success to the fact that an immense amount of money was spent in its production; but the story is one that goes straight to the heart and makes the spectator live again his childhood days—it takes him back to those golden hours with mother. Aside from the motion picture fans who have been insistent that "Over the Hills" be shown here, it is expected that hundreds of persons will see the photoplay because of their love for and familiarity with the poems of Wm. Carleton, known as the "Farm Poet", whose popularity was at its peak at one time as that of James Whitcomb Riley today. Carleton's poems were recited at every school commencement or other public gathering for years; in fact, no program of twenty years ago was complete without the poems on which this picture is based, or other such familiar pieces as "I've Gone With a Handsome Man" or "Betsy and I Are Out."

The popularity of the picture has made Mrs. Mary Carr, who created the role of Ma Benton in the picture, probably the best known actress on the screen today. Although she has been extremely busy in new pictures at the Fox studios, a widespread demand for personal appearance has compelled her from time to time to abandon her studio work temporarily and make tours so that people could see in the flesh the woman they had come to love by reason of her work in "Over the Hill." "Over the Hill" was many months in the making. The idea for a picture based on Will Carleton's poems was conceived by William Fox himself. Much of the humanly sympathetic detail is the product of his keen-sightedness and knowledge of human nature, inspired by his love of "just plain folks" and a desire to give them a picture which every man, woman and child would like. He entrusted the directing of the picture to Harry Millard who worked from a scenario written by Paul H. Sloane. As an example of the demand for this picture, "Over the Hill" recently played simultaneously in twenty-six theatres in Detroit, each of which was packed at every performance.

ELABORATE SUITS POPULAR; DE LUXE BATHING SUITS

AS FASHION suits are concerned, the mildy of fashion stands at the fork of the road. It is hers to choose whether she will adopt a plain classically-tailored mode, or whether she will tread the path of the majority who are all enthusiasm this season over suits as whimsical as fashion artistry can conceive them.

Silks as well as cloth are favored for dressy suits. These include various heavy crepes. Fine twills are popular among woolen fabrics and colored poplins are very good, in such shades as putty, gray, cocoa, caramel.

summer in the way of sea-bathing and beach sports.

There is an unusually wide range offered in the selection of bathing suits this season. Of course the practical thing is the knit or Jersey bathing suit, but with such alluring fancy prints and gay decorative schemes as are represented in costume throughout, small wonder that bathing costumes have succumbed to the fad.

Fine strathers in fur East colors on a jacket section of real mandarin cut express a very attractive fashion set for the coming months. In fact, embroideries of all descriptions are the dominating feature. There are two ideas running through suit designs. One is the restricting of trimmings to a certain section of the coat, the other is a general favor accorded the all-over design. The latter fashion is

MOON IS NOT DEAD WORLD Recent Scientific Observations Seem to Prove Astronomers Have Long Held Wrong Idea.

Astronomers cling to the old idea that the moon is a dead world, destitute alike of air and water. But recent observations of W. H. Pickering, made at Mandeville, Jamaica, go to show that many changes occur with the alternation of lunar day and night.

Much Interest Being Shown in the Large Number of Women Safely Carried Through the Change of Life by Lydia E. Pinkham's Vegetable Compound

The Following Letters Are Impressive

Owing to modern methods of living, few women approach this perfectly natural change without experiencing very annoying and often painful symptoms. Those dreadful hot flashes, nervousness, headaches, melancholia and irritability are only a few of the symptoms incident to this trying period of a woman's life, and the following letters prove the value of Lydia E. Pinkham's Vegetable Compound to overcome these abnormal conditions.

Fisherville, Ky.—"For several months I was under the doctor's care as he said my nervousness, chills, hot flashes and weakness was caused by the Change of Life, but I did not seem to get any better. I was not able to work and spent most of my time in bed. A friend called to see me and asked me to try Lydia E. Pinkham's Vegetable Compound, and I cannot tell you how much good the medicine did me, as I had such a hard time before taking it. I can only advise every woman passing through the Change of Life to take Lydia E. Pinkham's Vegetable Compound, as it did so much for me."—Mrs. EDWARD B. NEAL, Star Route, Fisherville, Ky.

Practical innovation. Recent discussions concerning the decimal system of weights and measures render more interesting a curious paragraph reprinted in the Journal des Debats from J. Issue of August 22, 1866, when Napoleon I was at the height of his power. It states that there were two clinics on the principal building of the Tuileries, one counting the hours by two's and the other by ten. Taking advantage of the need for repairs, the dial divided into ten hours was destroyed, since, as the report goes on to say, "it had served for no purpose, except to show to what point the mania for innovation was capable of amounting in opposition to the settled habits of all times and all peoples."—Washington Star.

SECRETS OF HEALTH

Headaches are in the majority of cases, caused from Eye Strain. Normal eyes use 15 per cent of the vital energy generated by the human system—Strained eyes must use more. Daily they rob some other vital organ of its share—but not without protest—for headaches and "symptoms" are but nature's warning of abuse. LOOK WELL TO YOUR EYES.
