Who Pays Taxes?

EVERYBODY PAYS TAXES!

ONE may not own land, or a house or a business but one living a normal life lives in a house and follows some occupation.

HE who owns a house pays taxes direct. He who rents a house pays taxes indirectly through the owner.

AN increase in taxes on real estate causes an increase in rents.

AN increase in taxes paid by the manufacturer causes an increase in the price of manufactured articles.

THE railroads pay taxes direct to the state and national governments amounting to about 5 1/2 cents out of each dollar earned.

THE railroads pay their employees wages out of which the employees pay taxes both direct and indirect.

THE railroads buy material from the manufacturers who pay taxes both direct and indirect.

ECONOMISTS have figured out that one dollar in every eight of the nation's income is paid as taxes.

THE indirect taxes are approximately equal to the direct taxes.

THE direct taxes paid by the railroads plus the direct taxes paid by their employees, together with the indirect taxes paid by both, are equivalent to considerably more than one-eighth of the railway operating revenues.

IT would be more nearly correct to say that out of every dollar paid the railroads for transportation, twenty cents, or more, eventually finds its way through the various channels of taxation into the coffers of the government, national, state and municipal.

Wm. Kundo and Ed. Engelmann were at Sheboygan Monday, where they attended the road school. Both were appointed as patrolmen for the coming summer.

Oranges Grow Here

When Wisconsin people see climbing snow drifts and shoveling coal into their heating plants, many of them wish they were in the southland. In spite of zero weather we observed a cool sized orange tree in the greenhouse of John Huberty, in the village, which has borne several dozen nice oranges this winter, and is now in bloom.

Attractive New Fabrics for

McCormick - Deering Tractor Features

Ball and Roller Bearing at 28 points. Ball-Bearing Crankshaft. All wearing parts, including cylinders replaceable. Entire main frame in one sturdy unit. All parts easily accessible, easily removed. Alemite lubricating system. Throttle governor. Large belt pulley. Adjustable drawbar. Wide air clearance. Three forward speeds. Comfort and safety features, such as steel platform, wide fenders, adjustable seat and foot levers, and handy brakes.

WARRANTY

The crankshaft and crankshaft ball bearings of every McCormick-Deering Tractor are now guaranteed against leakage for the life of the tractor. Ask for details regarding this remarkable warranty—a feature offered with no other tractor.

The McCormick-Deering 10-20 Tractor Is Now Ready For You

Owing to the extraordinary demand for this sturdy 2-plow tractor, we have but recently been able to secure a shipment. Now we have them and are able to offer our farm friends the greatest 2-plow tractor value of the year. You are invited to inspect the new McCormick-Deering 10-20 we have on display here. Read over the important features shown at the left—then come in and ask us all the questions you can think of. But be sure to visit us soon, as our present supply of 2-plow tractors is limited. Don't miss this opportunity to get acquainted with the McCormick-Deering 10-20. We will also show you the McCormick-Deering 15-30—a capable outfit for the man who needs 3-plow power. Come in and see these two tractors.

—There are few residents of this village past thirty who fail to recall the excitement that swept the country in 1906 when word was flashed of the earthquake and fire. Many were too young then to assimilate all the details but if they will visit the Opera House on Sunday, March 23, they will have an opportunity to see just how it all happened. In "The Shock" a United Artists production the effects of the disaster on that section of the coast city known as the "Barbary Coast" is faithfully reproduced.

MOTHERS IMPORTANT

Mothers should see that the whole family take a thorough, purifying system cleansing laxative this Spring. NOW IS THE TIME. The family will be healthier, happier, and get along better if the blood is given a thorough purifying, the stomach and bowels cleaned out, and the crevices of winter accumulated in the system, driven away. HOLLISTER'S ROCKY MOUNTAIN TEA is one of the very best and surest spring medicines to take. Try it and see the difference in the whole family. Their color will be better, they'll eat better, sleep better, and be well and happy.—Otto R. Graf.

Breaks Neck In Scrap

A quarrel at Oshkosh, Thursday evening, resulted in death to Herman Schall, 25, a painter, Schall and Percy Paul, night operator at the Soo Line station at Oshkosh, got into an argument in Frank Stern's general store. Schall backed out and fell off the porch and broke his neck. He died before the doctor arrived. At the inquest on Saturday, it was decided that Schall came to his death accidentally. The jury agreed "a razor-like" with Schall was hit by Percy Paul in a scrap, on Frank Stern's store porch, that he landed on the sidewalk and he accidentally broke his neck.—Menominee Falls News.

ACCIDENTS OF 1923 SHOW INCREASE

According to figures now being compiled by the state industrial commission there were 20,941 industrial accidents in Wisconsin during 1923, an increase of 4,136 over 1922. This high increase is in part attributed to the fact that there were more men engaged in industry during last year than the year before. The increase in accidents is greater than the increase in employment. In 1922 there were 19,705 industrial accidents as against 15,989 in 1921. The increase in machine accidents is likewise the increase in accidents generally. It is reported that 17.6 per cent of injuries came from machinery, 12.5 per cent in falls, 7.7 per cent in stepping or striking against objects, 2.0 per cent in handling objects. The total cost of accidents is about \$20,000,000. The amount of indemnity paid, \$2,794,938 and medical bills, \$1,000,000.

WOLF HUNT IS BEING PLANNED AT HORIZON

A report comes from Horizon that wolves are believed to be menacing farm stock in Dodge county for the first time since 1881. Farmers are becoming alarmed it is said so much so that they are now making plans to hunt the wolves. The pure bred swine here of Emil Res. near Horizon, was attacked the other night. Two shots were killed outright and a prize winning sow so badly mutilated she will die. The report says that Louis Radke, secretary of the Horizon Marsh Game Protective Association, has been appealed to to take steps to stay the slaughter of domestic animals by roving bands of wolves. Mr. Radke says that the severity of the winter has caused the wolves to travel far in search of food over the great stretches of frozen snow and ice from the north and that farmers will do well to house their animals where the hungry beasts cannot get at them. A wolf hunt is being planned at Horizon by the local Walpole club, and deer hunters and others are priming their guns for the fun.—Junon Independent.

FREE CHEST CLINIC AT HARTFORD, MARCH 17.

The second of the series of monthly free chest clinics being conducted in Washington county by the Wisconsin Anti-Tuberculosis association is to be held at Hartford, Monday, March 17 in the city hall. The clinic is entirely free of charge, but children under 16 will be examined only if accompanied by a parent or some other older person. Clinic hours are from 8:30 a. m. to 6:00 p. m.

Prevention is the 1924 clinic slogan of the Anti-Tuberculosis association, and one of the most important steps in the prevention program, the association believes, is the periodic examination. Many a minor disorder is discovered in the periodic examination which is unknown and therefore unheeded, would develop into a major disease. The importance of discovering disease concealed early cannot be too strongly emphasized, says the association, especially in such diseases as cancer, Bright's disease and tuberculosis. Tuberculosis is preventable, and the best method of prevention, next to right living, is the discovery of conditions in the human body that provide fertile soil for tuberculosis germs should they enter it. These conditions discovered early and treated properly, thousands of cases of tuberculosis could be prevented.

For this reason it is strongly urged that the following attend the clinic: those who have had prolonged contact with tuberculosis; persons who have ever had the disease; those having disease of the chest other than tuberculosis; anemia; night sweats; children and all who have any of the symptoms of tuberculosis—fatigue, lack of pep, loss of appetite and weight, a persistent cold or cough, vague pains in the chest, afternoon fever and indigestion. An examination costs nothing and may save a great deal of unnecessary suffering and expense.

DODGE BROS. FOUR-PASSENGER COUPE MEETING WITH APPROVAL

To meet a distinct need for a car of convenient size that would comfortably seat four people Dodge Brothers designed and produced their new four-passenger coupe. Orders taken have already reached the point where they are taxing the facilities of the factory.

The body of the coupe, which is of composite construction is one of the finest examples of coach building art. The seating arrangement is staggered with a seat of folding design at the side of the driver. One feature is found in the fact that the driver sits directly behind the steering wheel—not at an angle. Four passengers can be seated with the utmost comfort. Also the doors are extra wide, allowing ease of movement in getting in and out.

The body, which is painted a deep blue with a yellow trim-stripe, is upholstered in genuine mohair velvet. Mohair velvet has long been recognized as a material which for beauty and durability stands premier. It cleans easily and its richness is at once apparent to all who use it.

Disc wheels are standard equipment on the coupe, as are wire wheels, regulators, a dome light and hardware of Dodge Brothers own design. For those who demand more complete equipment Dodge Brothers set aside a certain number of these coupes to be specially equipped. The special equipment includes a nicked radiator shell, coil lights, nicked front and rear bumpers, special striping on the louvers of the hood, motor and lock, automatic windshield wiper, balloon tires etc.

Field Seeds Field Seeds

You are about ready to consider the purchase of your Field Seeds. It is important that you buy your seed from a reliable dealer—your Hay Crop and your Pastures are the making of your Milk Checks. We are prepared to serve you the "Badger Brand" and "Pine Tree" Brands of Seeds stand for the highest purity and germination. These brands are on hand now and we quote you our leaders:

Badger Brand Timothy, over 99.50% pure, lb., 9c
Badger Brand Northwestern grown Alfalfa, lb., 25c

We have a full of Field Seeds including Sudan Grass, Rape Seed, Red Top, Orchard Grass, Red and White Alsike, and Sweet Clovers. Western Grown, Montana, Idaho and Genuine Grimm's Alfalfa and our prices are just a little lower than elsewhere on the same qualities because we buy it in large quantities.

NEIGHBORHOOD NEWS
Citizenship Granted At 90

Perhaps one of the oldest Civil war veterans in Dodge county, who prior to this time was not a citizen of this country, was admitted to citizenship of the United States at the regular hearing at Junon last Friday, Julius Deier, a resident of Burnett township, for many years past was a Civil war veteran and on Friday presented his honorable discharge which entitled him to receive his citizenship papers free of charge. Mr. Deier, who is now 90 years of age, immigrated to this country from Germany in the spring of 1857. He served three years in the northern army during the Civil war and received his honorable discharge at the close of the war. Mr. Deier was anxious to receive his citizenship papers and was admitted as a citizen of this country.—Hartford Times.

GILLETT'S HIGH GRADE VANILLA SINCE 1852

"Oh, my but this is going to be a l-o-v-e-l-y cake" says Mother's Little Helper.

And mother knows that Gillett's Vanilla will be one of the reasons for it, for it has a lingering odor and a rich, mellow flavor that makes any cake taste better.

WESTERN PIONEER TELLS INTERESTING EXPERIENCE

Frank Rikert, Who Left Illinois for California in Covered Wagon in 1864, Wouldn't Take \$100 for Bottle of Tanlac.

Frank Rikert, well-known resident of North Sacramento, Cal., who came to the state from Illinois in a covered wagon in 1864, along with other hardy pioneers, recently exhibited a bottle of Tanlac, which he had just purchased, to a friend at his home and remarked: "If I thought this was the last bottle of Tanlac I would ever be able to buy, I wouldn't take one hundred dollars for it," thus proving the high valuation

he places on the famous treatment. "I believe Tanlac really saved my life when I took it after the flu about a year ago," continued Mr. Rikert, "for the attack left me 20 pounds off in weight, and unable to turn over in my bed without assistance. I tell you, I thought my time had surely come. "But, thanks to my wife's insistence, I kept on taking Tanlac till I was able to do all my work again, had back all my lost weight, and I've been feeling years younger ever since. It's always telling my friends about Tanlac, and can't say too much for it." Tanlac is for sale by all good druggists. Accept no substitute. Over 20 million bottles sold.

Take Tanlac Vegetable Pills.

Mother Knows How

"That man over there is a wonder. With one stroke of his pen he can change a smiling face to a sad one." "My mother does that to me lots of times," said Jimmy.

GIRLS! HAIR GROWS THICK AND BEAUTIFUL

95-Cent "Dandeline" Does Wonders for Lifeless, Neglected Hair.

A gleaming mass of luxuriant hair full of gloss, luster and life shortly follows a gentle toning up of neglected scalps with dependable "Dandeline." Falling hair, itching scalp and the dandruff is corrected immediately. Thin, dry, wispy or fading hair is quickly invigorated, taking on new strength, color and youthful beauty. "Dandeline" is delightful on the hair; a refreshing, stimulating tonic—not sticky or greasy. Any drug store.—Advertisement.

Silence may be golden, but a good deal of speech is brazen.

Cheaper

Johany—Mamma, do they sell babies by the pound?
Mother—Yes, precious.
Johany—I suppose that is why people buy 'em when they're little.

WOMEN! WARNING! DON'T BE FOOLED

Beware! Not All Package Dyes Are "Diamond Dyes."

Diamond Dyes

Always ask for "Diamond Dyes" and if you don't see the name "Diamond Dyes" on the package—refuse it—hand it back!

Each 15-cent package of "Diamond Dyes" contains directions so simple any woman can dye or tint skirts, dresses, waists, sweaters, stockings, kimono, coats, draperies, coverings—everything new, even if she has never dyed before. Choose any color at drug store. Refuse substitutes!

Silence is dignified, even if one can have no other kind of dignity.

A dishonest man suspects every honest man he encounters.

Suits Need Adroit Corseting; Pretty Frocks for the Girls

FASHION says we must be slim and straight and a lot of us are stout and curved. Matters are further complicated by the vogue of the flat back and that uncorseted look—more to be desired than great riches. Women look into their corsetiers to mold the figure into the fashionable and youthful form required by straight-line dresses.

Corsets are made in low-top, topless and wrap-around models, usually of light-weight materials, with long, or medium long, and straight hip lines. Materials that are elastic are combined with others that are not, to

Cover designing and novel decorations are the new interests that distinguish the display of junior and children's dresses. They are featured at this season of the year in the shops, together with the materials used for making them, so that the younger generation may be outfitted for spring and summer now.

Fine cotton voile in white and colors is a favorite for the younger girls. It is used in color combinations. In all white and in printed and plain patterns used together. In the frock pictured white and a color are ingenious

Straight-Line Suits Require Corsets.

make these garments which are to change the lines of the body without inflicting it, and corset makers look more and more to materials and less to boning, to accomplish their aims. Entirely different models are made for slender and for stout figures. The slim woman, requiring little support, may wear an elastic corset almost boneless and without linings—there are some new step-in models for this lucky person.

For heavy women, brocade is the material most favored and considerable boning is required. Front lace models

ly, embellished—the color appearing in bands and appliques or in spirals. The squares are decorated with needlework of colored floss, which extends beyond them in a little vine pattern. The bands and squares are usually, but the buttonhole stitch may be used. Slashes in the dress may also be finished in this way or made by short strips of hemstitching cut apart to allow a belt of ribbon or of the colored voile to be run through them.

These pretty, slender frocks of voile serve for times when the little miss

Practical Frocks for Girls.

are best adapted to some figures, but all corsets should be carefully fitted. Certain defects in the figure, whether it be slim or stout, are helped out by special appliances. The girle and brassiere play important roles in the matter of corseting, and special corsets for sports wear, for dancing and for wear with tailored suits, are shown in all the new assortments. The old high-busted models have disappeared and the corset proper reaches hardly above the waistline.

Attractive Panel. Instead of the inevitable mirror being above a console, a wooden panel painted with an old-fashioned design of urn and flowers would bring a bit of color to a neutral wall. The panel is a graceful oblong.

White Wool Dogs. Any baby would enjoy a white poodle to play with, particularly if the dog was made of white wool firmly encased. These dogs come in several sizes.

Black and Gold Secretary. A secretary that is narrow enough to fit into a small space is painted black and gold after the delightful Chinese manner. The space devoted to books has a set-in mirror that is beveled in squares and there is a drawer under the desk proper.

For the Small Girl. The little girl of eight will delight in the possession of a white crepe de chine frock delicately embroidered in pink silk.

The Kitchen Cabinet

Just remember today is the day you worried about yesterday and the day before yesterday, and today isn't what you expected. Now think of the trouble the thing you are worrying about will not happen tomorrow. So cheer up and live today.—Hunter

SOMETHING ABOUT OLIVES

A ripe olive yields twice as much heat or twice as many calories as the green olive and is nearly equivalent to bread which we consider the staff of life. The ripe olive like the green has to be eaten often before it is well liked by most people. These who become accustomed to it like it far better than the green; it is more easily digested and much richer in food value.

Ripe olives because of their flavor, which is very delicate, are especially good in meat sauces and dressings and made dishes.

A half-dozen ripe olives chopped fine and added to the gilet sauce to serve with chicken or turkey are especially nice.

Olive Sauce.—Melt four tablespoons of butter and add a tablespoonful of chopped olives; cook until softened. Remove the olives, add five tablespoonfuls of flour and one-half teaspoonful of salt with a few dashes of cayenne pepper. Add two cupsfuls of brown stock and cook until thick. Cut one dozen ripe olives from their pits, cover with boiling water for five minutes, then add the sauce. Serve with meat or game.

Hawaiian Salad.—Place a slice of pineapple on a leaf of lettuce. On it arrange alternate sections of orange and grapefruit, between each section a piece of ripe olive. In the center of the pineapple place a ball of cream cheese seasoned with mayonnaise to hold it together. Sprinkle with paprika and serve with French dressing. The pineapple juice may be used in place of vinegar for the dressing. Pass mayonnaise for the salad.

Olive Salad.—Take four tart apples, one bunch of celery, one-half cupful of walnut meats and three-fourths of a cupful of pitted ripe olives. Cut the celery, apples and olives into julienne strips, add the nuts, moisten with mayonnaise and serve in a nest of lettuce.

Today is ours, what do we fear? Today is ours, we have it here; Let's treat it kindly, that it may win at least with us to stay. Let's banish business, banish sorrow; To the gods belongs tomorrow.—Anacreon

WHAT TO SERVE FOR DINNER

Chicken served in the ordinary manner may become monotonous; try the following:

Chicken en Casserole.—Disjoint a chicken and roll in seasoned flour, then saute in hot fat until well browned on all sides. Cut a carrot into even slices, and one onion for each person served. Cut out a dozen potato balls. Cook the vegetables in a little fat until they are slightly browned, then arrange the chicken and vegetables in the casserole. With the giblets, neck and wing tips make a broth by covering with cold water, pour this white hot over the chicken, season well, cover and let cook in the oven until the chicken is tender. It will take about two hours. The broth should be prepared before the chicken is ready to cook.

Oysters With Macaroni.—Cook three-fourths of a cupful of macaroni broken into inch pieces until tender. Sauté one pint of oysters. Put a layer of buttered crumbs, one of cooked macaroni and a layer of cheese, using a half cupful of crumbs and three-fourths of a cupful of cheese, salt, pepper and the oyster liquor. Repeat until all the ingredients are used. Cover with buttered crumbs. Bake thirty minutes in a moderate oven.

Baked Eggplant.—Parse, cut into cubes and cook until tender in boiling water a small eggplant. It will take from ten to twenty minutes. Drain in a colander. For three cupfuls of cubes, chop fine one small onion, add one-half cupful of mushrooms and cook in two tablespoonfuls of fat; then add the eggplant, a cupful of tomato strained, bread crumbs, parsley and salt and paprika. Place in a baking dish, cover with buttered crumbs and bake until brown.

Tea Cakes.—Bake a plain cake recipe in gem pans. Cut open, scoop out the centers and fill with sweetened and flavored whipped cream. Fruit may be used in place of the cream if desired. Top with whipped cream.

Baked Tripe, Spanish Style.—Boil four pounds of tripe until tender—the fresh tripe is used for this—drain, sprinkle with salt, pepper and arrange in a well-buttered baking dish. Pour over one quart of chopped tomatoes, or the amount of canned tomatoes, season to taste and bake one-half hour in a moderate oven.

SMITH BROTHERS S.B. COUGH DROPS MENTHOL Famous since 1847 (orange colored box)

Your doctor advises internal cleanliness

HE will tell you that the first results of constipation—headache, sleepless nights, biliousness, backache, etc.—warn that the body is flooded with intestinal poisons. In time, these poisons may cause the breakdown of health and lead to serious disease. In constipation, say intestinal specialists, lies the primary cause of more than three-quarters of all illness including the gravest diseases of life.

Hence, doctors urge internal cleanliness—regular and thorough removal of food waste from the body.

Laxatives Aggravate Constipation Laxatives and cathartics do not overcome constipation, says a noted authority, but by their continued use tend only to aggravate the condition and often lead to permanent injury.

Why Physicians Favor Lubrication Medical science, through knowledge of the intestinal tract gained by X-ray observation, has found at last in lubrication a means of overcoming constipation. The gentle lubricant, Nujol, penetrates and softens the hard food waste and thus hastens its passage out of the body. Thus Nujol brings internal cleanliness.

Nujol is used in leading hospitals and is prescribed by physicians throughout the world. Nujol is not a medicine or laxative and cannot gripe. Like pure water it is harmless.

Get rid of constipation and avoid disease by adopting the habit of internal cleanliness. Take Nujol as regularly as you brush your teeth or wash your face. For sale by all druggists.

Yes—it can be done

The finest of cars can be sold at these prices

THE Studebaker name guarantees to you the utmost in fine-car construction. For 72 years it has stood for quality, for honest workmanship, for square dealing.

It has always stood for style and class. Remember Studebaker carriages—some supreme examples of fine coach building.

Consider our facilities—mark what we have at stake. \$90,000,000 in assets, \$50,000,000 in plants and equipment, \$10,000,000 in body plants alone.

Note our multiplying sales—the sensation of Motordom.

It is fair to assume that we can and do build the finest cars and at Studebaker prices.

What is a fine car?
A fine car means the best materials any cost can buy. We use 35 formulas for steels, each known to be best for its purpose. We pay a premium of 15% on some to get the formulas exact.

All Studebaker models are equipped with Timken bearings. There are few cars in America, regardless of price, which equal ours on this point. In our Light-Six, for instance, we put more Timken bearings than are used in any competitive car, within \$1,500 of its price.

A fine car means fine engineering. We spend \$500,000 yearly on that department, employing 125 able men.

It means careful construction. We have 12,500 up-to-date machines. 1,120 of our operations are exact to 1/1000 of an inch. 360 are exact to one-half of 1/1000 of an inch.

It means infinite pains. For instance, we machine all surfaces of our crankshafts as was done in Liberty Airplane Motors. We are

Go and See Why Studebaker Leads

Studebaker is now the world's largest builder of quality automobiles.

Last year, 145,167 fine-car buyers paid \$201,000,000 for them.

There are 13 models. Prices begin at \$1,025.

Go see the reasons for this trend. See why sales have almost trebled in three years. Why these cars have become the sensation of Motordom.

You owe that to yourself before you buy a fine car.

the only makers of cars at our prices who do this.

It means careful inspection. With us it means 30,000 inspections in the manufacture of each Studebaker car.

Luxury and beauty

It means a car to be proud of. Our body finish includes 15 coats of paint and varnish.

Chase Mohair is used to upholster our closed bodies—made from the soft fleece of Angora goats.

We offer much extra equipment.

Where savings come

Then how do the Studebakers so far undersell any comparable cars?

Because we build so many. The fixed costs are divided by enormous output—150,000 cars per year.

Because we build our own bodies. The saving to you on some types is up to \$300 per car.

Because we make our own forgings, saving another profit there.

Because our plants are modern and efficient. We have spent \$38,000,000 on them in the past five years.

Because we keep our men, make them partners, pay them large bonuses to stay. Changing men is expensive.

Because we conduct this business in every way on the best modern lines.

What buyers save

The Studebaker Light-Six Touring Car sells for \$1,045. Under ordinary manufacturing conditions it would need to cost you from \$1,200 to \$1,400.

On our Special-Six the difference might be \$400 to \$700.

On our Big-Six type the difference may run into thousands, depending on the number produced. For this car compares only with the highest-priced cars in Europe

and America.

You will respect the Studebaker methods when you come to know them. You will admire the cars they create. You will delight in the values.

Remember that last year 145,167 fine-car buyers, after comparisons, chose the Studebaker models. So many people could not be wrong.

Learn why they did so before you buy a car at \$1,000 or over. You owe that to yourself.

Increase Baby's Strength

Everybody loves a baby and everybody wants a baby abundantly robust. There are many young children to whom

SCOTT'S EMULSION

given in small portions at intervals during each day, would be an important factor in overcoming malnutrition and starting them well on the road to robustness. Every drop of Scott's is pure, rich nourishment, the kind that builds strength and promotes healthy growth.

Children thrive on Scott's Emulsion. Scott & Bowne, Bloomfield, N. J.
