

MANY AUTOMOBILE ACCIDENTS DURING THE PAST WEEK

With weather conditions favorable, traffic on the main traveled highways was quite heavy over the week-end.

The first accident reported was that of Fred Belger, a well known pioneer citizen of this village, who was struck by an automobile last Saturday forenoon.

The second accident to be reported was that of Viola Backhaus, daughter of Mr. and Mrs. Emil C. Backhaus of this village, who was struck by an automobile driven by J. E. Behale, assistant manager of the Cook-Warm Corporation of Milwaukee.

The third accident brought to our attention, was that of Theodore Merten, a well known farmer residing near New Fane, who was also struck by an automobile, last Saturday afternoon.

The fourth accident occurred on Sunday morning, when a Ford roadster, driven by Walter Schuknecht residing at 623-11th avenue, Milwaukee, crashed into the rear end of a milk truck owned by Adolph Heberer of New Fane.

The fifth accident took place on Monday morning at about seven o'clock, when a Lincoln sedan driven by Jos. Van Drisse of Green Bay, a member of the Van Drisse Motor Firm of the above named city.

cuts on arms and legs, back bruised; Harry Jenquine, Lena, deep scalp wounds, hand severely cut; John Reeke, Green Bay, scalp wound, left leg injured at knee.

Van Drisse, with the exception of a scratch on his leg, escaped injury. Mr. Terrian escaped injury.

ANNIVERSARY OF PASTOR CELEBRATED

An article appearing in The Hinsdale Doing, gives an account of the double anniversary of Rev. and Mrs. H. L. Barth of this village, of which we made a brief mention in our last week's issue.

"Immanuel's Evangelical church at corner of Third and Grant streets, honored their pastor and his wife, Rev. and Mrs. H. L. Barth by celebrating the pastor's 25th ordination anniversary and combined with this the silver wedding of Rev. and Mrs. H. L. Barth.

"Nearly 200 invitations had been sent out by the council. Rev. C. J. Voeks of Palatine, Ill., an intimate friend of the Barth family and Prof. H. L. Breitenbach of Elmhurst college, who had tied the nuptial knot 25 years ago, were in charge of the services.

"The evening was spent in the parsonage and on the church lawn in a very agreeable manner. Besides the costly gift from the congregation Rev. and Mrs. Barth were presented with numerous other beautiful presents.

POPULAR YOUNG PEOPLE MARRIED

A pretty wedding of much interest took place at 8 p. m., Tuesday evening, at the Peace Evang. church when Miss Evelyn Perschbacher, daughter of Mr. and Mrs. A. A. Perschbacher, was married to Carl L. Peters, son of Mr. and Mrs. John S. Peters of West Bend.

Charles Hillenbergs passed away in death at his home in Medicine Hat, Alberta, Canada, on Monday, Aug. 2, 1926 at 9:15 p. m.

PARTRIDGES AND PRAIRIE CHICKENS TO BE PROTECTED

Prairie chicken and partridges are fast disappearing in the state of Wisconsin. There are many counties in which they are almost extinct.

ONLY 14 CTS. PER MILE TO MILWAUKEE

On Account of State Fair For the above occasion the C. & N. W. Ry. will sell round trip tickets to Milwaukee at the rate of only 14 cents per mile.

CARD OF THANKS

We wish to express our most sincere thanks to all our relatives and friends for the kindness and sympathy shown us during our recent bereavement.

A BIG FAILURE

The Milwaukee Federal court last week received one of the largest bankruptcy petitions involving a farmer in the area.

AUCTION SALE

Beginning at 9:00 a. m., sharp, on Thursday, September 2, 1926, the undersigned will sell a large amount of his personal property.

—Born, to Mr. and Mrs. Frank Thull of the town of Farmington, a baby girl, at the Driessel Hospital last Friday.

TWELVE YEAR OLD LAD SAVES LIFE OF GIRL

Recently at Forest Lake, Robert F. Janiszski demonstrated presence of mind by plunging into the water and bringing into safety Virginia Butler, who was going down for the third time.

DEATH OF FORMER KEWASKUM RESIDENT

Charles Hillenbergs passed away in death at his home in Medicine Hat, Alberta, Canada, on Monday, Aug. 2, 1926 at 9:15 p. m.

DEATH OF MRS. ELIZABETH ZIELECKE

Mrs. Elizabeth Zielecke, (nee Jung) was born Dec. 19, 1860 in Rhenish, Prussia, and died on Aug. 18, 1926 at the home of her brother, Chas. L. Jung in the town of Wayne.

SCHOOL WILL RE-OPEN SEPT. 13

Work of completing the gymnasium at the high school building is rapidly progressing, and all will be in readiness when school will re-open on Monday, September 13th.

ST. JOHN'S LUTH. CHURCH

The St. John's Luth. congregation, New Fane will hold their annual mission festival, Sunday, Services will be held at 10 a. m., 3 p. m. and 7:30 p. m.

—Born, to Mr. and Mrs. Frank Thull of the town of Farmington, a baby girl, at the Driessel Hospital last Friday.

REETHS PLAYERS FINISH ENGAGEMENT

The Fred Reeths Players, who played to large crowds here in their own tent theatre last week, closing their engagement last Sunday evening, and left Monday for Horicon, where they are showing this week.

OTTO SCHMIDT FAMILY ENTERTAINS

Mr. and Mrs. Otto Schmidt of Ashford pleasantly entertained 50 relatives and friends at their home Sunday. Dinner was served at 5 o'clock by Mrs. Schmidt and daughters Esther, Mildred and Mrs. Erwin Muehlhaus.

WASHINGTON COUNTY FAIR

SEPTEMBER 8th, 9th, 10th

An economic value of the Washington County Fair, which usually is given little or no consideration, is represented in the premiums paid out to the winners in the various divisions and classes of exhibits.

In the sheep division amounts of \$45.00 are offered in each of the classes of purebred Merino, Cotswold, Hampshire, Oxford, Shropshire, Southdown and Cheviot sheep, and amounts of \$15.00 in each of the grade classes.

In the poultry division the grand total offered on poultry and pigeons is \$1,892.00. The premiums offered in the class of grains and seeds, in the agricultural and horticulture division total \$166.25; vegetables, \$119.75; green fruits, \$135.20; flowers, \$80.25.

The total amount of premiums offered for garden club exhibits amount to \$244.00, while the prizes offered at the boys' and girls' corn judging contest total \$28.00, and those offered at the boys' live stock judging contest also total \$28.00.

The above shows where most of the money taken in at the County Fair goes. Every cent received must be accounted for. Every admission price paid at the gate, besides entitling the individual to an amount of pleasure and benefit he will get nowhere else for the same price, helps to encourage and advance the economic life of the county.

—Mr. and Mrs. Seggelink and family of Kaukauna spent a week with the Wm. Kennon family.

"HIS PEOPLE" AT THE MOVIES

A tear, a smile, a sob, a chuckle! A page from the life-book of a simple family, a powerful portrayal of human emotions, is the heart-stirring story of "His People," which will be shown at the Opera House Sunday.

Climax follows climax in this moving recital. How the favored son spurns his parents and denies his religion; how the younger son, who was disowned to the aged and broken man brings joy to the patriarch's last days; the sacrifice of the old rabbi for his ungrateful Morris and the eventual recognition of the wronged Sammy, all are artfully portrayed in this human document.

BATAVIA

Ruth Donath of Milwaukee is visiting at Mrs. G. A. Leifer's. A number from here attended the fair at Plymouth this week. Rev. Bloede and family returned from their vacation Friday.

Rev. and Mrs. Chas. Weingartner of Random Lake visited at Art. Donath's Saturday. Mrs. John Schwenzen, who visited in the northern part of the state, returned Tuesday.

Rev. and Mrs. Grote and daughter and Verona Miller of Kaukauna, Ill., visited a week at the Mr. and Mrs. John Miller home. Mr. and Mrs. Gust Gort, who spent five weeks in this vicinity, left for Milwaukee Monday, enroute to their home in Condon, Ill.

PEACE EVANGELICAL CHURCH

Mission Day will be observed on Sunday, Aug. 29, at the Peace Evang. church in two services. At 10 o'clock the morning service will begin.

HOLY TRINITY CHURCH Philip Vogt, Pastor High Mass will be read at 8 a. m., on Sunday, Aug. 29th.

# OUR COMIC SECTION

## Our Pet Peeve

## MICKIE, THE PRINTER'S DEVIL

BY GOLLY, I SIT HERE AT THE OLD DESK MANY A NIGHT AFTER THE PAPER IS OUT AND WONDER WHAT WILL BECOME OF THIS TOWN IF PEOPLE DON'T QUIT BUYING OUT OF TOWN - WE TALK ABOUT BRINGING IN FACTORIES TO DRAW OUTSIDE MONEY TO THE TOWN, AND THEN WE TAKE LOTS OF THE MONEY WE HAVE GOT HERE, AND SPEND IT AWAY FROM HOME, WHERE IT NEVER WILL COME BACK

"THE GRASS ON THE OTHER SIDE OF THE FENCE ALWAYS LOOKS GREENER," AND STRANGE STORES LOOK MORE ENTICING THAN OUR OWN, BUT AFTER ALL, IT IS THE GOODS THAT ONE BUYS THAT COUNT, NOT DAZZLING SHOW WINDOWS NOR NIFTY STORE FIXTURES.

LIKewise, ORDERING FROM A FLOWERY, DESCRIPTIVE CATALOG DOESN'T PRODUCE ANY BETTER GOODS THAN YOUR FRIEND BILLY HANDS OUT WITHOUT A LINE OF EULOGISTIC ADJECTIVES - BILLY PROBABLY SELL YOU BETTER GOODS, WITH THE PRIVILEGE OF EXAMINING BEFORE BUYING. HE DELIVERS IMMEDIATELY AND WAITS FOR HIS MONEY IF YOU PREFER TO PAY LATER. AND PART OF BILLY'S PROFIT GOES TO PAY TAXES TO EDUCATE YOUR KIDS AND RUN YOUR TOWN =

OUR TOWN MOTTO SHOULD BE THAT OF THE "THREE MUSKETEERS" - "REMEMBER!?" "ALL FOR ONE AND ONE FOR ALL."

## THE FEATHERHEADS

I HATE TO TROUBLE YOU - NO TROUBLE AT ALL -

IT'S AN AWFUL BOTHER, I'M AFRAID - TUT-TUT SOMETHING!

IT'S AWFUL GOOD OF YOU -

OH THANK YOU SO MUCH! - MY SISTERS HOME IS ONLY ABOUT A MILE FROM HERE AND I WANT TO TOSS A KISS OUT THE WINDOW TO HER PEKINESE PUPPY.

## WHEN RUN DOWN

run down what should he take? Second Doctor—"An ambulance is the best thing I know."  
**Easiest Way Out**  
"His boss gave him a trip to Europe, I hear."  
"Yes, he couldn't stand the same old jokes any longer."  
**Reached His Limit**  
"Bob thinks he knows it all."  
"Well, I guess he's right at that; he's too stupid to learn any more."

## A Fashionable Place

"Waiter, what is this on the menu?"  
"Strawberry shortcake."  
"How many berries?"  
"The dish is listed at \$2, if that is what you mean," said the waiter with dignity.  
**His Kind**  
"I want a box of cigars, please."  
"Yes, madam—a strong cigar?"  
"Oh, yes; my husband bites them."

# Mangy Hogs Not in Much Demand

To Obtain Top Price Feeders Must Have Animals Free of Disease.

(Prepared by the United States Department of Agriculture)  
The raising and marketing of hogs is now a more profitable enterprise than it has been for a number of years. On June 25 the price of hogs in the Chicago market ranged from \$13.55 to \$15.00 a hundred pounds. Swine growers and feeders are interested in getting the top price. It is important, then, that the animals reach the buyer in good condition, well-finished, and, especially, free of disease.

**Depreciation in Value.**  
The United States Department of Agriculture calls attention to the depreciation in market value of animals affected with skin disorders. It frequently happens that hogs with mange are allowed to reach the market. This condition often affects growth and fattening and makes the animals less desirable. The carcasses of such hogs have an unsightly appearance, the cuts of pork are reduced in value, and in some cases it is necessary to remove the entire skin in order to make the meat salable. Hogs affected with mange in the advanced stage are condemned as unfit for food under the federal meat inspection regulations. It is only reasonable for the packer to pay less than market quotation for mangy hogs, or refuse to buy them at any price.

Hog mange is caused by insect-like parasites called mites. The sores in the early stage are found on the head around the eyes, nose, and ears, and from these parts they spread, according to the activities of the mites, until the entire skin is involved.

**Prevent Mange.**  
Mange may be prevented by keeping the hogs in clean pens or pastures, away from filthy wallow holes and by the use of oillers or rubbing posts. Crude oil (petroleum) is effective in keeping the animals free of parasites, including mange mites. While there are various types of hog oillers on the market, a simple home-made one may be arranged by driving a post firmly in the ground and wrapping it securely with gunny sack. Oil is poured over the post from time to time to keep the cloth saturated. If a clean cement wallow is provided, the oil may be flung on the water and in this way reach the skins of the animals. A sand wallow may be utilized also in sections where hog lots are sandy. A space about 20 feet square is provided with side boards 8 to 10 inches high, the space filled with clean sand and

the oil spread over the sand. The hogs will get the benefit of the oil in the sand bath. The sand should be changed from time to time, otherwise some of it may become hard.

If the herd has become affected with mange, dipping will be found effective in destroying the mites. Full information concerning mange, its prevention and treatment, is given in Farmers' Bulletin 1085-E, copy of which will be furnished, as long as the supply lasts, upon application to the United States Department of Agriculture, Washington, D. C.

## Scientists Join Battle

on European Corn Borer

Andrew Boss, vice director of the Minnesota experiment station, attended one session of the meeting of the corn belt committee on European corn borer control held in Chicago recently. Entomologists, agricultural engineers and agronomists joined in studying and discussing the corn borer situation. The entomologists predicted that the pest would reach Indiana this year and that ultimate invasion of the heart of the corn belt is certain. Ohio experiment station men are co-operating with the European corn borer committee, manufacturers, land owners and farmers in carrying on experiments for destroying with mechanical devices corn stalks and other refuse which shelter the borer. Several varieties of the corn borer have been imported from Europe and, according to United States department entomologists, four varieties are becoming established in this country.

## Grow Sweet Clover for Pasture and Help Soil

Growing sweet clover for pasture and soil improvement purposes is very risky business where alfalfa seed is produced. Properly managed, however, one ought to be able to keep them apart. Intentional production of sweet clover seed is the practice which is so damaging. Some alfalfa growers plant sweet clover on land to prepare it for alfalfa. This is a good, practical method where the alfalfa will be used for hay and hog pasture. Alfalfa fields started this way, however, should not be allowed to produce seed for several seasons, not until the clover plants are all killed out. If good scarped sweet clover seed is planted, two years of hay making, following the year of planting, should be enough to get most of the clover plants. This is mainly true in those regions which receive sufficient rainfall to start all the clover seed to germinating.

## VALUES OF OATS AND CORN IN FEED OF AVERAGE FARM HORSE

Concentrates and Carbohydrates for Horses.

(Prepared by the United States Department of Agriculture)

Oats are one of the best concentrates for feeding horses. The protein and carbohydrate contents of this grain are better proportioned for this purpose than in the case of corn. The United States Department of Agriculture. The hull in which the oat kernel is incased, though of small nutritive value, greatly improves the physical character of the feed by adding bulk. Oats should be rolled or ground for very young horses, but may be fed to the mature animals either whole or ground. In order to prevent ravenous feeders from choking it is advisable to place a little chopped clover hay, wheat bran or a few whole corn cobs in the feed box with the oats. While oats may form the entire grain ration for horses the substitution of two or three pounds of wheat bran will improve the daily ration, provided it does not produce a too laxative effect.

Corn is more generally grown than oats in many horse-producing sections and for this reason and because it is usually more economical to feed it is often given preference over oats. Because of the high carbohydrate content more energy per pound is derived from corn than from any other grain suitable for horse feed. Since corn is somewhat low in protein it is well to supplement it with a leguminous hay. The combination of corn and alfalfa hay as a ration for horses is growing in favor. Equal parts by weight of these feeds will usually make a balanced ration. In the absence of legumes a little linseed meal or some other protein concentrate may be fed with the corn. Corn is not only fattening and heat-producing but also very palatable. Horses un-

accustomed to corn must not be changed to it suddenly because of danger from colic or other digestive disturbances.

Corn is generally fed on the cob or shelled, but sometimes is used in the form of corn-and-coal meal. This feed, which is particularly suitable for horses which lack the necessary time or teeth to chew unground corn thoroughly, is of about the same feeding value pound for pound as shelled corn. Certain precautions must be taken in feeding it, however, as when stored for a time it has a tendency to generate heat with the consequent formation of mold. For this reason it is best to grind the grain only as needed.

## Several Advantages in Fall Freshening of Cow

There are several advantages in having the cows freshen in the fall provided there is a sufficient supply of labor available during the winter months. Cows freshening in the fall may be fed so that they will produce a good flow of milk during the winter months. During the latter part of this period the flow tends to decrease, but it will be increased with the stimulus of spring pasture. The period of smallest flow will be during the latter part of the summer, when conditions are not favorable for high milk production and labor can be used to advantage in other farm work. This tends to equalize labor to a greater extent than when the majority of the cows freshen in the spring.

Calves born in the fall make good growth during the winter and are able to make some use of the pasture in the spring. Calves born in the spring are not sufficiently mature to make much use of pasture even in the latter part of the same season, on account of the annoyance of heat and flies.

## Proper System of Swine Sanitation Cuts Losses

A system of swine sanitation developed by specialists of the United States Department of Agriculture in McLean county, Illinois, has gradually spread until it is widely used in hog-growing states. The method used greatly reduces losses caused by roundworms, and extension workers in Iowa, Nebraska and other states have been active in acquainting swine growers with it. The bureau of animal industry, United States Department of Agriculture, says that many hog men, using the system, are now raising as many pigs as formerly with about two-thirds as many brood sows, being equivalent to reducing pig losses one-third. The method, though directed principally against roundworms, is so effective in controlling other disease conditions that death losses from any cause are rare and runtiness is seldom observed.

The foregoing results show the practical application of scientific work which at its outset was extremely modest and involved a detailed study

of the worm's life history and characteristics. Although methods are now well established, the bureau is continuing its experiments with other parasites and related diseases.

## FARM FACTS

After the pigs are weaned it takes only sow sense to keep them growing.

Usually the farmer does not save money—he accumulates live stock and other forms of farm property.

Don't count your pigs before they're weaned unless you provided farrowing quarters free from round-worm infestation.

Farming with just the hands and the feet goes hand in hand with delinquent taxes.

The men who get the lower costs of production are usually the better men. That's why they get the lower costs

# To Customers of General Motors

General Motors is unwilling to leave to chance anything involving your satisfaction with your purchase of a General Motors car.

This is why more than seven years ago the General Motors Acceptance Corporation was organized. It assures customers of General Motors who prefer to purchase out of income a sound credit service at low cost.

In the General Motors line there is a "car for every purse and purpose," and the GMAC Plan can be comfortably fitted to the individual circumstances of buyers of assured income.

The GMAC Plan is offered through General Motors dealers exclusively. Ask your nearest dealer to explain its advantages.

## Helium Solidified

The solidification of helium gas has been one of the ambitions of Prof. Kamerlingh Onnes, who maintains a large laboratory at The Hague. Many unsuccessful attempts were made to convert helium into a solid. Recently Professor Keessom of Leyden university, who was working in Onnes' laboratory, succeeded in such an experiment. By using very strong pumps Keessom subjected the helium to a pressure of 150 atmospheres and a temperature of 44 degrees absolute, when the gas solidified.
