NOTICE

Beginning Saturday, Sept. 11, the New Prospect Mill will grind feed every day.

Joe Seborka, Proprietor.

Make Sure of Your Corn Harvest

THERE is no uncertainty about corn harvest when you have a McCormick Corn Binder on the job. No matter whether the corn is tall and straight, short and crooked or down and tangled, McCormick Corn Binders gather it up and tie the stalks into snug, firm bundles with even butts. Bundles are deposited on the ground without breaking ears from stalks—a detail of smooth, certain operation. In down and tangled corn the gathering points, which have a wide range, slip gently under the corn and with the aid of special down-corn elevating chains straighten it before it is cut. The knotters are the same as those used on McCormick grain binders. They tie with absolute certainty. There are many features on McCormick Corn Binders that will recommend these machines to you. Come in and let us tell you all about them.

Three figures which mean extra motor car value

Buick motor cars are now designated by their wheelbase lengths. Series One Fifteen has 114½ inches of wheelbase. Series One Twenty is 120 inches from axle to axle, and Series One Twenty-eight measures 128 inches.

Many cars, several inches shorter than Buick and without advantages offered by Buick design, are priced considerably higher.

Compare the wheelbase length of other cars to Buick, before you spend your money.

WHY?

This Bank has shown a healthy growth because we set for ourselves a goal, and we have centered every thought and bent every effort on the attainment of this goal. We have kept everlastingly at it.

Now, we are sure that you also have a goal—some mark you wish to reach—some ambition to satisfy. If money enters into it, and surely it does, it means that you must save. No matter what it is, you can accomplish it, and steady methodical saving will help.

Set aside a little this week—every week. In the end this spells—GROWTH—SUCCESS.

SUNDAY SCHOOL NOTE

ment, Mae?" Mae—"Why, don't you know there's a new one, my dear?"

Black Magic
First Movie Star—I tell you that Herman Sheik is the greatest movie star in the world!
Second Movie Star—Bah! What has he ever done?
First Movie Star—He has a divorce that is good in every state in the Union!—Pathfinder.

Every deep-sea creature is more or less phosphorescent.

Desired Effect
Mr.—Aren't you ready to go yet?
Mrs.—Tell me, does my gown look as if it were slipping off my shoulders?
Mr.—No, let's go.
Mrs.—Well, you'll have to wait. It's supposed to look that way.

An Untidy Habit
"I'd like to be cremated, but I'm sure my wife wouldn't like it."
"Why so?"
"Oh, she's always complaining about my leaving my ashes around."

WHY DENY YOURSELF THE BEST IN MOTOR CAR BODIES

The finest of the new cars in all price classes have now been announced—Cadillac, Buick, Chevrolet, Oakland, Oldsmobile and Pontiac.

All offer vastly greater values than ever before in motor car history.

All register amazing advantages in performance and ease and economy of operation.

But the greatest factor of their new glory is described in a single phrase—Body by Fisher.

Here is their supreme beauty—setting absolutely new standards in charm of design and interior fitting.

Here are unequalled factors of safety which add so much to your comfort and confidence.

Here are exclusive conveniences and niceties which do, indeed, make the car with Body by Fisher superior in its class.

No matter what mechanical developments may allure you, it is the body of your car with which you live most intimately—that is why the General Motors units, makers of the best of the new cars in all price classes, point so proudly to the emblem—Body by Fisher.

With the finest of the market to choose from there is no reason why you should deny yourself the greater safety, beauty and comfort which only a Body by Fisher can give.

FISHER BODIES

GENERAL MOTORS

Mainsprings Susceptible
The mainsprings of his watch having longer refused to function early in the week, he took it to a local jeweler to whom he ventured the suggestion that a new high-grade time-piece ought to last more than a few months—it was a Christmas gift—without needing repair.
"I was surprised when the expert repair man told me more mainsprings broke during the hotted season than at any other time during the year. Thunderstorms and rapid changes wreak havoc with them. It was a new one on me. We learn something every day," he confides.—Brocton Enterprise.

Riveting Hammer Has Electrical Competitor
Is the voice of the riveting hammer to be stilled? For years it has ranked close to the flivver's cough as "the great American sound," but now a new method of fabricating steel frames is rising. Electric welding which erects the skeleton of a building of many members melted into one piece instead of as a collection of beams riveted together, is looming. A riveting garage of this type has been built in Canton, Ohio, and now contracts have been let in Pittsburgh, Pa., for two five-story buildings—the first in the world whose members and joints have been designed especially for electric welding. The speed of construction is far greater than by the well-known catch-hot-rivets-in-a-bucket-and-hammer-'em-home method, and the cost is estimated to be less.

"Tiffin" in America
An English trade journal broadcasts the information that sales of Indian tea had increased in the United States by 3,000,000 pounds in 1924. In many of the large business houses and banks the four o'clock cup of tea has become a part of the office routine.

Gravediggers Rob Dead
Disclosures in the municipal cemetery at Levallois, France, have become ghastly. For a time five diggers were capable of handling the work, but they fell so far behind that a sixth was engaged. Great was his chagrin to learn that the other five spent much of their time in rifling the graves of jewels, crackles and other valuables.

Easterners "Tote" Guns
Yellowstone park officials find that nearly all the gun-toting visitors are from the sedate East, says the Dearborn Independent. Regulations prohibit the carrying of guns within the park boundaries.

Instantaneous
"Look at the boys picking them out in the hotel dining room."
"Summer love at first sight."
A man that is young in years may be old in hours if he has lost no time.—Bacon.

Monster Electric Sign
The largest electric sign in the world, on Steeplechase pier at Atlantic City, N. J., advertising a brand of cigarettes, is 215 feet long and 55 feet high. It contains 26,000 lamps, said to be more than double the number of lamps used in any other sign. Fourteen changes of colors flood across its ornate designs during the 75 seconds of each complete cycle.
