KEWASKUM, WISCONSIN, SATURDAY, SEPT. 18, 1926

PRETTY NUPTIAL EVENTS OF WEEK

THERT MULER WEDDING

St. John's Lutheran church at West ness. Rend on Saturday, September 11, when Miss Hildegard Calbert, only daughter of Mr. and Mrs. Herman Calbert of West Bend was united in murriage to Edwin Muler, son of Mr. and Mrs. August Miller of the town of Kewaskum. Rev. Henry Anger performed the ceremony. The bride wore a white satin Canton crepe with georgette, and carried a bouquet of white asters, roses, hydranges and smilax. Miss Corrine Schaefer of Kewashum, who was maid of honor, wore an orchid silk morie with georgette. and carried a bouquet of ten roses and haby bewath. Miss Elfrieda Hillreann, coasin of the bride, was bridesmaid, and wore a gold and peach chargeable inffeta dress and carried a bouquet of Ophelia roses and baby breath. Dr. Alex C. Gilbert, brother of the bride, was best man and Loran Fuckhaus, cousin of the groom, was usher. After the ceremony a wedding maner was served at the home of the bride's parents, with only immediate relatives and friends of the contracing parties in attendance. The home was decorated in plak and white. In the evenloy a reception was held at West Park Hall with about 150 in- mon's Threshing crew at the Round DEATH OF MRS. ERNST KLESSIG vited guests present. The bride is a Lake pavillion Thursday evening, was well known and highly respected largely attended. Music was furnishyoung lady of West Bend. side and drink only boiled water. "If the above points are remembered the coming hunting season will be more successful than some in the

GET 30-DAY LEASE ON 330 ACRES

A 30-day option was taken this week by a Chicago syndicate, which is financially well situated, on 330 acres of land surrounding Schrauth's pond at Elmore. The syndicate has selected this place with the view of getting a site for the construction of a semisanitarium and summer resort, similar to Rest Haven, once a noted Wau-

kesha watering place. According to C. J. Struebing, a town of Ashford farmer, a cash consideration of \$69,000 accompanied the options, the deal, however would amount to more than \$100,000 should the options be realized by the Chicago terested the owners in the project. Other property owners are Mr. Schrauth, owner of a soft drink parlor, William Mathieu, Otto Backhaus, Mike Weiss and Mrs. Struebing.

It is the plan of the Chicago syndicate to construct probably a resort larger than any of those within the immediate vicinity of Fond du Lac or

MEN TRY TO SOLICIT HERE

On Monday, two uniformed men representing themselves as members of the Volunteer Rescue Army with headquarters at Milwaukee, arrived in the Falls to solicit contributions. The merchants they went to referred them to the Secretary of the Advancement Association for an endorsement, That officer found the Wisconsin Association of Commercial Secretaries had issued a warning to be on the lookout for solicitors from this organization going by the name of Randolph and Dalton. These men had been called inand ordered from that city. Other cities in Wisconsin have also had trouble with these solicitors .- Sheboygan County News.

DAUGHERTY IS NOT BLAMED FOR GRAFT

German Industrial Magnate Exonerates Former Attorney General.

New York.-Richard Merton, German industrial magnate and the government's star witness in the epochal American Metals case, exonerated Harry M. Daugherty, ex-attorney general, and Col. Thomas W. Miller, exalien property custodian, of the conspiracy charged against them and for which they are on trial in Federal court here.

Not only did the witness prove a tower of strength to the defense on cross-examination, but United States Attorney Emory R. Buckner lost a series of legal clashes with defense counsel on major points.

Merton denied having any idea that the \$50,000 fee he puld John T. King was intended for any member of the government.

Buckner had previously stated that Merton, representing a Swiss holding company for his family's huge German-owned world-wide metal interests. had successfully prosecuted what amounted practically to a fraudulent claim upon the United States government for \$7,000,000 in assets seized by the government during the World

Judge Julian Mack, before whom the trial is being held, ruled that the United States Supreme court has decided that neutral corporations whose property was seized during the war were entitled to have their holdings returned by the alien property custodian, even though a majority of the stock of such companies is held by persons classed as enemies during the

ZIMMERMAN AND BLAINE WINNERS

Milwaukee-With the vote of 2,417 out of 2,728 precincts reported, returns from the Wisconsin primary election showed Gov. John J. Blaine to have a tead of 19.259 over Irvine L. Lenroot decree just issued by the ministerial in the contest for the republican nomination for United States senator.

Secretary of State Fred L. Zimmerman won easily over Herman L. Ekern, the La Follette-Blaine candidate, in the race for the republican nomination for governor. Results from 2,417 precincts colors will be gradually reduced-first, gave Zimmerman a lead of 45,508 votes, the figures being Zimmerman, 202,846; Ekern, 157,340; Perry, 36,154; age of twenty, and later by reducing | Smith, 21,480. The La Foliette-Blaine ticket candidates for lieutenant goveryear. The number of skeleton regi- nor, secretary of state, attorney genments will be reduced from 35,000 to eral and state treasurer have won by large majorities over their opponents. The total vote in the primary is expected to be about 435,000.

There was no contests for the democratic and socialist nominations for United States senator for the state offices.

Following is the vote by countles in the republican primary from 2,417 precincts:

It was the work of a minute to ground the boat. Then unheeding little Patience's lamentations, the two children looked at each other and at Amos. Margery.

"I'll run for her mother," said "And scare her to death! She isn't burt a bit," insisted Lydia. "Mar-

gery, stop crying. You're all right, I "I'll tell you," said Kent, "let's put

her in Patience's carriage, and carry her home. The water she swallowed makes her awful sick at her stomach, I guess.

The fright over, the old spirit of adventure, with an added sense of heroism, animated Kent and Lydia.

Margery was teased out of the boat and assisted into the perambulator, with her dripping white legs dangling helplessly over the end. Little Patience's tears were assuaged when she was placed in the doll buggy, with Margery's doll in her arms. Florence Dombey was tied papoose fashion to and you, Dave Marshall, was selling Lydia's back. The bicycle was hidden cans of tomatoes over a counter. juice. Come on, Lyd, hefore you're called in." And thus ended the heroic day No one ever knew what Dave Marshall said to Elviry, his wife, but a

day or so after, little Margery, in a

fine white flannel bathing suit, ap-

peared on the sand, about a quarter of a mile below the Willows, Kent was a quitter! After the resone he decided to eschew the society of girls forever and he struck a bargain with Lydia that she could have the use of his bicycle one day a week till snow came if she would undertake the disciplining of the banker's daughter alone. For such a bribe

Elviry Marshall, herself, to swimand so the bargain was struck. Lydia's method of teaching was one employed by most of the children of into the town. She forced Margery to dia?" float face downward in the water, again and again, while she counted ten. After one afternoon of this, the banker's daughter had forever lost her

In spite of the relationship Dave two children, Margery and Lydia did see all we've done, daddy." not like each other. One Saturday afternoon, after banking hours, Marshall was seated on his front porch, with Elviry and Margery, when Lydia appeared. She stood on the steps in her bathing suit, her bare feet in a pair of ragged "sneakers." Her face and hands and ankles were dirty but her eyes and the pink of her cheeks were clear,

"Come on, Marg," sald Lydia, "and, Mr. Marshall, please, won't you come too and see how well she does it?" "Run and get into your bathing suit, daughter," said Marshail. "El-

viry, want to come?" "No," snapped Elviry. "Lydia, how

water an hour every day Lydia brushed and tried to hide one ankle behind the other, "I think

Dave reared with laughter, "Right you are, Lydia! I guess I'll have to altch up and drive us all over."

They drove to the Willows and Margery went through her paces, while her father watched and applauded from the shore. When they had finished and had run up and down to warm up and dry off and were driving iome, Dave said:

"You'd better come in to supper with us, Lydia." "No, thank you," answered the child. "Mr. Levine's coming to sup-

per at our house and I have to "Hum! What does John Levine do at your house, so much?" Oh, he's going into politics," an-

swered Lydia, innocently, "and Dad

advises him." "Well, tell them you've done a fine ob as a swimming teacher," Dave spoke carelessly. "I don't see why Levine wants to get into politics. He's doing well in real estate," "Oh!" exclaimed Lydia with a

child's importance at having real news to impart, "he's going into poli tics so's to get some Indian land." "Like h-l he is!" exclaimed Mar-

"Oh, daddy!" Margery's voice was exactly like her mother's.

They were turning into the Marshall driveway and Marshall's face "that's where the punishment comes was a curious mixture of amusement and irritation. He kissed his little "Lydia'll do lt. I'll see to lt." said daughter when he lifted her from the buggy and bade her run to the house. "You keep out, Dudley. This is be- Before he lifted Lydia down he paused tween Lydia and me. How about it, and as he stood on the ground and she sat in the surrey, she looked levelly into his black eyes.

"I wish I had another little daughter like you, Lidla," he said. "I don't see why but God, you can't get swans from burnyard fowls." He continued to study Lydla's face. "Some day, my child, you'll make some man's heart break, or lift him Lydla squirmed.

"Well, Margery's taught now," she said hastily, "so I don't have to be

Marshall scowled slightly. "What do you mean? Don't you want Margery to play with you?"

"Oh, sure, she can play, if she wants to, but I mean I don't have to go get her and bring her into our games." "No," said Dave slowly, "but I think would be nice of you to sort of keep an eye on her and get her dirty once n a while. There! Run home, child, ou're shivering."

With puzzled eyes, Lydia obeyed. The most important result, as far as Lydia was interested, of the talk between her father and Levine that night was that Amos decided definitely to move the following week.

Lydia did not see the new home until she rode out with the first dray- juice of a lemon. See that the gelaload of furniture. She sat in the high | tin is well dissolved and the mixture seat beside the driver, baby Patience | well blended; turn into the freezer in her lap, her thin, long little legs and freeze. The cottage was A good salad which may be prepared a mile from the old home. They drove at almost any season of the year is: first half of the distance, then turned into a dirt road that led toward the lake shore. The dirt road emerged on the shore a half mile above the Willows and wound along a high embankment, crowned with oaks.

An old-fashioned white cottage, with green blinds and a tiny front porch, stood beside the road, its back green pepper cut into fine shreds, a to the lake. There were five acres or handful of blanched almonds shredded so of ground around the house, ser off by a white picket fence. At the lettuce, gate a pine tree stood. There were oaks and Illac bushes in the front yard. Through the leaves, Lydia

"Our yard runs right down to the "So do I," agreed Lydia. "Nothing water!" she cried as the driver liftto look forward to but worry now, ed the baby down and she followed O gee, Kent, I've got two pennies! after. "Gee! I'm glad we moved." Lydia looked along the road, where

an occasional house was to be seen. "I hope kids live in those homes, the lake are company enough for me, and Kent can come out on his wheel.

She ran through the little house eagerly. It was full of windows and being all on one door, gave a fine effect of spaciousness. It was an old house but in excellent repair as was

Lizzle arrived on the third and final load. She brought with her a lunch that they shared with the driver. He good-naturedly set up the kitchen stove and the three beds for them and departed with the hope that they would not be too lonesome. Lydia and old Lizzie put in an aft-

ernoon of gigantic effort. By six o'clock, the beds were made, dishes unpacked and in the china closet, the table was set for supper and an Irish stew of Lydia's make was simmering on the slove.

When Amos came up the path at a half after six, his dinner pail in his hand, he found Lydia flat on her back on the little front porch. Her curly Lydia would have undertaken to teach head was wet with perspiration; face, hands and blouse were black. The baby sat beside her, trying to get Florence Dombey to sleep.

"Well," said Amos, looking down on Lake City when a new child moved his family, "how do you like it, Ly-"It's great! My back's broken!

Supper's ready." "You shouldn't lift heavy things, child! How often have I told you? fear of the water and the rest was Wait until I get home."

"I want to get things done," replied Lydia, "se's I can do a little playing Marshall had established between the before school opens. Come on in and

WORTHWHILE GOOD THINGS

Here is a good pudding and one that ls not extensively known.

Banana Pudding. -Take a quarter's worth of vanilla wafers, pui through a meat grinder with a pint or less of nuts. Cook one plut of sweet milk, two

tablespoonfuls of butter, one cupful of sugar, and two egg yolks. Make alternate layers of the nuts, wafers and cream filling. adding six bananas and a can of crushed pineapple. Serve with thick whipped cream.

Velvet Sponge Cake .- Beat four eggs very light; add two cupfuls of sugar and beat for twenty minutes. adding the sugar gradually. Then add one cupful of boiling hot milk, one teaspoonful of lemon or vanilla and two cupfuls of flour sifted with two teaspoonfuls of baking powder folded into the egg mixture. Bake twenty to thirty minutes. Spread with the favorite filling or frosting.

Date Pudding .- Mix one pound of walnuts (measured in shell), one-half pound of dates stoned and chopped, one and one-half cupfuls of sugar, one cupful of crushed and rolled bread crumbs, two teaspoonfuls of baking powder and six eggs, yolks and whites beaten separately. Add the dry ingredlents, then the yolks and fold in the stiffy beaten whites. Bake in a sheet and serve with whipped cream

spread over the top. Asparagus With Cheese .- Take one can of asparagus, six hard cooked eggs, one-fourth cupful each of butter and of flour, one cupful of milk and one-half pound of cream cheese. Make a white sauce of butter, flour and milk. Place a layer of the asparagus in a baking dish, cover with the cheese and white sauce, then another layer of asparagus and finish with the white sauce and cover with buttered crumbs. Bake about twenty minutes. Season well to taste with salt, paprika and tepper.

Pickled Peach Sherbet.-Prepare 8 lemon sherbet, using one pint of water, one-half cupful of sugar, one teaspoonful of gelatin, one-fourth cupful of mashed pickled peaches, and the

Seasonable Dishes.

Green Pepper Salad.—Remove the skin and veins from three bananas and slice, add half a cup ful of finely diced tender celery, one and mayonnaise to moisten. Serve on

Banana and

A nice luncheon dish when it is hard

to think of envilling new is: Golden Buck, Prepare a plain welsh rabbit as follows: Combine these tablespoonfuls of flour, one tablespromful of butler, one tensnoonful of salt, one-fourth teaspoonful of paprika, an edg, and two cupfuls of cheese put through the food chopper. Add two cupfuls of milk and cook over the hot water, stirring frequently until thick. Serve on large slices of buttered toast with a poached egg on

Cherry Cake. - Bake a sponge cake In a sheet pan and when cold spread with the following mixture made from either fresh or canned cherries: Pit a quart of fresh cherries, add two cupfuls of sugar and let stand a while, then boil fifteen minutes. Drain the juice and when cool add a cupful of cherry juice and a cupful of water and boil, pour over two tablespoonfuls of gelatin dissolved in one-fourth of a cupful of cold cherry juice. Stir in the pulp and when thick spread over the cake. Top with whipped cream sweetened and flavored with almond. Green Corn Pudding .- Take twelve good-sized ears of corn, slice off half the kernels with a sharp knife and with blunt edge scrape out the milky germs that remain, leaving the husks on the cob. Add a tablespoonful of butter, salt and pepper and three-fourths of a cupful of milk. Bake with dots of butter over the top. Bake forty-five minutes.

Cucumber Sauce for Fish,-Grate two small cucumbers and cook in two tablespoonfuls of butter closely covered; stir frequently; when well cooked add a half pint of rich white sauce, season with lemon fulce, sait and pepper, adding a bit of spinach juice for coloring.

When food has cooked on the pan and scorched, remove and cool by setting at once into cold water; the steam carries away the scorched taste, if not too hadly scorched.

INDEPENDENCE

This year, as always, the popular style will be COMPLETE INDEPENDENCE

Money in the Bank will give you that feeling of satisfaction and self-confidence that is an essential part of good Americanism.

Farmers & Merchants State Bank

Kewaskum, Wisconsin

"A Community Bank"

"HE easily driven "RED TOP" steel drive post has made fence building possible at this season. With this post there are no post holes to dig, so it doesn't matter how hard or dry the ground may be. With the "RED TOP" One Man Driver you can drive 200 to 300

of these superior steel posts a day. At the low prices we are quoting on "RED TOPS" and fence there's a double advantage in building new fences and repairing old ones now.

A good many farmers around here are doing the bulk of their fencing during the fall season—right now. When the spring rush of work comes on they will have that much less to do. "RED TOPS" for Low Cost

We've been selling lots of "RED TOPS" for temporary fences that season. They are easily driven and the wire quickly attached. They can be pulled and the sence moved with so little labor and in such a

Temporary Fences

It is a pleasure for us to sell you "RED TOP" Posts. We know the will give you lasting satisfaction. They have been done at in the

community for years. Come in right away and arrange for the posts and fence you will need to put your fence lines in tiptop shape this fall. We are always glad to help you get the biggest value going for every doilar you spend with

R

McCORMICK-DEERING POTATO DIGGER

Built and equipped for satisfactory work in all kinds of soil.

HE cheapest help you can get is wasteful and extravagant compared with the McCORMICK-DEERING Potato Digger. This tool goes into the fields, whenever you wish, and digs the potatoes quickly and economically, Actual users say, "It is the lightest draft digger on the market." It is well lubricated, and is built to last many years-regardless of the heavy work it is called upon to do.

With the McCORMICK-DEERING, the potatoes are brought out on top of the soil, in plain sight and in neat rows. They are separated from dirt, vines, and trash, and are easy to pick up. If you have a McCORMICK-DEER-ING Potato Digger and two or four horses, you can harvest your potato crop with the minimum of man labor.

Chlorine Bomb for Home

iore elaborate apparatus. All that is necessary is for the patient suffering from a cold to sit in a closed room for an hour after breaking off the ends of the gas bomb, which is a glass globe filled with pure, filtered chlorine gas. The escaping gas mingles with the air of the room and, it is claimed, will cure a stubborn cold.

How Times Change

Jean, age ten, living in Park aveaue, has been in the habit for several years of visiting her cousin hiver in the country for a week each sammer. This summer she said nothing about going. She showed none of her former enthusiasm for making the journey, and finally her mother said: "Well, Jean, how about the eisit to the farm this summer?" "Oh, I fon't think I'll go," she renlied.

"Why not?" asked the mother. "Well, it's not the same town there since the goat died," she said.-Indianapolis News.

Etruscan Study Planned

The Etruscans, predecessors of the Roman civilization in the Italian peninsula, are to have their little-known history investigated by a group of Italian scholars, who organized for this purpose at a national Etruscan ongress recently held at Milan. Presthe knowledge of the Etruscan race and its culture is very fragmentary, though they had a high civilization and proud cities in Italy when Rome was a mere collection of buts beside the Tiber. Their influence was strong-The act of making needies was in- ly felt in the days of the early repubtroduced late this country in 1506 He, and survivals of their religion by Elias Grouse, a German, who probably held in the cults of Rome to the very end of paganism. It is believed by one of the Italian scholars Two of the most comfortable things interested in the movement that the originally an Etruscan settlement

LADYLIKE TREND

OF BALL GAMES

Calm Replaces Fire and Dash of Old-Time Giants.

Baseball fans with a memory long enough to extend back to the day when John McGraw was "Muggsy" and his New York Giants took batting practice on the jaws of their opponents, took occasion recently to lament

When Roger Bresnahan, celebrated in his playing days as one of the fightingest of the fighting Giants, asked the Pittsburgh police for protection during their recent series in the home town of the Pirates, the old timers lamented the reformation of the last survivor of the old time war-

McGraw established a new order of things when he hurled the "Muggsy" part of his character, tucked away the uniform that had been so familiar on the coaching lines and went into mufti to lead his team from the bench. Larry Doyle reached the end of his big league playing days and Art Fletcher graduated into the job of

manager, "Oil" Smith, a scrappy young catcher, who had heard of the old fighting Glants and tried to keep the reputation going, was turned loose and the other members of the team were warned that umpire balting and fist-fighting were not essential qualifications of a ballplayer.

In his fighting days McGraw, no doubt was following a natural inclination that came from the old Baltimore Oriole school to be a doormat

point. But his belligerence also may have been a by-product of an equally natural leaning toward showmanship.

The Giants always drew well on he road regardless of the class of their club. The fans saved their money to visit the ball park when the Giants were there to razz the scrappy manager and sit in on a few fights that were always threatened and many

In his maturing days, the fighting nature of McGraw softened as might be expected. Old men, as baseball rates men of McGraw's years, do not have the fire and the spirit of youth and they are not quickly aroused. They learn from experience to think

first before swinging. McGraw's reformation, however, was purely practical. No doubt he still has an occasional inclination to chastise an umpire or have his players do it for him but as a man in the business of winning pennants he knows

However, there still remains the Atlantic ocean to swim.

> Toad Market for Snakes The town of Harper, in Kansas, has

a rather unusual industry in a local tond market. Hundreds of the animals are bought and sold dally and delivered at 2 cents apiece. The deexploited in models to come from the mand is created by the Len Laird snake farm, near Harper, where thousands of the reptiles are handled annually, some shipments going as far as France. Laird keeps the reptiles visible in front only. That is to say, in a sile as a side line, as he is a prosperous wheat and stock farmer as

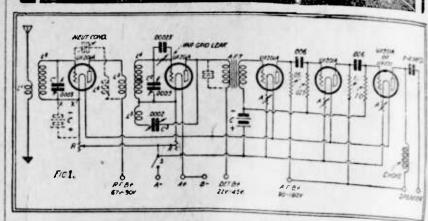

Diagram of the Selective Five-Tube Receiver Described in This Article. The Apparatus Indicated in Dotted Line Is Optional

By FRANK W. HARTH, In the New York Herald-Tribune. There is nothing particularly new in this circuit, which is the old Wea-

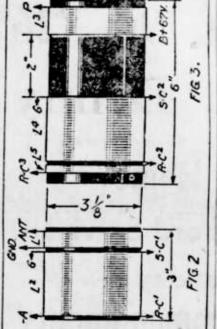

gant, with a few variations. The set originally was designed for local reception only, but one local did not ception only, but one local or radio-come in very well, so a stage of radio-right resistance values is really worth come in very well, so a stage with frequency was added. A location in while, as the builder will be amply the center of Manhattan was selected repaid by the results obtained for a test.

being 7 by 21 inches and the baseboard 12 by 20 inches. The chief claim of novelty is the

placing of the R. F., secondary, and regenerative coils on one form and having them all of the same diameter. That simplifies the work somewhat. There are five tubes, a R. F. ampli-

fler, a detector and three audio amplifiers. The author selected the type of audlo amplifier used because the transformer gives a strong initial input, the angle circuit may be anything free from distortion, for the two resistance-coupled stages to amplify. volts or more it unrely or more volts The result is a signal of surprising of "B" battery are used. Most audio

The coils are of the ribbed type of hard rubber tubing, recommended for its high electrical efficiency. There are 12 ribs running lengthwise of the tube and spaced equally around the circumference. The turns of wire. touching only the tops of the ribs, leave a space under the coils and provide practically an air core. The antenna coil was wound (as shown in Fig. 2) with No. 22 D. C. C. wire, 15 turns for the primary coil (L1) and 46

Constructional Data on Antenna and

Radio-Frequency Coil of Receiver. turns for the secondary (L2). The number of turns for this coil may vary, depending upon the length and type of aerial used. The aerial used with this set was about 75 feet in that a star ball player on the beach length. If a shorter aerial is used, 50 under suspension is of no value to to 54 turns may be required. The spacing between the primary and secondary is not critical; from one-eighth-Inch to one-quarter-inch works.

> Construction of Coils. The coil form shown in the drawing (Fig. 3) performs a threefold dutythat of supporting the R. F. primary, the R F, secondary and the regenerative coil. The R. F. primary coil is composed of 20 turns of No. 22 D. C. C., the R. F. secondary coil (L4) of 46 turns of No. 22 D. C. C., and the regenerative coil (L5) of 12 turns of No. 30 D. C. C. The spacing between the R. F. primary and the R. F. secondary must be two inches, or slightly more may prove even better. The regenerative coll (L5) is spaced about one-

> eighth inch from the secondary, To obtain a variable condenser of 0002 capacity for the regenerator a larger condenser can be used by removing a number of the rotor plates. In this case a .00035 was used, after retaoving four rotor plates, which brought the capacity down to approxi-

mately .0002 mfd. The inductance forms can be fastened directly to the baseboard with a wood screw or elevated a half inchor so on S-shaped strips of brass. One end of the S is then holted to the form and the other end screwed to the base-

board. For best results a good audio trans- tions, etc.

sound impulses, and is called an

ROVER"

THI

Wave-Length Range. The set should adduarily tune from 200 to 526 meters smoothly and with equal volume. However, the author found one set in several be built that was for some reason or other a little tricky on wave lengths under 200 meters that is, it had a tendency to spill over and was difficult to balance. This tendency was corrected by making use of the Rice system of neutral ization. This consists of an inductance and a neutralizing condenses These parts are indicated in the drawing to show their location, but need only be used if difficulty is experienced on the low wave lengths. There is, however, only one chance in a handred of their being required. The collis composed of the same number of turns as the R. F. coil and is wound

directly over the R. F. coil. The tube in the last stage can be a 201-A if the horn type of loud spenter is used. However, if the builder istends to use a cone-type speaker, he will require a greater automiciolide properly to vibrate the conc. The day of a UX171 power is suggested here as a suitable means of providing the necessary power without distorting the signal. An amperite or similar filament control device of one-half arrpere capacity must be provided for

this type of tube. The choke and large condenser shown in the diagram can be used or not as the builder sees fit. With their use the output signal will be much smoother, as the heavy direct current is hy-passed through the chake instead of being allowed to pass through

the speaker coll. Parts Required. The following is a list of parts actually used, but there is no reason why the set would not work well if other equally suitable parts of good

One cabinet, 21 inches long and 12 inches deep. One baseboard, 7 by 20-inch wood. Brass strip, 16 by 1-10. See feet One Radion panel, I by 3-16 inches.

THE INEVITABLE BODY ON THE QUALITY CARS

There could be no greater proof of Fisher quality than the selection of Bodies by Fisher for all of the leading makes of cars, in all price divisions.

Fisher Bodies have been exclusively adopted for all divisions of the General Motors Corporation, for instance.

And whether your selection be Cadillac, Buick, Chevrolet, Oakland, Oldsmobile or Pontiac, on every General Motors car you find a body with all of the inbuilt factors of safety, comfort and convenience which have made a Body by Fisher the standard of highest quality the world over.

New products of General Motors have just been announced.

As you consider their greater merits we ask you to give particular attention to their exclusive use of Bodies by Fisher.

The lastest Fisher creations set the new General Motors cars as far ahead in safety, comfort, beauty and convenience as any mechanical improvements could possibly do.

Following their traditional policy of constant improvement with no yearly models, Dodge Brothers, during the past eight months, have vastly bettered their motor cars in many vital respects.

Indeed, there has never been an equal period in Dodge Brothers history when so many refinements of a popular and fundamental nature have been made.

The public is registering its appreciation of this progressive industrial service by purchasing every motor car Dodge Brothers can build—in spite of the fact that Dodge Brothers production, during these months, has broken all previous records by an impressive margin.

the news of your home community.

DAIRYING NOW ON A VERY VAST SCALE

Wisconsin farmers have developed dairying on a vast scale. They are now patronizing 2500 cheese factories, 611 creameries, 67 condenseries and 815 receiving stations. The returns for their milk run over two hundred millions of dollars per year. This is a lot of money for a home industry. It makes banking business good, increases sales for merchants, keeps railroads busy, sells automobiles, tractors, motor trucks and provides jobs for a great many people. And it does this in the community that produced it. But this business can be immensely improved by adopting better methods of caring for milk. Improving the quality will add millions of dollars to the yearly total, and every farmer would benefit accordingly. Better quality should be the aim of every farmer in the state. That will raise prices sooner than anything else that could be done. When the consumer buys an article that is really good, he is bound to buy again and pay the price.

Following is a list of those who have built new milk houses or remodelled their old ones:

Ed. Krautkramer Alvin Westerman Peter Geip C. Fellenz Geo. Scheid L. Rosenheimer Frank Botzkovis Art. Stark Fred Schleif Otto Dorn Wm. Baumgartner A. A. Butzke Louis Opgenorth Emil Dickman

Mrs. Wm. Schmidt

Paul Fromm Anton Wiesner Benike Bros. Jac. Harter John Ebert Martin Blackmore Jos. Theusch Peter Becker Albert Prost Wenzel Holzman Clarence Thill Otto Roehl George Schleif A. A. Butzke John Botzkovis
