Current Wit and Humor

WHY PLUMBERS GET RICH

Mr. Spriggs was complaining loudly to the plumber of the high cost of plumbing.

"Well," said the plumber, "we've got to pay a man and his helper."

"But you don't need a helper for a little job like this, do you?" said Mr. Spriggs.

"No," admitted the plumber. "But, you see, it's like this. The man who goes out to your house has got to take the machine, and it ain't worth while to run the machine for just one man, so we send the helper with him."

GOING MAD

He—Personally, I think the rising generation is going mad.

She—They have nothing to get mad about. It's the older generation that's mad.

"Pie" in Politics

The camera is going strong. And in the misty by and by, they who desire applause may long for the comedian's custard pie.

Nervous

Madge—Dick is to ask father's consent this afternoon. I feel nervous about it.

Mollie—Are you afraid your father can't give his consent?

Madge—No. I'm afraid Dick won't turn up.

Politeness

Customer—It's really very kind of you to pick up the package I dropped.

New Clerk—Not at all, ma'am. We men are getting tired of being accused of being polite only to pretty girls.—Progressive Grocer.

NO RAISE FOR HIM

"Sir, my expenses at home are increasing and I am growing old in your employ, and—"

"Well, what do you expect me to do—furnish you with monkey glands?"

Indestructibility of Chatter

There was a little joke. For centuries it grew. Now, when in public spoke, it's just as good as new.

Kept It

"Why does Binks want a divorce? His wife had half a million when he married her."

"Well, she still has half a million."

Terms

"How long is it going to take us to get through this case?" asked the prisoner of his counsel just before the trial.

"Well," answered the barrister, "me—about three hours; you—about four years."

Matter of Health

"Out West it is considered healthy to 'mind your own business.'"

"I don't find that idea prevalent at the various health resorts."

An Unreliable Husband

Helen—He told me I was the prettiest and most interesting girl that he had ever met.

Gladye—And you will trust yourself for life with a man who starts to deceive you at the beginning of the courtship?

With Sauce

The pompous man demanded: "Is this a first-class restaurant?"

"Oh, yes," answered the waiter, "but we don't mind serving you."

Lucky

Brakeman—Good heavens, man! That car wheel ran over your foot! Do you mean to tell me you're not hurt?

Tramp—Nope, didn't hurt a bit. Me corn is on the other foot.

Had Her There

She—From the earliest there you men have blamed women for every evil.

He—Oh, I don't know. You'll notice that we invariably impute sin to the old Adam in us, never to the old Eve.

Standards Are Big Poultry Need

Necessity Arises Because Large Consuming Centers Are Widely Separated.

(Prepared by the United States Department of Agriculture.)

Standard grades of poultry products understood and applicable in all parts of the country are needed in the United States, asserted Rob R. Slocum of the United States Department of Agriculture, before the World's Poultry congress at Ottawa, Canada.

This necessity arises because of important areas of production and the largest consuming centers are widely separated. The United States Department of Agriculture has studied this problem in its relation to eggs and has promulgated a set of standards of quality applicable to individual eggs, the quality factors being the condition of shell, cell, germ and size and condition of air cell.

Standards as Basis.

With these standards as a basis, said Mr. Slocum, the department formulated three sets of egg grades: Haying grades, wholesale grades, and retail grades for use at country buying points, in wholesale channels, and in retail channels of trade. A study of standards and grades for live and dressed poultry has been started with a view to issuing them in the near future in tentative form.

For maintaining a standard uniform quality in different markets and for settling disputes concerning grades, the department has established inspection facilities, permissive, not compulsory. These inspections are of two kinds: Shipping point and terminal market inspection. When shipments are ready for movement, the inspection enables the shipper to describe the quality to prospective purchasers. After arrival at the market, inspection is used to settle disputes to determine the grade and condition of the commodity.

Live poultry inspections are being supervised in one market, New York city, with an annual requirement of 12,000 cars, an approximate value of \$30,000,000, practically all of which are now inspected by a supervisor and 11 licensed inspectors. Egg inspections are made in New York city, Chicago, Philadelphia, San Francisco and Petaluma, Calif., and three points in Missouri.

Three distinct arrangements. There are three distinct arrangements under which inspection services are operated: Straight federal inspection, federal-state inspection, and joint inspection. Under each arrangement, the appointment of supervisors and inspectors, and the kind of certificate issued conform to conditions of type of inspection.

Financing the inspection service also conforms to the arrangement under which it is operated. In federal inspection, fees collected are paid into the United States treasury and are

Origin of Word Chevon

Is Clearly Explained

An interesting interview was had with B. M. Halbert of Sonora on the word "chevon," and its adoption as a universal trade name for goat meat. It was through Mr. Halbert's efforts that the national contest was held and a prize of a registered Angora buck was given for the most appropriate name submitted. This contest was held by the official organ of the association, the Sheep and Goat Raisers' Magazine, of San Angelo. Twenty-five hundred names were submitted, and out of this number Mrs. E. W. Hargraves, a ranchwoman, won with the word chevon. She created the word from the two French words "chevri," (goat) and "mounton" (mountain). This was in 1922 and all the associations adopted this word as the official name, but it was not recognized by the United States Department of Agriculture until September, 1924.

Cutting Canada Thistle

by Phases of the Moon

Cutting Canada thistle by phases of the moon, signs of the zodiac, on certain mysterious dates or according to the appearance of sun spots, methods all advocated by some farmers, will not eradicate the pest, but belief in these signs sometimes has the practical value of causing the thistle to be cut before seeding, is the opinion of A. A. Hansen of the Purdue extension staff.

The most valuable sign by which to cut the pestiferous thistle is found in the flowering head. If the spiny substance is cut as soon as the heads begin to show purple, the production of seeds is usually prevented and the plant will spread but slowly. The principal means by which Canada thistles spread is the wind-distributed seeds which are frequently blown considerable distances. A single seed may thus start a new patch several hundred feet from the parent plant.

EFFECT OF SUCCULENT FEEDS ON FLAVOR AND ODOR OF MILK

Department of Agriculture Made Tests at Beltsville.

(Prepared by the United States Department of Agriculture.)

To determine whether dried beet pulp, green oats and peas, pumpkins, carrots, sugar beets, rape, soy beans and kale when fed to dairy cows impart undesirable flavors and odors to the milk, and to ascertain the best methods of feeding such crops and handling the milk, the United States Department of Agriculture has conducted feeding tests at its experiment farm at Beltsville, Md.

The cows selected for the investigations were giving milk relatively free from abnormal flavors and odors when fed a basic hay and grain ration, and varied in stage of lactation from those fresh to those nearing end of lactation period.

Besides the succulent feed the animals received, in proportion to milk produced, varying quantities of the following grain mixture: 100 pounds each of hominy feed, bran and oats and 50 pounds each of cottonseed meal and linseed meal. In addition they were given all the alfalfa hay they would readily consume. The cows were divided into groups of four each, and interchanged at intervals of four days.

Dried beet pulp soaked and fed wet one hour before milking in quantities up to 30 pounds produced but a slightly abnormal flavor and odor in the milk. The results followed the feeding of a like quantity of green oats and peas one hour before and after

Agricultural Items

Sheep are good weed killers.

Concrete makes the best kind of a dairy-stable floor.

The key to farming success is the three L's—lime, legumes and live stock.

Soy beans yield a valuable oil which is used in the manufacture of paints and varnishes.

Proper onion storage provides a free circulation of air around the individual bulbs. This is best provided by storing in slat crates.

Seed potatoes should be saved at digging time if one expects to keep his own seed supply and select it from potatoes of his own growing.

If the corn crop is late and the prospects are that the grain will not mature, prepare to cut it for silage. If you have no silo, the pit silo is easily and cheaply built, where soil conditions are favorable.

Alfalfa has been making friends rapidly in dairy sections. The large volume of hay produced, as well as the high feeding value of the hay when properly cured, makes it one of the most important feeds for the dairy cow.

In young pigs that are very fat and do not get sufficient exercise, thumps may appear. In such cases get the sow and pigs out in a clean place or gradually introduce them to a green pasture when the pigs are three to four weeks old.

When the soil is cold, fertility becomes available very slowly. Also there is considerable leaching of nitrates because of the continuous rains at this season. That is why an application of some nitrogenous fertilizer is so necessary to any growing vegetable.

The Racer

When I'm burning up the miles—every cylinder working overtime at tremendous temperatures—there's at least one thing I know won't go wrong—and that's my spark plugs. I insist on Champion.

CHAMPION Spark Plugs TOLEDO, OHIO

For your protection be sure the Champions you buy are in the original Champion cartons.

Affection's Root

Larry—She kisses you every time she asks for money? Harry—Yes, she's very affectionate.

Suppressed grief softens, it rages with the breast, and is forced to multiply its strength—W.D.

"I am going to write a book."
"What about?"
"About 50,000 words."

That's That

"Won't you join our culture club?"
"I don't care to have culture clubbed into me."

Slowing Up?

You Can't Feel Well When Kidneys Act Sluggishly.

OVERWORK, worry and lack of rest, all put extra burdens on the kidneys. When the kidneys slow up, waste poisons remain in the blood and are apt to make one languid, tired and sickly, with dull headaches, dizziness and other nagging backache.

A common warning of imperfect kidney action is scanty or burning urinations. Doan's Pills assist the kidneys in their eliminative work. Are embraced by users everywhere. Ask your neighbor!

THE FEATHERHEADS

Uh—Oh!—in Dutch Again

WOULD LEAVE HER

wary to talk. Miss Blanche, I'll leave your presence.

She (interested at once)—Oh, did you bring some presents, Mr. Softie? I was only thinking, you know.

What Editors Have to Stand

Editor (considering article)—You say here, "seems to advance, but really is as unprogressive as a clock." I don't get that.

Writer—Why, you see, a clock is running all day and yet it always winds up at the same place.

Anticipated

A dramatist was talking to a critic about himself and his work and his aims and all the rest of it.

"I have had," he said, "a whole crowd of imitators."

"Yes," said the critic, "especially beforehand."

A Likely Story

Thrift—Well, I've decided not to get that automobile.

Smith—Did somebody else hold the lucky number?

WOULD LEAVE HER

wary to talk. Miss Blanche, I'll leave your presence.

She (interested at once)—Oh, did you bring some presents, Mr. Softie? I was only thinking, you know.

What Editors Have to Stand

Editor (considering article)—You say here, "seems to advance, but really is as unprogressive as a clock." I don't get that.

Writer—Why, you see, a clock is running all day and yet it always winds up at the same place.

Pretty Things that are Made at Home

Seeing that good dressing depends so largely on accessories, it behooves one to keep adding to one's collection of pretty things. Just now the mode is quite enthusiastic over novelty trimmings of calfskin, snakeskin and the like.

ribbon) but it insures a perfect match to the fabric used, if the frock be a composite effect. Note the large brooch pinning this bow at the shoulder.

There is more enthusiasm displayed this fall for stripes than ever. That there are more ways than one of achieving stripes is evidenced throughout the mode.

Another interesting thing about these pencil stripes, they seem to challenge the imagination of the dress designer to accomplish most intricate workings of horizontal with vertical.

The wood poplin dress in the picture plays up the new stripes to perfection. It is significant of the trend of fashion that this dress is styled with a belt and buckle, for belts are high-lighted by the mode, both of self-material or of handsome metal, the latter being the newest thing out.

Utility Dress of Striped Wool Poplin.

The way one made the brocade ribbon comes some time ago. Patterns of hats are now easily obtainable. One might select a model with sectional crown or if one does not care to undertake the making of an entire hat, a band of the ribbon around one of the new stitched velvet or felt shapes would be very effective.

In their styling, are being shown in many of the leading colors such as navy, French blue, dark green, also black. Striped jersey is also a great favorite this season. Very effective two-piece frocks are made, using the stripe for the jumper, with solid-color jersey for the skirt.

Removing Label Do not tear nor wet a label on cloth. To remove it, draw the cloth one way, then the other, in a slow draw. It will soon loosen enough to be removed without harming the material or leaving much if any mark.

Felt Hat Has High Crown The vagabond-type felt hats have extremely high crowns and are creased in deep folds. There is enough material so that these folds may be as complete as the wearer pleases. This type of hat demands a rather wide brim.

RADIO

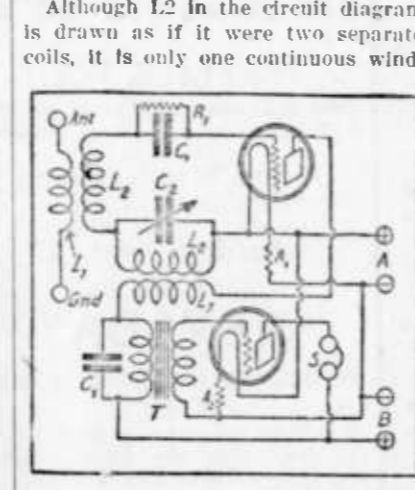

Two-Tube Set for City or Country

Distance, Volume, Selectivity Assured; Dry-Cell Tubes May Be Used.

By RODNEY VAMBRISK, in Radio News. A good little receiver for distance, volume, and selectivity is shown in the diagram. It is also well suited for portable purposes, since the entire set can be built in a small space, and dry-cell tubes, such as the 99 type, may be used.

There are only two controls, the variable condenser C1, which may be .0005, .00035 or .00025 mfd., and the tickler. The filaments are automatically adjusted with the aid of 4V-199 superettes, A1 and A2. The coils can be made or purchased. When buying, be careful to select a coil matched to the variable condenser to be used.

A cabinet which is 6 inches high, 10 inches long and about a foot deep can be used to house the parts and the batteries. Only about 5 inches of the space will be found necessary to house the tuning elements.

Circuit Diagram of Two-Tube Receiver for Home or Portable Use. Only Two Controls.

Use Speaker in City. When using the set in the city it will be found quite practical to use a speaker. The antenna should be about 75 feet in length.

Keep Filaments Normal Do not burn the filaments in the radio set brighter than normal. Nothing is gained and the life is usually shortened. If more power is required, use a larger tube.

Faulty Soldering Will Injure Paper Condenser Faulty soldering will destroy or at least permanently weaken a paper condenser quicker than any other factor.

Norway Radio Census The latest unofficial census of radio receiving sets in Norway places the number at 64,000, of which approximately 55,000 are installed in and around Oslo, and 10,000 around Bergen.

Velveteen In a gray snakeskin design, makes its appearance as the smart short jacket of a tailor that uses plain gray velveteen for the skirt.

Yellows, Browns, Reds Yellow and brown and yellow and certain autumn reds are being used advantageously in color combinations for silk ensembles.

Automatic Relay Switch Built for Small Outlay

By H. J. DANA, in Radio News. Details of construction are here given for an automatic relay switch, designed to operate under the control of the filament switch of the radio set, which will cost the average experimenter very little for materials.

Side View of Automatic 'B' Supply Switch, Which is Simple of Construction.

The other end of the armature is retained by a brass yoke which also serves as a guide. An adjustable flat spring on the armature serves to hold the contacts open when not in use. The relay contacts consist of brass machine screws, to the tips of which are soldered the alloy contacts taken from the vibrator on a Ford spark coil.

The magnet coil was found to require about 200 ampere-turns to operate the switch satisfactorily. It is also desirable to use a magnet coil which, for a radio set using six UV-199 tubes, would reduce the 'A' supply not more than one-half volt.

End Elevation of Automatic Switch, Showing Movable Contact and Armature.

FOR THE NOTEBOOK One thousand watts constitute a kilowatt. A hot room or damp places will bring about the quick end of most dry cells. Use a thin silver of wood when testing and trouble-shooting about the receiver. Never use a screwdriver.

Use a thin silver of wood when testing and trouble-shooting about the receiver. Never use a screwdriver. When working on high-tension current, it is well to have the pliers insulated with rubber hose slipped over the handle.

Always store and keep the unused vacuum tubes, standing in home-made racks or cartons, whether upright in a vertical position. Sound waves from a cone speaker, when placed in a corner, are sent out in much the same way as from a horn of large dimensions.

The receiving range of a set is less summer than in winter, due to the energy absorbed by a greater amount of sunlight as sounds travel through space. The effectiveness of the antenna system depends largely upon the character of the ground connection.

Cheap tubes consume an excessive amount of current. Never apply a soldering iron on fixed condensers so long that the plastic seal becomes fluid. Such a condition proves that a poor man is handling the soldering iron.

When a trickle charger is used, it is not necessary to remove the vent caps of the storage 'A' battery. But if the charging rate is two amperes or more, the caps should be removed.

It is folly to assume that the use of a trickling charger does away with the need for a battery hydrometer. It is a good check on the working of the charger.

spot or even an open connection chewed away by the acid. Despite the greatest care taken in the making and assembling of condenser sections, there is always the danger of improper soldering by the ultimate user of the condenser.

Nellie Maxwell And More Returns "What is the difference," asks an economist, "between a savings account and a checking account?" We know the answer to that. You can have more fun with a checking account.—Woman's Home Companion.

People to Be Avoided Mistrust the man who finds everything good; the man who finds everything evil; and still more the man who is indifferent to everything.—Lavater.

The Kitchen Cabinet

I pray you with all earnestness to prove, and know within your hearts, that all things lovely and righteous and possible for those who believe in their responsibility and who determine that, for their part, they will make every day's work contribute to them.—John Ruskin.

EVERYDAY GOOD THINGS It is quite necessary that more of our coarser grains should be used for food.

Corn Bread.—This is a recipe worth trying and each family, especially where there are growing children, should use much of the whole grain in breads and breakfast foods.

Onions in Sour Cream.—Slice the large green onions in thin slices and pour over them some rich sour cream; season with salt and cayenne and serve. Sweet cream may be used, adding a bit of lemon juice or vinegar.

New Cabbage Salad.—Chop a hard head of cabbage very fine, adding one or two onions, depending upon the size. Slice into dice a good thick slice of salt pork and fry until well browned, pour the fat and bits of pork over the cabbage and add salt and pepper to season.

Corn Omelet.—Take one cupful of fresh grated corn, four eggs, one teaspoonful of oil or butter. Separate the eggs, beating the yolks until thick, adding two tablespoonfuls of cold water, salt and pepper to taste.

Ripe Tomato and Pear Salad.—Cut small tomatoes into quarters and lay a quarter of a peeled and cored pear between each quarter. Arrange on lettuce and serve with a good French dressing.

Ripe tomatoes, pineapple and nuts is another good salad combination. Serve with mayonnaise dressing. Peach Dishes. No fruit cellar is well stocked which has not plenty of canned peaches for use as fruit or in salads during the winter.

Peach Conserve.—Take five and one-half pounds of peaches and five pounds of sugar, two oranges and one pound each of walnuts and seeded raisins. Peel the peaches, remove the stones and cut into small pieces.

Peach Tapioca.—Drain a can of peaches and sprinkle with sugar, let stand an hour; soak one cupful of tapioca one hour in cold water to cover; to the peach syrup add enough boiling water to make three cupfuls, heat to the boiling point, add the drained tapioca, a half teaspoonful of salt and one-half cupful of sugar.

Baked Peaches.—Peel, cut into halves and remove the stones from six peaches. Place in a shallow pan, fill each cavity with one teaspoonful of sugar, one-half teaspoonful of butter and a few drops of lemon juice and a grating of nutmeg. Cook twenty minutes on circular pieces of buttered toast.

Starting Right Victor—"I would go through anything with you, dear." Vera—"Let's begin with your bank account."

Make Sure of Your Corn Harvest

There is no uncertainty about corn harvest when you have a McCormick Corn Binder on the job. No matter whether the corn is tall and straight, short and crooked or tangled, McCormick Corn Binders gather all of the stalks into snug, firm bundles with even butts. Bundles are deposited on the ground without breaking ears from stalks—a detail of smooth, certain operation. In down and tangled corn the gathering points, which have a wide range, slip gently under the corn and with the aid of special down-corn elevating chains straighten it before it is cut. The knotters are the same as those used on McCormick grain binders. They tie with absolute certainty. There are many features on McCormick Corn Binders that will recommend these machines to you. Come in and let us tell you all about them.

New No. 17 Plymouth Pilgrim Ensilage Cutter

We have named this latest model Plymouth the "Pilgrim" because it incorporates the virtues of sturdiness and simplicity and retains the tried and tested original Plymouth principles of cutter construction. In over twenty-five years of building ensilage cutters we have found nothing equal in efficiency to the original Plymouth four feed roll, cylindrical cut design. The Pilgrim retains this tried, tested and perfected design and differs only from previous "Plymouths" in mechanical refinements and perfections, achieved through precision manufacturing with improved jigs and fixtures. The new Pilgrim features are: All steel construction throughout. Longer and deeper feed box. Raised edges on feeder chain slats. Unobstructed access to feeder rolls. Deeper serrated top feed roll with greater grabbing action. Sheet steel coxer over rollers. Stronger and accurately fitting side castings. Extension of knife heads outwardly and using longer knives lessening the obstruction and facilitating the entrance of the cutting material into the blower spout. Shortest and direct connection from feed cutter exit into the blower. Five fan blade blower with closely fitting blades to fan case. Flanged blower pipe connections. Adjustable deflector for changing delivery into silo. Rigid and full length channel steel truck frame. New and improved cutting bar with removable steel blade without taking out the cutting bar. Simplified gear shift feed for throwing in or out of gear, and quick change length of cut. All these features have been incorporated in the Pilgrim with no price increase. In fact, large scale manufacturing enables us to offer the Pilgrim at a price well within the reach of every farmer. Your dollar has greater purchasing power than ever before. See your dealer today.

LOCAL HAPPENINGS

Saturday, Sept. 18, 1927

—William Endlich was a Milwaukee visitor Tuesday.

—Mrs. F. E. Colvin was a Milwaukee visitor Wednesday.

—Nic. Engelman of Chicago visited relatives here Sunday.

—Otto E. Lay transacted business at Milwaukee Tuesday.

—Louis Bath and family were Milwaukee callers Saturday.

—D. M. Rosenheimer transacted business at Chicago Monday.

—Louis Schultz of Milwaukee transacted business in the village Thursday.

—Misses Ella and Celia Guth of Milwaukee spent Sunday under the parental roof.

—Carl Mertz left Monday for the Franklin Institute where he will attend school.

—Mr. and Mrs. Louis Bath and son Louis visited with relatives at Hartford Sunday.

—Mrs. Hannah Burrow attended the funeral of Mrs. Fred Meid at West Bend Monday.

—Mrs. Nic. Mayer and daughter Maggie spent Sunday with relatives at Campbellsport.

—Mr. and Mrs. John Tisa visited last week with their son Oswald and wife at Waukegan.

—Mrs. James McQueen of Barton and Mrs. G. B. Wright spent Tuesday with friends at Nabob.

—Miss Catherine Harter attended the funeral of Adam Fleischman at Campbellsport Monday.

—B. H. Rosenheimer transacted business at Chicago several days the latter part of last week.

—Alex Klug was a Milwaukee visitor Monday and on Tuesday transacted business at Manitowoc.

—Mrs. Joe Mayer of here and Mr. and Mrs. Arnold Huck of Berlin were Milwaukee visitors last Friday.

—Miss Elsie Mertz left this week for the Franklin Institute near Plymouth where she is employed as cook.

—John H. Martin and wife, Mrs. Andrew Martin and Henry Martin of Bloomer visited at Mayville Thursday.

—Mrs. Casper Brandstetter and daughter Elizabeth left Sunday for a week's visit with relatives at Glenbeulah.

—Mrs. George H. Schmidt of Chicago spent Saturday and Sunday with her parents, Mr. and Mrs. N. J. Mertes.

—Edwin H. Meyer of Milwaukee visited the past week with Mr. and Mrs. F. E. Colvin and Mrs. Frank Van Epps.

—Mr. and Mrs. Wm. Breeman spent Sunday with the J. J. Geman family at Berlin and with relatives at Wild Rose.

—Mrs. Otto H. Miller and family and Mrs. Otto E. Jockesch of Milwaukee spent Sunday with Mr. and Mrs. Jake Remmel.

—Mr. and Mrs. Louis Schaefer and family of Juneau spent Sunday with Mr. and Mrs. William F. Schultz and other relatives here.

—Mrs. Joe Eberle and daughter Lorraine spent Sunday with Mrs. Eberle's parents, Mr. and Mrs. Peter Flaseh at St. Kilian.

—Gust. Holtz and daughter and Mr. and Mrs. Herbert Holtz and son Herbert of Milwaukee spent Sunday with Mr. and Mrs. L. D. Guth.

—Mr. and Mrs. Aug. Bilgo and family, Walter Belger of here and Mr. and Mrs. Paul Belger of Boltonville spent Sunday with relatives at Fond du Lac.

—Mr. and Mrs. Edw. J. Mc Grath and daughter Mildred and Minnette Beecher of Milwaukee spent Sunday with Mr. and Mrs. Max Loeb and family.

—The following left Tuesday for Beaver Dam where they will attend Wayland Academy: Charles and Allen Miller, Ralph Kohn and Ruth Rosenheimer.

—Alois Wieter of Wayne is employed as salesman in the gent's furnishings department in the L. Rosenheimer store. He commenced his new duties on Monday.

—Mr. and Mrs. William Gehl and family of Hartford and Mr. and Mrs. Hilary Haessly and family of Theresa spent Sunday with Mr. and Mrs. Theo. Schmidt and son.

—Mr. and Mrs. Art. Peterman and family of the town of Auburn visited from Thursday till Sunday with relatives and friends at Marshfield and Greenwood, Wis.

—Mr. and Mrs. Andrew Lange and son Theodore and wife of Appleton spent Sunday with Mr. and Mrs. J. M. Ockenfels and Mr. and Mrs. Peter J. Haug and family.

—Mr. and Mrs. Simon Stoffel and family and Mr. and Mrs. Nicholas Stoffel and family were at Hartford Monday where they attended the funeral of Mrs. Simon Stoffel's father, Bernard Walter, who died at his home there last Friday.

—The first publication of the bans of marriage of Miss Agnes Stoffel and Lawrence Schmitt of Milwaukee was announced in the Holy Trinity church last Sunday.

—The month of September so far has been the hottest experienced in Wisconsin in many years. On Monday and Tuesday the thermometer registered 90 in the shade.

—Mr. and Mrs. Frank Stellpflug left Monday for a several days' visit with relatives at Chicago. While there they attended the funeral of a relative held there on Tuesday.

—Mr. and Mrs. Alvin Borchert and family and Mr. and Mrs. Henry Zastrow and daughter Irene and Mr. and Mrs. Edward Pohl of Milwaukee visited Sunday with Robert Wesenberg and family.

SAYS:

"See Mrs. K. Endlich's add elsewhere in this paper."

L. ROSENHEIMER KEWASKUM, WIS.

NOTICE TO PROVE WILL AND NOTICE TO CREDITORS

State of Wisconsin County Court, Washington County—In Probate.
In Re Estate of Christian Schaefer Sr. late of the village of Kewaskum, in said county, deceased.
Notice is hereby given, that at the special term of said court to be held on the 1st Tuesday of October, A. D. 1927, at the Court House, in the city of West Bend, County of Washington, and State of Wisconsin, there will be heard and considered the application of Louis Schaefer to admit to probate the last will and testament of Christian Schaefer Sr., deceased, and for the appointment of an executor.
And Notice is hereby further given, that up to and including the 2nd Tuesday of January, 1928, is fixed as the time within which all creditors of said Christian Schaefer Sr., deceased, shall present their claims for examination and allowance.
And Notice is hereby further given, that all such claims for examination and allowance will be examined and adjusted in said County Court at the Court House in the city of West Bend, in said County and State, on the 1st Tuesday of February, 1928.
Dated September 6, 1927.
By the Court: F. W. Bucklin, County Judge.
O'Meara & O'Meara, Attys for Petitioner.
First insertion Sept. 10, 1927.

Man to Man Banking

When the size of a bank interferes with its close, personal relationship to its clients, then the size ceases to be an asset. This institution seeks to maintain an intimate, helpful, man-to-man contact with each client it is privileged to serve. Perhaps that is why it is today, as it has been for so many years, so closely allied with the growing and successful business of the community. We welcome new accounts—it will pay you in the end to bank here.

Bank of Kewaskum

Kewaskum, Wisconsin

Meets the Banking Needs of Modern Business

Our Policy

The policy we adopted upon entering the jewelry business over 21 years ago was to sell only merchandise of proven quality and value—at prices that are fair and guarantee every article to be as represented. The many friends we have won will testify to the correctness of this policy. Are you one of them? If not, then we invite your inspection and hope we can serve you in the future. Come in today.

CHAPTER X—Continued

After breakfast Mrs. Raxon sent for her social secretary.

"Your month is up today," she said. "I do not think you need remain. I shall pay you for another month in lieu of notice."

"Why are you sending me away?" Miss Brown asked quietly.

"You ought to know," Gertrude Raxon cried. "We've watched you trying to get Robin McKimber as if you were one of our friends instead of being hired to help."

Miss Brown could even smile. "I am quite sure," she said sweetly, "that nobody who knows me would ever suspect me of being your friend."

"And you needn't apply to us for recommendations," she said to the girl. "I shall not," said Miss Brown calmly. She gave a little smile and bow and left them.

Mrs. Raxon wished she could walk like that. She was filled with a sudden sense of having acted badly. She had never let her daughters know how much she admired her social secretary.

Battle for Home Run Supremacy

Here are shown Babe Ruth (left) and his star pupil, Columbia Lou Gehrig, of the New York Yankees, who are engaged in baseball's greatest battle for home-run supremacy.

"Get 'Em Close to Hole," Is Big Secret

The late Walter Travels made the trick-shafted Schenectady putter famous and Bobby Jones is credited with doing wonders on the green with his "Calamity Jane," but, take it from Walter Hagen, there's only one secret to good putting.

Bowen Sells Tickets

Charles W. Bowen of Delphi, Ind., August 1 took over the duties of business and ticket manager for the University of Illinois Athletic association, working under the direction of Carl Lundgren, assistant director of physical welfare.

Sporting Squibs

A French doctor claims that marriage ruins boxers. Patsy Clark, putter college coach, is considered the greatest quarter-back in Illinois history.

"Champion Crank" Had Qualities as Leader

Styling himself "Champion Crank," George Francis Train led a life that places him among the foremost of American eccentric figures, yet his career shows him to have been a leader and creator of distinction.

Tallow From Trees

In Sierra Leone grows the cream-fruit tree, the fruit of which has the taste of cream and is very agreeable to the palate.

Began Great Library

The first university library in Oxford was founded in 1320 by Thomas Cobham, bishop of Worcester.

DIAMOND PICK-UPS

Dust off Stallings' title and send it to Chicago. Now it's McCarthy the Miracle Man.

Charley Root of the Cubs

Charley Root of the Cubs was the first big league pitcher to win twenty games this season.

Connie Mack explains the heavy hitting of today

Connie Mack explains the heavy hitting of today by saying the hitters have outgrown the ball parks.

At that, it begins to appear as though this Cub pennant talk is something more than just a Bear story.

Joe Berg, Chicago infielder, made his debut as a major league catcher in a recent game with the Yankees.

Detroit has purchased Walter Newman, right-handed pitcher, from the San Antonio club of the Texas league.

Clarence Mitchell, Phillies, is one of the few remaining spitballers in the major leagues. He throws left-handed.

Earl B. Clark, an outfielder from the Richmond club of the Virginia league, was purchased by the Braves for \$15,000.

A recent drive off the bat of Harry Heilmann at Detroit knocked down a zero on the scoreboard that had just been placed in position.

Walter Pettinelli, star semi-pro pitcher in San Francisco, refuses to accept any of the offers made him to play professional baseball.

Edward Mulhearn, Pittsburgh Pirate player in the late nineties, who is credited with discovering Hans Wagner, died recently in Kalamazoo.

Toronto has obtained Don Songer, left handed pitcher, from the Glants, in the deal which takes Jim Faulkner to McGraw's club. Faulkner is a left-hander.

Jack Quinn, of the Philadelphia Athletics, who recently celebrated his forty-second birthday, has the distinction of being the oldest major league player now in active service.

Johnny Kerr, second baseman for the Hollywood club in the Pacific Coast league, recently handled 12 chances in a game with Seattle, equaling the best record on the books.

Incensed by abuse directed at him by a Columbus fan, Joe Bird, Senator backstop, climbed into the bleachers after his tormentor. A fight was averted, however, when police intervened.

The Yankees look like a certainty to win the American league pennant and certainly are deadly monotonous. It is the unexpected that sets the blood moving and elevates the spirit.

Jake Pfler, property of the Toledo club, who was suspended from organized baseball in 1920, for jumping his contract to play in the Oil league of Pennsylvania, has been reinstated and reverts to the Mud Hens.

Tex Rickard is said to have approached President Steneham with a view to purchasing the Giants, but was turned down. Talk of Rickard, who started in the fore part of the meeting as an apprentice and finished with 20 winning mounts.

George W. Young of Flushing, N. Y., is the only three-letter man at Rutgers university.

Chick Evans, veteran golfer, uses square-headed clubs so that he is more certain to take hold of the club in exactly the same way every time.

Tom Armour, United States open golf champion, has been a professional for less than a year, having been engaged by the Congressional Country club of Washington, D. C., in the winter of 1920.

Jack Ogden of the Baltimore Orioles always waits to pitch the first ball of a game until Manager Jack Dunn has taken his seat on the bench.

Jack Dunn, manager of the Baltimore Internationals, announces he has traded Frank Brower, right fielder, and Cliff Jackson, pitcher, for Bucky Gaudette, Jersey City right fielder.

Hafey Socks Homer

When Needed Most "Chick" Hafey of the Cardinals may claim membership in a most select group—batters who have smashed out home runs while serving as pinch-hitters.

GABBY HARTNETT IS IMPROVING

Becomes as Good as Rated Three Years Ago.

"Gabby Hartnett is now the catcher that people thought he was three years ago," is the way one Chicago scribe explains the almost daily presence of that energetic young man in the lineup of the Cubs.

Gabby Hartnett.

ment in Hartnett's technique. Chicago's opinion is that Hartnett has improved, which is natural enough.

Bob O'Farrell was "Gabby's" run ning mate in Hartnett's first year as a Cub regular, and the fact that such an excellent catcher as O'Farrell was sidetracked so frequently for the fiery Hartnett was a chronic surprise to other clubs.

Chicago thinks he is just as good a catcher right now as the canny old Cuban, and his superior hitting gives him the call.

Took Three Sacrifices to Advance Base Runner

Frank Shulte, George Stovall, Gabby Street and Bobby Wallace were held in an old timers' reunion. It was Stovall's turn to take the floor and this is what he offered: Years ago when managing in the brush, Stovall's club had a runner on first, none out and was sorely in need of a tally.

Stovall ground his teeth when he saw a younger take a healthy wallop at the first pitch and shatter the ozone. When the same thing occurred on the next delivery, Stovall was dumfounded, but before he had recovered, the rookie had taken his final mighty cut and was en route to the bench.

Ebbets' Estate Over Million

Charles H. Ebbets, late president of the Brooklyn National league baseball club, left a gross estate of \$1,278,811.89, it is revealed by an accounting filed in the Brooklyn Surrogate's court.

FARMER WOMAN IN OKLAHOMA

Praises Lydia E. Pinkham's Vegetable Compound Because It Gave Her Health and Strength

In a sunny pasture in Oklahoma, a herd of sleek cows was grazing. They made a pretty picture. But the thin woman in the blue checked apron

One day she began taking Lydia E. Pinkham's Vegetable Compound and her general health began to improve. She took it faithfully. Now she can do her work without any trouble, sleeps well and is no longer blue and timid.

REDUCE PUFFED ANKLES

Absorbine reduces strained, puffy ankles, lymphangitis, cellulitis, boils, swellings. Stops lameness and allays pain. Heals sores, cuts, bruises, foot chafes. Does not blister or remove hair. Horse can be worked while treated. At drugists, or \$2.50 postpaid. Describe your case for special instructions. Horse look \$3-free.

ABSORBINE

TRADE MARK REG. U.S. PAT. OFF. U.S. VOUCHER NO. 114,178,179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200

Keep Stomach and Bowels Right

By giving baby the harmless, purely vegetable, infants and children's regulation, MRS. WINSLOW'S SYRUP brings astonishing, gratifying results to making baby's stomach digest food and bowels regular.

Extras

Crawford—How is it you ask so high a rental for this one-room apartment? Realtor—It includes parking privileges in our private garage for two cars.

An obstinate man does not hold opinions—they hold him.—Bishop Butler.

"BAYER ASPIRIN" PROVED SAFE

Take without Fear as Told in "Bayer" Package

Does not affect the Heart

Unless you see the "Bayer Cross" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians over twenty-five years for

Colds Headache
Neuritis Lumbago
Toothache Rheumatism
Neuralgia Pain, Pain

Each unbroken "Bayer" package contains proven directions. Handy boxes of twelve tablets cost few cents. Drugists also sell bottles of 24 and 100.

Conscientious Official

A request from C. W. Allendoerfer, school board treasurer of Kansas City, Mo., that his salary be cut \$50 a month, was approved by the board "with thanks." Mr. Allendoerfer's letter to the board merely said that the service he was giving was not worth the \$200 he was being paid.

The whole world notices when a great man doesn't keep his word.

DIURETIC STIMULANT TO THE KIDNEYS

Standard for Generations. Mrs. H. A. Brandt of Silverton, Oregon, writes us as follows: "I am writing to tell you that your Dodd's Pills and Diamond Diner Pills saved my life. After standing my urine was almost half albumen and I was so weak and tired I could hardly move. After taking two boxes of Dodd's Pills and one of Diamond Diner Pills I felt like a new woman."

Corn Brings More Money "on the Hoof"

THE best authorities agree that "hogging down" corn is a profitable practice. Run out temporary fences through your corn and turn in your hogs. They are the best of harvesters—never miss an ear. You save the cost of husking, hauling, cribbing and feeding and get your hogs to market quicker and in better condition.

And for these temporary fences, as well as for permanent fences, use Red Top steel posts. These can be driven at the rate of 200 to 300 a day, through the hardest soil, by one man using the One Man Driver. Are easily withdrawn and re-driven in a new location.

Red Top Steel Fence Posts

You will save a lot of fence making and repairing time every year if you repair old fences and make new ones with Red Top Steel Posts. Any fence erected on RED TOPS is there sound and secure for many years of service and enables you to practice the modern program of crop diversification and clear more money from your farm.

Stop in and handle a Red Top post. Let us show you why it is a better steel post.
