started off with sofa pillows and now it's flutrons and rolling pins.

**Number, Please**  
She—Now that we're engaged, dear, you'll give me a ring, won't you?  
He—Yes, certainly, darling. Er—what's your number?  
**Just Like a Brother**  
She—I can't marry you, but I'll be a sister to you.  
He—Well, sis, lend me a five spot, will you?

**John Doe, His Mark**  
Guest (to head waiter)—That roast is certainly a long time coming.  
Head Waiter—Can you recognize the man who's serving you?  
Guest—No, but here's his finger print on the soup plate.

**Plenty of Practice**  
"I understand the boss is very musical?"  
"So he should be! He's been playing second fiddle to his wife for twenty years."—Vienna Faun.

# Soy Beans Have Increased in Use

## Plant as Advanced to the Position of Major Importance in Farming.

(Prepared by the United States Department of Agriculture.)  
Increased utilization of soy beans in the last ten years has resulted in a rapid increase in acreage and production, and has advanced the crop to a position of major importance in American agriculture. The soy bean was brought to the United States from Japan and has been known here for the last 100 years. However, it is only within recent years that its real value has been recognized. It is now grown in most of the states in the eastern part of the country.

The principal use of soy beans in the United States has been as a feed for live stock. Recently, however, attention has been given to the extraction of a valuable oil contained in the seed. Another use for soy beans in this country is as a human food. These beans have been utilized for many centuries by the people of orient countries, and indications point to their wider use here as human food.

**Feeding Tests Conducted.**  
With the increased production of soy beans, definite knowledge of their feeding value for live stock was needed, and several of the state experiment stations conducted feeding tests with all kinds of live stock. Results of a number of these tests are summarized and included in a new publication of the United States Department of Agriculture, Farmers' Bulletin No. 117-F, "Soy Bean Utilization."

As a feed for live stock, the bulletin says, soy beans offer a wide range of uses. The feeding value of the seed compares favorably with that of other concentrated feeds. Soy bean hay, it has been found, may be fed profitably to all kinds of live stock. As a forage crop soy beans may be used as hay, mixed with corn and used for silage, cut and fed green, or pastured.

A feeding test at the Iowa station illustrates the value of soy beans as feed for dairy cattle. In this test cracked soy beans proved to be worth \$60 a ton when old process linseed meal was worth \$45 a ton. The beans were palatable, the report says, and had no harmful effects on the cows.

**Oil Content of Soy Beans.**  
The oil content of soy bean seed has been the basis of a new industry in sections of the country where the

beans are grown extensively. Several mills in the Mid-Western and Southern states are now crushing domestic grown beans for oil and meal. Many cottonseed oil mills in the South have been equipped to crush soy beans.

The soy bean is a legume, and is used as a soil-building crop in sections of the South and Middle West, where the soils are acid and the clovers do not grow well. It has almost displaced the "cowpea" or field pea as a soil improvement and hay crop in parts of the South.

Besides reviewing the feeding tests conducted at the experiment stations, the new bulletin discusses soy bean utilization for oil, meal, soil improvement, and as a human food. Copies of the bulletin may be obtained, as long as there is a supply available for free distribution, from the office of information, Department of Agriculture, Washington, D. C.

## Pasture Management to Increase Its Capacity

A system of pasture management which has increased the carrying capacity of grass land is being used by the Nebraska School of Agriculture at Curtis. The pasture was divided into two equal parts. The cattle are kept in one half until the grass begins to get short. Then they are turned into the other half, until the grass there gets short. The grass in the vacant field thus has an opportunity to recuperate before the cows are turned into it again.

Before the practice of rotating the pasture was started, it was overrun with weeds and the stand of grass was thin. Now, although the cattle herd has been increased in size, the pasture has become better. The weeds are practically gone and the growth of the grass is much more luxuriant.

## Clean Seeds and Fields Keep Out Noxious Weeds

No one knowingly pollutes his own well but there are still thousands of farmers seemingly but little concerned at sowing noxious weed seeds on their fields. Just as it is easier to screen out flies and mosquitoes than to keep the swatter busy, farmers find it more profitable to rebury their seeds than to spend many anxious hours trying to kill weeds already introduced. Destroying the enemy beyond the front line has always been found to be more efficient than inviting him into the trench for a hand to hand conflict.

## LIBERTY AND SPUDS AT SAME PRICE DURING GROWING SEASON

### Bugs and Insects Always Ready to Bid for Crop.

Eternal vigilance is the price, not only of liberty, but of potatoes. Whatever may be the attitude of the buyers on the potato market, bugs and insects are always ready and willing to bid for the potato crop. Early, frequent and persistent spraying is about the best answer to them, according to Dr. A. L. Pierstorff, extension plant pathologist for the Ohio State university.

"The first spray should be applied as soon as the potatoes are up or as soon as insects are found on them," says Doctor Pierstorff. "As such pressure as can be applied, up to 400 pounds, is desirable. Bordeaux mixture is the proper material, with two pounds of arsenate of lead for each 50 gallons of spray material."

"Growers should spray their potatoes at least every 10 days during the early part of the season, and every week during the latter part of July, and in August. Late potatoes need

### Grain Storage Building Made From Hollow Tile

An unusual grain storage building of hollow tile, which has the appearance of an elevator with a silo at each of the four corners, has just been erected at Iowa State college. The silo-shaped bins, three of which will hold a total of about 10,000 bushels of ear corn and the fourth about an equal amount of small grain, are so arranged that they can be filled and emptied by air hoists electrically controlled from the floor of the central structure, where are located the scale and dumping equipment, corn sheller, feed grinder, electrical equipment, etc. One corn bin has the usual hollow corn crib tile, but the other two are of solid tile walls with false bottoms to provide the necessary air circulation through the corn.

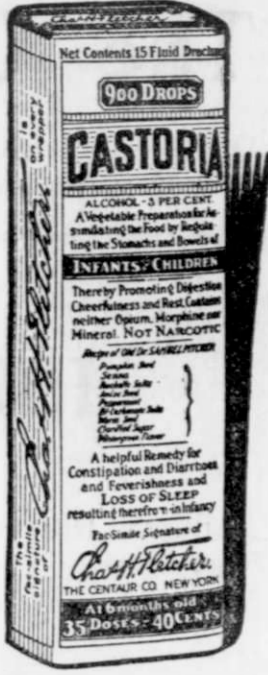

### Legumes Superior

Legume hays are not only far superior to nonlegumes in palatability, but furnish more milk making nutrients at cheaper cost. They are also superior in the quality of their protein and in the content of lime, two essential nutrients for high producing cows. When there is a deficiency of protein in the ration, as is the case where cereal grains and nonlegume roughages are fed exclusively, additional protein usually must be purchased for the animals.

### Careful With Rye

Cows should not be allowed on the rye until the land has dried enough so that they do not poach it in tramping over it. The rye should not be pastured too closely or it will injure the stand. If pastured to a reasonable extent, however, the effect will be beneficial rather than detrimental and you may harvest a full crop of rye if the cows are taken off before the heads begin to rise into the stem. A good crop of rye is well worth taking care of.

# The upsets of Children

All children are subject to little upsets. They come at unexpected times. They seem twice as serious in the dead of night. But there's one form of comfort on which a mother can always rely; good old Castoria. This pure vegetable preparation can't harm the tiniest infant. Yet mild as it is, it soothes a restless, fretful baby like nothing else. Its quick relief soon sees the youngster comfortable once more, back to sleep. Even an attack of

colic, or diarrhea, yields to the soothing influence of Castoria. Keep Castoria in mind, and keep a bottle in the house—always. Give a few drops to any child whose tongue is coated, or whose breath is bad. Continue with Castoria until the child is grown! Every druggist has Castoria; the genuine has Chas. H. Fletcher's signature on the wrapper.

**Shocking**  
And now another ideal takes a tumble when M. Pileurpet, one of the well-known Parisian designers, declares:

"The young lady who dresses in neutral tones is frequently catalogued as dowdy, quiet or demure; when more than likely, she is very clever in that she desires to fit into the color scheme of any auto that may come along."

**Unfailing Supply**  
It's easy to entertain guests in the city because you can get plenty of food just by opening a can, and plenty of music just by opening a window.—Life.

**New Atlantic Phone Cable**  
When the proposed telephone cable across the Atlantic is laid, it is understood that the American end will be landed in Newfoundland, from which point connection will be made with the Bell system in the United States. The European end, it is understood, will be landed in Ireland.—New England Utility News.

**Ultimate Judgment**  
We shall be judged, not by what we might have been, but what we have been.—Sewell.

To be always thrifty forever forbids the pleasure of freely spending money.

# Three Mothers Agree

When mother is tired, nervous or ill the whole home is upset. For her family's sake, every mother wants to be well and strong. These three women tell how Lydia E. Pinkham's Vegetable Compound helps them to care for their families.

**Mrs. H. Dolhonde,**  
6318 York St.,  
New Orleans, Louisiana  
"Before my last baby was born, I started taking Lydia E. Pinkham's Vegetable Compound. I got such good results that I named her Catherine Lydia. I have six older children and five grandchildren, too. I am now taking the Vegetable Compound again because of my age. I eat and sleep better and I do all my housework, and my washing. I will do my best to answer letters."

**Mrs. Harold Goodnow**  
36 Cane St.,  
Fitchburg, Massachusetts  
"I cannot praise your medicine enough. After my baby came I was rundown. I had to go to bed often through the day. I took three bottles of Lydia E. Pinkham's Vegetable Compound and I felt like a different woman. If any mother has those tired feelings I advise her to take Lydia E. Pinkham's Vegetable Compound."

**Mrs. Lloyd R. Blasing,**  
115 So. Ohio St.,  
Anaheim, California  
"After my baby came I was so nervous and tired that I felt miserable. One day a booklet was left at our door and after reading it I decided to try Lydia E. Pinkham's Vegetable Compound. I am now on my fourth bottle and I feel much stronger. It has helped me in every way and I feel sure that other women in rundown condition will pick up if they will only take a few bottles."

**Shampoo the CUTICURA way**  
What a delightful and healthful shampoo it gives! Amount the scalp lightly with CUTICURA OINTMENT; then make a strong lather with CUTICURA SOAP by dissolving shavings of the SOAP in hot water. Wet the hair thoroughly, then shampoo with the suds and rinse, several times, finishing with tepid or cold water. This will keep your scalp in a healthy condition, and your hair will be soft and lustrous.

**Before Planting Time, Make Sure YOUR Planter Is Right**

The McCormick-Deering "100 Series" planters combine old-time proven principles with a simplified design which insures greater accuracy, a wider range of adaptability, and easier ways of adjusting the planters to the different requirements. It has taken a number of years to perfect this combination. The result is a series of planters, which have no untried features. Their superiority lies in the manner in which these proved principles are combined and applied. The McCormick-Deering "100 Series" planters are furnished both as check-row planters and drills. The check-row planter can be quickly set for drilling, and only a moment is required to change it to power hill-drip for bunch-drop drilling. The pea-and-bean and fertilizer attachments are of an improved design, and can be quickly installed both on planters and drills. If you are looking for a planter that will plant your crops accurately and that will require minimum attention, it will pay you to ask us to demonstrate a McCormick-Deering "100 Series" planter.

**A. G. KOCH, Inc.**  
Kewaskum, Wis.

—Chas. Koepke of Minneapolis, Minn., called on W. F. Backus Wednesday afternoon.  
—WHAT A TIRE! Center traction—rubber tied cords—perfect balance. Ask your Gamble Manager to explain these points of superiority in G & J "Tires, West Bend, Wis.  
—Mr. and Mrs. Joe Sukawaty of Wayne, on Monday moved into their new residence on First street, erected by Louis Bunkelman, from whom they recently purchased same.

—Mr. and Mrs. John Mc Laughlin and daughter Dorothy of Wausau are visiting this week with Mrs. Pat Mc Laughlin and daughter Rose and other relatives and friends here.  
—You'll find a complete line of guaranteed lawn and garden equipment at Gamble's—Hoes, rakes, lawn brooms, etc. Garden hose 7c per ft. 6" Ball Bearing Lawn Mower \$7.95.

—Mr. and Mrs. L. Seers of Milwaukee and Mr. and Mrs. George Martin and daughter Georgia of West Bend visited Sunday evening with Mr. and Mrs. John H. Martin and family.  
—Mrs. MartinKnickel of Campbellsport spent Wednesday afternoon with her mother, Mrs. Elizabeth Schaefer. The latter returned home with her to visit a few days at the Knickel home.

—Mr. and Mrs. Ed. Glander of Milwaukee, Mr. and Mrs. Peter Kurtz of West Bend, Mr. and Mrs. William Erdman and family of Cedarburg visited Sunday with Mr. and Mrs. Henry Weddig.  
—Mr. and Mrs. Herman Gilbert of West Bend, Mr. and Mrs. Fred Jung and Mr. and Mrs. Dave Hilbert of Fond du Lac spent Sunday as guests of Mr. and Mrs. Hubert Wittman and son Howard.

—Mr. and Mrs. Julius Glander of Beechwood, Mr. and Mrs. Henry Schultz of New Fane and Mr. and Mrs. Elmer Moldenhauer and daughter visited Monday afternoon with Mr. and Mrs. Henry Weddig.  
—Miss Elizabeth Quade, who is an instructor of music at the Chilton high school, was at Chicago over the week-end, where she attended the national convention of music held there Friday and Saturday.

—The following were prize winners at the Schafskopf tournament at Louis Heisler's Tuesday evening: First—Clem Reinders; second—Wm. Kohn; third—Clarence Kudek; fourth—Carl Schaefer and consolation—Eldon Ramthun.  
—A number of interesting news items could not be published in last week's issue because they did not reach this office in time for publication for reason that rural mail carriers were unable to cover their routes on account of drifted roads.

—Mr. and Mrs. Louis Bath, son Louis, Miss Mary Remmel and Mrs. M. Frisch visited with Gregory Harter at the St. Agnes hospital at Fond du Lac Sunday. Gregory sustained a fractured hip and a double fracture of the leg above the ankle in a recent automobile accident.  
—Mrs. William Knickel of Milwaukee arrived here last Thursday to visit over the week-end with her sons Dalen and David, who were visitors at the home of their grand parents, Mr. and Mrs. A. A. Perschbacher last week. On Sunday their father William Knickel joined his family in a visit here for the day.

—Charles Miller, student of Lawrence College, Appleton, visited from last Thursday until Wednesday with his parents, Mr. and Mrs. Edw. C. Miller. His brother Allen, also a student of the same institution, arrived here on Monday, after visiting with several other college students at Chicago since last Thursday.  
—Those who attended the funeral of Mrs. Elizabeth Botzkovics were: Mr. and Mrs. John Hess, Mrs. Barbara Lessel, Mrs. Gene Sexton of Milwaukee, Mr. and Mrs. Nick Kohn, Mrs. Chas. Haessly, Mrs. Robert Turk of Fond du Lac, Mr. and Mrs. Emil Hanke, Mr. and Mrs. Albert Hanke, Sylvester Hanke of Antigo, John, Henry and Hattie Miller, Wynant Paulus, Mr. and Mrs. Philip Thoma of Barton and Mr. and Mrs. John Hanke of Chicago.

**New Fireproof Wood**  
One of the most important uses to which straw has been put is that of making a new kind of wood called solonite. The straw is compressed, under a pressure of 200 pounds to the square inch, in a machine which interlaces it with wire. The machine can turn out four thousand square feet of board a day, and a remarkable feature of the wood is that it is fireproof.  
**For "Flat Feet"**  
Housewives, hospital nurses, shop clerks and others menaced by "flat feet" should practice rising on the ball of the foot and sinking back on the heels slowly, several times a day, about a dozen times in succession.

**Quite an Industry**  
Tough little Frank was visiting a seacoast town, and one day on the beach an old salt said kindly, "These here are fish nets. Know how we make them?" "Sure," said Frank. "Eeny. You just take a lot of holes and sew them together."—Boston Transcript.  
**Tallest President?**  
George Washington was the tallest man who has ever been President of the United States. He was six feet three inches in height. No other President has ever been able to measure up to him, although Lincoln was only one inch shorter of the mark.

**REPORT OF KEWASKUM-FARM-INGTON D. H. I. A.**

During the month of March 438 cows were on test. There were 105 cows with forty pounds of butter fat or more. The association averaged 26.7 pounds of butter fat per cow with an average test of 3.50%  
The five high herds are:  
Carl Hayes, 14 R. A. and G. H. 47.6 pounds of butter fat, H. F. Pieper, 17 K. H., 45.8 pounds of butter fat, Wm. Jaehnic, 9 R. H., 41.7 pounds of butter fat, Ernst Schultz, 17 R. H. 39.2 pounds of butter fat and Carmen Hammen, 12 R. H. and G. H., 37.1 pounds of butter fat. The five high cows are: Albert Pade, G. H. 79.6 pounds of butter fat, Albert Pade, G. H., 72.6 pounds of butter fat, H. F. Pieper, R. H., 67.1 pounds of butter fat, Sis. of St. Francis, G. H., 65.2 pounds of butter fat, Ernst Schultz, R. H., 61.3 pounds of butter fat. Both of Mr. Pade's cows were retested. The following members had forty pound cows: H. F. Pieper 13, Martin Knickel 10, Sis. of St. Francis 2, Andrew Flisch 3, George Zehren 1, Joe Bondender 6, Al. Pade 4, Edw. Muehlis 3, Carl Hayes 15, Andrew Hayes 1, Grandman and Huff 1, August Luedtke 3, John Jung 2, Frank Simon 2, Carmen Hammen 4, Ernst Schultz 12, Ed. Gerner 5, William Mueschke 3, Carl Aurig 6, William Jaehnic 7 and L. P. Rosenheimer 2.—Paul G. Lau, Tester.

**DUNDEE**  
Ed. Zethner of Milwaukee visited Sunday with his father, Fred Zethner. Howard Gilbo of Milwaukee visited with his father Edward Gilbo and other relatives here Tuesday.  
Mr. and Mrs. H. W. Krueger and son Kermit and Mrs. Amelia Krueger spent Monday at Fond du Lac.

Lawrence Gilbo visited with his grand mother, Mrs. Regina Bauers at Campbellsport Saturday and Sunday. The Lutheran Trinity congregation will hold their quarterly meeting Friday evening, April 4th at 8 p. m. at the school house.  
Mr. and Mrs. Lester Engelman and daughter Carol Jean of Kewaskum visited Sunday with Mr. and Mrs. Oscar Hintz and family.

H. W. Krueger was a Plymouth visitor Sunday. He was accompanied home by his wife and son Kermit, who had been visiting there the past week. Mrs. John Waranus and baby Marcia, who had been visiting relatives at Michigan and Chicago the past three weeks returned home last week. Services were held at the Trinity Lutheran church Sunday at 2 p. m., in the German language. Rev. G. Kanies of town Scott preached the sermon, as the Reverend Gerhard Kanies had to officiate at a funeral in Fond du Lac Sunday afternoon. On Sunday, April 6th, there will again be services in the English language at 7:30 p. m. and Rev. Gerhard Kanies will be here.

**CEDAR LAWN**  
(Too Late For Last Week)  
Carl Sitzwohl looked after business at Plateau Park Tuesday.  
J. P. Hains of West Bend made a business trip through here Friday.  
Albert Tripp of North Osceola was an interesting caller here Saturday.  
J. F. McNamara of South Eden called here on business a few days ago.  
Richard Hodge and Gust Krueger of Campbellsport transacted business here Friday.  
Mr. and Mrs. A. L. Rosenheimer Sr. of Kewaskum were pleasant callers here Saturday.  
Mr. and Mrs. Carl Sitzwohl and children took possession of their new home at Cedar Lawn Saturday.

Henry Kraemer of Campbellsport, who represents the Winona Oil company, transacted business here Monday.  
Florence Kraemer of Fond du Lac and sister Estella Kraemer of Milwaukee visited their parents, Mr. and Mrs. F. A. Kraemer here Sunday.

"Our Prices Will Satisfy"

**MRS. K. ENDLICH KEWASKUM**  
Jeweler and Optometrist  
Established 1906

All Around WISCONSIN

Kenosha—Mrs. Francis Karschhaus sued Mrs. Anna Sasnauski for \$10,000 on a slander charge.

Bristol—After failing to kill himself by first cutting his throat with a chisel, Charles C. Castle, 45, slashed himself with a knife and then walked to a barn where he hanged himself.

Madison—The bank of Hortonville at Hortonville, capitalized at \$50,000, has been closed because of frozen assets, the state department of banking announced.

Green Bay—Because they are out of sympathy with the Russian communist "propaganda" organization known as "Pioneers," the boys' division of the Green Bay Y. M. C. A. also called themselves "Pioneers," petitioned the "P" officials to change the name.

Neenah—Men carrying burlap sacks over their shoulders and stopping at frequent intervals to pick up objects which they placed in the bags excited the curiosity of motorists along main highways and more secluded byways.

Marsfield—Delegates from Wisconsin co-operative creameries in attendance here at the state butter marketing conference called by the state department of agriculture and marketing to devise means of improving the position of the state's dairymen voted, 146 to 48, in favor of alignment with the Land of Lakes Creameries, Inc., in preference to a separate state organization.

Green Bay—Robert Verbunker, 5, burned to death with his pet dog in his arms, while his frantic parents attempted in vain to get through the flames of their burning farmhouse at Bay Settlement to rescue the child.

Green Bay—A carbide that brought soot-like pollution caused the death of Edward Kinnis, 18, senior in East high school here and one of the best all-around athletes of this region.

Neillsville—Highway 10 will be paved in its present location following a decision against relocation by the state highway commission.

Fond du Lac—Officials of the Dear Brand Hosiery Co. of Waupun, which holds a prison labor contract at the state penitentiary, have asked the state board of control to begin an action testing the constitutionality of the Hawes-Cooper law, effective about four years hence.

Madison—The Badger State Bank of Madison was ordered by Circuit Judge August E. Braun to pay \$17,500 to Charles F. Wussow, contractor, to cover with interest the total of \$50 checks to which Wussow's name had been forged and which the bank honored.

Jump River—Arthur Roeder, 33, hardware dealer here, shot and killed himself in a back room of his store while creditors waited for him in the store.

Madison—Prof. Griffith Richards, 41, associate professor of soils at the University of Wisconsin since 1919, committed suicide in his office on the agricultural campus here.

Kenosha—Joseph Kuhar, market owner, doubted the strength and security of his office safe, removing \$15,500 from the safety deposit vault and took it home with him.

Merrill—A district older boys' conference will be held here April 12 under the auspices of the Y. M. C. A. and a committee of local men.

Stevens Point—Although it is hoped the organization will never be needed, the American Red Cross has formed a disaster preparedness organization here.

Lancaster—Seventeen Grant county livestock shipping associations were represented at a meeting held here in which plans were made for the organization of a county group in the interest of better marketing.

Madison—A license permitting sale of soda water beverages is no protection under the sale of intoxicating and non-intoxicating liquors, Harry Klueger, chief chemist of the state department of agriculture and markets, has announced.

Wausau—The Wisconsin State League of Postmasters will hold their annual conference here June 19 to 21, it was decided at a meeting of the executive committee of the organization, President F. H. Colburn, Shiocton, has announced.

Milwaukee—There are 68 air fields in Wisconsin, 13 of which are municipally owned and the total value of which is approximately \$2,500,000, according to a state-wide survey just completed here by the air service bureau of the Association of Commerce.

Madison—Leonard B. Krueger, Madison, has been named senior statistician for the state tax commission, the bureau of personnel has announced.

Appleton—High school students from Fond du Lac, Oshkosh, Neenah, Menasha, Appleton, Kaukauna, Manitowish and Appleton will attend the Fox River Valley older boys' conference to be held here April 26.

Racine—Farmers of Racine and Kenosha counties announced that on account of low prices for dairy products they intend planting greater crops of sugar beets.

Madison—A grain called "proso," which really is nothing but a common variety of millet, is being sold to Wisconsin farmers at much more than its value.

Madison—Forty entries have been received for the second annual Wisconsin lamb production contest, J. J. Lacey, extension animal husbandry specialist of the University of Wisconsin, who is in charge of the event, has announced.

Madison—The Badger State Bank of Madison was ordered by Circuit Judge August E. Braun to pay \$17,500 to Charles F. Wussow, contractor, to cover with interest the total of \$50 checks to which Wussow's name had been forged and which the bank honored.

Madison—Probably the largest price ever received for a thoroughbred cow in this part of the state was paid to S. J. Hokenson, town of Ogema.

Fort Atkinson—Crossing in front of a playmate who was shooting at a target, Robert Paxton, 19, was killed at the Kenneth Scott home by Jerome Mueller.

Merrill—A district older boys' conference will be held here April 12 under the auspices of the Y. M. C. A. and a committee of local men.

ENUMERATORS START TAKING U. S. CENSUS

New Features Are Included in the 1930 Checkup. Washington—More than 100,000 enumerators are now taking the fiftieth anniversary census.

The earliest census covered only population. In the present census these will be included: unemployment, agriculture, irrigation, drainage, manufactures, mining, and distribution.

The new features of the census are those relating to distribution and unemployment. The distribution census relates to retail and wholesale trade and will be made up of statistics of goods sold by merchants and dealers and of the number of persons employed in trade.

Unemployment, considered as a separate subject of inquiry, also is new, although some of the previous censuses have included a single question asking the number of months in which persons have been unemployed during the year.

Statistics of agriculture, manufactures and mining have been collected in every decennial census since and including that of 1890. A census of manufactures is now taken every two years and a census of agriculture every five years.

The 100,000 enumerators are making a house to house canvass under the immediate direction of 574 supervisors. Each supervisor has under his charge an average of about 175 enumerators, some having as few as 30 in more sparsely settled sections of the country and others having as many as 450 in large cities.

IRISH PRESIDENT QUILTS

Dublin—After eight years as president of the executive council of the Irish Free State, a tenure of office longer than that of any present state executive in Europe, William T. Cosgrave tendered his resignation and the resignations of his cabinet in the Dail Eirann.

THIRTEEN ADDED TO WET CITIES VOTING

Pepeal of Dry Law Is Favored by Large Majority. New York—The wet tidal wave in the Literary Digest's national poll on prohibition continued in partial returns from 13 cities made public recently.

Table with 4 columns: City, Enforce, Modif., Repeal. Lists cities like Spokane, Bismarck, Norfolk, etc.

Philadelphia took a leading place among wets when 44,903 persons of 74,162 who voted there cast their ballots for repeal and 48,155 favored modification.

Illinois voters 90,659 for a change to 28,731 arguing the continuance of prohibition. Indiana, famous for its "bone dry" law, voted 29,272 for repeal or modification to 10,779 for prohibition.

French Ratify Young Plan. Paris—The chamber of deputies voted, 530 to 55, to ratify the Young plan of reparations of the war claims and the accompanying provisions for evacuation of the Rhineland.

TO EXCHANGE SEEDS FOR SURPLUS WHEAT

Plan Is to Cut Down Acreage in the Northwest. Washington—A systematic two weeks' campaign for wheat acreage reduction in the Northwest was started at Chicago at a conference between Chairman Alexander Legge of the federal farm board and Dr. John L. Coulter, chief economist of the tariff commission.

Two government officials met to make plans for a tour by Doctor Coulter through the wheat belt to sell farmers on a proposal to exchange part of their seed wheat to the farm board for flax, barley, and other seeds for planting this year.

Doctor Coulter plans to confer as rapidly as possible with state farm school men and agricultural workers in the three states mentioned. He was to hold a conference with Dean Coffee of the Minnesota Agriculture college and later with Dean Shepherd of the North Dakota Agricultural college.

Twenty Miners' Insurgents Are Dropped by Board. Indianapolis, Ind.—Twenty leaders in the insurrection movement against international officials of the United Mine Workers of America were "permanently expelled" from the organization following their failure to appear for trial before the international executive board.

Bishop Perry Made New Episcopal Church Head. Chicago—Succeeding the late Bishop Charles P. Adersson of Chicago, Bishop James De Wolf Perry of Rhode Island was elected primate of the Episcopal church in the United States at a meeting of bishops here.

Minister Candidate for Senate on Wet Platform. Boston—State Representative Roland D. Sawyer of Ware, a Congressional minister, announced his candidacy for the United States senate on an unqualified wet platform.

Why We Behave Like Human Beings

How Politicians Get "Results" WHY do we like certain poems, pictures, songs, melodies, hymns? I sat through a Georgia camp meeting and recently, the preacher exhorted and exhorted; no one came "forward."

The principle back of breaking habits is the same as that of breaking habits of substituting. Substitute anything. Sometimes it is difficult: the path may be worn too deep. Then it is a habit; if useless, a bad one; if dangerous, lock him up.

When it looks dark. One woman who once said, "I am a very nervous and excitable person. I could not sleep, would be restless all the night. I grew very thin, and lost weight." After taking a few bottles of Dr. Williams' Pink Pills for Pale People, she gained weight and was in good health.

Our ergonomic zones, as Ellis calls them, function from birth; they respond to stimuli. The baby can gurgle and coo and smile when it is tickled or contented or pleased. The hug response follows the outstretched arm movement. Just where love comes in it is not easy to say.

Light and Dark Meat. The bureau of biological survey says very little data have been compiled regarding the reason that some birds have all dark flesh and others part light and part dark. It has been observed, however, that birds in which the power of flight is well developed have more dark meat than others.

Brains and Foolishness. Give me the young man who has brains enough to make a fool out of himself.—Stevenson.

PAINTING

No matter how severe you can always have immediate relief. Bayer Aspirin stops pain quickly, does it without any ill effects, is recommended by U.S. Dept. of Health.

Kill Rats Without Pain. A New Exterminator. Won't Kill Livestock, Dogs, Cats, or even Humans.

When It Looks Dark. One woman who once said, "I am a very nervous and excitable person. I could not sleep, would be restless all the night. I grew very thin, and lost weight." After taking a few bottles of Dr. Williams' Pink Pills for Pale People, she gained weight and was in good health.

Phillips' Milk of Magnesia. Too much to eat—too rich—too fat—too much smoking—things cause our stomachs to rebel. Phillips' Milk of Magnesia will correct it quickly.

Phillips' Milk of Magnesia. Remember this for your own good. Remember this for your child's good. Endorsed by physicians, they always say Phillips' Milk of Magnesia buy something else and expect some results!

Phillips' Milk of Magnesia. Make Life Sweeter. Too much to eat—too rich—too fat—too much smoking—things cause our stomachs to rebel. Phillips' Milk of Magnesia will correct it quickly.
