

BEECHWOOD MERCHANT DIES

Oscar A. Koch, aged 51 years, 1 month and 12 days, widely known business man of Beechwood, passed away in death at his home there on Tuesday, July 23rd, 1930, at 4:15 P. M., following an illness of only two days with a hemorrhage. Mr. Koch was born June 17, 1879 in Kewaskum. At the age of one year, he moved with his parents to Beechwood, where he grew to manhood, and where he later helped his father in the mercantile business. Mr. Koch was a man of good character, congenial and industrious. He not only took an active part in the responsibilities and in the success of the Koch mercantile business in Beechwood, but was very active in the upbuilding of community affairs. Giving the best there was in him for the maintenance of his business, community and church to which he was a faithful member. Mr. Koch was a very pleasant man to meet, honest and upright, ever ready to extend the glad hand of welcome to his many friends and associates, having kind words to say to everyone and of everyone. At the time of his death he was general manager of the Koch mercantile business. The sudden and untimely death of Mr. Koch comes not only as a heavy blow to the Koch family, but as a great shock and loss to his many friends and community in which he lived. Deceased is survived by his aged mother, Mrs. Amelia Koch of Beechwood, one brother Arthur and one sister Alma (Mrs. Albert Sauter) and one sister-in-law, Mrs. Ida Koch, all of Beechwood. His father, Chas. Koch died in 1902 and one brother Edward preceded him in death thirteen years ago. The funeral will be held on Saturday, August 2nd, at 1:30 from the house and at 2:00 from the St. John's Evangelical church at Beechwood. Rev. Kucner of Silver Creek will officiate. Burial will be made in the Beechwood cemetery.

WILL CREATE AN ARTIFICIAL LAKE IN TOWN FARMINGTON

Part of the old James Hamilton farm of 40 acres, in section 20 of the town of Farmington, which was purchased last May by Arthur J. Ehne of Milwaukee, is to be converted into an artificial lake. About twenty acres of the farm are lowland, these being east and south of the old Hamilton home, and this part of the farm will be flooded, there being a considerable number of strong flowing springs just east of the old home to eventually fill the space intended to be flooded. Wm. Rees of Delafield, an excavating contractor, is now at work with a contracting crew, doing excavating and throwing up a dirt embankment, 65 feet high and 17 feet high, this to serve as a dam. The creek, which runs south out of the springs and thence east through the John Campbell farm, years ago contained many brook trout, but of late years it was fished so much that trout have become so scarce that no big catches are any longer reported.—West Bend Pilot.

CEDAR LAKE YACHT RACES

Three interesting races featured last Sunday's yacht regatta sponsored by the Cedar Lake Yacht club. Geo. Tews won the Class C race, with Leo Tews second and Goldberg brothers third. The Sprinkman brothers won the Class E event, followed by the Maxon brothers and Armin Schultz. The kitten race was captured by the Wiley brothers. Rene Von Schleinitz was second and J. Goring Jr. third.

New Fireproof Wood

One of the most important uses to which straw has been put is that of making a new kind of wood called solomite. The straw is compressed under a pressure of 200 pounds to the square inch, in a machine which interlaces it with wire. The machine can turn out four thousand square feet of board a day, and a remarkable feature of the wood is that it is fireproof.

Emergency Took Him Out

During her first week of school little Mary came home saying her teacher had told the class the story of Joseph and his coat. In repeating the story, Mary exclaimed: "Joseph's brothers put him down in a deep well and went away and left him and the 'emergency' came along and took him out of the well."

A Poor Sort of Wit

That sort of wit, which employs itself insolently in criticizing and censoring the words and sentiments of others in conversation, is absolute folly; for it answers none of the ends of conversation. He who uses it neither improves others, is improved himself, nor pleases anyone.—Franklin.

There's No Holding Ham When He Gets Started By Albert T. Reid

RENDS SOFT DRINK PARLOR AT KILIAN

O. F. Schwartz of Milwaukee, recently leased the soft drink parlor, park and dance hall at St. Kilian, formerly known as the William Kirsch place. For three weeks Mr. Schwartz has been busy engaged making necessary repairs and renovations of the entire place. He now has same in first class, "tip top" shape, and on last Saturday held his grand opening of the place. Mr. Schwartz is now ready to rent his hall for dances and other social doings and also his fine shady park for picnics, etc. The place which will go under the name of "Schwartz Tavern", is now open for inspection and Mr. and Mrs. Schwartz invite the general public to pay them a visit and get acquainted.

On Wednesday, August 6th Mr. and Mrs. Schwartz will sponsor a postponed "Kirmess Dance" at their Tavern, for which the famous and well known "Happy" and his Wisconsin Entertainers of Beaver Dam will furnish the music. The St. Kilian Kirmess dance is one which has been looked forward to in the past as the one big day of the year for St. Kilian, at which people from far and near come to spend the day, in other words, it answered the purpose of the annual home coming at which people met to shake hands and greet old time friends. There remains no doubt that since this day was not observed in its annual festivities at the park and hall the past few years, that all who are acquainted with this big day, are anxiously waiting for this big dance. Mr. and Mrs. Schwartz extend a cordial invitation to the general public to attend this annual affair.

WRESTLING MATCHES AT WEST BEND

Next Saturday evening, August 2, West Bend will have the first professional wrestling matches that have been staged in that city. Although West Bend has a number of wrestling fans the boys have always gone to Milwaukee and other cities to see matches and here is their chance to see a good match at popular prices.

Ernst Sharpege, Milwaukee's favorite, weighing 240 pounds, and Bob Jackson of Boston, another 200 pounder, will be in the feature match. Both wrestlers have gained fame by wrestling the champion heavyweights of the country and promise to give the fans real entertainment.

There will be two preliminaries, one between Charley Peterson, Swedish light heavyweight, 178 pounds, and Joe Kogut, French Canadian, at 180 pounds. And then for the opener there will be another high class preliminary. The ring will be erected on the race track in front of the grandstand. Admission for grandstand seats 50 cents, for ringside seats 75 cents. Ringside seats are on sale at the following places: Carl Wachs, Orrin Klassen, Math. Goring, Boldt's and Regner's.

WRUCKE FOR ASSEMBLYMAN

H. A. Wrucke of Campbellsport, has finally announced his candidacy for the office of Assemblyman in the second district on the Republican ticket.

He was born in 1868, on a farm near Iron Ridge, Dodge county, and grew to manhood on a farm near Horicon. He is of German parentage. At the age of four, he lost the use of his left hand from infantile paralysis.

He taught school in Dodge county for seven years, and then came to Campbellsport in 1894, and was principal of the Campbellsport school for six years.

He was justice of the peace for the town of Ashford, and later in the village of Campbellsport. He was active in the incorporation of the village, and served as its first village clerk for several years. He was clerk of the high school board for a number of terms until he resigned, and for the past twelve years has been director of the high school board. He is director of the First State Bank of Campbellsport, and is also a member of the Fond du Lac County Children's Board at the present time.

He organized the Campbellsport Mutual Fire Insurance company in 1895, and on July 30th will complete 35 years as secretary of said company. He was an active member of the county board for six years, and without fear or favor, fought out issues in open sessions on the floor. He stands for independent business and independent banking, for education, labor, a conservation program and a square deal for the farmer and the common people.

CHURCH NOTICES

Immanuel Lutheran Church, Campbellsport

Having received the necessary instructions this year's class will be confirmed at Immanuel Lutheran congregation, Campbellsport, Sunday, Aug. 3, services beginning at 2:00 p. m. at the Baptist church. The members of the class are Norman and Ella Feuerhammer, Lester Hammen, Edna Scheid, Rosina Rosenbaum, Adela Pieper, Cleatus Bartelt, Louise Kolafa and Frances Soeters.—C. J. Gutekunst, Pastor.

FROEMMING BROS. GET CONTRACT TO PAVE MAIN STREET

Froemming Bros. Construction company of Milwaukee, received the contract for paving Main street from curb to curb, according to the bids which were let on Thursday morning at 10:30 o'clock at Milwaukee. The above construction company is the same one that built highway 55 through this village several years ago. The figures handed in by the Froemming Bros. is \$17,177.11 and to finish remainder of street \$5,595.84. Information received at this office, is that work of paving the street will be started at once. The total cost including cement of the entire project will likely be between \$27,000 and \$28,000.

TO ERECT NEW FILLING STATION

A deal was recently closed whereby the Sinclair Oil company purchased a tract of land 130 x 170 feet from August Schaefer, at the intersection of Highways 55 and 28, just west of the Schaefer residence upon which the Sinclair Oil company will erect a new modern equipped filling and service station. The work of excavating has been finished and it is expected that the station will be completed in two weeks. The new structure will be 10 x 18 feet in dimensions, one story high. After the completion of the building there will be enough room left on the lot to install a grease pit and wash room for washing cars. The new station is being constructed by Gregor Doll of Milwaukee, a brother of Joe Doll, local delivery man for the Sinclair Oil company. Gregor has the past five years been employed by the Interstate Druggery company of Milwaukee. He will have complete charge of the filling station when completed. Mr. Doll is a married man and last Saturday moved his household furniture into the F. E. Colvin residence on West Water street. We wish Mr. Doll success in his new undertaking.

LEFT FOR MUNICH, GERMANY

Maude Hausmann left Tuesday for Munich, Germany, where she will enter the University of Munich to continue her studies of Ancient and Modern languages for the next year. Mrs. N. E. Hausmann accompanied her daughter Maude to New York City. On Saturday, July 26th, Dr. and Mrs. N. E. Hausmann entertained the following relatives and friends at a farewell dinner for their daughter: Judge A. C. Backus and family, Dr. Charlotte Backus, Miss Lucile Backus of Chicago, Dr. and Mrs. S. J. Seeger of Milwaukee, Dr. Wm. Hausmann Sr. and family, Dr. Wm. Hausmann Jr. and family of West Bend, Dr. G. A. Hausmann and family of Waupun and Mrs. Karl Hausmann and Dorothy Dana of Appleton.

ST. MICHAELS TRIMS BARTON

The St. Michaels baseball team trounced Barton last Sunday, 21 to 7. The Saints hit hard throughout the game and collected 20 hits off Vogel-sang, Barton hurler, while Vincent Schneider, star pitcher of the Saints, allowed only 7 hits in six innings and Al Rodenkreh allowing only two in the remaining three innings. Base stealing and triples by Al Rodenkreh, U. Schneider and two by T. Schneider featured the game. Score by innings: St. Michaels 2 1 0 1 4 5 5 2-21 Barton 0 0 2 2 2 0 1-7

Next Sunday St. Michaels will play Milwaukee at the latter place. Time of game 9:30 a. m.

What Did Referee Say?

A few days ago a woman well known in her vicinity took boxing lessons and challenged the feminine world. One day she met a hostile female who knew nothing about boxing but seized the lady boxer's hair and held on until she cried, "Enough!"—Washington Star.

BURGLARS BUSY IN VILLAGE

While all the other villages and cities have been visited by burglars, who pulled off either large or petty jobs, Kewaskum had so far been fortunate, in not being visited by these unwelcome intruders. But some time last Thursday night, burglars broke into the Schaefer Brothers garage and stole \$17.70 in change out of the cash register. No attempt was made to break into the safe upon which the cash register stands. The robbers also stole a spare tire and rim from Dr. Edward's Chevrolet sedan which was parked in front of the Republican House. Having completed these two jobs which apparently did not net them enough money to make it worth while, they then tried to break into the L. Rosenheimer store by using the same methods applied in entering the Schaefer Brothers garage, in so doing however, they were scared away when the burglar alarm went off. The unwelcome intruders entered the garage by breaking open the front door with a bar. Judging from the methods used in entering the building, the robbery committed was that of amateurs.

GOOD ATTRACTIONS AT COUNTY FAIR THIS YEAR

The officers of the County Agricultural Society announce a fine lineup of attractions for the Washington County Fair, August 15, 16 and 17 that will appeal to everyone in Washington county. Among them is a splendid revue staged by Ernie Young engaged for the evenings of August 16 and 17. A number of the leading acts on the circuits have also been contracted for the afternoon grandstand performances and another race has been added to the program so that there will be three good harness days of the Fair. Excellent rides have been engaged and concession space is being rapidly filled. Music will be of the best and local features to add to the entertainment are being provided.

That the Fair will also appeal to those interested in exhibiting and those interested in studying and observing excellence in animals in farm and garden products or in school work can be taken for granted. Premiums have been increased in several departments making it more worth while for prospective exhibitors. The educational exhibits will be displayed in a new and pleasing manner due to the fact that booths will be added to make it possible for schools to arrange their projects in a more effective style. The dairy show promises to be excellent and this year's exhibits by 4H Club members will be more numerous than ever before.

In addition to the entertainment and the array of livestock and farm products, a large and comprehensive display of machinery and equipment will be on exhibition as well as distinctly educational booths.

FINES BRING \$5,215 FROM JUNE ARRESTS

Arrests for conservation law violations during June totaled 183 of which 28 were for fishing violations; 45 for illegal trapping; 19 for hunting; 26 for setting fires and not controlling them; 4 for clamming without license; and one for impersonating a conservation warden.

The total fines amounting to \$5,215 go into the state school fund. Jail sentences imposed totaled 720 days; 7 cases were lost; 43 were dismissed or suspended; 4 men were put on probation; 9 cases are still open; and two were appealed to circuit court.

Burnett county led Wisconsin's 71 counties in the total number arrested, with 17; Sawyer was next with 11; Portage third with 9; and Marinette and Rock fourth with 8 each. Oneida county had 7 arrests; Chippewa, Columbia, Dunn, Iron, Milwaukee and Washburn each had 6; and Grant, Racine and Vilas each had 5 arrests.

Four other counties had 4 arrests; eight had 3; thirteen had 2 and six counties had one arrest.

NEW FANE

Elmer Uelmen spent the week-end at Cudahy with friends.

Lester Uelmen is spending his vacation with Mr. and Mrs. Nic Uelmen and family at St. Michaels.

COMMUNITY PICNIC GRAND SUCCESS

Over five thousand people assembled at Otto Schoenbeck's grove last Sunday to participate in the County Wide Community picnic. In spite of the high temperature, the assembly entered into the picnic spirit with zest and from 10:30 in the morning until 6:00 o'clock in the evening the park resounded to the merry making of the large group. A very interesting game of ball between Goldendale and Werner's Pond teams opened the day's festivities. The loving cup offered by the West Bend Kiwanis Club was won by Goldendale. The committee in charge of the plays and games kept the interest of the younger people alive until the lunch hour between twelve and 1:30 o'clock when every available shade tree in the grove was occupied by groups enjoying their picnic luncheon. The afternoon program began with general singing led by Professor E. B. Gordon for nearly an hour. At least two thousand took part with real zest and interest. Nearly two hundred of the boys and girls that sang at the Commencement exercises responded to the invitation of the committee and entertained the people with a group of folk songs. Immediately following the singing, Mr. Cornea, of Plymouth and general manager of the National Cheese Producers Federation, the largest co-operative marketing organization in the state, gave an instructive and interesting address on the necessity of having big farm marketing organizations to meet the competition of big private business. Mr. Cornea, the successful manager of a big business owned by farmers, had a large and interested audience. He is a pleasing speaker who makes his points clear and left many facts with dairy farmers which will be well considered in the formation of our marketing program.

At the conclusion of this address, county representatives of the Washington County Hunts Club under the direction of Jack Long, the huntsman of the club, interested the people with high jumping. Mr. M. A. Galaziski, one of Milwaukee's expert playground leaders led the young people from ten to seventeen years of age in a most interesting line of games. We very seldom have such a large number of boys and girls in one place as last Sunday. Mr. Galaziski understands his work and the plays and games commanded the attention of a very large number of the younger people.

Additional interest was contributed by the West Bend Moose Band. They were very liberal in the number of selections that they played and as usual its rendering was very much appreciated. The parking of the large number of cars was quite a task but as there was plenty space and the parking under the direction of Sheriff Theo. Holtebeck was well taken care of. Mr. Holtebeck was assisted by several of his deputies and others and there wasn't a single hitch in the parking program during the entire day.

Ed. Wernert of Allenton won the male calf offered by the County Holstein Breeders association, Ed. Wiedmeyer won the female calf donated by the same organization. Jos. Schoofs of Kewaskum and August Hoerth, also of Kewaskum, were tied for the prize given to the largest family which was a calf donated by Everts and Schmeis Bros. Each has ten children. Mr. Schoofs won the toss up and the calf. F. J. Salter of Pice county, was awarded the prize of having come the greatest distance to the picnic. Wm. Mountain, of the town of Erin, won the prize for having traveled the greatest distance in Washington county to attend the event. An interesting feature was the appearance on the platform of representatives of four generations of the Groth family of the town of Jackson ranging in age from the early Washington county pioneer of ninety-five to the husky lad of fourteen.

There is a demand for these community picnics which was shown by the large delegations present from all of the towns in the county and the committees, in charge are confident that these community picnics will be continued as an institution to promote the unity of Washington county in the future. The committees wish to thank all those who attended and all those who in any way assisted in the success of the picnic which was made by the fine spirit which was portrayed by all present.

RECORD STILL HOLDS GOOD

Dr. D. R. Edwards, assistant state veterinarian who is testing cattle here finds that the record so far established in the low percentage of reactors of cattle, still holds good. Out of 36 herds tested the past week, making a total of 610 cows, only one reactor was found.

Current Wit and Humor

THE CHAIRMAN

The boys of one of Doctor Stryker's classes at Hamilton college got a goose and tied it securely in his chair and pushed the chair under his desk, just before his expected arrival. He entered, pulled out his chair, and saw the goose occupying it.

"I beg your pardon, gentlemen," said he. "I didn't know you were having a class meeting!"—Christian Advocate.

DISPLAYED VANITY

He—That doctor is an authority on the circulation of the blood.
She—And vein of his knowledge I'd say.

A Difficulty

"It's hard for a well-meaning man The public mind to reach.
We'd rather see a ball game than Stand 'round and hear a speech.

Widow's Might

Two tramps stopped at the home of a lone widow, and one went in to beg. Very soon he came out with a black eye.

"Well, did you get anything, Jack?" asked the other.
"Yes," growled the poor sufferer, "I got the widow's might."

Serious Subject

Son—Ma, didn't pa used to have a red nose?
Ma—Yes, dear, why do you ask?
Son—It was such a funny color. What became of it?
Ma—Hush, Johnnie, your father is very sensitive. He may be terribly angry if he hears you.

James, Are You Slipping?

She—James, dear, can you see the moon?
He—Yes, my dear!
She—Oh, James! Then you don't love me any more!
He—Don't you know that love is blind?

Signs of Influence

"Do you warn lobbyists not to visit your office?"
"No," answered Senator Sorghum. "If a lobbyist never came to see me it would immediately be suspected that I had lost my influence."—Washington Star.

LEAD TO THE HEART

Visitor—You have wonderful streets here—regular arteries of trade. Where do they lead?
Native—To the heart of the town.

A Blub

Singin' in the bathtub Is done by lots of bobs. Still we can be thankful The tubs are all indoors.

For Measured Service

Mrs. Kidless—I hear the Nursemaids' union is on strike. What's it all about?
Mrs. Multikids—This time they're demanding taximeters on the babies' perambulators.

Figuratively Speaking

"They say you are a figurehead."
"Well," answered Senator Sorghum, "you'll have to admit that my campaign fund represents a pretty imposing figure."

Clean Record

Mistress—Do you think you will setle down here? You've left so many situations.
Maid—Yes, m'm. But, remember, I didn't leave any of them voluntarily.—Porthshire Constitutional.

The Struggle

"Where are you going, Jackie? Are you going fishing or are you on the way to school?"
"I don't know. I'm just fighting with my conscience."

A Connoisseur

Mr. Psmear (the artist)—I wonder if you've ever seen any of my pictures?
Mrs. Gazippe—I reckon I have. I've seen about everything on the screen; I'm a regular movie hound.

It Had Come Back

Friend—Do you think the great outstanding American poem has yet been written?
Poet—It has not only been written but it has been rejected!

LACE TRIM IS FASHION FEATURE; NEW SILHOUETTE GAINS FAVOR

IN LACE used in a trimming way designers are finding a most intriguing proposition. Not just a casual thought, a passing fancy, is this lace trimming note. Rather is it being made one of the outstanding features in dress design. With the vogue for lace used with fabric at its beginning, the prospects are that "the best is yet to be" when fall and winter fashions get into full swing.

The picture presents a very lovely printed chiffon frock. Its brilliant flower colorings contrasted by insets of exquisitely sheer black chantilly lace. This gown has one of the new explanation is that it's smart to be quaint.

When it comes to dressy dress as distinguished from sports costumes, all fashionable Paris has gone quaint and we are getting that way over here in America, too—wearing big bonnet-shaped hats and long black suede gloves and shoulder-cape effects and fichu-like collars and long skirts and short bodices with ribbon tied about the waistline. The picture tells it better than words, for each of these details is featured in this ensemble.

As to the skirt of this white-and-black crepe model, which, by the way,

Lovely Printed Chiffon Frock.

skirts with an extremely wide hemline which is fitted snugly at the hips with stitched down pleats. The latest trend among fashionists is that no matter how full a skirt be at the hemline it must contrive in some way or another to be tight fitting at the hip-line.

Evidences of a profuse use of lace made up with fabric are given in advance styles recently displayed. One very gracious gown combines black transparent velvet with black lace, using the latter for yoke, sleeves and a deep flounce on the skirt. To say that this alliance of lace and velvet is effective but mildly expresses it.

Not only is all-black lace used on black, but ecru tones are sponsored. The newest sleeves in afternoon silk frocks are of lace from the elbow down. Dresses of this fabric or that will, this fall, be lavishly detailed with lace gilets, deep revers, yokes, insets and all sorts of lace fantasies.

That charming custom of trimming with yards and yards of lace edging is a Jenny creation, the matter of it's snug-fitting hipline is highly significant. A close observation will reveal the fact that the very latest dresses make a point of a molded-to-the-figure silhouette when it comes to the tops of their skirts with hemlines accenting a super fullness. This is accomplished by means of yokes, of stitched-down pleats, godets set in below the hipline and innumerable other devices.

The idea of wearing gloves, not the time-honored buttoned types, but soft nonchanted wrinkled-at-the-wrist pull-ons, is taking a definite stand in the world of fashion. To be ungloried is to ignore an important style mandate.

So gloves it is, whether sleeves be short or long or minus. As to the washable cotton slip-on gloves in pastel tints to wear with summer frocks, counters where they are sold are being besieged by smart young things who delight in engaging in all the latest style "stunts."

As to the matter of black-and-white or white-and-black, Paris is loath to

Showing the New French Silhouette.

sewed row and row has been revived. Young girls are wearing winsome, quaint frocks with sustained enthusiasm. Among the black-and-white modes are such interesting expressions as half-lace frocks, that is, the yoke, sleeves and lower portions of the dress is of white chiffon, the rest of the gown being of black chiffon.

Especially in "first" hats for mid-season and early fall is emphasis placed on black with white.

JULIA BOTTOMLEY.
(©, 1930, Western Newspaper Union.)

Organdie Sleeves

A pink handkerchief linen dress, cut princess, with very full, flaring skirt and pointed V neck, has tiny puff sleeves of white organdie, tied half way to the elbow with narrow bands of pink linen.

Fringed Chic

A white crepe roma frock has a deep fringe winding about its irregular yoke, starting at the waistline, and swinging clear to the floor all around.

Two-Faced Hat!

Many hats that flatter are two-faced! Milliners have realized just how charming pinks, soft blues and other colors can be against the face, with black or other dark tones on top.

Square Neck

A medium blue and black printed chiffon frock has a circular double flounced skirt and a shallow, very wide square neckline that is charming.

The Kitchen Cabinet

(©, 1930, Western Newspaper Union.)
Sure he that made us with such large discourse Looking before and after, gave us not That capability and godlike reason To rust in us unused.—Shakespeare.

TEMPTING TAPIoca DISHES

In many dishes where cornstarch is used for thickening, tapioca may be substituted. Many object to cornstarch largely because it is not well cooked. Any starchy substance needs cooking to burst the starch cells and make it digestible.

The following is something new and worth trying. Cook one-third of a cupful of quick cooking tapioca with one teaspoonful of salt, one-fourth teaspoonful of pepper and two cupfuls of sealed milk in a double boiler until the tapioca is clear. Pour into small deep pan and chill thoroughly. Unmold and cut into one-third inch slices. Fry thinly sliced bacon until crisp. Remove from the pan, dip the tapioca slices in flour and fry until a golden brown. This is served with the bacon.

Cranberry Relish.—Cook one-half cupful of tapioca with one-fourth teaspoonful of salt, one-fourth cupful of raisins and one quart of cranberry juice and pulp strained and heated, for fifteen minutes in a double boiler or until the tapioca is clear, stirring frequently. Add one cupful of sugar, one-fourth cupful of walnut meats and four oranges peeled and quartered. Chill and serve as a sweet relish with fowl or meat.

Lemon Sauce.—Cook three tablespoonfuls of tapioca in two cupfuls of boiling water in a double boiler until clear, stirring frequently. Add two tablespoonfuls of butter, three-fourths of a cupful of sugar, three tablespoonfuls of lemon juice, two teaspoonfuls of grated lemon rind and eight marshmallows cut into small pieces. Serve poured over cake for pudding.

Cheese Souffle.—Cook three tablespoonfuls of tapioca in one cupful of milk until the tapioca is clear, stirring often. Add one cupful of grated cheese, stir until melted. Cool, add three beaten egg yolks, one teaspoonful of salt and three well beaten egg whites folded in at the last. Bake in a well greased baking dish, set into a pan of water. Bake until the souffle is brown and shrinks a trifle. Serve hot.

SUMMER DISHES

A salad that the children will like and contains nothing except foods good for them is the following:

Summer Fruit Salad.—Cut up a supply of any fruits and berries that are in the market, as you would for punch or fruit cup.

Oranges, apples, pineapple, grapes, cherries, peaches, pears, plums, strawberries, raspberries—are all good. Chill the fruit and just before serving mix with a sauce made of the fruit juices and sugar with a dash of lemon juice. Dissolve the sugar in the juices until a thick sirup is formed.

Asparagus Salad With French Dressing.—Use the cooked tips and chill well. Just before serving pour the following dressing: One-half teaspoonful of salt, one tablespoonful of mild vinegar, five of olive oil, one-half teaspoonful of sugar, one-fourth teaspoonful of pepper, a half teaspoonful of onion juice; mix and beat until thick and white. If all the ingredients are well chilled the dressing will keep its consistency. Serve on a nest of lettuce.

When you have a bit of pastry left over, roll it very thin and bake. When serving bananas and cream for dessert, which seems rather light, add a cupful of crumbled pastry, top with whipped cream and serve something different. Often a pastry shell cracks and is useless for holding the filling; use it in this way.

Peach Short Cake.—Sift two and one-half cupfuls of pastry flour with five teaspoonfuls of baking powder, one-half teaspoonful of salt two or three times. Cut in four tablespoonfuls of butter or other shortening and add two-thirds of a cupful of milk, very slowly mix to a soft dough. Spread the dough into two well greased pans and bake in a hot oven. Peel and slice eight ripe peaches, cover with sugar to taste. Spread one layer of the hot cake with butter, arrange the sliced peaches and cover with the other cake. Butter that and spread with peaches and top with plenty of whipped lightly sweetened cream flavored with almond.

Lamb Stew en Casserole.—Take one pound of the breast of lamb cut into small pieces, two cupfuls of tomatoes, three tablespoonfuls of quick cooking tapioca, one small carrot diced, three small onions sliced, one medium sized potato sliced, one and one-fourth teaspoonfuls of salt, one-fourth teaspoonful of pepper and two tablespoonfuls of melted butter. Mix all the ingredients in a greased casserole and bake covered one hour or until the meat is tender.

Well Defined Initiative is the main thing for which the world bestows its big prizes, both in money and in honors. And what is this thing called initiative? It is merely the doing of the right thing at the right time without being told.—Grit.

Delicacy, as it Were Scripture examination; small boy asked what he knew about Ahab and Elijah the Tishbite. Said he: "Eliza dressed in a camel's hair and went before Ahab and said, 'Behold, I am Eliza, the titbit!'"

Nellie Maxwell

Hospitality

A GENEROUS host was Thomas Jefferson. So lavish were his entertainments and so great the demands upon his hospitality that the "Sage of Monticello" became almost bankrupt. University of Virginia students recently enacted the above scene at the Jefferson mansion near Charlottesville, Va.

No matter how generous is a host today he can serve no more delicious vegetable than Monarch Golden Maize.

There was no sweet corn like Monarch Golden Maize in Jefferson's day. It is fresh, clean, sweet, tender, creamy—free from cob, husk and silk—full-bodied kernels, sun-ripened, delicious in flavor. . . but not expensive.

Sold only through independent merchants. More than 250 Monarch Quality Foods, including: Monarch Canned Fruits, Monarch Canned Vegetables, Coffee (all varieties), Cocoa, Spices, Baking Powder, Sweet Pickles, Sour Pickles, Preserved Pickles, Catsup, Chili Sauce, Preserves, Jellies, Peanut Butter, Orange Marmalade, Canned Meats, Evaporated Fruits, Canned Juice, Cooked Spaghetti, etc.

Southern France Clings to Beloved Bullfight

There are many things which distinguish the north of France from the south. The one drinks beer or cider, the other drinks wine. The one cooks with butter, the other with oil. The one eats leeks and the other garlic. Above all, writes a correspondent of the London Sunday Observer, the Midi has never quite forgiven Paris for having passed the law which makes bullfights illegal. Not that the Midi observes the law, which is openly and flagrantly defied, and the authorities dare not enforce it.

Recently, six bulls were killed on a Sunday afternoon at Beziers before an enormous crowd, and at the end of the entertainment a member of the municipal council made a speech, in which he referred to the art and the poetry to be found in the display. Other bullfights have recently taken place, or are announced, at Arles, at Nîmes, at Grasse and at Bordeaux, and there is even talk of one as near Paris as Compiègne.

English Public Schools

The public school system of England was introduced by the Foster education act of 1870. Before the public schools were introduced into England, the schools were largely denominational.

She Lost 19 Pounds of Fat in 27 Days

During October a woman in Montana wrote—"My first bottle of Kruschen Salts lasted almost 4 weeks and during that time I lost 19 pounds of fat—Kruschen is all you claim for it—I feel better than I have for years."

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one half teaspoonful of Kruschen Salts in a glass of hot water before breakfast. Be sure and do this every morning for "it's the little daily dose that takes off the fat"—Don't miss a morning. The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts is carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

If you want to lose fat with speed get an 85c bottle of Kruschen Salts from any live druggist anywhere in America with the distinct understanding that you must be satisfied with results or money back.

Fair Warning

"She said if any man kissed her without fair warning, she would scream for her father."
"What did you do?"
"I warned her."—Tit-Bits.

The average man's conscience is more elastic than his suspenders.

"Flies are Highly Dangerous"

Says The United States Public Health Service

WHEN children come down sick with typhoid or summer complaint, which kills more than 1/5 of the children who die under five, what is the cause? Often the disease has been brought into the home by flies.

Be comfortable and safe. Keep your home insect-free. Spray Flit, which is guaranteed (or money back)

Flit kills quicker if you use the special inexpensive Flit Sprayer. Insist on Flit and don't accept a substitute. Get yours this very day!

The World's Largest Selling Insect Killer

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. And this pure preparation is just as good as any other; just as bland and just as pleasant as the recipe reads.

Fletcher's CASTORIA

CHILDREN interested working with AMERICA under contract. Send for information to B. D. Gilman, 1100 Ave. Suite 110, Chicago, Ill.

Remola Skin Bleach. Wonderful and safe. Make your skin beautiful. Also cures eczema. Price \$1.25. Remola Skin Bleach. Wonderful and safe. Make your skin beautiful. Also cures eczema. Price \$1.25.

Goody Supply. Jimmy was taking a motor trip to Illinois with his father and mother.

Jimmy was taking a motor trip to Illinois with his father and mother. Each little western town through which they passed had an upward giving the name of the place, and underneath, awaiting the results of the census, the abbreviations "Pop." with a blank space for a number of inhabitants.

Jimmy served this for several hours, and he exclaimed, "Gee, isn't it funny? Every town we go through has a pop for sale."

HEALTHY COMPLEXIONS

Healthy complexions come from healthy systems. Free the body of poisons with Teen-a-mint. Effective in smaller doses. All druggists sell this safe, scientific laxative.

Teen-a-mint FOR CONSTIPATION

Hours for Sleep. The time of day appears to have become more important in influencing sleep, and that persons trying to sleep at night are more frequently upset by noise and light.

Why Not Eliminate Some? A new radio invention will bring new tones to the ear—tones that are lost. Now if some one will invent something that will lose some of the tones that beat upon the ear, the motorcycles, sand trucks and tractors may do their darnedest.

Man Is "Throw-Back". Dr. H. Barillet, a French physician, has found among his patients a "throw-back" man with the split features of an ape. X-rays reveal the split pharynx, he says.—Los Angeles Times.

Safety in Suburbs. If you live in the average city or suburban home with houses of at least equal height around you, light is apt to make you a victim only in every thousand years or so. Country Home.

What Swimming Does. Ray Hubby, champion distance swimmer, often loses five pounds in summer, but his appetite is so improved that he quickly regains his weight.—Country Home.

Rheumatism?

Quick relief from rheumatic pains without harm.

To relieve the worst rheumatic pain is every man's desire. Bayer Aspirin will do it every time! It's something you can always take. Genuine Aspirin tablets. Look for the Bayer Cross on each tablet.

The Invention of Checks

We have often felt that the inventor of checks and the modern checking account deserves great honor.

For surely it is a wonderful time-saver and convenience, and the user earns so much prestige by having a checking account.

It is easy for you to have one—we will gladly explain the few details.

RADIOS

When you buy your Radio, let it be an RCA Radiola. Why? RCA the pioneers in radio building have in 11 years demonstrated to the world the Master of Master Receivers and are classed as the leaders in the Art and Science of Radio. RCA built the first radio receiver that used Push Pull Audio, Power Detectors, Screen Grid Detector Tubes, that operated without aerial or ground, operated from Light Socket, that operated on A. C. Current, built the first Superhetrodyne Receiver, the best in Radio, and hundreds of outstanding developments. Do you know that RCA builds radios for three other famous Radio Companies? Let us sell you one of these famous sets. We have a few sets at special prices.

All Around WISCONSIN

Madison—The state will collect approximately \$100,000 from four Wisconsin lumber companies as a result of a state supreme court decision upholding the state tax commission's methods of assessing and taxing such concerns.

Madison—About 1,330 acres of commercial onions will be grown in Wisconsin this year, or a 10 per cent increase over last year. The onion industry in Wisconsin is localized quite largely in the southeastern part of the state.

Madison—The automobile driver's license of an incompetent driver may be revoked although the driver has not been arrested for any offense, the attorney general said in an opinion to District Attorney R. W. Peterson, Berlin.

Green Bay—Fearing that the competition would curtail the development of St. Norbert's college at De Pere, Catholics of the Green Bay diocese are preparing a protest against the proposed removal of Campion college, a Jesuit institution at Prairie du Chien, to Appleton.

Neenah—Neenah's tourist camp, situated on grounds adjoining the waterworks pumping plant, is to be abandoned. The common council voted to abolish the camp on recommendation of the water works commission, which showed that the camp is but little used and is a nuisance to surrounding property owners.

Madison—Only 824 out of 8,806 Wisconsin high school seniors who were graduated in June are definitely planning to end their studies, it was announced at the University of Wisconsin. Of the rest, 5,197 have selected the college or university they intend to enroll at this fall, while less than 3,000 were classified as undecided.

Chippewa Falls—The two highest herds in Wisconsin cow testing associations during June are owned by Chippewa county farmers. The herd of 11 Holsteins owned by Theodore Krueger & Son produced 1,618 pounds of milk and 61.1 pounds of fat, while the 13 registered Holsteins of J. J. Roycraft & Son averaged 1,697 pounds of milk and 58.3 pounds of fat.

Madison—Doctors are puzzled over the escape of Francis Uselman, 22, from drowning after the boy was reported submerged for 10 minutes in a watering trough on his father's farm. The lad was found unconscious with his head under the water. Police and doctors were called. After resuscitation squads worked 45 minutes, the boy revived and was apparently unharmed.

Madison—Eight young men, students at the University of Wisconsin, have started through the eastern and northern counties of the state in search of the dangerous corn borer. During the next two months these young men, assisted by eight federal men, will search through corn fields. As yet no traces of the borer have been found, but it is known to be as close as the Indiana-Illinois line to the south and near Manistique, Mich., to the north.

Green Bay—When the car in which he was riding crashed into another machine, injuring several persons, Harry Cawenbergh, this city, crawled from the wreckage and helped extricate the others and remove them to other cars and ambulances. Feeling a bit tired he went into a garage to rest a few minutes, then went home. Still feeling tired and sore the next day, he went to see a doctor. The doctor found both collarbones broken and his pelvis fractured.

Appleton—Alleging her husband contracted pneumonia and died as a result, while attending to his duties as manager of the Kaukauna municipal electric department, Mrs. J. O. Posson, Kaukauna, in a hearing before Howard F. Ohm, Wisconsin industrial commission, sought compensation for his death. She is seeking a payment under the state workmen's compensation act. Mr. Posson died about a year ago and at that time the city of Kaukauna collected \$100,000 under an insurance policy which it carried on his life.

Sturgeon Bay—Door county is to lose its "grasshopper man" and the man who this year alone saved the cherry industry hundreds of thousands of dollars by originating an oil emulsion spray that resulted in an average of 90 per cent control of the cherry case bearer. Dr. A. A. Granovsky, associate professor of entomology at the University of Wisconsin, who has done research work in Door county ever since he went to the university eight years ago as a graduate student and an instructor, Sept. 1 will leave the university to accept an associate professorship in the entomology division of the University of Minnesota's department of agriculture.

Couderay—Bert Perry, a Chippewa Indian on the Couderay Indian reservation near here, has started a damage suit against the Soo railroad for \$65,000. Bert Perry and Willie Billy Boy, another Indian, were struck by a Soo train on what is called the blueberry line near here. Their car was demolished and both men injured.

Sheboygan—Col. Fred H. Payne, assistant secretary of war, has been secured as one of the speakers for the American Legion's state department convention here August 17 to 20.

Fennimore—Two armed youths clad in striped overalls held up the Woodman State bank at Woodman and escaped with \$400 loot. Mrs. Walter Lull, wife of the cashier, who is a bookkeeper, was alone in the bank at the time of the holdup.

Green Bay—While Mrs. Harry Van Caster was in the basement getting a gallon of kerosene for her supposed customers two young men carried out two slot machines from the Van Caster store here loaded them into a car and disappeared.

THOUSANDS DEAD IN ITALY'S EARTHQUAKE

Many Injured and Homeless; Cities Destroyed. Rome, Italy.—During the past few days a series of earthquakes, tidal waves and tornadoes throughout the southern section of Italy have snuffed out the lives of thousands of people, destroyed upwards of 100 cities and towns, wiped out entire families, wrecked practically all railroads and highways and left the southern-central section of the country to cope with disease, through inability to bury all the dead and care for the injured. The damage in dollars is not to be estimated. All Italy that has not been storm swept has come to the aid of the sufferers remaining, and likewise, many other countries, including the United States, have offered help.

In addition to the variety of disasters forming the combine that has proved to be one of the worst in the world's history, snow fell unseasonably on the peaks of the Solomites, according to reports from Trento. While hundreds of bodies lie buried under the debris of their homes and other buildings, an estimate of more than 3,000 dead has been made, but is expected to increase hourly. Troops have been on the scene, as well as all available physicians and nurses, and there seems to be no reasonable estimate as to when the total number of deaths will be known.

Northeastern Italy also was a later victim of a tornado which killed and injured a number of people. The tornado tore down many buildings at Barco di Sessana, Bervesa, Selva, and Volpato, and victims are buried under the ruins. Heavy damage was caused over a stretch of 25 miles. King Victor Emmanuel visited the stricken south, where he was born, before learning of the disaster in the north. His special train stopped in Avellino province, where the worst conditions were reported.

Accompanied by Minister of Public Works Crollalanza, the ruler made an automobile tour through the area. From the bay of Naples and the Gulf of Salerno on the west almost to the Gulf of Manfredonia on the Adriatic lies a zone of devastated and stricken towns, hamlets and houses stretched like an open wound around the "ankle" of the Italian boot. At least 55 towns and villages are desolate. At Naples a gale that approached hurricane force, washing waves over the sea wall, added to the terror of the inhabitants. Many slight structures were blown down. The storm subsided as quickly as it arrived and a dreary drizzle set in.

The volcano of Pozzuola, a smoky mountain obscured by the fame of its mighty neighbor Vesuvius, was in eruption. Seismologists say it was kicked into action by earthquakes. Forbidding public subscriptions for the victims, Premier Mussolini called a council of ministers and made provisions for the aid of the victims of the disaster. It Duca is giving his entire attention to the catastrophe while relief work is under the direction of Minister of Public Works Crollalanza, who comes from the stricken area. Relief headquarters have been established at Rocchetta Santa Venera, north of Melfi, and all communications from relatives in America should be addressed there.

The stricken area has been divided into four military zones of command, and in appearance it resembles the rear of a battlefield. Trains of food, medical supplies and doctors and nurses were rushed to the area, and field hospitals and dressing stations have been set up at many places and scouting planes have been aiding the relief workers. Karachi, India.—Property losses estimated at more than \$1,000,000 were caused in this area by floods due to a rainfall of approximately six inches within 24 hours. Huge stocks of grain, sugar, and cotton have been wiped out by a tide which swirled through the streets and cut off telegraphic communication with the rest of India.

Tokyo.—An official death toll of 472 persons with indications the unknown number in the recent typhoon would number into the thousands, was reported in the returns printed in Seoul and Tokyo. Eastern Korea, especially Kogendo province, is sorely stricken. A Seoul dispatch to Rengo News agency showed the Korean losses as 390 dead, 1,493 missing and believed dead, 205 injured and 8,475 houses destroyed. Official figures for Kyushu island, southern Japan, where the typhoon struck first, showed 82 known dead, 75 missing, 425 injured, 10,500 houses destroyed, 20,787 houses damaged and 1,803 boats sunk or missing. The typhoon struck Korea while it still was suffering from the effects of floods which had killed at least 285 persons and made thousands homeless.

Russ Plan Army of 17,000,000 Moscow.—The Volunteer Defense society announced a five-year program which contemplates that Soviet Russia shall have 17,000,000 citizens participating in some phase of military or aviation activity by October 1, 1933. Judge, 81, Slain by Robbers Fond du Lac, Wis.—Cyrus Gower, eighty-one, justice of the peace at Charlton, was murdered in his home by robbers. 4,000 Russ Children Die in Camp Riga, Latvia.—The report of the death of 4,000 children from a typhoid epidemic in a concentration camp for German colonists in the Ural mountains was confirmed by letters received here. Chinese Pirate Band Exterminated Hongkong.—Government troops annihilated a band of pirates near Canton recently after a day-long fight. More than 100 pirates were killed or wounded.

HINDENBURG ENDS TOUR

President Paul von Hindenburg.

Coblentz.—The tragedy which visited Germany's peacetime celebration of the liberation of the Rhineland by the French, taking a toll of between 35 and 50 persons in the collapse of a pontoon bridge over the Moselle river here, has forced President von Hindenburg to cancel his visits to other celebrations.

DRY WEATHER, HEAT REDUCE WHEAT CROP

Yield in Northwest Is Cut About 20,000,000 Bu.

St. Paul.—Production of wheat in the northwest now promises to be a few million bushels below the crop of 1923, with a total yield of durum and spring wheat of approximately 168,000,000 bushels compared with 171,000,000 a year ago, the Farmers' Union Terminal association says in its recent report.

Heat and drought since July 1 has reduced the prospective yield by about 20,000,000 bushels and assisted the federal farm board and the Farmers' National Grain corporation in its program for reduction of overproduction, the report says. "The spring wheat and durum acreage of the four northwest states was reduced by about 900,000 acres, but this was not nearly so effective in reducing estimates of production as has the excessive heat of July."

The government estimate of spring and durum wheat production for 1930 for North Dakota was 110,000,000; Montana, almost 30,000,000 bushels; South Dakota, 28,000,000 bushels, and Minnesota 15,230,000 bushels. Deterioration this month has been severe and estimating that the loss since July 1 has been 10,000,000 bushels in North Dakota, 4,500,000 bushels in Montana and 6,000,000 bushels in South Dakota, the prospect is for a smaller yield than in 1929.

Hot, dry weather has taken heavy toll of the corn crop and other feed crops in the past two weeks, according to official and semi-official reports. From the prospect of 2,802,000,000 bushels of corn on July 1, as estimated by the government, it is feared that many millions of bushels have been lost and that the next official estimate of production may show that most of the indicated increase over last year's crop of 2,662,000,000 bushels may have been wiped out.

Burlington, Iowa.—The first large load of wheat for export left here for New Orleans when a towboat picked up the large barge containing 30,000 bushels, or 25 carloads, for the Trans-Mississippi Grain company. It is estimated that over 100,000 bushels will be shipped within the next few weeks. This grain comes by truck and rail from Iowa, Illinois and Missouri, a radius of over 100 miles from Burlington.

U. S. Will Buy Meat on Basis of Lowest Bids

Washington.—Secretary Hurley ruled that in purchasing beef for consumption in Philippine and Hawaiian stations the army must do so on the basis of lowest bids and not upon considerations of whether the bids were submitted by Americans or foreigners. In a statement the secretary pointed out the difficulties of supplying meats in the Philippine and other distant stations and said the use of cheaper beef obtained through lower bids saved some \$300,000 annually.

Seventeen N. Y. Bankers Indicted by U. S. Jury

New York.—The federal grand jury in Brooklyn indicted 17 former officials of the Long Island National Bank of America, the Elmhurst National bank of Elmhurst and the Bellport National bank of Bellport, L. I., on a charge of conspiracy. Several of the ex-officials were named in more than one of the 29 indictments returned. The banks were reported sound under their present management.

Eads, "Millionaire Hobo," Dead

Staunton, Va.—James Eads How, "millionaire hobo," died in a hospital here. His death was attributed to pneumonia "evidently superinduced by starvation." How was fifty-six years old and member of one of the wealthiest families of St. Louis.

9 Drowned When Boat Sinks

Sebastopol, Russia.—Nine persons were drowned when a small excursion boat capsized. The remaining 32 passengers were rescued.

Detroit Mayor Is Recalled

Detroit, Mich.—Charles Bowles was ousted from the office of mayor by 30,856 ballots in the recall election. His administration was repudiated in the heaviest ballot ever cast in a special election here.

Mayor Assaults Constable; Fined

Oelwein, Iowa.—T. N. Carmel, mayor of Oelwein, was fined \$50 on a charge of assault and battery. City Constable Port Hartsough was the complainant.

NAVAL TREATY PACT SIGNED BY HOOVER

President Praises Support of Political Parties.

Washington.—Lauding the London naval treaty as an earnest of international good will dispelling suspicions of American imperialism, President Hoover signed the ratification of the pact.

Secretary of State Henry L. Stimson carried the instrument of ratification from the White House to the State department for transmission to London, where it will be deposited.

"It is a matter of satisfaction that this great accomplishment in international relations has at all steps been given united support of both our political parties," said Mr. Hoover in his formal statement.

"With the ratification by the other governments the treaty will translate an emotion deep in the hearts of millions of men and women into a practical fact of government and international relations. It will renew again the faith of the world in the moral forces of good will and patient negotiation as against the blind forces of suspicion and competitive armament. It will secure the full defense of the United States. It will mark a further long step toward lifting the burdens of militarism from the backs of mankind and to speed the march forward to world peace. It will lay the foundations upon which further constructive reduction in world arms may be accomplished in the future. We should by this act of willingness to join with others in limiting armament have dismissed from the mind of the world any notion that the United States entertains ideas of aggression, imperial power, or exploitation of foreign nations."

The signing took place in the East room of the White House. Notables present included President Hoover and Vice President Curtis, Secretary Stimson, Secretary of the Navy Charles Francis Adams, Senator Joseph T. Robinson (Dem. Ark.), and Senator David A. Reed (Rep. Pa.), members of the American delegation that negotiated the treaty, and Senator James E. Watson (Rep. Ind.), majority leader of the senate; William E. Borah (Rep. Idaho), chairman, and Claude Swanson (Dem. Va.), ranking minority member of the senate foreign relations committee.

Washington.—Revision of the navy's projected warship building program to make it conform to the limitation of the London naval agreement has been ordered by Secretary of the Navy Charles Francis Adams. This program will include vessels now building, appropriated for, and authorized, as well as additional ships needed by the navy but still unauthorized by congress.

Recommendations outlining the types and numbers of ships which the navy desires included in a new naval building bill slated for introduction in congress next fall will be prepared and submitted to President Hoover by Secretary Adams. The size of the bill which will go to congress will rest largely with the President. Thus far Mr. Hoover has not definitely stated whether or not he will approve expenditure of sufficient funds to build up and maintain all the ships permitted by the treaty.

Closes Plant and Gives 700 Employees \$700,000

New Brunswick, N. J.—J. H. Michelin, tire manufacturer, offered to make available to 700 former employees a gift of \$700,000. The gift was made some time ago to employees who had worked at the company's plant in Milltown until it had closed about two months ago, but it was not to be distributed until the end of three years.

In the event the employees who would participate do not desire to take their share now Michelin said they would receive it at the end of three years with accumulated interest at 5 per cent.

Average of \$1,347 Per Head for Jersey Cattle

Toronto, Ont.—At a sale of imported and locally bred Jersey cattle on an estate at Brantford, Ontario, \$82,175 was realized on 61 head of cattle. The average price of \$1,347.10 per head was believed by the estate to be the highest of any sale in the world during the past year.

2 Dead; 17 Hurt on Roller Coaster

Omaha.—Two persons were killed and 17 were injured here when a roller coaster train at Krug park plunged off the track and dropped 35 feet to the ground.

Iowa Democrats Have Wet Plank

Des Moines, Iowa.—Iowa Democrats, in state convention, adopted a wet plank in their state platform.

Father Drowned Three Children

Martinsburg, W. Va.—The bodies of three small children of Taylor Hot, thirty-five, Martinsburg laborer, were found in a quarry hole in which the father confessed to having drowned them.

Find Woman Beaten to Death

Detroit.—The unclothed body of an unidentified woman, about thirty-five, was found in a room at a hotel here. Coroner Berg declared that the woman had been beaten to death.

Camera Told to Leave U. S.

Omaha, Neb.—Denied a six months' extension of their stay, Prima Camera, giant Italian fighter, and his French manager, Leon See, have been ordered by Washington immigration officials to vacate American shores immediately.

Girl Scouts to Be Mounted

Gerber, Calif.—A mounted troop of Girl Scouts, the third organization of the kind in the United States, is to be organized here in the near future.

ACCOMMODATION FOR DEPOSITORS WHO

As an accommodation to bank depositors who have not parked their auto, a "traffic window" has been installed by a bank in St. Louis, Mo., at which persons can do business without leaving the car.

ESTIMATING COST OF CAR FOR HOME

Where Records Are Kept Real Running Cost of Machine Easily Found.

(Prepared by the United States Department of Agriculture.) Many men do not see the advantage of other home accounts like to keep records on the cost of owning and operating their automobiles. Perhaps this is because the man of the house has more to do with the car than with other family commodities. The bureau of home economics of the United States Department of Agriculture has provided a special page for the automobile in the household account book it has designed. In the directions for keeping home accounts, the person who writes the record, whether husband or wife, is reminded of the various items which should not be overlooked in connection with owning and running the car.

Makeup of Complete Picture.

A complete picture includes not only expenditures for gas, oil, repairs, tires and other replacements, fire, theft and liability insurance, tax, license plates, care such as washing and greasing, and garage if one is rented; but also annual depreciation as shown by comparing the turn-in at the end of the year with the buying price or list value at the beginning of the year. Cars depreciate both from use or wearing of parts, and from obsolescence or style changes, even when used very little. The turn-in value of a used car often bears little relation to its mileage or the care given it. Interest paid on installment notes and loss of interest on capital invested would also be added in an exact computation.

The real running cost per mile is easily found by dividing the year's total cost for all these items by the year's total mileage. Some people reckon their cost per mile only in terms of gas, oil, and repairs or replacements. As the running cost of a car will differ but little whether one person or five ride in it, it is obviously economical for a family to use this means of transportation, especially for long or roundabout trips. It may also happen that for the sake of companionship on such trips, an automobile owner will offer to take friends with him. This is a very delightful form of hospitality which most drivers enjoy. Another plan is for four or five friends to divide among themselves the cost of a long journey. But in this case it happens quite commonly that an unintentional injustice is done the owner of the car in estimating what this cost is. The real running cost includes "overhead" as well as cash expended en route.

Running Cost Per Mile.

To illustrate: Assuming that Mr. A owns an average medium-priced car, its running cost per mile, including everything, would probably range between 6 1/2 and 7 cents. The United States government reimburses its employees using their own cars on government business on a basis of 7 cents per mile. Mr. A and four friends, taking a 500-mile trip on an expense-sharing basis should estimate the total cost at \$35, although less than \$10 may be spent for gas and oil en route. A moment's thought about convenience the fair-minded that either before or after such a trip the car would require putting into good condition; following it, washing and greasing would undoubtedly be required, the tires would be more worn even if not immediately replaced, and other expenses due to conditions of the trip might appear. While depreciation may be partly a matter of time as well as of mileage, these other costs are inescapable for the owner. The fact that his friends have had pleasure, comfort, convenience, and, after all, cheap transportation in the car, should lead to a generous point of view on their part in sharing the cost of the ride.

Junk Ancient Cars

The scrapping of rattle-trap cars, long advocated as an excellent safety move by the National Safety council, is to become a reality this year if present plans to destroy 400,000 old automobiles are carried through. That number of unfit vehicles, at a cost of about \$15,000,000, will be definitely removed from the highways this year, according to the national highway safety plan which is being sponsored by various companies in the automobile industry.

THE MOTORIST

(How Many Cars Will Be Drilled?)

Ans. Secretary of the States and Canada in 1929. Ans. Five million cars and 51 thousand trucks were produced in 1929. Production of 4,846,000 cars and 51,000 trucks were produced in 1929.

Q. How many cars were produced in 1929? Ans. Approximately 4,846,000 cars and 51,000 trucks were produced in 1929.

Q. How many cars were produced in 1929? Ans. Approximately 4,846,000 cars and 51,000 trucks were produced in 1929.
