Fifty and Fit

A MAN is as old—or as young—as his organs. At fifty, you can be in your prime. Why go along with "fairly good health" when you might be enjoying vigor you haven't felt for years?

There's a simple little thing anyone can do to keep the vital organs stimulated, and feel fit all the time. People don't realize how sluggish they've grown until they've tried it. The stimulant that will stir your system to new life is Dr. Caldwell's syrup pepsin.

This famous doctor's prescription is a delicious syrup made with fresh herbs, active senna, and pure pepsin. It starts its good work with the first spoonful.

first spoonful. That's all you need to drive away the dullness and headache of a bilious spell, and rid the system of that slow poison that saps your strength. It's better than saps your strength. It's better than habit-forming laxatives you can take it freely or give it to any child. And it isn't expensive.

Get some syrup pepsin today, and take a little tonight. Don't wait until you're sick to give your system this wonderful help. You can avoid those spells of biliousness or constipation. A spoonful every now and then is better than constant worry about the condition of your bowels, or fear of auto-intoxication as you grow older.

Dr. Caldwell's syrup pepsin protects the system. All druggists keep this preparation. Masonic Temple in Ireland What is claimed to be the first Masonic temple in Ireland has been dedicated at Crawfordburn, County Down.

LUCKY FOR HIM

There lives an old negro truck farmer in Alabama who has frequent occasion to reproach his children for their lack of industry. "Yo' suttinly is a wuthless son," he declared one day to his oldest. "It's a dog-gone good thing fo' yo' I ain't rich."

BILLOWY

Mrs. Adams—"My, how stout Bessie is, and as smiling as a summer sea." Mrs. Green—"Yes, and how billowy."

Frequent Occurrence

"As a witness I was required to promise that I would tell the whole truth!" said the indignant citizen as he was leaving the courthouse. "Of course."

Old Stuff

Percy (beaming)—Oh, I have the most glorious news! Esther (his cousin)—What is it? Percy—Peggy has promised to be my wife!

Not Plumbed

Alice was visiting her grandparents and proudly exhibited her new raincoat. "Will it turn water?" asked grandfather. "No," replied the puzzled little possessor, "I don't think there are any faucets on it."

Utility Plus

"What beautiful brown tiles you have in your bathroom!" "Yes, they are nice. My wife made them." "Your wife made them?" "Yes, she makes fudge, you know, and sometimes it gets too hard to eat."

School Methods

"What's the matter?" asked Sopnomorton of Coedna as they met on the campus. "I'm conditioned. That young history professor says I'm poor on dates." "Did you overlook one with him?"—Louisville Courier-Journal.

NOT FAST ENOUGH

Harry—"Did the horses you bet on go fast?" George—"Not as fast as my money did."

Good Proposition

"I want a book for this lad. No fiction, please; something that will help him reach good conclusions; and there must be no absurd pictures." "Hm-m," mused the book-store clerk. "How about a nice geometry?"

Correct

Professor—What is the most common impediment in the speech of American people? Freshman—Chewing gum.—Christian Advocate.

Tak! Tak!

Bobby (to guest)—Haven't you learned how to swim yet, mister? Guest—Oh, yes. Why do you ask? Bobby—Well, I just heard dad telling mother that you had a hard job keeping your head above water.

The Quiet Hours

He—If we were married, darling, the hours would roll by without our noticing them. She—Do you mean we probably wouldn't be able to afford a clock?

Responsibility

"Does your wife let you carry the latchkey?" "She compels me to carry it," replied Mr. Meekton. "I have to be sitting on the front steps waiting to open the door for her when she gets home."

Tillie the Toiler

"What did her father say when you asked him for her hand?" "He wanted to know if I could support him in the same style that she did."—Boston Transcript.

FREE CHEST CLINIC AT WEST BEND

Ruby McKenzie, R. H. County Nurse, has announced that the first of two free chest clinics to be held in Washington County in March will be held at the Court House at West Bend on Friday, March 4.

It will be conducted by the Wisconsin Anti-Tuberculosis association, under the auspices and with the aid of the Washington County Board. It will be open from 8:30 to 5 p. m. During that time free examinations for defects of the lungs and heart will be made.

"Early discovery of physical defects or diseases aids tremendously in bringing about early correction of the defects or cure of the disease," the W. A. T. A. doctors say.

"Particularly in the case of tuberculosis is early discovery essential to early recovery from the disease. Where heart disease is concerned, early discovery is very important because a person's life can be adjusted so that his defective heart is not overtaxed and many years of useful living assured."

Children under 16 years of age must be accompanied by an adult, preferably a parent, because accurate information concerning a child's past illness or possible contact with someone having tuberculosis is of great aid to the examining doctor.

Children under six years of age will not be examined unless they had close contact with someone having tuberculosis.

No treatment will be given at the clinic. All persons whose examinations reveal them to be in need of treatment or further medical advice will be referred to their own family doctors.

The health work of the W. A. T. A. is financed by the annual sale of anti-tuberculosis Christmas seals.

### McCormick-Deering 15-30

The owner of a McCormick-Deering 15-30 Tractor controls big-capacity power and the farms and profits in proportion. In these days of big machines, broad-scale operations, high labor costs, and changing needs, he has wisely gone all the way in his power investment.

The extra power of the 15-30 produces extra advantages on a score of jobs the year around. It puts more power and more accomplishment under one man's control. It is built for many years of economical operation. It is ready for your peak loads, for new machines you will buy in the future, and for the greater acreage you may want to farm.

See this modern, powerful tractor on display in our store and ask for a demonstration. We also sell the McCormick-Deering 10-20 and all-purpose Farmall.

PRISON ADDS FIFTH FARM

The state prison at Waupun has taken on another farm, which makes their fifth large project operated by honor inmates of the institution.  
 The farm recently acquired, comprises 280 acres and is located about six miles south of Waupun, in the town of Trenton, Dodge County. It is the plan of the prison to take on the land on March 1st. A crew of fifteen men will be employed at the start.

CROSS FALLS FROM CHURCH STEEPLE

The cross on the steeple of St. Francis church crashed during the high wind Thursday afternoon, and fell to the ground where it broke into pieces. The cross was made of wood and was fourteen feet in height. It was damaged beyond repair.—Cedarburg News.

RELIEF FOR THE FARMER

Farmers who find themselves short of cash or credit with which to finance their 1932 crops, can borrow money under the Reconstruction Finance Corporation Act, which provides that fifty million dollars is made available through the Secretary of Agriculture for crop-financing loans to farmers, and much more than that will be available if necessary.

These loans, Secretary Hyde announces, will be on an acreage basis and not more than \$400.00 may be borrowed by any one farmer. This money must be used for the purchase of seed and the cultivation and harvesting of crops, and loans are to be secured by liens upon growing crops.

We think this is a pretty good arrangement for two or three reasons. In the first place, it is cheap financing for farmers, the interest rate in the second place, it is likely to be only five and one-half per cent. sult in teaching a good many farmers how to use credit in the same way a business man uses it. The kind of loans with which farmers are most familiar are mortgage loans on the security of their land. And if farmers, generally, take advantage of this process, it will distribute a large amount of working money throughout all of the agricultural regions, and every dollar so distributed will contribute many times its own value to the restoration of business activity and the benefit of the community in which it circulates.

We are sorry for the farmers of Connecticut and Pennsylvania, where state laws prohibit the giving of liens upon crops. Farmers in those states will not be able to take advantage of this new line of credit. We understand that local or county agents are to be named for the handling of applications for loans under this new plan, but anyone interested can find out all about it by writing direct to the Secretary of Agriculture at Washington, D. C.

Up-to-the-Minute and Practical

Every woman wishes to be as well-dressed as possible without spending too much time or money on her clothes. That is why so many women in this community turn first to the page in this newspaper which contains the illustrated fashion articles by Miss Cherie Nicholas. For Miss Nicholas is an authority on fashions—not the freak models and the extreme styles, but the fashions in dress which the modern woman demands, those which are up-to-the-minute and at the same time economical and practical.  
 Be sure to look for these articles in each issue of this newspaper and then tell your women friends about them. They will be glad to know how they, too, can wear clothes which carry the message of the well-dressed woman.

THESE HELP SET FARM PRICES

Other things besides supply are determining farm prices today. The number of people gainfully employed, the size of factory pay rolls, the volume of business done, the foreign outlet for our products, the availability and use of credit, all affect the buying power of the consumer and more or less directly affect the price of each farm product, economists assert.  
 Every European country is in the depths of the world wide depression and is doing all in its power to reduce its imports and increase its exports. Tariff walls are being built around each country and duties on agricultural products in many instances are many times their market value in this country.

IT MAY MEAN LESS POTATOES

Potato growers are indicating an intention to plant one or two per cent less acreage to potatoes in 1932 than they did in 1931, according to information just released.  
 If the growing conditions are average, the growers in the late producing states will be faced with another season of increased supplies with no compensating improvement in demand.  
 Prices of fertilizer, other material, and labor are lower than they were a year ago, which suggests that this year's crop should be produced at a lower cash outlay than in 1931.

There has been a tendency among breeders of livestock to quibble about the kind of record—official, semi-official, herd improvement registry, or cow testing association. My proposition to you today is that the kind of record is a minor consideration. The most urgent need is to get the records and then put them to work.—Christensen before state Holstein meeting.
