18th AMENDMENT * MANY ATTEND IS REPEALED WASH. CO. MEETING

Tuesday, November 7th, closed the last gap of the Prohibition Act., although the official burial will not be nade until December 5th., when the thirty-sixth state will have officially held its convention and ratified the Twenty-first amendment which repeals the Eighteenth amendment.

In the six elections held last Tues day the following states voted for the repeal, namely: Pennsylvania, Kentucky, Ohio and Utah, South Carolina and North Carolina voted to uphold the amendment, although the vote in South Carolina was very close. These are the only two states that have voiced their favor towards the Prohibition Act. The wets scored victories in thirty-seven states. Nine states have as yet not voted upon the question. Results in these nine states will not change the

With the repeal of the Eighteenth amendment the federal government is taken out of the business of regulating the drink traffic. All it will have to content with in the future is the collecting of taxes and preventing shipments of liquor into the dry states. The collecting of the liquor taxes will be under the supervision of the internal revenue department, the same as before prohibiti.on

CHICKEN SUPPER AT THE PEACE EVANGELICAL CHURCH

The Ladies' Aid of the Peace Evangelical church will serve a chicken supper Sunday afternoon, November 19. Serving will begin at four o'clock. Admission 35 cents for adults, and 20 cents for children under twelve invited to attend.

Quite a number of the citizens from this village were at West Bend Wednesday evening where they attended the Washington County Construction Committee meeting, which was held in the Court House. The purpose of this meeting was to organize the county with the view of stimulating business and creating employment for labor

throughout the county. Hon. Michael K. Reilly, Congressman of the sixth congressional district is the State executive committeeman in the district covering the following counties: Calumet, Fond du Lac, Ozaukee,

Sheboygan, Washington and Winne-Newton W. Rosenheimer, of this vilage, and chairman of the Washington County Board of Supervisors, is chair. man of the Washington county unit of the district Mr. Rosenheimer presided at the meeting. County Clerk, Martin

W. Monroe, is secretary. Present at the meeting were Congressman Reilly, Capt. Smedberg, a construction engineer, and a represent. ative of the Federal Home Loan Mortgage Agency, who addressed the meeting, telling how a county organization should function, and what benefits would be received by the various cities,

The organization of the county construction committee is similar to the organizations of committees in other counties throughout the United States The committee appointed in this county will co-operate with committees in the adjacent counties, and the program to carry on the work will be opened simultaneously with them.

villages and townships of the county.

COPPER-COLOR SLIPPERS

By Alice Duane

©. 1933, McClure Newspaper Syndicate. WNU Service

EE HARLEY sold shoes in Stone and Bumsted's basement. It wasn't a very interesting

job. perhaps. Cheap shoes. An anxious, bargainhunting crowd. Not a very pleasant combination on Saturday afternoon. But Lee was young and pretty and, in one way and another, she found life very well worth the living.

She was an orphan, and was alone in the big city.

But she had a most congenial sort of home with Mrs. Flannagan-a motherly woman whose children were all grown up and in homes of their own and who, to fill her time and her pocketbook, rented rooms and served

meals to six or eight young shopgirls. This sort of home was a lot more to Lee's liking than renting a room, without meals, and cooking for your-

It was something like the old style boarding house-where the boarders kept tabs on each other and where the-in this case kindly-landlady

dominated over everybody's destinies. Mrs. Flannagan didn't need to charge high rates to make both ends meet nicely.

As she said to one of her married daughters who protested at the work she did: "I'd keep the house going anyway, darling, and still be out of debt on what your father left me. "But with what they pay me, I've

enough and to spare for lots of pleas-"All they actually cost me is their food, and maybe a bit here and there

for lights and what-not.' So she gave them good food and plenty of "lights and what-not" for a figure that didn't eat up all their sal-

As a consequence the girls who found a place at Mrs. Flannagan's

were indeed lucky. On the Saturday afternoon of our

story, Lee was hoping for closing time. Not because she was doing anything very exciting that night. Nor the next day, for that matter. But because of the copper-color slipper.

Once in a while a pair of really good shoes found their way downstairs from the third floor shoe department to the basement of Stone and Bumsted's. Slightly soiled or shopworn, they

were not quite right for the regular department.

They were thrown in with their cheaper sisters in the bargain base-

Like a refuge princess, perhaps, buffeted by fortune into humble life. where she must rub elbows, or heels, with those of lesser origin, The copper-color slippers had come

down while Lee was at lunch. She had found them on the table of "fives," marked \$2.98, when she

came back to the floor. Lee had recognized their quality at

their delicate lines-all proclaimed the right to expect a better place in life than Stone and Bumsted's bargain

There was a rule at Stone and Bumsted's department store which extended to the salespeople the privilege of buying anything they chose in the store on Monday mornings before the establishment opened for regular busi-

As soon as Lee laid eyes on those shoes she decided to get them the following Monday morning before they were grabbed up by one of the usual horde of bargain-seeking customers. She was making a dress-the girls

sewed together, sometimes, in Mrs. Flannagan's big bedroom, using her sewing machine and asking her helpto wear to the big Stone and Rumsted employees' dance the following Saturday evening. And the half-finished dress would be made perfect. Lee knew, if she had those slippers.

Without admitting to herself that she was doing it, Lee placed the copper-color slippers under some others. And all through the busy, trying afternoon she found time to look occasionally to see that they hadn't been

As the hours passed and a dull gleam told her harried eyes that the slippers were still on their counter, her heart lightened.

Twenty minutes to closing time. And then the blow fell.

"Oh," said a breathless, sweet voice in her ear, "could you wait on me? I've found just what I've been looking for. Just the shade. Look." Premonition in her heart, Lee

whirled around.

She faced a girl about her age and size. But a girl dressed in clothes that betokened luxury and wealth. In her white-gloved hands she held

the copper-color slippers. If she had been poor, perhaps Lee | in peat for centuries.

would not have minded so much. But this girl-this girl could pay \$25 for slippers, thought Lee, and not know it. But she dropped to her knees before one of the crowded chairs and carefully tried the shoes on the girl's shapely foot,

They fitted, perfectly. Lee took the girl's \$3-three crisp one dollar bills-and walked wearily toward the wrappers' desk. And she couldn't help it-her eyes

were blinded with tears she couldn't keep back. She collided with a good looking

young man blocking the aisle. He needn't have blocked it-that is, if Lee had not been half blinded by tears she would have had no trouble in sliding deftly around him. But as it was she walked straight into his

He turned around and looked at

"Oh, I'm so sorry," she exclaimed. You see, it's the slippers."

"The slippers?" questioned the young man, puzzled. He smiled at Lee.

"Oh, I see, the slippers." He stooped to get them from the floor where they had fallen when Lee

collided with him. "It's I who should be sorry, I amit was awkward of me to be standing-" He stopped, looking searchingly at Lee. "Why, what on earth's the matter? The slippers aren't hurt, are they? You're-'

Lee nodded miserable negative, "No -they're not hurt. I'm sorry. Excuse me, I have a customer waiting." And she tried to push past him.

But the substantial young man blocked her way, purposely, now. "Then what is it? Because I want

to know. Do they-is anybody here cross or unjust?" He had taken off his hat.

Lee liked his steady brown eyes,

his thick, straight, rather stiff hair. He looked kind and understanding, and for a moment she thought of telling him about her disappointment. "It's quite all right," she said a

little stiffly. "Everybody here is very kind and just. Pardon me, please.

"Get your package and change and then come back here," said the young man in a voice of authority. And without reasoning why she did

so, Lee obeyed him. Then he got the story out of her. But not until he had told Lee he was young Bert Bumsted, and then only because he would have blamed her tears on unkind treatment from other salespeople or department heads if she

hadn't told him.

Bert's face was smiling when she got through.

"Why that's all right," he said. "You see, one of my jobs is going about seeing that everybody is being well treated-the employees. I mean. You're new, so you hadn't seen me here before-and I don't advertise my identity. I'd rather people didn't know me, of course; makes it easier to get at what's really happening. But say, isn't it funny? I was just up in the regular shoe department and I saw another pair of those shoes ready to come down here. What size were

"Five B," murmured Lee. "Yep. Same size," and without more

words Bert Bumsted disappeared. He was back ten minutes later, a little breathless, but flushed with

Under his arm was a box, with the coveted slippers inside.

Lee knew then-well, she knew the copper-color slippers Bert brought her -for which he solemnly took three crumpled one dollar bills from her, returning two cents to her ir changewere not damaged, to be sold in the bargain basement. But she knew, too. that the spirit that prompted Bert's kindness was something too fine to be 'armed by trivial objections.

She accepted the slippers quietly, almost solemnly. But she gave Bert a sweet, shy smile as she left him that made the crowded, close basement seem like paradise in springtime to

Three months later the newspapers carried photographs of young Mr. and Mrs. Bertrand Bumsted, Jr.

It might have been noticed by a discriminating critic-in the shoe linethat the bride, pictured in a soft and becoming afternoon dress, wore a pair of slightly worn but very pretty evening slippers. But perhaps nobody noticed.

Such a radiant smile gleamed on

young Mrs. Bumsted's pretty face, and such a look of happiness glowed on her husband's, that it would have been a captious critic indeed who could have criticized her shoes. 1.700-Year-Old Mantle Found

That fashions in men's mantles have changed little since the Dark ages is

shown by a mantle found by peat diggers in a bog near Reepsholt, Germany, on the Ems-Jade canal. Its age is estimated at about 1,700 years. but the form is not much different from that of an officer's mantle today. It is astonishingly well preserved, as are objects in general that have lain

Steinmetz, Great Electrical Engineer, Exiled for Socialistic Convictions

mous electrical engineer, v born on tant are the induction regulator, the April 9, 1865, at Breslau, Germany, method of place transformation as and was educated at the Universities of Breslau and Berlin, and at the Polytechnic institute in Zurich, specializing in mathematics, chesistry, and electrical engineering. Forced to flee from Germany because of his Socialist convictions, he went first to Austria and Switzerland, and in 1889 came to the United States, where he eventually became the chief consulting engineer and head of the engineering department of the General Electric company, Schenectady, N. Y. He took an active interest in economics and politics, and though he remained a Socialist, with advancing years his views became greatly modified. In 1912 he was president of the board of education of Schenectady, and from 1916 to his death, July 19, 1923, was president of the common council.

Steinmetz's practical inventions cover the whole field of electrical appli- | verts.

Charles Proteus Steinmet:, the - I ances; among them the most imporom two phase to three phase, and the metallic electrode arc lamp. His works include "Theory and Calculation of Alternating Current Phenomena," "Theoretical Elements of Electrical Engineering." "General Lectures in 'Electrical Engineering." "Engineering Mathematics," "Electrical Discharges. Waves and Impulses," "America and the New Epoch," and "Four Lectures on Relativity and Space."

Openings at the Poles

One of the earliest Ohioans of note was John Cleves Symmes of Butler county, who (besides being a gallant officer in the United States army and in the War of 1812) advanced the theory that the earth was penetrated at the poles by openings into a habit able region within. He won world wide attention and made some con-

as broilers, this is said to be an im-

With the heavier breeds, the male

chicks may be disposed of to broiler

producing plants. Saving on brooding

Eat More Than Unthrifty

Thrifty, fast-growing chickens eat

more than the unthrifty. Heavy lay-

ers eat more than poor layers. In

neither case, however, is the differ-

ence in the quantities of feed con-

sumed as great as the difference in

the results obtained. Poor birds eat

much more proportionately than good

ones. The reason is because chicks

that grow well and hens that lay well

are birds which constitutionally are

able to make full use of all feed taken

into the system, while much of that

eaten by those which are inferior in

this respect passes through the sys

The fundamental principle in mod-

ern poultry feeding is to feed so lib

erally that not a bird in the flock will

ever be unable to get all the feed it

wants. In doing this feed is kept be-

fore the flock practically all the time.

In renewing supplies of the different

kinds of feed at regular intervals, it

is often noticed that the consumption

from day to day or from week to week

is variable. This is most noticeable

with adult stock. It is apt to be over

looked in chickens because they con-

stantly require larger amounts until

full grown. Because of this variabil-

in short periods, when taken as the

basis of computation for the full

period of growth, or for laying hens

droppings. Manure will not be car-

ried from dropping boards to nests

nor will pullets be sitting on droppings

pared with the benefits. This is worth

keeping in mind when planning the

Chicken Pox Protection

To protect from chicken pox remove

all affected birds from the flock. Put

them in a pen as far away from the

main flock as possible. See that all

stagnant water is taken away, as this

breeds mosquitoes, and these pests

transmit the chicken pox. The entire

flock should then be vaccinated with

pox vaccine by pulling five feathers

from the leg of the bird and, with a

small brush, applying the vaccine to

the holes where the feathers were

Delaying Fall Molt

It is evident that the longer the fall

molt on all of the birds can be delayed.

the higher will be the average egg pro-

duction. It is just as important, how

ever, not to go to the other extreme

and delay molt so late in the fall that

the birds do not have time to get

their new coat of feathers started be

fore cold weather sets in. The nor

mal rest period appears to be from

two to three months. The early molt

er usually takes a much longer time

to grow new feathers.

This gown is fashioned not only doing things on a big scale of heavy black crepe for the skirt. when it comes to buttons but much of The jacket blouse is of sheer black

> piece idea which is being sponsored for evening dresses. White silk pique is employed for the collar and bow. Laced fastenings are ever so smart. They are accomplished in varied ways. In the picture the model to the left carries a style-condensing message in that the jacket of this bronzebrown woolen suit is laced down the front with self-fabric cord which is drawn through decorative bronzed metal hooks or slots or whatever they might be called. The brown caracul collar and epaulets are matched with tabs of fur which finish the cord streamers

mousseline, thus stressing the two-

The good-looking suit to the right is of a knitted novelty fabric. Large metal evelets act as a closing with lacings and tie of the same material. Among other impelling style touches in the way of out-of-the-ordinary fastenings are such clever devices as safety-pin effects. They are more ornamental and jewelry-like than the prosaic utilitarian kind. In fact they make a most effective showing used in rows just like buttons,

PARISIANISM NEW BEADED EPAULETS **FASHION RELIGION**

If you want your dress to have that new look be sure its sleeves are topped with some sort of fancy epaulets. If expected bow of ribbon, give the lie it's a street dress or coat the sleeves to the sterner suggestion. Even the will be capped with tailored and stitched or braided effects. For dinner frocks of velvet, satin or other formal weaves the theme is elaborated upon via sparkling embroidered motifs such as here pictured. This velvet dress flavors of fashions of the nineties in that it has a tight bodice which tends Unlimited Possibilities to create a definite waistline and hip curves. The full sleeves are fashionably worked with elongated shoulder pieces of crystal passementerie. Rhinestone buttons finish the neckline. The ter how smart we are about copying little velvet pill-box turban sports a things-has just given birth to anothquaint ostrich tip. er novelty, which is bound to make

Laced Frocks

Lacings are a new trick in fastenings for winter frocks. One brick wool frock is laced from the waist to the high neckline with brick-colored wool lacings run through gilded loops.

Rough crepe of the "tree-bark" variety is a favorite material. Fur trimmings, particularly borders, are thoroughly in the scheme of luxschool girlishness. Quaint evening dresses of checked

BETTY MAKES A HIT

WITH HER HUSBAND'S MOTHER thanks to an amazing new Laundry Soap

MOTHER HAD THE SAME TROUBLE WITH OUR LINEN TILL SHE HEARD OF A MARVELOUS NEW LAUNDRY SOAP CALLED OXYDOL. I'LL GET RUBY TO TRY IT!

and WHEN FRANK'S MOTHER CAME TO VISIT. FRANK SHOULD BE PROUD OF YOU, MY DEAR. EVERYTHING IS PERFECT. HOW DO YOU GET YOUR LINENS TO COME OUT SO WHITE ? I HAVE RUBY USE OXYDOL, MOTHER. IT WASHES ALL WHITE THINGS 4 OR 5 SHADES WHITER!

NEW LAUNDRY SOAP DISCOVERY WELCOMED BY HOUSEWIVES

A still faster-washing soap that gets clothes 4 to 5 shades whiter yet can't hurt anything plain water won't

Washday in over a million homes has been revolution-ized by an amazing new Laundry Soap Discovery of Procter & Gamble-America's largest soap-makers. Up and down the country, it is completely changing women's ideas of quick, easy washing, safe washing, and white clothes! This remarkable invention is an utterly new-typelaundry soap. A soap that multiplies itself 500 TIMES in suds. Which means you get at least twice as much suds as from old-style soaps. A still faster-washing, still whiter-washing soap that's utterly SAFE for colors, fabrics, and hands.

This remarkable new discovery is called OXYDOL. And you'll find to your surprise that it makes other soaps Women believed they had the fastest

soap already! Then found it was slow, alongside OxydoL. For OxydoL utterly banishes boiling. It ends washboard scrubbing. It cuts soaking time to 15 minutes-gets clothes out far sooner. They believed they had the whitest

washes they could possibly get. And are now amazed by washes 4 to 5 shades whiter than before. By impartial scientific test, ONE wash-

ing with OXYDOL gets clothes whiter than 2 to 4 washes with other soaps. But that's not all!

You'll find clothes actually last longer, washed with this new soap. That the daintiest colors DO NOT fade. That it is easier on hands than any soap

ECONOMICAL

you've ever used. For no strong agents, no chemical bleaches are in Oxydol. Just pure soap elements so blended with others as to protect clothes against fading. OXYDOL simply can't hurt anything clear water won't!

DISSOLVES Dirt-In Any Water, Hard or Soft

Its creamy, "free-acting" suds dissolve dirt out in 15 minutes. No boiling, no back-breaking scrubbing is necessary. Nor any "water-softener," either. For the right amount of water-softener is already there.

Different from ordinary soaps, OxyDOL is specially fitted -"granulated," bar or flake - hopelessly out-of-date. to water conditions in each district where it is sold. The has been tested for "hardness" by

water in this district, for example, expert chemists. The OxydoL you buy here contains just the right proportion of "softener" to fit it.

With OxydoL you'll do your wash in 25% to 40% less time. You'll get a whiter, sweeter-smelling wash than ever before. Everything will iron beautifully-no soap streaks or smudges anywhere. And you'll never be bothered with fading colors or red, soapbitten hands.

These things we promise you. Whatever your former favorite, try OxydoL next time you wash. You'll never go back to slower soaps or harsher soaps again! Procter & Gamble. 33E7

MULTIPLIES ITSELF 500 TIMES IN SUDS

unlimited possibilities. Here Are Some Tips on Season's Styles

There is a very general trend to use velvet blouses with cloth suits. Velveteen is being resurrected for 1933, with its quaint suggestion of

Monotone twin sets with tweedy band trimming for both cardigan and pull-One black tulle evening gown is trimmed with a bow of baby blue and rose-striped ribbon at the waistline.

Liberal Mash Feeding

pulled.

If a hen is to lay a large number of eggs, she must have more protein than is supplied in the common mixture of grains grown on the farm. This is most easily accomplished, under ordi ary conditions, by feeding a dry mash made up of ground grains or mill by products, and in addition animal protein in the form of meat scraps or fish meal. It is common belief that ground rains can be utilized by the hen more mickly than can whole grains, so that liberal mash feeding is effective.

E. BROUGHTON

Charles E. Broughton, editor of the successful daily newspapers in the al appeals to the people of each community to support their home newspaper. His editorial which we wish would be read by everyone is as fol-

"The Wisconsin Press association is largely made up of weekly publications, but they are as important to their community as any daily published in Wisconsin. If the people of each of these communities were alert to their own interest, they would see that their home newspapers were given 100 percent support. Nothing can replace the weekly, alert as it is to the needs of its subscribers. Dailies in larger cities may invade communities where these weekly publications are issued, but if you are going to choose between the two, stick to your weekly. You lesen its value to the community when you cancel a subscription. The writer has always contended that the weekly not only has this place, but that it is needed in every community in order that service may be adequately rendered. The daily can never furnish those home happenings that are vital to the home and fireside. Wisconsin owes more to its weekly press that it does to all the dailies combined for the pub. lishers, sensing the importance of their work, have made a valuable contribu-

Some Important Factors in Farm Situation Are Easily Overlooked (By Chris. L. Christensen)

In considerating the present farm situation it is well to keep clearly in mind certain facts which have a very ship of farm conditions to our entire economic life. Here are a few that are easily overlooked or forgotten:

Agriculture has been asked to go upon a program of national self-sufficiency. The problem of dairying differs essentially from other major branches of agriculture in that our dairy production is approximately in balance with consumtive needs. In any governmental plan of raising domestic price levels above world price levels the dairymen will need immediate protection from competing imports.

For the past 75 or 100 years, it has peen the policy of the national governto encourage development of certain branches of American agriculturenotably cotton, wheat, corn, hogs and tobacco-not only to meet domestic requirements but also to have avail-

ed by the government, have added, and are adding, farms and farm acreages which are competing, and will compete, with present farm plants The farm dollar has shrunk to such

point as to make farm indebtedness wholly out of line with farm incomes

products which are very perishable, whereas the farmers of the grain and cotton states produce products which may be held in storage for considerable

Things which farmers sold were in June on a level of 64 per cent of prefarmers buy were in June on a level of 103 per cent of pre-war levels and in September of 116 per cent. In other words, prices of things farmers buy are moving up much faster than what

FARMERS MONEY AHEAD WHEN POOR COWS SOLD DAIRY RECORDS SHOW

Even with the market unfavorable to the dairymen, there is still an advantage in carefully weeding out the poor

An example of this was found in a recent report of a Wisconsin Dairy er Sterr of Knowles and Mr. and Mrs. Herd Improvement association In one herd, 26 cows were being kept that had son of Mr. and Mrs. Henry Ramthun, duct from the entire 26 cows amounted

The funeral was held Sunday after- his herd and then feeding the best have had at least 15 tons of hav to sell for cash and very likely could have sold some grain also, the report showed.

> REGULATION UP TO STATES Regulation of the sale and consump.

tion of liquor wil be entirey up to the individual state governments, some o which will permit it without control while others prohibit it under any cir umstances.

With the Eightennth amendment all supporting legislation enacted since 1920 is wiped off the statuted books. revived by the passing of the national prohibition is the Webb-Kenyon law enacted in 1913 to protect dry states. It remains in force and will make unliquor into states where local laws ferbid it. This law will be enforced by the department of justice of the United

ments will be dead except for the Disterritories. The Jones enforcement law beer law, both of which were amendments to the Volstead law also die a natural death.

L HARVESTER has perfected a new alle, roller-bearing truck which is a remarkable _\$61 f. o. b. Chicago.

McCormick-Deering All-Purpose Truck is derd use behind either tractor or horses. Tractor ipment, horse tongue is available, and the he made in a minute. Track is standard, wheelbase from 84 in. to 126 in., and the truck will take any or other standard equipment.

steel swivel-reach coupling makes the truck extremely taking care of any rough going. Front wheels are ng, and they clear the wagon box on short turn. The tionally strong wheels are dust-proof, fitted with take-up ers, and with Zerk oiling system. Roller bearings (two on axle) make lightest draft ever found in a wagon.

every possible detail is right in this sturdy McCormickg truck-it is "all-purpose" in every sense. It will haul hing anywhere for a horse farmer or a power farmer.

We have this new ALL-PURPOSE TRUCK on display at our store, ready for your inspection. You will find it a remarkable value at \$61 f.o.b. Chicago.

Mighest Paid Short Fiction Writer

CANNIE HURST to the I highest paid short story writer in the world today. There's a good-reason for that. She knows human nature and under the magic of her touch, the people about whom she writes become real people, not mere literary creations. The plots of her stories are based on incidents from real life as it is lived every day by the common people.

Such are the stories which are appearing in this newspaper. He sure to read them and talk your friends about them, for they like interesting stories, toe. And Fannie Hurst's ties are interesting stories.

Badger State « Happenings »

Janesville - Kenneth McFarlane, pheasant farmer near here, recently sold 1,500 pheasants to a hunting club in New Jersey.

Milwaukee - Embezzlement of \$11,-500 in five days from the Hill's department store here was charged in a warrant issued for Miss Helen Nowakowski, 22-year-old missing cashier.

Clintonville-A clinic will be held late in November for crippled children of Shawano and Waupaca counties. Children of surrounding counties are invited to attend for orthopedic in-

Madison-Gov. Schmedeman has announced the appointment of Frank A. Yindra, Manitowoc, to the state board of accountancy to succeed Lloyd W. Birkett, Milwaukee, for a term ending June 25, 1936.

Madison-Gov. Schmedeman has approved plans for emergency relief in the field of vocational rehabilitation for disabled persons. The state expects to obtain \$36,000 from the government for this work.

Racine - Police are searching for vandals who raided the Holy Cross and Calvary Catholic cemeteries and overturned about 25 tombstones. The damage was estimated at \$1,000 and was believed caused by premature Hallowe'en celebrants.

Kenosha-John Wierzbicki, 57, father of 11 children, was killed by lightning that struck a tree under which he was standing during a recent rainstorm here. Wierzbicki was out picking mushrooms. His body was not found until seven hours later.

Watertown-An unknown benefactor here has donated three loads of cabbage and 2,300 pounds of carrots for distribution among the poor. The vegetables are in the care of the Rev. Paul MacKinney. It is planned to use some of the cabbage to make sauerkraut.

Waukesha-With bidding slow and cautious, some of Wisconsin's finest Guernsey bulls and cows were "sacrificed" on the auction block here. Nine pedigreed bulls and 69 cows were offered, with prices ranging from \$40 to \$285. The average price paid was \$103.59, as compared to \$143 a year

Madison-A city ordinance prohibiting the sale of refrigerated beer by establishments holding Class A licenses which forbid the consumption of beer on the premises, was ruled unconstitutional by Superior Judge Roy H. Proctor. The ordinance is similar to a section of the state law covering sale of

Monroe-John Blickensdorfer, cheese maker at the Willett factory, Adams township, won first place with his Green county Swiss cheese at the annual dairy products show at Portland, Ore. His score was 95 points. E. Siegenthaler, Darlington, won second place in Swiss cheese with a score of 94 points.

Madison-With highway officials as witnesses, the economy committee sought to discover why the state paid more for tar in 1932 than private contractors did. Maintenance Engineer William Hoenig said he saw an invoice showing that a Milwaukee contractor bought a car of tar at 61/2 cents per gallon, when the state was paying from 8 to 81/2 cents. The state in that year purchased over 1,000,000 gallons.

Miwaukee - Charles Dineen, secretary of the Milwaukee Co-operative Milk Producers, said that the loss of the Hydrox Corporation of Chicago, ontlet for Wisconsin cream and ice cream mix, due to the farm strike, deprives Wisconsin farmers of a market valued at more than \$1,000,000 a year. All Wisconsin contracts with Hydrox were cancelled. The company announced that the breaking of its flow of supplies by strikes and other conditions have become unbearable and that it has decided to purchase from other states near Chicago.

Madison - The agricultural adjustment administration's corn-hog reduction plan will bring more than \$13,-000,000 in bonuses to Wisconsin farmers, the state department of markets has announced. Farmers who contract with the federal government to reduce their corn acreage 20 per cent for 1934, as compared with the average of the three previous years, are expected to receive \$4,500,000 and hog farmers who cut their litters 25 per cent under contract will get \$9,000,000, the depart ment said. The program will be financed by a processing tax on corn and hogs.

- Arthur Ritchie, farmer Royalton iving nea here, is harvesting nine tabagas which he is using ed. With sudan grass and as stock soy beans shortage.

Stoughten-Miss Janet Quam, 17, is the girl canning champion of Wisconsin, according to information received here from national 4-H headquarters. Miss Quam fook honors at A Century of Progress on six jars of balanced

Manitowoc - The state banks jof Whitelaw and Maribel, both of Manitowoc county, will be consolidated within three months, officials have announced. Under the plan approved by the state banking department, the Whitelaw bank, now closed for liquidation, will operate as a feeder for the Marihel hank.

Wausau - Chief of Police Thomas Malone reports the number of transient persons applying for lodging here to be only about one-third of that of a

valuable game territory were burned INSULL SET FREE La Crosse-More than 1,000 acres of over by a destructive fire in the bottomlands of the upper Mississippi wild life and fish refuge, between here and Trempealeau.

Milwaukee - Two Milwaukee park policemen are under suspension as city authorities investigate the story of A. J. Scanlon, 50, of Elkhorn, who said \$500 from him.

Madison-Wages being paid by Wisconsin farmers Oct. 1 were slightly higher than July 1, and indications point to some increase in the number of men employed on farms as compared with a year ago.

Ashland-A year old son and four year old daughter of Paul Taylor, negro farmer living near Grandview, burned to death when fire of unknown origin destroyed the Taylor home. Four other children were at school.

Reedsburg-While hauling a load of milk to this city recently, Alfred Templin, Lime Ridge, shot a mountain eagle weighing 10 pounds and measuring six and one-half feet from tip to tip. When first seen the eagle had a full grown duck in its talons.

Madison - Permits for operating every type of truck, including those used exclusively in farm work, are necessary after Nov. 1, the public service commission emphasized with a warning that inspectors have started enforcing the new law on that date.

Madison-The adjutant general's office has announced that Wisconsin has established a representative at Washington to aandle veteran claims. The Washington representative is Arthur R. Brown, a World war veteran and attorney who has had 15 years experience in the pension service.

Loyal-Mrs. Elizabeth Welsh recently celebrated her one hundredth birthday anniversary here surrounded by her nine children and many of her 45 grandchildren, 120 great-grandchildren and several great-great-grandchildren. Mrs. Welsh still performs her own housework.

Madison-Fred Marty of Monroe was appointed by the state department of agriculture and markets as Swiss cheese grader to assist in the enforcement of the new grading act passed by the last session of the legislature. He will check cheese shipments from warehouses. The salary is \$175 a

Milwaukee-The prohibition padlock at an end as the result of the dismissal of 47 padlock cases by Federal Judge F. A. Geiger. The actions, started between April, 1932, and April, Flood Control Dam in 1933, were dismissed on the recommendation of E. J. Koelzer, assistant United States district attorney, and were the last padlock cases waiting

Madison-A farm strike picket, Gunder Felland, of Dane county, was shot | trol dam at Kiro, Kan. to death when he and his associates on the picket lines attempted to stop a truck just east of Madison. The shooting climaxed a day of intensive warfare between strikers and nonstrikers throughout the state in which one man wa critically injured, six seriously hurt and a dozen others bruised and beaten in pitched battles.

Madison - The state highway commission considered plans for improving town and feeder roads with a \$3,-000,000 federal grant for unemployment relief road jobs on which farmers in 35 drought stricken counties will be allowed to work out cattle feed loans. The federal Reconstruction Finance corporation will advance \$2,100,000 of the loan, the major portion of which will be paid out in wages, said Highway Commissioner T. J. Pattison.

Madison-The plan of reorganizing the state highway department, announced by the highway commission, brought about the dismissal of five engineers effective Nov. 1, the retention of John T. Donaghey as state engineer and a reduction in overhead costs and salaries amounting to \$103,-981.40 a year. The change is intended to do away with friction among employes and make for greater efficiency by creating a centralized responsibility.

Madison-A \$300,000 annual gas and Jahuary bills for 65,000 urban and 9,-000 rural customers of the Wisconsin Power & Light Co. in 300 communities has been ordered by the state public service commission. This reduction is the first of & series of reduction orders totaling \$1,250,000 to be issued shortly to companies serving nearly the entire state. Commissioner Andrew R. Mc-Donald said the other companies to be affected by subsequent orders included the Milwaukee Electric Railway & Light Co., Wisconsin Gas & Electric Co., the Byllesby companies operating in Wisconsin and other firms as yet unnamed.

Wausau-Joseph Zwelanski, 71, who had been missing from the Marathon county home since Oct. 20, was found on the bank of the Wisconsin river he rutabagas constitute his with his head blown off. He apparently substitute crops in the present hay had committed suicide with dynamite, officials said.

> Princeton - Albert Eygabroad, 92, last surviving member of Wallace Dentz post of the G. A. R., died here. Eygabroad enlisted in the 36th regiment. Wisconsin volunteers, in 1864, and served at Deep Bottom and Cold

Eau Claire - Joseph D. Vermilyea. 87, who enlisted in the Union army at the age of 16, died at his home. When the Civil war broke out. Vermilyea. then 15, sought to enlist but his mother prevented it. The next year he enlisted and gave his age as 18.

BY GREEK COURT

His Extradition to America Is Refused.

Athens.-Samuel Insull, exiled czar that an attempt was made to extort of America's mid-continent utilities system, won his fight against extradition to Chicago to face charges of having ruined and mismanaged his onetime financial empire.

The Greek court of appeals, apparently impressed by the arguments of a brilliant battery of defense lawyers, determined that the indictments were not sufficient to meet the terms of the extradition treaty, and ordered his release from custody.

A large crowd was present in the court room when the decision was announced, and the verdict was greeted with loud applause.

The court's decision was a ten-page document, which gave more praise than condemnation to the one-time multi-millionaire.

The court "recognized Insull's important contribution to the electrical industry," and recorded its verdict that his acts were "not fraudulent. but brought about by the general financial collapse."

"I expected this verdict," Insull said as he was receiving the congratulations of the crowd.

Chicago.-Federal authorities will abandon efforts to extradite Samuel Insull, former head of the utilities empire, whom Greek officials refused to extradite to the United States, it was learned authoritatively.

It was not because Dwight H. Green. district attorney, has given up the fight, but it was learned from sources close to the investigation into the utilities debacle that the second attempt to return Insull to the United States under a bankruptcy act violation charge represented the government's last legal stand. The indictment charged Insull with a mail fraud. which is an unextraditable charge.

District Attorney Green expressed disappointment over failure of the Greek officials to honor the extradition demand. Investigators who toiled over the mass of books and records of the utilities company for months, declared that the mail fraud and bankruptcy charges were the only two federal violations upon which to base removal proceedings.

Insull's victory, it is said, may have an effect on the petition which the receiver of his bankrupt companies has made to have returned millions of dollars in securities which Insull is law in eastern Wisconsin apparently is charged with having illegally pledged with five big bank creditors to the detriment of small stockholders.

Kansas Warmly Opposed

Washington. - Spirited opposition was voiced before the Mississippi valley committee against one huge project proposed to the public works administration-the \$65,000,000 flood con-

The proposal to saddle the Kaw river and inundate forty-five miles of its fertile valley was described as uneconomic and in violation of the public works administration's intent. The opponents included a Kansas congressional delegation and several residents of the region

D. C. Hill, Pottawatomie county (Kan.) attorney, said a dam 90 feet high and two miles across the valley, inundating 116,000 acres, would cause the abandonment of two railroads, destroy a transcontinental highway, and nine towns, including Wamego and St. Marys. He said a Union Pacific counsel had asserted the line would not be rebuilt. This would deprive numerous towns of mainline rail facilities.

Large Addition Bought for Monongahela Forest

Washington. The national forest reservation commission announced approval of the purchase of 151,144 acres as an addition to the Monongahela national forest in West Virginia at a cost

The land is the Cherry River Boom and Lumber company property and lies in Pocahontas, Webster and Nicholas counties. It is within the 1,000,000acre area approved for expansion of the Monongahela forest.

Representative Randolph (Dem., W. Va.), who has urged acquisition of adelectric rate reduction effective on ditional forest lands on federal officials, said 160 men would be given employment at once in surveying parties.

Sothern, Noted Actor, Victim of Pneumonia

New York.-Edward Hugh Sothern, who made the roles of the forforn Romeo and other Shakespearean figures Uve on the stages of two continents, died in his hotel suite. He was seventy-three years old and succumbed to lobar pneumonia.

His wife, Julia Marlowe-the Juliet of his greatest stage triumph—was at

and former wife of John Gilbert, motion picture star, was found to owe \$8,561 in income taxes for 1929, in a stipulation judgment by the board of tax appeals.

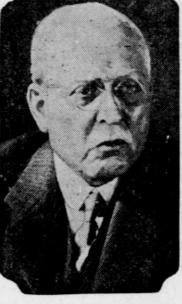

Warsaw Thieves Get \$85,000 Loot Berlin.-Wolff's agency in Warsaw reported that fifteen rare paintings and a relic of Napoleonic origin valued altogether at 500,000 zloty (approximately \$85,000), were stolen from the Krasinski museum.

Labor Riot in Detroit

Detroit.-Rioters, said by police to number 2,500, raided five plants where tool and die makers are on strike, smashed hundreds of windows, burned blueprints, overturned autos and eluded the city's police by dispersing before arrests could be made.

Kansas Educator Dies Lawrence, Kan.-Dean Joseph Granger Brandt of the College of Liberal Arts at the University of Kansas, dled in a Kansas City hospital. He was fifty-two years old.

SAMUEL INSULL

Samuel Insull, the former utilities magnate now a fugitive in Greece, won his freedom when the Greek Court of Appeals decided that he was not subject to extradition to the United States on the basis of the indictments

COUPLE DIE TRYING TO RESCUE PET DOG

Electrocuted on Golf Course in Indiana.

Lake Wawasee, Ind.-A man and wife were electrocuted when they came in contact with a high voltage wire on the Lake Wawasee golf course in a futile attempt to save the life of their prized German police dog.

They were Christian Payne, forty, and his wife, Elizabeth, thirty-eight. Payne was a garage owner at Terre Haute. Their bodies were discovered by

caddy a half hour later. Nearby was the lifeless dog and an opossum, also badly seared. Coroner Paul Landis said the couple had left their cottage, where they

were spending a vacation, for a stroll, accompanied by the dog. Apparently the dog discovered the opossum and gave chase. When the opossum, running wildly, struck the

wire it was electrocuted, but the dog continued the pursuit. Payne, it is believed, then went to the rescue of the dog and as soon as he touched the animal he, too, was electrocuted. Mrs. Payne then seized her husband's hand and the current

Wealthy Michigan Man Kidnaped and Robbed

passed through her body.

Marshall, Mich.-Two men and a woman kidnaped Louis E. Brooks, millionaire manufacturer and social leader, beat him, forced him to open a safe in his office, and then released him after obtaining about \$45,000 in cash, bonds, and jewelry,

The estimate of the loot came several hours after the millionaire manufacturer boston and bruised had been found at his farm home near here Brooks declined to discuss the kidnaping and robbery. He had been seized on a highway.

"Those kidnapers were no amateurs," said Prosecutor W. J. Kearney. "They were professionals and knew what they were after. They told Brooks they had been watching him for a long time."

Italy Deals Out Machine Guns to Young Fascisti

Rome,-Young Fascists of combat from 92 provinces, all of them between eighteen and twenty-one years of age, formally received machine guns as part of their regular armament. The ceremonies were presided over by the duke of Pistoia and the duke of Bergamo. Afterward the young Fascists formed a parade in front of the Venzia palace. paying enthusiastic tribute to Premier

"Uncle Tom's Cabin" Not to Play Houston

Houston, Texas.-The dramatic club of Rice institute will not stage "Uncle Tom's Cabin" at the Houston Little theater on the nights of November 27 and 28, it was decided by the heads of the club.

Vigorous protests voiced by the United Daughters of the Confederacy were responsible for the decision not to stage the old melodrama.

Capital Punishment Act for Kansas Is Indorsed

Topeka, Kan.-Capital punishment was indorsed in principal by the Kansas legislative council working on proposals to present to the special legislative session. The council, composed of members of the legislature, asked Representative D. E. Reber to work on some general capital punishment

Bad Storm Hits Jamaica Kingston, Jamaica.-Three deaths and property damage estimated at \$3,900,000 were caused by a storm which passed over the western part of Jamaica. Two million banana trees were destroyed.

STEEL COMPANIES FALL INTO LINE

Roosevelt Settles Mine and Price Disputes.

Washington, - President Roosevelt appeared to have established the dominion of his uphill recovery policies over the great basic steel industry.

Steel leaders who have been cool toward the NRA from the start and had haggled for weeks over a bitter strike in their "captive" mines in the Pennsylvania coal fields, acceded to a settlement on lines laid down by the Pres-

Mr. Roosevelt also wrested from them a price concession on steel rails, opening the way for perhaps the largest single railroad order in history which will give employment to thousands of workers wherever railroads run, through the winter and spring.

The "captive" mine settlement gave the strikers virtually everything they demanded. The steel companies, traditional foes of organized labor, even yielded the check-off. On the rail price dispute, the gov-

ernment made a decisively forward stride in its program to put men back to work. The public works administration is going to loan railroads close to \$40,000,000 to buy 800,000 tons of rails and more than 100,000 tons of spikes, tie fasteners and other equipment

The steel companies' uniform bids of \$37.75 per ton for rails were rejected recently by Transportation Co-ordinator Eastman. He said the price was too high. He arraigned the companies for what he believed to be collusion in submitting bids.

Meeting with the President, steel executives defended their price as representing only cost plus a fair profit. Mr. Eastman still insisted that \$35 was a fair price.

"In the interest of getting people to work," a White House statement said, the President proposed to split the difference. The price of \$36.371/2 was agreed upon.

Four steel companies with rail mills are expected to share the huge order. They are United States Steel, which has rail mills at Pittsburgh, Chicago and Birmingham, Ala.; Bethlehem, with mills at Lackawanna, N. Y.; Sparrows Point, Md., and Steelton, Pa.; Inland Steel, with a plant at Indiana Harbor, Ind., and the Colorado Iron and Fuel Company of Pueblo, Colo.

Operating at full capacity, the mills will require at least three months to fill the order. United States Steel's Pittsburgh rail mill alone can give work to 15,000 men, according to trade authorities here.

A White House statement on the "captive" mine settlement referred cautiously to "substantial agreement," but Recovery Administrator Johnson and NRA Counsel Richberg said the whole controversy was "washed up" in a manner satisfactory to them. The officials of the United Mine Workers. however, still complained because the Steel companies were not forced to recognize the union.

Eleven States Qualify

for Farm Corn Loans Washington.-The farm administration said that six states had qualified for corn loans to farmers, in addition to the five listed as eligible when the

loan plan was developed. The six are Colorado, Mississippi, Nebraska, Montana, North Dakota and Oregon. The administration said these had farm storage and warehouse laws that would make it possible for their farmers to qualify for corn loans from the Commodity Credit corporation. Administrators said they believed at first the loans would have to be limited

to Iowa, Illinois, Minnesota, South Dakota and Kansas. Corn loans are to be made on the basis of 50 cents a bushel for No. 1 corn, f. o. b., Chicago.

Son of Late Pancho Villa Held for Sanity Hearing

Los Angeles.-Pancho Augustin Villa, twenty-one-year-old son of the late Mexican general, was incarcerated in the psychopathic ward of the General hospital on an order issued by a Superior court judge, who said Villa will be given a sanity hearing. His guardian, Henry Seldner, claimed that Villa, since signing a contract to appear in a film several weeks ago, has been acting strangely.

CHAPTER VIII-Continued -13-

Rankin lost patience at his fencing. "Mr. Warwick has warned you, Buckley," he broke in sternly. "It is a waste of time to pretend you have no idea why I am here. It is only in deference to him that I give you this opportunity to exonerate yourself if you can and refrain from arresting you at

"Arrest me for what?" the student protested. "I haven't done anything wrong."

"For the murder of Stuart Jordan last Tuesday night during the initiation at the Mu Beta Sigma house!"

If it was Rankin's intention to remove the last vestige of Buckley's assurance, he succeeded. Stark terror replaced his boldness; he started spas modically, his features suddenly pallid. But his consternation was leavened by amazement and perplexity, written in his drooping jaw, that the detective found disturbing.

"Jordan's murder?" he cried in horror. "Oh, my G-d! I had nothing to do with that-I don't know anything about it!"

"But you didn't like him, did you?" Rankin continued in charge of the situation. "In fact, you hated him be cause you considered him responsible for your dismissal from Aberdeen. You believed he had reported your gambling to the college authorities. Besides, he denounced you as a cheat." "That was a d-d lie! I always

played a straight game!" Momentarily, Buckley's resentment overcame his apprehension and his eyes flashed. Disregarding his outburst, Rankin pressed his attack, aggressively.

"And when you discovered Jordan at Philadelphia, Buckley, you had even more cause to fear him," he accused. "He was acquainted with your trouble at Aberdeen, which you hoped to suppress; and he might have guessed the artifice by which you enrolled bere. But whether he did or not, there was danger that he would report your past to Mr. Warwick or some other official and again get you dismissed. Especially knowing Larry Palmer, if he supposed your friendship with him was for some dishonest purpose. You heard from Palmer that any chance of your joining the fraternity was blasted by Ned Patterson, who was Jordan's sponsor. Naturally you attributed his opposition to your enemy's interference and he threatened you still fur-

As the detective paused, Buckley's silence and twitching features were a sufficient reply; and he pursued his

indictment with telling effect. "Immediately after that you number young Palmer in his unguarded moments about Mu Beta Sigma's secret codes and ritual. You learned its passwords and customs: the kind of robes members of the fraternity wore at their initiation ceremonies. About nine days ago, he told you this year's installation would be held on Tuesday night at eight-thirty. You questioned him about the average attendance at them. And during your drinking bouts, he let slip enough of the proper signs of recognition to enable you to enter the chapter's private chamber past the sergeant at arms."

"My interest was harmless!" Buckley insisted fearfully. "I was just curious about frats., like others who don't belong to them, Mr. Rankin."

"Yes, so you gave Palmer to understand," Rankin met the evasion almost exultantly. "Yet you made every preparation for getting into the ceremony yourself on Tuesday night. You see, I know all about that, too-how you persuaded young Palmer to visit the Morton club that evening and drugged him to insure his absence from the house and a place for you to fill." He stilled the boy's attempt to speak with a harsh gesture. "You stole his keys to enter the house after

"Arrest Me for What?" the Student Protested. "I Haven't Done Anything Wrong."

the ritual began. You abandoned him at the club at eight-twenty-five and taxled to your apartment for a robe you had obtained in advance to pass as a member. That came from Kingston, the costumer. By eight-forty-five. you had entered the house, where you slipped into the gown in the deserted hallway." He paused before concluding. "Buckley, the evidence is too complete and damning to mean any. thing except that you plotted to murder Stuart Jordan in revenge for. . . .

In his dread, the student interrupted despairingly: "No, no, that wasn't my purpose at alli I swear it was something different-to get hold of something inside! I didn't hear of his death until afterward."

"You didn't?" the detective began incredulously. "You can hardly ex-But Mr. Warwick snatched at the

possible loophole before he could express his skepticism. "To get hold of something?" he demanded. "Just what were you

"A check I had forged," Buckley answered unhesitatingly, almost eagerly. "To prevent discovery, I had to recover it before it was investigated. If I had the proof of the forgery, I

could have got away with it." The supervisor knit his brow grave ly. "Recover it from whom? I don't understand; whose check did you

"Larry Palmer's. It was for two hundred and fifty dollars; I needed that amount to pay for my tuition this second semester of school. I couldn't borrow it and I was almost broke; I tried to win it gambling at the Morton club, but had a streak of bad luck. And I didn't want to quit school."

"How long ago was this forgery committed?" Mr. Warwick queried. "You had better make a clean breast of it," he added warningly. "It's your only hope of avoiding the more serious charge of murder."

The student's unassuaged panic drove him to speak freely. "I intend to, Mr. Warwick," he assured anxiously. "I had been planning it for some time, but only carried it out on Friday, February sixth. The term began on the second; and you know all bills were payable not later than the ninth. Monday one week afterward. So I had to draw the money from Larry's bank before that."

As ne spoke, Rankin saw his care fully constructed case collapsing. He could not disregard the student's statements; if confirmed by the bank and the evidence of the check itself. they explained his activities in a way that freed him of all suspicion of the murder. Especially as no part of Rankin's arraignment accounted for where he might have secured the conine. And in the lesser crime, the detective was no more concerned than in Patterson's theft; that coud be left to Mr.

"Just how did you manage it?" He put the next question himself, "The signature, the blank check-and cashing it?"

"As you've probably found out," Buckley addressed him directly, "1 have been palling around with Larry for the past five months or so. We take the same courses; and several times, I studied with him at his room up-stairs in the fraternity house. When I looked through some of his assignments in his bureau, I learned he kept his correspondence and check book in the top drawer. Then I also happened to accompany him to his bank,

him at the club in the first place and letting him shift for himself?"

"I didn't intend to harm him," Buckley assured him promptly. "But that was the only way I could go through his pockets. You see, he might not have put the bank account away, but be carrying it with him as he had only received it the day before. Then I wouldn't need to visit the house at all. I hunted through his clothes while pretending to talk confidentially to him; the place was empty enough to get away with it. But he didn't have it. At the same time, I took his key which used to open the front door. Then, as you've already learned, I took a taxi to my apartment for my cos-

tume." "Can you tell me anything about the car or the chap who drove it to help me trace him?"

"No, my mind was too full of my plans and I didn't pay much attention to him, I'm afraid."

"Well, what has become of the check?" Rankin asked next. "Is it destroyed?" "No, I kept it; in fact, I have it with

me now. As long as I hold it, I figured it is harmless. And it was barely possible that for some reason, as in this very case, it might prove valuable to me again."

"Give it to me, Buckley," the detective directed, extending his hand,

From an inner pocket, the student willingly produced a small slip of paper that went far to substantiate his narrative. Drawn on the Security Trust company by Lawrence Palmer to Buckley's order, it was dated February sixth; the amount was two hundred and fifty dollars. On the back, the latter's endorsement and the single stamp "Paid 3-7," the date of the March monthly clearing, proved indisputably it had been cashed directly by the bank. Particularly, Rankin compared the slanting, somewhat wavering writing on the face in imitation of Palmer's style with the firm straight characters of Buckley's undisguised indorsement.

He gave it to Mr. Warwick. "I'm turning this over to you, Mr. Warwick," he stated. "As long as it appears to have no connection with the murder, I shan't take any steps regarding it. You can do as you please."

The supervisor indicated the culprit. "Then you are satisfied Buckley is innocent of the crime, Mr. Rankin?"

"Not entirely; I can't be sure until his statement has been investigated thoroughly. But it certainly seems I've been working on a mistaken the ory," Rankin acknowledged candidly, "Except for your advice, I might have made a grave error. I have no desire

IN THE PRECEDING CHAPTERS

Stricken during initiation into Mu Beta Sigma fraternity, Stuart Jordan, university student, dies almost instantly. Tommy Rankin, Philadelphia detective, has charge of the case. An injection of conine was the cause of death. Two students, Ralph Buckley and Walter Randall, figure in the investigation. A lawyer, Edward Fletcher, present at the initiation, engages Rankin's attention. Check stubs show Jordan had been paying \$400 a month to some unknown person. A student, Larry Palmer, Mu Beta Sigma member, was drugged on the night of the initiation and the key of the fraternity house stolen from him. Ralph Buckley had been his companion of the evening. A St. Louis physician, Dr. Arnold Prince, is brought into the investigation. Conine is stolen from the university laboratory. A student, Ned Patterson, is suspected of purloining it. A letter to Jordan from Edward Fletcher's young wife reveals that Fletcher has been suspicious of Jordan's attention to her. On the night before the initiation the pledgees were taken to an isolated spot, and abandoned, to get home as best they could. The stolen poison is found in Patterson's room. Rankin finds that on the night before Jordan's death, on his abandonment, he telephoned from a farmhouse to Mrs. Fletcher, who came for him in an auto. In Fletcher's roadster Rankin finds a hypodermic needle. Questioned concerning a watch he had pawned, Patterson admits thefts from the fraternity house. He also admits stealing the poison, claiming he took it with the idea of suicide. Walter Randall is forced to leave school on

the Security Trust company on Wal- | to cause the university unnecessary nut street near Thirty-sixth, and watched him make deposits; the tellers got to know me. So that when I decided to profit by my information, it was quite easy to get one of his checks and to copy his handwriting from his school notes. My imitation was good and I cashed it at the bank without any trouble. The only danger came later, after the bank statement and canceled checks were returned to Larry. That occurred monthly, I discovered, at the end of the first week; he always received them the following Monday."

"Monday, you say?" Rankin inquired sharply. "And you forged the check on February sixth? That means it would come back this month on the ninth-the night before initiation."

"That's right, sir," the student nodded, "and that was the risk I ran. Once Larry had a chance to notice the discrepancy in the statement, investigation at the bank would implicate me. I had to steal it as soon as he got it. Of course, I couldn't prevent the statement from showing the mistake; but if I had the evidence, nothing could be proved even if I was suspected. But I could never get hold of it among all his other checks and papers in the bureau while he was

anywhere around." "So you planned to remove it Tuesday evening instead," Mr. Warwick remarked bluntly, "while the chapter was busy with the installation cere-

"Well, I had to use my opportunity. You see how lucky I was to have it at the very moment I needed it; otherwise, I shouldn't have succeeded. Except for the chapter room, the house was dark and practically deserted; it was easy for me to enter unobserved. That was why I asked Larry about the attendance-to learn how much chance there was of running into any one in the halls or up-stairs."

"And you wore the robe as a disguise, of course," Rankin asserted.

"Yes, in case that happened," Buck ley admitted. "I ordered it from Kingston's a week before initiation. according to Larry's description." He shrugged. "Any brother I met would take me for a member and suppose i had just left the services; he'd think nothing of seeing me enter Larry's room. As a matter of fact, I met nobody. I merely closed the door and searched until I found what I came for; I slipped off my gown just be fore quitting the house and was in the street again by nine o'clock."

Rankin bent forward. "Then none of the boys might remember your being up-stairs between eight-forty-five and nine? A witness to your movements would be valuable to verify your story."

The student shook his head slowly. "No, I didn't run into anyone from the time I entered till I left."

"And you didn't return then, to Mr. Palmer," the detective observed severely. "What was your object in drugging

unpleasantness."

Buckley's audible sigh of relief was echoed by Mr. Warwick's gratification. "That's very good of you, Mr. Rankin," he said. "Now it will be easy to hush the matter up. It isn't likely that young Palmer will care to prosecute." A few minutes later, when the detective'left Mr. Warwick and the student together and took his departure, the warrant of arrest was still in his pocket, unexecuted.

CHAPTER IX

The Stone Wall

It was a disgruntled and decidedly perplexed detective who returned to headquarters at four o'clock Friday afternoon, three days after the murder. In turn, two suspects-Ned Patterson and Ralph Buckley-had cleared themselves; the evidence he had so painstakingly collected had disintegrated before explanations that changed their value. The only important case remaining was that incriminating the lawyer. And against him, Rankin was not yet prepared to move. Though a civil lawyer, Mr. Fletcher was acquainted with the subtleties of criminal law and no mean opponent; it was no trifling matter to charge him with murder until his facts were altogether impregnable. First he wanted to ferret out and marshal every possible proof of his guilt. He dared leave no loophole through which the attorney might escape because of his position or superior knowledge of legal technicalities.

The most serious weakness in his theory of Mr. Fletcher's guilt, he realized with fresh dismay, was the extra person at the initiation. It was certain someone besides the thirty-one brothers already identified had attended; but unless he was Ben Crawford, his identity was still an enigma. But Crawford had every right to be present and bence no apparent reason to deny his whereabouts. Only his peculiar tale of the "pick-up" rendezvous that had not materialized was responsible for whatever suspicion he was under. And the nurse with whom he claimed to have spent the night could not check his movements; he had not joined her until three-quarters of an hour after the murder. On the other hand, if he told the truth about his absence from the ceremony, then the unknown intruder and not Mr. Fletcher must inevitably be the murderer he sought.

As he reached the central detective bureau, Rankin resolved to delay dealing with the lawyer at least until Gilmore reported his interview with Crawford's nurse friend. But it was Mr. Fletcher himself who forced the issue, for he was there, waiting to see him. He had first phoned about twothirty. Captain Thomas informed the detective, and learning that Rankin was expected back later in the afternoon, stated he would stop in when

"He got here about forty-five minutes ago," the captain related. "It sounds like something serious, Tommy; I was talking to him just before you came in and he seemed quite up set, though I can't say what about. Now he is in the empty office down the corridor."

"Thank you, Captain," Rankin re-

turned, "I'll see him right away." As he entered the room in question, he too sensed the promise of trouble brewing. Mr. Fletcher's greeting was harsh and he was manifestly angry. But typical of the man, his resentment smoldered, controlled and implacable, and did not express itself in any outburst of temper. At the same time, he was uneasy, as if anxious and under a distinct strain.

He began without preliminaries, giving Rankin no time to reflect on the object of his visit.

"I imagine you have a pretty good notion why I am here. Rankin." he spoke sternly. "Your position as a detective gives you no authority to annoy innocent people, compel them

Was This Assault a Bluff, the Detective Asked Himself, by Which Mr. Fletcher Hoped to Hide His

to answer you by indiscriminate threats, and trespass on private premises and search them. This highhanded conduct requires a satisfactory explanation, unless you want the matter carried to your superiors."

Was this assault a bluff, the detective asked himself, by which Mr. Fletcher hoped to hide his guilt? Or was his indignation sincere? Unable to judge as yet, he met it without the least hint of perturbation.

"I am not aware, Mr. Fletcher, that I've overstepped the bounds of my authority," he said evenly.

"You haven't?" As the lawyer's wrath increased, he outwardly became more subdued. "What right had you in the first place, to distress my wife just because she was in the vicinity of the university? She had been interested in Stuart and merely went in to learn if there were new developments in the case. Not content with that, you questioned her again last night, and at my own home, too. And you intimidated her into letting you amine my grounds and Oh, I've heard all about your activities and I warn you to watch your step or you'll surely be in hot water.' Rankin ignored the threat. "Who gave you this information?" he inquired. - "Mrs. Fletcher?"

"Indirectly, yes, but not until my chauffeur, Max, told me what he witnessed last night. From the servants' quarters, he noticed a light on in the garage. He got up quietly to investigate and saw you and my wife together. This he reported to me and also Mrs. Fletcher's indiscreet trip to the university yesterday. When I taxed her, she told me why she had gone there; but she was kind enough not to want to make you any trouble over what had happened."

"Because she was afraid, Mr. Fletcher!" Abruptly, Rankin took the initiative. "And any explanation must come from you. It is my duty to follow up every trail connected with Jordan's murder; and you are seriously involved." He spoke harshly. "When you and your wife both try desperately to conceal the truth from me. I must resort to more radical means to reach it. Neither her interest in the boy, nor her real reason for visiting the college, was as harmless as you'd have me believe."

The lawyer seemed genuinely per plexed. "What are you talking about? One would almost suppose you be lieved I had committed the crime, Rankin."

"That is exactly what I do thinkthat you murdered Stuart Jordan!" The detective's startling announce ment failed to alarm Mr. Fletcher. But such was his confusion that his anger evaporated; for an instant be was at a loss for words.

"Good G-d, Rankin," he ejaculated at length, "are you mad? On what grounds do you make this accusation? I never heard anything more ridiculous in my life."

For answer, Rankin produced the letter he took from Mrs. Fletcher, the basis of his entire case against the lawver.

"Here is a letter your wife wrote young Jordan," he stated aggressively. "Whether you know it or not, it was to recover this before it fell into my hands, that she came to the university post office. She expresses her belief in it that you are capable of such a terrible deed. Naturally, she didn't want you to learn how her imprudence involved you and first set me on your trail." He waited in silence while Mr.

Fletcher read the missive. This time he was rewarded by signs of apprehension; the hand holding the letter trembled perceptibly and the lawyer's eyes widened. With increased assurance, Rankin pointed out, as he had already done to Mrs. Fletcher, how it supplied the motive for the crime—the two occasions on which the lawyer caught her and Jordan together.

As he listened, Mr. Fletcher's wrath flared again, but somewhat subdued by dismay.

"Are you daring to suggest," he de manded, "that I killed Jordan because suspected my wife of being unfaithful and having relations with him?" (TO BE CONTINUED.)

NEED NEW CODE FOR THIS AGE

Injustice Under Old System Pointed Out.

The age of chivalry was responsible for many of the conventions of

modern life. When we consider that it ended more than 500 years ago, we may well come to the conclusion that some of its heritage must be out of

In the last thirty years we have finally changed, for better or for worse, to a very different form of civilization, and a new code of manners must accompany the change.

Especially is this true in regard to

They have always been brought up with the expectation of care and protection, whether they actually got it or not.

From the cradle up little boys were taught to be strong and resourceful and to guard and protect all little girls. And the girls were permitted, if not encouraged, to take advantage of their weakness and dependence. Even under the old rules the sys tem worked countless injustices. A

could tease and annoy a boy until she drove him to desperation, relying on her sex for immunity. A boy could not cry, because it was unmanly; a girl could shed buckets of tears to gain her end and it

boy could not strike a girl, but a girl

was considered natural. Today, with women demanding and receiving equal rights with men. many of them also expect special privileges, and are taught from the cradle to use every means, fair or

foul, to attain them. It seems essential for the preser vation of our tradition, if we wish to preserve it, that a new nursery code should be evolved, where boys and girls are taught fair play and mutual respect.

In this way only can we be asrured that the western world will not become a matriarchy in which the men are reduced to a biological necessity by a race of gold-digging amazons .- Brooks Peters Church, in | name CALIFORNIA on the bottle. Indianapolis News.

CRIMINAL PROVES PUZZLE

In Esthonia, a condemned murderer can take his choice between death by hanging and death by poison. One murderer, who chose the poison route, proved to be a freak of nature. His system was immune to poison. He is still in jail, waiting for the courts to decide what is to be done with him.

To make Children

Don't force children to eat! The girl or boy who has no appetite has stasis-which means the child is sluggish. But cathartics have caused more constipation than they ever cured! The "California treatment" is best-just pure syrup of figs. Try this for a few days, then see how eagerly your youngster will eat.

Stimulate the colon and that child with a finicky appetite will devour everything set before him. Here's the simple treatment that does more for babies or older children than all the diets, fad foods, or tonics.

Nature has provided the "medicine" you'll need to stir your child's colon muscles into proper action. California syrup of figs. Pure, delicious, harmless. It acts on the lower colon-where the trouble is.

It has no ill effects on the intestines. Begin tonight, with this marvelous "California treatment." Any druggist has California syrup of figs, all bottled, with directions. Use enough the first time to cleanse the clogged colon of every bit of poison and hard waste. Then just a little twice a week until the child's appetite, color, weight and spirits tell you the stasis is gone. Whenever a cold or other upset clogs the system again, use this natural vegetable

laxative instead of drastic drugs. WARNING! There are dealers who practice substitution. Be sure to protect your child by looking for the MEMBER N. R. A.

Almost Instant Relief From Neuralgia

20 MINUTES LATER -I'TS WONDERFUL HOW QUICKLY MY NEURALGIA WENT, THAT BAYER ASPIRIN CERTAINLY WORKS FAST ISN'T IT WONDERFUL

For Quick Relief Say BAYER Aspirin When You Buy

Here is quicker relief from pain-the fastest safe relief, it is said, ever known. This is due to a scientific discovery by which BAYER Aspirin starts "taking hold" of pain a few

minutes after taking.

The illustration of the glass here tells the story. A Bayer tablet starts to disintegrate or dissolve—go to work
—almost instantly. This means quick relief from pain—fewer lost hours from headache, neuritis, rheumatism. And safe relief. For genuine Bayer

Aspirin does not harm the heart. When you buy, see that you get the genuine Bayer Aspirin. The best way is never to ask for aspirin by the name "aspirin" alone. But if you want Bayer Aspirin's quick relief always to say "BAYER Aspirin."

WHY BAYER ASPIRIN WORKS SO FAST Drop a Bayer Table in a glass of water Note that BEFORE it touches bottom, i has started to dis tegrate. What it does in thi glass it does in your stomach. Hence its Does Not Harm the Hear

Happenings That Affect the Dinner Pails, Dividenr Checks and Tax Bills of Every Individual. National and International Problems Inseparable From Local Welfare.

It is now expected that the New Year will see the approval of all industrial codes. That will mean that the National Recovery Administration has completed its first great task. At this writing, 99 codes, covering the basic industries, have been approved. Onehundred-thirty-seven are being revised. Forty-seven are scheduled for early hearings The most interesting feature of the retailers' code is that it eliminates selling at less than inventory cost, a practice which has been prevalent, especially aomng large stores, which advertised "leaders" at less than cost in the hope that customers buying them will buy other goods on which a profit is made. Very small stores, in towns of bottom-bracket population, are immune to code pro-

One fine afternoon back in 1913 an obscure prince was shot in the equally obscure city of Sarajevo. To most of the world the event simply meant one more scarehead and nothing more Then armies began mobilizing. Lights burned late in chancellories. The British Navy set out for maneuvers sever. al weeks ahead of the normal time. Arg the greatest war in history was

Matters are not especially different in Europe now. Hitler's withdrawal of Germany from the League of Nations and the disarmanent conference, has sent the greatest scare since those 1913 days through premiers and emperors, congresses and parliments. The Hitler position is that the Versailles treaty is unbearable-that the refusal to meet Germany on an equal basis so far as armanents, especially, are concerned, thrust the blame onto the other powers and that whatever happens will be their fault. Position of the other powers is more vague than that, and more confused. But they definitely fear Germany. Theoretically she has no army, save a small Reichswehr made up of picked men in for long terms. Practically, she has a great army, consist. ing of Hitler's brown shirts, which, under command of schooled Reichswehr off cers, is powerful indeed, Her great lack of weapons of offense artillery, tanks, planes.

Final decision may be left to France, which has most at stake, is most afraid. Many European statesmen believe it is time to declare a preventative war on Germany, crush her absolutely and unseat Hitler, before she has time to prepare. Smaller countries are alarmed-barricades are rising on the Swiss frontier, and her small but first-class army received increased appropriations, went into harsh training. There is a link of nations around Germany of which but one, France, is reat—the others, however, by cumula,
