KUM STATESMAN.

 $I^{\rm T}$ IS fashionable to look taller by and other sheer cottons. Even more night than by day. At least that is amazing and highly intriguing is the actually what happens when you doff | fact that the very leaders among the your happy-go-lucky, carefree and sportsy-looking clothes (they are certainly all that this summer) and come forth, when falls the shades of night, in the long-skirted dresses which fashion decrees for formal evening wear.

All party frocks are now styled with floor-length skirts which often as not flaunt trains, making even the younger set take on an aspect of dignity and poise. There is something statuesque about these slim-cut form-fitting lengthened skirts which manage to make you look inches and inches taller than you

A feature which especially commends these lengthened, sleek, formaccenting skirts is that no matter how snug-fitting they may be about the hips (which they are almost to an exaggerated degree) when they arrive at the knees they are given an accommodating flare which affords perfect freedom of motion. In the advance fall showings, in some instances the skirts have knee-depth insets of sunburst pleatings (usually of soft chiffon). Sometimes the pleating flares all around, making the top of the skirt appear slimmer than ever by way of

The interesting part about this program of costume design which places such stress on a styling which is dignified and sophisticated is, that even the simplest of materials are being worked up in this way. Indeed, many of the smartest numbers in the formal evening fashion parade are made of inexpensive organdies, voiles, nets

haute couture are creating some of their most successful party dresses of pique and even the once-humble seersucker and ginghams are daring to play a formal role in the evening

made up in pretentious evening gowns, the model to the right in the group demonstrates the idea perfectly. It is fashioned of a simple cotton ratine which is patterned in a pretty crossbar motif. It is in that soft dusky shade of pink which is such a favorite with smart Parisiennes this summer. The roses at the waistline carry the same pink tone. Of course it has a matching jacket.

The dinner jacket of white organdie which tops the stunning evening gown to the left in the picture is a very important accessory. Organdie jackets such as this one, also organdie wraps fashioned on the long, loose swagger lines, are quite the rage. As to the dress itself, a pink crepe with black printings fashions it. It seems after all that prints are again triumphing in the summer mode, especially those in striking effects.

The long-sleeve dinner gown remains a favorite. As for lace as a medium for the formal costume, its prestige is assured. The beige lace frock with its colored jewel clasps and belt buckle as shown centered in this trio of attractive night fashions should prove of special interest to the matron. They are so lovely, these pastel colored or chalk white lace frocks.

@. Western Newspaper Union.

NEW LACE EFFECTS SEEN IN LINGERIE

Newest additions to lingerle collections show fresh treatments of the embroidered and appliqued lace decoration which is worked to contribute a "different" appearance by reason of the posing of two layers of net. In addition to giving much greater sturdiness to this delicate form of trimming, the use of the two layers gives a flower-like background which is not achieved by the single layer. Through this the flower appliques are worked or embroidery posed, or the lace appliqued.

Washable Satins Hit New

Note in Spectator Frocks Pastel satins, washable, of course. in delectable shades of frappe pink and ice blue, strike a new note in spectator frocks and give promise of a big fall season for this popular fabric.

Spanish and Mexican plaids and hotcountry colors hold sway in new beach skirts, sweeping wide, but cut short at the knee. With these are worn halter tops, big-brimmed hats with a Spanish or Mexican sweep, and colorful scarfs or sashes.

Cottons and linens score , for the simple play-time frock, with linen shantung and Chinese damask a bit newer than ginghams and seersuckers. Perky shoulder bows, square necklines, reversible collars that can be worn either front or back, concealed pleats, and a maximum of buttons lend charming variety. Potter's blue, lettuce green and sunny yellows give verve to the plain-color frock which is rivaling stripes, plaids and checks in importance.

Popular Costume

Suits are the smartest thing you can wear for luncheons and afternoon affairs up to the dinner hour when a softer line is favored.

"Back Fins" on Gown "Back fins" are a feature of a stunming new negligee in heavy satin of soft blue. They are accented by lin-

ings of bright coral,

VELVET TOPS LACE

A richly colorful lace dress accompanied with a velvet wrap is an ideal combination for this time of year when autumn begins to send hints of its coming. From Paris comes the report that at all outdoor fetes the velvet wrap remains first choice. Often the girdle which elaborates the dress is of velvet which matches the coat. Which is true of the model pictured. The dress is done in plum color lace. The bow-tied girdle is of the identical velgrana velvet (has a grained crepelike weave) which fashions the widecape-sleeved wrap.

Floss Fringe

As an amusing change from ostrich capes for evening wear, Schiaparelli has introduced an imitation of feathers, made of bright artificial floss

Some Timely Hints About Coming Styles

The fitted coat is a forecast for fall. | Designers are working on the tunic theme. The evening silhouette is always

long and slender. Red ears are the latest whim of the smart set in Belgrade. Gems set within stones and crystals

at the outstanding note. "Accent the side" is the maxim of the mode for early fall clothes.

Much white satin is worn at fashion centers. London women are wearing cordu-

roy shorts. Stylists predict a big winter for discreet metal effects.

The white net frock is seen most often in combination with black. Shantung is a material that will be in decided favor for summer sports-

nounced the cabinet met and put forth this "The reich government has passed the

following law, which is hereby promul-"I. The office of

the reichspresident is Hindenburg united with that of the reichschancellor. In consequence thereof, powers heretofore exercised by the reichspresident are transferred to der fuehrer (Hitler) and the vice chancellor (Franz von Papen). He (Hitler) determines who shall be his

Hitler for the first time became also the commander of the reichswehr or regular army, and Gen. Werner von Blomberg issued an order that every soldier must pledge absolute loyalty to the death to Hitler.

Ever since his great victory at Tannenberg, early in the World war, Von Hindenburg had been the idol of the Jerman people and their grief over his death was general and sincere. Their expressions of sorrow were mingled with veiled but anxious discussions concerning the possible effects on the reich of the aged leader's death and the assumption of full power by Hitler. The president, though forced to give the Nazi chief the chancellorship, had been a constant check on extreme Nazism, and he had the full confidence of other nations that has never been accorded to any other German since the war. As Jacob Gould Schurnan, former American ambassador to Berlin, puts it:

"Now that Von Hindenburg is gone, no successor, having regard to his achievements, his prestige, and his tried and tested character, can, at least for a considerable time, create an atmosphere equally favorable to diplomatic negotiations with foreign

Dector Schurman, however, does not believe the Hitler regime is in danger of falling at this time. He says the German people are not naturally rash and revolutionary and probably will give Hitler a chance to seek a solution of the economic problems that

Von Hindenburg, who was eightysix years old, was a patriot all his life, a veteran of three wars and a parshal of the empire under Kaiser Wilhelm. He was a hard fighter but an, He supported the public when it was created but at heart he was always faithful to the self-exiled kaiser. His last days were clouded by the realization that he had failed in the effort to really check

CHANCELLOR SCHUSCHNIGG of Austria appeared to have the Nazi revolt completely under control and was making overtures to the Social emocrats and the workers, the later being warmly praised for not taking part in the putsch as the Nazis id expected they would. The trial of the leaders in the uprising was concted with dignity and the condemnation and execution of two of themthe man who actually killed Dollfuss and the chief of the raid-were taken as matters of course. Another Nazi, who killed a police captain of Innsbruck about the same time the chansellor was being murdered, also was ound guilty and hanged.

Three thousand Nazis who took part the outbreak in Carinthia escaped Juroslavia and were disarmed, and he Belgrade government now wonders what to do with them.

WITH monarchists in control of he Austrian government the roysts of that country and of Hungary med their schemes for putting the ng Archibke Otto on the old throne the Hapsburgs. There are reports they held a secret meeting in znan, Switzerland, and formed a foration plan which they hoped fould be acceptable to France, Italy, Great Britain and the little entente. Their first object was to secure the of Premier Mussolini. Leaders in the movement are Colonel Randa of the Austrian army, Felix Dun-Austrian monarchist, and Count Hojos of Hungary.

According to the story current in Paris, the condition placed by the litentente and the big powers to althe Otto to assume the throne is hat he will sign a pledge guaranteethe present boundaries and other erms of existing treaties with regard Anstria and the succession states. In France it is argued that a Hapsrestoration would give Austria ex lease on life, free from German tonitation of any kind.

STRETARY OF THE TREASURY WASHINGTON sington from a month's vacation, the press that he has selected Chicago as the center of a "model" ental district in which his de-Minimate will make an earnest effort to make an carried to make on liquor bootlegging. can't say that we are being or that we have picked out an tay mark for our model," Mr. Mor-

declared that the new alcohol the unit at Chicago, from which activities the will be directed in a district emracing Illinois, Indiana, and Wisconwill be made the object of intensive study while a vigorous camcheating bootleggers.

Mr. Morgenthau knows he is faced with a monumental task. Reports to his agents have indicated that great volumes of the hard liquors and wines being peddled in the country as the genuine article are in truth spurious imitations, practically as bad as they were before repeal of prohibition.

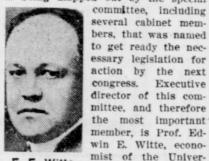

PRESIDENT ROOSEVELT returned to the mainland from his Hawaiian cruise. The Houston and the New Orleans moved up the Oregon coast, stopped briefly at Astoria and entered the Columbia river. The Presidential party debarked at Portland and almost immediately boarded a train which carried them rapidly eastward. Stops were made at the Bonneville project in Oregon and the Grand Coulee irrigation and power project in Washington. Mr. Roosevelt spent Sunday in Glacier national park and then continued his journey home-

IN ITS monthly survey of business the American Federation of Labor issued a warning that the enormous expenditures of the government for emergency needs and the artificial increase of buying power, if continued, will lead to currency inflation to meet the huge accumulating deficits.

It called attention to the steadily mounting tax burden, the extension of the relief rolls, the decline in bus iness credit with the increase of government borrowing and the failure of NRA to put men to work in industry.

"The government cannot go on borrowing more than its income for very long," the statement said. "We can not go on increasing buying power in this way without a general expansion of production and consumption. Industry cannot pull itself up by its own boot straps."

ONE of Mr. Roosevelt's pet projects, the program for greater economic and social security, already is being mapped out by the special committee, including several cabinet mem-

E. E. Witte

sity of Wisconsin faculty. Professor Witte has been rather active in Wisconsin politics as a La Follette progressive and has advanced ideas along the lines on which he is now working.

One of the main gram is the gradual decentralization of industry and this has been got under way already through the establishment of homestead projects in several localities. The purpose is to remove thousands of workers from tenement districts in large cities to areas where their standard of living could be raised. Officials believe that greater economic security will result through home ownership with small tracts of land.

There is now under consideration a related plan designed to offer to farmers who have suffered severely from the drouth a haven in Alaska. Jacob Baker, assistant chief of the federal emergency relief administration, has just completed a survey of a million acres of fertile land in the Mantanuska valley and has been discussing with Gov. John Troy the feasibility of taking 2,500 farm families up there as a federal colony.

S HARP criticism of the tender handling of deportable aliens by the Department of Labor has brought results, following the disclosure that Russia no arrangements were made for the deportation of Russian Reds. To straighten out this situation Secretary Perkins has called back into service Walter W. Husband, a Vermont Republican who was assistant secretary of labor under Presidents Hoover and Coolidge. Only a month, or two ago he was dropped to make room for Arthur Altmeyer of Wisconsin. Mr. Husband has been made a special assistant to Secretary Perkins and may be sent to Moscow.

WILLIAM LANGER, deposed as governor of North Dakota because of his conviction on federal charges of conspiring to solicit political contributions from

federal relief workers, and who was renominated for governor by the Republicans, has withdrawn from the race. The Republican central committee promptly selected Mrs. Langer to head the ticket, and if she wins, the victory will be hailed as Mrs. William a vindication of her

husband-just as Jim Ferguson of Texas once was "vindicated" by the election of his wife, Mrs. Langer, a member of a family socially prominent in New York, has never before taken part in politics. She is a home-loving woman and the mother of four daughters. Her opponent in the fall election will be Thomas H. Moodie, a Williston newspaper man who was nominated by the

Langer

Hillar diplomat and had been apply the eran diplomat apply th was a man of engaging personality, small parachute.

MRS. ANNA ROOSEVELT DALL, only daughter of the President, obtained a divorce from her husband, Curtis Dall of New York, in swift proceedings at Minden, Nev. The charge was "extreme cruelty," and the ludge, "out of deference to the President of the United States," held the trial behind closed doors. The case was not contested by Mr. Dall. The custody of the children, "Sistie" and "Buzzie," was determined in a writ-

but not made public. MARTIAL law in Minneapolis, decreed by Gov. Floyd B. Olson because of rioting incidental to the strike of teamsters there, proved ob-

ten agreement approved by the court

noxious to almost everybody and both the trucking firms and their 7,000 striking drivers asked for its dissolution. At the same time Adjutant General Walsh announced that the "insurrection" had been suppressed. Still the governor declined to withdraw the state

troops. Additional trucks were given military permits to operate, and a ban against those in interstate commerce was revoked because its legality was in doubt. Beer trucks, however, were removed from the privileged list and were forbidden use of the streets on the ground that they did not furnish a necessary service.

At a mass meeting of union laborers the leaders demanded the withdrawal of the troops, the secretary of the truck drivers' union charging that the soldiers were "little more than strike-

Governor Olson's reply to this was to have the strikers' headquarters raided and their three leaders arrested. This naturally enraged the truck drivers and there was considerable

Notwithstanding all this, the federal mediators, Father Haas and E. J. Dunnigan, were hopeful of bringing about a peaceful agreement in the near fu-

Riots in Kohler Village, Wis., in which two men were killed, led Gov. A. G. Schemedeman to place the community under martial control, and 600 members of the National Guard were sent there. During the riot the police and deputies used tear gas bombs and blank cartridges and where these failed to disperse the mob, they opened fire with loaded shells. The officer commanding the Guardsmen ordered the disbanding of the force of special deputies and permitted the strikers to resume peaceful picketing of the Koh-

ler plant. Longshoremen of the Pacific coast ended their two-month long strike and returned to their jobs in all the ports, as did the marine workers. Pending arbitration by the federal board, stevedores will be employed by employercontrolled hiring halls under supervision of observers representing the board. Control of the hiring halls was the chief issue in the strike and is still to be settled by the arbitrators, along with the questions of increased wages, shorter working hours and improved conditions.

trade, announced that in an effort to recapture some of America's markets abroad the so-called Second Export-Import bank was ready to finance American shipments to any country in the world.

Hitherto this second bank has dealt only with Cuban trade, while the first bank was created to handle Russian business. Thus far the Russian bank has been moribund because Russia has failed to pay her war debts to this country.

Short term, intermediate, and long term credit will be offered to American shippers who need financing to push through deals abroad, Peek said. He defined short term credits as those of less than 180 days, intermediate credits as those maturing in 180 days to 12 months, and long term credits as those with maturities between one

SENATOR HUEY P. LONG and Mayor T. Semmes Walmsley of New Orleans were having another lively fight in the southern city. Governor Allen, one of Long's henchmen, mobilized 500 of the state troops and seized the registration office and when President Roosevelt recognized its files, and the soldiers also were ordered to search out the city's red light district and gambling houses. The mayor increased his police forces to 1,400 and for a time there was prospect of "civil war."

Walmsley said the "moral crusade" was just a "smoke screen" to conceal the senator's real purpose of taking over the city government and influencing the primary election in September, in which both he and Long are supporting rival candidates.

JAPAN'S hopes for naval equality with Great Britain and the United States were dashed by a frank statement by Secretary of the Navy Swanson to the effect that, in his personal opinion, while the United States might favor a slash of 20 per cent in naval armaments, it would strongly oppose any realignment of existing naval ratios for the principal powers.

"I take the same position I always have," Secretary Swanson said. "The naval powers met in London and distributed naval strength as they thought just and right. Naval strength is relative. If we abandon the ratios there is no telling where we shall go."

officers far into the stratosphere, made a brave start from near Rapid City, S. D., rose to a height of 60,000 feet and then came to grief. Great rips appeared in the fabric of the bag and it came down rapidly and erratically, falling with its gondola 12 miles from Holdredge, Neb. Maj. W. E. Kepner, Capt. Orvil Anderson and Capt, Albert Stevens "bailed out" and with the aid of their parachutes landed unhurt. But all their expensive and elaborate scientific equipment, with the exception of the spectograph, was destroyed when the gondola crashed. The spectograph had been hung outside and floated to earth on a separate

Badger State « Happenings »

Milwaukee - Milwaukee tugboat operators returned to work after a two month strike, during which time lake shipping was considerably hampered.

Waupun-Contracts for an aeration, softening and filtration plant for this city were let by the board of public works as approved by the city council.

Monroe -- Southern Wisconsin's heese producing holiday opened Aug. I with about 90 per cent of all factories in this area skimming their milk and selling into the butter, cream and casein markets.

Kenosha-City Manager H. C. Laugh-

lin has announced that a specially equipped automobile would be added to the city's life saving equipment. It is to be manned by expert life savers trained for every emergency. Markesan-Ferdinand Pollash started on his second century, July 31.

Here to help him celebrate his one hundredth birthday were his five children, 34 grandchildren and 23 great grandchildren who gathered for a family picnic. Madison-The state board of health threatened to begin mandamus action in district court to force the city of

Oshkosh to construct a sewage treat-

ment plant if the city's officials stick to their avowed decision to ignore the board's order of June 2. Green Bay - A licensed commercial oilot, Alfred H. Brush, 29, Sheffield, Pa., and his passenger, Cleo Sprague, 22, Green Bay beauty operator, were killed when Brush, flying low to land

at the local airport, struck the top of

a parked plane and crashed.

Madison-The appointment of Maud A. Tollefson, Vernon county public health nurse, as advisory nurse on the staff of the state board of health was announced here. She will fill the vacancy caused by the resignation of Edith L. Olson in March, 1933.

Wausau - Mrs. Richard Zunker, 35, was killed by lightning while working on a load of grain on the Zunker farm near here. The bolt also killed the two horses, stunned her husband and caused a fire that destroyed the grain. She was the mother of three children

Madison - Wisconsin's "take" from the new deal has already reached the huge total of a quarter of a billion dollars and is expected to mount to an eventual figure of \$300,000,000. Compared with the \$43,422,838 Wisconsin paid in federal taxes during the fiscal year which ended June 30, this represents a tidy balance in favor of the

Madison - The emergency banking program proclaimed by Gov. Schmedeman following the crisis of March. 1933, was declared officially ended by the governor. Gov. Schmedeman said GEORGE N. PEEK, President Roose-velt's special adviser on foreign the \$3,135,300 in bank scrip issued by the state banking department marks the definite end of the banking emergency.

Eagle River-An attack on the constitutionality of the county commission government in Vilas county, brought by several town chairmen against five commissioners elected in April, has been overruled by Circuit Judge A. H. Reid of Wausau. A special election was held in April, 1933, at which the electors voted to adopt the commissioner form of government.

Stevens Point-The deaths of Mrs. Rose Plasky and her son, Raymond, 22, and the illness of three other sons, Albert, Joseph and Robert, were caused by eating home canned fish that had spoiled, according to a report received by Coroner Victor S. Prais from Dr. F. E. Dollert, Milwaukee pathologist, following autopsies here. The three surviving brothers are recovering.

Merrill - A terrific rain and hail storm accompanied by lightning spread new desolation over the rural areas surrounding Merrill. One barn was struck by lightning and destroyed by fire and vast acreages of crops, especially corn, were damaged by the hail. Grains, still standing, were threshed out by the downpour. Hopes of a good

Juneau-With more funds received by the Production Credit association here, the association has been able to make cash loans for the past several weeks." In all cases where there is sufficient security, loans are closed in two to five days. Cash is available as soon as the loans are approved. A flood of applications are being received daily from the three counties being served by the association. The organization serves Dodge, Washington and Ozaukee counties.

Madison-A tub of butter weighing three-fourths of a ton will be on exhibit at the 84th Wisconsin State Fair in Milwaukee, Aug. 25 to 31. The state bureau of purchases issued requests for bids to all buttermakers and creameries of the state. The tub of butter will match Goliath, the one-ton cheese which will feature the cheese display

Merrill-Mrs. Leora Mae, operator of EXPLORER," the huge balloon a downtown beauty shop, was fined \$50 and costs in county court for operata downtown beauty shop, was fined \$50 ing without a cosmetician's license, her

> Bayfield-Mike Gordon, a full blooded Chippewa Indian and a native of Bayfield, started out in a canoe to attend the American Legion national convention in Miami, Fla., as a delegate. He expects to reach Miami about Oct. 20, covering 60 miles a day.

Watertown-Gust Kollath, route 2. Watertown, has been declared the winner in the Daily Times' tall corn contest. The tall stalk measured 14 feet, one and one-half inches. A total of 56 stalks of corn were entered in the Madison—The public service commis-sion ordered the Princeton city electric utility to reduce its rates \$3,100 a year by the use of a fixed charge schedule.

Stoughton-Two persons were killed and six others injured, three seriously, when two automobiles collided at an intersection on highway 106, three miles west of here.

Oconto-In contrast to former years when candidates were begged to run for office, 18 democrats announced their candidacy for Oconto county offices at the county democrat convention held at Lena

Manawa-Falling from a load of hay in her barn and landing on a grain binder, Mrs. Albert Hass, town of Little Wolf, suffered fractures of her right arm, left shoulder and one rib. She was taken to a New London

Madison - Substantial improvement in corn, grain, and cash crops resulting from June and July rains which reached most Wisconsin counties in good amounts was cited in a bulletin by the state and federal crop reportng service.

Eau Claire-The Lange Canning Co. has completed its late pea pack. The pack ran about 60 per cent of average. officials said, as compared with a 25 per cent pack, which was all the early peas produced. The early summer drought almost destroyed the crop.

Milwaukee - Theodore Kronshage, Jr., 64 widely known Milwaukee lawyer, chairman of the Wisconsin public service commission, and for years an outstanding figure in business, politics and education in this state, died of heart trouble at his Fox Point home.

Madison-The village of Eagle River was ordered again by the state public service commission to restore \$8,-638 of funds which the commission claimed it diverted improperly from the municipal water utility. The commission's order affirms its May 16

Plattevile - Circuit Judge Sherman E. Smalley declined to grant the state's application for an injunction against Monte Tarrell, barber here, accused of violating the barbers' code in a shop at his home. The hearing climaxed three months of controversy over the

Lake Mills-The local plant of Libby, McNeil & Libby is expected to provide work for approximately 100 persons as a result of a government meat packing contract. Necessary alterations are now being made at the plant. It is expected that canning will begin in the next few days.

Milwaukee - The \$181.900 gas and electric rate reduction for about 20,-000 Madison consumers by the state public service commission will not be contested by the Madison Gas and Electric company, R. B. Brown, president of the company, said here. The new rates go into effect Aug. 21.

Fond du Lac-The convention of the Wisconsin Shoe Retailers' association voted unanimously to oppose any change in the present code for the trade, declaring, in spite of some objections that the code favors large manufacturers, that the "little fellow" has obtained unexpected benefits.

Oshkosh - State Senator Merritt F. White of Winneconn died after a year's illness. He was 69. A republican, White was first elected to the enate for the 1911 and 1933 sessions and had served continuously since 1923. He was village president for 30 years and a member of the Winnebago county board for more than a quarter of a

Madison-A suit filed in circuit court here by the Farmers' Store company for recovery of a levy of \$5,067 was expected to test constitutionality of the Wisconsin chain store tax enacted in 1933. The complaint charges that unequalities and injustices typify operation of the tax law. The company asserts that its stores are not characteristic of chains. Each unit buys individually, and the company does not use central warehousing officials pointed out. Moreover, it was said, 99 per cent of the 1,600 stockholders are residents of the communities in which the stores are located.

Kohler - Marching columns of national guardsmen with full field equipcorn crop were ruined in the storm ment took over the police duties of the village of Kohler after a night of bloody fighting between deputies and a strike mob which resulted in two dead and 39 wounded. Under their watchful eyes peaceful picketing of the plant was resumed by the strikers and all evidences of the night of battle were removed. Officers of the militia made it plain that this is not martial law, under which all civil government is assumed by the soldiers, in this case the guardsmen are taking over the duties of preserving order and nothing more.

> Antigo-The Rev. A. A. Bemowski, 46, died of injuries suffered when he fell 30 feet while inspecting construction work for the new St. Hyacinth church and rectory of which he was pastor. He tumbled from an elevator into a pile of stones. He had been pastor of the church for the past 11

> Baraboo-The first airport project in Sauk county and one of the largest in the state is the Lake Delton project which is now under way. More than 100 men are to be employed.

Cumberland - The business men's club has joined with the Legion post to put on the annual rufabaga festival. A street carnival and pavement dance will be held to celebrate the completion of the paving of the main thoroughfare. The affair will be held Sept. 14 and 15.

Grantsburg-Louis Seymour, Reedsburg, has assumed the duties of game warden for Burnett county. The vacancy was caused by the promotion of former warden Barney Devine to chief

"RHEUMATIC" PAINS

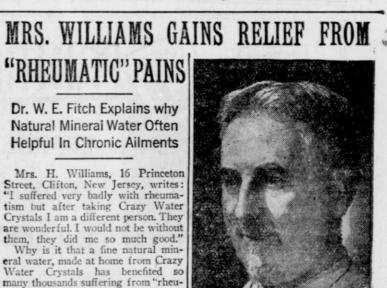

Dr. W. E. Fitch Explains why Natural Mineral Water Often Helpful In Chronic Ailments

Mrs. H. Williams, 16 Princeton Street, Clifton, New Jersey, writes: "I suffered very badly with rheumatism but after taking Crazy Water Crystals I am a different person. They are wonderful. I would not be without them, they did me so much good." Why is it that a fine natural mineral water, made at home from Crazy Water Crystals has benefited so many thousands suffering from "rheumatic" pains and other chronic ail-

Dr. W. E. Fitch, noted medical authority on mineral water, in a recent radio talk over the National Broadcasting System stated: "For many years, it has been a mys-

tery even to the medical world just how natural mineral waters produced the amazing results that have made them so popular. Scientific and medical discoveries and research in the last few years, however, are penetrating these secrets of Nature, so that now medical men have a new understanding of the reasons for the power of natural mineral water to relieve suffering. One of these reasons is ization, by which is meant that not only the predominating chemical constituents of a mirroral what is known as secondary mineralents of a mineral water are of aid but also what are known as the secondary minerals-those present in infinitesimal quantities. The very fact of their being present in this way causes them to have a much more powerful systemic effect than if they were there in larger quantities. Let me recommend wholeheartedly to sufferers from chronic diseases the use of a suitable natural mineral water as a powerful adjuvant."

If you are suffering from "rheumatic" pains, we suggest you investi-

William Edward Fitch, M. D. gate Crazy Water Crystals immediately. Ask any of the millions who

have used them. Crazy Water Crystals are just minerals crystallized from a great natural mineral water flowing at Mineral Wells, Texas, and Thorndale, Texas, a type of mineral water that has built one of the world's greatest health resorts. Nothing is added to the minerals, and by dissolving them in plain water you make a fine mineral water at home at a cost of only a few cents a

A standard sized package, sufficient for three weeks mineral water treatment in your own home costs Water Co., Mineral Wells, Texas.

In the larger cities there are exclusive Crazy Water Crystal stores. See your telephone book.

▼ 00D printing service consists of more than dewlivering a certain amount of ink and paper in the form ordered. Good printing consists of careful consideration as to the form in which the idea is to be presented, thoughtful selection of type faces, the right grade, weight and color of the paper, accurate composition and skillful printing-That is the kind of printing service you may expect from our shop-and it costs no more than inferior

No matter what your printing job may be or in what quantities, we are confident you will find our estimate of cost most interesting, workmanship most efficient and promptness in delivery most gratifying. If you find it inconvenient to visit our office, phone and we will call-You are under no obligation in asking us for an estimate.

G OOD nutrition demands that a certain amount of our food supply us with what is known as protein. These foods are known to the scientists as protein-bearing foods, and not any two give us exactly the same contribution. Protein itself of whatever kind is a very complicated material, containing different amounts of the substances known as amino acids which number twenty or more, and of which we need greater or smaller amounts. This need not concern us if we use a variety of the foods which are high in total protein in our diets. as one will supplement another.

Some foods, such as milk and meat and other animal protein, will any one of them give us all that we need. Cereals, which contain more protein than we usually consider them to have. find in milk just what they lack as far as protein is concerned. You see the custom of serving bread with milk and cereals with the same liquid is based on more than the contribution which milk makes in flavor and the fact that it adds moisture to a food which is rather too dry for our taste when eaten by itself.

Protein foods when they are absorbed by the blood after they have been digested are first used to rebuild the tissues which have worn out during the day just by the mere act of existing. Children, of course, must use protein for building the new tissues of their growing bodies, and one of the good reasons for allowing each child a quart of milk a day is the contribution it makes on this count. If any protein is left over after the tissues have taken what they want, what is needed for supplying energy will be taken, and then most of the remainder may be deposited as fat, as is the excess of any other food. Many persons have the idea that protein is not fattening because in most reducing diets the proportion of protein is large. That is because we cannot neglect supplying daily protein for the tissues and also because some of the calories which protein may supply are used up in its digestion. If, however, we overeat of protein foods as well as of any other, extra fat will usually result.

Besides the foods mentioned already fish, eggs, cheese, nuts and vegetables known as legumes, which we know as peas, beans and lentils, are well supplied with protein. It would be possible to get what we need from vegetable sources, but our meals would be rather bulky and even the vegetarian usually allows milk and cheese in his diet. As far as the and cost from three to ten pesos a boat bobs up and down. He then pulls food question is concerned, variety is not only the spice of life but its dietetic salvation.

Eggs Soubisse.

- 1 cup sliced cooked onion 4 tablespoons butter
- 3 tablespoons flour
- 2 cups milk

6 eggs

34 teaspoon salt 1/2 teaspoon paprika

Melt butter, stir in flour and sea soning and when well blended add the milk. Stir until smooth and thick. Drop each egg into an individual baking dish. Mix the onion with the sauce and divide among the six dishes. Place

Russians Plan Meeting

to Study Stratosphere Leningrad.-A world conference of authorities on the stratosphere is like-

ly to be held in Russia in 1936. It will coincide with a total eclipse of the sun, which is the most advantageous time to study the upper layers of the air.

This was the proposal voted by a conference of Soviet stratosphere experts here recently. Meanwhile plans are being formu-

lated for a new ascent into the stratosphere this summer. It is not expected that an attempt to beat Russia's own world record height of 63,327 feet will be made.

The intention is to study the stratosphere as much as possible with instruments improved by the knowledge gained from the record ascent.

Watch Lost by U. S. War Vet in France Is Found

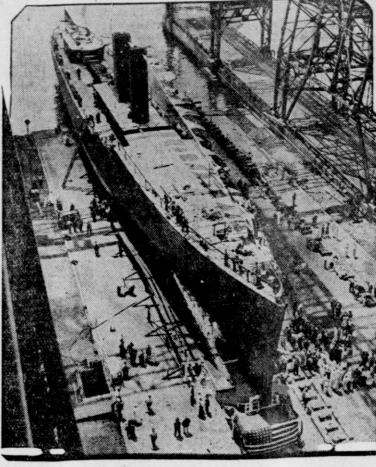

Brockton, Mass.-Henry Noonan lost his watch while serving with the French ambulance unit during the World war. He was notified recently that it had been found. Mrs. Mary O'Neil, of Faribault, Minn., who just came into possession of it, asked in a letter to the Brockton lodge of Elks to locate Noonan for her, because his name and lodge number were inscribed on the back of the watch.

Youthful Fisherman Uses Toy Sailboat as Bobber

Waltham, Mass.-Veteran fishermen can get a few pointers from Paul Milvill, eleven, on how to catch, not only the big ones, but a good many at a time. Paul uses a toy sail beat to which he attaches four lines with haited hooks. The boat goes out about 50 feet with the lines trolling behind bit of furniture, they dot the flat roofs | and when the fish bite the hooks the month. Born of the depression, the | in his fish.

One More German Pocket Battleship

Germany now has three of the "pocket battleships" that she devised to get around the naval limitations imposed by the Versailles treaty. The third, named Admiral Graf Spee, is here seen sliding down the ways at Wilhelmshaven,

Lights of New York By L. L. STEVENSON

places to go. The seashore bungalow There are other summer cities up in the mountains. In addition, there are hundreds of lakes. In fact, the state variety of scenery, except desert, that a vacation lover may desire. Since that is true within commuting distance, during the summer many New Yorkers merely toil in town and sleep and play away from the lights of Broadway. But there are other thousands who cannot do that. For them, the seashore is Coney island, the mountains, the Palisades of New Jersey and the lakes more often than not, the basin of some fountain or maybe just a fireplug shower.

Those thousands, or rather I should say millions, do not live in sections of the city where there is some escape from the effects of the sun. Their dwellings are in the narrow streets of the tenement districts. Their homes are airless and oftentimes dark. For them, there is no escape from the heat. Nights, they crowd the roofs or the parks. Days, they get along as into perambulators and walk with them until the early morning hours afford some relief. It is wearisome, but babies must breathe. And after those all night rambles, the mothers do their housework and cook in kitchens some of which are equipped

with coal or wood stoves. Those street showers are beaches of the tenement youngsters. They shout happily under the cool spray and carry on much like we used to do when we walked out to the old Sycamore, peeled our clothes and enjoyed ourselves in the yellow Scioto. The youngsters of the slums can't go quite that far, however. But they go as far as they can, a single garment satisfying the conventions. Some, however, wear bathing suits. Asked a kid why he did and he replied, "Because it makes me feel like I'm out at Coney." And an old softy turned his head right quick!

Perhaps you've read about Ramon Million. I think the Recording Angel placed a gold mark opposite Ramon Million's name. The only money he has is his name because he's been out of work a long time. He came out

C. Bell Syndicate.-WNU Service

How It Started By Jean Newton

"To Make a Virtue of Necessity" "To MAKE a virtue of necessity" is to pretend to do voluntarily and as a gracious act something that we are really compelled by necessity to do. This is one of the most popular sayings in modern speech, and it has been attributed to Chaucer, who used it in "The Knights Tale" of his Canterbury Tales in this way:

"To maken vertue of necessite." The original of the saying, however, zoes back farther than Chaucer, who wrote in the Fourteenth century. It appeared first in the writings of the great Roman, Quintilian, who is said to have lived from the year forty or forty-two to about a hundred and eighteen A. D. In his famous "Institutiones Oratoriae" he said:

"We give to necessity the praise of virtue." @, Bell Syndicate.-WNU Service.

AN EYEFUL

"What's Boggs' hobby?" "A lawn."

CHAPTER VII

-12-Celia selected a few sprays of lillesalley from the bowl on the and, standing before the mirveen the front windows in the room, fastened them to the of her dress. Her fingers so clamsily that the pin pricked mb. She gave an exclamation tience at the pin and at hert was absurd that she should ittle frightened because Hugh sent Stoney to the station to her instead of going himself. It is ridiculous that her hands should isteady because Hugh at supper, seemed detached, because Janie ook at her accusingly and Uncle ie, who had invited himself, had through the meal like a dread-

told herself that they couldn't y know she had seen Carter in Washington. Yet the feelfright persisted. Not even her lovely reflection framed in the leued gilt of the mirror could resure her entirely. She switched off he ceiling lights leaving only the amer glow of the davenport lamp. Quarter f nine. Hugh would soon be through in he office. He could come to her. It was absurd to be frightened.

She seated herself on the davenport in the circle of amber light. Across the room, in the shadowy mirror, she saw her reflection, her pale yellow ress against the dull upholstery, the owers on her shoulder, the light inting across her hair. This was how Hugh should see her. She folded her hands in her lap and waited with unting impatience for him to come. The telephone in the hall rang shril-

She heard Mrs. Quillen coming to swer it, her heavy step, the rustle of her best black silk. To Mrs. Quillan answering the telephone was an adventure. Celia thought that she yent her time somewhere near the hall waiting for it to ring.

"Hello . . . " boomed Mrs. Quillen. No, the doctor, poor man, is in a sanytarium . . . " (elia knew that she was likely to give details. She did-a dozen times a day . . . "Yes, it's his house." A pause and then a snort of indigna-"Well, why didn't you say so. Tom? I'll have the flat of me hand to- It's for you, Miss Celia," she shouted into the living room. "It's his tricks on me."

If only Mrs. Quillen would learn to bring a message quietly instead of shouting like an auctioneer. That, Celia, supposed, was too much to expect. She walked out into the hall, smoothing away the faint lines which had drawn her brows into something less than m angelic expression. Seating herself on the Chesterfield, she took the telephone from Mrs. Quillen. Mrs. Quillen lagered expectantly. The toe of Cella's slipper tapped against the lor. Mrs. Quillen vanished in a swishby of rusty black silk.

"Hello, Tom . . "So you're home again," came the anilar voice at the other end of the line "I saw you in Washington last

"Did you?" Celia's hand crept up to throat. Then it was Tom's profile the had glimpsed in a passing taxi hen she was saying good-by to Carin front of that shabby hotel. Aunt Lucy wasn't at home," she contaed burriedly. "I stayed over-night A the house with Maggie."

Why did you go?" Tom asked. The been feeling miserable." The the tarp strings were plaintive. Had Tom told Janie or Hugh? She had to know, "Have you seen any of

Cella hung up the receiver with an lignant click, Decidedly, there were times when she was fond of Tom and thes when she didn't like him at all. regretted that he had seen her Janie or Hugh . . .

She wandered restlessly up and Carter. If she lost Hugh, how could wept. She worked herself into a state down the hall, paused to look at herself in the glass of a picture. Her lovely face hovered wraith-like over birch-trees and a vista of painted blue take. The Spirit of the Forest. A lady turned by enchantment into a white birch-tree.

Janie came out from the office. Janie in a uniform with Kiltie trotting contentedly at her heels

"Isn't Hugh almost through?" Celia "There's one more patient," Janie

Celia thought that Janie was looking at her with too intent a gaze. "What's the matter?" she asked

quickly. "I was wondering if you are in a good humor."

"Why Janie-dear!" Celia's eyes think she was ever anything except sweet and sympathetic

Janie ignored the mute reproach, 'Rachel's niece is going to be a bridesmaid." she said. "Do you mind if I give her your old leghorn hat?" "Of course not." Celia pictured

herself in the role of a Lady Bountiful, outfitting a Shantytown bridesmaid. "Give her that old pink dress," she added generously. "I never can wear it again." Janie went off upstairs with the

small black dog at her heels. Celia listened, for a moment, at the office door. She heard Hugh dismiss the last patient, heard him close the door and turn the key in the lock. Then she returned quickly to the living room, seated herself on the davenport. fluttered the pages of a magazine

Hugh found her there a few moments later. His face was grave. There were no pleasant laughing crinkles around his ruddy-brown eyes. "Celia." he asked, standing quite still in the center of the room, "why

did you run away?" "Run away?" She lifted eyes that were filled with tender reproach, "You make it sound so-so planned." "Wasn't it?" He looked at her

steadily. "Planned!" She laughed as though the idea amused her. It wasn't an entirely successful laugh. She knew that and hurried on. "I just happened to notice the sign for the Washington express in Broad street and 1 thought I'd surprise Aunt Lucy. I've been feeling miserable." The silver harp strings quivered. "You haven't been very considerate, Hugh."

He paid no attention to that "You knew that Muriel and Mrs. Grove were not in Washington." It wasn't a question. He stated it simply as a fact. "You knew they had

"Who told you that?" It was really too bad of Hugh to treat her as though she were a prisoner on the witness stand and he was a district attorney. She curbed with difficulty her mount ing rage. Anger wasn't becoming. "Does it matter?" Hugh asked

Janie had told him. Janie wasn't dear little girl. Janie was a sneak! "Did Janie know?" she asked gently. She may have thought that she told me." Her manner indicated that she wouldn't accuse Janie for the world. Hugh could infer what he liked "Come here, darling." She smoothed the davenport cushions invitingly.

"You look dreadfully tired." Hugh remained where he had been standing in the center of the room. "We might as well get this business

straightened out," he said evenly. "I know you haven't been happy, Celia. know you haven't been happy with me. You went to Washington to see

Carter Shelby." Celia's heart thumped. A flush which she hated crept into her cheeks. She must keep cool. He was only sus-

pecting. He didn't really know. "Why, Hugh!" The silver harp strings were muted with reproach.

"You dropped his address from your bag." Hugh's voice was oddly impersonal. It sounded as though he was discussing a matter of no very great importance. "You had torn off the flap of an envelope. Uncle Charlie found it in the station."

Uncle Charlie! That dreadful chuckling old man! "Carter took me out for dinner," she said lightly, "because Aunt Lucy wasn't at home. Certainly you don't

Celia Hung Up the Receiver With an Indignant Click.

mind that. You aren't medieval enough to believe that I can't have friends. That's really quaint of you, Hugh." She saw in a flash she had said

something wrong. Hugh winced slightly. But his voice was steady enough. "That isn't the question, Celia," he continued patiently. "The thing that matters is that you haven't been happy

"I wouldn't have gone if I had with me." known you would mind." Celia's fingers pleated the lace on her handkerchief. "But Carter is-is almost a relative. He's going to marry Muriel."

"So that's why you came back There was no anger in Hugh's home." steady voice. Only weariness and a Cartier last night. But he hadn't steady voice. Only well experienced sort of compassion. Celia experienced sort of compassion. She had lost a moment of utter panic. She had lost

she explain it in a fashion which would be flattering to herself? "Hugh!" She crossed to him. Her hands fluttered against his coat lapels, "You're wrong, darling. You don't understand."

She clung to him, trembling and shaken. The silver harp strings sobbed a plaintive lament. She loved him. The dear big silly, didn't he know? She would die if he ever stopped loving her. She didn't mind living in the Square. She would always be happy with Hugh. Her breath came in broken snatches. Her lips wivered. Her eyes brimmed over

with tears. She thought that he believed her. His arms seemed to tighten. How appealing she must look all teary and shaken like this! She glanced away were reproachful. That Janie should from Hugh, saw herself in the mirror. all her wistful loveliness framed in curlicues of gilt. The picture charmed her. She could not take her eyes away.

Suddenly Hugh laughed, not the short bitter laugh of a disillusioned lover but a tolerant teasing laugh provoked by genuine amusement. She saw that he had caught her looking past him into the mirror.

"You're superb, Celia," he said "That was a magnificent perform-

He gently detached her clinging hands, turned, walked out of the room II

Something had happened. Hugh realized as the days grew longer and the locusts blossomed again that something definitely had happened. He told himself, at first, that his feeling for Celia had altered, that he saw her. now, not as a lovely image which he had created but as she really was, capricious, a little selfish, given to dramatizing herself.

He tried to make himself believe that it was better so. The chances for their happiness together would be greater if he realized and accepted her limitations, if he could think of her as a human being and not as some thing he had imagined. He made an attempt to adjust his emotions. He discovered, one evening, that he had no emotions left to be adjusted.

He came into the garden, on that particular evening, through the alleyway gate. The garden was fragrant with lilacs and the drifting petals of the apple blossoms. The night was mild and sparkling with stars. Hugh walked under the arbor, breathing in the fragrance of spring, wondering if Janie had gone to bed. She would be glad to know that old Mrs. Pope had finally given in, that Miss Ellie's department store clerk was, at that very moment, sitting beside the couch where Miss Ellie sat, pale but radiant, about to realize a happiness long deferred. He thought he had managed that rather well. It pleased him to know that his scheme had worked. He wanted to tell Janie.

Through the foliage of the arbor he saw two figures seated beneath the cataipa tree. One of them was Celia. He heard her laugh, saw her head, a faint blur through the shadows. She was talking to Tom McAllister.

"Hello," Hugh called. There was a stir under the catalpa tree. Celia ran across the grass to

meet him. "I was waiting for you, Hugh," she said slipping her arm through his. "You're very much dressed up." He

fles of tulle. "Tom wants us to go to the club, Celia explained. "it's a sort of farewell party." Tom

saw beneath her shawl the filmy ruf-

added. "I'm off to California the first of next week." "Sorry," Hugh said. "I can't leave

the house tonight. I may be called out

"Hugh!" There was a note of reproach in Celia's soft voice.

He gently pressed her hand. "You run along with Tom," he said. "and have a very nice time."

He didn't mind Celia going with Tom. That was something to think about. He thought about it as he changed into dressing gown and slippers and switched on the reading lamp in his room. He had a new detective novel. Janie would soon return from an evening at Aunt Rhoda's. He could tell her about Miss Ellie and they would raid the ice box for something

to eat. There was a gentle rap at the door, "Come in." he called, thinking that Janie had returned.

It was Celia. "I couldn't go without you," she

said. Three months ago the fact that she had given up a party to stay at home with him would have made him very happy. Tonight he was conscious of nothing more stirring than a vague irritation.

"You should have gone," he said, regretfully closing the book. "I'd rather stay here with you." She pulled at his hands. "Come down into the living room and talk to me."

They sat on the davenport in the circle of amber light. Celia's head rested against his shoulder. Her fragrance no longer stirred him. Something was gone forever. She talked about the house he must build for her at the far end of Manor street. Hugh tried to be enthusiastic. He did not succeed. He kissed her. He held her close. He felt nothing at all.

Janie came in from Aunt Rhoda's. She paused for a moment at the living room door. Celia greeted her cool-Her manner indicated that she and Hugh preferred to be alone. Hugh was annoyed. There was no reason on earth why Celia should be rude to

"Come in, young fellow," he said. Janie. thinking how nice Janie looked in her pert little orange tam. "I want to tell you about Mrs. Ellie and old Mrs.

Celia stiffened against his arm Janie yawned elaborately. "I'm tired," she said. "I'm going on

He heard her walking up the stairs up to bed." calling to Kiltie in her husky charming voice. He wanted to talk to Janie. But Janie had gone. Celia was laying hardwood floors in the house at the far end of Manor street. Hugh said

nothing at all. "You aren't listening, Hugh." "Of course I am." But Celia did not believe him. She

of hysteria. He attempted to calm her. He finally carried her upstairs to bed. Janie came with comfort and aromatics. Hugh left her bathing Celia's brow, talking to her in soothing murmurs. He returned to his room and tried to think it out. He no longer loved pretty Celia. What was

the honorable thing to do? There were similar scenes in the days that followed: tears, reproaches, hints at desperate measures. Hugh tried to reason with Celia.

"I'm so miserable," she wailed, "You needn't be. You enjoy it

Celia." "You don't understand me, Hugh." "I am trying to. Perhaps I am very stupid. Do you want to break the engagement?"

She never gave him a definite answer. He would not break the engagement himself. They both were miserable. Celia used every trick in her well-filled bag. At times she was feverishly gay. She made engagements with half a dozen available young men. When she saw that Hugh seemed relieved, she changed her tactics. She grew wan and dejected. There were shadows under her eyes. She ate scarcely anything at all. Hugh wondered about it until, hearing

Celia Used Every Trick in Wer Well-Filled Bag.

sounds in the kitchen one night, he went downstairs to find her lunching heartily on odds and ends from the ice box. Celia did not know that he had seen her. He went back upstairs, relieved, indignant, faintly amused, Janie would not permit him to talk to her about Celia. She seemed pur- expert advice. President Roosevelt professional. trying not to interfere. He did not to place the blame. because he had been so drawn to her Had he fallen in love with Janie?

III "That's a heavy load for a little girl." Hugh, standing in the lower hall watched Janie coming down the stairs with a towering armload of books. Kiltie, as usual, was frisk-

ing around her feet. "I've found all the ones that Father likes," she said. "It is a heavy load."

"Wait a minute," Hugh called back. "I can manage," she answered. "Kiltie, get out of my way. Call him, Hugh." Hugh called. He whistled inviting-

ly. The small black dog paid no attention. Janie tripped, felt herself falling amid a shower of books. She lay quite still with her head against the edge of the lowest step. She was stunned for only a moment.

Consciousness returned. Her head ached. But that was all. She was about to open her eyes. Then something beautiful happened. Hugh was kneeling beside her, holding her close. There was a wetness on

her cheeks and Janie, just then, certainly was not crying. "Darling . . . darling . . .

Washington.-While Europe stews and wonders what eventually is coming out of the Aus-Austria Causes trian trouble, there U. S. Worry is many a furrowed brow in Washington these days concerning our own nation's status in case the need for a sturdy national defense arises. The worries of our own government are not lessened by the weaknesses which Newton D. Baker, former secretary of war, and his committee of experts reported they had observed in our military air service. But from what I can learn, there is some satisfaction among those charged with responsibility of government because the vulnerable spots were pointed out before we are called upon to resort to that branch of our national defense. Having knowledge of the exact situyears of bumper crops again are upon ation surely should be of some help. us and a gigantic surplus of world wheat stares farmers in the face. The Baker board, as it has come to

be known, was the fifteenth in sixteen years that has given study to our air force. It apparently went straight to the core of the trouble and said the chief problem, in effect, was a hit or miss policy with respect to air development. Since congress is the policy-making body of our nation, it must accept the responsibility, but my own research and acquaintance with matters relating to the appropriation of funds for the government leads me to believe that the budget bureau has been none too wise in determining expenditures for recommendation to congress.

Recommendations by the Baker board call first for establishment of a military air force of more than 2,200 planes, a force second to none in the world. An air force of young men is advised, a corps of highly trained men who know how to handle their planes that, in event of attacks, the air service will not find itself sacrificing good blood such as occurred in the comparatively safe business of transporting the mails. The board said the government should encourage an air industry in the United States to provide an adequate resource for the nation. If that is done, the report pointed out, there is a reserve strength developed that provides for revenue in peace and strength in war.

I have little confidence that congress is going to pay much attention to the Baker board's conclusions. It seldom has paid any attention to such posely to avoid him. She took long asked the board to go to the bottom walks with Kiltie for company. Dur- of the problem, however, and it has ing office hours she was amusingly done so. At least the country is informed, and if its representatives in nings at the rectory, at Great-uncle | the house or the senate do not per-Charlie's, with the quarreling Mantells. form in a way that will correct the Hugh did not know that she was condition, then we all will know where

dream that she was alternately radiant | For example, the report proposes and plunged into the depths of despair | that there be adequate and continuing longer in love with Celia. He did not air service of the army. In that recknow that she was attempting to ad- ommendation the board struck a key just herself to a new situation. He note. It said "continuing" appropriathought he had offended her. Was it tions were necessary, and anyone can see such a view is correct because that night on the bench in the Square? otherwise a big sum is appropriated one year and wasted work results when the brothers who hold the purse strings say in the next year that they are not going to allow any more such expenditures. It is exactly as though one started to build a house and after the walls were up, the money ran out and no roof could be put on. The structure remains incomplete, no good

to anyone. This question of appropriations has been the bone of contention all along. I do not mean to say that the "brains' of the War department always have been capable of guiding the program effectively, but if congress had pursued a sound policy, a policy that at least was consistent, I am assured by many competent authorities the army air service would not be where it is

today. The Baker board, like most of its predecessors, declined to support the much agitated proposal for an air service detached from the army and navy. Only one member of the board, James Doolittle, the well known fiver, held that view. The board as a whole thought the air service ought to be an integral part of the military or naval branches of the service, and there is every evidence that this is one section of the recommendation out argument. The board saw many air service, the chief of which is the lack of co-ordination in defense, as well as in attack, in event of war.

But while the Baker report offers numerous technical improvements for consideration and advocates changes here and there in methods of developing the air service, those folks in her, not because he was lonely and Washington who have witnessed the fate of the earlier surveys hold little hope for good to come from this one.

> Mother nature has her own way of working things out and in her functions apparently Mother Nature she does not need Needs No Help or wish the aid of professional theorists. The current proof of this is the drouth and the effect it is having on the agricultural adjustment program. There is very serious consideration being given to suspension of the scheme for curtailing production. Secretary Wallace and Chester Davis, the agricultural administrator, are worried

over the prospects although they naturally are saying little. It is known, however, that one of the things they are thinking about is abandonment of the contracts for curtailment of crops because the extreme drouth has made the reduction plans unworkable and even dangerous to the country's food stocks. So it begins to appear that there

will have to be revision of the agricultural program upon which the administration has worked so desperately and upon which it has expended so much money.

The Agricultural department is au-

thority for the statement that the drouth already has removed any probability of a wheat surplus. To this shortage has been added unfavorable conditions abroad that have resulted in a general world total of wheat probably as much as 400,000,000 bushels below what is held to be an average yield. This is happening just when many of the wheat-growing nations of the world were approaching the point of a binding agreement, that would hold down the quantity of wheat entering into export trade and thereby force crop reduction. But the authorities tell me the movement for an international agreement naturally is going to die. There being no dire necessity for it, the interest behind it will lag. I suppose there will be few, if any, further moves made on it until

That is usually the case. It likely will be some weeks before the Agricultural department can formulate a definite course of action as to revision of the crop reduction plans. Some authorities think it advisable to hold the farmers under reduction contracts, at least, for the time being and this probably will be done. The course to be pursued necessarily will be governed to some extent by the weather conditions of the late summer and fall, yet it can be said to be certain now that the AAA authorities have learned much about their own program as a result of the drouth.

President Roosevelt's return

eagerly awaited among some of the "brain trust" who Brain Trust's are variously re-Little War ported in Washington as desiring the Chief Executive to intervene in their own little war. There are a number of minor disputes taking shape among the professors and the so-called young liberals, and I am informed in what I believe to be authentic quarters that anti-administration agents are fomenting more trouble among the group that has served as such important advisers to the President during his term. Obviously, none will admit it, but there is every reason to believe that some keen individuals who are not in sympathy with the New Deal are spreading poison among the brain trusters about each other. The natural result of this, of course, is to cause the young liberals to be suspicious of each other and that kind of suspicion nearly always is followed by an open

The stories in current circulation in Washington are that some of the brain trusters are at outs with Raymond Moley, for a time the No. 1 brain trust man with the President but now the editor of a magazine, and that because she knew that he was no appropriations for expansion of the several of those still in the administration are saying unkind things about others who still are serving here. It is a situation not without its humorous side, and from having seen such factions develop before in the government, I imagine this one will turn out to be a real comedy. The current situation holds more humor because without doubt there never was a group of persons who took themselves more seriously than have the brain trusters. Without deprecating their native ability at all, it simply must be said that the weight of the entire world rests on the shoulders of each one of the brain trust professors, or at least each one thinks the burdens all are his.

. . . The economic events of the last few weeks indicate to some Washington observers that a new See New Crisis crisis is approach-Nearing ing in the depression. August is al-

ways a dull month. September is little better from a business standpoint. After that things usually pick up. To get through the next six weeks with drouth devastating millions of acres and strikes and riots and military rule and uncertainties among business interests as to what the New Deal of the future holds, there necessarily must be a steady hand and calm judgment. On top of this, of course, is the disturbed international situation, and it is not helping the weary old world to settle down.

Since the kind of government management of business that we have had has not taken us out of the depression, the course immediately becomes problematical. Shall we have more of the same, or expand it beyond its present scope, or shall we retrace our steps and go back to the old days? It is to such a problem as this that Mr. Roosevelt is returning and which way he will go is probably the uppermost question in the minds of business interests throughout the country. In the midst of this turbulent condi-

tion, the slimy head of inflation of the currency again is arising. Strangely enough, there are many men now talking about inflation seriously when all of their knowledge and all of their training ordinarily would make of them the bitterest of antagonists to such a course on the part of the federal government. Some of them have been in Washington in recent weeks and I gathered from the arguments they advanced that they sincerely believed inflation would do good for the country as a whole, and for themselves in particular. That is the sad part of it: they seem to think that they can pay off their debts and that the average person can pay off his debts easier with an inflated currency. and, therefore, they want to turn the printing presses loose.

Sound money advocates are becoming worried about the spread of inflation talk, for they know how narrowly the country missed being hurled headlong into uncontrolled inflation last winter by the wild demagogues in congress who haven't yet been ableperhaps they are not capable of it-to think straight on the question of further tampering with our currency.

New Invention Eliminates Changing Dials on Radio to Hear Various Programs

A robot radio which tunes itself on and off different stations, according to a pre-selected schedule, starting and stopping and changing programs automatically over a twelve-hour period, has been perfected by A. Atwater Kent, radio engineer and man-

ufacturer. Once set, the robot or tuneomatic radio provides any combination of programs desired, and after turning itself off at night will go back on again in the morning and serve as an alarm clock. It looks like any other large all-wave radio except for an electric clock set into the front panel. While the mechanism Is described as a complicated problem in radio engineering achievement, the operation is simple.

A series of small holes around the edge of the clock's face mark the quarter hour periods and serve as connecting channels between the time clock arrangement and the tuning mechanism. The latter has sixteen outlets in the form of miniature telephone switchboard cords, two to each of seven stations and providing for fourteen different program periods, with two extra cords for intermission periods. The cords are plugged into the holes at the desired program periods, and the radio then operates automatically, shifting from station to station and program to program, stopping itself and starting again exactly as scheduled. If the self-tuning mechanism is not turned on, it operates like any other radio.

"Blue Grass" Horseman Decries Use of Spurs

A former Kentuckian stood on the sidewalk casually looking over a mounted policeman's horse. The animal was well groomed and full of spirit. Its trappings were flawless. But when the glance of the man from the Blue Grass state fell on the cop's heels he frowned and, turning to a man standing alongside, he exclaimed:

"Those spurs? Why, man, there is no excuse for using them on that horse. He's in good shape and will readily respond to a word from his master. The use of spurs is cruel and should be a thing of the past. If a man down in Kentucky was caught digging spurs into the side of a horse he would be shot on the

"Does Mayor LaGuardia know about it?" asked the man alongside. "I don't know," replied the Kentuckian, "but perhaps if it is called to his notice he will forbid the use of spurs on police horses."-New York Sun.

The Kewaskum Statesman

GETS THE BUSINESS MESSAGE INTO THE HOMES of BUYERS

THE functions of advertising are to search out buyers and inform them of 1 new merchandise styles, explain values and tell where and at what prices they may be had. Getting these business messages delivered in as an efficient and inexpensive manner, as is consistent with good taste, and, through a medium that insures attention and acceptance, is a merchandising problem that was solved years ago by the establishment of the good, reliable and dependable newspapers-The Kewaskum Statesman is a good newspaper-It will get your sales message, Mr. Merchant and Business Man. into the homes of Kewaskum and neighboring buyers. Every week, throughout the year, the Statesman goes into hundreds of Kewaskum homes. Advertising display space in the Statesman is the most economical method of parading your merchandising offerings before an attentive audience who are the home newspaper readers of the Statesman.

COMPLETE ADVERTISING SERVICE

The Statesman is equipped to supply a complete advertising service to Kewaskum business and merchant advertisers. This includes fine merchandise illustrations, attention-compelling layouts and merchandise-moving copy. A phone call will bring a Statesman representative to explain all detail and assist with sales promotions, if desired. Simply dial, 28F1.

SMART MONEY

SMART Money doesn't waste its time racing around into the highways and byways. It sits itself down to a perusal of The Statesman Classified Ads, and if it fails to find what is wanted there, it then places a Statesman Classified, and gets results. No matter what you want to buy or sell you will find The Statesman Classified Ads very inexpensive & most effective

> When you want to place an ad simply dial 28F1

LET **YOUR** WANTS BE KNOWN

RINGING a bell, out on the corner, is an obsolete method of making wants known-The modern way, the 1933 way in Kewaskum, is to read the Classified Ads in The Statesman-or if your want cannot be filled there-to use the Statesman Classified Ads. To place an ad simply dial 28F1 and ask for ADTAKER. The rates are low.

Among to happen to the dollar; the rising level of construction costs; fear that the new securities act is going to deal an-The family resided in Sheboygan other blow to industrial financing;; the growing labor problem; the belief that government will further restrict and July brought record breaking heat regulate business; the prospect of still higher taxes, Surveys indicate that the small business is finding the going 60 years ago has the heat in any one hardest; the increased cost of doing month been so intense over so wide an business is more serious to it than to area nor have such abnormally high the large industry with sizable cash reserves, which can stand financial drain

> is as serious as any. The San Francisco general strike is over, and there is no apparent danger that other cities will have to undergo a similar experience. A number of striking unions have voted heavy majorities in favor of arbitration by a government board. All that is encouraging. But the fact remains-and business leaders know itthat success to them means 100 per cent closed shop industry. There is much bitterness, much anger, much smooth matters over and effect certain labor will continue to be a burning issue for many months to come.

The belief is widely held that the question of future political trends is The big barn on the Kapelle farm was also a dampening influence on business, pressed into service to accommodate and that industry will be quiet until the large number of guests. the results of the November elections are known.

Economic Highlights

Today Central Europe is the madhouse of the world. Great powers are literally sitting on powder-kegs, and only a spark is needed to produce the greatest explosion since 1914. The last world war started when a half-insane of Cedar Grove was fatally gored by a anarchist murdered an obscure Grand Duke in a city few Americans had ever heard of, It takes years to prepare the stage for major wars-to build up the hatreds, the mistrusts, the fears, that underlie them. Once the stage is set,

> get the play going. Behind the assassination of Chancellor Dollfuss, Austria's five-foot-tall 'ron man, is an involved, crooked, close-to-untraceable chain of events that go back to the post-war peace pacts. Modern Austria is a head without a body. In the days before 1914, the old empire embraced 250,000 square miles of territory, harboring a population of 50,000,000. After the war, the map of Europe was remade to the order of the victorious countries, and when the operation was finished, Austria had been reduced to 7,000,000 people, with a little over 30,000 square miles of territory. Much of this land is worthless from the standpoint of production-and neighboring nations erected high tariff barriers to prevent the small amount of export Austria could have had. Only loans have kept her from bankruptcy during the past fifteen years.

> was essential to Nazi hopes.

The only certain thing one can say

Of all these problems, that of labor that the labor leaders are not satisfied: adjustments-but it can't solve the problem entirely. It seems certain that
