GAMES LAST SUNDAY

Hartford 6; Kewaskum 5 Port Washington 9; Thiensville 6 Grafton 5; West Bend 1

GAMES NEXT SUNDAY Port Washington at Kewaskum Thiensville at West Bend

Grafton at Hartford The chances for the pennant look pretty slim after the defeat handed to Kewaskum by Hartford Sunday, the

score being 6 to 5. Kewaskum held a two run lead in the second inning but Hartford forged ahead in the fourth when they scored five runs. This lead was never lost by Hartford throughout the remainder fell short. Three runs were scored in The bridal couple were attended by that inning to make it 6 to 5, the visitors having scored one run in the eighth. Kewaskum started another spurt in the last of the ninth but with two men on bases and one man out cessories was worn by the bride while Marx and Hodge popped up and no run

Hartford got their five runs in the brown with matching accessories and fourth inning on singles by Basler, Mrs. Ferdinand was gowned in black Monroe and Rohrschneider, a triple by Conrad, a base on balls to Mueller, a wild pitch and a couple of errors. Their A stringed trie comprised of Miss other run was scored on a double by E. Rudersdorf and a single by Rohrschnei-

Kewaskum scored one in the first on a single by Murray, an infield out and a single by Bassler. The next run, in held and dinner served for 30 guests the second frame was scored on a walk to Kral, a single by Trotter and an error. No more runs were scored until waukee; Mr. and Mrs. O. R. Pilzer and the eighth when three runs came over with Grahl singling, Marx hitting a Buss of Kewaskum; Mr. and Mrs. E. long, high, home run that landed on Haentze, Mr. and Mrs Ferdinand, Mr. top of the school house in left field and

There is still a possibility that Kewaskum will win the pennant. The team tracks Port Washington by two Falls, New York, and other places in games with only three games remainthe East. They will be at home after ing on the schedule but after next October 15, at 6 West Ninth St., Fond Sunday, when Port plays here, we predict that Kewaskum will only be one Mrs. Haentze is a graduate of the game behind them, If either Hartford Waupun high school and Mr. Haentze or Grafton (both tough teams) can deso studied radio technique in California and Kewaskum wins the rest of their games, which is very probable, they not win the pennant, there is nothing to be discouraged about. The team has Every team in the league has the to bump against. One team cannot keep played their best trying to reach the goal Kewaskum reached last year. If

> The game Sunday will be the last chance to see a Badger State League booed and cheered each and every player throughout the season as any loyal fan should do. Now come out on Sunday and show them they're still your favorite team.

News Review of Current Events the World Over

President Names Board to Investigate Growing Textile Strike-Senator Lewis Says Democrats Don't Support Sinclair's Socialistic Views.

By EDWARD W. PICKARD

hand in the textile strike by appointing a board of inquiry. The members he named are Gov. John G. Wigant

of New Hampshire, Marion Smith of Atlanta, Ga., and Raymond V. Ingersoll, borough president of Brooklyn, N. Y. Mr. Smith is an attorney and the son of the late Senator Hoke Smith. This board was appointed on the recommendation of the national labor relations

John G. Wigant board and its duties were thus outlined:

1. To inquire into the general character and extent of the complaints of workers in the cotton textile, wool, rayon, silk and allied industries.

2. Inquire into problems confronting the employers in said industries.

3. Consider ways and means of meeting said problems and complaints. 4. Exercise in connection with said

industries powers authorized to be conferred by the first section of public resolution 44. 5. On request of the parties to labor

dispute, act as a board of voluntary arbitration or select a person or agency for voluntary arbitration. The President directed that the board

should report to him, through the secretary of labor, not later than Octo-

Starting immediately after Labor day, the strike spread rapidly and within a short time about 336,000 workers had quit their jobs. This would indicate the walkout was approximately 50 per cent effective over the entire cotton, woolen and silk industry, which normally employs in the neighborhood of 650,000 workers.

Leaders of the strike claimed that 450,000 had quit at that time and that more were joining the walkout daily. Predictions of violence were fulfilled, for there were bloody riots around the mills in New England, Georgia, North Carolina and South Carolina, and several deaths resulted. In the southern states the National Guard was mob-

GEORGE A. SLOAN, president of Cotton Textile institute, who at first claimed that two-thirds of the workers had refused to join the strike,

later admitted that he was wrong and said: "This thing is getting worse by the hour." He added that the re ports he had received showed that additional mills were closing, and "I am deeply distressed to learn that

blood has been shed in Georgia. These sad G. A. Sloan events make it plain that the forces unleashed by the strike

leaders are now out of their control. "This is no longer to be viewed as the ordinary industrial warfare which the term 'strike' implies in America. It is not a matter of leaving work and of peaceful picketing.

"The strike call was an appeal for confidence. The appeal was denied by a vast majority of our workers.

"Now lawless bands of misled people thousands in number, move across wide areas, against whole communities smash mill doors, drag men and women from work they wish to perform, and threaten with violence all who do not yield. This is an assault on fundamental American rights."

Francis J. Gorman, director of the strike, announced that he would not revoke the strike call until the employers had accepted these demands: 1. Recognition of the United Textile

Workers. 2. Reduction of working hours to 30

per week. 3. Machine load limit and wage

scale yet to be determined. 4. Promise by the companies not

interfere with union activities. 5. Provision for a mediation board within the industry to adjust disputes between employer and employee.

6. Promise by the workers and em ployers that there shall be no strikes nor lockouts during the life of the

agreement. 7. An understanding by both parties on the length of time the agreement shall be effective.

Frank Schweitzer, general secretary of the American Federation of Silk Workers, announced that with the walkout of 17,000 silk workers in the Paterson (N. J.) district and with mills closing in other sections, the silk industry was approximately 80 per cent shut down. Schweitzer disclosed that many unions in other industries, notably the Amalgamated Clothing Workers, were offering material aid to the

strikers and supplying organizers. The belief of the strikers that the government would indirectly finance their walkout by placing them on the relief lists was only partially justified by Relief Administrator Hopkins. He said the government took no sides in the matter and that relief would be given to strikers as to other individ-

NRA was dealt a severe blow when the Retail Coal Code authority resigned in a body in protest against the way the NRA is handling the code. The seven members, who were the ruling body under the Blue Eagle for 80,-000 retail coal dealers, are: Roderick Stephens, New York, chairman; Milton E. Robinson, Jr., Chicago, vice chairman; Clarence V. Beck, St. Louis; William A. Clark, Boston; Charles M. Farrar, Raleigh, N. C.; Edward B. Jacobs, Reading, Pa.; and John Mc | notice."

PRESIDENT ROOSEVELT took a Lachlan, Pullman, Ill. Their resignation was due to the NRA's claim that it can revise any code at any time without giving notice to the in dustry involved.

"As now emasculated by the NRA the code is a futile and unworkable thing, while as originally agreed upon it represented a constructive basis for improvement of conditions in this industry," the members told General Johnson.

In a public statement accompanying their letter of resignation, the authority revealed that the NRA's failure to prosecute coal code chiselers and its failure to back up the code authority in its attempts to stop destructive price cutting were at the root of the dis-

EIGHT thousand, seven hundred employees of the Aluminum Company of America, who had been on strike for a month, were ordered by their union to return to their jobs when an agreement ending the walkout was signed. Both table." the company and the workers accepted concessions through the efforts of Fred Keightly, labor department conciliator.

A FTER Upton Sinclair, ex-Socialist who obtained the Democratic nomination for governor of California, had called on President Roosevelt at Hyde

Park, he jubilantly asserted that his plan to "End Poverty in California" was identical with the New Deal. Then he went to Washington and sought the support of administration leaders for his campaign. Mr. Roosevelt had said nothing publicly concerning Mr. Sin- Senator Lewis clair, but Senator

James Hamilton Lewis of Illinois, chairman of the Democratic senatorial campaign committee, made some pungent comments about the California

"There has been no California Democratic nomination for governor," Sen ator Lewis said. "The nomination was made by Illinois, Iowa, Indiana, Michigan, Kansas and Nebraska Repub licans who had moved to southern California. It was Republicans from these states who nominated Mr. Sinclair, not the Democrats nor the Republicans of California. This gentleman's nomination can be charged to that class of Republicans in Los Angeles as a general protest against con-

Senator Johnson came out for the whole of the Roosevelt policies, and was nominated by all parties. We rank him as a Democrat.

"President Roosevelt is not being disturbed by any presumption that he is endorsing the individual views of Candidate Sinclair. The President, in fact, expects very shortly before the congressional elections to make an address to America, in which he will express the Roosevelt policy and wherein the real democracy he represents offers remedies which prevent the radicalism of Socialism and the destruction

of Communism. "We under the name of democracy can never advocate or endorse a system which appropriates and confiscates honest property, whether it be the wealth of the millionaires or the weekly wages of millions of toilers."

DONALD RICHBERG, secretary of the executive council, made another report to the President on the New Deal efforts to relieve financial pressure, showing the government has loaned more than seven billion dollars to save businesses and homes. Here are the high lights of his report:

1. RFC actually has disbursed \$5, 853,000,000. 2. The Home Owners' Loan corpora-

tion has advanced \$1,299,445,000, ending a real estate panic and saving the homes of 432,000 families from foreclosure. 3. Five banks insured by the FDIC

have failed. 4. Federal home loan bank system loans are far below capacity because

of faults now being corrected. The program to strengthen banks by loans and subscriptions to preferred stock is 80 per cent complete, 6,579 institutions having been authorized to obtain \$1,154,000,000 in this way. RFC has authorized loans aggregating \$848,-000,000 to aid reorganization or liquida-

tion of closed banks. Richberg predicted that comparatively little would be loaned directly to business under the loans to industry act through which 69 borrowers so far have obtained \$5,800,000.

Railroads have repaid \$58,300,000 of the \$421,700,000 advanced by RFC. Richberg said many rail receiverships were averted. The corporation advanced \$1,645,000,000 to aid agriculture and has authorized loans aggregating \$321,000,000.

HUEY LONG'S plans to control the primary in Louisiana were curbed by two injunctions issued by a federal and a state court, but his exposure of the administration of New Orleans by Mayor Walmsley and his friends went uals when it appeared they were des- on unhindered. Also the "dictatorship" laws passed by the senator's legislature became binding and put an end to much of the gay life in New Orleans, for the "old regular" machine which has ruled the city for years was helpless. Governor Allen. Long's henchman, has full power to enforce the new laws through the state police or the militia. Dissemination of horserace news being now unlawful, the publications specializing in such information planned to leave the city, and the newspapers announced they would carry no racing news "until further

REICHSFUEHRER HITLER of Germany renewed his warfare on Jews and also declared all other elements opposing his regime must be suppressed. The chancellor, addressing the annual convention of the Nazi party in Nuremberg, made a slashing attack against "Jewish influence" on German life. He was cheered frequently during his impassioned address, clarifying again his anti-Jewish, Pan-German philosophy of political and social science as the essence of

ruling Germanic races. Earlier, a proclamation by him was read to the delegates, warning that those who dared oppose the Nazi state under his rule would be ruthlessly dealt with, and outlining his achievements as head of the third reich.

Combined with Hitler's attack on the Jews came a bitter denunciation of those "sensation-hungry correspondents interested only in external symptoms." Hitler declared they were responsible for a misconception of Germany abroad, insisted that Nazism was here to stay, and added violence and revolutions were ended.

R EPRESENTATIVES of the cotton garment industry from all sections of the country, including officials of 15 individual industries under the cotton garment code, met in New York and adopted a resolution refusing to abide by the recent order of President Roosevelt lowering hours and increasing wages for 250,000 workers in the industry. The order affected 4,000 units

spread over 24 states. The manufacturers voted to defy the President's order as "unjustifiable, unwarranted, burdensome and inequi-

ON THE advice of Sol Rosenblatt, divisional administrator, the NRA has indefinitely suspended the provisions of the motion picture industry code designed to limit salaries of stars and executives and to eliminate alleged unfair competitive methods in bidding for stars under contract with another company. Mr. Rosenblatt made an investigation and in his report said:

"A star or executive is worth as much as the public can be led to think he is worth by paying to see his offerings. If individual producers find it difficult to gauge in advance the possible value of these services, it is patently impossible for a code authority to exercise any more effective judgment in the matter."

R USSIA'S ambition to be given a seat as a permanent member of the League of Nations council, favored by France and Great Britain, is opposed by Switzerland, whose delegates have been instructed to vote "no" when the question comes up. Turkey has applied for a nonpayment seat in the council, stating she seeks the place of China, whose term is expiring.

SECRETARY OF AGRICULTURE WALLACE thinks it may be necessary to guarantee the price of corn fodder in order to keep available supplies on farms in the drouth area for relief purposes. The farm administration is to set up an office in Kansas City for the purpose of making a surrey and locating all types of feed. The office also will assist county drouth committees in arranging pools of individual farmers to make purchases. The government will not buy any feed itself for distribution.

BECAUSE of his unwavering opposition to what he considered the extravagant expenditures of the government and to its inflationary monetary policies, Lewis Doug-

las has resigned as director of the budget. He had long been fighting against certain of the administration's policies, without avail. The twoyear budget plan with its prospective deficit of seven billion dollars, presented to congress last January, did not have his ap-

Lewis Douglas

proval; nor had the billion dollar deficiency appropriation bill and the schemes for the purchase of gold and silver. It was said his resignation was finally brought about by the announcement of Secretary Morgenthau that the so-called profit of two billion eight hundred million dollars resulting from the devaluation of the gold dollar would be used to curtail the public debt incurred by the New Deal. Since currency is ultimately to be issued against this "profit," and since there is only about five billion dollars of currency now in circulation, the Morgenthau plan contemplates a 50 per cent inflation.

The President appointed as acting budget director Daniel W. Bell, a permanent employee of the treasury. It was understood in Washington that there would be a general rearrangement in the Treasury department which would concentrate all fiscal powers in the hands of Secretary Morgenthau. Several officials who are not in full sympathy with the New Deal will be weeded out.

Many of the dairy cattle bought by the government in drouth areas are of high breed and so will not be slaughtered. The federal relief administration gave out a statement

"It is planned to either exchange some of these high breed drouth cattle for scrub cattle now in the possession of relief or rural rehabilitation families, or to issue them to such families where the need has been determined. Under this program the low-grade scrub cattle would be slaughtered where exchanges were made. The exchanges, or issuance of cattle without exchange, would be made upon recommendation of the various county relief administrations and county rural rehabilitation supervisors."

A FTER five days of deliberation, the high council of the Salvation Army, sitting in London, elected Commander Evangeline Booth general of the army. Thus the supreme command of the organization is returned to the Booth family after a break of five years. Miss Booth, who is sixty-eight years old, is the only daughter of Gen. William Booth, founder of the army. For thirty years she has been at the head of the army in America.

Wisconsin News « Briefly Told »

Baraboo-Dr. John Boden, rector of Trinity Episcopal church for seven years, has resigned to accept a call to St. Mathews Episcopal church, Jersey his national-socialistic doctrines for

> Fond du Lac-Mrs. Emma Reed, 77, prominent church worker, was burned to death in her home at Rosendale when she fell down a flight of stairs with a small oil stove. The stove burst open and enveloped her in flaming

> Madison-The Wisconsin taxpayers' alliance reported that state aids for charitable activities distributed to counties and other local units of government during the fiscal year ending June 30, 1934, were half a million dollars less than in the preceding year.

> Jefferson-Jefferson county 4-H clubs, exhibiting at the state fair, placed the following positions in competition with various county groups in the state: Holstein group, first; Guernsey, sheep and pigs, second; poultry, first; girls' demonstration team, first. Every girl taking part won prize money.

> Sheboygan-Miss Ella Witt of Marshfield, and George A. Brooks, 73, of Manitowoc, were killed at Haven, seven miles north of here, when Brooks' car crashed into a freight train locomotive. Brooks, who suffered a crushed head and chest, died at once. Miss Witt died in Memorial hospital eight hours later.

> Beloit-More than 3,000 buttons each different from the other, collected in three years as a hobby by the late Mrs. C. F. Capron, an invalid, were presented recently to the historical society here. The collection ranges from the antique brass, jet, and wooden buttons to modern vegetable, ivory and glass

> Monroe-More than \$20,000 worth of property was destroyed on the Joshua Klassy farm, north of here, when a spontaneous combustion fire consumed a large barn, a milk house, two silos, a silo filler, 140 loads of hay and 110 tons of alfalfa. The barn, 144 feet by 40 feet, was one of the largest in this

Waupaca-Albert Olson, 55, arrested on a drunkenness charge, blew himself to pieces with dynamite five minutes after being locked in the county jail nere. On being brought to the jail he asked Mrs. Hanson, the sheriff's wife, for some tobacco and matches. He used the matches to light the dynamite, which he had concealed on his person.

Fond du Lac-Mrs. Frances Shirley, slave born negress who has lived here since Civil war days, celebrated her eighty-seventh birthday Sept. 5 by hanging out her washing and doing other house work at the home where years. She lives alone, keeping house for herself without kindred or even a pet about the place.

Madison-Madison, Fond du Lac and Kenosha have petitioned the state department of agriculture and markets for a 1-cent increase in the retail price of milk following the recent boost from 9 to 10 cents a quart allowed in Milwaukee. Milk now sells for 9 cents a Lac and 10 cents in Kenosha. As in Milwaukee, it is proposed to allot the increase to the farmer-producers.

Madison - An independent prohibition state ticket will be presented at the November election, William C. Dean, Madison, chairman of the prohibition organization committee for Wisconsin, announced. The persons on the ticket are members of the Prohibition party, which ceased to exist officially for failure to poll the requisite percentage of the total vote at the last election. The state ticket will be named by petition.

Madison--An increased tax rate to yield greater returns on decreased valuations of street railways, light, heat and power companies, and conservation and regulation companies in Wisconsin has been announced by the state tax commission. The 1934 tax of .021176552 was established to raise \$7,295,168 on an assessed valuation of \$344,492,750. The 1933 rate of .01948154 was fixed to yield \$6,990,821 on a \$358,-843,350 valuation of these properties.

Milwaukee-Pickets overturned a po lice patrol wagon during a riot at the Geuder, Paeschke and Frey plant here, injuring two policemen and a picketprisoner. The patrol wagon was tipped over by the riotous crowd of nearly 300 pickets after two of their number had been taken to jail in another wagon. Two more men were arrested when rioting broke out again as nearly 100 policemen were going through the crowd in search of those who had overturned the patrol wagon.

Kenosha-Michael Cosentino, imprisoned slayer, is defendant in a circuit court damage suit for \$46,100 filed by the sister of Walter H. O'Bryan, whom Cosentino shot and killed in a tavern brawl last winter. The sister, Florence O'Bryan, is executrix of the slain

Kenosha - All 63 members of the Kenosha fire department became members of the City Fire Fighters' union, local No. 414, when Walter Stechel, Milwaukee organizer, conducted the installation ceremonies.

Fond du Lac-Municipal regulations which would virtually prohibit drug stores and other establishments outside of restaurants from serving dinners and light lunches were sought in a petition filed with the city council

Waupaca - When Waupaca issued \$20,000 in emergency relief bonds, a farmer living on a sandy 40 acres near here asked City Clerk F. A. Houseman If he might buy out the entire issue. The farmer had the cash available, Houseman said.

Neenah - The S. A. Cook property here, with an estimated value of \$25,000, has been offered to the Y. W. C. A. as permanent quarters. Donors of the property have not been revealed.

Chippewa Falls - A contract was awarded to the Chippewa Shoe Manufacturing Co. here for 17,000 pairs of loggers' boots to be supplied to the government for boys in the C. C. C. camps of the west coast.

Manitowoc - Fourteen-month-old Shirley Dassay strangled nerself to death here with a pacifier string. Her mother, Mrs. Erwin Dassay, had placed the child on a bed with the pacifier tied to a cord around her neck.

Whitewater-Three buildings with a total value of \$10,000 burned in the business section here. A tramp had been seen eating his lunch and smoking a cigaret behind one of the buildings and he is blamed for the fire.

Milwaukee - Nanna Magnus, 17, Glenn Flora, Rusk county, and Henry Krueger, 19, Beaver Dam, were chosen as the healthiest boy and girl in the four-H club contest at the Wisconsin state fair. There were 105 entrants.

Madison-State and county savings totaling \$280,420 on forest fire fighting costs and an incalculable amount in forest values are indicated this year as the result of public co-operation in a fire prevention program, the state conservation department announced.

Delavan-The Bradley Knitting mill has announced a general raise in wages which will include all Delavan employes of the concern, the increase being about 7 per cent. This is the second when the company subscribed to the president's blanket code.

Eau Claire-Plans for a federation of all co-operatives in Wisconsin were laid at a meeting here of delegates from organizations in 16 counties. Purposes of the organization, which will be known as the Wisconsin Co-operative of processing taxes. Efforts of the league, is to unify, co-ordinate and expand the co-operative movement.

Lake Mills-With the first shipment of government beef arriving, 45 to 50 new schemes such as a program demen began work at the local plant of signed to result in federal ownership of any kind other than by ten Libby, McNeil & Libby. The local plant has been designated as one of the 47 to can the government meat, purchased as a part of the drought program.

ert Schultz in superior court here for selling liquor upon which an 11-yearold boy became intoxicated in a juvenile drinking escapade. Schultz refused to plead guilty but pleaded nolo conof four small children.

Milwaukee-The deer season in Wisconsin this year will be from Nov. 24 to Nov. 30 in 22 northern counties, the conservation commission announced. A special season for bow and arrow hunting only has been arranged in Columbia and Sauk countles from Nov. 24 quart in Madison, 8 cents in Fond du | to Nov. 28. The bag limit, as heretofore, will be one buck not less than 1 year old (spike horn).

> Milwaukee - Breaking attendance records of the last 14 years and coming within 1,500 of setting an all-time record, the 1934 Wisconsin state fair closed here, with estimates that it should make a profit for the first time in years. The attendance this year was 325,395, according to Manager Ralph Ammon. Last year's attendance was exceeded by 53,699 with the help of a day added this year.

low as 18 per cent of normal. The innormal; potatoes, 46 per cent; oats, wheat, 31 per cent; pasture crop, 18 President himself.

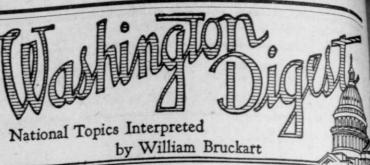

Milwaukee-FERA projects returned to their normal status here after the two week "strike against unemployment" was called off marking cessation of 10 days of picketing, slugging and kidnaping. Relief officials steadfastly scorned the demands of the pickets who consisted chiefly of members of the workers' committee on unemployment, a jobless men's organization. things, work for all, a minimum wage of 831/2 cents an hour for unskilled labor, an 8-hour-day and a six day week, and cash relief for the needy.

Chilton - A yield of 1,182 bushels. machine measure, of Wisconsin No. 38 barley was threshed from a 171/2-acre field on the farm of Henry Heinmann on Route 7 east of here. This is an average of 68 bushels per acre. Oats on the farm of Gust Suemnicht in the same neighborhood yielded 90 bushels per acre.

Rice Lake - William Thiefs, who lives on a farm northwest of here, was sentenced to 30 days in the county jail after being arraigned on a charge of stealing oats.

Rice Lake - The county board has stopped dancing on Sunday nights and put a damper on dancing in taverns. An ordinance has been adopted by the board setting a license fee_of \$100 for 400 square feet or less of dance floor, with a charge of \$1 for each additional square foot.

Madison-A state-wide drive to stifle drunkenness by voluntary policing of the tavern industry is being promoted here by the Dane county unit of the National Association of Retail Beverage Dealers.

Washington.—The political situation chemist in the world can be waxes warmer. It is seldom in our history where the records disclose so much heat in the campaign fights as has already been developed. It may facts. The result is, of course die down some, but the wiseacres in politics are predicting red hot battles at this time what may be the over the issues and mud slinging and muck raking among individuals.

There is the speech by Secretary Morgenthau of the treasury, an attempt to show that Campaign the New Deal has "Material" not been so costly as critics of the admin-

istration claim; there is the victory of the Socialist, Upton Sinclair, who captured the Democratic nomination for governor of California, and there is a growing list of social reform proposals among administration advisers which provide meat and drink for the politicians on the opposing team, There is the accomplished fact in this connection of the pension legislation which the railroads claim is going to cost them almost one hundred million dollars a year.

One can mention also the row among cabinet and emergency officials over the future course of NRA and the test that is being made in the District of Columbia courts to determine whether a business firm can be made advance given employes since last year to comply with a code which it has definitely and continuously refused to sign. There is the speakership fight among the Democrats of the house of representatives, and the bitter attacks that are being leveled at the treasury by some of the senators and representatives from agricultural areas on account of administration management American Liberty league for protection of constitutional rights are being expanded. All the while New Deal planners are engaged in development of say that the federal government

of the railroads. To say that the situation is confusing is to use the mildest sort of language. Observers in Washington who The meat will be distributed to the have watched political maneuvers for a quarter of a century and more insist that at no time in their recollec-Madison - A fine of \$500, or six tion have they seen anything similar months in fail, was imposed upon Rob- to present conditions. Take the Upton Sinclair victory itself, as an example, I am told that few times in modern politics has it occurred that a man so long affiliated with another partisan group has bored his way in and seized tendere. The defendant is the father titular control of a major political party. The observers insist that the result of the California primaries has Madison-The Wisconsin lamb crop placed the Roosevelt administration for 1934 is estimated at 314,000 head, on a decidedly hot spot unless, as it

> Some political leaders whispering that the Sinclair victory will strengthen the hand of the American Liberty league and enable the sponsors-Al Smith, Jouett Shouse, John W. Davis, former Senator Wadsworth and others-to go about the country and obtain recruits for their defense of constitutional rights. Active efforts of this kind, of course, are likely to catalog the league as definitely anti-administration, but league leaders apparently do not entertain such a fear at this time.

The processing tax question is another that political observers insist is due to cause trouble Processing for the President. Troubles They point out that heretofore such criti-

cisms as have come of the processing taxes have centered on Secretary Wallace and the Agricultural Adjustment administration. Now, however, the attacks are being leveled at the bureau Kenosha-Kenosha's plea for desig- of internal revenue, which is a part nation as an emergency drouth relief of the treasury and, therefore, the fire area was turned down by the A. A. A. has swerved from one department to survey, despite the fact that some the other. It is to be remembered that crops were found in the survey to be as both Secretary Morgenthau and Commissioner Helvering of the bureau of spectors reported the following crop internal revenue are personal appointconditions: Corn crop, 54 per cent of ments of the President. Republican campaigners are using this as a ve-32 per cent; hay, 23 per cent; spring hicle to carry their assault on the

Whatever the political implications may be, it remains a fact that such New Deal supporters as Senator James P. Pope of Idaho have taken Mr. Helvering to task for his administration of the processing taxes. Senator Pope has written to Mr. Helvering with particular respect to the processing tax on hogs, which he charged was being collected from farmers who slaughtered and sold pork produced on their own farms. The Idaho senator forced They had demanded among other a bill through congress in the closing days of the last session which he believed would free the farmer of this tax and provide a refund of tax which he claimed was illegally collected. At this writing, Senator Pope reports, the bureau of internal revenue has not even drafted the forms upon which farmers may make application for refund of taxes already paid, and it amounts to approximately two and one-half cents per pound. It takes no stretch of the imagination to figure how much tax has been taken from farmers in this way. There are other complaints about

the processing taxes as well. These include a complaint that has become country wide among users of products as well as the producers of products that compete with coconut oil. It will be recalled that there was something of a battle in congress when an import tax was laid on coconut oil. The industry felt it had gained a great victory. Developments since have shown just tow wrong individuals can be.

I am told that internal revenue and customs authorities in every district In the country have sheafs of letters and telegrams protesting importation of coconut oils after these products have been processed abroad, mainly in the Philippine islands. The story is that incoming not not that joint there is a growing belief there is a growing belief is that ingenious methods have been this controversy is not into fatty acids and glycerine. Morgenthau speech on the Under Fire of the New Deal to which they long have awaited. The treasury secretary spin over the radio. His purpose obs was to get as wide distribution possible for his conclusions that f New Deal thus far has cost only sign 000,000, despite the fact that the tree

ury daily statements show an add tion of approximately eight billion; the national debt. The secretary able to show, to his way of thinks that while the public debt has h increased by the amount stated, ten ly all of these funds eventually come back into the govern money chest. He admitted, home that there may be losses sustained some of the emergency agencies at the total as he had calculated to

I talked with a Democratic s concerning Mr. Morgenthan's ject. He was somewhat district however, as to how he could en the receipt by the treasury of 828 000,000, which is the an gained by the govern of devaluation of the point where it is worth only gold. He appeared to be afraid to no way of obtaining revenue or men and borrowing. He suggested that the profit of devaluation could hardly be described as money borrowed my could it properly be called receive from taxation. When I last taked with him he had not found a ten which would cover these receipt which are scheduled to include is profits from changes in the rahe of

silver. The Republicans are using Mr. Mr. genthau's own figures in an arms that the assets of wholly government owned agencies such as the Remain tion Finance corporation are sit only bookkeeping items. It spent be irrefutable that no one mis tell what the value of these same going to be one, two or them hence. Therefore, without dist the merits of the argument of side, it can be said definitents Republicans will be doing soft uring just as Mr. Morgentit nring to reach the conclusion ed to reach and dissemin

the voters. In some quarters I hear ensits of commendation for the these commendations do not make the total which he contended the Deal had cost thus far, but to the that the administration was going remain faithful to its pleige that it deficit would not exceed eight bil dollars in the period overed Wash ington has received numerous res tions from business interest regard ing this particular phase of the M genthau speech, and business ses

to regard that much of it as ress Financial interests, however, the different slant on the Margan speech. They look upon it ss sphere" in preparation for the ing that is taking place at tember. The treasury is b around two billion dollars. this represents new money bulk of it is in the nature of ing. That is, new securit offered and the proceeds tire maturing debt.

As regards the controvers raging in the administration Real Battle is every in Offing expect an explosion.

Johnson, the NRA administra

the one hand, and Miss Perkin secretary of labor, and Donal berg, secretary of the Presid ecutive council, on the other, individuals, of the makeup required as requisite b battle. Their differences grow the plans as to the future NRA, which, the President is to continue as a permanent has not quite made up its min cerning the delimitations laid the two factions, but it is apple even now that Miss Perkins Richberg contend for expansi NRA control beyond the which the bombastic General is willing to go. Also, it is appear that Miss Perkins a Richberg prefer to see domination of an individu mental slants are in line own, which is to say, of most observers, that the radical tendency beyond Ger son's program. The genera been a business exec realize that it is better cautiously in expanding NRA vision, and is holding out course The differences between

dividuals are the first to portions requiring White House vention. Whether Mr. Roose salved the feelings of each pletely established, although tinue to manage NRA and Perkins will, in effect, be her Department of Labor to attention to that job.

AT ALMOST every farmhouse nowadays one sees a sign "Fresh loney for Sale." Honey, probably the first sweetening known to man, is being used to much greater extent recently than it has been for a long time, since farmers have gone into bee raising

more intensely. At a farmhouse where we stopped to buy some comb and liquid honey ecently we talked with the woman of the house about the use of honey in ooking and found that she used it for lmost any purpose where a sweetening was desired. She gave me a few of her dessert recipes, and to these 1 have added a few other tested honey

Honey Raisin Tapioca.

1 eup tapioca 4 cups water 1/2 teaspoon salt 1 cup honey

1 egg yolk 1/2 pound seeded raisins

Soak taploca in two cups water for wo hours. Add two more cups water; cook until clear and soft. Remove from fire, add other ingredients; cook 15 minutes longer. Serve with a fruit whip or whipped cream. The white egg may be beaten, mixed with oons of sugar and used for a meringue.

Banana Honey Mold. 2 tablespoons gelatine

1/4 cup cold water

% cup honey
3 ripe bananas (mashed through a

1 cup whipped cream

Soak the gelatine in cold water unsoft. Heat the milk and stir in the datine. Continue stirring until all flatine is dissolved. Add the honey, ashed bananas and lemon juice. Set a a cool place. When it begins to bloken fold in the whipped cream.

Seeds From King Tut Tomb Bear Flowers

Everett. Mass. - Seeds taken from King Tut's tomb are responsible for the attractive sweet-pea plot in Charles W. Benton's back yard. A relative in Sweden, fearing to plant the seeds because of the "curse of the Pharaohs," sent them to Benton. It is estimated that the seeds are at least 4,000 years old.

Phisalix and Prof. François Pasteur. The rays, the scientists said, transformed neurotoxin, the principal toxic ingredient of snake bites, to such an extent that in three cases out of four its effect was offset. Hemmoragin, the other toxic ingredient, was not affected, they said.

Replacement of Cable Is Engineering Feat

Boulder City, Nev .- One of the unsung exploits in the construction of the gigantic Hoover dam is the replacement of the huge cables stretching across the dam site.

The cables are used to convey men. concrete and other materials in building Uncle Sam's most ambitious water and power project. It is necessary to stop all operations for 48 hours to replace the cables.

Wound on huge spools, the cables, each weighing 55,000 pounds, are placed near the head tower of the cableway and one end is strung to milk. Let stand one hour to blend and through the top of the tower. The new cable is dragged across

the canyon and fastened to the old steel rope. After the new cable is secured by supports which also hold the old cable the used steel rope is hauled

Each cable is 2,500 feet in length and costs approximately \$10,000.

Lights of New York By L. L. STEVENSON

Talked with a young man whose profession is denoted by a green carnation. He's a gigolo. Makes his living by dancing. Not a bad living at that. His earnings run about \$50 a week. Tips are his bread and butter. Has no trouble with New Yorkers. They are accustomed to tipping. But not all New Yorkers are accustomed to tipping gigolos. So they don't know how much to pay. That often results to the advantage of the gigolo. Being in doubt, the New Yorker tips twice as much as he thinks is right. Out of towners are different. They are really bashful about tipping a goodlooking, well-dressed, polite, light-footed young man. They offer to buy drinks instead. Gigolos don't drink. It interferes with business. So they turn down even champagne. That makes it tough. And they don't get the tip. That makes it more tough. On the other hand, many out of towners fold up a bill and hand it to the gigolo in the form of a handshake.

. . . Gigolos are investigated carefully before they are employed. Their records have to be clean. Also they have to have personality, tact, poise and intelligence- all this of course being quoted from the conversation with the young man with the green carnation. In addition, they have to have endurance. Not all of the dear sex who like to dance are good at it. In case of trodden toes, the gigolo smiles have been planted on the campus of and apologizes -- and hopes that the water (236 degrees F.). Remove from | Maryland university. The trees were | tip will be large enough to justify his stoicism. Gigolos dance only with to 120 degrees F. Beat until it loses for the Maryland State Society of the ladies when their escorts make the reits shiny look. Add vanilla and nuts Daughters of the American Revolution, quest. The reason is that some escorts forget that gigolos are merely paid dancing men. Many men are timid about making the request. But their wives or the wives they happen to be with are good at making sugges-

tions. So the gigolos keep busy. It doesn't do anyone any good to ask a gigolo his name. He will give one. But it is merely one he has adopted. He is even less frank about himself. The rules make him just a gigolo, and he's content. Sometimes it takes a lot of finesse to retain information and not give offense. Women are the most persistent questioners. But the gigolo tries merely to impress his number on his partner-if she is a good dancer or if her escort is a good

Getting back to tips. They run from a half dollar up. The biggest tip my informant ever got was \$10. That was for dancing almost all evening with the young wife of an elderly man. He had heard of another gigolo who was paid \$25 every night by a

husband. The husband likes to dance. But he has foot trouble.

Leaving gigolos and taking up newspaper men. The wife of an assistant city editor continually impressed on her two daughters that they were never to marry newspaper men. The husband arrived home one evening to find his wife all smiles. One of the daughters had been notified that she was to edit the school paper next term. The husband didn't share her enthusiasm. Taking the child aside, he told her that she was to learn to stop grounders and catch flies. "This family doesn't need any more newspaper workers," he continued. "What it needs is a good second baseman." And his wife lit on him for not considering the welfare of his children!

Which reminds me of Chet Shafer, head of the former pipe organ pumpers guild, who after some time among the Seven Million, has returned to Three Rivers, Mich., to write and prepare for the fall sausage season. Finding himself with a surplus of \$10.50, he went out and bought one of those old-fashioned nickle-plated fire engines-something he had wanted all his life. @ Bell Syndicate.-WNU Service

How It Started By Jean Newton

Calling It "Billingsgate"

abusive language. But it hails from right under London bridge!

"Billingsgate" is the name of the great London fish market which is located on that unpleasant street in London which runs parallel to the River Thames and runs from the tower to London bridge. That is a street of various odors, but that of the fish market predominates! And the language used by the market "porters" is said to outclass in potency the odor of the fish. Hence "Billingsgate" is known even in parts where the Union Jack does not wave, primarily as another name for bad language!

@ Bell Syndicate.-WNU Service.

JUST RIGHT

"What's your idea of bliss, Bill?" "Plenty of worms and no cats."

Stain Shingles

Unfinished shingles on roof or siding constitute a fire hazard which easily may be eliminated by painting or staining. Unless this precaution is taken, the surface has a tendency to wrap, crack and become "fuzzy," affording an easy lodgment for cinders, burning brands, etc.

Fruit Stains When fruit stains are fresh, rub on salt, later pouring boiling water over and through the stain, then leaving it in the water for some time. In cold weather hang the stained article out of doors overnight. If the stain is very might be found to plow 'em under." old soak the article in a weak solution of oxalic acid.

Frocks of unusual interest also feature the use of three and even four colors.

As to important fabrics it is significant that woolens are proving a strong factor. Wool crepes and novelties lead, while even the cottons take on a wool-like texture.

@. Western Newspaper Union.

SMARTLY SIMPLE By CHERIE NICHOLAS

The trio of cunning models pic-

tured tell a fascinating story of early

fall juvenile style trends. These

charming fashions were selected for

Illustration from among a host of

equally as attractive outfits for young-

sters as displayed in recent style

shows held by the Chicago Wholesale

Market council. The young miss stand-

ing to the left in the picture shows

how really style-wise a little girl of

this day and generation can be in that

she is wearing a frock of green wool

crepe, and green as the color card

tells us is a leader this season, espe-

cially dark mossy greens. Then, too,

Interest in crepe weaves is very ap-

garent in the fabric realm. Being

school wear, for the little maiden can

enjoy a fresh blouse each day if she

Again brother and sister outfits are

proving of tremendous appeal and in

this connection it is interesting to note

per style this dress is ideal for

Three trends are the outstanding hat news. The first is the rule "over the face," for virtually every hat pitches forward over the right eyebrow and curls up in the back. The second is double brims with one piece of felt swooping down from the crown, turning under and looping back into the head band. The third is the use of such 1910 fabrics as panne velvet, beaver, soft drape felts and feathers.

Feathers are everywhere, Black birds of paradise swoop forward from under the wide curved-up brim of a black panne velvet. A white bird, wings outspread, hangs head down from the back of a black felt. Five little rose birds lie flattened on the crown of another black felt.

Muffs Assume New Shapes for Fall and New Furs Muffs for fall are assuming new

shapes and new furs. There's just enough room in them for your two hands, and after all, that's all the room a must needs, when you consider the situation impartially. These are shown in sleek, flat furs, for wear with furless coats and suits, and they're the last whisper from the last boat from Paris.

Practically the same effect is gained by the new muff gloves shown in recent displays of advance winter styles.

These are of Angora knit, with long cuff which may be pulled down over each hand. Place the hands together in the approved fashion for muff-holding, and lo!-you have a

Satin Blouses

Satin in peculiarly becoming offshades made with drapey necklines and fulled elbow sleeves is first choice in the thorough line-up of luxurious blouses which the shops are showing for fall.

Plaid Crepes Mossy crepes in plaid patterns will be shown in jacket suits, scarfs and

What Women Want to Know About Fashions

The panel front is with us again. Twills are coming to the front in silk and woolen fabrics.

This frock of pavy and white coin-

dot print in a chulla crepe weave is

2 good example of the new vogue

which is being so enthusiastically ac-

claimed for simplicity in one's daytime

apparel. It is just such a type as the

well-dressed school girl will wear, as

it will be equally at home in the classroom or at an informal dormitory tea, just as good form in the office, for that

matter. Note that it is styled without

pleated or ruffled elaboration, fancy

lingerie touches or any other detail that would be difficult to handle in

laundering, for as most women have

found out to their joy and satisfaction these all-rayon crepes wash per-

Rings Over Gloves

gloves by engaged girls of London.

Signet rings are being worn over

fectly.

Velvet trimmings to match berets are considered very chic. Dress of sheer black with girlish turnover pique collar is style formula

for first fall days. Latest is the "dachshund" muff which is so long and narrow it erinkles up like an accordion.

Brims for fall hats are versatile to the last degree. Split skirts and square dolman

sleeves are new styling points. Printed plaid silk dresses are going to be popular for campus wear. Introduce buttons where you canthey are the essence of smartness.

Attention will be focused on shoes when the fashion parade begins this

lector or a friend of his?" the boy cheerfully. "It was the same fight. We only knocked off for dinner."

"Well, he's in a business conference. He's out of town. Step in and "Did you write all the jokes in the show?"

"Well, if I may compliment you, you must be much older than you look."

"What do they mean when people say 'beastly weather'?' "When it's raining cats and dogs."

WEEDS FOR POULTS SERVE AS GREENS

Young Turkeys Need Plenty of Succulent Feed.

Poults will consume large quantities of green feed if it is available. The digestive tract of turkeys requires lots of bulk and succulence and green feed is necessary for them if good performance is to be had. And, if large amounts are consumed, green feed will help cut down the consumption of other costly feeds, not only promoting a better growth but making for efficient production as well. When poults are small, says a correspondent in the Missouri Farmer, succulent greens such as lettuce, spinach or rape, should be free of stems and cut finely so as to avoid choking. Later, as the poults grow larger, the greens need not be cut although the flock should be watched for choking. As the season advances succulent greens become scarce, when other sources of greens must be sought.

The best sources of greens later in the season are alfalfa and clover, but where these are not available weeds can be fed with safety and at a profit. Generally speaking, weeds should be fed that are relished by such animals as cows, and weeds that cows do not eat readily such as Jimson, burdock, cocklebur and iron weeds should be avoided. Some of the best weeds to feed are wild lettuce, lambs quarter, worm weed, sour and narrow dock, morning glory, and pig weed. Turkeys are especially fond of narrow and sour dock.

Stems should not be given, the leaves being plucked off, but where stems are accidentally fed they should be removed from the turkey pens after the leaves are eaten off. Occasionally, when weeds are fed, a turkey will become choked on a large stem and when this occurs it should be caught, held by the feet with head downward and the stem worked out of the throat and mouth with the hands. The operation is simple and will not harm the

Shavings Are Superior

to Straw to Protect Eggs Shavings in the nests, straw on the floor, and wire netting over the drop- fabric ping boards - such material and equipment lead to the production of

These are the results of tests as reported by P. B. Zumbro, extension specialist in poultry husbandry for the Ohio State university.

Under such conditions only 23 per cent of the eggs produced were dirty. When straw was used for nesting ma terial in place of shavings, the procent. When no nesting material was used, the percentage of dirty eggs

Consumers want eggs that are free from stain and dirt, but they do not want washed eggs. Washing not only takes time; it also removes the protecting "bloom," which detracts from

the appearance of the egg. It was found that one nest is required for each five birds in the house. Gathering two or three times each day was recommended by the investigators.

Sanitation Important

The poultryman should exercise care with reference to sanitation at all times, but in hot weather it is necessary to take extra precaution. The presence of a dead chicken on the range may result in limber neck which is a symptom of an acute intestinal disorder such as comes from ptomaine poisoning. Then, too, one should be careful to provide liberal quantities of clean water and this necessitates the daily cleaning of the drinking utensils. Anything which can be done in the way of sanitation to discourage the presence of files may also discourage tape worm infestation. Frequent cleaning of the poultry house and periodic inspection of the house for the presence of mites may do much to eliminate some of the losses in the poultry yard .- Missouri Farmer.

Greens and Water Needed Alfalfa or clover is a splendid source of greens and range pens should be located in such fields if possible. Poults drink a large amount of water, 100 poults using about 20 gallons per day when well grown. The source of water should be close at hand if possible. A good way to supply the flock with water is to haul it in a tank or water wagon, the wagon to stand near the pen where it can be syphoned out into the watering tanks or troughs as needed.

Discard Defectives

Pullets with crooked beaks, toes or backs, or other body defects, which may prevent the birds from getting an abundance of feed, should be discarded. If pullets are to be trapped as prospective breeders, they should be free from all standard disqualifications. If they are used only for commercial egg production, such defects as stubs, slight color defects, comb defects and so on may be disregarded as long as the birds are of good size and are vigorous.

Maturity in Pullets

"Maturity" in pullets may either have to do with the date of the first egg laid, which is ordinarily referred to as "precocity," or it may mean body growth, says a writer in the Los Angeles Times. Both precocity and body growth must be considered in intelligent selection. Early laying in pullets is desirable, but it must not be so early that a pullet starts off before she has grown sufficient body size to insure large eggs and the ability to lay ever a long period.

PATTERN 1811

HAS SMARTNESS

AND SIMPLICITY

Daytime is the "Big Time" of sun ny days-days that are crowded with activity from morn 'til sunset. You'll need many crisp cotton frocks-and now's the time to plan and make them! If it's smartness plus simplicity you're looking for, this model fills the bill with both! The wide neckline and the raglan-like sleeves with a bit of self-ruffling trim are new, and just no trouble at all to set in place. Large, handsome colored buttons lend an eye-catching interest. Make your frock of a novelty cotton-and you'll be up to the minute. Beginners will find the new Sewing Instructor a guide that is

very easy to follow. Pattern 1811 is available in sizes 12, 14, 16, 18, 20, 30, 32, 34, 36, 38 and Size 16 takes 31/8 yards 36 inch

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seven teenth street. New York.

ALL THAT IS NECESSARY Mother - Tommy, your music teacher is coming. Have you washed your face and hands? Tommy-Yes, ma.

"And your ears?" "Well, mother, I washed the one that will be next to her."

"I see," remarked Mr. Peck cautiously, "that a scientist says a man

would be healthier if he went out more at night." "Huh!" snorted his wife, "you try going out nights and you'll find how unhealthy I'll make it for you."-Cin-

"But we've got to decide, Mother," he persisted with impatience. "I dare say Cousin Columbine's expecting a

telegram tonight." "Never mind," put in his father. "It won't hurt the old lady to wait for a message until tomorrow. But we'll detide the question this evening, Jack. 1 promise you. After all, it's as easy to ace things now as later."

the two young people knew that they were to go "out west." The argumais pro and con had waged for a good two hours, Aunt Louise protestber regiew would return east with the manners "of a bear."

"and I warn you, too, young man," present As for your sister-"

That she termed "this wild, ridic-Aunt Judy suggested with some reluctance that if the boy must go, it might te wiser for him to go alone.

"All right," he retorted, impatient too much of a hothouse flower to stand transplanting-if she can't put up with a few bardships a time like this, I will go alone, though possibly-"

he hesitated, and his father ended m him: "You're thinking that it's Aug whom Cousin Columbine really

"Sie might not pay my carfare if

I went alone, Dad." "So if you go, it looks as if I'd have to," said the girl bitterly. "I suppose If I get unbearably fed up with everything I can walk back."

"Two thousand miles on the hoof!" grinned her brother, though perfectly aware that she spoke with sarcasm. That's where your pioneer blood shows my dear! If you find our aged tire too impossible you can turn th-liker. See here! I promise solemily that if you can't stand the job the a month or two, we'll hitch-hike back together. The experiment won't cost Dad a cent; and the chances are well have a whale of a good time." "Good time" spattered his paternal aunt; when Mother interrupted:

But Louise on you see any especially good times for the children hey stay at home?

Every one turned to her in surprise; while Aunt Louise responded: "Surely, Margaret, you don't approve of this idea?"

"Not wholly; but I've a feeling that both Jack and Nancy will be happier in absolutely new surroundings for a time. It's not easy for young folks dust themselves to such radical ages as well have to make. Of ase I shall worry about Nance; but she's too unhappy I think we can age to bring her back without the of hitch-hiking! What do

was then that Nancy, glancing at her as if for help, saw somehis face that made her heart. the first time she realhis catastrophe had done by, he looked old! she rnation. He looked attally worried; and all tying him still more. hesitating to accept an her living just beof doing something so far away, seemed unhat had Jack called her A parlor ornament? right, wasn't he? That's the measured up to. For lluminating moment the berself as others saw her, estly appalled. Dad would and and be a help just now. All but her absence and more went through her mind ing flash before she annew-born bravery:

"And don't forget your flannel nightgowns," spoke up the little brother: so, after all, the discussion ended on a

CHAPTER III

Waking suddenly at a nerve-racking jolt, Nancy sat up, wondering in that first startled instant, where she could be. Then her brain cleared and she realized that she was aboard a train their breakfast in order to have more headed for Colorado, and wondered if they had run into something, and if she ought to waken Jack or get up and put on her clothes. Surely there had been no such jolt the night before. For a moment she listened tensely in expectation of some confusion; then raised the window shade, peering out into the dim, gray light of early morning.

The train had stopped before a station and her car was directly opposite the brightly lighted restaurant. Nancy could see a girl of about her own age dressed in a crisp, white uniform, serving some trainmen at a lunch counter. She wondered if the waitress had been up all night or was just beginning her day's work. Probably the latter, for she looked fresh enoughbut what a ghastly hour to go to

A man and woman carrying suitcases emerged from the waiting room, and a moment later Nance felt them brush by her section, speaking to the porter in hushed voices. A cheerful time to be starting on a journey, she thought ironically, but perhaps out here where the distances were so great, one had to start when one

There followed another jolt. Evidently the engine had been detached and was coupling on again. The wheels turned slowly, and then faster. Nance strained her eyes to catch the name of the station-Dodge City-and shivering a little, pulled down the shade and snuggled under the blan-

So they were still in Kansas, Kansas! The idea that she could be there was incredible to Nancy Nelson. Why, Kansas had always seemed as far away as the North pole-and fully as unattractive! People lived there, of pose they carried their kids like that course, but not people quite like themselves. At least, that was how the girl had thought about it; yet that waitress in the lunch room lookedwhy she looked every bit as up-to-date as the girls behind the lunch counters Thus before they slept that night, at Thompson's Spa on Washington street in Boston!

This comparison brought a wave of homesickness to the unwilling exile. What a three weeks it had been since ing vigorously to the very last that | Jack received those telegrams from Cousin Columbine! Just to recall it made Nance shudder. Even Jack had lost his enthusat what seemed a deadlock, "If Sis is lasm for a time and hadn't talked much until the train left Worcester. But a meal in the diner had restored his courage, and since then he'd been the jolliest of companions. She hadn't realized before how nice her brother really was. Not once had he compared her to a hothouse flower or a parlor ornament. Not even when he caught her winking away some tears as the train pulled out. . .

Nancy slept after a while, but not for long. It was Jack who wakened her, slipping down from the upper berth and snapping up the window shade.

"Wake up. Sis!" he commanded in an excited whisper. "Look where we are! Why, that's-that must be prairie!"

It was!

Nancy sat up, almost as excited as her brother. Prairie! Miles and miles and miles of it, stretching endlessly

"Why, That's-That Must Be Prairie!"

into a far horizon. Neither of them had dimly realized the vastness of those great plains they were to crossplains which lay dappled by morning sunlight, softly undulating, as far as their astonished eyes could reach.

For the first time since starting on this journey, Nancy forgot her homesickness and was thrilled. She drew a breath born of both amazement and delight. To one whose entire life had been spent either in a crowded city or surrounded by the sheltering, green hills of New England, such limitless space was almost unbelievable. For the ldea that I had to get a time she watched this unfamiliar world slip by, too awed for anything world slip by, too awed for anything world slip by, too awed for anything at Cousin Columthe idea, that's all. It may world slip by, too awed for anything world slip by, too awed for anything

curious isolation considering its purpose; and in the distance patches of green about some lonely ranch.

Even Jack was silent, too interested. perhaps, to comment; but at last he said: "Let's dress, Nancy. I want to get out and spiff this air at the next station. Breakfast's at Syracuse, anyhow, and say! I think the sun looks brighter here than it does at home."

This was no idle guess. The sun was brighter-the air more sparkling. Nancy admitted that she had never breathed such air. They cut short moments to pace the platform. "And in no time now," said Jack as they swung reluctantly aboard the train again, "we'll be in Colorado. I wonder who Cousin Columbine will send to meet us."

Nance smiled. "Do you remember her first letter? I was to sit quietly in the station un-

til called for!" "So you were! Do you suppose they'll keep us waiting long? Gee, Nance! I just can't realize that this long trip is nearly over."

Neither could Nance; but all too soon they found themselves waiting their turn to leave the train. Goodbys to friendly fellow passengers had been spoken. A smiling porter had brushed away the cinders. Nancy, standing behind Jack in the narrow passage, realized suddenly that the hands clutching her pocketbook were trembling. Indeed, all the fear that had gripped her on leaving home was back again as she emerged into the sunlight and joined her brother on the platform.

"This place certainly looks civilized enough," she observed breathlessly as Jack dropped the bags and stood looking about in search of the expected

"Civilized!" Her brother laughed. "What did you think you'd see? Wild Indians? Of course it's civilized; but -for the love o' Mike, Nance, look

Nance looked. An Indian squaw was coming toward them, her shoulders covered by a gay, striped shawl, a wee black-eyed papoose strapped to her back. Said Jack, as she disappeared around a corner: "That relic of old times must have been ordered for our especial benefit. I didn't supin these days."

"But she had on silk stockings, Jack, and high-heeled slippers! They looked so incongruous with all the rest of her. Well, that'll be something to write home about. I wonder if we ought to go inside. Do you know, I-I feel sort of nervous. I wish whoever's coming for us would come and get it over with."

"Let's stay right here, this air's so marvelous. Do you suppose they often get such days in winter? Watch out, Sis!" Jack lowered his voice. "Catch onto the old dame in the fireman's

Nancy smiled, eyes following her brother's. A white-haired woman had just emerged from the station. She wore a broad-brimmed black felt hat much like a man's, while her long black cape, being unfastened, revealed boots, above which an inch or two of cotton stocking met a dark cloth skirt. An eccentric figure, taken as a whole. "And yet," Nance whispered as she passed them hurriedly, "she has an air about her. See what I mean, Jack?"

"Yeah," he admitted, "but I bet she's a crank of some sort, just the same. You know, what they call a-a character. You'd think-"

Jack paused. The eccentric lady had turned and was approaching rapidly. "I'm looking for two young people by the name of Nelson," she said crisply. "Have I found them?"

The question was as unique as the woman; but in that moment her somewhat mannish countenance was lighted by a contagious smile. Jack actually grinned, while Nance responded quickly: "It looks as if you had! Did Cousin Columbine send you to meet

us?" A quick nod answered her. "I dare say you're hungry as two bears, and so am I. Come in and eat. These eastern trains always arrive at meal times." Still talking, she led them toward

the station restaurant and motioned to

seats at the counter. "No use in paying a dollar for a dinner when you can get a hot roast beef sandwich for fifty cents. Do you like roast beef? In my opinion there's nothing better. Do you want coffee? They say it's bad for people but I've drunk it every day for more than fifty years and am still able to get about." She smiled at the waitress, and not

giving the young people a chance to

answer, ordered: "Roast beef sand-

wiches, coffee, lemon meringue ple for three, please; and take your time." Struck dumb by this breezy individual, Jack stifled a smile and gave his sister a disconcerting nudge. Their escort had hung her cape on a nearby hook, and was a noticeable figure in her broad felt hat and scarlet middy. People looked at her, mildly amused; but there was nobility in her weatherbeaten countenance, and her smile was

Lunch was quickly served, and there being no privacy at the counter, was consumed in silence save for a few questions regarding their journey. As the train pulled away from the station, both boy and girl turned to watch it, feeling a subtle, regretful twinge, as if some good friend were deserting them; and as Nance resumed her meal their companion asked: "Sorry to see the train depart without you?"

"I suppose I am," replied the girl, and added at this unexpected insight of her mood: "You see, it makes me feel as if the last bridge behind us was burning. Everything's so different from Massachusetts; and not knowing Cousin Columbine at all I'm silly enough to be a little nervous." The woman smiled one of her nice

"You needn't be. I don't think you'll smiles. find Columbine Nelson hard to live

"Have you known her long?" asked with." Jack, hoping to secure a bit of light on the character of their unseen rela-

"All my life. She was born at Pine Ridge seventy-odd years ago in a covered wagon."

"I know," said Nance, "It's one of our family stories, that, and how she happened to be named." "Is it indeed!" The woman tipped

their waitress and glanced up quickly "Oh, there you are, Mark!" The lunch room was almost empty now, and as she slipped from the high stool Nance saw a tall young fellow in a sombrero which he removed as he

caught sight of their companion. "This is Mark Adam, who is to drive us up," explained the lady. "Mark, these young folks are Nancy and Jack

"Stop Staring at Me, Jack." Nelson. Where are your trunk checks, Jack? I presume you've both brought luggage. And where's Matthew,

The young man smiled, showing strong, white teeth and a crinkle of humor around the eyes.

"Glad to know you." He stretched out a welcoming hand. "Matt's outside on the truck-too bashful to come in and meet the-er lady. That's it" (as Jack produced the checks). "You'll find the car parked back of the station. I'll be there as soon as I help Matt with the baggage."

"Mark's a good boy," observed their new acquaintance as the driver strode away. "He and his brother came down to the creamery today (they run a dairy ranch), so I roped them in to drive us and get your trunks. There isn't a better driver in Pine Ridge than Mark Adam, Nancy, so you've no call to feel nervous going up the pass. Here we are." They had left the station and were crossing a broad parking space. "You're to ride with Mark, Jack. You boys must get acquainted, and I want a chance to get acquainted with your sister."

Jack grinned as he helped them to their places. He longed to ask if their antiquated cousin had given these instructions in order to keep Nance and "that good-looker" as far apart as possible. Knowing that something of this sort was in his mind, Nancy threw him a warning glance, and said, as she sat down beside the eccentric lady mensely: "It's queer, but I feel acquainted with you already; and do you realize we don't even know your name?"

The lined face brightened humor-

"The truth is, I never tell my name if I can avoid it. That's the only grudge I've got against my parents. I've always wondered if their brains weren't affected by the altitude when they inflicted such a misnomer on a helpless infant. My name, you nice young things, is Columbine Nelson!"

If their unconventional relative had set off a bomb and blown the old touring car into a million bits, she wouldn't have created more surprise. Jack paused, one foot on the running board, and stared at her; while Nancy gasped: "But-but you can't be! Why Cousin Columbine's a feeble old lady over seventy!"

"Over seventy, I'll admit," alleged their companion, her eyes twinkling, "but not so feeble as she led you to believe. Stop staring at me, Jack. If it's the middy blouse, you'll just have to get used to it. A middy's a lifesaver in a place like Pine Ridge, where there's no dressmaker. Usually I wear blue. Here comes our driver. Will you kindly testify that my name is Nelson, Mark? These young folks seem to be unbelieving."

Mark Adam laughed as he swung

into the driver's seat. "It is unless she got married when I dropped her at the court house two hours back," he stated. "I saw that cop give you an admiring glance, Miss

Columbine." "Admiring!" Columbine Nelson sniffed contemptuously. "It's more likely he was thinking: 'There's that old freak come down from Pine Ridge again.' Stop at the Cash and Carry for a box of canned stuff, Mark! and then head for home or Matthew will get there first and not know where to put the

luggage." "Can't Aurora tell him?" They had turned into a street that faced the mountain, from which Nancy could hardly take her eyes.

"Not Aurora Tubbs," Cousin Columbine was saying. "She's so flustered at the idea of having company that like as not she'd have him put those trunks in the bathroom. We have a bathroom, Nancy, which no doubt you'll be relieved to hear. There's only one other in the village, and that's in a summer cottage belonging to a rich oil man from Oklahoma. I went to the extravagance in 1914, just before the great war started over in Europe. I remember the date because I was christening the tub when the news came, and Aurora (her sister married German, Otto Weismuller up at Cripple Creek and as good a fellow as ever lived), came rushing upstairs with the paper. She actually pounded on unsightly, unpatriotic and an insult the door, and shouted: 'Miss Columto the honorable ancestors of those bine! Miss Columbine! Don't bother who have the eye slant removed. to wash. The Germans have started fighting. Do you suppose our Otto a local anaesthetic. It takes almost will have to go?' Aurora's apt to get flustered in an emergency, but I never saw her so worked up."

TO BF CONTINUED

Boost in Farm Incomes Is Figured at a Billion

Prices Chief Factor.

Washington.-Despite the ravages of drought and reports of great losses caused, the combined cash income of American farmers this year will exceed that of 1933 by about 20 per cent, or more than \$1,000,000,000.

Present official estimates are that farmers will receive from the sale of all crops and livestock this year a total of \$5,450,000,000. To this will be added benefit payments for acreage control under adjustment programs of the Agricultural Adjustment administration, amounting to \$500,000,000. of which \$150,000,000 was paid in the first half of this year.

The resulting total of \$5,950,000,000 compares with a total cash income to

farmers in 1933 of \$4,868,000,000. Although prepared by federal economists, the estimate of 1934 income cannot be attributed to any government agency. This is because the separate items going into the total must be approved by experts specializing in the various phases of agricultural production before being officially given out.

Emergency Sales Included

In arriving at the 1934 figure it has been assumed that proceeds from the sale of all crops and livestock in commercial channels during the last half of the year will be about \$86,000,000 more than farmers received during the corresponding period last year.

Total income during the latter period was estimated by the bureau of agricultural economics at \$2,836,000,-000, so that the comparative figure for the last half of 1934 would be \$2,922,-000,000. To this is added \$100,000,000 expected to be received from the emergency sale to the government of about 7,000,000 cattle and calves and 5,000,000 sheep at an average of \$13 and \$3 a head, respectively.

The figures for anticipated livestock purchases by the government are admittedly conservative, and the estimate of income from this source would be increased to the extent that purchases are larger. This is one of the items which may be changed before the 1934 income estimate is officially announced.

Addition of the tentative estimate of \$100,000,000 to receipts from sales in commercial channels during the last half of 1934 leaves the total at \$3,022,000,000. When the \$350,000,000 expected to be paid out in benefit payments is added to other income during the last half of the year the combined result is \$3,372,000,000. Combining this with the \$2,578,- | dition.

Federal Aid and Increased | 000,000 received during the first half of the year gives the \$5,950,000,000

Marketing Heavier Than Usual

It is assumed by government agronomists that the sharp reduction in farm products available for marketing as a result of drought will be slightly more than offset by correspondingly sharp increases in prices for such products.

Government estimates of cash income to farmers are based on the marketings of 37 of the more important agricultural products normally making up about 90 per cent of all cash income received by farmers. Although the total of the 12 monthly estimates on which the calculations are partly based is about income from farm production, they are not strictly comparable.

Slight differences between the two estimates occur because the annual income from the crops sold or to be | might face starvation,

Scientist Sure No Life Exists on Planet Mars

New York-Life on Mars does not exist, according to Dr. Walter S. Adams, director of Mount Wilson observatory, and is, he states, more precious and rare than we realize.

Directly opposed to popular supposition Mars, avers Dr. Adams, is a dying world. Its meager supply of water and oxygen, both requisites of life, exposed daily to violent variations as the sun ascends and descends on its surface, renders negligible any idea that life is extant upon it.

At its closest approach to the sure surface temperature approximates 60 degrees Fahrenheit. Removed its greatest distance from the sun, the temperature reaches zero. A temperature of about 40 degrees, and even lower, is believed to be that of the dark side. Every twenty-four hours, as the planet rotates upon its axis, its surface temperature is therefore subject to immense changes.

Because of its sparse atmosphere. Mars cools and warms more rapidly than any of our earth's deserts.

FOR CONGRESS

To the Voters of the Sixth Congressional District

Two years ago I was honored by being elected to Congress, As a candidate for re-election I submit a few editorial comments on my record:

"Roosevelt Supporter

Congressman Reilly is an outstanding champion of the cause of the New Deal, supporting President Roosevelt upon his entire program. There was no wavering on his part. He took the position that the government was in a critical condition, and when President Roosevelt advocated balancing the budget and the National Recovery act, Mr. Reilly

went all the way.

Admirers of the President everywhere in the district will commend the congressman for his unswerving loyalty in the time of a nation's

It took courage and backbone to withstand the attacks that were made, but this did not deter Congressman Reilly from his loyalty in supporting the President."

"Congressman Reilly went all the way for Roosevelt. If you be-lieve in Roosevelt, vote for Congressman Reilly, who never wavered in his support.'

Charles E. Broughton, The Sheboygan Press

"Congressman M. K. Reilly

Congressman Reilly has opposition for the Democratic nomination. It is Mr. Fiss' privilege and his right to oppose Mr. Reilly, because of his ambition to be a congressman, but to oppose Mr. Reilly because of his record—well, it just can't be done.

The record of Mr. Reilly in the last Congress is written in indelible into the proved himself a men of magnificent courses a man of high

The record of Mr. Kelly in the last congress is written in indenderink. He proved himself a man of magnificent courage, a man of high ability, a statesman—not a politician. He never wavered in his support of President Roosevelt and his recovery program.

We need men like M. K. Reilly in public life today. Men who have the ability to think things through, men who are fair, honest and of sound judgment. Men who will stand up and be counted even at the threat of defeat at the polls.

threat of defeat at the polls. M. K. Reilly has given not only this district, but the country, the highest type of service, and we are sure the voters will express their appreciation of his work by supporting him in the primary and the general election."

A. S. Horn, Cedarburg News

"Fair Play in Politics

It is difficult to understand why Congressman Reiliy should have

an opponent in the Democratic primary.

Congressman Reilly has supported Mr. Roosevelt's recovery program 100 per cent. No other Congressman has given more consistent and whole-hearted support to Mr. Roosevelt's effort to bring about a revival of industry than Congressman Reilly.

Mr. Reilly has not only supported the President's program from start to finish, but he has also shown that he possesses the courage to withstand propaganda, even at the threat of defeat at the polls.

The question involved in the re-election of a Congressman should

The question involved in the re-election of a Congressman should not be what he did as regards post offices but how he voted on issues involving the whole district and measured by that standard, Congressman Reilly has a 100 per cent rating."
