# PICK CO. OF WEST ELECT BASKETBALL BEND HAVE HEARING OFFICERS AT MEETING

Washington, Oct. 30-The national labor relations board heard charges and denials today that the Carl Pick Man- | purpose of electing officers and attendufacturing company of West Bend, ing to other business matters. Lester Wis., discharged workers for union activities.

After listening to testimony by Carl Rix, secretary and counsel for the company, and Charlton Ogburn, attorney for the United Auto Workers' Federation union No. 19641, the board took the case under advisement. The dispute was appealed by the

company after the Chicago regional laoor board had ordered reinstatement of 17 men discharged in June. A protest strike was called June 19. Rix disputed labor's contention that the men had been laid off for their un-

on activities, asserting the company had been in the process of tearing down its staff of workers in organizing a permanent for the next five years. He said the company had been looking about for better men and had not hesitated to replace those it considered inefficient. The company manufactures automobile parts.

Rix said the company had employed 280 men before the strike, compared with about 100 now on the pay rolls. Ogburn charged the company had coerced and intimidated the men and interfered with their union activities He denied a contention by Rix that the efficiency of the men had suffered by their affiliation with the union. The workers were organized only a short time before the strike.

Ogburn contended that union men were more efficient than non-union be-

or much concerned over the possibilty of losing its Blue Eagle, and Ogburn replied that the automobile industry and benefitted immeasurably from

**NUMBER 4** 

Dreher was elected president, Lloyd Hron, secretary, and Charles Miller, At this meeting, a committee of four was appointed to represent Kewaskum at the Land-O'-Lakes League meeting at Merton, Wis., on Thursday night. The Land-O'-Lakes is one of the best and most sound leagues in the statethe league is eleven years old. Franchises were offered to Grafton, West Bend, Cedarburg, Port Washington and Kewaskum this year. If all of these new teams offered franchises join the league, it will be composed of approxi-

mately 15 teams. In that case, the league will probably be divided into two divisions. Each team in the league consists entirely of home-town players. It is probable that Kewaskum will enter, if so, some real games of basketball will be played in the good old gymnasium this year. Another meeting will be held next

Tuesday evening, Nov. 6, and practice will most likely get under way several

So far, thirteen players have been secured as candidates for the team.

### WISCONSIN LEGION WINS OVER CALIFORNIA

chopped whites have been added.

2 cups whole wheat flour

3 teaspoons baking powder

1 teaspoon melted butter

2 cups whole wheat flour

2 tablespoons sugar

1/2 teaspoon salt

34 teaspoon salt

34 teaspoon soda

½ cup molasses

% cup milk

1 cup milk

Tomato or cream sauce

Pepper. Salt

H AVE you had your iron today and | yesterday and the day before? If you habitually have been using eggs, spinach, potatoes, whole grain cereals or bran, dates, prunes, beans, particularly dried beans, peas, lentils, nuts, meat, especially kidneys and liver, fish and oysters, and if you have been using molasses, you have been getting a full supply of iron. Other fruits and vege tables contain enough iron to make them valuable. A very tiny amount of fron by weight is needed daily, but lacking that minute quantity, every cell of the body, including the red (325 degrees Fahrenhelt) until firm, blood cells, is being deprived of an es-

We use iron with every breath we with strained egg yolk. Serve with totake and as very little can be stored mato or cream sauce to which the from day to day, we must renew our supply regularly. To fully utilize iron, copper, one of the other minerals, and possibly manganese, must be present. Fortunately we find that most foods which supply iron have these other materlals in varying amounts.

It is also possible for the body to make use of iron in an inorganic form so that now doctors prescribe for per sons who show an anemia, a scientific iron "tonic." To prevent this condition is of course to make sure that we get a liberal supply of food high in iron in our daily diet, and the best way to do that is to follow that statement which I have made so often in this column-a good varied diet for the sake of well being.

Spinach Salad. 2 cups cooked spinach

2 hard-cooked eggs French dressing

Chop the cooked spinach. Chop separately the whites and the yolks and arrange them, mixed in little mounds on the spinach. Pour a well-seasoned french dressing over the salad and garnish with lettuce leaves.

Liver and Mushrooms.

- 1 pound beef or pork liver 2 tablespoons chopped onion
- 3 tablespoons drippings
- 2 tablespoons flour 1/2 cup sour cream
- teaspoon salt
- 14 teaspoon pepper 1 cup mushroom or meat stock 1 cup mushrooms

Wipe liver, remove skin and cut into cubes. Brown with onion in the hot fat and cook gently for five minutes Stir in flour and add cream, seasonings, stock and mushrooms. Cook until sauce thickens. Add more liquid if needed. Serve in large cream puffs or on toast as a main course for a luncheon.

Egg and Ham Timbales. 2 tablespoons butter 1/2 cup stale bread crumbs

#### Ohio Farmers Happy Over Year's Returns

Washington, Onio .- Things aren't gloomy on all farms nowadays. A Fayette county farmer declared recently: "My income from the farm this year is going to be much more than it has been in the last

three years combined.

"I just banked a check for \$2,410. which I got from 171 head of hogs that averaged more than 200 ounds. This is the first worthwhile check I have received from the farm in the last three years. The farm is showing a real profit he beamed.

#### OW IT STARTE By JEAN NEWTON

"Sea-Dog"

ONE anxious to know, seeks the origin of the term "sea-dog." "I have heard it used," he says, "with absolutely no intention of offense, even of officers in the navy."

True. While the term can hardly be described as elegant, there is nothing undignified in its significance, and it has the sanction of common usage to indicate simply one who has followed the sea for years and loves it to the extent of not feeling at home on land.

The derivation of the term lies in the comparison of man's love of and faithfulness to his calling on the sea with the faithfulness to himself of man's best friend, the dog. @ Bell Syndicate.-WNU Service

### Federal Prison Cells

Are Made Impregnable Washington.-When Uncle Sam slaps a criminal in a new federal prison cell, the desperado is behind bars that really are bars.

The government now is using toolproof steel for its cells and a recent series of tests at the new Lewisburg. Pa., federal penitentiary show beyond all doubt that the bars cannot be cut by hacksaws or other tools that might be slipped to inmates.

This steel was used in construction of cells at Lewisburg and also at the Francisco bay where the most desperate federal prisoners soon are to be incarcerated.

The warden of Lewisburg sent Federal Prison Director Bates a sample of the tool-proof steel bars which had been attacked experimentally with half a dozen tools that would easily cut through ordinary steel. The bar was little more than scratched.

Hacksaws bit slightly into the outside layer, but their teeth were worn off by the inner cores of especially hardened metal. Brand-new files became smooth and useless after a few strokes. Even a metal lathe, which no risoner could smuggle into a cell, was tried and with no result. Acid, too, proved futile.

#### Fire Fighting by Plane With Chemicals Likely

be used in the future for extinguishing forest fires. The opportunity for the employment of chemicals in this field may become much broader than has ever been possible in combating other types of fires, says the New York State College of Forestry. The use of dust-chemical combinations from the air eventually may be developed which would probably be impracticable in connection with building conflagrations in city or country unless the fire covered an extensive area.

It is known that efficient dust mixtures have been developed which can be applied from an airplane and that these dust combinations can be produced in commercial quantities at fairly reasonable prices. Moreover, the needed materials can be stowed at convenient points available for use on short notice.

#### Trace in Farm Products at School Restaurant Ojus, Fla .- "May I trade in three

arrots for a piece of cherry pie?" This and many similar questions will be asked this fall in the Ojus school

cafeteria. A plan by which school children may trade in home-grown vegetables and farm products for hot lunches has been worked out by Mrs. Alise Tyree, Dade

ounty home economics supervisor. The plan, she explains, will insure against malnutrition among students and in addition provide the school cafeteria with vegetables for the lunches

County educational authorities were so delighted over the plan that they will extend it to other rural schools. if it proves successful.

Boa Constrictor Not Poisonous

Boa constrictors are not poisonous. They are harmless until they become large enough to crush their prey. The highly developed muscles make the snake appear much leaner and higher from the ground than ordinary reptiles. Fully grown boa constrictors sometimes exceed 30 feet in length and are one of the most dangerous of jungle creatures. Like all constrictors, they swallow their food whole and digest it

British Census Lists Reveal Striking Facts.

There was published recently by the stationery office a 680-page vol ume of official statistics culled from the 1931 census returns. The vol. ume gives a vast number of tables classifying the population according to occupations. The occupational terms used number 35,000.

One interesting fact appears under the heading of people who are de scribed as "retired or not gainfully occupied." This classification in cludes, in addition to those who have retired, students and persons following an occupation outside the United Kingdom.

In 1921 the number of males coming within this category was 1,788. 390, but by 1931 it had declined to 1.385,526. The number of females in 1921 was 10,634,473, but this figure rose in the decade to 10,804,851

As three years have passed since the census was taken the tables lowed by women

During the decade there was a crane drivers, five have become bol In those days making of quilts de- er firemen and stokers, and 93 have

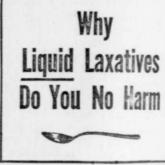

One married woman was returned

There were 347 married women who were smiths and skilled force workers. Employment in transport and con-

munications were 821 as shunter pointsmen and level crossing work ers, while drivers and coachmen of coaches, carriages and horse omnibuses numbered four. Under the heading chief con-

stables, inspectors and superintendents, five married women were re-Married women bookmakers num-

By CHERIE NICHOLAS

so long in promise according to forecasts, has at last arrived. force, too! It is an endless of tunics that is descending us. One cannot move in fashim without encountering tunics wery description along the way. ictly tailored to the glittering ous sort there's a tunic for every

refore, you can do no smarter have your newest costume, be street, campus, office or school, ressy afternoon or for glamorous g wear, fashioned tunic-wise.

ctical hours your tweed, your ol, your sturdy velveteen tunic be straight, slim and strictly to the point of austerity. To s chie you might make it up w Cossack manner with braid ons, fur bandings, wide belt, mopings and other revealing had Russian influence.

nistike on a somewhat dressier de they go forth to afternoon atherings. One of the newest by is the tunic manipulated with fan pleatings and flares about its tine to ease it up a bit. This same Equently styled of light woolen with and, like as not, sheer to the point ansparency. Often these cong sleeves, made peasant fashion, nate with colored embroidery ering sequin embellishment.

the shades of night fall, then at the spotlight of fashion rehe tunic at the height of its r the really formal tunics play of dazzling splendor. The grand-

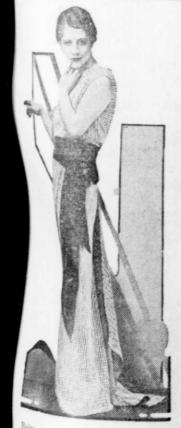

MOR has become fact. The tunic, | est ones are evolved of scintillating lame weaves so sumptuous they baffle description. To make it more so, if you are sparkling-minded, your tunic may be elaborately worked with thou-

sands of shiny, twinkling sequins. Even a dressy afternoon tunic is apt to go glittery. For example, the handsome model centered in the illustration is of silver lame worked all over with millions of wee shimmering jet paillettes. This striking model somes straight from Paris-a Bruyere

The fur-bordered tunic is the "talk o' town" this season. On crisp autumn days it comes out in tweeds and novelty woolens with lavish trimmings of the fur of your choice. At night it sallies forth in such regal aspect as the picture to the left portrays. This very elegant evening gown is made of goldspotted black velvet, this minaret silhouette being a favorite theme on the fall and winter fashion program.

Not all the honors, however, are going to the tunic for there is a rival in the field-the short jacket or jacket blouse if you prefer to call it so. While tuck-ins are by no means out of the picture, yet there is a decided trend toward blouses and jacket effects which are worn over This is true not only of daytime blouses of plaids and taffetas and metal-shot woolens, so many of which are like jackets or basques, but for evening and formal afternoon wear the big message is the jacket-blouse made of gold or silver cloth. The youthful model to the right in this group is a silver knitted type. With a black velvet skirt it is tremendously good looking. @. Western Newspaper Union.

WITH WIDE SASH

o means out of the on but sashes are "in." o is sending out such love-Paris, girdles this ening dress of blue and wool with a wide sash ed velvet. The fact that s fashioned of a sheer e is significant, for the reports laud thin wool g gowns

Challis Blouses

blouses for everyday wear.

#### LEADING DESIGNERS SHOW LONGER COATS

Costumes composed of three-quarter coat, skirt, long blouse or tunic are sponsored by leading couturiers both for morning and afternoon wear. In some houses the coats remain really three-quarter and swagger in line, with fullness starting from the shoulders or kimono sleeves. In other houses, like Marcel Rochas, the three-quarter coats have been lengthened into seveneighths. On more dressy models the swagger coat is replaced by a closefitted garment with line indicated and flared effect on the skirt. This is particularly sponsored by Worth. In all cases the skirt underneath remains quite straight and narrow.

#### Quilting Hues Will Be Popular for Fall Styles

Call in the neighbors and have a quilting bee. It's quite the thing this season, what with the revival of quilt-

ed silk and velvet wraps. Quilted fabrics are all over the place, not only in evening wraps, but for daytime clothes, sports outfits and practically anything else you may

A little jacket of quilted green felt, worn with a brown woolen sports frock, adds a distinct fillip to the picture, and quilted handbags, in woolens, satins or velvets, are seen in our best shops. The quilted velvet toque is one of the new wrinkles of the season, and the peak of elegance is reached in the luxurious quilted velvet and satin evening wraps seen about town.

#### New Hand-Knits for Fall Adopt Color Contrasts

Brown, with either chartreuse or old gold for contrast, is a favorite color for hand-knits for fall. Next in line is dark green, set off by maize-gold or dusty beige. Bright reds have created dis with dark background quite a furor for two-piece dresses, bright flower patterns make with cerise and flamingo leading the field.

Here's Slip That Has "Everything"

PATTERN 1897 There are only a few things that we can count on in this funny old world, but one of them is that no woman ever really has enough slips. She just gets all set when along comes a new frock and the whole business has to be done over again. With this pattern she is prepared for any emergency. It is no trouble to

make, fits beautifully, and it is

shadow-proof-just about all any under it. It is nice in white and simply grand in a color to go under transparent dresses.

Pattern 1897 is available in sizes 34, 36, 38, 40, 42, 44 and 46. Size 36 takes 31/2 yards 39-inch fabric. Illustrated step-by-step sewing instruc-

tions included. Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventeenth street, New York City.

#### BAD BUSINESS

Charitable Lady-Here, my poor fellow, is a quarter for you. It must be terrible to be lame, but I think it must be worse to be blind.

Panhandler-You're right, maam, When I was blind, people was always handin' me counterfest money. -Pathfinder Magazine.

Ready Reference

"What I want," said Senator Sorghum, "is to get my own financial affairs straightened out along with those of the nation."

"I don't believe my scientific calheavy. The donkey did its best, but culations are sufficiently advanced to help you," said the friend with the pale, thoughtful face. "But I can recommend you a good lobbyist."-Washington Star.

TRUE TO HER WORD

## Economic Highlights

Happenings that affect the dinner pails, dividend checks and tax bills of very individual. National and International problems inseparable from local welfare.

A few weeks ago eight black-robed gures walked slowly into an ancient aber in Washington, D. C. They ank down in age-polished leather hairs, while a crier rapped his gavel nd announced: "Ovez, ovez, ovez! All having business before the Inited States are admonished to draw ear and give their attention ... . God ave the United States and this Honor-

These eight men-the ninth was abent for opening day, due to illnessepresent the highest power in the land. Theirs is the court of last resort—theirs s the power to settle, finally and for all time, arguments concerning the constitutionality of laws and judgments. Their combined age comes close to 600 which about 300 will probably be eliminated on jurisdictional grounds n lower courts, which involve New Deal legislation will come before the

themselves to be instinctively Conservative: Justices Sutherland, Butler, Mc-Reynalds Van Devanter Four lean to the Liberal side: Justices Brandeis. less unknown quantity is Mr. Chief been with one group sometimes with the other. Many believe, however, that and if that is true, New Deal laws are likely to stand the acid test. During recent years more and more Supreme Court decisions have presented five justices on one side with the other four dissenting-a shift of but a single member could revolutionize the general

trend of decisions Whatever the results, decisions of the Court will be final-and they will not be questioned Senators Congress. men and Governors are damned and reviled; even Presidents are subject to strong criticism. But the Supreme Court-whose members, in the words of Mr. Justice Holmes "Take the veil" is above such mundane matters. No other institution possesses the almost unqualified admiration, respect and faith of the American people.

Shortly after opening, the Court made a decision which, while it did not affirm or deny constitutionality of any major Administration measure, is of wide interest. It threw out the case of an air-line which held that the government had illegally abrogated air-mail contracts, and refused to review the decisions of lower tribunals.

So far as business is concerned, the year 1934 has been disappointing-the great hopes that were held for recovery haven't materialized. However, by comparison with last year, our com-

mercial affairs are in much better order During the first six months of 1933. according to a survey made by the National City Bank, representative businesses earned an average of but 1.7 per cent on their investment. During th same period this year, return was 5.7 per cent. In the year 1927, which is considered normally prosperous, industry's profits were at the rate of 8.7 per cent. All businesses, of course, are not up to the average-the 5.7 figure is largely made possible by the fact that certain industries are earning great profits. automobile manufacturers earned 12.2 per cent, Auto parts and accessories makers received 12.8 per cent; housenold equipment, 10.1 per cent; chemicals, 10 per cent. By way of contrast iron and steel makers earned only 0.4 per cent; coal producers, 2.3 per cent; and building material makers, 0.8 per

ent. Even in these cases, however, the ousinesses are doing better than last year, when they took losses. As for recent trends, the influence as been downward, and profits now

tend to be smaller than they were durng the first six months of the year. Past experience indicates that there will be a pickup when the elections are over, and some financial authorities are saying that business leaders feel more confident.

### FOR SHERIFF

Having served Washington county as its sheriff for nearly two years I come before the voters to ask for an endorsement of what I have accomplished. believe I can say in all honesty that Washington county has never had a sheriff who was called upon to perform as much official work as I have performed. In every case I have responded to cali, in daytime or at night, and always given honest and able service. I endeavored at all times to do my duty as per oath of office, and my con- at the Edward Bachman home Sunday science is clear that I lived up to that oath to the very letter.

If this, my record, is appreciated, then I feel in all fairness that I am entitled nedum home where they helped celeto succeed myself-to be re-elected on brate Miss Loretta's birthday that ev-Tuesday, Nov. 6.

With my time taken up officially almost continuously during my term it has not been possible for me to meet zens as I would like to have met, but having done my duty—and duty comes first—I appeal for the hearty support of the voters at the coming election. If re elected I will give the office the same careful attention I have given it

Your support will be appreciated. JOE KIRSCH

THE McCormick-Deering 10-20 Tractor proides power in abundance for general farm It pulls two plows under all reasonable month of pulls two plows under all reasonable month on the plow-ing dep. For its size, the 10-20 has a great capacity for work—you can apply its power three ways by drawbar, belt, or power take-off—to operate variety of equipment throughout the year.

The surprising strength of the 10-20 is due to the rigid one-piece main frame, in and on which are mounted the 4-cylinder engine, clutch. and transmission and differential assemblies. All important wearing parts are completely enclosed, protected from dust and grit, and run in a bath of oil. Handholes provide quick accessibility to all enclosed parts.

Ask us how this remarkable, sturdy, powerful tractor can make power farming a reality on the moderate-size farm We also have the economical McCormick-Deering 15-30 and the all-purpose Farmall.

# Highest Paid Short Fiction Writer

FANNIE HURST is the highest paid short story writer in the world today. There's a good reason for that. She knows human nature and under the magic of her touch, the people about whom she writes become real people, not mere literary creations. The plots of her stories are based on incidents from real life as it is lived every day by the common people.

Such are the stories which are appearing in this newspaper. Be sure to read them and talk to your friends about them, too. And Fannie Hurst's nories are interesting stories.

## Jp-to-the-Minute and Practical

Every woman wishes to be as well-dressed as possible without spending too much time or money on her clothes. That is why so many women in this community turn first to the page in this newspaper which contains the illustrated fashion articles by Miss Cherie Nicholasa For Miss Nicholas is an authority on fashions-not the freak odels and the extreme styles, but the fashions in dress which the modern woman demands, those which are up-to-theminute and at the same time economical and practical.

Be sure to look for these articles in each issue of this newspaper and then tell your women friends about them. They will be glad to know how they, too, can wear clothes which carry the message of the well-dressed woman.

"We can prove we never harbored

FOUR thousand or so financiers gath- measures are loyally adopted" to stop ered in Washington for the annual political assassination and conspiracy. convention of the American Bankers' Both the ententes decided to adopt association, and it became apparent at once that they were far from unanimous in their opinions concerning the economic policies of the New Deal. Francis Marion Law of Houston, Texas, retiring president of the association, gave out an interview in which he said he believed that economic recovery had arrived at a point where bankers of the United States could honestly advise business men to go into debt again in order to put idle bank reserves to work. Further, he stated that bankers feel that the securities of the United States government are the best investment "on the face of the earth" and that there need be no concern over the condition of government

What made this expression especially noteworthy was the fact that only recently the federal advisory council, composed of leading bankers, issued a warning that government credit was being menaced by the unbalanced condition of the federal budget and the unstabilized dollar.

Then appeared before the bankers in Constitution hall President Roosevelt himself and made an appeal for "an alliance of all forces intent upon the business of recovery." He called on the banks to lend more money to finance the New Deal program.

"Government should assert its leadership in encouraging not only confidence of the people in banks but the confidence of the banks in the people," he said.

"In March, 1933, I asked the people of this country to renew their confidence in banks. They took me at my word. Tonight I ask the bankers of this country to renew their confidence in the people of this country. I think you will take me at my word."

He said that the administration stood squarely back of continuance of the profit system and that emergency activities would be curtailed as fast as private business could pick up the load.

It was noted that the President made no promise to balance the budget or to stabilize the currency; also that he did not comment on the proposal to create a central bank. His talk was heartily applauded, but many of his hearers and would give it his undivided attenwere far from satisfied.

Before Mr. Roosevelt spoke, the bankers were addressed by Jackson much talk about isms," he said. "Ev-Reynolds, president of the First Na- erywhere we hear about Communism. tional bank of New York and a stanch | Socialism, Fascism, Hitlerism, and othsound money advocate. He appealed ers too numerous to mention. for co-operation with the President, highly praising his efforts at rehabili-

"If the government and the banks say to you that under my administracontinue in the role of antagonists it | tion this American Legion is a sworn will invoke the gravest consequences to our country, perhaps even the destruction of many institutions and principles we have long held dear.

"The poor, whom we have always with us, will not be much worse off. The rich will survive in comfort at least, as they always have, but the great stratum of our people between these two groups will be irretrievably ruined.

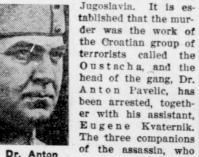

"If, on the other hand, we abandon our antagonism for friendly, understanding, sympathetic co-operation, I believe we can make a great contribution toward the perpetuation of our cherished institutions, the encouragement of our fellow citizens, and the gradual and sound rebuilding of the shattered economic and financial structure of our country."

Further overtures to the bankers were made by Jesse H. Jones, chairman of the Reconstruction Finance corporation, and J. F. T. O'Connor, comptroller of the currency. Both of them gave assurance that the economic condition of the country is sound, and Mr. Jones urged the bankers to expand their loans to business.

To all this the bankers responded by unanimously adopting resolutions promising to co-operate with the government but demanding a balanced budget.

Rudolf S. Hecht of New Orleans was elected president of the association to succeed Mr. Law.

# Badger State « Happenings »

Milwaukee-Esther Nowakowski, 13, saved the lives of nine members of her family when she awoke and found the house filled with coal gas fumes.

Portage - Henry Pritchard, former cashler of the closed Randolph State bank, was free on \$2,500 bond after state banking laws.

Neenah - Billy Ripple, 10, of Menasha, was taken to Theda Clark hospital here with an injured left hand. Three fingers were blown off when he threw a dynamite cap into a bonfire.

Fond du Lac - Trial of Lawrence Kilmer on charges of murdering his sweetheart, Agatha Arnold, after a roadhouse quarrel at Byron on Sept. 14, will start in circuit court here Monday, Nov. 12.

Racine - A 36-hour week with an

hourly wage rate of \$1.10 was agreed

upon by the Racine Painters' association. A compliance board was appointed to attend to the collection of a state and federal fee. Madison - The March Southdown wether lamb Harold Robinson, 17, Evansville farm youth, entered in the

nineteenth junior livestock exposition

here was chosen as the best single fat

lamb among 302 sheep entries, giving him the grand championship. Fond du Lac-Claims totaling \$35,-000 have been filed against the town of Fond du Lac as the result of an automobile collision Sept. 21 when seven persons were injured at a viaduct on highway 41 at the south limits of Fond du Lac. Officials of the town

disclaimed liability on the ground that

it is a federal highway.

Ladysmith - After standing guard over the body of his dead master for more than 48 hours, a small spaniel dog's lonely vigil had been relieved. Milo Mitchell, an aged recluse, fell dead from a heart attack while walking to his woodland home from a South Fork store. The dog, who had been the old man's sole companion for years, stayed on the spot until his barking attracted hunters two days later.

Madison-Testimony that an empty shotgun shell found near the spot where Paul Kraby, Stoughton policeman, was shot to death from ambush, was "unquestionably" fired from a gun which has been identified as owned by Joseph Pliner, was given by Prof. J. H. Mathews, ballistics expert, at Pliner's preliminary hearing. Pliner, the predecessor of Kraby on the Stoughton force, is charged with first degree

Madison - An extension of an emergency rate reduction for customers of the Northern States Power Co. and the Midland Public Service Co. in 15 central Wisconsin counties was authora course at Desenzano, four times at Some 1,100 rural customers from Oct. 1 to Jan. 1 will save \$7,000 through a reduction in the rural service charge. The cut is voluntary on the part of the companies. From June 1 to Oct. 1 the saving amounted to \$9,000.

Stevens Point-An unusual campaign M AHATMA GANDHI has quit as against traffic violators here is under leader of the All-India National-way as an emergency relief project set busy corners are checking motorists, and ask for co-operation. Reported violations are averaging about 250 daily and reached a peak one day of nearly 500.

Milwaukee - An order calling for salary increases of from \$15 to \$20 a month for employes of 11 dairies and six ice cream companies was drafted by an arbitration board representing the Milwaukee Ice Cream Manufacturers association and Auto Truck Driv-W. A. SCOTT and Campbell Black ers' Union No. 347. In addition to the wage increases, employes will work on a 48-hour week basis with union recogbourne air derby, reducing the record nition in accordance with terms agreed strike July 5.

> Rhinelander-With legs crossed and hands folded, the badly disintegrated but fully clad body of an unidentified lumberjack was found sitting atop a coffin in a local cemetery. Authorities were completely baffled when notified of the discovery made by a crew of highway workmen. The workers, in constructing a new road running by the graveyard, found it necessary to move one grave-that of a Monica man buried about 10 years ago. When they opened the grave they found the other body seated upright on the rough box covering the Monica man's coffin.

Madison-The state purchasing department has awarded new contracts for 1935 printing at a saving of \$125,-000 on the price proposed in the bids submitted earlier this year. Contracts finally awarded brought the total cost

Kenosha-Freak marathons, walkathons and endurance contests covering days and weeks are now under an official ban in Kenosha county. The county board adopted an ordinance similar to the one adopted by the city council several months ago.

Shell Lake-J. D. Thomas, 70, former president of the defunct Spooner State bank, which closed in August, 1931, was found guilty in circuit court here on one of 13 counts charging illegal borrowing of money from the

Madison-The Advance Transportation company, Milwaukee, was denied a contract carrier license because it began trucking operations it was unnounced.

Racine-The removal of Grover Lutter as chief of police was demanded by organized labor here in protest against the use of tear gas to disperse women pickets at the strike-bound plant of the Chicago Rubber company.

Madison-Still nominal head of the national labor relations board, from which he resigned Oct. 9, Lloyd K. Garrison has returned from Washington to resume his duties as dean of the University of Wisconsin law school.

Granton-Louis Rach, middle aged cheesemaker living two miles from here, burned to death when trapped in his sedan after a mysterious blast on highway 10. Unable to open the doors of the car, Rach was burned to death as neighbors stood helplessly by.

Milwaukee - Ludington Patton, 66, president of the Pittsburgh Glass company, socially prominent and widely known in civic circles, died at his home here of a heart attack. He had suffered a previous attack not long ago at his winter home in Miami.

Madison-Circuit Judge A. G. Zimmerman, in effect, upheld constitutionality of the state recovery act and the automobile code formed under it, dismissing consolidated complaints of automobile dealers seeking a declaratory judgment and an injunction to prevent enforcement.

Green Bay-John Arens, 51, Green Bay, was painfully burned in a freak accident at Greenleaf, near here, where he was working with a county highway road construction crew. Arens had a match in his trouser pocket and brushed too close against a truck, igniting the match. Before the blaze could be put out by fellow workers flames enveloped him.

Milwaukee-At a testimonial dinner attended by nearly 1,000 citizens, Milwaukee's veteran police chief, Jacob G. Laubenheimer, became the sixth American to receive the Civitan International's distinguished service medal. The only others to receive the honor are Charles A. Lindbergh, Thomas A. Edison, Gen. John G. Pershing, Orville Wright, and Miss Margaret McKenney.

Madison - Returns from 57 Wisconsin corn-hog associations out of 66 showed that 15,396 farmers favor continuance of the program in 1935, while 3,109 are opposed. On the question of a combined grain and livestock program for 1936, the vote was 8,208 for and 9,094 against. The total vote was 18,505 out of a possible 42,000, indicating that a majority of association members did not vote.

Milwaukee-The University of Wisconsin shortly will be able to turn out men and women trained especially for public service, Dr. Glenn Frank, president of the university, told the Wisconsin biennial Conference on Social Work. Defending the "brain trusters" of the new deal, Dr. Frank said the country needs more "career men" adequately trained to assure the responsibilities of politics and government.

Stoughton - The city council here voted to drop plans for installation of ree municipally owned Diesel engine units to provide auxiliary electric service. The action was prompted by a suit brought by the Stoughton Taxpayers association to prevent the city from going forward with the project, although voters approved it and an \$80,000 bond issue to finance it by a vote of 712 to 528 in a referendum

Madison - The state department of agriculture renewed its warning to farmers against buying hogs that may be infected with cholera. Some hogs bearing the disease have been smuggled across Wisconsin boundaries at night to avoid inspection, Dr. Walter Wisnicky, state director of livestock sanitation, advised. Such smuggling is illegal, and in one instance parties engaged in it were arrested and fined. he added.

Dodgeville - Charles Porter, Spring Green, recently absolved of charges of slaving Andrew Beinkofner in 1931. began civil suit to recover damages from Iowa county officials which he I mean it. alleges he suffered during 22 days he was held in jail without bail. Porter is asking \$10,000 remunerative damages and \$5,000 punitive damages each from Sheriff Clarence Holman of Iowa county and T. Harry Arthur, Dodgeville, justice of the peace.

Milwaukee - Nine hundred pupils marched through smoke-filled halls in orderly fashion a few minutes before the Victor L. Berger school on the north side became a mass of flames. Twenty mothers with babies in their arms also were in the building attending a baby clinic when the fire was discovered. All were reported safe. The fire was believed to have started in the second floor cloakroom of the three story building from spontaneous combustion. The pupils, ranging in age from six to sixteen, marched from the building in perfect order under the guidance of their teachers.

Oshkosh-Mayor George Oaks recom. mended that city employes be given back the pay they formerly received before pay schedules were set aside. The police and fire board set the precedent some time ago by bringing police and fire department pay back to the did was to tell me what beautiful regular schedule.

Fond du Lac-Loot obtained by burglars who spent several hours in the Merchants and Manufacturers bank at Marytown, near here, amounted to less than \$100 in silver, bank official said.

Baraboo - Mauston was chosen as the 1935 district convention city of the Royal Neighbors. Over 300 attended a meeting here at which 50 members were initiated into the regular and juvenile lodges. Twelve camps in Sauk and Juneau counties were represented.

Madison-An A. A. production control program covering the sugar beet industry was proposed here at a conference of representative growers from Wisconsin, Minnesota, Iowa and

AN EYE TO THE FUTURE

A touring actor entered a tailor's shop and gave an order for a suit. He took home a small pattern of the material and showed it to his son. "What do you think of it, Tommy?"

"Not bad," Tommy replied. "Why, you're looking at the wrong side," added the actor.

he asked.

"I know I am," the boy replied, "but that's the side I shall have to wear when the suit is handed down to me."

It was that evening, seated before a crackling hearth-fire at the Adam ranch, that Cousin Columbine told them the story of the Pemperton hoax. Jack had been asking about a pathetic little cemetery he passed one day when doing an errand for Mr. Adam.

"It's on a hillside back from the road," he told them. "Most of the graves seem to be children's, and unmarked. Was there ever a smallpox epidemic in these parts, Cousin Columbine? It seemed strange finding a cemetery way off there."

"He means that little burying ground near West Creek, doesn't he?" questioned John Adam.

"Not if West Creek's a town," responded Jack.

"Do you recall a mile or so farther on, passing a dwelling house and two ramshackle buildings that looked fit to collapse at the first high wind?" asked Cousin Columbine.

Jack nodded; and the old lady continued: "Those buildings, and that wayside cemetery, are all that remain to tell the tale of a prodigious hoax which was planned and carried out successfully by old Marsh Pemperton. You Adams have heard the story many

"Never from you," Eve Adams reminded her. "Tell it again, Miss Columbine. You saw the place in its heyday, I suppose."

"I surely did; and to one of my age it's not even ancient history. The Pemperton hoax was started in 1894, soon after the boom at Cripple Creek. I dare say that as a child, Eve, you heard your people mention it, for the news must have spread much farther than Denver. You see, the general feeling in those days was that all these mountains were lined with gold, and that anyone could take a pick and dig it out; but old man Pemperton had been working a tunnel with no success, and I dare say he got impatient."

"How much of the land 'round there did he own, Miss Columbine?" asked Luke.

"That I can't tell you; but it was plenty anyway, and the lurid tales of quickly gotten wealth at Cripple Creek probably made him furious that his own acres were useless save as pasture land. So at last he determined to make use of the prevailing excite ment to feather his nest, an idea which he carried out with exceeding shrewd-

"I sometimes wonder," went on Miss Columbine dreamily, "if old Marsh Pemperton started this hoax on a sudden impulse, or if he lay on his bed mut the fact that it | in the long, still hours of night in that elieve him. Jack's peaceful valley, and planned it out. so Prairie ranch to- At any rate, he made a trip to Cripple home with Mark. | Creek to purchase some gold ore; and er I'll be back in an- a week or two later he emerged from his tunnel stuttering with excitement too," returned Nance and both hands full of nuggets!"

For that hillside cemeto make him go! But | tery with its pathetic graves is the who fixed things so direct result of this fraudulent scheme could marry when of his. It was easy enough to start a 'd lend him anything gold excitement. The news spread to their last copper. | rapidly, as such news always does; -have you decided and it wasn't long before the stampede began. There was pandemonium d yesterday that I in that lovely valley. People staking out claims-starting tunnels-buying

'town lots' which Pemperton himself marked out and sold at sky high prices. One fortunate woman who had paid twenty-five dollars for a strip of land in that locality a year before, sold it during that hectic time for ten thousand! That sounds incredible now, but it's the way things go in boom days. I've seen it happen.

"More than a thousand people, possibly twice that number came pouring in. The town was incorporated; a man named Tyler was made mayor, and another whose name I can't recall was sheriff. When I saw the place there were no less than a dozen saloons -three general stores-a long street of frame houses or tents, and even two ore-crushing machines, though not one ounce of precious metal was ever discovered in the vicinity."

"What became of the people when

the bubble burst?" "Drifted away, poor souls, leaving their dead behind them-their high hopes crushed. I recall one family stopping at our house for water, and Father bringing them in to be fed and warmed. They were a pitiful sight: the young mother frail and worn by hardships, the father in ragged shirt

and trousers, and an ailing baby. They promised to let us know how things went with them, but we never heard." "'Ships that pass in the night,"

said Matthew softly; and Luke broke in: "But will you tell us how old Pem-

perton escaped being tarred and feathered when the hoax was discovered?" "For the very good reason," replied Miss Columbine, "that the scamp was nowhere to be found! When the boom was at its height he disappeared; and now all that is left of the 'ghost city' which bore his name, are those tumbledown buildings (one of which cost a woman five thousand dollars, I was in the old lady, her voice shaking.

told), and that small burying ground where lie the bodies of those who were too frail to survive the rigors of frontier hfe."

"I'd like to see that place," said Nancy, as Cousin Columbine ceased speaking.

"You shall, my dear; and we'll make an excursion out on the plains as well. They can be so beautiful, our western prairies, that I hate to think how cruel they sometimes are."

"Cruel?" Nance questioned, a little puzzled. "You mean those sudden blizzards when the grazing cattle have no shelter? Well, this winter's over. Cousin Columbine, and if you've no objection I'll start getting acquainted with the plains tomorrow. I've got a marvelous idea. Why can't I ride to Prairie ranch with Jack and Matthew?

It would be a lark." "You're a new woman, Nance Nelson," remarked her brother, "if you necessity of piling out of bed along with the robins! We'll pass your tower at five a. m., young lady. Do you think you can make it?"

"Of course she'll make it," put in Matthew eagerly. "We'll get lunch at Uncle Tom's, Nance. It'll be bully having you along."

Thus it was settled, thoug!. on the ride home that night Cousin Columbine predicted a change of weather. Despite this prophecy the sun was shining when Nance awoke, dressed rapidly, and slipped downstairs on tiptoe; but as she passed the lower bedroom a call arrested her. "That you, Nancy?"

"Did I wake you up? You were wrong about the weather, Cousin Columbine. It's a lovely morning."

"What are you wearing?" "My knitted sport suit. I dare say I'll roast, but I won't take any wrap except my hiking sweater."

"Indeed you will!" Cousin Columbine sat up in bed, stretching a hand toward the window as if to feel the atmosphere. "There's a chill to the air, different from anything we've had this long time. Take your fur coat, Nancy, or I sha'n't have an easy moment all day long." "My fur coat! Why-"

"Don't argue," snapped the old lady. "I know this country better than you do. I've seen days start out like summer this time of year, and end with a snow storm. I'm responsible to your parents for your safety, child; and I-I command you to take that coat." Nancy laughed, realizing that there

was no use in combating an old lady over seventy. "All right," she said good-naturedly, "the coat goes along as an extra pas-

senger, I'll run up for it now." "What sort of stockings have you

The question caught her at the door, and the girl turned, a bit exasperated. "Don't let that worry you! . I'm wearing sport shoes and woolen hose. I sha'n't freeze to death, Cousin Columbine, even if we get one of your

spring blizzards." She was surprised to note that this

absurd remark was taken seriously. "Look here, child, don't you start home in any sort of storm. Remember that. You think me foolish no doubt, but I've seen a good two feet of snow later than this, and herds of cattle frozen in the drifts out on the prairie. Close my window, Nancy. I may as well get up and see what's happening."

"Now don't you worry, Miss Columbine," soothed Matthew. "If there's the least suspicion of bad weather, we'll keep her safe at Uncle Tom's

until it's over." This seemed reasonable; and as they waved good-by a robin hopped down from a spruce tree and began his breakfast at Miss Columbine's bird board. But even this emblem of the

springtime failed to cheer her. "I ought to have set my foot down," she said soberly when Aurora Tubbs arrived an hour later. "I don't like

The sun played hide and seek all morning, and at last retired behind a cloud and stayed there. At noon a wind sprang out of the north, rattling the shutters of the Nelson mansion with sudden fury; and ten minutes later a flurry of blinding snow had shut them in.

The storm increased; and at half past four, after moving restlessly about the house, Miss Columbine stood so long at a front window that Aurora, who had been curiously silent during those dragging hours, burst out: "Don't you keep frettin' so, Miss Columbine. It makes me nervous. Didn't Matt Adam promise they wouldn't start if it was stormin'? And besides, Mark'll be with 'em on the way back, and he's real level-headed

come an emergency." "That's what I've been telling myself all day," replied Miss Columbine. "Even if they started before the storm began, Aurora, Mark would have sense

enough to- There's the telephone!" Her hand trembled as she lifted the receiver; and Aurora stood close by, head bent in an effort to catch the

distant voice. "That you, Miss Columbine? I've tried to get you all the afternoon, but our line was in trouble. Jack hasn't left, I hope. Tell him not to try to get out here tonight. Luke and his father can-"

"Jack! He's not here, Eve," broke

THE STORY FROM THE BEGINNING

"Surely they didn't leave your brother's in such a storm!"

"Not there?" A pause, and then Eve said, trying to speak calmly: "Listen Miss Columbine. Can you hear clearly? . . . Tom telephoned at seven this morning for them not to come-that Mark was flat in bed with a bad throat. It was too late to stop the children, anyway, so I didn't call you; and later my brother phoned again. He-he said that Jack and Nancy started back immediately after an early lunch. I told him it looked as if a storm were coming, but he said the sun was glorious out there and that-"Then-then Mark's not with them?" almost wailed Miss Columbine.

"No, but- Oh, don't worry yourself sick, dear Miss Columbine! There are ranches not so terribly far apart. you know; and there's a schoolhouse. Surely they would have reached the schoolhouse and waited there! But I'll try and get the ranch again by telephone and .

It was then that the storm did omething to the wires, and Columbine Nelson heard no more. But three hours later, just as the dreaded night regard as anything like a lark the was shutting down, the Adam truck with John at the wheel, and Eve, covered with snow from head to foot beside him, fought its way into the yard and stopped before the door.

#### CHAPTER X

The ride to Prairie ranch had been a jolly one, and a new experience to the young Nelsons. "Uncle Tom and Aunt Emily" welcomed them warmly, and even suggested that they stay a day or two, so Mark would be able to accompany them home; but Jack

"With both Matt and Mark away, Mr. Adam needs me," he explained,

And Clouds of Dust Obliterated the Road.

start right back if we're to go alone. Soon as Mark's better we'll be glad of the chance to come and get him; but really, I'd feel easier to go back to-

"He's right, Matthew," commended Uncle Tom. "It's not quite fair for me to steal two of your father's sons and his 'hired man' as well! And as Jack says, it's better for them to start soon and take their time. Run up and say a word to Mark, you two, while Aunt Em gets you a good lunch. You won't mind eating early after the long

"I never saw my sister refuse food, early or late, ride or no ride," grinned Jack as they went upstairs.

They were away by noon, regretful not to stay longer with this hospitable family, but glad to think they would

return so soon. "These plains are such surprising things," said Nancy, when Prairie ranch and its big cottonwoods were miles behind them. "From a distance they look flat as a huge billiard table. Who would believe that there are

mesas and hills out here?" "I like the prairies better from a distance," confessed her brother. They're so desolate and lonely when you're on 'em, Sis. Makes you feel no bigger than a mosquito, and about as important! It's great to come out here

and see them; but give me the mountains as a steady diet. I-" The boy paused, brushing one hand against his cheek.

"Queer, but I'd swear a snowflake hit me! Why, there's another! Strange to see snow drift down this way while the sun's still shining."

"I've seen that happen several times this winter, but it never amounts to very much." Nance peered curiously at the heavens. "Just see that cloud, Jack! How fast it's moving. I bet that's where your snowflake came from."

A worried wrinkle appeared between Jack's eyes. "Maybe Cousin Columbine was right, and we're in for a storm."

Nancy laughed. "Lost on the prairie in a blizzard on the twenty-sixth of March! It would be some story to tell the folks

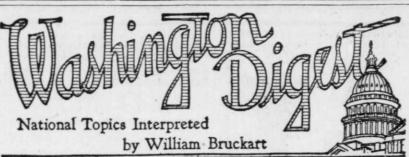

back home!" Jack said, his eyes following the cloud: "Don't tempt Providence, Sis. That cloud is turning inky; and blizzards on these plains are something awful, they come so suddenly. Mr. Adam told me about a time-"

A gust of wind was on them before Jack finished speaking. Big balls of tumbleweed scurried across the prairie; and clouds of dust obliterated the road. "Perhaps we'd better turn and go back," suggested Nancy, ducking her head against the particles of dust. "Cousin Columbine insisted we mustn't start in any sort of storm, you know. and-" (her voice rose in alarm) "and it's really snowing; It's beginning to

snow hard!" The boy leaned forward, scanning a sky that grew darker with incredi-

ble rapidity. "How far back did we pass that schoolhouse?" His voice, Nance noticed, was tense, unnatural. "I don't want to scare you, Sis, but this looks bad to me. If we could reach the school I'd take a chance at waiting there until the worst is over. What

do you say?" TO BE CONTINUED.

For the first time since the federal | visory council, feels dissatisfied with reserve system was created a very real rift has developed Is Politics between the federal Creeping In? reserve board and the federal advisory

council, that group of business leaders which is supposed to act as intermediary between the reserve board and the public. The line of cleavage has developed over gold. How far it may go in disturbing faith in the federal reserve system as a banking structure it is yet too early to tell, but I find in many quarters frequent questions as to the indication that politics may be creeping into government supervision of the country's largest banking unit, the federal reserve system.

The controversy had its origin in a statement of views delivered to the reserve board by the advisory council last month. Of course, the advisory council has no power and can only function in accordance with its name and give suggestions to the reserve board. Its influence nevertheless heretofore always has been an important factor in federal supervision of bank policies and any wide difference of opinion between the advisory council and the reserve board naturally is an influential factor in financial conditions.

The reserve board did not enjoy the statement of views from the advisory council, which was to the effect that "no real or permanent recovery" can be hoped for until the federal government returns to the gold standard for our currency. It said unequivocally that the currency and credit supply now existing is ample for all needs and that business cannot be expected to go forward until it has some assurance of a permanency in our currency. In other words, the advisory council takes no stock in the "baloney dollar" which has been so strongly advocated by Prof. George F. Warren, one of the important brain trust advisors to the President.

In addition to the council's criticism of the currency policy of the administration, it did not pull its punches with respect to the countless governmental experiments in business. I quote that

paragraph of us statement: "A serious factor of rapidly increasing importance is the tendency of business enterprises directly conducted by government agencies to reach out further and further into fields heretofore occupied by private capital, thereby destroying taxable values. The use of government money in competition with private business is not only paralyzing to private initiative but experience has amply demonstrated that it is costly, generally inefficient, and that its disastrous effects reach far beyond the limitation of the particular industry immediately affected."

The council had much more to say ent administration, Fear Savings inc what it de-

flation," a condition that the council asked directly whether there was any inducement for an individual to save or to buy life insurance and preserve earnings against the time when age will prevent continued production of income if there was an overhanging threat that all these savings may be wiped out by uncontrolled inflation of

the currency. Obviously, the federal reserve board was wrought up when the advisory council did the unusual thing of making public its views. Although the council withheld its statement until three weeks after the meeting at which it was drafted and given the reserve board, that lapse of time did not salve the feeling of the board.

To show how it felt about the action of the advisory council, the board very promptly met and adopted a resolution by unanimous vote returning the council's statement to its secretary. This "spanking" has aroused a great many business leaders who have expressed fears that politics now is permeating the two federal agencies, for the advisory council is a body created by statute just as much as the federal reserve board. No one can tell what the outcropping of this situation may be. There are a number of men in the advisory council membership who have been outspoken in their support of President Roosevelt. Likewise, the President has named two members of the present reserve board, and one or two others of that group of seven are entirely in harmony with his economic policies. Consequently, there is much talk in Washington that the two schools of economic thought are engaged in a clash that may be serious in its effect on the supervision of the country's banking structure.

Whatever may be the attitude of the reserve board, I have found a considerable body of Within opinion holding that

Its Rights the advisory council

was functioning within its own sphere when it made the statement to the board. As explained above, the board was under no compunction to abide by the expressions from the advisory council, and if it elected to do so it could allow the ccancil's views to be pigeon-holed and forgotten. But the point is that the council is representative of business and financial interests and therefore, when it considered federal policies it was speaking for that segment of our national life which otherwise had no means of making itself vocal, according to much opinion in the National

Capital. Further, the fact that the council took direct issue with the administration is being regarded in many quarters as a healthy sign. I believe there is no dispute about the right of individuals or groups to criticize the political party responsible for government management at any time and if the particular part of our commerce and industry, represented by the ad-

the gold policy, with the unbalanced budget, with the continual spending and experiments that have gone on, there is a great number of people who insist those views should be disclosed. Some students of economy and government here hold to the opinion that such expressions may have a tendency to lead to policies acceptable to both sides.

This phase of the situation may be linked to the efforts which the administration has been making to accomplish an understanding with some important business leaders through frequent conferences at the White House and through informal and indirect meetings outside of Washington. I refer to the dinners and meetings which have been held, many in New York, by Prof. Raymond Moley, formerly the number one member of the brain trust but now a magazine editor. Although White House sources deny any part in the Moley dinners, most Washington observers accept the denial with a grain of salt. They are convinced that Mr. Roosevelt is fully informed of the views expressed by individual business leaders in those meetings and that he is seeking some basis of understanding with business. It takes no stretch of the imagination then to connect these various happenings, despite the wounded feelings of the federal reserve board.

Henry P. Fletcher, chairman of the Republican national committee, said the other day he an-Makes It ticipated little in-Losing Fight crease in Republican membership in the house of representatives. He can see no method, he said, of defeating the disbursement of cash that has been going on in the Roosevelt administra-

The Republican chairman's statement followed compilation by the Democratic national committee of figures showing the amount of cash that has been paid out by the government through its various channels since President Roosevelt took the reins. The Democratic committee compiled a list of states and set off against each state the amount of money distributed therein for relief, agricultural benefits, public works construction and otherwise. Democratic campaigners were not invited to use these figures but Chairman Fletcher insisted that was the basis and the real reason for their compilation. Mr. Fletcher proved his statement with hands full of clippings gathered from newspapers throughout the country, each one quoting some Democratic candidate who had informed an audience as to the benefactions of the federal government in that particular state.

The Republican chairman told newspaper correspondents in a press conference that he was not accusing the Roosevelt administration of buying respecting other policies of the pres- votes but he added with candor that votes naturally were going to go towards the source of money supplied Threatened scribed as a con- With several billions being distributed stant "threat of in- and a considerable amount being turned loose within the last month, Mr. felt was stifling personal thrift. It | Fletcher made a clean breast of his feelings that it was difficult to battle

Santa Claus. In connection with the Republican charges over cash distribution both of the national committees have been compiling statistics respecting registration of voters through the country in preparation for the election. These reports indicate that public interest is aroused far beyond the usual condition. Voters are awakened to the importance of these elections.

Obviously, there are many local issues to be fought out and settled by the ballot. The situation in California is illustrative of this. Never before, I am told, has California seen such a registration list as is made up there in anticipation of the vote on Upton Sinclair's program to "eliminate poverty

in California." Agricultural areas, according to the registration lists, are prepared to support or upset policies of the agricultural adjustment administration and some industrial centers show figures indicating widespread interest in the vote that is naturally to have a bearing on the status of the national recovery administration. Many astute politicians are saying that the great registration makes guesses as to the outcome rather hazardous, while the students of government welcome the large polling lists as encouraging evidence of an awakened interest among the populace in this thing we call govern-

It is proof, they say, that, whether right or wrong, more voters want their feeling known in the current election than hitherto has been the case except when the ballot involved the Presi-

Washington observers have noticed increased concern on the part of the administration over relief questions. As I reported to you several weeks ago, the relief problem is probably the hotest spot upon which the administration sits. Some of the leading authorities place the unemployed total around 17,000,000. Others, including Donald Richberg, the new guiding hand of NRA, contend that about 20,000,000 individuals are out of work. This is approximately one-sixth of the country's entire population.

The forthcoming winter, with onethird more than were fed last year obviously presents a problem concerning cash resources.

After all congress is going to have to do something about it. It will have to vote the money for the President and his subordinates to use.

It can be said, however, that there are many influential Democratic leaders in both houses of congress who are alarmed over what they believe to be waste of money through inefficient methods and they have lately expressed increasing desires to take this job out of the hands of professional "relievers" and draft for them some definite

outline in law for their guidance, @. Western Newspaper Union.

#### ALL HAVE FEAR OF "LADY LUCK"

Even Exalted intelligentsia Are Not Free.

Pretty much everything else having been surveyed, Doctor Maller and Doctor Lundeen of the institute of school experimentation of Teachers' college have surveyed superstitions in the United States. How many persons they questioned doesn't appear, but they found not one guiltless of some superstition or other. That is comforting. Even the intelligentsia may be thought to leave the atmosphere of pure intellect occasionally and be human enough to make a wish when they see the new moon over the left shoulder. Such a divergence into "wishful thinking" may be pardoned even to the best minds. Some part of the immemorial imagination and mystical wisdom of the race is embodied in this Aberglaube, diluted in many or most of us into a sportive or only half-serious ritual. To "knock wood" has in it a rem-

iniscence of Nemesis. It is a propitiation of or apology to the gods that keep a watchful eve on human beastfulness and love to balk good fortune. How many pundits of the Teachers' college will walk under a ladder or sit 13 at a table? There have been societies ostentatiously mocking these superstitions. If their members have not been punished, their immunity merely illustrates that the exception proves the rule. Besides, in a universe from which cause and effect seem to have been banished, it is consoling to see their existence assumed even in cases where it might be hard to substantiate their action. That is a pleasant symbolism that forbids a lover and his lass to walk on opposite sides of a post lest they quarrel and part. In some of the old New York theaters the box office would sometimes sell two seats parted by a post to an engaged couple, says the New York Times. You didn't have to wait for divorce to experience "mental cruelty."

The surveyors ten as, what is a little hard to believe, that rabbits' feet are more favored by the bucolic than by the urban population. If pockets could disclose their secrets, this conclusion might be disputed. Probably there is a goodly lot of these invitations to luck at Saratoga.

And There Are Many Hokum is for the easily taken in; but they like it.

even a 14-year old boy strong

have reached their "teens" are not ready to be given powerful

It is not wise to give laxatives of adult strength to a child, just because you give them less frequently or in less amounts. Many stomach upsets and bowel troubles growing children can be traced to this

Use a liquid laxative containing senna (a natural laxative). California Syrup of Figs has the right amount for children's use, and this rich, fruity does not harm or upset a child's system.

Give that headachy, bilious child a little of this gentle laxative when constipated, and a little less, if dose is repeated until bowels seem to be moving regularly and thoroughly without need of help. Get the true California Syrup of

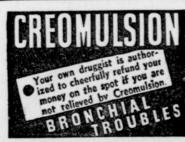

Figs containing senna and cascara, which will not weaken the bowels or irritate the kidneys. You'll soon have full evidence that it safely relieves constipation in children. THE "LIOUID TEST." First: select a liquid laxative of the proper strength for children. Second: give

until the bowels are moving without any help at all. An ideal laxative for this purpose is the pure California Syrup of Figs, but be sure the word "California" is on the bottle.

Third: reduce the dose, if repeated,

dose suited to the child's age.

Call for Fortitude The more fate frowns, the more heroic it is to live.

#### HELP KIDNEYS IF your kidneys function badly and you have a lame, aching

back, with attacks of dizziness burning, scanty or too frequent urination, getting up at night, swollen feet and ankles, rheumatic pains . . . use Doan's Pills. Doan's are especially for poorly functioning kidneys. Millions of

boxes are used every year. They are recommended the country over.

Ask your neighbor!

DOAN'S PILLS

## FOR CONGRESS

The voters of the Sixth Congressional District are urged to re-elect Congressman Reilly.

In the language of the Editor of the Cedarburg News:

"M. K. Reilly has given not only this District, but the country the highest type of service, and we are sure the voters will express their appreciation of his worth by supporting him in the primary and general election.

We need men like M. K. Reilly in public life today, men who have the ability to think things through, men who are fair, honest and of sound judgment, men who will stand up and be counted, even at the cost of de-

Editor of the Sheboygan Press, says:

"Congressman Reilly is an upstanding champion of the cause of the New Deal—Admirers of the President everywhere in the District will commend the congressman for his unswerving loyalty in the time of a nation's need.—Congressman Reilly went all the way for Roosevelt. If you believe in Roosevelt, vote for Congressman Reilly who never waivered in his support.

What a difference between the 10 to 30 miles a day, by canoe and trail-the rate of travel of these adventurous voyageurs-on their ong and tedious journey into the unknown Following them overland on Highway 110, up the Fox River valley, we come to lakes Butte Des Morts, iff's office before, and can stand the geon, bass and pike that bite like hunclosest investigation. If elected it will gry wolves and fight like wildcats. Folcross the Fox at Omro, home of Ben on through Berlin-site of the "Lost Tribe" Indian village, the dark royalite quarries old sorghum mill and other historically and scenically interesting tinuing on Highway 49, we next reach mounds, boy scout camp and the old "Whitehouse" tavern, famous in the days of plank roads and wagon freighting, Taking Highway 23 out of Green Lake village, we again cross the Fox at Princeton, at the mouth of the old government canal, connecting the Fox and Wisconsin rivers Here we have Mount Tom, of pre-Cambrian monadock formations, and many marked Indian mounds and village sites. Continuing on 23, we reach Montello, where the famous red granite-of which President south, we come through Packwaukee and Endeaver, on Lake Buffalo-ar Portage is the site of Paquette's trading post and old Fort Winnebago, Jef-

Grant's sarcophagos was hewn-is quarried, Following 23 west and 51 at a point now marked by a
