Her name then was Hattie

The flu epidemic struck the McLaughlin family in Januthree-piecer. It's mainly inette stitch and the skirt is tensive studies and training in co-ordination of ships, planes and sub-draw of what might happen to her in New York. It's said that they're afraid of what might happen to her ordination of ships, planes and sub-draw of draw of what might happen to her in New York. It's said that they're ary. It brought down Hattie's dad and her three sisters, and in the chores around ordination of ships, planes and sub-marines. afraid of what might happen to her draw at the box office of motion picture best of Droce of motion ary. It brought down Hattie's dad and her three sisters, and ted to give the effect of planes that left Hattie and her mother to do all the chores around the picture best of planes and subdraw at the box office of motion that left Hattie and her mother to do all the enormy when everything year-'round wear. Pattern a feel the to the to the to the feel the to the feel the to the t feel that her performance on the seemed to go wrong. Mother had just come from upstairs to the suit in 6 2 and for many stage came up to the mark the suit in 6, 8 and 10-year call the doctor. Dad and the three sick girls were worse. illustrations of it and of stitut James Stewart may find himself While they were waiting for the doctor the party-line phone receiving one of those statues for rang. It was the school teacher, down with the flu herself, who wanted giving the best performance of the Hattie to go to the schoolhouse and post a notice saying there would be Already tired from her morning's work, Hattie struggled more than a mile through the snow to post that notice. She found two small children shivering in the cold, waiting for the school to open, and took them to her home and phoned their father to come and get them. And no sooner had he come and gone with his pair of kids than Hattie heard another knock on the door.

There's irony in this year's observance of Armistice day, the zero hour in 1918 when World war No. 1 ended. For the world is again at war, most of it hoping another armistice will come soon. In 1918 the end of hostilities brought delirium everywhere. At New York soldiers, sailors and their girls joined the celebration. Patriotism, at a Twentieth century peak, shouted from every rooftop.

Above: Fifth avenue in New York was a sea of humanity as Manhattan turned out to celebrate the news.

time history, Rear Admiral Alexander Hamilton Van Keuren is made chief of the bureau of construction and repair. That puts him right in the wheelhouse of the navy efficiency drive, as this is the acid-testing bureau for fighting ships, and it bears the responsibility for their being sound and fit, structurally and in design. Defects have been found, and are being remedied in several 10,000-ton cruis-

ers. Admiral Van Keuren, a navy technician for 36 years, is one of the most highly rated specialists in naval construction. He smokes a dropstem pipe, carries on easily and informally, and marshals engineering data with a precise mastery of detail. His previous post has been that of industrial manager at the Philadelphia navy yard. He is a dependable safeguard against pitted or pithy armor plate, such as we heard of years ago. He is a native of Michigan, graduated from Annapolis in 1903. His predecessor in the bureau, Rear Admiral W. G. Du picture on every count, and adds Bose, becomes commander of the

Out Comes a Long, Thin-Bladed Knife. -

Her mother turned to see what was the matter. At the same time, impending danger. Every time the the stranger reached inside his coat, pulled out a long, thin-bladed plane was turned loose it headed for knife, and slashed Hattie across the legs. Blood began to flow from a the top of the stage and became long deep cut. Dazed at the turn affairs had taken, Hattie backed entangled in the rafters and lights. away, staring at the man. The man stood, knife in hand, staring back Then the crew had to stop work and at Hattie. Her mother was staring at both of them. For a minute there disentangle it. Half a day's shooting was a deathly silence. Those 10 small planes were worse

The man made no other move-said nothing. Hattie and her mother were too frightened to speak. They began to realize the fellow was stark mad. Hattie sat down, took off a stocking and tied it about her wound. The man stood looking, first at her, then at her mother. He waited until she was finished tying up her bleeding leg, and then he walked across the room to where her mother was standing, breathless and paralyzed with fright, AND RAISED THE KNIFE.

supported in the style to which it boy who saved many lives because her chair and darting across the room. Reaching out quickly, she And again Hattie acted impulsively. In an instant she was out of grabbed the knife!

The man gave the knife a quick pull. It came out of Hattie's hand, cutting it clear to the bone at the base of the thumb. Crying out in pain, she grabbed at her wrist with her other hand. The madman shoved her away, and knocked her mother down.

In his preceding book, "Europe radio show troupe, with the excep-sat on her chest and began choking her. And at last, a sudden change in Arms," published in August, 1937, tion of Mary Livingstone, are facing came over Hattie. Before, she had been frightened-trembling. Now he thought there was hope of ending the cameras at Paramount for she became furious. A red mist seemed to drop before her eyes. She war in the limitations of the mili-Buck Benny Rides Again." Andy grabbed up a piece of wood from the pile beside the stove, raised it over tary mind. Fat-headed generals Devine will be in character, but Don her head and brought it down, as hard as she could, on the madman's

The man rolled over and lay still. Hattie's wrist was still bleeding and her mother tied it up tightly to stop the flow. They got ropes and tied the maniac's hands behind his back and thenwell-then Hattie keeled over in a dead faint.

When she came to, the doctor had been to the house. He had sewed up Hattie's wounds and she had never known a thing about it. The doctor also took the madman back to town and turned him over to the police. They found out later that he had escaped from an institution down in the South, where he had been put for murder.

And when they analyzed that pot of beans into which he had emptied that bottle, it was found that they were poisoned! (Released by Western Newspaper Union.)

4. Choice: Sen. James Mead of New York introduced a bill proposing that \$139,000,000 be set aside by the treasury for small loans to: (a) business firms; (b) distraught farmers; (c) municipally owned power plants; (d) "little theater" groups. 5. True or false: No food rationing will be needed in Britain dur ing the winter.

(Answers at bottom of column.)

POLITICS: Candidate-of-the-Week Rooseveltian third-term talk, they use.

which took a back seat in early days The testimony has brought out the

ter hushed for the present. political pot boiling again. Into the their own interests.

fluences that have been at work in our midst. We will know more about the "isms" that have been transported to our shores and spread among us under organization names that are designed wholly to conceal the purposes of a controlling clique which gains its strength and its money, to a considerable extent, from

foreign lands. For another thing, it is now evident that whatever else the Dies committee has done, it has disclosed how thoroughly easy it is for a few rat-eyed, scheming foreigners to feed upon American resources and use our citizens to promote the ends of dictatorship. Moreover, the testimony thus far taken has shown how these weasels operate, the methods

ble that they did not attempt to find out who was behind the "great movement." Operations Are Directed From Moscow and Berlin But how did the Russian "Comintern" operate to get into these various organizations and promote its nefarious schemes toward world

revolution in a so-called intelligent race of people here?

The processes, according to the of the war crisis, loomed again in fact again that one of the simplest testimony by Browder and others San Francisco when Secretary of things in the world is to "organize" before the committee, were very Agriculture Henry Wallace boomed Americans. Some vague promises, simple. The American Communist the President for re-election. The first ward we visited was in the male section and housed the feeble minded, the old and decrepit, and those who were harmless and worked in the 60 acre vegetable gard- en adjoining the institution grounds. All patients in this ward were permit- ted the freedom of their quarters, and could in fair weather walk about the grounds unattended. Inside many of them amused themselves by playing cards, or by reading. In addition to the vegetable patch mentioned, the hospital operates five farms totaling over 1100 acres, on which practically all the foodstuff nee- ded at the institution is raised. 17,000 fallons of fruits and vegetables have already been canned and stored in the hasement A hord acress and	chamber in which these are given. A dozen over-sized bath tubs stand in two rows on a white tile floor. In each tub is a patient. All one sees of the patient is the head, which projects through a snugly fitting hole in the heavy canvas cover which is strapped tightly over each tub. This cover cannot be removed, except by the orderlies, and the patients remain as long as six- teen hours in the bath. The temper- ature of the water is maintained at 98 degrees by circulation. The patient's arms and legs are free under the cover. So were their tongues. It was impos- sible to understand the nurse who opened the side of one of the tubs and explained the baths, because of the ba- tel of voices of these men. They swore and eursed at each other, boasted of murders they had or were going it	Mr. and Mrs. Wendel Petri and family. They us- unly have a strong team, but we have a much larger number of boys out for basketball this year and we're out there trying for another trophy. We base to have a large crowd, so come and cheer your team to victory. Let's se you at the game on Nov. 13 with bandom Lake at our high school. On Thursday of this week a banquet was held for the football team. This dinner was prepared and served by the bome Economics department under the direction of Miss Yerke. With echool board members, new teachers and the team as guests, the team was congratulated on its football season at this time the Tri-County trophy was breached to the school.	le for a picture taken at the Menomi- nee Indian Reservation. Third prize was also awarded Harold Bunkelmann for a picture taken at Lake Winnebago. Enlargements of the three winning pictures will be given the Camera club through the courtosy of Lorenz studios of Oshkosh. The second Camera club contest will close on Tuesday, November 28. The picture submitted for this contest must be one of a small child. It is hoped that as many or more students will compete in the second contest as did in the first contest. Each student may again submit three pictures. STUDENT COUNCIL MEMBERS GO TO MADISON Kathleen Schaefer, Delbert Peter- mann, Mildred Backhaus, Helen Kirch- ter and Wayland Tessar, accompanied by Miss Browne, student council ad- sisor, are attending a two-day student council convention at Madison on Fri- lay and Saturday of this week. "Stu- ter Councils go to the Lepislature" 's he thema tonic for this wear's schematic	It males, in which the patients are seg- regated according to their degree of in- sanity. The first ward we visited was in the male section and housed the feeble minded, the old and decrepit, and those who were harmless and worked in the 60 acre vegetable gard- en adjoining the institution grounds. All patients in this ward were permit- ted the freedom of their quarters, and could in fair weather walk about the grounds unattended. Inside many of them amused themselves by playing cards, or by reading. In addition to the vegetable patch n entioned, the hospital operates five farms totaling over 1100 acres, on which practically all the foodstuff nee- ded at the institution is raised. 17,000 gallons of fruits and vegetables have already been canned and stored in the l asement. A herd of 300 Holsteins pro- vides a ton of milk daily, all of which is consumed on the premises. They for their own butter, etc. 130 male patients are housed in the buildings on these farms and do all the work there is nder the supervision of paid mana.	chamber in which these are given. A dozen over-sized bath tubs stand in two rows on a white tile floor. In each tub is a patient. All one sees of the patient is the head, which projects through a snugly fitting hole in the heavy canvas cover which is strapped tightly over each tub. This cover cannot be removed, except by the orderlies, and the patients remain as long as six- teen hours in the bath. The temper- ature of the water is maintained at 98 degrees by circulation. The patient's crms and legs are free under the cover. So were their tongues. It was impos- sible to understand the nurse who opened the side of one of the tubs and explained the baths, because of the ba- tel of voices of these men. They swore and cursed at each other, boasted of murders they had or were going to commit, etc., all in as loud a voice as they could muster. Most of these pa- tients were young men under thirty. "The continuous flow of the bath in- luces sedation, promotes elimination, and simplifies materially the care of	Mr. and Mrs. Wendel Petri and family.
