Good Year Reported Men Charged With Brutal Slaying of Cattle Await Trial

The four men who were involved in the brutal slaughtering of cattle in a Three Games Played three month old mystery have admitted their guilt and confessed to the cattle killing, according to Port Washington authorities. Three men, Tony Patasics, 26, James Kalenberg, 27, and Frank Nitz, 35, all of Port Washington, admitted the butchering. Patasius and Hall Kalenberg are WPA workers and Nitz Mor had previously served time at the state KF prison at Wampun, Ludwig Gross, 32, Ceo of the town of Farmington, east of St. Michaels, aided the three above men in unloading the meat from the car and belped store it on his farm. The meat was divided at the Gross farm, the men burying what they could not use at the

The killing of cattle took place on the Clara Vocks farm in the town Fredonia Sept 27, 1939, when two helfers were rustled and butchered. Th case was solved early Tuesday morning of last week when the three Port Washington men confessed after hours of questioning by the Ozaukee county

sheriff's department. BAIL SET AT \$3,000 Kalenberg, Nitz and Patasius are charged with feloniously carrying away demestic animals, which carries a sencharged with being an accessory after over to county court by Justice Harold W. Hughes. Bail of \$3,000 for each was not furnished. The others will be arraigned soon.

'The Ozaukee sheriff's department did a fine job in rounding up the gang. Seeing Eye Dogs Bring Light
To America's Legion of Blind

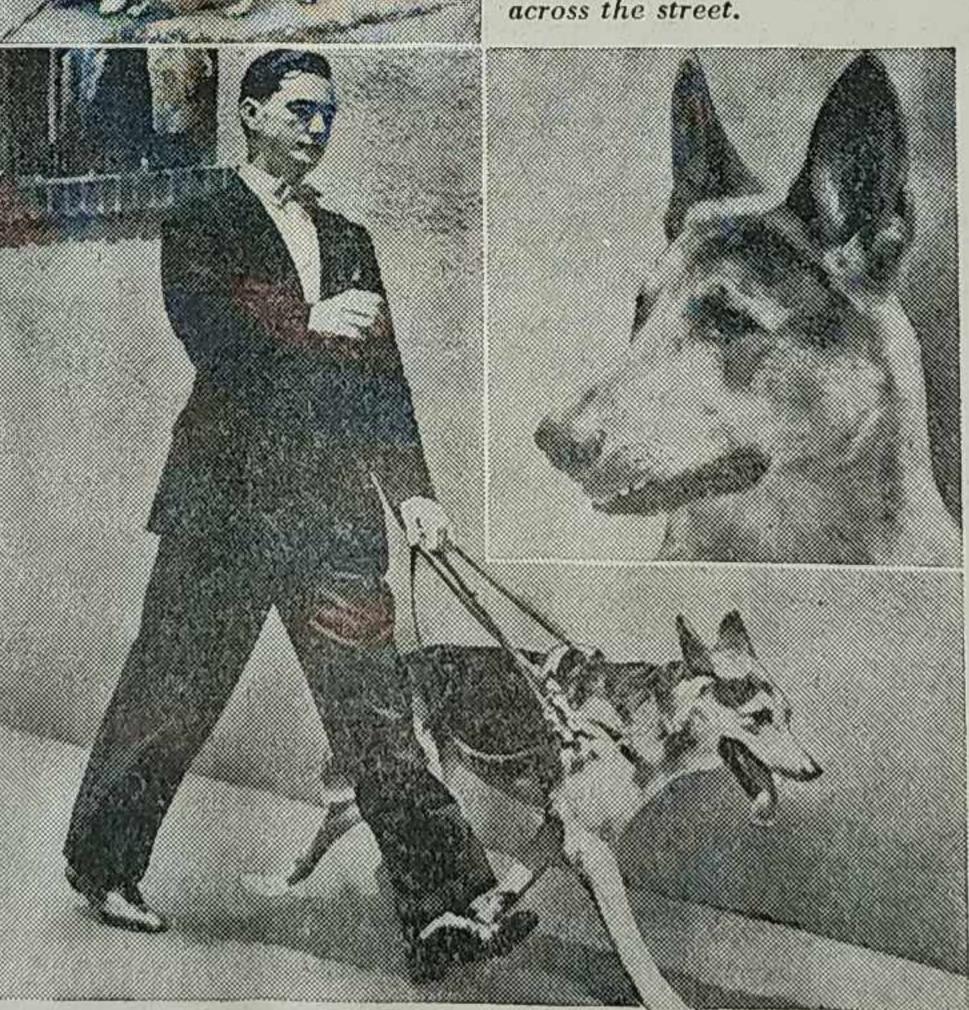

Throughout the United States, more than 450 blind men and women go to school, hold jobs and manage households because educated dogs from the Seeing Eye school at Morristown, N. J., walk by their sides constantly to guide them. Here's how they work, bringing new happiness to lives that might otherwise be desolate.

Seeing Eye dogs take three months to learn their new job. A typical problem is shown here: Although given the command "Forward," the dog (above) sees danger, stops, turns his master around, takes him into the street to avoid the manhole and then (right), back on the sidewalk. It takes weeks of patient training to teach the dogs such tricks, but they learn their lessons well.

Each class of ten blind students spends four weeks at the school in Morristown, being instructed by sighted tutors under actual traffic conditions. The instructor (left) is showing the girl how to obey her dog's warning "check" upon reaching the curb. If there is any sign of danger, the dog will wait until a clear path is open, then proceed across the street.

Shown with Buddy II (inset) is Morris S. Frank, vice president of the school and the first person to have a guide dog in this country. His ment, within the first dog, Buddy I, who died recently, was trained in Switzerland in 1928 space of two by Mrs. Harrison Eustis, founder of the Seeing Eye. Each graduate is years he had protected from "going blind again" by a special fund to provide re more than 700 of

"The Name Is Familiar"

FELIX B. STREYCKMANS and ELMO SCOTT WATSON

July and August

THE months July and August I were named after the two Caesars, Julius and Augustus. And why? Because Julius and Augustus wanted themselves so honored-and those boys were used to getting what they wanted. But this trick was easy., They didn't even have to have influence with anybody to get this job done—it was Julius and Augustus who made the calendars.

30 days and the Julius Caesar odd with 31. Then he figured he had done such a magnificent job that he honored himself by changing the name of Quintilis, a 31-day month, to Julius.

Julius Caesar was assassinated and in the course

ew, Augustus Caesar, became emperor of Rome. Augustus decided to do some calendar tinkering too. Sextilis, the month following Julius, seemed to be the logical one except that it had only 30 days. But

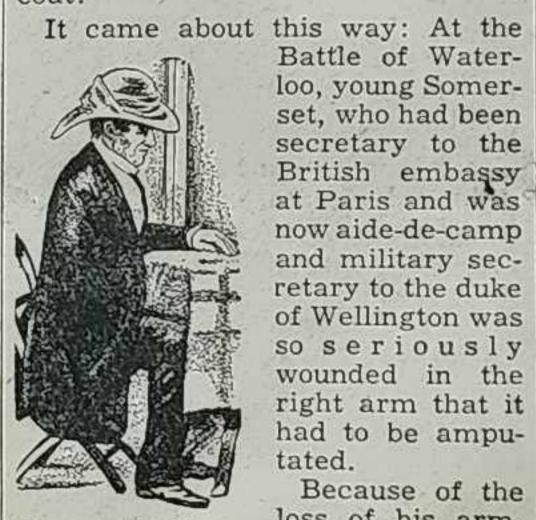

of time his neph-

Augustus Caesar he persuaded the Roman senate to give it 31 days and rename it Augustus.

And that, my dear children, is why, during the two hottest months of the year, we mop our brows and say, "Great Caesar, isn't it hot?"

Raglan Coat

LITZROY James Henry Somerset, who was Baron Raglan, should be remembered as com- up. mander-in-chief of the British forces during the Crimean war because it was he who gave the order which resulted in the famous "Charge of the Light Brigade." But it's more likely that he'll be remembered for his system between the soil and the

loss of his arm, Baron Raglan he needed a coat that was easy to put on. His tailor designed a garment that was loose, had roomy sleeves and hung over his shoulders like a cape. In 1819, he again became military secretary to the duke of Wellington and remained with him until the duke's death in 1852 when he was created Lord Raglan.

tated.

had to be ampu-

Because of the

Meanwhile British sportsmen had begun using the style of coat Lord Raglan always wore, because of its comfort, and from that time to this it has been a raglan. Strangely enough, if the coat you are wearing today hasn't raglan sleeves, it isn't the "latest style."

Cardigan Jacket

THE cardigan jacket may be a warm, comfortable garment to wear but the man for whom it was named was neither warm-hearted nor a comfortable person to have around. James Thomas Brudenell, seventh earl of Cardigan, was born in 1797, entered the British army as a youth and eventually became lieutenant-colonel of the Fifteenth Hussars, As such he

was overbearing and quarrelsome and, despite the fact that there were only 350 his men arrested for one thing or another and held 105 courts mar-

New Button-Front Tailored, Smart

HERE'S a smart new way to make the tailored coat dress, on classic shirtwaist lines, that you simply can't live without. It's indispensable every season of the year, for home wear and business both. No. 8605 makes up with just the right crispness in wool crepe, flannel or flat crepe. Make it with matching or contrasting collar, and take your choice of long or short sleeves. Pattern provides

for both. This easy pattern is an alluring invitation to beginners. It's so

ers-that's practically all the detailing there is to it. The step-bystep sew chart shows you just what to do!

Pattern No. 8605 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 4 yards of 39inch material with short sleeves; 4% yards with long; 1/4 yard for plain to be used for the top layer. | collar in contrast. Purchased belt.

For a pattern of this attractive size to The Sewing Circle Pattern Dept., Room 1324, 211 W. Wacker

Safety Quips

The two greatest errors in driving are taking a blind curve too fast and taking a curve that isn't there. Better 10 minutes too late in

this world than 30 years too soon in the next. Keep your hands on the wheel -soft shoulders are dangerous. Some motorists can make 60

they can make 12 payments on the car. The dullest drivers have the brightest headlights.

miles an hour a lot easier than

After you get to the office, do you tear into your work as fast as you speeded there in your automobile?

by helping nature build up your cold-fighting resistance

IF you suffer one cold right after another, here's sensational news ! Mrs. Elizabeth Vickery writes: "I used to catch colds very easily. Dr. Pierce's Golden Medical Discovery helped to strengthen me just splendidly. I ate better, had more stamina, and was troubled very little with colds."

This great medicine, formulated by a practicing physician, helps combat colds this way: (1) It stimulates the appetite, (2) It promotes flow of gastric juices. Thus you cat more; your digestion improves; your body gets greater nourishment which helps nature build up your cold-fighting resistance. So successful has Dr. Pierce's Golden Med-Ical Discovery been that over 30,000,000 hottles have already been used. Proof of its remarkable benefits. Get Dr. Pierce's Golden Medical Discovery from your druggist today.

Kindness Done

Don't suffer unnecessarily from colds.

You have done a kindness, another has received it. Why be as the foolish and hanker after something more-the credit for the kindness or the recompense?-Marcus Aurelius.

Virtue's Resources

A VEILED LADY ...

Brings comfort and returning courage to Dr. David Jebb, famed surgeon, when he wakes to find himself alone in a strange land, his memory of preceding events a complete blank

Cursed with an overpowering desire for drink, David Jebb knows he has shirked a grave responsiblity in succumbing to temptation. A little girl, placed temporarily in his charge, has disappeared. All because he could not resist the lure he knew would sooner or later wreck his life.

Help comes to him at an opportune time. The veiled lady, gentle and kind, looks after him, restoring his health and aiding him in his search for his missing charge.

David grows to love his mysterious benefactor, but knows he will again fall victim to his desires. There is only one way out-he must leave the veiled lady, knowing that to remain would cause only unhappiness.

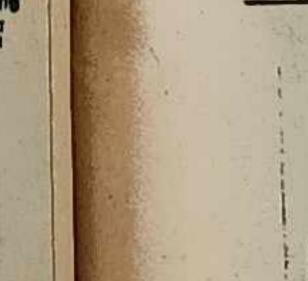

He finds, however, that he is powerless to shape the Course of his destiny. A stronger force prevails, and David Jebb finds happiness and contentment. You'll like "The Gift Wife." It's one of Rupert Hughes

Congress Tears Budget Apart: Defense Fund May Be Raised But Other Items Are Slashed

(EDITOR'S NOTE-When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) Released by Western Newspaper Union

CONGRESS:

Mutilation

After almost a month of argument it appeared that congress would military purposes. However, since grant Franklin Roosevelt his \$1,800,-000,000 defense budget for 1941, but the price would be (1) drastic slashes in all other items and (2) a boost in the \$45,000,000,000 national debt limit. In both house and senate, four out of five committeemen kept one eye on the purse strings. The other was cocked carefully toward the constituents back home. who are more concerned about econguns on the senate's plan to seek omy than pork barrels, even in an ratification power over all trade election year.

One warning came from Budget Director Harold D. Smith, who told | The senate foreign relations all federal agencies to start training for a smaller diet next year.

WOODRING AND STARK They'll win; others will love.

He threatened to be "plenty tough" on requests for deficiency appropriations. Another came from house appropriations committeemen who threatened to cut a proposed \$25,000,000 farm tenancy fund from the agriculture department's budget. But actions spoke louder than

Out from the appropriations committee came a badly mutilated incatch-all for pork barrel items. was \$94,492,166 below the President's budget estimate. Gone were all funds for the national resources planning board and the office of government reports. Cut drastically were items for the executive office and the maritime commission. Nor did the house backslide on its appropriations committee; next day, having shouted down \$22,000,000 in pork-barrel requests, it passed the bill almost exactly as reported by

Meanwhile the army and navy were getting better treatment. Admiral Harold D. Stark, chief of naval operations, told the house naval committee that he hoped to complete & \$2,276,000,000 building program by 1945. Across the street, Secretary of War Harry Woodring told the house military committee about deficiencies in critical ordmance.

Fondest congressional hope, obviously, is to raise the extra \$460, 000,000 for pational defense without imposing election-year taxes. there still remains the \$800,000,000 (originally \$1,300,000,000) naval program, suggested not by the President but by Georgia's Rep. Carl Vinson. If this carries, no economies can stop the national debt short of its present limit.

Also in congress: @ Mourned was the fate that befel congress' senior statesman, Idaho's 74-year-old Sen. William E. Boreh. While house and senate office buildings kept an ear cocked for news, the man who had served the senate 33 years lay close to death in his Rock Creek Park apartment, victim of a cerebral hemorrhage following a fall.

(Vice President Jack Garner whose opposition usually means certain death to any proposal, barked against & military loan to be

EUROPE:

The Belligerents

Britain's war consisted of (1) factory explosion; (2) a reported railroad sabotage plot; (3) a fiery defense in commons of Prime Minister Chamberlain's action ousting War Minister Leslie Hore-Belisha and (4) the slaving of Britain's first German on the western front.

France's war featured (1) expulsion from the chamber of deputies of all pro-Stalin Communists; (2)

It was not so quiet for the Finns. For five successive days Russian planes defied temperatures ranging down to 51 degrees below zero, bombing Helsingfors, Hango and other cities mercilessly. Though dependent offices bill, usually the they might be poor soldiers, the

SWEDISH VOLUNTEER "Now it is your duty . . . "

Russians proved themselves persistent in the far-north Salla sector. Forty thousand of them staged a new drive, only to be routed.

The Neutrals "Now the world knows what it is to be e Finn. Now it is your duty to show what it means to be a Swede. Make up your mind now. Join the Swedish Volunteer

Army, With Finland for Sweden!" This advertisement in a Stockholm newspaper was one answer to Russie's order that Scandinavia stop sending aid to Finland. Richard J. Sandler, ex-Swedish foreign minister, demanded that his nation send troops to defend the Finnish Aaland

Though both the allies and Germany tried to remain aloof from this Scandinavian-Russian spat, they were undoubtedly being drawn into it. One reason was the continued sniping at each other's iron ore shipments coming out of Sweden.

While tension grew here, it lessened in Netherlands and Belgium, which only a few days earlier had convention votes, wanted also by ordered complete mobilization in Manhattan's District Attorney Thom-LABOR-Thanks partly to the cur- fear of a Nazi invasion. Bruckart's Washington Digest

1940 Census Most Comprehensive Ever Made Since the First Survey

It Is a Complete Self-Examination of Uncle Sam by Uncle Sam; It Deals in Facts and We Cannot Have Too Many Facts About Ourselves.

By WILLIAM BRUCKART WNU Service, National Press Bldg.,

Washington, D. C. WASHINGTON,-What were you doing five years ago? And where did

you live at that time? What caused | States. you to move, if you did change your residence? While congress is working itself into a dither of flying arms and legs and heads and heels and while New

Dealers are straining at every shirtbutton in an effort to show President Roosevelt is the greatest peace advocate in 19 centuries, I want to talk about something that happens only once in 10 years. I refer to the decennial census, the counting of noses of Americans and the gathering of information about them, their lives and living upon which the federal government has launched. A good many folks have been inclined to regard the census as some-

thing about which to joke. There was, and is, a certain number of long term basis, considering it from the standpoint of its permanent value, it is so much more important than the passing show of political shadow-boxing that we can well afford to forget about much of that bunk. The census deals in facts, and surely we cannot have too many facts about ourselves.

So, borrowing from the expression of Frank Wilson of the census bureau, let me insist again that there is news of lasting value in this census and the job of census taking. It is, accurately stated, a "complete self-examination of Uncle Sam by Uncle Sam," and when it is done, From San Francisco south to we all will know much more about before. The current census is the most comprehensive of all of the 16 decennial canvasses that have been made since the first survey in 1790. Counting of Noses Is

Not Just Human Noses

Actual work in this counting of noses has already started. And when I say "counting noses," the term is rather broader than just human noses. For, as an example, the first nose counting is directed at enumerating businesses and manufacturing establishments and mines and quarries. Census representatives will visit something like 3,000, 000 business concerns, including about 170,000 manufacturing plants and establishments. These figures, of course, are an approximation. The census will show exactly how many there are, what they did in -all through the list to the single gasoline station and the dry clean-

ing shop on the corner. Then, along about April 1, there Information Will Help will be a large army of real nose counters start to work. They will visit your house and mine and every other one and it is expected they in the United States. To do this the government. But individuals, 1938 and 6.43% in 1937. job and the other phases of count- business and government each will

Results Will Show What

Progress Has Been Made It seems to me, then, that we can vealing just how much human na- there are in a given area.

THE DECENNIAL CENSUS

A complete self-examination of Uncle Sam by Uncle Sam. deals in facts, of which we cannot have too many.

through the development of medical science, through improved living conditions, through elimination of hazards, reduction of accidents and so forth, the "life span" of each of people who think the whole thing is us is getting longer and longer. Peosilly. It is not silly. Taking it on a ple actually are living longer; the expression of "living on borrowed time" after one is 70 years old is meaningless because so many people now live beyond that allotted time. Seemingly Silly Questions

Are Really Important

At the outset, I asked the questions about what you were doing five years ago and where you lived then. That was not facetious. Those questions are a part of the regular forms which the nose-counters will carry and which you, as a citizen, must answer. There is a good rea-

I have just written about birth and life and death. If your Uncle Sam knows something about how firmly arrive at conclusions rather renational policy, however, when the fall. census taker reports so many from one place who have moved to the city, especially if those who moved have no training in any field of industry. There arises, quickly, the question of unemployment.

Or, this business of moving about may have come from drouth or floods or pestilence. Matters of health are reflected as well. Continued drouth or continued floods the way of retailing, distributing, may ruin an area for agricultural shipping, servicing, manufacturing purposes. With facts concerning the condition, somebody may be able to suggest other means of utilization of the land.

As Guide to the Future

I suspect that the current census

Motorman and Trolley

Get Lost in Cincinnati CINCINNATI. - For 27 years Thomas Widaman, a motorman, has been piloting street cars from downtown Cincinnati to Madisonville, a suburb 10 miles out. Today he got lost. A traffic tie-up forced him to go straight ahead when he should have made a turn. With no way to turn around, he discharged his passengers and kept on until he reached College Hill, another suburb five miles out.

It was strange territory to him. He met another motorman who told him of a short cut back to town. Before he got back a company inspector located him. The inspector said the company had instructed him to watch for a stray street car and lost motorman. The inspector helped Widaman find his way

Make an Heirloom Crazypatch Quilt

BY RUTH WYETH SPEARS THE oldest of quilt designs is the crazypatch, yet there is something amazingly modern in its angular lines. A variety of ernbroidery stitches join the pieces, of plain and figured silks. Several colors of silk embroidery thread are generally used. When a number of patches have been basted in place, sew them down

to the foundation with the embroidery stitches and then remove the bastings. The backing is tied to the front with silk embroidery and a plain band around the edge is effective.

Anna Schoofs-"They were all easy. I if ink we should have the exemption , stem here, however, for if a person has high grades they should be ex. cused from examinations."

Werner Hoerig-"I don't believe in them. If a person has high grades they should be excused."

Harry Wahlen-"I don't care if we have them. So far I'v' come through

Violet Eberle-"I think there should be exemptions and besides I get very nervous and can't think. However, with one exception they were fairly easy this year. '

> -KHS-SPORTS

In a game which took a whole half to get really started, Kewaskum beat Oakfield \$5 to 18 last Friday night. The game at the half stood 10 to 10, but the boys climbed into winning position by the end of the third quarter with a lead of 12 points and ran the score up to 35 by the end of the game. The ney? game was fast and rough, but the boys seemed to think that the floor was all right. This is the first time in a num-

Oakfield on the Oakfield floor. Friday, January 26, Kewaskum meets its old rival, Campbellsport, for the second time this year. The game is to be played on the home floor. We are expecting a fast and exciting game, and hope that you will come out to support study again (It's hard.) our team.

points to Cedarburg's 11 and at the end of the third quarter the locals still trailed, 20-17. In the final period Kewaskum almost closed the gap but fell a point short as the Klug's breathed a sigh of relief. The local quintet scored 2 points in this quarter to Cedarburg's bringing the contest to a fatal end-

Kewaskum's weakness on the free throw line was responsible for the setteck. The team made 6 charity tosses out of 11 attempts as compared with the winners' 9 for 15. R. Marx and Schleifer led their teams in scoring re. spectively, each with 6 points.

score was 36 to 34, Hartford, at that by allowing Kewaskum to keep Werner with the regular lineup might have

passed Hartford. The teams put up a bitter battle all the way and the score was always close if not tied. Kewaskum was ahead by 5 points at one time. The score at the quarter was 14-13, Hartford, and was tied at halftime, 20-20. Hartford was 1 been spent, and after all the experipoint ahead at the end of the third quarter, 31-30, and finally won, 36-34.

Hauser, Hartford guard, was the cause of Kewaskum's defeat. He hit the hoop for 19 points, nearly half of his team's total. He is too good for the Rivers league and should be in the Lakes. As a whole Hartford has a high class team, containing several forme Lakes players. Honeck was hottest for the losers with 11 points.

FROM CONGRESSMAN FRANK B. KEEFE

ECONOMY AX WILL BE USED TO SLASH APPROPRIATIONS The House very definitely indicated its intention to clash appropriations in the present session of Congress when it sustained the actions of the Appropriations committee in cutting \$94,517,-106 from the President's so-called "bed. rock" budget, This action came when the House passed the Independent Offi. ces Appropriation bill and should serve notice upon all other departments of government that the House is de-

the budget. It is conceded on all sides as we ap. proach the statutory debt limit established by Congress, that if the fiscal affairs of the nation are to be solved the expenses of government must be curtailed. I am certain that in the paquests of other departments for appropriations, that the economy ax will be used all during this session of Congres

termined to reduce costs of government

with a view to the speed, balancing of

To me this is a hopeful sign, and although the economy attitude comes during the presidential election year, it in. dicates that the Democratic majority have heard from the people of the na tion who are demanding radical cur tailment of government expenditures. The House Naval Affairs committee which has been considering the demands of the Navy department for an increased navy, indicated yesterda;

million dollars off the Naval Expansion I am definitely in favor of these eco. nomies and savings where they can be accomplished without contributing further to unemployment or necessitating S. The basketball boys winning the an increase of differing among human beings compelled to exist on relief. The difficulty is that the Senate has usually attempted to restore to appropria 10. How many boys were ties Wed- ion bills the cuts and slashes made by the House, and it is to be hoped in thi present session that the wave of eco nomy that has gripped the House will find expression in the Senate so that the ultimate appropriations out of the

tially reduced. The farm problem continues to be one of the dominating issues in the present Congress. Chairman Cannon of the Agriculture Subcommittee of the Appropriations committee frankly admits that the Democratic administration has utterly failed to produce a workable agricultural program that will tend to solve the farmer's problems. He concedes and admits that the distribution of so-called farm parity payments t the farmers in the favored classes re presents nothing more than a mere gif and subsidy, and does nothing toward solving in a long range manner the problems associated with agriculture stage. Hartford showed sportsmanship It is conceded and admitted by all that the treasury cannot be maintained by in the game but not Marx. The locals continuing outright gifts to farmers failed to score in the 4 minutes but under the guise of so-called parity

While some benefits have accrued as a result of the soil conservation program, the erosion program, and many other aids to agriculture yet the fact remains that the farm problem today, after all the billions of dollars that have mentation that has been carried on, is in extremely critical condition. There seems to be unanimous accord among members of Congress that if the American people, through proper employment and proper wage levels, could indulge in proper diet, domestic consumption would be increased to a point where farm surpluses would rapidly

It seems to be conceded that if the economy wave strikes parity payments to the farmers out of the next agricul. tural appropriations bill, new legislation must be enacted that will place a legal floor under farm prices for farm products consumers in the domestic market. To this end a large number of representatives have been working in the preparation of a bill designed to insure parity prices to all producers agricultural products without the necessity of draining the public treasury.

I am pleaseed to note that this movement has the support of leaders on both sides of the House, and is becoming quite non-political in character, becal se we all realise that if the war should end and normal conditions were restored in foreign countries that the farm problem would become exceedingly acute. We all realize that agriculture in this nation is the basic industry and that there can never be sustained pros. perity in America until the farmer rereives for his product in the domestic market such a price as will enable him to purchase on a basis of parity the products of industry.

The ultimate object of the proposed new legislation is to guarantee to the time this price relationship is all out on fouls and that left a men. This oc- | ces lately. Remember these two games, | end in view of increasing the purchasing power of the farmer's dollar that new legislation is being proposed. I will

NEWS AND VIEWS Twenty-five Years Ago-

BADGER SAINTS AND SINNERS Good story writers portray their belisport News. characters so well that they step right

out of a book to become a personal when the proposal has assumed final grain is also available.

Another question which fills the columns of the press involves the 3rd term possibilities of the President. This matter is discussed constantly and ou all sides. No one seems to know the answer. The concensus of opinion appears to be that the President does not choose to be a third term candidate but that he will not resist if he is drafted by the Democratic convention. This conclusion has led many observers to point out that in the last week of the "draft Roosevelt program" has receiv ed great impetus. My own humble observance is that the inner circle of the New Deal will demand that the Presiwill ultimately accede to this clamor, and become the Democratic standar! bearer in the next election. This is a
