Charlotte, her husband, Prince Felix of Bourbon-Parma and their six children are safe in France, fleeing guns which end lives rather than acclaim new life. The terror came in the night, after 21 years of peaceful home-keeping, in which the grand duchess had reared her children, played the piano and, being a fluent linguist, had kept abreast of French, German and English literature. She has always said that talk of war and politics was distasteful to her. As the ruler of her tiny principality she discharged her duties of state with care and diligence.

At the end of the World war, Charlotte expressed extreme distaste for the Germans. Her elder sister, Marie Adelaide, was compelled to retire as ruler, on account of her pro-German sympathies and Charlotte was elected in plebiscite which continued the last grand At Southern Methodist it's the duchy in Europe, as against a re-

Luxembourg is a land of Millet landscapes and haunted castles. The grand duchess has traversed it mainly on horseback, riding side-saddle. Here the new savagery finds a shining mark of age-old decency and simplicity.

Mr. Morrison, who for the last nine years has been lambasting the tory government for fumbling and faltering, is the only dash of new blood in the re-made cabinet. A conservative Labor leader, who in 1934 rushed the last of the left-wingers out of the movement, he has been variously appraised. Heat, but other, equally credible, tells me he is a vigorous and intelligent public leader who will greatly strengthen the cabinet.

The son of a laborer, he was grocer's boy, elevator operator, traveling salesman, telephone operator, and secretary of the London Labor party at \$5 a week. When he was a small boy, a phrenologist, taking his last six-pence for a fee, told him he would one day rule England. He had heard about Dick Whittington and laughingly tells the story when someone suggests that he may be prime minister. It is almost certain that he will if England has another Labor government.

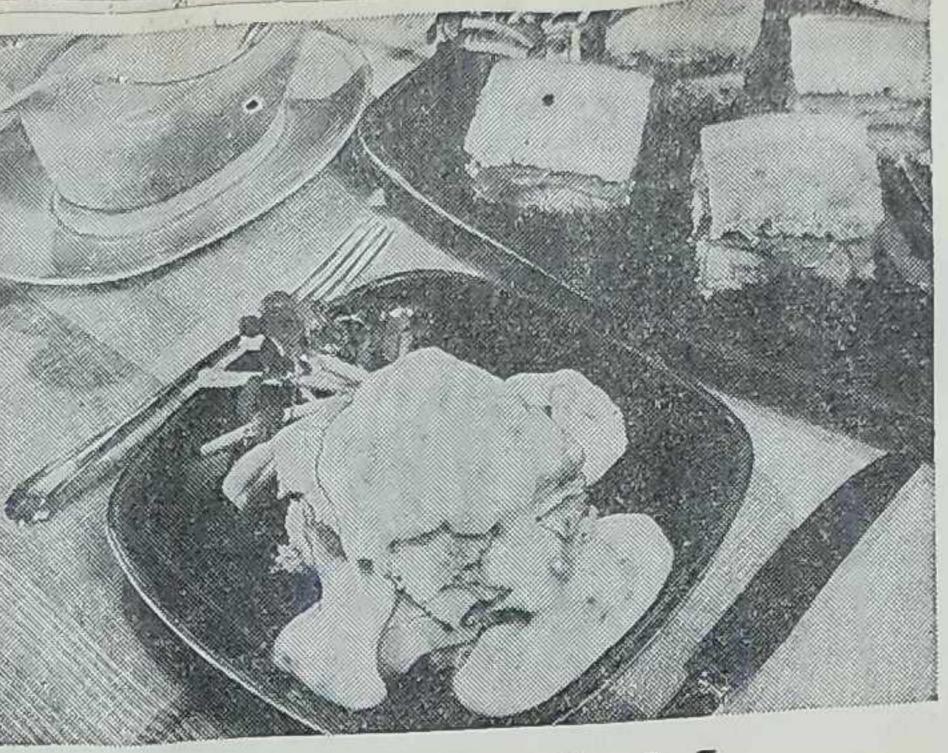

Significantly, he has contended that England must be more hospitable to conveyor-belt production, in both war and peace, if it expected to meet competition. The Germans long have been in line-production of planes, while the British have clung to hand-craft and quality-traditionally. Judging from Mr. Morrison's dossier of the last few years, he may help put more technological kick into their war operations. That has been one of his big ideas.

WHEN YOU'RE PLANNING A MENU ESPECIALLY FOR MEN (See Recipes Below)

Just between us women, we'l have to admit that, if left to his own devices, many a man would enjoy living on a straight diet of meat, potatoes and pie. It requires a little judicious scheming on Mother's part to supply Father with his favorite foods and provide for him a wholesome, well-balanced meal in the bargain.

Whether she's planning a menu to please the men folk in her family, or is chairman of the refreshment committee for the May meeting of the business men's club, it's a wise woman who remembers-and caters to-these masculine foilbles in food. Just how do a man's food prefer-

ences differ from those of women? Well, for one thing; a man wants plainer, more substantial food. He likes a meal to be composed of only few dishes, but he wants those few to be tasty full of flavor and

cooked to a turn And he likes to know just what he's eating - he wants none of the "masked identity dishes" that defy him to find what they're composed of. In a word, fancy cooking is wasted on the average man, but he appreciates good cooking to the

MAN A Story of Mystery Action and Love in the Land of the Six-Gun!

"Marked Man" is the story of square jawed, hard riding Walt Gandy who is summoned to Nevada by his old range partner, Bill Hollister. In grave trouble, Hollister needs Gandy's help. Eager to get into the fray, Walt is surrounded by a wall of silence and intrigue. Something is definitely wrong at the C C ranch, owned by old Cash Cameron and managed by Hollister. Cameron's beautiful daughter, Helen, seems to have the answer, but it is locked within her. Walt solves the ghostly riddle of the 'C C ranch, but only after the spatter of bullets brings his friends close to eternity,

COUNTY FAIR DATES AUG. 16-17-18 The dates for the Washington county fair have been set for Friday, Sat. urday, and Sunday, August 16, 17 and 18. The premium list will be available for distribution in a very short time. All 4-H club members will receive copies of the premium list. Others wishing to receive copies may obtain

them by asking for them. In planning the 1940 fair the management is endeavoring to make this the best fair of recent years. The premium list has been revised and enlarged. A carnival consisting of ten shows and ten rides will provide entertainment for old and young.

It is planned to build an additional barn to house livestock. This to be done through a WPA grant. Improvements such as leveling the grounds and providing added parking space are included in the plans for improving the county fair site.

equipment, twine, and threshing expense. It saves grain by doing the job in one operation - eliminating loss that comes with shocking, stacking, pitching, and hauling. It gets rid of extra help-saving food and work in the kitchen.

Come in and see this latest addition to Harvester's line of equipment for the small farm. And remember-it handles any threshable crop.

This 4-foot combine is equipped with grain tank or bagger. The grain tank is of the low type, quickly unloaded by power without operating any other part of the machine. The bagger equipment includes a wide, roomy platform with seat, and 2-way bagging spout. Pickup attachment can also be obtained. Soybeans and all threshable crops can be handled efficiently by the No. 42, enabling you to thresh small grains and seed crops in season without the expense or bother of hiring a custom rig.

THE WAR: Revised Edition

On the fields of northern France and Belgium the story of 1914-18 continued to unfold itself in new,

grim and bloody chapters.

This time the forces of Adolf Hitler were playing the leading German role as they made their bid for Paris, capital of France and for · ports on the English channel, gateway to Britain. For a time as these forces battled their way through The Netherlands, across Belgium, into France, it looked that there would be no stopping them until they decided to write the final chapter themselves. Even the distold of the constant advances made | ture and industry. It was a totali- lands, as these markets have been by the invading legions.

Directing this new move-the first major attack of the allies-with all the vigor for which he is famous and respected, he was successful in stalling the German machine, for a short time at least.

Two important key points near the channel, Arras and Abbeville, were reportedly retaken from the Nazis. Soon word came through, however, that the Germans were pounding at the gates of Calaiswhich is only 26 miles across the Strait of Dover from England.

This fight for the channel ports may well be the most decisive battle of the current conflict. For as long as the English and French control the channel they are really "united." Should these ports fall into Nazi hands, however, Hitler would be in an excellent position to launch his threatened air and land attack on Britain-at home.

'Fifth Column'

. . . what it means "Outside the gates of Madrid four columns of our troops are engaged. But within there is a fifth column, which, at the proper time, will arise and overthrow the defenders."

Since the day that the Spanish rebel general Quiepo de Llano, made that now famous remark regarding the "fifth column" the term has been used to refer to all those residents (citizens or aliens) of a nation at war or faced with the possibility of war at some future date, who act or speak in a lashion that may in some way aid the enemy or possible enemy,

Such aid to the "enemy" may come in many different ways. It may mean sabotage or disclosing military secrets. Most striking examples of "fifth column" activity usually come however, as the troops of the enemy are marching into the home country. The "fifth column" is already there and has placed itself in key positions to aid the advancing troops.

Thus far, it is claimed, the German forces have successfully used these tactics in Denmark, Norway, Holland and Belgium, "Fifth columnists" may or may not be citizens of the country in which they reside. They filter into the nation in times of peace as students, tourists, workmen, refugees or any guise which is not apt to be alarming.

WASHINGTON .- I shall try, in this article, to provide you with a picture of your national capital during the last few weeks. It is a situation, a condition that, in general, gives rise to very little pride. But the facts must be faced, for in this capital city things have happened that can best be described as the screaming and play-panic of children playing cops and robbers. Only, of course, the screams were screams of men and women in who were there during the first places of official responsibility and the panicky outbursts and orders World war, and he is still going were the excited and unbalanced strong. procedure of leaders in public and private life.

In the midst of this period which I am attempting to describe came President Roosevelt's voice, heard over the din of the others because the President and his office are respected. He drove to the Capitol building and there, before a joint assembly of senate and house, he asked for new national defense measures, and he asked for \$1,196,

THREE-DECKER PULLMAN BERTHS

We've had the three-decker sandwich and the three-decker bus and now we are about to get the three-decker railroad berth.

\* \* \* The Pullman company is turning out a combination coach-sleeper that will have the berths in three layers: lower, upper and stratosphere, . . .

The new car will repredoir the next.

Through the new car the Pullman company carries the art of concealing plumbing to new heights. There are almost as many fixtures hidden under one seat as you will find in most plumbers' supply windows.

The new car is a de luxe coach without the conventional center aisle. The aisle is now about three points to starboard. There are accommodations for 45 passengers. Nothing more than the appearance of the porter with a few mysterious motions is necessary to eliminate the seats and substitute the ground

service between bunks.

When all three occupants desire to go to bed at once there is no problem. But it will become a matter for the American Railroad association, the RFC, the SEC and the sundry private and federal agencies when one man wants to turn in and the other two want to play rummy. . . .

Elmer Twitchell's chief concern is that he will be in a lower on a rough road when two fellows in the uppers have breakfast in bed. . . .

The modernization of railroad cars within the last few years has been amazing. So rapid has been the trend that when a man gets into an old-time railroad car today it is like climbing into a 1908 aircooled Franklin

roadster. And what the roads have done to the dining cars is nobody's business. They even have hostesses in 'em. She's the brunette who, when you enter all alone, holds up her index finger and asks, "One?" This shows how dizzy those diners are. We hope that whatever happens the roads don't put on three-decker diner

Mussolini's attitude may be described as that of a man who is working hard for peace with both fists.

. . . FAIR ENOUGH Roger Babson, he's a dry, To be a President he'll try; He will not take a drink with me-Nor will I drink with Roger B.

"The fate of the German nation for the next 1,000 years is at stake," says Der Fuehrer. What's 999 years and six months in a crisis like this?

> . . . THE GULL AND THE

EARTHQUAKE A seagull, tired out from a long fourney, flew toward land and lighted on a crag, but as it happened an earthquake occurred at that identical moment. To the dismay of the little bird the whole line of rocky cliffs seemed to tremble suddenly, lift upward and then collapse be-

neath him. At this the gull flapped his wings and flew back to sea as fast as he could, screaming tragically: "See the evil thing I've done! . . . I lit on the crag for a moment, and as a result I've wrecked the whole coast

His companions consoled him as best they could. "I don't think I'd take all the responsibility," they said gently. "There was an earthquake, too, you know."

William March.

SPRING VERDICT

Some men assert they outings take To fish a mountain flow, When really their main pleasure is To let their whiskers grow.

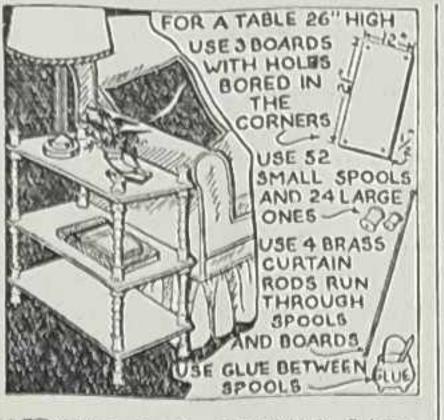

EDUCATION FOR OUR ELDERS People are always writing articles on how to bring up children. Why doesn't someone get real courageous and write a book on how to bring up parents?

The other night "Moonlight Serenade" was being played on the radio, and do you know that my father didn't even know it was Glenn Miller's theme song? He doesn't even know what boogie-woogie music is. It doesn't seem to bother him at all.

Parents don't even know what simple words like jitterbug, ickie, and hepcat mean; and when you use such phrases as "in the groove" or "solid jive," they are bewildered. Their ignorance is appalling. They can't remember from one week to the next what numbers led on the hit parade. I venture that ninetenths of them think "Rochester" is a city. And how many of them could tell you what happened to

Flash Gordon last Sunday? I just don't know what the older generation is coming to. -Adeline B

#### FARM AND HOME LINES

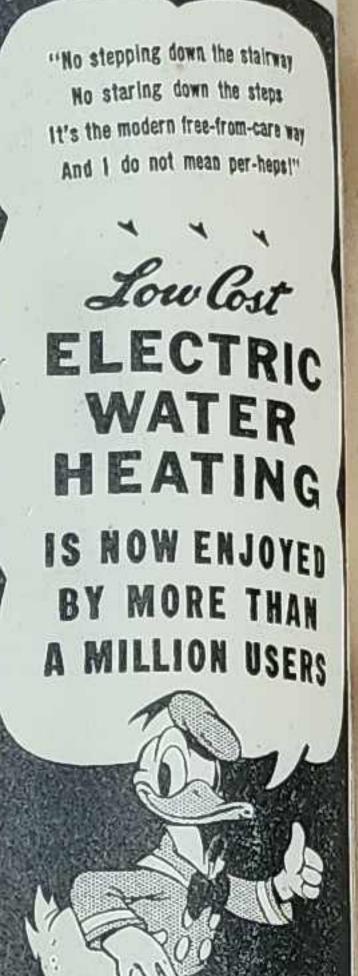

Present indications are that Wiscon. sin will have a winter wheat crop of nearly 700,000 bushels, which is some-

what above the ten-year average. Hybrid seed corn was first produced commercially in Wisconsin in 1933, when about 500 boshels were grown. By 1939, at least half of the corn acreage of the state was planted to hybrid

MARKED By H.C.WIRE

# Harold Channing Wire's Greatest Western Story!

Action spiced with mystery-plus just enough romance—that's "Marked Man," a red-blooded, fast moving story of old Nevada. The scene is the C C ranch, to which Walt Gandy is summoned one day by his old range partner, Bill Hollister. Gandy, on arrival, finds a mysteriously silent ranch, a murdered man and a smoldering range war. What follows is a story of two-fisted action as Gandy and Hollister attempt to defend the ranch against the attacks of a mysterious foe. Who was the murderer? Who is back of the range war! Why doesn't the C C fight back? These are only a few of the problems which the redoubtable Gandy has to solve. With a taut climax that leaves your ears ringing With the thunder of six-guns, "Marked Man" is an unusual narrative, colorful, he man's reading from start to finish.
