Severe 3-Day Rain Storms Here Accompanied by Small Tornado

Hour Rainfall, Wettest in History, and Wind Does Considerable Damage to Property, Crops, Floods Lowlands; Local Firemen Called Twice After Saturday Evening's Bad Storm

The rains came. The village is back to normal again after one of the heaviest rainfalls in history ever the week end and Monday. Considerable damage amounting to thousands of dollars was done through the vicinity, county and state by electrical wind, and rain storms. Property and crops were damaged, railroad and road traffic was hampered, electric and telephone service interrupted as the heavy rain fell and flood waters ensued. The rain and electrical storms began Friday night and continued almost steadily until Monday. The three days were the wettest in the history of the county, and the worst since the cloudburst and flood of 1924.

SMALL TWISTER STRIKES

The climax of the electrical storms struck the village shortly after the stroke hour Saturday when a small twister or tornado hit with severe force. The young twister raged through from west to east. All of a sudden, following a calm, a ferocious wind came and the rain beat down in torrents. The combined wind and rain was the worst of any that can be remembered here. Because of the blinding rain and branches of trees and other matter riding the gale it was impossible to see what was happening until the storm abated. It lasted only a couple of minutes and then disappeared as suddenly as it had come. The odd part about the particular storm was that a small portion of Kewaskum and a short distance north the wind did not strike at all with the ferocity it did here.

People were out on the streets again as soon as the rain stopped to see what damage had been done. Excitement subsided as many trees were uprooted and broken off, electric and telephone wires were down, and boxes and other debris were strewn about. Fond du Lac avenue, where it intersects with Main street, was almost completely under water for a time before it flowed away. The west side of town suffered the most damage. Four trees were uprooted in front of the N. W. Rosenheimer home on Fond du Lac avenue. Two of the trees fell across the highway and traffic was stopped. Men set to work immediately and sawed the trees so travel could be resumed. A large box elder was uprooted at the J. C. Schloesser home, and fell against the portion of the house occupied by the Ray Stahl family. However, no damage was done. A huge tree was left in the ground where the tree stood. Another tree to the rear of the Schloesser home snapped off near its base and fell across the fence onto the Louis Heisler property.

MANY TREES DOWN

Another large tree broke off in the G. E. Lay yard and fell across a telephone cable line and into First street. The cable was torn down by the weight. At least 15 trees were felled by the storm, most of the others being fruit and other smaller trees. Branches were broken off of trees in most yards. A large wooden box, about five feet long and three feet wide, was blown from the Rosenheimer farm through a wood fence, tearing the fence down, and landing in the Heisler garden. At the home of Mrs. Joe Kern the chimney on the house was blown off and at several places electric wires were torn down. It is also reported that several garages were moved off their foundations. A number of basements were flooded and flags, on buildings and across the streets for the firemen's tournament, were torn and new ones have since been purchased for July 14, when the postponed event is to be held.

Telephone service was disrupted for an hour here because of a tree falling over the wires. Several high tension wires were also torn down, endangering people, but the electric company men were in a hurry to repair the lines. A large group of men worked throughout the greater part of the night repairing the lines. In the local park several stands erected for Sunday's games, were damaged and can-

Frank Kudek's Death Mourned in Village

Residents of Kewaskum received the news with sorrow the past week that another of our esteemed and widely known citizens, Frank Kudek, aged 75, years and four months, had passed away. His demise occurred at 4:30 p. m. Friday, June 21, as the result of a cerebral hemorrhage, following an illness of 10 months' duration.

In August of 1939 Mr. Kudek suffered a cerebral hemorrhage while visiting at the home of his son, Frank, in Milwaukee. He had never fully recovered nor regained his former health since that time and when he was again stricken Friday, his ailment proved fatal to him.

Mr. Kudek was a member of the Holy Name and St. Francis Aid societies of Holy Trinity Catholic church, Kewaskum.

Mr. Kudek was born on Feb. 26, 1865, in the town of Wayne on the Kudek homestead, located about three miles northwest of Kewaskum. He made his home on this farm until 20 years ago when he and his wife came to the village. They resided here since that time. His marriage to Miss Mary Shedio took place at St. Kilian on Oct. 22, 1888, who survives him. Besides the widow, deceased leaves to mourn his loss three sons, Frank and Alvin of Milwaukee, and Clarence of Campbellsport, and seven grandchildren. Two daughters, Mary and Ella (Mrs. Albert Haessly) preceded their father in death.

Funeral services were held on Monday, June 24, at 9 a. m. from Miller's Funeral Home and at 9:30 a. m. at Holy Trinity church. During the absence of the pastor, the Rev. Ph. J. Vogt, Rev. Goebel of West Bend officiated. Interment was made in the new Holy Trinity cemetery west of the village.

Pallbearers were John Marx, Peter Kohler, Louis Heisler, Henry and John Muckerheide and John Botzkovis. Mr. Kudek was a fine, upright, Christian man, who helped build up the community in which he resided and was loved. His death was a crushing blow and great loss to his family and fellowmen, who considered him a true friend and neighbor. He was ever ready to do his best and his life on this earth was a credit to him. His memory will long be cherished and kept sacred by his family and all who had the good fortune of making his acquaintance. The death of Mr. Kudek is to be sincerely regretted. To those near and dear to him, our sincere condolences are extended.

CARD OF THANKS

With sincere gratitude and appreciation we extend this word of thanks for the kind acts of sympathy and assistance expressed by neighbors and friends in our bereavement, the illness and death of our beloved husband and father, Frank Kudek. To those who loaned cars, for the beautiful floral offerings and spiritual bouquets, the traffic officer, Millers, who had charge of the funeral, and all who showed their respect during this trying time by attending the funeral, we wish to express our special thanks. The Kudek Family

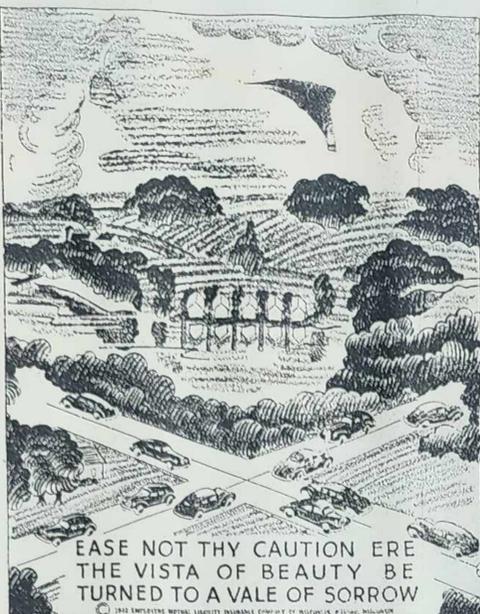

MRS. HERMAN THEIS

Funeral services were held Wednesday afternoon, June 19, at the Batavia Lutheran church for Mrs. Herman Theis 73, (nee Frey), who died suddenly at six o'clock Monday morning, June 17, at her home in Batavia of a heart attack. The Rev. Clarence Krueger officiated and burial was made in the church cemetery.

Mrs. Theis, a member of the Batavia Lutheran church and an active member of the Ladies' Aid, immigrated to this country from Pommeran, Germany in 1895 and the couple settled on a farm near Batavia. They resided on the farm until three years ago when they retired and purchased a home in Batavia.

Deceased is survived by her husband, two daughters, Selma (Mrs. Art Lueke) and Hulda (Mrs. Elmer Arndt), both of the town of Scott; one son, Herbert, of Milwaukee; seven grandchildren; two sisters and one brother of Milwaukee.

ON SAFETY RELY—FOURTH OF JULY

EASE NOT THY CAUTION ERE THE VISTA OF BEAUTY BE TURNED TO A VALE OF SORROW

BEHIND EVERY SCENE LURKS THE SPECTRE OF ACCIDENT

By Fred W. Braun, The Safety Man

By the dependable law of averages, more than 450 good American lives are doomed to end by accident on the Fourth of July. Will yours be one of them? Not if you look for the danger in your activities on that day! Whenever you go, whatever you do, be on your guard, for "Accident" may strike at the slightest lapse of caution and turn the day into one of unforgettable sorrow for you.

Fourth of July a year ago, 460 lives were snuffed out by accident, to say nothing of the countless thousands injured. 227 of these lives were lost in automobile accidents—and here lies the greatest danger. The holiday will bring almost every available car out on the highways. Everyone, pleasure bent, will be anxious to get to their destination in the shortest possible time. In their hurry, courtesy, caution, traffic rules and often common sense are disregarded and the result is accidents, suffering and loss of life.

Think of those who will start out in the morning gay, hopeful, carefree and end up at night in a hospital, sick bed or perhaps at the undertakers. It's a ghastly thought but the records prove that just so many are destined to suffer thus. Will you be one of them?

The greatest risk is on the road and if you handle your car as though you value your own life and the lives of those who may be riding with you, you will be safe—and return alive—and well. The holiday accident toll can be reduced if you and you will be selfish enough to use the care and common sense required to preserve your own life. If everyone would do this accidents could not happen. No one would be injured. No one would die.

Felix-Reindel, Other Marriage Rites Read

In a pretty summer wedding ceremony performed at 9 a. m. Tuesday, June 25, at St. Kilian's church, St. Kilian, Miss Anne Felix, daughter of Mrs. Anna Felix of Campbellsport, Route 3, became the bride of Gilbert J. Reindel, son of Mr. and Mrs. George Reindel of Kewaskum, Route 2. The pastor, Rev. John B. Reichel, read the solemn nuptial high mass. The bride was given in marriage by her brother, Killian.

Hausmann at Republican Convention as Dewey Delegate

Dr. and Mrs. N. Edw. Hausmann left last Sunday noon for Philadelphia, Pa. to attend the Republican national convention held at Convention Hall in that city through the week. Dr. Hausmann attended as a Thomas E. Dewey instructed delegate for the Sixth congressional district, comprising Washington, Sheboygan, Calumet, Winnebago, Ozaukee and Fond du Lac counties. On Thursday night Wendell L. Willkie of Indiana, political miracle man, won out in a sixth vote nomination as 1940 Republican presidential candidate. Dr. and Mrs. Hausmann are expected to return home on Saturday.

Dr. Hausmann, along with George Greeley of Oshkosh, was elected a delegate at the spring election on April 2. At that time he ran second highest in the district with 15,533 votes, carrying four of the six counties.

On the first four ballots at the national convention Thursday all of Wisconsin's 24 votes were for Dewey, all of the voters being Dewey instructed delegates. Dewey carried the first three ballots and then was passed by Willkie. Many radios here were tuned in here to hear the balloting over the network on Thursday afternoon and evening.

Running third at the start of the balloting to Dewey and Sen. Robert A. Taft, Willkie passed both and then left Dewey so far behind that during the fifth ballot the New York district attorney withdrew and released his delegates. Dewey's instructed delegates were then able to vote for what other candidate they wished. On the sixth ballot the Wisconsin delegates were called on by the convention chairman, Joseph W. Martin Jr., for an oral ballot. Each delegate acclaimed his vote before the convention. Although released by Dewey, many still voted for him. Dr. Hausmann's voice was heard over the air at that time and he cast his vote on the final ballot for Willkie, who received the necessary majority of 501 votes for nomination.

MARRIAGE LICENSES

The following marriage licenses have been issued by County Clerk Kuhnt: Orville Koehler of Route 2, Kewaskum, and Lucille Lermann of Route 1, Kewaskum. They will be married Saturday, June 29.

Charles Kratzsch of Route 2, West Bend and Jeanne Foote of Route 2, Kewaskum. Their wedding will be held on Saturday, June 29.

Paul P. Wagner of Route 4, West Bend and Marcella Schneider of Route 2, Kewaskum. They were married on Thursday, June 27.

Stanley H. Hodge of Campbellsport, well known athlete of that village, and Margaret Miller of West Bend.

Other marriages Saturday will include those of Harold Eggert and Esther Butzlaff, both of this village; Eddie Wiskirchen of Barton and Marie Kolafa of New Fane, and Earl Kurth of Route 2, Kewaskum, and Ruth Bloedorn of Milwaukee.

BIG CELEBRATION DANCE

A big celebration dance will be held at the Lighthouse ballroom, 2 miles north of West Bend, on Highway 55, Thursday, the Fourth of July. Music by Rub's Westerners. Admission 35c.—Henry Suess, Proprietor.

Henry Quade Passes Away

Just before closing the forms for this issue notice was received of the death of one of Kewaskum's most prominent businessmen and esteemed citizens, Henry William Quade, aged 61 years, 4 months, and 21 days, which occurred at his home in the village at 8:45 a. m. this (Friday) morning, June 28, following an illness of two years with a heart ailment. He was president of the Kewaskum Creamery company, a position he held for a number of years.

Henry belonged to the Masonic order and was a member of the Odd Fellows and Modern Woodmen lodges.

Badger Firemen's Tournament, Picnic, Postponed to July 14

Anabel Guenther, 12, Fatally Hurt in Fall

Anabel Guenther, 12, daughter of Mr. and Mrs. Arthur W. "Pat" Guenther of Campbellsport, died at 3 a. m. Friday, June 21, in the office of her uncle, Dr. O. F. Guenther, in that village, where she was taken for treatment for injuries she sustained shortly before 8 p. m. Thursday evening when she fell from a loading platform while at play near the stockyards in Campbellsport, which proved fatal.

Anabel was a granddaughter of Mrs. Anna Raether and niece of Mr. and Mrs. William Guenther of this village. Her father, one of Campbellsport's leading businessmen, operates the IGA store in that village. The child was well known and had many young playmates here through her frequent visits with her grandmother.

The fatal accident occurred when the platform from which Anabel and three companions, Beverly and Alfred Wegner of Batavia, her cousins, and Elmer Benson of Campbellsport had been jumping, tipped and threw the child to the ground. The platform was loose and as it tipped, part of it struck the child and badly injured the front of her head, her shoulder and one hand. It is believed the hand was injured when Anabel raised it to defend herself from receiving the blow on the head.

Despite her injuries, Anabel arose to her feet after the fall and asked her playmates to hurry and call her mother. Then she lost consciousness and fell again, striking her head on a railroad track. She sustained a fractured skull besides her other injuries. Picked up unconscious, the little girl was taken to the office of Dr. Guenther, where she died without regaining consciousness. According to Dr. Guenther the first blow on the head would have been fatal even though she had not struck her head on the track. The railroad company has assumed full liability for the accident because the platform had been neglected in accordance with reports.

Surviving are her parents, a brother, Arthur, Jr., her grandmothers, Mrs. Philip Guenther of Campbellsport and Mrs. Anna Raether of Kewaskum, several uncles and aunts and many cousins. The child was a pupil in the seventh grade of the Campbellsport public school.

Funeral services were held at 2 p. m. Monday, June 24, at the Reformed church in Campbellsport. The Rev. John Mohr officiated at the services and burial was in Union cemetery in that village. A private service was held at the home at noon after which the body was taken to the church, lying in state there until the hour of the services.

The funeral was very largely attended. Pallbearers were Joseph Pesch, Elmer Benson, Charles Weber, Ivan Baumhardt, Karl Mohr and Kenneth Haessly. Flower carriers were Joan Knickel, Beverly Scheid, Janet Breyman, Janice Romaine, Mary Lou Steinacker, Catherine Weber, Betty Enfeldt and Mollie Smith. The floral tribute was unusually large.

Among relatives from away attending were Mrs. Charles Nelson of Fargo, N. D., Mrs. Ida Doepke and Mr. and Mrs. Herman Wegner of Milwaukee, Mr. and Mrs. Al Wegner and two children of Batavia and Mrs. Anna Raether and Mr. and Mrs. Wm. Guenther of Kewaskum. Quite a few other residents of this village and vicinity attended the services.

The untimely, accidental death of this beloved little girl is to be deplored. Anabel was an unusually religious and bright child and won honors in her school. She was well liked and very popular among her many friends and her pleasing presence will be greatly missed by them as well as within her family circle. To Mr. and Mrs. Guenther and others of the bereaved survivors we extend heartfelt sympathy.

BIRTHS

VOLM—A 9 1/2 pound baby boy was born to Mr. and Mrs. Wm. Volm Tuesday morning, June 18, at 5 a. m. The little fellow will be baptized Sunday, June 30. He will receive the name Robert Leonard. The sponsors will be Miss Betty Jane Volm and Leonard Peter. They are both of St. Kilian.

HAUG—Born to Mr. and Mrs. Jack Haug of Five Corners, a son on Friday, June 21. The baby was baptized and received the name James John. Mrs. Larry Dimas of New York and Frank Mathieu of Elmore were sponsors.

PASTOR IN RETREAT

The Rev. Philip J. Vogt, pastor of Holy Trinity congregation, left Sunday to participate in the retreat at St. Francis seminary this week. Father Vogt returned on Thursday morning.

Heavy Rains Wash Out All Chances of Holding Event For the First Time in Association's 47 Years History; Same Program To Be Carried Out on New Date

The usual rotten luck that traces the Kewaskum firemen prevailed again Saturday and Sunday when the heavy rains completely washed out their scheduled event, the 47th annual tournament and picnic of the Badger Firemen's association here. However, the scheduled program will be held in its entirety on the postponed dates, Saturday and Sunday, July 13 and 14. The rain fell in torrents not only Saturday night, the opening night of the celebration, but also all day Sunday, causing officers of the association to select a new date. It was the first time since the association was organized 47 years ago that the complete program had to be called off because of bad weather.

The firemen and businessmen had planned for several weeks to make this year's occasion one of the most auspicious ones ever held by the association. Decorations were all up and everyone had looked forward to the event to see the colorful parades, contests by the 20 member fire departments, and to enjoy the big picnic, band concerts, open air dancing and other entertainment.

SOME COME ANYWAY

The firemen's hopes were not dampened by the rain Saturday night which caused the cancellation of all activities. But when the rain continued to fall on Sunday morning they had to give up. Despite the rain several fire companies and guests came anyway in the hope that it might clear up. No such luck so the association and local department officers got their heads together in the village hall and after a brief meeting decided on the new dates for the postponed holding of the tournament and picnic. The local firemen immediately phoned the other departments, Red Ravens orchestra and heads of other featured attractions not to come. Quite a few people were in town Sunday as many people came to see if anything was going and then left again.

Members of the West Bend, Barton, Grafton and Saukville departments were already here at the time and so decided to have fun anyway. A group from Barton came with an old Model T Ford rigged up like a fire truck and created laughs among the populace by driving through the streets in the downpour. They had a large old bell fixed on the machine that had such a dull clang it sounded like a huge knock in the motor. West Bend firemen left after a short while but Grafton and Saukville remained all day. And did they have fun. The Saukville bunch visited all the taverns and paraded through the streets all afternoon unmolested. They picked up a flag and several old metal covers somewhere on the street and stopped traffic with their parading down the center of Main street and Fond du Lac avenue. The Blatz Old Heidelberg quartet, one of the scheduled features, also spent the day here and entertained in various taverns. They had their meals at Heisler's tavern and at the Grand View Lunch Room entertaining over a loud speaking system carrying out on the street. The firemen were unable to notify them of the postponement due to telephone wires being down south of here.

HOLD SAME PROGRAM

With one or two exceptions the entire program scheduled last week end, will be held again July 13 and 14. Festivities will get under way Saturday night with the children's cash prize parade, to be followed by a band concert by the Kewaskum Community band and amusements, concessions, etc., in the village park Sunday morning. The program will start with the reception of visiting firemen at 8:30 a. m. followed by contests on the street by the 20 departments for \$198.00 in prize money. Lunch at noon and then at 1 p. m. the mammoth parade of firemen, bands, drum and bugle corps, floats, Legionnaires, Scouts, etc. will be held.

This will be followed by a gala picnic in the park, featuring amusements, concessions and entertainment of all kinds. The little German band of Winnebago, consisting of nine pieces, will feature. They will replace the Red Ravens of WTAQ, who are booked for that date. The firemen had to pay the Red Ravens a good price even though they did not appear Sunday. The local band will also play in the afternoon. The Blatz quartet may also return if satisfactory arrangements can be made by the firemen.

The Winnebago German band coming is the most widely known in the state next to Helme and His Grenadiers of WTMI. The band goes over big where it appears and return engagements are requested. Kewaskum should be no exception as the band is (CONTINUED ON LAST PAGE)

County Agent Notes

WASHINGTON COUNTY LAND USE REPORT WELL RECEIVED
 On Monday of this week Guido Schreder, chairman of the Washington County Board, and County Agricultural Agent E. E. Skallskey attended a meeting of the State Land Use Planning Board at Madison. Mr. Schreder is a member of that board. Mr. Skallskey, as secretary of the Washington County Land Use committee, presented the Washington county report, which received favorable comment and was unanimously adopted. The report was a summary of the results of a study in which were incorporated the opinions and judgments of more than one hundred farmers, business and professional men.

30-DAY ORCHARD SPRAY
 The 30-day orchard spray should be applied about 30 days after the calyx spray. All apple, pear, and plum trees may be sprayed. If a good job of scab control has been done with previous sprays, then the amount of lime sulphur may be reduced to one and one-half gallons to 100 gallons of water. To this should be added two and one-half pounds of arsenate of lead. The use of spreaders and stickers the same as in the 10-day spray will increase its effectiveness.
 D. E. Skallskey, County Agent

WEED COMMISSIONERS' MEETING
 Town chairmen and the weed commissioners of the different townships of Washington county are much interested in the noxious weed control problem of their respective townships. They showed much interest in the meeting held in the court house, West Bend, on Tuesday afternoon, at which occasion State Weed Commissioner

It Takes the Pitchfork Out of Haymaking

McCORMICK-DEERING TYPE M PICKUP BALER

Now you can leave the pitchfork in the barn when you make hay. You don't need it when the new McCormick-Deering Pickup Baler is on the job.

This time-saving, labor-saving outfit picks up and bales the hay direct from the wind-row. It eliminates such operations as loading, sweep-raking, stacking, and hand feeding in connection with baling. Only three or four men, depending on the crop and yield, are needed to operate the baler and tractor. The hay is handled less and as a result there is practically no loss of leaves from such crops as alfalfa and clover.

Besides hay, you can use this outfit profitably to bale straw left by the combine after harvesting.

Come in and get the full story about this new machine.

Long May She Wave

164 years ago, a group of determined men met in Philadelphia. In words that will never die, they set down our rights as American citizens.

This year, Independence Day brings a new and greater significance than ever before. In a world gone mad, when thrones totter and nations crumble, fiercely we reaffirm our faith in the American way of life, liberty and the privilege of happiness.

Many 'Modern' Inventions Really Not So Modern

Leonardo da Vinci (1452-1519) was an inventor of considerable genius. Many of his inventions were sires to our most useful modern devices. Working models of his great inventions, built in Italy, were on exhibition early in June at the New York Museum of Science and Industry in Radio City.

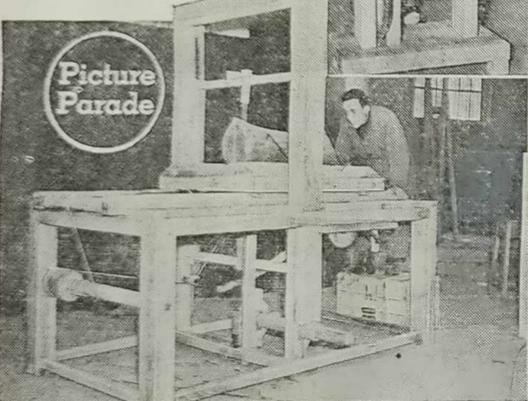

Pictured above is the granddaddy of the airplane, a device with movable wings, and operated by the feet. Da Vinci got the idea from the birds, and while it did not work, it was a step in the right direction. The man was supposed to be on a platform and pump his feet, with the result that the power was transmitted to the wings by a series of pulleys.

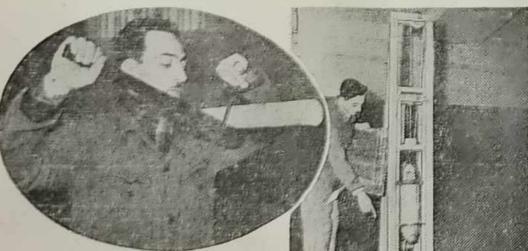

Above we see a working model of a movable press, all of wood. This press was invented by da Vinci nearly 100 years before the one invented by John Gutenberg in Germany.

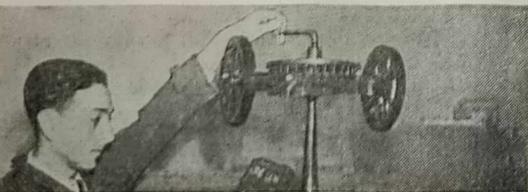

Outstanding among all Leonardo's inventions is the machine for drawing metal into sheets between two heavy rollers. In some shape or other this device (right) is today used by all the metal industries in the world.

The full-sized model of da Vinci's automatic saw is the forerunner of the modern buzz saw used in lumber mills. At the lower right of the model is a crank to which a handle was attached to furnish motor power for the saw, which was "elbow grease."

(Above): The forerunner of the monkey wrench used by machinists today. While it does not resemble a monkey wrench, the principle is just the same. (Right): Da Vinci's conception of the pile driver, which, except for motive power, is identical with ones used all over the world today on water-front construction.

The father of the modern motor car's differential.

Potto Is Nocturnal
The potto is a small lemurine mammal of West Africa about the size of a squirrel, with soft yellow fur and protruding, yellow, perpendicular eyes. The potto is a nocturnal animal of the tree-tops and its weird, whimpering cries are believed by the natives to be voices of evil spirits. Dr. W. M. Mann, leader of the Smithsonian-Firestone expedition in Liberia, has captured one of these rare animals for the National Zoological park at Washington.

Bees Meet Waterloo
Attacking a windmill-shaped wind-charger of the radio set of I. M. O'Kennedy in Moorreesburg, Cape Colony, a large swarm of bees met their match. The whirling blades of the charger, atop O'Kennedy's house, wrought havoc among the bees, but they rallied and continued to attack until the entire swarm was wiped out. The wind-charger was not affected and continued to whirl merrily, but the roof and the ground round the house were covered with dead bees, all "killed in action."

FIRST-AID to the AILING HOUSE

by Roger B. Whitman

Stained Linoleum
QUESTION: How can stains from a garbage pail be removed from kitchen linoleum?
ANSWER: Wash the stained area with a scratchless scouring powder. The remainder of the stain may be removed by rubbing with fine steel wool.

Varnished Linoleum
QUESTION: By using a varnish on a linoleum floor for several years it has become discolored to a brownish tint. How can I remove this varnish, and bring the linoleum back to its original color?
ANSWER: The varnish can be removed with a solution of three pounds of trisodium phosphate in a gallon of hot water. Take a small area at a time, apply the solution and as soon as the varnish softens, wipe it off. Rinse immediately with clear water. The varnish remover should not be allowed to soak into the linoleum.

Yeast in Cess-Pools
One of my correspondents, after long experimenting and making many tests, reports that for a cess-pool or septic tank of average size, about six yeast cakes a month will go far to keep them clear and free from odor. Fermentation brought about by yeast helps to destroy odor-producing material and to liquefy sludge. The usual method is to dissolve the yeast in a little cool water, and to pour it down any pipe that is directly connected with the tank or the pool; not down the kitchen sink, if that connects through a grease-trap.

Upholstery Spray
QUESTION: A couch in my living-room is used as a bed. What can I spray it with to prevent trouble from vermin?
ANSWER: If there are no insects in the couch, I should not do anything about it. Should they appear, you can send the couch out for fumigation, or can get in an exterminator to treat the upholstery with a liquid forced in under air pressure. But if you feel very uneasy on the red rover question, you might take mental comfort from laying several squares of camphor under the mattress, if you can manage to do so. This is said to be a grand rove-repellent.

Broadloom Rug
QUESTION: After my broadloom rug was washed it does not stay flat on the floor. Can you recommend something to size it with so that it will have the body it had before washing?
ANSWER: Sizing the back of the rug may correct this condition. Stretch the rug upside down on a floor where it can remain for 24 hours; tack it lightly into place. Brush on a thin coat of white shellac. Glue sizing can be used instead of shellac. (Protect the floor before you begin to work.)

Anti-Tarnish
QUESTION: I keep my best silver in flannel bags, and use it about every third week, during which time it tarnishes just enough to require cleaning. This detracts from the pleasure of using it. You have spoken of preventing tarnish by wrapping silver in cloth soaked in a solution of one-half pound of cadmium acetate in one gallon of water. Would it be practical to make a wood box and glue this cloth to the sides, top and bottom?
ANSWER: That would help, but you would get best results with cloth in close contact with the silver. In addition to lining the box, soak separate pieces of cloth in the solution, to wrap around the different articles and to lay over them. For cloth, use heavy outing flannel, which will not be greatly stiffened.

Paint Odor
QUESTION: After my three-room apartment was painted last December, a nasty oil odor permeated the apartment, in spite of the constant airing. Another painter, at his suggestion, painted the walls with a coat of shellac, then a coat of flat paint, but this condition has not been eliminated. What can be done to remedy this condition?
ANSWER: Allow a couple of weeks for further drying and airing. It is possible that the odor is in the enamel or paint used on the windows and trim. If this is so, try wiping the enamel with turpentine. Should this condition continue, your only remedy will be to remove the paint and refinish with a good quality paint.

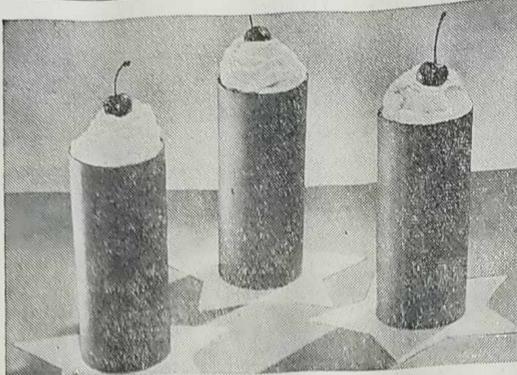

Rafts
QUESTION: Are rafts all specially made? If so, I intend purchasing some old drums and having a local carpenter do his best. Is there any place I can get plans?
ANSWER: Rafts can be purchased already made: Beach and Pool Magazine at 425 Fourth avenue, New York City, can furnish you with the names of the manufacturers. This publisher may be able to advise you as to where you may be able to secure plans for a raft.

Aluminum Paint
QUESTION: Do you approve of an aluminum coating for flat roofs? Has it any insulating properties?
ANSWER: Yes, aluminum paint will help reflect some of the heat. Its efficiency, however, may be lowered when the surface has been covered with dirt and soot.

A 'SAFE AND SANE' PARTY

(See Recipes Below)

Why not plan a party for the Fourth of July, to keep the youngsters in the family happy and out of mischief? It might be a party on the porch or in the yard—or a picnic in the country, if you prefer it. Make it a family affair, or invite a youthful guest or two to keep your own children company.

Whatever type of party you plan, make it a festive affair—with gay table decorations (if refreshments are being served at home), very special "Party foods" and patriotic party favors, too. Gaily colored paper table cloths and napkins are a must, and they do save work! And be sure to provide balloons and snap crackers, or noisemakers of another kind.

Plan definite entertainment, with an active game or two to permit the children to use up excess energy, and a "pencil and paper" or guessing game to play when a little rest is in order. Pencil and paper games such as these two might be used—and you'll find that adults as well as young people enjoy them.

Jumbled Names
Prepare for each player a typed or mimeographed copy of the following list of scrambled letters each of which, when unscrambled, spells the name of a famous American. To get an idea of what the game is like, why not try your own luck with the list before looking at the answers?

Menu for July Fourth Party.
Tomato Aspic Salad
Assorted Sandwiches
Potato Chips
Ice Cream Fire Crackers
Pinwheel Cookies
Beverage

Parfait glasses full of Peppermint Stick ice cream, camouflaged in red paper cylinders to look like giant firecrackers, are amusing for a Fourth of July dessert. Top the ice cream with a cherry, with the stem left on to form the firecracker wick. And serve Pinwheel Cookies to complete the "fireworks" dessert.

Chocolate Pinwheels.
1/2 cup shortening
1/2 cup granulated sugar
1 egg
2 cups cake flour
1 teaspoon baking powder
1/4 teaspoon salt
3 tablespoons milk
1 teaspoon vanilla extract
1 ounce chocolate (melted)
1 teaspoon cinnamon

Cream shortening thoroughly and add sugar slowly. Add egg and beat well. Mix and sift all dry ingredients and add, together with the milk and the vanilla. Divide dough into 2 parts. To one part add the melted chocolate. To the other add the cinnamon. Roll each part one-eighth inch thick. Place the cho-

colated portion on a buttered surface and roll up like a jelly roll. Wrap in wax paper and chill for several hours. Cut in thin slices and bake on a lightly greased cookie sheet in a moderate oven (350 degrees) for 8 to 10 minutes.

Tomato Aspic.
4 cups canned tomatoes
1/4 teaspoon salt
Dash of pepper
1 bay leaf
1/2 cup celery (chopped)
1 tablespoon onion (chopped)
4 whole cloves
2 tablespoons gelatin
1/2 cup water
1/4 teaspoon Worcestershire sauce

Combine the tomatoes, salt, pepper, bay leaf, celery, onion and cloves. Cook gently for 10 minutes and strain. Soak gelatin in cold water and add to the hot tomato mixture, together with Worcestershire sauce, stirring well. Pour into ring mold and chill until set. Unmold on large plate, garnish with lettuce or watercress and fill center with cabbage salad.

Magic Peppermint Stick Ice Cream.
1 1/2 cups (1 can) sweetened condensed milk
2 cups thin cream or evaporated milk
1 cup cold water
3/4 cup crushed peppermint stick candy

Blend sweetened condensed milk, thin cream, and water. Freeze in 2-quart freezer using a mixture of 3 parts ice to 1 part rock salt. Remove dasher. Add crushed peppermint stick candy. Pack in ice and salt for 1 hour or more after freezing. Makes 1 1/2 quarts.

Special Peanut Butter Sandwich Filling.
(Makes 1 cup filling)
1 ripe banana
1 cup peanut butter
3/4 cup dates, cut fine
1 teaspoon lemon juice

Mash banana with a fork and thoroughly blend in remaining ingredients.

Ice Cream Cone Clowns.
Place a ball of ice cream on a butter cookie, and with raisins or tiny gumdrops make eyes, nose and mouth in the ice cream. Place a cone jauntily on top of the ice cream. Add a ruff of whipped cream around the clown's neck.

Brown Bread Sandwiches.
1 loaf brown bread
1 3-ounce package cream cheese
2 tablespoons butter
Slice brown bread very thin. Mix cream cheese and butter together thoroughly. Spread brown bread slices generously with the cheese mixture.

Women Must Keep Their Homes Cheerful

By ELIZABETH MACRAE BOYKIN

Of what importance can talk of interior decorating and such like be in the troubled world of today? That is a question more important to the women of the world right now than it may appear on the surface. The answer isn't simple. It depends on how much we really care about the things we talk about so glibly in general terms. A woman's task in a crisis is rarely so spectacular as a man's; hers is not the bold and dramatic gesture. She must traditionally wait but not necessarily sit and weep. Upon her devolves the also important responsibility of keeping the home fires burning, of cheering tired spirits. The cynics will smile indulgently at phrases like that, but we make no apologies for them. There has been, during the last two or three decades, too much brushing aside of these phases of woman's work in the world. For the world needs far more women who can do women's work with fortitude and good cheer than wom-

en who can dabble in business. Interior decorating is only important as it reflects the art in woman's basic job of homemaking. Then it becomes a symbol of the civilized standard of living we all want to maintain in the world, and as such it becomes perhaps even more important in times of stress than in times of tranquility. Perhaps it isn't as adventurous as a man's assignment but in its quiet way it has great lure. And, whatever the state of the world, it becomes an absorbing interest as well as provides a pleasant pattern of everyday living. If a woman can do that job well, she is carrying on, doing her bit . . . more well than that clever words don't quite express. (Consolidated Features—WNU Service.)

For Fish Sauce
Add a few chopped ripe or green olives to plain or lemon sauce served with fish.

PATTERN DEPARTMENT

style-right materials for the design. You'll find it easy to follow the chart. Barbara Bell Pattern No. 1949-B is designed for sizes 11, 13, 15, 17 and 19. How One Woman Lost 20 Pounds of FAT

Lost Her Prominent Hips
 Lost Her Double Chin
 Lost Her Sluggishness
 Gained a More Shapely Figure
 and the Increase in Physical Vigor
 and Vivaciousness Which So Often
 Comes With Excess Fat Reduction.
 Thousands of women are getting
 fat and losing their appeal just be-
 cause they do not know what to do.
 Why not be smart — do what
 thousands of women have done to
 get off pounds of unwanted fat?
 Take a half teaspoonful of Kruschen
 in a glass of hot water first thing
 every morning to gently activate
 liver, bowels and kidneys — cut down
 your caloric intake — eat wisely and
 satisfactorily — there need never be a
 hungry moment!
 Keep this plan up for 30 days.
 Then weigh yourself and see if you
 haven't lost pounds of ugly fat.
 Just see if this doesn't prove to be
 the surprise of your life and make
 you feel like shouting the good news
 to other fat people. And best of all
 is a jar of Kruschen that will last you
 for 4 weeks costs but little. If not
 fully satisfied — money back.

Along with all other league games
 the one scheduled between Kewaskum
 and Cascade at the latter place Sun-
 day was also postponed due to the heavy
 rains of the week end. The first
 half of the split season ends on July
 4th and does not permit these games
 to be made up by that time due to the
 regular schedule so they will be put
 off until the end of the season.
 Kewaskum will resume action on the
 home field this Sunday, June 30, with
 Waldo furnishing the opposition. Wal-
 do has a good team that has won two
 and lost three close games. They are
 a game behind Kewaskum and will be
 out to gain a tie in the standings.
 On the other hand Kewaskum has ex-
 pectations of coming out the winner to
 lead Waldo by two games and rise in
 the standings. It will be Waldo's first
 meeting with Kewaskum. Come to the
 park and see a crack game for a quar-
 ter. Game starts at 2:15.
 The Kewaskum team has a busy
 week coming up. Next Thursday, the
 Fourth of July, they go to Boltonville
 to play the postponed game of May 26.
 This game will bring the first half of
 the season to a close and on the fol-
 lowing Sunday, July 7, the team will
 play again, the third game in eight
 days. This contest will be played at
 Sheboygan Falls and will open the se-
 cond half. Remember, its Boltonville
 on the Fourth for your entertainment.

Twenty-five Years Ago

(Saturday, June 26, 1915)
 Tires on the cars belonging to Ph.
 Guenther and Krueger Bros. of Camp-
 bellsport were deliberately cut with a
 knife while Mr. Krueger and two sons
 of Mr. Guenther, Arthur and William,
 attended a dance at Beechwood. Three
 tires on the Guenther car were punc-
 tured with a jackknife while one tire
 on the Krueger car was cut 18 inches.
 It was evidently spite work but nei-
 ther of the parties owning the autos or
 the Koch families, in whose hall the
 dance was given, have any known en-
 mies. The Koch brothers have insti-
 tuted an investigation to apprehend
 the miscreants.
 Everybody is awakened early in the
 morning by the beautiful songs that
 are chanted by our worthy cheesemak-
 er, Otto Pfingston.—New Prospect
 Correspondent.
 Miss Frieda Bilgo commenced work-
 ing in L. Rosenheim's store as sales-
 lady.
 Born to Mr. and Mrs. John Stelling
 a 16 pound baby boy. Daughters also
 arrived at the homes of Mr. and Mrs.
 Chas. Kjabuhn and Mr. and Mrs. John
 Rinzel at New Prospect.
 Mich. Johannes held a barn raising
 bee. Martin Bassel and sons did the
 carpenter work.
 While helping Fred Backhaus move,
 Otto Hamthun had the misfortune to
 dislocate his shoulder.
 Chas. Groeschel is the proud owner
 of a 50-horse automobile, purchased of
 George Klippenhan.
 Quite a number from here were to
 Milwaukee to hear the concert given
 by Sousa's band at the auditorium.
 Albert Backhaus suffered a severe
 stroke of paralysis. He is recovering
 nicely, however.

ODD WORK OF NATURE

Clifford Stautz brought an odd piece
 of work by Manmy Nature into this
 office on Thursday of this week. It is
 a small limb from one of the cherry
 trees on his property. Part of the bran-
 ches contain nearly ripe cherries while
 others are blossoming. This is really
 an oddity—part of the tree blossoming
 while fruit on the same branch is red
 and nearly ripe. The limb, which has
 wilted slightly since being cut, is on
 display in the Statesman window.
 Several countries have expanded ag-
 ricultural production since the World
 War and this means that it will be
 more difficult for us to recapture our
 former position as an exporter of farm
 products.

Felix-Reindel, Other Marriage Rites Held

(CONTINUED FROM PAGE ONE)
 Felix Reindel, son of Mrs. Eva
 Felda, in a ceremony read at 4 p. m.
 Saturday, June 15, in the Presbyterian
 church in that city, by the Rev.
 Charles T. Damp. The bridegroom is
 well known here, having played base-
 ball with the Kewaskum team in the
 Badger State league a few years ago,
 at which time he made many friends.
 Local fans recall "Pete" as a hard
 hitter and a fine fellow, who helped
 win many games.
 For the ceremony the bride was at-
 tended by Miss Phyllis Ryan as maid
 of honor and Miss Emma Felda, sister
 of the bridegroom, as bridesmaid. Alex
 Kaiser, Milwaukee, cousin of the
 groom, was the best man and Ray-
 mond Ziegler, Milwaukee, cousin of the
 bride, was the groomsman. Jacob Kai-
 ser and Clement Ziegler, Milwaukee,
 Fremont Brettenross, Fond du Lac,
 and Henry Gillig, Chicago, served as
 ushers.
 A reception was held at the home
 of the bride's parents where a buffet
 supper was served to 100 guests. Mr.
 and Mrs. Felda left on a wedding trip
 in the north and midwestern states
 and will be at home after July 15 at
 32 Sixth street, Fond du Lac.

REMMEL-PETERS

In a nuptial ceremony read on Mon-
 day, June 24, at Wausau, Miss Marie
 Peters, daughter of Mr. and Mrs. John
 Peters, and Leo Remmel, son of Mr.
 and Mrs. John Remmel, both of Wau-
 sau, were united in marriage. The
 Remmel family is well known in Ke-
 waskum and vicinity. The bridegroom's
 father is a former resident of this vil-
 lage and at one time was employed by
 the late Nicholas Remmel, his uncle.
 In his machine shop and foundry here,
 the groom's mother is a sister of Mrs.
 Edw. F. Miller, Mrs. John Volm and
 Mrs. Math. Volm of Kewaskum. The
 bride is also quite well known in Ke-
 waskum, having made frequent visits
 here with the groom.
 The couple was married in a double
 wedding ceremony, the bride's sister,
 Gertrude, and her bridegroom also be-
 ing joined in wedlock in the service.
 Mr. and Mrs. Remmel will reside in
 Wausau, where the bridegroom is em-
 ployed at a department store.

Severe 3-Day Rain Storms Here Accompanied by Small Tornado

(CONTINUED FROM PAGE ONE)
 was roofs on them were torn loose.
 Village workmen were busy the fore-
 part of this week cleaning away bran-
 ches and debris. Water stood a couple
 feet deep on the parking lot and
 back yard to the rear of Dreher's tav-
 ern after the storm when the sewer
 backed up.
CALL FIREMEN TWICE
 After the storm, at about 7 p. m. the
 local fire department was called to the
 Paul Landmann home where trees
 were aflame from a live wire laying in
 the branches. Another "hot" wire dan-
 gled on the ground and burned a hole
 in the earth, sizzling as it burned. Be-
 cause there was no electricity at the
 time the fire siren could not be sound-
 ed and the bell was rung. The firemen
 extinguished the blazing trees and in
 short order a service man from the
 Wisconsin Gas & Electric Co. clipped
 the wire, ending the danger. The ser-
 vice man, whose name we were unable
 to learn, had a narrow escape from el-
 ectrocution. As he was clipping the
 live wire it swung toward him in the
 wind and only by scurrying to the oth-
 er side of the pole, did he escape being
 brushed by it.
 Again at about 11:30 p. m. some of
 the firemen who were still working on
 the streets, repairing damage done to
 telephone wires from the telephone of-
 fice to the village hall, so that in case
 of fire the siren could be sounded, an-
 swered an alarm. They were called by
 Edwin Backus to the "pumping" house
 on Main street on the west bank of the
 river where the motor started to burn
 because of the huge amount of water
 the motor had to pump as a result of
 the rain and because the voltage was
 not enough to take it all. Smoke poured
 out of the shanty and the burning of
 the motor could be smelled some dis-
 tance away. Firemen disconnected the
 wires and no further damage was done.
FARMERS SUFFER LOSS
 Following the three-day rain the
 Milwaukee river here and many creeks
 ran over their banks. Lowlands in the
 vicinity resembled miniature lakes.
 Traffic was suspended on some roads
 for a time, which were covered with
 water. County Agent Skalsky report-
 ed that thousands of dollars damage
 resulted to crops and cropland in the
 county, especially low cropland, which
 was flooded. The rains washed rich
 good soil from hillsides. Stands of hay
 were flattened and much cut hay is
 still under water. Much planted corn
 has also been drowned out and will
 have to be replanted. Much barley has
 been damaged and peas are in danger
 of root rot.

Badger Firemen's Tournament, Picnic, Postponed to July 14

 a real feature. They'll entertain and
 make you laugh until your sides are
 sore. The picnic will continue into the
 evening when a dance will be held in
 the opera house and \$500 in merchan-
 dise prizes will be awarded. The Wis-
 consin Aces will play for the dance.
 The firemen are real sports. Although
 rain spoiled their picnics last year and
 their first attempt this summer, caus-
 ing them big losses, they're going to
 try again because they are set on en-
 tertaining you. Remember this and re-
 serve no other date for July 14 but
 come to Kewaskum for a grand time.
 Think of it—free admission to the park
 and free parking—and \$500 in prizes.

People Escape Injury in Head-on Collision

Four young people escaped injury
 when a bakery truck owned by M. A.
 Croyle of the Campbellsport bakery,
 and a car owned by Miss Helen Reilly
 of Campbellsport, Route 1, were badly
 damaged at 6:15 p. m. last Thursday
 when they crashed head-on on a nar-
 row town road at Ashford. Mr. Croyle's
 bakery route operates through this
 village.
 The bakery truck was driven by
 Mike Brath, Campbellsport. It met the
 Reilly car, driven by the owner's bro-
 ther, John, at a curve where the view
 is obstructed, according to Traffic Of-
 ficer Leo Phaberty of Fond du Lac
 county. Neither of the drivers saw the
 other car until just before the crash
 and because of the narrowness of the
 road, they were unable to turn out, ac-
 cording to reports.
 The front ends of both vehicles were
 badly smashed in. Luckily the Reillys,
 Brath and Eugene Novack, a passen-
 ger in the truck, escaped injury. The
 collision occurred about a half-mile
 north of the Johnson cheese factory,
 Ashford.

WILSON'S ROUND LAKE RESORT

Streamlining has come to the har-
 vest field! This is the story told by Ar-
 thur and Erwin Koch, who just recent-
 ly saw the latest addition to Interna-
 tional Harvester's combine line—the 4-
 ft. cut No. 42 harvester-thresher. A. G.
 Koch, Inc. is local dealer for the Inter-
 national Harvester company.
 In discussing this new development,
 Kochs said, "The introduction of the
 new four-foot combine, latest addition
 to the McCormick-Deering line of e-
 quipment for small farms, will bring
 the same speed and economy to the
 small grower that heretofore has been
 enjoyed by the large grain farmers.
 "With this small, efficient machine,
 one man can harvest and thresh grain,
 beans, peas, or any threshable crop, in
 one operation without extra help."
 puts him on the same economic level
 as the man who crops a half section
 more because it places his cost right
 line with the large producer.
 "There is more to the story than
 that. The new, small combine not only
 saves time, twine, labor and equip-
 ment expenses for the owner, but it
 actually saves grain under post crop-
 ping. The elimination of extra bind-
 ing that comes through block-
 ing separately insures maximum har-
 vesting efficiency."
 Kochs predict that within five years
 small combines will become common
 place and will replace binders on many
 farms in this vicinity.

Chevrolet Builds Its 900,000th 1940 Car

Here is the 900,000th car of Chevrolet's 1940 model
 production, as it left the assembly line at Flint, Mich.,
 June 12, less than one month after No. 800,000 was
 completed. Beside the car are M. E. Coyle, general
 manager of the Chevrolet Motor Division (left), C. E.
 Arnold, assistant manufacturing manager (right), and
 were present in the plant when the car was produced.
 "Chevrolet has built 300,000 cars in less than three
 months," Mr. Coyle pointed out. "The 600,000th of
 these models was built on March 21, the 700,000th on
 April 16, the 800,000th on May 13, and the 900,000th
 on June 12. This production rate closely parallels the
 consistently heavy sales volume since the introduction
 of the 1940 models last October, sales during March,
 April and May alone totaling 307,345."
