Richard M. A. Gadow, Pastor

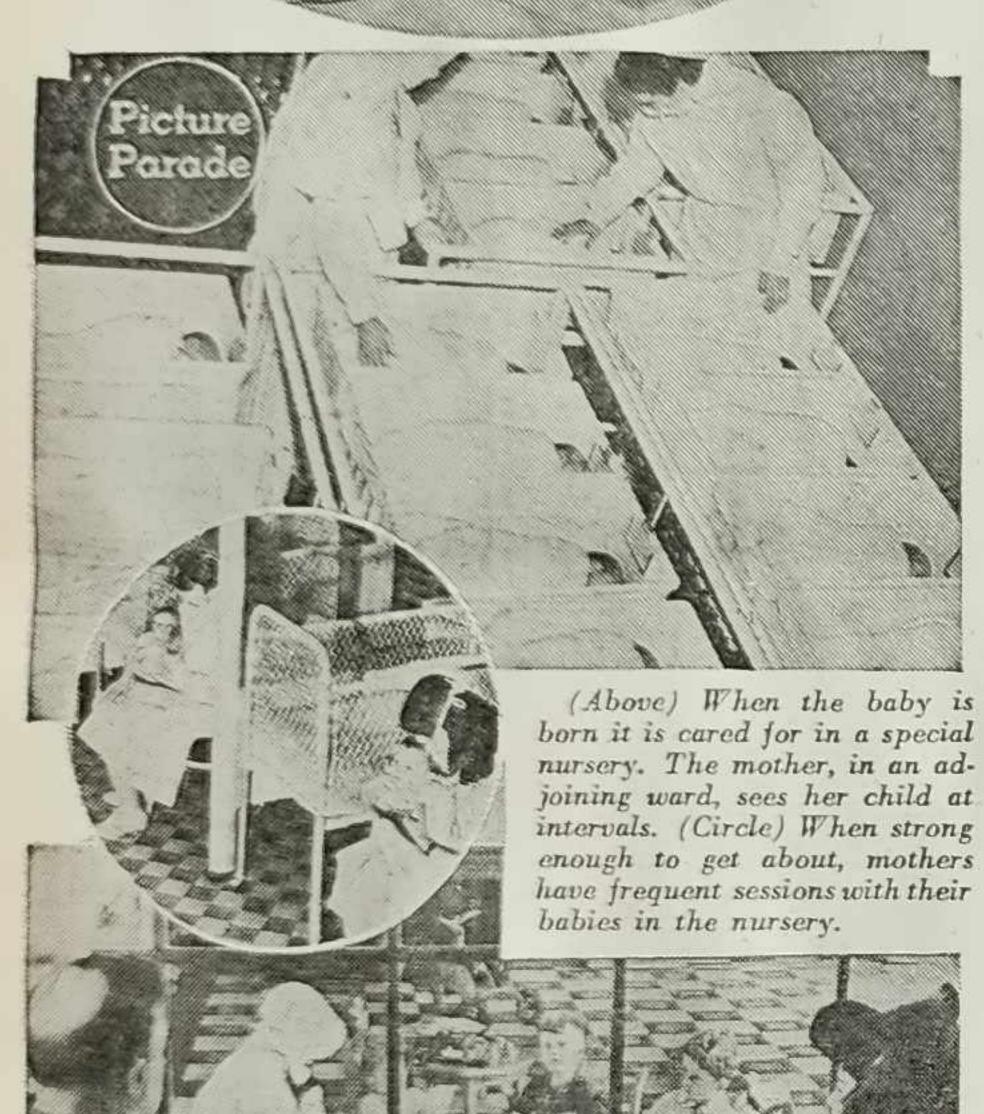

It is a sad commentary upon our social system that there should be such a thing as an "unwanted baby." But there is, and it is not always the unwed mother who discards her babe. Occasionally it is the legal father and mother who lays the helpless infant at some strange doorstep, presumably hoping that it will fall into friendly hands. These

AILING HOUSE

by Roger B. Whitman

Wasps.

MESTION: I have a wasp nest in one corner of my attic about 18 inches in diameter, How can I

get rid of it? Answer: On a cool day when the wasps are inert, spray the nest thoroughly with any insect liquid or kerosene. The nest can then be wrapped in heavy paper or, if possible, enclosed in a paper bag, broken away from its support, and burned.

Question: In spring and fall there are wasps in our attic and in one upstairs bedroom, which they seem to enter through the window pulley openings. How can they be eliminated?

Answer: The pulley openings can be covered by strips of cloth of a width to fit the bottom of the groove. and held by a thumb-tack above the pulley. In the attic, locate the pests | preparation as possible in the cooland spray them heavily with insect | er hours of the liquid. If the nests are within the | morning. Rememwalls you can locate them by ob- ber, when you serving the cracks through which plan the meal, the wasps crawl in and out.

Weed Killers. Question: What is a solution to be sprayed on the ground to kill weeds and to prevent the growth of poison ivy? Is this the right time of year to use such a solution?

Answer: A strong solution of rock salt in water is effective; or you can get ready-made weed killer at a seed store. Any such solution will kill all vegetation that it falls on, however, until in time rain carries it deep into the earth. This would be a good time of year to use it. for spring growth is already beginning.

Cold Bedroom Floor.

Question: The area under the bedrooms is unexcavated. We find the floors in these rooms are cold. The house is just completed. Is it the newness of the house, and will the dampness pass? If this coldness will continue, what type of insulation do you suggest?

Answer: Floors without basements under them will most likely continue to be cold. The newness of the house may aggravate the condition because of the dampness given off by the plaster. Insulation will help considerably. There is a form of blanket insulation made of shredded joists, which might be quite suitable for your purpose.

Old Kitchen Clock.

Question: I would like to clean the works of an old porcelain kitchen clock. I was told to soak the works in kerosene, then add a few drops of light machine oil. How would you clean the clock?

Answer: If the clock is valuable, the cleaning and oiling should be done by a professional. Soaking in gasoline may be preferable to kerosene. The gasoline will cut the old oil and grease faster. In oiling place just a drop of light oil on each pivot.

Coal and Oil. Question: For house heating how

many gallons of oil are equivalent to a ton of coal?

ly on the efficiency with which both oil and coal are burned. I have salad. had comparisons running all the way from 150 to 200 gallons of oil to the ton of coal; 175 gallons is, I believe, a fair average.

Decorating a Room.

Question: A large room in my house is not heated, and the temperature in it frequently goes below freezing. In redecorating the room would you advise painting or papering?

Answer: I should paint it, for in such extreme changes in temperature and with inevitable dampness, the papering is likely to loosen.

Insulating a Floor.

Question: I intend to insulate the under part of a floor, which is three feet above the ground. I expect to use rock wool batts, which have waterproof backs. Would it be better to put building paper over the batts; or do you recommend a rigid

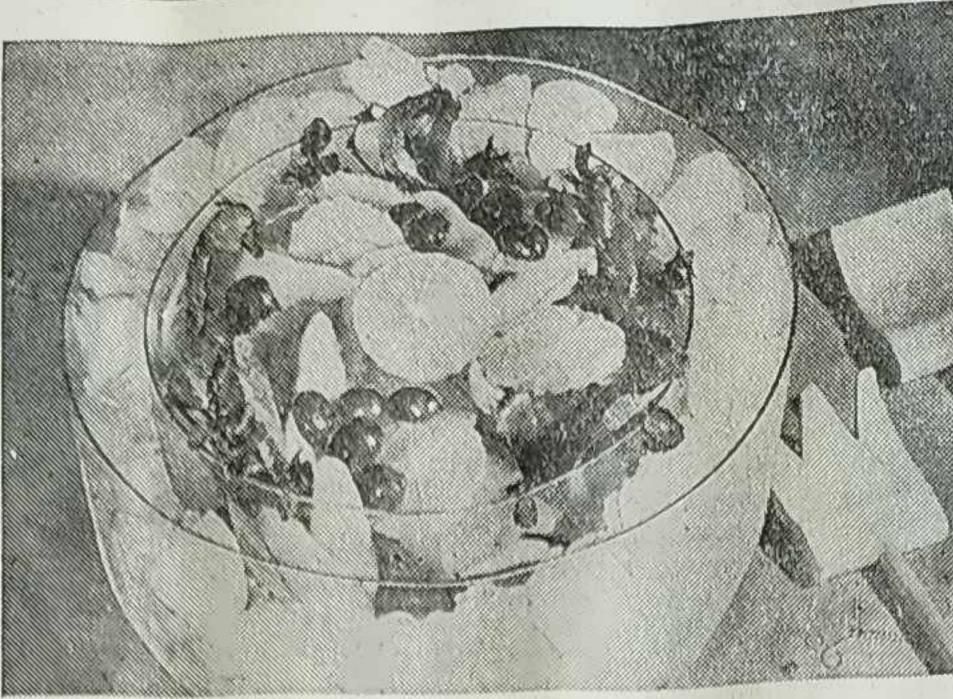

Answer: Waterproof asphalt paper may be more practical for your purpose. It will be easier to handle. Where the laps of the paper occur, nail strips of wood over joists to close up any bulge or openings between sheets.

Cancer Is Curable If Treated in Time

AST year a band of determined women-The Women's Field Army-organized a campaign to tell (a) that cancer is a fatal ailment untreated, and (b) that "cancer is curable" if treated in time.

So successful was last year's campaign that many cases of women have been reported who discovered they had cancer after receiving the army's message, or, quite as important, who in finding they did not have cancer were freed from

months and possibly years of worry. That the determined effort of this army of women to save lives made a deep impression on thinking men and women is proved by the enactment of the National Cancer Institute Bill of Congress, the founding of the Chicago Tumor institute and the establishment of the Child's foundation at Yale.

"If you don't open up and talk to me," said Gandy, "I'm going to crack your skull and see what's in it!" Then he grinned, dropping his arms, "Horsethief, for Lord's sake let's go at this thing fifty-fifty!

"I think you're the only man on I've listened to a lot of talk that tells

Horsethief Fisher stared, blinking But Gandy shook his head. He sun-squinted eyes. Then the round face wrinkled with good humor.

> It lasted but a moment. Sobering, he said, "You're right, Gandy Plenty of side-mouth talkin'. Nothin' straight out."

He wiped an open hand downward over his face as if to iron off the wrinkles; a slow movement, considering Walt Gandy during the proc-"I've been afigurin' on you," he admitted. "Maybe you're the man I been lookin' for. Hollister, well, something's happened to Bill lately. Cash he's kept away from gun-fightin' too long. And Miss Helen; shucks, I don't know, she's all balled up somehow."

Gandy propped himself against a post supporting double bunks and took papers and tobacco from the side pocket of his coat.

"Paul," he asked, turning to the boy whose ears were visibly sticking out, "rustle some wood and build us a fire, will you?" "Sure!"

As young Champion went out he | bow legs had carried him on a step took his belt and big forty-five from outside, when from somewhere on a nail next the door.

"Now then, Horsethief," said Gan- gun's sudden crash jarred the deep dy, "tell me who rode off when you silence. came back to the place tonight. know it's true, because somebody was at the house before I got there. Who was it?"

"Man," Fisher declared, "I don't know but I sure wish I did!" His squinted blue eyes shone with honest eagerness. "I do," he explained, "because I been figurin' myself that it was time to quit this game of guesswork and see just who had stacked the cards! I owe chair, and a cot; Cash Cameron's Cash Cameron a debt that I'd like to pay back by fightin' for the CC. Immediately on his right was a But where do a fellow begin? When

"Make a guess," Gandy urged. "About tonight, I mean. Who could the rest of us were away, and who might have been taking off across the bench when you came in?"

Horsethief shook his bald head. caught sight of someone on a smoky blue, thought he did anyway. But the only man that rides a smoky blue in these parts, couldn't have been on the C C. Leastwise he'd be a fool if he did come sneakin' around now.' "Who'd that be, Fisher?" Gandy

asked. "Jeff Stoddard." In the act of rolling a cigarette,

Horsethief Fisher nodded. "Only one I know of ridin' such an animal. But Stoddard ain't set foot on the place since Bent Lavic began takin' pot-shots at him two year ago. Leastwise, I always figured it was Lavic. And now with Cameron and "Someone leave here just now? Paul Stoddard on the peck over winter way sensible that Jeff should show his!" up here."

He looked along the bunk at Fishkitchen from the living-room, Walt er, who had backed against the edge Lavic shooting at Stoddard for?" "Judas, I don't know! Except that

Without pause nor change in his the old fellow is nuts. Hasn't Hol-"Some. Lavic aimed to be king cowman here, and isn't, and seems to hold it against Cameron. That

"Hates Cameron," said Fisher flatly. "Hates Hollister, too. I've seen it the last couple of months. Man, I wouldn't trust that old rooster the other side of a fence, lest I could watch him!

"But then, there's Helen. Bet he burns candles to that girl like a felwhen Jeff Stoddard took it into his noodle to come courtin' a couple of year ago, I figure it was Lavic who used to singe his ears with a rifle tling as a shot. Someone was crawling through the fence.

Silent for a moment, Walt Gandy rolled the paper ball in tightening fingers. Then he looked down and met Fisher's gaze.

"Helen in love with Stoddard, was

The Questions

1. What is the Alhambra? 2. How does the ostrich defend

3. According to the Homeric legend, who devised the wooden horse stratagem that brought about the capture of Troy? 4. Why are golf balls dimpled

instead of smooth? 5. What was the first ship to carry the American flag around

the world? 6. What is meant by "O tem-

pora! O mores!"? 7. How many different types of

crosses are used in Christian architecture, art and ceremonies? 8. Is a kangaroo born helpless? 9. England had eight kings by the name of Henry. How many did France have?

10. Do thunderstorms sour milk?

The Answers

1. A Spanish palace (the fortress of Moorish kings at Granada). 2. By its powerful kicks. 3. Odysseus.

4. A dimpled ball flies farther and straighter than a smooth one, having a greater "hold" on the air while traveling through it. 5. The Columbia, commanded

by Capt. Robert Gray (1787). 6. Oh the times! Oh the manners! Alas for the times! Alas for the manners! Words spoken by Cicero.

7. Approximately 50. 8. Yes, it is born blind, is only an inch long, weighing but a frac-Fisher hunched out of the dark.

"Come on! You heard where that tion of an ounce. 9. France has had four kings by the name of Henry. 10. No. Hot sultry weather, which

usually precedes storms, aids in producing the souring.

Valueless Minerals

from minerals which a few years cloudy appearance. ago where considered almost valueless. In a large gold mine in Colorado a bright blue copper ore accumulated for years. It was too low-grade to be marketed. Then a chemist discovered that it could be made into pigment, and now is worth almost as much to the owner as the gold.

In another mine in California jets of steam, heavily impregnated with sulphur, issued from fissures in the rock. One day some copper plates were accidentally hung near them, and soon they were covered with beads of mercury. Today the sulphur-steam makes good money for the owners. I two of life's greatest blessings.

RADIO INTERVIEW

A radio interview on the problem of soil erosion in Washington county was presented on WHBL Wednesday even-County Agricultural Conservation association. Those participating were: Guido Schroeder, Raymond Lepien, Henry Gettleman, E. E. Skaliskey.

FREE SOIL TESTING SERVICE

The summer time is the best time for the planning of next year's crops. To plan wisely farmers need to know the fertility of the various fields. This information can readily be obtained by having the soil tested. All the farmer needs is to bring the samples to the court house basement in West Bend where a fulltime soil testing laboratory is maintained. Farmers may bring in as many samples of soil as they wish. We suggest a sample for every two or three acres. All soil tests are made free. Those wishing tests made need merely collect and bring in the soil

F. D.'s Personality Dominates 1940 Democratic Convention; No U. S. Troops for Europe

(EDITOR'S NOTE-When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) Released by Western Newspaper Union.

Right up to convention time, Franklin D. Roosevelt kept the country guessing on third term plans. The Democratic National Convention, meeting in Chicago, however, felt at all times the weight of the President's | the chamber, were to take the place personality. The sketch herewith is by the famous artist, Helge Sahlin.

II GERMAN WAR: Ships & Planes

Germany and England continued young, and not equal on the whole | cracked to the crowd like this: to the veteran regulars who made up a considerable portion of the

royal air force: the R. A. F.

fleets continued to skirmish, off | The folks thought that was just fine. North Africa, off West Africa, off Greece. Some of the French ships were surrendered to the British navy, others were sunk or disabled. Demobilized French flyers were joining up again, this time to help the Italian airmen bomb British Gibraltar. There were naval clashes between the Italian and British seamen, who already had eliminated seven of the eight French capital warships. The 43,000-ton "Ile de France"-that French luxury liner so well known in America-was seized by the British at Singapore, England's No. 1 naval base in the Far East, in the Malay peninsula. The best French warship-35,000 tons-was knocked out by a British motorboat, which artfully dropped a depth bomb near the stern. The victim was the famous Richelieu.

NO U. S. TROOPS: But Billions for Defense

Meanwhile, President Roosevelt emphatically told congress we would send no man to European wars, but would only seek to defend the western hemisphere. Towards this end he asked for billions of dollars. This presidential statement to congress tended to match the "peace" plank in the Republican campaign platform, and might have removed one of the major issues from the 1940 race.

NAMES

... in the news

Gen. Juan Almazan, Mexican presidential candidate, praised the "success" of the Mexican election, and lauded its small loss of life. There were only 50 killed.

John Dewey, philosopher and educationalist, returned to teach at Columbia university for the first time in 10 years. He is 80 years old, but addressed 1,000 students with all his old steam.

Col. Brehon Somervell, WPA administrator in New York, ripped out four airport murals at Floyd Bennett field in Brooklyn. It had taken four years to paint the four. Obviously, said the rippers, they were red communist propaganda, and so indeed they appeared to be. A pioneer parachute jumper looked sus- | the air, while effective anti-aircraft | piciously like Stalin, although the fire is only good for 30,000 feet. jumper really was Franz Reichelt, These flying fortresses are good for an Austrian tailor. (He had been 300 miles per hour in the really on gold at all, which would leave killed, jumping from the French Eif- high altitudes, and it takes 40,000 fel tower, back in 1912.) En route, the Willkie airplane her pilots were sometimes too stopped in Nebraska. Willkie wise- RACIAL: "When I was out here three or four weeks ago, they said I brought rain. If you folks vote for me in Novem-In the Mediterranean sea, the ber, we'll have the rain and the English and French and Italian sunshine of economic progress."

> John Hamilton remained executive director of the Republican national committee, though he was retiring out that Wendell Willkie was of Geras national chairman. Russell Davenport was Willkie's personal representative, and Oren Root kept busy co-ordinating volunteer groups | becoming the Republican candidate and independent organizations. Ten for President of the United States newspaper men, three photographers, and two telegraphists stuck to Willkie, and to the airplane: a 21- tator, was born in Austria, with only passenger DC-3.

At this point the Democrats had become more and more chaotic, due to lack of information about III term plans. Farley had been to Hyde Park, had learned the "truth," but came back to New York saying that it was all a secret. McNutt had indicated that he knew about it, too, but Mrs. Roosevelt had said she didn't know a thing. Speculation was rife up to the time the national Democratic convention opened. Willkie, of course, had been praying for German. for the III term (or so he said), in order to beat it down. But he still III REICH: had not said anything extended, at that point, about foreign affairs.

ARMY NOTE:

Knox, the old Rough | destructive campaign in world histionist' opponents.

WHAT A JOB: Re-employed

The luckless duke of Windsor, who used to be King Edward VIII, got another job, at last. They made him governor of the Bahama islands, 20 of them inhabited, off the southeast coast of Florida. It was a \$12,000 annual job, whose main function was to reign over ex-slaves and tourists from the United States. Capital of the Bahamas is Nassau, on New Providence island, where they have a nice beach, and a saloon of merit called "Dirty Dick's." Windsor used to have 500,000,000 people to reign over. Now he has 68,000, plus 6 officers and 124 policemen. Critics said the basic idea was to get him out of Europe, in case the Germans took over England, Hitler, they thought, might oust brother George, and reinstate brother Edward, who is better liked all round. (On the other hand, Queen Elizabeth is much better liked than Duchess Warfield.)

M. PETAIN:

sent trades, jobs, and occupations, tax. as in the corporative state of Mussolini. Both senate and chamber were to be largely advisory, and trade unions were to be abolished, on the Italic plan.

The professional trade groups, in of unions, and of political parties as well. The slogan of liberty-equalityfraternity (dating from 1789) was to be supplanted by another trio: labor-family-nation. This, again, was based on the fascist system of Rome. One wit put it like this: "When in Paris, do as the Romans

Interesting

One of our foreign commentators raised an interesting point. It was this. He said that although Germans are currently unpopular, for excellent reasons, the American system was still functioning splendidly. To prove his statement, he pointed manic family origin. But this did not stop Mr. Willkie, able and magnetic and thoroughly likeable, from at a hectic time.

Hitler himself, said the commenone Germanic parent, and one Czech parent (his mother). But Willkie was born in America, he continued, with two Germanic parents. He concluded that Willkie was a better type of the Germanic stock than the rampant Fuehrer. It was interesting to note, in addition, that our General Pershing's family name was Pfoersching, in the "correct" spelling.

Also, the Roosevelts have a Dutch origin which sometimes is mistaken

Complexities

The Hitlerian domain was sorted out into the following, to make its sway less confusing, for it covered a lot of ground in several main cate-

Additional Taxation Has Been Needed

Now, I believe anyone who has new taxes, where will our governever read my columns will agree | ment find itself? that I have urged additional taxation, constantly. On that point I never have wavered. It might be supposed then that I would go off of the deep end for the new taxes. That, however, is not the case. find myself willing to support only half of the program, for reasons that will be apparent as the situation is analyzed.

The first tax increase was proper. It was needed. The second proposal, that which congress is yet to consider, is not proper, but the revenue is badly needed. The difference is that the first program will yield revenue that, generally speaking, will be received by the treasury in its entirety. The second program will yield vast sums and only part of the tax paid by the consumers will reach the treasury.

It is a strong statement to make when one says that the treasury will get only part of the amount paid by have been preaching against waste the taxpayers. It is true, however, because in a levy like the excess | because I have criticized the adprofits tax, every dealer, great or ministration for piling up such a amount of the tax. We saw it when | 000. The first tax program offered by no thought of the future. The pres-Mr. Roosevelt was bad enough in that direction. On its good side, however, it can be said that it levied direct taxes on incomes, a method by which the tax, all of it, goes into the treasury. That tax bill also built privies and raked leaves and extended the income tax to something like 2,500,000 additional taxpayers, by reducing the personal exemption allowed. That is to say, after July 1, of this year, a married person with an income of \$2,000 a year will pay income tax above that sum and a single person receiving \$800 also will pay income tax for the first time. Previously, the exemption was \$2,500 for a married person and \$1,000 for a single person.

Ten Per Cent Supertax Added to Regular Levy

DEFENSE TAX

William Bruckart, Washington correspondent, makes an interesting critical analysis of the new defense tax. He finds that it is basically unsound because the federal treasury receives only part of the money collected. According to Bruckart, the entire tax system of this country should be reorganized to eliminate the "contradictory levies" which are now in effect.

Ball Team Defeats Boltonville Again

KETTLE MORAINE STANDINGS (Second Half) Adell 2 Sheboygan Falls 1 Campbellsport 1 KEWASKUM 1 Greenbush 1 Cascade 1

Boltonville 0 Elkhart Lake GAMES LAST SUNDAY Kewnskum 7, Boltonville 6 Adell 6, Greenbush 2 Cascade 9, Elkhart Lake 7

Waldo 0

GAMES THIS SUNDAY Kewaskum at Campbellsport Waldo at Adell Greenbush at Cascade Elkhart Lake at Sheboygan Falls Boltonville bye,

A six run attack in the third inning apiece. paved the way to a 7 to 6 Kewaskum ST. KILIAN victory over Boltonville here Sunday. It was the Indians' second win of the season over the neighbors and gave the team an even break in the standings for this half. A fair sized crowd wit nessed the affair.

The team has been notified by League Secretary Irving Ninneman of Campbellsport that their protest of the Sheboygan Falls defeat the Sunday before has not been allowed. Kewaskum protested because the distance be. tween the mound and home and the base lines was too long, Ninneman claimed he went out to measure several other diamonds in the league (with J. Schloemer, cf out the other officials) and that al were slightly too large so that the protest could not be considered.

In Sunday's encounter Boltonville outhit the locals, 13 to 11, and 5 errors by the team made it all the more difficult for Honeck. But he was tough in the clutches, thereby avoiding sev. tral runs After spotting the Villes runs in the opening inning and then retaliating with 6 of their own Ke. waskum kept the lead tucked in the back pocket for the rest of the game Kudek and Bartelt had a heap to do with the victory, their big bats being responsible for 6 of the locals' hits. Each got 2 singles and a double out of 4 journeys to the plate. The boys treat. ed Keno roughly with 8 hits in the first 3 innings but he was withheld from the showers and finished the game in grand style, giving up only 3 hits and runs in the last 5 innings Both twirlers fanned 6 batters, Three singles by Kremer was tops in Bol tonville's attack

A single by "Windy" Weiss, followed by C. Brabender's home run blast gav Boltonville its first 2 runs. The pair of markers didn't get the visitors very far as Kewaskum batted around in their half of the 2nd and when the storm abated Keno found himself behind by 4 runs. The 6 tallies were scored on only 3 hits but it was a sad inning for the pitcher as he walked 3 men and committed an error with the hits. After Bartelt doubled, Uelmen walked, Marx was safe on Kremer's bobble and Theusch singled, Keno passed Kudek and erred on Prost's ball. Another walk to Dorn and Bartelt's 2nd hit of the inning, a single, made it 6 runs. their half which decided the battle. The the recent loss of our beloved sister, singled.

HISTORY -OF THE-KEWASKUM FIRE DEPT.

By John H. Martin Because the Badger Firemen's Association tournament was held in Kewaskum and as we feel our readers will be interested, we are publishing below the history of the Kewaskum fire department. This history was compiled by John H. Martin, secretary of the local department, for the Badger Firemen's annual, a 78-page booklet which is distributed to firemen of the association, booklet advertisers and others each year. The article follows:

The Kewaskum fire department was started about 1884. Nicholas Remmel was chief until 1898, Mr. Remmel and his brother Math, made the first pump, which was used until 1898. This pump which required about six or more men to operate, gave service at our villaeg fires (Today our department still keep; the pumper, which is held in high esteem, in the village garage. This pumper appeared in Sunday's parade); A that time the fire department consisted of sixty members. Thirty men com. prised the engine company and bucket brigade, and thirty the hook, ladde and hose company. They did some very effective work. One instance of this was shown when Mr. Jacobitz's black. smith shop burned. The shop was located opposite the H. J Lay Lumber Co. main office and in between build ings so close that one wondered that through the cooperation of nearly every businessman who was a member the other buildings were saved.

FIRST APPARATUS The first fire apparatus was housed in a frame building which was late razed to make room for our new v lage hall, which is more modern. Th building is used by our honorable vil lage board, the public library and our fire equipment.

was installed at the Kewaskum flour mill in 1904 and a connection at the L. Rosenheimer Malt & Grain Co. malt house as well, A hose cart and hook here. and ladder wagon were added to the fire department in 1905. A Watrus gasoline rotary pump, horse or man drawn, was then added in 1912 which gave good service. Some years later a Ford Model T fire truck was purchased.

MOTORIZED EQUIPMENT In the year 1930 the department asked the village board to purchase a motorized engine. They bought a Reo, 300 gallon centrifugal front mounted pump, second hand. We fire boys had lots of

fun and someone else's troubles.

In the year 1938, the department recommended to the village board to give us a real fire engine. They bought an International motor, equipped with a 500 gallon rotary pump, fully equipped, from Peter Pirsch Co. of Kenosha,

DEPT. HAS 32 MEMBERS

Our department consists of 32 mem bers, including chief and assistant chief. Our present chief is Harry Schaefer, a young but able bodied man who knows what's to be done when a situation presents itself. Our assistant is Arnold Martin (better known as "Sappy") who too is an able man in his position. This is his second year assistant chief. Clifford Stautz is our foreman, Norbert Dogs assistant foreman, Bernard Seil treasurer and John

Just lately a committee conferred with the town board of Kewaskum in regard to fires that are out of the village limits but within the town of Kewaskum. They decided to guarantee expenses of our fire department at

such fires in the future. We have been very fortunate in always putting out a fire with as little loss as possible. We consider ourselves proud of a record where never a single

man has been seriously injured. DEPARTMENT CHIEFS

. The following men were chiefs of

An ice cream social will be given by our fire department from its beginn-Nicholas Remmel, 1884 to 1898.

Nic. Mertes, from 1898 to 1915. Edw. C. Miller, 1915 to 1916. John F. Schaefer, 1916 to 1920. H. W. Ramthun, 1920 to 1922. Chas. Groeschel, 1922 to 1931. Harry Schaefer, 1931 to the present time.

IN MEMORIAM

In loving memory of our dear husband and father, John Gatzke, who less than \$500 per year. passed away one year ago, July 20,

Today brings sad memories of Our father who lies now at rest. Who so suddenly had to leave us And now dwells among the blest. Little could we realize When the call came quick, come

home. That we never again could hear you Talk to us when we came home. It was a shock, a pain severe, To part with you, we loved so dear, Oft we think of you dear husband

and father And our hearts are filled with pain, All this world would be a heaven, Could we have you home again. You have gone to God in heaven, You have answered to his call, Leaving me with my dear children, In this world to journey on. But some day we hope to meet thee, Then our hearts shall weep no more, When we see your loving face,

Lost Her Prominent Hip Lost Her Double Chip Lost Her Sluggishness Gained a More Shapely and the Increase in Physical

and Vivaciousness Which &

Comes With Excess Fat Red Thousands of women are getting fat and losing their appeal cause they do not know what Why not be smart - do thousands of women have get off pounds of unwanted Take a half teaspoonful of Krus in a glass of hot water first every morning to gently activ liver, bowels and kidneys cut down your caloric intake eat wisely satisfyingly—there need never hungry moment!

Keep this plan up for 30 days Then weigh yourself and see if haven't lost pounds of ugly Just see if this doesn't prove to the surprise of your life and mal you feel like shouting the good new to other fat people. And best a jar of Kruschen that will last for 4 weeks costs but little to joyfully satisfied money back

-Millionth 1940 Chevrolet to be Contest Award

- Some conception of the demand for the 1940 Chevrolet may be gained from the fact that the one-millionth model of this year's production left the assembly line at Flint, Mich., on July 12. In celebration of the public appreciation reflected by this tremendous production record, M. E. Coyle, general manager of Chevrolet, shown (left) above with W. E. Holler, general sales manager, announced that the one-millionth 1940 car, together with a trip to the New York World's Fair, would be awarded in a contest which is open now and will close Aug. 31. Details are obtainable at any of the company's dealers.
