Wedding of Rosamond Heim to A. Hartung

The fall nuptial rite read at St. Leo's church in Milwaukee last Saturday, by the Rev. Father Hager, Rosamond Heim, daughter of F. Heim of 1907 W. Chambers st., Kewaskum, became the bride of Adam Hartung, son of Mr. and Mrs. Stephen Hartung, 2473 N. 38th st., that city. The bride attended Holy Trinity school in Kewaskum and Mr. Heim formerly was proprietor of the Kewaskum Opera house. The Heim family has numerous relatives in this community. Her marriage the bride was attended in a gown of white satin with a full train and full length veil held with a headpiece of orange blossoms. She wore a sateen covered miasal and a bouquet of gardenias with satin ribbons. Autumn flowers adorned the altars of the church for the service. Attending the bride as maid of honor were Miss Ruth Kandler and the Misses Augustina and Dolores Keppler. The bridesmaids wore a gown of Spanish ruffled taffeta. All of the attendants wore matching headpieces and veils. The bride carried colonial bouquets. Her father acted as best man for the bride and groom and William Heim Jr. acted as usher. Ernest E. Heim, brother of the bride, served as ushers. The home of the bride was attractively decorated with autumn flowers on the wedding day. A reception was held at the Jefferson Hall, Milwaukee. Mr. and Mrs. Hartung left on a wedding trip to the South and will be at home after Oct. 1 on 16th st. Mr. Hartung holds a position as a sheet metal mechanic. Miss Viola Backus of Kewaskum and Fred Speer of Wayne attended the wedding reception of Mr. and Mrs. Hartung at Jefferson Hall.

Hunter Badly Wounded in Shooting Near Here

Frank Kucharek, 24, of 1210 Sherman avenue, South Milwaukee, was in serious condition earlier this week in a South Milwaukee hospital with injuries sustained when he was accidentally shot by his father-in-law, Frank Heim, 42, also of the Sherman avenue address, while the two were hunting pheasants near Lake Fifteen in the town of Auburn Sunday afternoon. The men were about 50 feet apart when Heim shot at pheasants, his gun sending 25 pellets into the back of Kucharek between his neck and his hips. Several pellets also pierced his lung. The injured man was given first aid and then removed to the South Milwaukee hospital, where he is reported to be in fair condition. Kucharek and Heim were members of a hunting party from Milwaukee. Conservation wardens report that shooting Saturday afternoon when the season opened was slightly lighter than on opening day a year ago, and that most regions reported fewer male birds than last year. Several arrests were made in the surrounding country.

KLESSIG HOME IS RENTED; WILL MOVE TO MILWAUKEE

Mr. and Mrs. John Klessig, residents of Kewaskum many years, have rented their home on Fond du Lac avenue to Mr. and Mrs. John T. Bryant, who will move here from West Bend about the middle of November. Mr. Bryant is the new department manager and buyer at the L. Rosenheimer store. The Bryants originally had planned to move into the Dressel home, which was damaged by fire last week. Mr. and Mrs. Klessig will move to Milwaukee in about three weeks, where they will make their home with their son-in-law and daughter, Mr. and Mrs. Arthur Wilhelm, at 4604 W. Leon terrace. An auction of household goods, furniture and other items will be held at the Klessig home on Nov. 9. Watch for advertising on the auction.

STRAUB-LEMKE

Word has been received from Albin G. Straub, Waussau, son of the late Mr. and Mrs. Caspar Straub of St. Joseph, of his marriage to Miss Dorothy Lemke, daughter of Mr. and Mrs. G. A. Lemke of Waussau. The marriage occurred at 7 a. m. on Monday, Oct. 21, at St. Mary's church, Dubuque, Wis., with the Rev. W. Zeyen officiating. Mr. and Mrs. Straub are residing at 10 Franklin street in Waussau, where Mr. Straub conducts a local insurance agency.

Miller's Will Add Large Addition to Furniture Store

Last week a crew of men were busy taking down the frame garage and warehouse building located on the west side of Miller's lot on Forest avenue. The structure formerly stood directly in the rear of Miller's Pond du Lac avenue store. Work has started on a new fireproof building, 45x55 feet. It will connect with Miller's present furniture store and will be used in part for the display of furniture, carpeting, linoleum and drapery. The remaining part will house a garage, working room and office. Miller's linoleum, carpet and bedding department has been very cramped for the past few years and to give the people of Kewaskum and vicinity better service and a larger selection in home furnishings, they decided to add this new space, which is needed so badly. In the future, as in the past, Miller's will always strive to serve you well with quality merchandise at reasonable prices. No doubt this new addition will give an improvement.

WOMEN TAKE DOWN HIGH TOWER ON VILLAGE HALL

Women recently tore down the high tower atop the village hall which had stood ever since the building was erected many years ago. People were accustomed to the tower as a familiar part of the building. The tower was 25 feet in height and four feet square. It was formerly used by the fire department for drying out their apparatus after being used. The hose was pulled to the top of the tower and hanging until dried out. With the tower removed, improved hose used by firemen, this painstaking procedure is no longer necessary and therefore the tower's purpose has become obsolete.

A card party, sponsored by the ladies of St. Mathias parish, will be held at the village hall, New Fane, Tuesday, Oct. 23, at 8 p. m. All games played and refreshments served. Door prize \$25. Everybody cordially invited. Below your friends.

Rainbow League Has Annual Banquet Here

The six teams of the Rainbow Baseball league held their annual banquet at the Republican hotel in this village Wednesday evening, Oct. 16. Between 85 and 90 players, officials and guests attended the big event. Two handsome trophies were presented to the 1940 champion Jung Beers of Random Lake, while the Barton and Kohler Creek teams received second and third place awards. The trophies were presented by Merlin Risse, president of the league. Speakers at the large gathering included the Rev. C. J. Schouten, pastor of St. Mary's church, Cascade; Ed. Corcoran of Madison; Joseph Kroeger of the Milwaukee Sentinel staff; Ralph Mehlos, secretary of the league; Elmer Heuser of the Barton team, and Bud Krizer, former Random Lake pitcher, who now is in pro baseball.

The press was represented by Stony McGlynn of the Milwaukee Sentinel sports staff; "Roundy" Coughlin, Madison, nationally known sports writer and columnist, known as the "Sage of Mendota;" Frank Barnar of the Sheboygan Press, and H. C. Scholler of the Random Lake Times, who also was toastmaster. Colorful, humorous "Roundy," whom the Wisconsin coeds call the "college kid" because of his loud wardrobe from underwear to campus sport suit, and who annually threatens to run for prom king at the U, as principal speaker, made a plea to fathers to encourage their sons to engage in athletics to gain stamina and courage. Every speaker encouraged the league and expressed the hope that other teams will join.

The seven teams comprising the 1940 league were from Barton, Batavia, Belgium, Cascade, Little Kohler, Silver Creek and Random Lake. A vote of thanks was extended to Mrs. Schultz, proprietress of the Republican house, for the splendid dinner and fine hospitality given the Rainbow boys and their guests.

Private Curtis Romaine, who is stationed with the United States army at Scott Field, Ill., spent a three day furlough over the week end at the home of his parents, Mr. and Mrs. Elwyn Romaine, here. Private Romaine enlisted in the army two months ago. He arrived home Friday and left Sunday. County Food Stamp Plan Begins Nov. 1

Washington county welfare officials and members of food industries this week began an intensive program of setting up machinery for the operation of the Food Stamp Plan. Arrangements will be made for a schedule which calls for the opening of the stamp program about Nov. 1. Approximately 400 cases representing 1,000 persons in Washington county are eligible to participate. Key persons in the local operation of the plan will be L. J. Snoeybosch, director of the Washington County Public Welfare department, members of his staff, and a committee chosen to represent the food trade of the county. The food industries committee has met for organization and the following sub-committees have been appointed: Washington County Food Industry Committee: Harvey Held, West Bend, chairman. Executive Ways and Means Committee: Karl Guse, West Bend, chairman; Orrin Zepf, Hartford; Arthur Koch, Kewaskum; Charles Klumb, West Bend. Stamp Redemption: Harry Hepp, Hartford, chairman; Otto Westenberg, West Bend; Peter Schuck, Slinger; Alfred Held, Jackson; Elmer Yoost, Kewaskum; Werner Stoffel, Allenton; A. P. Newburg, Neno; Oscar Rommel, Richfield; Frank Klist, Newburg; A. H. Otter, Barton. Advertising and Merchants' Cooperation: Henry Rosenheimer, Kewaskum, chairman; John Maas, Hartford; Henry Peters, West Bend. Publicity: John Marx, Kewaskum, chairman; Earl Skalsky, Kewaskum (county agricultural agent); L. J. Snoeybosch, West Bend (welfare director). Education and Compliance: Gerhart Eickvan, Allenton, chairman; Earl Gessert, West Bend; Orrin Endlich, Hartford; Henry Rosenheimer, Kewaskum; Melvin Gumm, Jackson; Tom Schuster, Barton.

The chief objective of the Food Stamp Plan, stressed Edwin J. DuTeau, program organizer from the regional office of the Surplus Marketing administration, who is here to help set up the plan, is to move farm surpluses which are accumulating throughout the United States, particularly in the great agricultural Northwest, which includes Wisconsin. The plan, he explained, is merely a means of moving these surpluses through regular trade channels into the hands of persons receiving public assistance who need more food and better balanced diets. Although the program will be under the general supervision and be policed by the Surplus Marketing administration of the U. S. Department of Agriculture, its operation will be in the hands of the local welfare department and food merchants of Washington county, program organizer DuTeau said. WHO CAN QUALIFY Persons receiving public assistance, whether it be direct relief from Washington county, or from various state and federal relief agencies, will be certified for participation in the plan. This certification work was started this week by the welfare department with the assistance of A. C. Doane, certification officer from the regional office of the Surplus Marketing administration. On a voluntary basis, persons who are certified will be permitted to purchase orange stamps in an amount that will enable them to buy the amount of food they now are receiving for themselves and members of their families. For each dollar's worth of orange stamps so purchased, they will be given 50 cents worth of blue stamps free. The federal government pays for these blue stamps with funds voted by congress to help move farm surpluses. Thus, Welfare Director Snoeybosch pointed out, under the Food Stamp Plan these needy persons will have their food purchasing power increased 50 per cent. The orange stamps may be used to buy any food usually sold in food stores for consumption off the premises, while the blue stamps must be used to purchase foods designated as surplus by the Secretary of Agriculture. WHAT FOODS MAY BE BOUGHT Surplus foods for the current period are: Butter, Raisins, Rice, Pork Lard, Pork, Corn Meal, Shell Eggs, Irish Potatoes, Wheat Flour & Whole, Wheat (Graham) Flour, Dry Milled Beans, Dried Prunes, Hominy Grits, Fresh Oranges, Fresh Beets, Fresh Carrots, Fresh Apples, Fresh Celery, Fresh Cabbage, Fresh Peas. Between now and the opening date, the Food Industries committee will carry on a comprehensive educational campaign to acquaint members of the food trade and public assistance clients with full details of the plan. MEETING TO EXPLAIN PLAN The advantages and plan of operation

Plan for Homecoming Creamery Co. Adds New Equipment, Redecorates

The Kewaskum Creamery company has just completed a reconditioning program whereby it has replaced much of its old equipment with new or reconditioned equipment and has completely redecorated the interior and exterior of the plant. In the line of equipment, it has installed two new surface coolers, a new butter churn, and two reconditioned coil pasteurizers. Also, it has had other surface coolers and pasteurizers refitted and has replaced its old piping with new, sanitary piping and fittings. The creamery is now pleased to announce that the Department of Public Health of the State of Illinois has issued a certificate of approval to the Kewaskum Creamery company and certifies that "the pasteurization plant is such that with proper maintenance and operation, the pasteurized milk and milk products will be safe for human consumption."

It is considered quite an accomplishment for a milk plant outside of the state of Illinois to obtain a certificate of approval from the state of Illinois, and it is only through the splendid efforts and work of the employees of the creamery that this result was obtained.

The harpist, Otto Baganz, originator and leader of the trio, is widely acclaimed a very talented and skilled harpist. He began playing the harp at the age of nine years and has acquired a brilliant technique. He is a pupil of Enrico Dramonti, recognized to have been one of the world's greatest harpists, and other great instructors. Mr. Baganz's harp was produced specially for exhibition at the Century of Progress in Chicago, where it stood in the Hall of Religion nearly two years, shown as "The finest harp ever built." The marimba is the finest and largest obtainable and the other instruments are also masterpieces. This ensemble has been pronounced an excellent combination by thousands.

Sheboygan Falls and Pewaukee Beat Highs

Having an open date the past week, Kewaskum High's football team played two practice or exhibition games with non-conference teams Friday they entertained Sheboygan Falls here and took their worst beating of the season, 51 to 0, from the Falls giants. Monday the team traveled to Pewaukee and was barely defeated, 20-12, as the opponents desperately stood off a powerful last quarter drive. Further details on the games appear below. In conference games last week Brandon crushed Lomira, 52-6, and North Fond du Lac thrashed Campbellsport, 57-12, to clinch a tie for the title. The two were tied with 3 wins and 0 losses and the victory dropped the Belles out of the picture. The score was expected to be much closer but the powerful Falls couldn't be stopped as their sensational fullback, Beaster, who leads the loop in scoring by a big margin, scored 7 touchdowns. Fondy has only to beat the last place Lomira team for the undisputed championship. This week Brandon plays at Oakfield and Kewaskum goes to Campbellsport Saturday to tackle their ancient rivals in the Belles' homecoming tilt. If Kewaskum wins, they stand a good chance for second. The Belles have a good team of veterans and should beat the locals according to the records. However, both sides have been pointing for the contest and anything can happen. The Belles' homecoming back broke his leg in the N. Fondy game and Kewaskum's quarterback, Bremser, is out with a smashed hand. Next week Friday Kewaskum plays its last game (homecoming) of the season.

Army Preparing for New Recruits; Tension in Balkan States Increases As Britain and Axis Exchange Blows; U. S. Community Chest Drives Open

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

THE WAR: New Scenes

The Balkans blossomed out as the new critical area in the European struggle. German troops who earlier entered the country to seize the rich oilfields were increased and took over more territory. Ten divisions of Nazi troops, 150,000 men, as well as numerous aircraft, arrived. Neutral sources said the actual goal was Greek and Turkish ports which control access to Asia Minor oil lines.

Turkey and Greece are allied to England as non-belligerents. Turkey also has an alliance with Russia and expected help from the Soviet if the situation came to a showdown. Russia, meanwhile, made a vast military zone of Bessarabia, which it seized early this year from Rumania. Many tacticians believe Russia was ready to oppose Germany in the Balkans, but others were less sanguine. They believe Russia already is outflanked in that theater.

A drive to Greece and Turkey also would give the Axis powers a base on which to move toward Suez from another angle, causing a pincer movement with the Italians moving east along the Egyptian coast.

Africa still was a gem for conquest. Gen. Charles de Gaulle, leader of the "Free France" forces, based himself at Duala, in the Cameroons, in tropical West Africa. His arrival coincided with a reception at Dakar for Gen. Maxime Weygand, representative of the Vichy forces. Neutral sailors escaping from Dakar reported the Senegal sector had been taken over by German authorities. Washington looked at the news apprehensively. Officials there believe the Germans soon may use that air base for commercial flights to South America.

Air War

Over England, France, Belgium, Netherlands and Germany furious air battles continued. The fight always was "the same as yesterday—but more violent." Each side daily stepped up bombings of enemy territory. The great St. Paul's cathedral in London was damaged. Many died each night under the debris of stores and apartments. The Germans used a new bomb, combination explosive and incendiary.

Berlin, like London, while able to deliver tremendous blows on its op-

day other British warships claimed to have sunk the third Italian ship. The British said they also had learned through neutral sources that two Nazi transports had been sunk by RAF planes in the French harbor of Lorient. Three thousand Germans were reported drowned.

Burma Road

Britain opened the road through Burma to Nationalistic China, closed three months earlier in an attempt to appease Japan. Japanese since then have invaded Indo-China and established bases within easy raiding distance of the road and its stations. The British and Chinese had landed thousands of American trucks in Burma to aid transportation of munitions to Gen. Chiang Kai-shek.

The situation yet may bring Japan and the British into open conflict and the resulting snarl easily can involve American interests. Indo-China and the outlying Dutch East Indies are the chief sources of America's supply of rubber and tin.

THE ARMY: Awaits Recruits

While men between the ages of 21 and 35 wandered which 700,000 of them would be first called into camp under the selective service act, the

Senator Rush Dew Holt of West Virginia, who voted against the draft, displays his selective service registration certificate indicating that despite his opposition he complied with the law. Although he is 35 years old, he is exempt from service as he is a member of Congress.

army was pushing with every degree of speed the preparations for their reception. There still were indications many would not be ordered to report to camps on the date originally set, November 15. Barracks, kitchens and sanitation facilities had not been completed in many camps and until these are in operating order, many summoned may be sent to southern stations where they will be able to live under canvas, to begin their toughening up process.

In three months time the average soldier is expected to be able to carry pack and equipment weighing 54 pounds and 8 ounces on a 20-mile hike. This consists of a rifle and bayonet, weighing 10 pounds, 8 ounces; helmet of 2 pounds, mess-kit, 1 pound; raincoat, 2 pounds, 4 ounces; half tent, 2 pounds, 8 ounces; blankets, 4 pounds; haversack, 2 pounds, 8 ounces; trench tools, 2 pounds; toilet articles, 1 pound, 5 ounces; canteen and cup, 3 pounds, 8 ounces; clothing, 10 pounds, 8 ounces; first-aid kit, 4 ounces; gas mask, 5 pounds; cartridges and belt, 6 pounds.

Dr. Clarence A. Dykstra, former city manager of Cincinnati, has been named head of the draft administration by President Roosevelt. His salary will be \$10,000 a year, which is half of what he received in Cincinnati, and \$5,000 less than he was getting as president of the University of Wisconsin. He has a leave of absence from the school.

President Roosevelt will pick the first numbers from the "goldfish bowl" indicating which men will be called first. He will be blindfolded by Col. Charles Morris of Elizabeth, N. J., the same man who blindfolded President Wilson for the same job in 1917.

LOOKING AHEAD: Coming Events

Movies—The motion picture industry is expected in the near future to announce another prize campaign somewhat like last year's "Movies Are Your Best Entertainment" drive.

Power—The Aluminum Corporation of America is erecting three new units to its Bonneville, Wash., plant and will increase production by 90,000,000 pounds per year. It is expected the 1942 production will be 700,000,000 pounds, compared to 325,000,000 in 1939. The defense commission said the corporation would buy 100,000 additional kilowatts of power from the Bonneville authority.

Expansion—The General Electric company will spend \$50,000,000 in the next 15 months to enlarge seven of its major plants.

Tourist—King Carol, exiled from Rumania and now living in Portugal, is restless there. He soon may come to America. Latin America may be chosen, probably Argentina. The former king, it was reported, has been angered by U. S. press reports in the past that painted him as a playboy ruler, and won't come here.

Stocks—Another move to extend the hours of the N. Y. Stock Exchange is expected after the election. Reports are that longer hours have worked out favorably on the Montreal and Chicago Exchanges.

Youngest Senator

Joseph H. Ball, Minnesota newspaper man just appointed to the Senate of United States to succeed the late Senator Ernest Lundeen of that state, will be the youngest member of that body when he takes his desk in Washington. He is 34 years old and delayed his trip to Washington so that he might register for the draft.

FUND RAISING: President Speaks

Community Chests in thousands of communities taking part in the 1940 Mobilization for Human Needs opened their drives for funds. The first gun fired was a speech from the White House by President Roosevelt. "The ancient injunction to love thy neighbor as thyself," the President said, "is still the force that animates our faith—a faith that we are determined shall live and conquer in a world poisoned by hatred and ravaged by war."

WASHINGTON: Defense

The capital is filled with rumors of impending changes in the defense commission setup following the election. One rumor has it that if Roosevelt wins, he will offer Wendell L. Willkie, his Republican opponent, the position of commission chairman.

A more likely routine is that William A. Knudsen will be elevated to the position of "chief of staff" and that Donald T. Nelson, former Sears Roebuck executive expert, will be "co-ordinator" between the commission's several divisions.

Secrets

Leaks in information supplied by the army to congressmen has irked defense officials. It was indicated there will be a general tightening up. Two recent events were the final straw. First, members of the house appropriations committee made public details of an airport program that the army was guarding and asked for the general store. I wouldn't be surprised if certain gentlemen in certain foreign capitals were talking about the same thing, too: Our new citizen army.

Need for Conscript Army in Peacetime

There are certain things about conscription that people are thinking about. According to a lot of letters I get, what many people want to know is why we need a citizen army in peacetime.

"I put that up to a military man and this is the way he answered me: "Speed is what counts in an army today. We aren't calling out these boys to fight anybody. We are calling them now to train them so they'll be ready if we ever need them. The United States can always raise a big army if war is ever declared. But neither we nor any other country can raise a trained army overnight—and a lot can happen in the night these days. What we want to do is train men for a reserve. They will still be a part of our defense after their active training is over."

"If this war ends and a disarmament agreement is reached with all nations we won't need to train anybody any more. Meanwhile these men when they go home and slip back into their niches in civilian life. But if a war comes they can step into the ranks over night as they would if we were in danger anyhow. But they will step back as trained soldiers, not raw recruits."

That seemed to me a new way of looking at it. It explains why there is a need now. A fire engine wouldn't be much use if you had to teach the firemen how to use it after the house started burning.

Budget Balanced

With congress and the defense commission bent on seeing that the money appropriated for national defense gets put to work, all the talk is about what's going out and very little about what's coming in. You haven't heard a thing about balancing the budget recently, have you? Well, you will soon. Perhaps before this item meets your eye. For the experts say that we are going to have a \$15,000,000,000 budget in 1943 and what is more we are going to be able to balance it.

Triple Alliance Powers Have Belligerent Attitude

Is our house actually in danger of catching on fire now?

Well, I am a reporter, not a prophet. The profit motive isn't overemphasized in the reporting business. Furthermore, right now the air in these parts is so full of political speeches and other war-talk, just as it is out your way, that you can hardly see across the Potomac on a clear day. The political speeches are so belligerent and the war-talk, especially what we are getting from Rome, Berlin and Tokyo is so political, it takes a fine-tooth comb to separate them.

A dispatch from Rome says the axis doesn't want to get us into war and wants to stop our aid to Britain.

Berlin says that if we attack Japan, Germany and Italy will attack us. That would get us into the war which Rome says the axis doesn't want.

NATIONAL DEFENSE

America is arming rapidly, but she is arming for defense, not offense, according to Baukhage, Washington correspondent. He finds that Germany, Italy and Japan have adopted a belligerent attitude since they signed their Triple Alliance recently. Does this mean war? Baukhage believes that no one knows the answer yet. He reports that some financial experts predict the budget will be balanced in 1943.

On Devil's Island, French penal colony of French Guiana, thousands of desperate prisoners are on short rations and near mutiny. The barren islands depend on food from Cayenne, on the mainland. The mainland colony, however, is not self-supporting, depending on food shipments from France. Since the fall of the French government no food ships have arrived. Four men escaped and arrived in the Virgin Islands after a cruise of more than two months. They said hundreds were dying daily.

World Bristles With War Talk As America Arms for Defense

U. S. Trains Conscript Army and Prepares for Action; Germany, Italy, Japan Present Solid Front, Assume Militant Attitude.

By BAUKHAGE

(Released by Western Newspaper Union.) Baukhage, NBC Commentator, whose voice on the Farm and Home Hour is heard daily by many of our readers, is the author of the following Washington column. Soldier, writer and broadcaster, for the last quarter of a century, Baukhage has covered foreign and domestic news from all parts of the United States and principal capitals of Europe.

WASHINGTON.—It is just about as far from the executive offices of the White House on Pennsylvania avenue to the broadcasting studio as it was from our house on Spruce street back home to the store where my mother used to send me for a loaf of bread (and a stick of "lickerish" if I had an extra penny). It was on my way to the store one day that I first saw a live man wearing the uniform of the United States. It was my Cousin Ned just starting off for the Spanish-American war in his sailor suit.

I've seen a lot of uniforms since, on the avenue in Washington, too, but I couldn't help thinking as I walked along the other day scuffing the dried leaves that had fallen from the immemorial White House elms, that a lot of nine-year-old kids and older ones, too, are soon going to be seeing plenty of uniforms for the first time, on the streets of the home town, just the way I did, 40 years ago.

Right now that is something that Washington and every other city, town and cross roads in the country have in common. In the corridors of the marble buildings beside the Potomac they are talking about the same thing that they are on Main street and at the general store. I wouldn't be surprised if certain gentlemen in certain foreign capitals were talking about the same thing, too: Our new citizen army.

French Ambassador Has Hard Job

It is hard to find out whether you are at war or not, and so, with whom, these days. Of course, we are at peace with France. At least we recognize the French ambassador, the suave and amiable Henri Hays.

He has a very hard job because, as everybody knows, the government of Vichy has about the same relationship to the French people as French perfume has to a piece of Limburger cheese. The dachshund's tail wags the French poole.

And the United States government, which can't admit officially that this is true, acts just as if it knew it all the time. It has frozen French financial holdings in this country. It is as hard for the French government to draw funds invested here as it is for a Hollander or a Belgian or the citizen of the other occupied countries to get their money—which doesn't make them any richer. Some Hollanders instructed their agents here not to pay out their funds to anybody even if they themselves write letters ordering this done. For, of course, the Nazis could force the owner to order the securities sold and then confiscate the funds and use it themselves.

Well, one of the many ticklish assignments of Monsieur Henri Hays is to try to get the government to loosen up on those French investments. Of course, some funds can be drawn upon for special purposes such as the expenses of the embassy. And there has been a worried rumor that the United States government might have to turn the entire amount over.

her do what she wants in Asia, Japan will attack us. Certain people in Washington say if we get into war with Japan we can't help Britain. And so it goes.

Washington Emphasizes Defense, Not Offense

Just now Washington isn't as warlike as it sounds. The emphasis is on defense, not offense. However, there are conflicting views as to what we ought to do.

I talked with an official who isn't what you would call a fire-eater. He expressed a view which some of the people in the state department agree with.

"Japan has declared herself our enemy. The time to strike is now, not delay the way Great Britain did. We could get it over without a long war."

Another man who speaks for another group which is supposed to reflect White House opinion, said this: "The United States has to play a cautious game. Our job now is to keep out of war. Aid Britain all we can. As long as the British navy controls the seas Japan can't hurt us."

If that policy is followed, and I think most observers here believe it will be no matter who is elected president, we will simply reply to any further unfriendly moves on the part of Japan by economic measures. We have cut off some of her vital needs. We can cut off more.

And heaven knows what the ladies could accomplish if they suddenly quit buying silk stockings. That's Japan's chief income—raw silk—and if they couldn't sell it to us, the Japanese would have to let their silk-worms turn up their toes and die—and you know something pretty bad is supposed to happen when a worm turns.

Don't Burn Extra Fuel Uselessly Any Longer!

U. S. Dept. of Commerce reports show that a dirty furnace gives ONE-THIRD LESS HEAT VALUE from a given amount of fuel.

Furnaces are no different from watches or other articles of daily use—they become choked with dirt and refuse to operate properly.

We have purchased a new, highly efficient furnace vacuum cleaning outfit. We can clean your furnace properly and can do so without distributing soot and dirt all over your basement.

Write or telephone us for further particulars about cleaning YOUR furnace!

Too Late
A country doctor was also a keen shot. Often on his rounds he took his gun with him, in case he might get a shot at a rabbit or pigeon. One day, carrying his gun, he met a farmer, who eyed the gun and asked: "Who are you going to see, doctor?"
"Old Bert Hinkle, at Four Oaks farm."
"Well, you won't need the gun. Old Bert pegged out last night."

Found Out at Last
"Young man," said the old one, severely. "When I was your age, I, too, thought I knew all. Now I have reached the conclusion that I know very little."
"Great Scott!" exclaimed the lad in astonishment: "has it taken you this long to find that out? Why, I knew it the minute I saw you!"

He Wandered
Friend—I bought a copy of your book the other day
Author—O, so it was you!

ENOUGH IS ENOUGH
The lady at the window of the train (to the porter)—Are you sure all my luggage is in the compartment and there's nothing whatever left behind?
The Porter—Sure, ma'sir, nothing—not a copper.

Sympathetic Doctor
Mother—Did the dentist hurt you much, dear?
Ruth—Yes, mother, but he was very nice every time he did it, he always said "Ouch!" before I could

Take That!
The fussy dentist was examining the teeth of his patient and assumed an air of great wisdom.
"Have you had any advice before with regard to your teeth?"
"Yes, I called on a druggist last night."
"And what foolish advice did he give you?"
The exasperated patient exclaimed desperately:
"He told me to come to you."

Good Advice
Rosalie (very wealthy)—What advice can you give me? I'm so afraid the men care only for my money.
Julia—My dear, don't marry any man to whom you would not trust your whole fortune, and then—don't trust him with it!

Still Interested
"Is Crimson Gulch still interested in the Blue Eagle?"
"Yes," answered Cactus Joe. "In the early enthusiasm we named our most popular night club after it."

'Trimmed With Velvet' Becomes A Popular Fall Fashion Slogan

By CHERIE NICHOLAS

DO NOT decide on the new coat, dress or suit until you have thoroughly looked into the matter of the cloth-trimmed-with-velvet vogue that is fairly taking the world of fashion by storm this season. So inspired have designers become in this direction they are playing up the theme with all the cunning and imagination at their command. The idea is being exploited to the utmost, and as the movement develops, the possibilities offered unfold in endless chain.

Black velvet sleeves, yoke and front panel have been used with telling effect to give an assuredly new this-season look to the smart two-piece wool jacket-dress shown to the left in the illustration. Yes, indeed, you will show fashion alertness if you see to it that your first town dress flaunts accents of velvet. Cunning style details that add to the prestige of this costume are the barbaric pair of clips, the centers of which are huge cabochon emeralds, the huge silver fox muff and the veil-draped black felt chapeau worn with it.

The other velvet trimmed model shown here is one of those all-important long-coat costume suits which best dressed women are accepting as a most welcome fashion this season. Bottle green tweed is the chosen material for this handsome ensemble. The gored skirt is topped with a full length coachman's coat accented with green velvet (velveteen) bias with velvet for trimming) collar lapels and buttons and various binding of edges. The lapel ornament—everybody's wear—lapel gadgets this season—is of silver with three charms hanging on chains. The stunning off-the-face hat is of felt in matching bottle green.

In the chic velvet trims a new avenue of design has been opened that promises anything and everything in the way of artful expression. The smart side fastenings in one piece dresses invite velvet accents in no uncertain manner. Creators of smart fashions are taking advantage of the vogue to introduce many novel interpretations of the mode, such as a princess dress in black sheer wool that fastens down one side under a wide border of velvet. At a long-torso waistline point the dress is tied with velvet in the same manner as the new coats that tie to one side.

Dresses of cashmere jersey are cunningly trimmed with velvet in such accents as collar, cuffs and novel pockets. It is very good style, too, for the two-piece dress is made of a jersey skirt with velveteen blouse top that is finished off with jersey at neckline and wrist and down the front.

The very chic jacket suits that make simplicity of line their keynote show they are of newest vintage when they are piped with velvet, have velvet covered buttons and most likely a velvet collar of matching velvet. Of course the favorite suit is black with black velvet. However, the "call to colors" is resulting in suits and coats made of gorgeous tweeds that are colorfully velvet-trimmed.

One house of design noted for its smart fashions is making a play on dresses that exploit the new pencil-line lines that take on a flounce below the knee. These are of sheer wool, notably cashmere jersey or the new suede-finished wools. The high style feature reaches its climax in cunning schoolgirl collars of matching velvet. Shirred velvet muffs are also a new style note.

Fur-Faced Hat

Nothing less than a sensation, that's what the new and dramatic fur-faced broad-brimmed hats are creating. The model pictured tells the "reason why" every woman of fashion is sending in a rush order for a fur-faced hat to match her coat. The hat and coat ensemble shown here is of beaver. It is made of such smooth furs as Persian lamb, black sealskin, leopard and other spotted varieties, also ermine for evening wear. These repeat again and again in millinery to match the fur coat or fur trim on the suit. For those who can indulge in fur luxury, an important new fashion is hat and muff twosomes. It is said that the white fur theme in accessory sets of this type will become a pronounced vogue this winter. They add a distinctive appearance that women find most becoming.

Fashion-Wise Use Bright, Gay Colors

This is developing into a season of gorgeously gay colors. The tweeds for coats and suits were never so strikingly colorful. Plaids have gone on a rampage of color. Feathers on hats flaunt color to the limit. Accessories are a riot of eye-blinding color.

In costume design a play on color is being made that is startling in effect, but the bold handling of contrast colors is one of the most fascinating gestures fashion records this season. For example, it is chic for a dress to have a neutral colored shirtwaist top, with a skirt which introduces panels of vivid colors. Such a dress could be made of pale beige with sections of scarlet, Irish green and royal blue.

The new black frocks achieve their dash of color with yokes, vests or front panel effects made up of green, cerise and purple crepe. Dare as much color as you please and you will be none too colorful this season.

Newest Hats Made Of Pasted Feathers

It is a season of gayest of gay plumage and novelty feathers. So much so, the newest hats of the season are made entirely of pasted feathers in gorgeous colors. With stunning. Your feather chapeau may be of the now-so-chic broad-brim type or it may be a cunning little novel shape or a close fitting turban. Just so it's feathered to distinction.

Felt casual hats flaunt spectacular quills and other feather novelties. New too are the felt bretons as well as those of velvet that have a fringe of brilliant feathers outlining the brim.

Picked Up in Studios of Style Designers

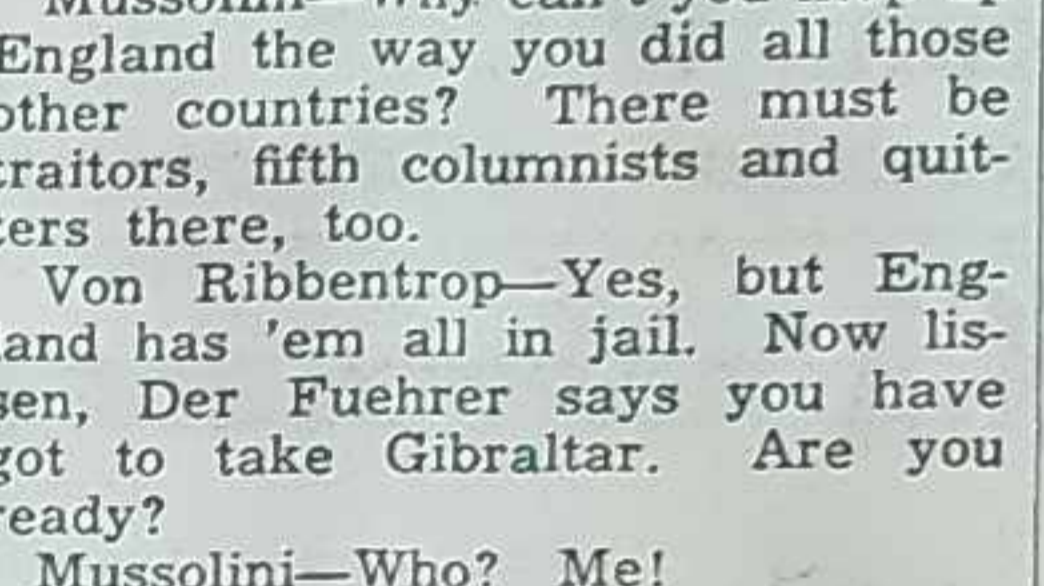

A lesson in American history—that's the key to many of the new hats, and New York milliners are having a field day thinking up ways and means of rousing national feeling.

Autumn foliage will not blaze more vividly than the newest costumes of tweed and smooth wools, in plaids, checks, and eye-filling mixtures of handsome colorings in imported fabrics.

AXIS CONFERENCE

Mussolini—Well!
Von Ribbentrop—You took the word out of my mouth!
Mussolini—What explanation has Hitler to make to me?
Von Ribbentrop—Explanation for what?
Mussolini—He was to have licked England by August. I had his word for it.
Von Ribbentrop—Everything in a war can't be done according to schedule.
Mussolini—This is a fine time to tell me!
Von Ribbentrop—Germany can't help it if the British fail to give up in accordance with our expectations. Their slowness in surrendering is very disturbing to Herr Hitler.
Mussolini—If it disturbs Hitler, what do you think it does to me?
Von Ribbentrop—But there is nothing for us to worry about.
Mussolini—Did you ever try standing for any length of time with one foot in the middle of the sea and the other foot in the middle of Europe?
Von Ribbentrop—You are giving yourself too many feet.
Mussolini—Before I get through I may need 'em. I don't like the looks of things.
Von Ribbentrop—Why did you come into the war?
Mussolini—You know very well why I came in: You gave me a complete scenario, showing that France was finished and that England was as good as sunk.
Von Ribbentrop—Everything will come out as we promised. All we need is patience and a new plan.
Mussolini—Why can't you mop up England the way you did all those other countries? There must be traitors, fifth columnists and quitters there, too.
Von Ribbentrop—Yes, but England has 'em all in jail. Now listen, Der Fuehrer says you have got to take Gibraltar. Are you ready?
Mussolini—Who? Me!

Von Ribbentrop—We must have the co-operation of Spain. We must move fast.
Mussolini—My troops never moved faster than they did when they were in Spain.
Von Ribbentrop—This time it's got to be in the right direction.
Mussolini—There are moments when I think maybe we are biting off more than we can chew.
Von Ribbentrop—You have my assurance this will be done on a 50-50 basis.
Mussolini—What do you mean by that?
Von Ribbentrop—Germany will do the biting, you can do the chewing.
Mussolini—The more you talk the more nervous I get.
Von Ribbentrop—Brace up! Don't you know Germany and Italy are super races? Don't you know they are the two greatest Powers on earth? Don't you know they are nations with a destiny? Don't you know they will rule the world?
Mussolini—I know it, and you know it, but does the world know it?

THE LAW STIPULATES THAT NO EMPLOYEE SHALL REPLACE A DRAFTED MAN WITH A MEMBER OF THE BUND OR COMMUNIST PARTY.

A howl is being set up by the Bund boys, but can you imagine anything so screwy as snatching Charlie Jones, a 100 per cent American, from the button factory to go to war and hiring Ludwig P. Schmalzenfester, the well-known Nazi cheer leader, to take his place in the pinch?
Fall in! Squads right! War is war. And peace is just as bad these days.

HOUSEHOLD QUESTIONS

Keep flowers out of drafts as much as possible; they are more susceptible to a chill than humans.

Half an hour is ample time to allow for baking of medium-sized apples.

Glycerine will remove tea and coffee stains from table linen. Rub spots with glycerine and let stand a few minutes, then wash linen in the usual way.

When making iron holders put in one layer of leather from an old glove, as it is a nonconductor of heat.

Care must be taken to avoid opening the oven door for five minutes after the cake has been placed in the oven. When removing it or drawing it to the front to see if it is baked evenly, be very careful, as the least jar may cause the cake to lose its lightness.

Prepare a small handsaw for storing by first heating it in an oven and then quickly rubbing it with lard or any unsalted fat. Hang the saw on a nail on a wall. Wipe off the surplus fat when you use this saw again.

Lubricate the meat chopper and electric mixer with salad oil. This will prevent any disagreeable taste which might occur if regular lubricating oil were used.

Chiffon is easily washed in warm soapy water. Do not have the water hot, otherwise the color will wash out. Rinse it well in clear, warm water, fold smoothly and put through the clothes wringer. Avoid wringing with the hands. Open the chiffon out flat on the wrong side.

INDIGESTION

Gas trapped in the stomach or gullet may get like hair-trigger on the best. At the first sign of stomach pain and women depend on Bell's Colic Tablets to get gas free. No laxative, but made of the finest medicines known for acid indigestion. If the FIBER-LOSE doesn't prove Bell's a better bottle to use and receive DOUBLE MONEY BACK.
