

Final Report Has Red Cross Drive \$700 Over Quota

In a summary final report on the 1952 Red Cross fund campaign for the West Bend chapter area, Drive Chairman R. G. Lauson has announced that the goal was exceeded by \$700. Total contributions reached \$9,303.74, as compared with an overall quota of \$8,596.

"We are pleased to announce this good news and are proud of the fact that the people in the West Bend chapter area have once again lined up generously in support of the humanitarian work of Red Cross," Lauson said.

Praising the cooperative spirit of the many volunteer workers who participated in the drive, Lauson said it was their hard work which put the campaign over the top by such a wide margin.

Originally, the goal in the 1952 campaign was \$8,216, but tornado and flood disasters in the south and southwest resulted in need for additional relief funds before the drive ended. West Bend's share of the special disaster fund was set at \$380, raising the overall drive quota to \$8,596.

Lauson said it will be necessary to make some allocations from industrial collections in order to have a completely accurate picture of the results in the various precincts. He said he was certain that with one or two exceptions every precinct will have exceeded its individual quota when allocations are completed.

As of the present time, without allocations, the reports on contributions in the precincts are as follows:

Towns: Barton \$254, Farmington \$367, Jackson \$361.45, Kewaskum \$117.30, Trenton \$406.25, Wayne \$252.00, West Bend \$188.50. Total from towns—\$1,979.40.

Villages: Barton \$641.18, Jackson \$165.50, Kewaskum \$625.96. Total from villages—\$1,432.64.

City of West Bend: Industries \$1,049.00, Industrial Employees \$2,077.40, Business & Professional \$2,237.75, Residential \$302.45, Organizations \$105.00, Special Gifts \$120.00. City of West Bend total—\$5,891.60.

Chapter Chairman Fred Holt praised Lauson for his hard work and efficient direction of the 1952 campaign, but Lauson insisted that full credit for the success of the effort must go to the volunteer workers, the precinct chairmen and the people of the area whose generosity made the over-the-quota report possible.

An additional \$120 in special contributions earmarked specifically for the givers for tornado and flood victims was received during the campaign. As a result the total contributed especially for disaster relief climbed to more than \$500.

The success in the 1952 drive continued a long record of "over-the-top" reports in Red Cross campaigns in this area.

BIRTHS

STAUTZ—A daughter to Mr. and Mrs. Jerome Stautz, Kewaskum, Thursday, May 8. Mrs. Stautz is the former Alice Baekhaus.

REIDG—A daughter to Mr. and Mrs. Edward J. Reidg, Kewaskum, Saturday, May 10.

SCHULTZ—A son to Mr. and Mrs. Leroy Schultz, R. 2, Kewaskum, Sunday, May 11.

HEISDORF—A daughter to Mr. and Mrs. John Heisdorf, R. 2, Kewaskum, Monday, May 12.

MEYER—A son, Dennis Lloyd, to Mr. and Mrs. Arthur Meyer, R. 3, Campbellsport, Sunday, May 4.

GEIDEL—A son, Donald Harold, to Mr. and Mrs. Byron Geidel, R. 3, Campbellsport, Tuesday, May 13, at St. Agnes hospital, Fond du Lac.

HOSPITAL NEWS

Mrs. Alma Ramthun, Kewaskum, submitted to an operation at St. Joseph's hospital, West Bend, Monday, May 12.

Mrs. Earl Etta, R. 1, Kewaskum, was a patient at the Memorial hospital, Sheboygan, one day last week for treatment.

Robert McCullough, St. Kilian, is a patient at St. Joseph's hospital, Milwaukee.

Dick Edwards, Wife Injured in Mishap

Three persons were injured in a collision on Hwy. 55 in the Kewaskum swamp south of the village on Sunday afternoon. Mr. and Mrs. Richard Edwards, Kewaskum, and Mrs. William Mey, Milwaukee, all received injuries.

Mrs. Edwards, the former Arlette Melhos, received multiple facial cuts and body bruises and Mrs. Mey suffered facial, back and chest injuries and suffered from shock. Edwards, 21, suffered bruises and cuts on his hands.

Cars driven by Edwards, who is a son of Dr. and Mrs. R. G. Edwards, and William Mey collided. Edwards was returning from the Newburg-Kewaskum baseball game at Newburg at the time of the accident. He is a catcher on the Kewaskum team.

According to reports, Edwards went out of his way as far as possible to avoid the collision. Mey was arrested by sheriff department authorities.

A car driven by Edward Serwe, 30, R. 1, Campbellsport, went out of control and rolled over into a ditch on Hwy. 55 in the Kewaskum swamp area early Sunday night but no one was injured. Serwe was passing another car when his vehicle hit a shoulder of the road and went out of control. The auto then swerved back to the right shoulder and then back again to the left shoulder before hitting the ditch.

Indians Lose Last Game to Belles; Tie for Second

TRI-COUNTY STANDINGS FINAL

Table with columns: Team, Won, Lost. Rows include Lomira, North Fond du Lac, Campbellsport, Kewaskum, Oakfield, Rosendale, Brandon.

How close can a baseball race be? Not much closer than the way the one in the Tri-County conference ended up last week. Three teams tied for first place and three more for second with Brandon all alone in the cellar without a win.

Lomira went into the final game with a record of 4 and 1. North

DISTRICT TOURNAMENT AT KEWASKUM SATURDAY

Tri-County teams open W.I.A.A. district tournament play at two sites—Berlin and Kewaskum—this Saturday, May 17. The pairings, announced by the association, are as follows: At Berlin—North Fond du Lac vs. Rosendale, Berlin vs. Ripon. At Kewaskum—Campbellsport vs. Lomira, Kewaskum vs. Oakfield. First round games will be played in the morning and consolation and championship finals in the afternoon. Winners will advance to further tourney competition.

Fondy (3-2) beat them in the last contest to gain a tie for the title, Campbellsport (3-2) defeated Kewaskum in its last tilt to also share in the championship. Kewaskum, Oakfield and Rosendale are all tied for second with 3-3. These teams are tied for second place as well as second last. In N. Fondy's win over Lomira Arnie Meier twirled a no-hitter in blanking the Lions.

Freshman Matt Serwe pitched the Belles to a neat 8-2 win over the Indians. He gave up only two hits, struck out nine and walked just two. Wierman and Meisenheimer did the pitching for the losers and were nicked for nine safeties.

Catcher Bob Bauer led the Belles' hit parade with a triple, double and single. Dick Hensen had two singles. Campbellsport was defending champion.

Kewaskum 001 010 0-2 2 3 Campbellsport 203 021 x-5 9 2

Wierman, Meisenheimer (5) and Ramthun; M. Serwe and R. Bauer, J. Weiss (7).

Death of Julius Dreher on Sunday

Julius Dreher, 74, of Kewaskum passed away at 2:30 p. m. Sunday, May 11, at St. Joseph's hospital, West Bend, following an illness of several weeks.

Born March 26, 1878 in the town of Farmington, he came to Kewaskum with his parents when a young boy and lived here ever since. He was married to Ricka Backhaus on Nov. 15, 1909 at Milwaukee.

Besides his widow, Mr. Dreher is survived by four sons and five daughters. They are Edward, Lester, Earl and Martin, all of Kewaskum; Veilla (Mrs. Wallace Krueger) of the town of Auburn, Anita (Mrs. Paul Dean) of West Bend, Dorothy (Mrs. L. Keno) of Minneapolis, Mrs. Helen Saueressig of West Bend and Alice (Mrs. Gilbert Bottom) of Milwaukee. The deceased is further survived by 26 grandchildren, three great-grandchildren, one sister, Mrs. Ottilia Groeschel of Milwaukee, and many other relatives and friends. He was a son of the late Valentine and Agnes Dreher.

The body was in state at Miller's funeral home from 1 p. m. Tuesday until 11 a. m. Wednesday and at the Peace Ev. and Reformed church from 12 noon to 2 p. m., the time of funeral services. The Rev. F. Rodenbeck presided and burial was in the parish cemetery.

Weddig Valedictorian at St. Francis Seminary

Four years of hard work has gained the title of valedictorian at St. Francis minor seminary, Milwaukee, for Leon Weddig, son of Mr. and Mrs. Edward Weddig of Kewaskum. John Lochschmidt of Kimberly, Wis. is salutatorian.

Leon has made his appearance on every honor roll during his four years at St. Francis and has maintained a 94.59 average. He also has served as editor-in-chief of this year's volume of The Penman, seminary newspaper. He has participated in all the intra-mural sport activities throughout his four years at the seminary.

Weddig and Lochschmidt, serving as representatives of their class, will give the graduating class valedictory and salutatory addresses at the commencement exercises.

Along with other students of Milwaukee high schools, Weddig and Lochschmidt participated in the Elk's history contest on April 5. Prizes for winners will range from three hundred dollars downward. Each participant in the contest received an honorary membership in the Elk's Charter club.

Weddig is a graduate of Holy Trinity school, Kewaskum.

LOCAL BOWLERS PLACE IN ABC PRIZE MONEY

Four Kewaskum bowlers, members of the Bank of Kewaskum team, placed high in the doubles of the regular events at the American Bowling Congress in the Milwaukee arena Friday afternoon. Arnie Zelmet and "Jimmy" Miller hit a 1,142 series and Killan Honeck, Jr. and K. William Haebig topped the pins for 1,125. These scores will place the bowlers in the prize money.

STOFFEL BABY BAPTIZED

The little son of Mr. and Mrs. Gerald Stoffel, R. 2, Kewaskum, was baptized Sunday afternoon in Holy Trinity church by the Rev. Father George of Mt. Calvary. He was given the name Leo Robert. Sponsors were Mr. and Mrs. Robert Du Pont of Milwaukee. The Stoffels have two other sons.

Village Employees Are Granted Cost of Living Bonus

Added Equipment for Fire Dept. Authorized; Memorial Day Appropriation Made

Regular Meeting May 5, 1952 The Village Board of Kewaskum, Wisconsin met in regular monthly meeting with President C. Miller presiding and all board members present. The minutes of the previous meetings were approved as presented.

The Finance and Personnel Committee recommended to the board that the following wage scale be established for the appointed offices of the village:

Supt. of Public Works—\$275.00 per mo. plus \$20.00 cost of living bonus per mo. or total of \$295.00.

Assistant Supt. of Public Works—\$250.00 per mo. plus \$20.00 cost of living bonus per mo. or total of \$270.00.

Commissioner—\$260.00 per mo. plus \$20.00 cost of living bonus per mo. or total of \$280.00.

Chief of Police—\$275.00 per mo. plus \$25.00 cost of living bonus per mo. plus \$5.00 police car allowance. Chief of Police to get one day a week off for working on Sundays but he must furnish and maintain his own car and uniforms.

All appointed offices are to be given one extra day off for working on any national legal holiday, Working hours, except those of the chief of police, shall be from 8:00 a. m. to 12:00 noon and from 1:00 p. m. to 5:00 p. m. Monday through Friday and from 8:00 a. m. to 12:00 noon on Saturday.

A one week vacation with pay will be allowed per year for each appointed office for service up to five years. After five years of service, a two week vacation per year with pay will be granted.

The salaries of the appointed offices shall be retroactive to April 1, 1952.

Motion by E. Schaefer and seconded by G. Hansen that the above recommendations of the Finance and Personnel Committee be adopted. Motion carried.

Upon the recommendation of the Finance and Personnel Committee, motion was made by E. Schaefer, seconded by G. Hansen and carried that the wage rate of the common laborers be set at 95c per hour, starting May 1st, 1952.

Motion by M. Schaefer, seconded by J. Eberle and carried, that the application of William Schaub be accepted and that he be declared Supt. of Public Works.

Motion by L. Kohn, seconded by G. Hansen and carried, that the application of Armin Opperman be accepted and that he be declared Asst. Supt. of Public Works.

Motion by G. Hansen, seconded by L. Kohn and carried, that the verbal application of Edmund Haack be accepted and that he be declared Chief of Police.

H. B. Rosenheimer discussed with the board the possibility of installing a pressure system to take care of the sewage problem in a portion of the Roseland Heights addition.

A delegation from the Fire Dept. and the American Legion discussed with the board their idea for the purchase of light pole brackets and flags for the decoration of the village streets on special holidays.

This committee was asked to secure additional information on this plan and that the board would meet with them again in a week or two.

Fire Chief Harry Schaefer requested permission to place an order for one foam generating nozzle, 4-1/2 gal. cans of foam liquid and twelve fibre fire brooms. Motion by J. Eberle, seconded by G. Hansen and carried that this permission be granted.

Motion by J. Eberle, seconded by G. Hansen and carried that the commissioner purchase from Kohn Bros. one used Pioneer power mower for the price of \$75.00.

Motion by J. Eberle, seconded by A. Martin and carried that the Electric Co. be given a written order for the repairing of one and the replacing of another.

Newburg Shades Kewaskum, 6-5

LAND O LAKES STANDINGS (Northern Division)

Table with columns: Team, Won, Lost. Rows include Mequon, West Bend, Granville, Saukville, Germantown, Newburg, Grafton, Kewaskum, Cedarburg, Slinger.

Scores Sunday—Newburg 6, Kewaskum 5; Grafton 11, Saukville 1; Mequon 13, Slinger 3; West Bend 4, Germantown 3; Granville 4, Cedarburg 3.

Games Sunday—Germantown at Kewaskum, Saukville at Slinger, Grafton at Newburg, West Bend at Cedarburg, Granville at Mequon.

The Kewaskum Chevrolests made it two in a row—defeats that is—when they were noed out at Newburg Sunday, 6-5, in northern Lakes play. Newburg came from behind in the late innings to sneak the victory.

Kewaskum held a 5-2 advantage in the fifth inning. That was the end of the scoring for the Chev but Newburg came through with four more markers, three in the sixth and the winning run in the seventh.

Duenkel was on the hill for the losers and was touched for nine hits in the seven innings he worked. Honeck relieved him in the 8th and gave up one more in that stanza. Duenkel struck out five and walked three. There were no walks or strikes out by Honeck. Kirst went the route for the winners, holding Kewaskum to six hits, fanning eight and passing four.

The Chevrolests' six hits were divided among six players. Bremser, Hetebrueg, Frings and Kempf got two each for the Burgers.

This Sunday Kewaskum has another home game with Germantown coming here. Germantown has a 1 and 1 record to date. The Chevrolests hope to get in the win column.

PVT. LEO A. NIGH ARRIVES IN JAPAN

Word was received this week that Pvt. Leo Nigh, son of the Elmer Nighs of the town of Auburn, who left for overseas duty recently, has arrived in Japan. His present address is Pvt. Leo A. Nigh US55213966, Prov. Co, SEI160, APO 612, C/O Postmaster, San Francisco, Calif.

STAEHLER PROMOTED

Robert A. Staehler, AB2, son of Mr. and Mrs. A. M. Staehler, Kewaskum, who is serving aboard the USS, Midway, has been promoted to AB2, second class.

HAS NEW ADDRESS

Marilyn J. Krueger, SA, daughter of Mr. and Mrs. Frank Krueger, Kewaskum, who is attending school at Bainbridge, Md., has this new address: Marilyn J. Krueger, SA 4612961 (W) USN, Barracks 511, Yeoman Class "A" School 9-52A, Service School Command, USNMC, Bainbridge, Md.

Bar-N Ranch Builds Race Track; Has New Manager

Owners of the Bar-N Ranch in the town of Auburn, who are Dr. F. E. Noiting, Louis Bath, Sr. and Atty. Lyle W. Bartlett of Kewaskum, are having a track built for rodeo and stock car race purposes.

Construction began some time ago. Dr. Noiting reported last week that the track would not be completed for some time to come.

A new manager took over the supervision of the ranch on Thursday, May 15. He is Lyle W. Smith of Oshkosh, who is married and has a family. The owners had been operating the ranch since late last summer. It was closed during the winter and reopened a few weeks ago.

School Supt. Receives 1853 McGuffey Reader

The other day Christ Hoffman of Slinger brought into the county superintendent of schools Harry D. Sleski's office a copy of "McGuffey's Eclectic Fourth Reader." What a gem. It bears an 1853 publication date. Inasmuch as Mr. Sleski's father spoke so often of these readers, this book was carefully reviewed.

In the preface, the author explains the intent of the book by contrasting comparison to the third reader. One statement was exceptionally well phrased. Quote: "Nothing is so difficult to be understood as nonsense. Nothing is so clear and easy to comprehend as the simplicity of wisdom." Is it possible that this first statement could apply to the politics of today? Certainly Lincoln's expressions confirm the last statement.

Previous to viewing this book, the writer was of the opinion that the 4th reader was for the 4th grade students. However, upon opening the book, the discovery was made that a college man of today could relish the literature therein, and that he might have to consult Mr. Webster's dictionary at times, in order to get the full meaning of some terms (one word couldn't be found in Webster's unabridged dictionary.)

A glimpse at the plate leaf shows that only five readers composed the series. Further research disclosed that pupils in those days were placed in books of reading level ability, rather than graded by attendance in years. Yes, they were progressive at that time, for today the youngsters are placed at reading level abilities and not necessarily in books numbered in sequence with years attended.

Some articles contained in this book are:

Dr. Johnson's "A Picture of Human Life," Rousseau's "The Scriptures and the Savior," Shakespeare's "Shylock, or the Pound of Flesh," Bible's "The Power of God."

The summary can rightfully be drawn, that anyone who could voice these selections melodically, and comprehend the thesis of each selection, could pass any college entrance exam with ease.

SIX KEWASKUM STUDENTS IN STATE MUSIC CONTEST

On Saturday, May 10, six Kewaskum High school students participated in the state music festival and contest in Madison. These students qualified for the state contest by earning top ratings at the Beaver Dam district festival on March 28.

The students were: Richard Romaine, (senior) trombone solo; Theima Rosenheimer (sophomore) and Elaine Kluverer (junior), piano duet; Marion Kral (junior), Audrey Schaefer (sophomore), Mark Rosenheimer (freshman), clarinet trio.

ADOPT DAUGHTER

Mr. and Mrs. Mich. Schladweller of Shady Grove north of Kewaskum received a newly adopted daughter, Kathy, at their home on May 7.

MOTHER, DAUGHTER BANQUET

A mother and daughter banquet was held at the Peace Ev. and Reformed church last Thursday evening in the church parlors.

Pat Stenman to Reign as Armed Forces Day Queen

Pat Stenman, daughter of Mr. and Mrs. Walter Stenman of Kewaskum, was selected Friday night as queen for the armed forces day parade which will be held in West Bend this Saturday afternoon, May 17. She is a Kewaskum High school senior.

The queen's court, consisting of representatives of four other high schools in Washington and Ozaukee counties, consists of Mary Michels, Port Washington; Penny Ramaker, West Bend; Nancy Kirat, Grafton, and Mary Margaret Kratz, Slinger.

The queen contest was held in the West Bend city hall Friday and the five judges had a difficult time in making a selection. Every high school in the two counties, with the exception of Hartford and Cedarburg, had selected one representative to compete in the contest.

A coincidence is that Miss Stenman's 17th birthday falls on Armed Forces Day, May 17.

She and her court will lead a long parade composed of units from Washington and Ozaukee counties. The parade begins at 2 p. m. and will travel from the city park to the courthouse square, where a program will be held.

The program will include an address by Col. R. D. Smith, Jr., USAF, deputy chief of staff for personnel, Scott Field, Ill. Well over 25 units are expected to participate in the parade before many spectators. Units will include high school bands, civic, patriotic, fraternal and others. Business, industrial and government units will enter floats. Bands will include the Kewaskum High school organization.

Concert by School Band, Girls' Chorus

On Wednesday evening, May 21, at 8:00 p. m. the Kewaskum High school band and girls' chorus will appear in concert at the high school auditorium. Admission will be 50c for adults and 25c for children. Proceeds will be used for band equipment.

Among the numbers presented by the band will be "Champions on Parade," concert march; "Great Gate of Kiev" from pictures at an exhibition by Moussorgsky; "Sun Valley Mountains," by Ogden, a number performed at the 1952 music festival; "Fantasy for Three," featuring a cornet trio by Robert Rose, Richard Wesenberg and Tom Peterson; "Overture Argentina," a number in South American idiom, and others.

The chorus will do "The Ash Grove," an old Welsh melody; "Cornish Song," an 18th century song from England; "Lift Thine Eyes," by Mendelssohn. These numbers were performed at the 1952 music festival. Other numbers of more familiar style will also be presented.

MONTHLY SOCIAL OF ALTAR SOCIETY HELD

The Ladies' Altar society of Holy Trinity church held their regular monthly social on Tuesday evening. After a short prayer and business discussion about half of the members played cards while others interested themselves in missionary work by sewing or making fancy cards. A fine lunch was served by Mrs. John Stellpflug and Mrs. Alton Stoffel. A lucky door prize winner was Mrs. A. Ruplinger who received a set of pretty towels.

THIRTY-THIRD WEDDING CELEBRATED BY HARTERS

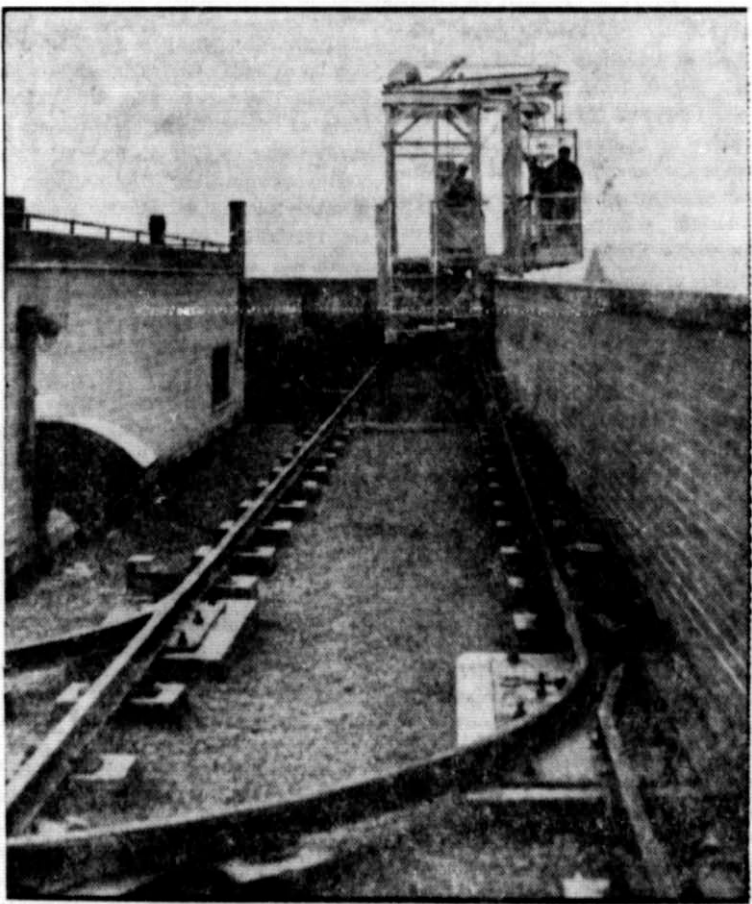

Mr. and Mrs. Ed. Terlinden, Mr. and Mrs. Alton Nigh and family, Mr. and Mrs. Elmer Nigh, Mr. and Mrs. Elmer Krueger, Mr. and Mrs. Reuben Baekhaus, Mr. and Mrs. Arnold Jaekels and Mrs. John Pesch, Mr. and Mrs. Pat Nigh and Susan Harter came to celebrate Mr. and Mrs. Jacob Harters 33rd wedding anniversary Tuesday evening. A delicious lunch was served. Card playing was the pastime. It was enjoyed by all.

WHERE THE IMPERIAL MAMMOTH ROAMED—Considered proof of man's existence in the western hemisphere 12,000 years ago are these bones of an Imperial Mammoth and four ancient weapons found by National Museum of Mexico archaeologists. The remains of the extinct variety of elephants were found 35 miles north of Mexico City.

EASES THE PAIN—Confronted with a 24-story glass and stainless steel building, the designers of the new Lever Brothers' building in New York decided to install a special elevator to solve the window-washing problem. The trolley, above, runs on tracks around the periphery of the roof and from it the elevator is lowered to the desired level.

List Of Symptoms Of Hoof & Mouth Disease

Although there is no indication that the recent outbreak of hoof and mouth disease in Canada has affected any cattle in this area, Dr. H. J. O'Connell lists the symptoms of the disease as a precautionary measure for farmers.

Proper investigation and immediate diagnosis of suspicious symptoms in cattle can prevent any outbreak of the hoof and mouth scourge in the area, O'Connell declared.

He urged cattle owners to watch for the following symptoms. Blisters appearing on the tongue, around the mouth, on the skin above the hoof line and on teats and udders. These blisters usually rupture within 24 hours and form red, granular deposits on the surface.

Fever and excessive flow of saliva if they accompany the blister symptoms, are also indications of hoof and mouth infection. Sores on the animal's feet cause lameness and in advanced cases the hoof wall begins shedding. Affected animals have trouble eating or drinking and a loss of weight is noticeable.

Pregnant animals frequently abort and sterility in breeding animals is a common symptom. O'Connell said that hoof and mouth disease is still the greatest threat to our livestock industry. Should it get out of control, milk, meat, leather and other animal products might be reduced by 25 per cent.

There is no need for alarm, O'Connell added, but alertness for suspicious symptoms is just good common sense farming.

He urged farmers to contact their local veterinarian at once if any unusual symptoms are noted in their cattle.

SOME WATCHDOG

Providence, R. I.—After thieves broke into the diner of Edward K. Harris for the 22nd time in seven years, Mr. Harris bought a collie-German shepherd and let him sleep in the diner nights as a guard. Recently, thieves broke into the diner for the 23rd time and all they took was—the dog.

Not Enough Evidence

The owner of a tavern was prosecuted for selling a bottle of whiskey after closing hour. A bottle similar to that sold was produced in the courtroom as evidence. After the jury had heard the evidence and had retired to deliberate the foreman returned to the courtroom.

"Your Honor," he said to the judge, "the jury are quite satisfied as to the sale of the bottle, but they are not sure of its contents. May they have that bottle to satisfy themselves?"

"Certainly," declared the judge. After a brief period the jury filed back into the box again.

"Well, gentlemen, have you reached a decision?" asked the judge.

"There's no case, Your Honor," replied the foreman. "There wasn't enough evidence to go around."

A Real Landlord

During the critical housing situation, all new tenants were required to undergo a minor third-degree by the landlord. On one of the occasions the apartment seeker suddenly realized that he in no way qualified for the vacancy.

"Do you have any children or pets?" asked the landlord.

"One girl and a small poodle," was the reply.

"Sing or play a musical instrument?"

"I play the piano," answered the crestfallen applicant.

"Drink or have parties?" he continued with the quiz.

"Once in a while," the applicant admitted.

"By George!" replied the landlord. "I believe you're just the man I'm looking for, this place has been like a graveyard lately!"

FTC Rules Acetate Garments Must Be Labeled

You'll find something new on fabric labels this spring. The Federal Trade Commission has ruled that if a material contains acetate, it must be stated on the label.

Up to this time, all materials of this type were grouped under the term "rayon." But since the rayons and acetates require different care, this new labeling can help you a great deal.

Wash Differently

Many rayons are washable and can be laundered either by hand or in your washing machine. If the label recommends machine washing, you can use hot water and regular laundry soap or detergents. Rayon can be ironed with a hot iron, although it shouldn't be quite as hot as you would use for cottons.

Acetate fabrics are treated in just the opposite way. If the label says it is washable, it should be washed by hand in luke warm water and mild soapsuds, never in the washing machine. A warm iron—never hot—will prevent fabric damage when you're ironing it. When the material is a mixture of rayon and acetate it should be treated as if it were all acetate.

Many New Fabrics

We usually don't think of corn in connection with a dress or a suit, but vicara, one of the new fabrics on the market this spring, is made of it. Vicara resembles very soft wool and is most commonly found in blends because it isn't a strong fiber. It's being used now in many fabrics that were formerly made of all wool because it isn't affected by mildew or moths.

A close cousin to nylon, dacron, also dries quickly, needs little ironing and is mildew and moth proof. You'll be seeing it in women's blouses, lingerie and sheer fabrics.

Orlon has been a boon to window-dressings because it works up into lovely curtains so well, and does not deteriorate when it's exposed to the sun over long periods. It also dries quickly and needs little or no ironing.

BUMPY CAR

Grand Junction, Colo.—James E. Houchin couldn't figure out why his car seemed so rough all of a sudden, or why the roads were so bumpy. He stopped his 1951 model car at a service station for a lubrication job. They found—all four shock absorbers had been stolen.

DIGESTIBLE AS MILK!

INSTALL A GREASE TRAP TO PREVENT CLOGGED SEPTIC TANK

Grease from the kitchen sink is one of the main causes of clogged septic tanks. A grease trap, properly made and installed, should be one answer to your problem.

The other answer would be to pass the septic tank with the kitchen sink drain, and connect onto the tile beyond the septic tank.

The grease trap is the better solution, because grease eventually might clog the drain beyond the septic tank.

When greasy waste is poured down the kitchen sink drain, some of the grease adheres to the inside of the pipe. But most of it goes into the septic tank or sewer.

If you use a grease trap between the sink and the septic tank, you can collect most of the grease before it gets to the septic tank.

The trap will need cleaning. How often depends upon the amount of grease it collects from your kitchen sink.

There are several possible locations for a grease trap. First of all, it should be located so the waste from the kitchen sink will run into it without hav-

ing to travel too far. The farther the greasy water has to travel, the greater is the chance of the pipe becoming clogged with grease.

Second, it will have to be high enough that water will run from the grease trap into the septic tank or sewer.

It is possible to put the grease trap on the inside of the basement, providing it is not near the furnace or heat pipes. Part of the success of the trap depends upon the cooling of the water and grease within.

Sometimes the trap is located on the outside of the house, between the house and the septic tank.

The size of the grease trap depends upon the amount of water to be run through it. The one I have illustrated is large enough for the average family.

"MR. FIXUM'S HANDY HINTS" is a collection of 31 selected jobs from this column, printed in attractive form, for 35c.

Send coins, not stamps, to Ernie Gardner, 14189 Faust Avenue, Detroit 23, Michigan.

Perfection

A man who had been a bachelor most of his life finally married and settled down. One day he met a friend who had known him in the old days and the friend asked him what he thought of married life.

"Well," replied the benedict, "I married the girl of my dreams and she was worth waiting for. She still is as beautiful to me as the day that I met her. Her hands are always white and soft. Her hair is never untidy and her clothes are always in the very latest style."

"So you don't regret giving up your single life and getting married?" said the friend.

"No," was the reply, "but I can tell you one thing—I'm getting pretty tired of eating in restaurants."

Better tasting salads!
Miracle Whip SALAD DRESSING
THE ONE AND ONLY

PAPA GIVES A RINSE—Commander of a small army of Korean laborers who climb mountains to carry ammunition and food to the front lines, Sgt. Adelbert Wright of Englewood, Calif., takes good care of his men to the point of helping them bathe. They work hard for "Papa-san Light" because they respect him for his close relationship with them and admire him for his ability to climb a steep hill despite his 53 years.

The Coconut Pie Mystery

Here's a mystery that will have you asking "what dunnit" instead of "who dunnit"! What makes this Coconut Macaroon Pie so mysteriously different? In the making process, it doesn't seem at all out of the ordinary—a mixture of good ingredients; a pie shell. But during the baking process, something quite amazing happens. The ingredients separate—some of them rise to the top and form a wonderful crunchy macaroon-like layer; the rest stay "downstairs" and bake into a velvety custard. What dunnit? Who cares! Just make it and serve it. It's terrific!

Coconut Macaroon Pie

- 1/2 recipe pie crust
- 1/4 teaspoon salt
- 3 egg yolks
- 1 1/2 cups sugar
- 1/4 cup milk
- 2 tablespoons butter, melted
- 1 teaspoon lemon juice
- 3/4 teaspoon almond extract (optional)
- 1 1/2 cups shredded coconut, cut
- 3 egg whites, stiffly beaten

Line a 9-inch pie pan with pastry, rolled 1/4-inch thick. Flute edges. Chill. Add salt to egg yolks and beat until thick and light. Add sugar, 1/2 cup at a time, beating well after each addition. Add milk, butter, lemon juice, and almond extract. Blend well. Fold in coconut and egg whites. Turn into pie shell. Bake in moderate oven (375° F.) 50 minutes, or until knife inserted comes out clean.

Favorite Recipes

If you are one of those people who always serve vegetables the same way, then you'll welcome these recipes which offer enticing variety.

Green Beans with Mustard Sauce

- 1 1/2 lbs. green beans, cut in slanted crosswise pieces
- 2 tablespoons butter
- Pepper
- 1 tablespoon prepared mustard
- 1 tablespoon flour
- 1 teaspoon salt
- 1 egg yolk slightly beaten
- 3/4 cup milk
- 3 teaspoons lemon juice

In covered saucepan, cook beans in 1 inch salted boiling water, 10 to 20 minutes. Meanwhile, melt butter in double boiler. Stir in pepper, mustard, flour and salt. Add combined egg yolk and milk. Cook, stirring until smooth and thickened—about 5 minutes. Remove at once. Add lemon juice just before serving. When beans are done, drain well, season to taste. Pour mustard sauce over them.

Vegetable Cocktail

- 1 1/2 cups asparagus tips
- 1/2 cup finely cut celery
- 1 tablespoon finely cut chicken
- 1/4 cup tiny diced cucumbers
- 1 1/2 cups tomato sauce
- 1 1/2 teaspoons lemon juice

Mix and chill thoroughly. Serve in cocktail glasses with cheese crackers.

Broccoli on Toast

- 1 bunch broccoli
- 6 slices toast
- 1 teaspoon finely chopped onion
- 2 hard boiled eggs chopped
- 2 cups medium white sauce

Wash the broccoli and scrape the stem lightly, if they are not young and tender. Cook until tender. Cut into individual portions and arrange on toast. Meanwhile, add the chopped eggs and onion to the hot white sauce and pour over the broccoli.

Asparagus Trifle

- Cooked asparagus tips
- Thick slices of tomatoes
- Grated cheese
- Crisp bacon
- Toast points

Place the asparagus tips on the slices of tomatoes. Sprinkle generously with grated cheese. Serve on a platter, garnish with toast points and crisp strips of bacon.

Opening Car Door Is Dangerous Way To Signal A Turn

Ever open your car door to signal a turn? Several drivers have gotten into serious trouble on Wisconsin highways in recent weeks while using this non-standard means of signaling intention to turn, declares the safety division of the motor vehicle department.

If a vehicle is lacking in mechanical turn signal devices, the standard hand signals should be used, the safety division says. To turn left, the left arm is extended straight out, to turn right, the arm is bent at the elbow, with hand extended straight upward. When signalling sudden stop, the left arm is extended downward. Proper "positioning" of the vehicle is important, too, making sure one's car is in the correct lane.

The easiest way to soften the human body is to pamper it.

Piquant Spinach With Beets

- 1 lb. spinach or other greens
- 1/4 cup butter
- 1 cup minced cooked beets
- 2 tablespoons vinegar
- Pepper-salt
- 2 hard boiled eggs chopped

Cut root ends, tough stems, and yellow leaves from spinach. Cook spinach tender in tightly covered saucepan 10 to 15 minutes. Drain, chop coarsely. Melt butter in saucepan, add beets. Heat. Add vinegar, pepper, salt, chopped spinach and chopped eggs. Heat and serve.

Curried Cabbage

- 6 cups shredded cabbage
- 1 teaspoon minced garlic
- 2 tablespoons butter
- 1 teaspoon curry powder
- 1 teaspoon salt

Wash and shred cabbage. Saute garlic and butter in a large skillet 2 minutes. Stir in curry powder, cabbage and salt. Cook, covered until tender, about 10 minutes, stirring occasionally. If desired 1 cup of canned tomatoes may be added just before cabbage is done. Season to taste.

Pineapple Cabbage Salad

- 1 small can crushed pineapple
- 1 cup finely shredded cabbage
- 1/2 box marshmallows cut in pieces
- Lettuce
- Salad dressing

Drain pineapple. Mix with cabbage and marshmallows. Serve on lettuce with salad dressing.

Today's Pattern

9343

SIZES -

10-16

by Marjorie Martin

Pattern 9343: Teenage Sizes 10, 12, 14, 16. Size 12 takes 4 1/2 yards 35-inch; 1/2 yard contrast.
Send THIRTY CENTS in coins for this pattern to 170 Newspaper Pattern Dept., 232 West 18th St., New York 11, N. Y. Print plainly SIZE, NAME, ADDRESS, STYLE NUMBER.

Furniture Fashions

Early American—or American Provincial—furniture designs are perennially popular and are always in perfect taste. If you would like to provide a charming setting for your family heirlooms—old prints, china, glass, ornaments, etc., you can't do better. A number of new fabric patterns for draperies and upholstery covers have been designed as a special complement. This solid rock maple dining grouping combines true beauty with down-to-earth practicality. The table is 48 inches in diameter and extends to 78 inches. The 22-inch Lazy Susan, so convenient for those who use a multiple number of condiments, is removable. The server in the background provides ample storage space for silver, linens, china, table accessories, etc. The ruggedly comfortable Captain's Chairs have pine seats. Never before has the homemaker had such a wide variety of excellent designs to choose from at such reasonable prices.

WEIRD ONES—Bernice Shelly and Herman Huseby of New York provided the eerie touch of the recent Dream Ball of the Art Students' League at the Waldorf-Astoria in New York. Bernice and Herman, representing the "Idol of Eternity" and the "Celestial Flame," walked off with second prize.

BIGGER AND BETTER—Previously scattered in four different buildings, the U. S. Embassy in Mexico now occupies this modern 17-story structure on the Paseo de la Reforma in Mexico City. The only U. S. Embassy in the world larger than this one is in England.

CARD OF THANKS

To our relatives and friends who expressed their sympathy in so many beautiful and practical ways during our bereavement, the death of our dear husband and father, Julius Dreher, we extend our heartfelt thanks. Special thanks to Rev. Rodentz, organist, pallbearers, drivers, donors of floral pieces and memorial tributes, to the firemen for their prompt and efficient ambulance service, to the traffic officers, Miller's, to all who showed respect by calling at the funeral home or attending the funeral. Mrs. Richa Dreher and Children

A Profitable Business and a Good Investment

POINT VIEW TAVERN

Located in the hamlet of Waucousta, in the Kettle Moraine area, 17 miles south of Fond du Lac and 15 north of West Bend on busy U. S. Highway 45 and Wisconsin Highway 55, the most direct route to the north woods.

This modern two story building is 40 ft. x 28 ft. in size. The upstairs consists of three bedrooms, living room and bath, with hardwood floors throughout. Downstairs we have a 20x13 ft. living room, dining room combination with an open archway connecting them. These rooms are beautifully finished in knotty pine with its natural color preserved, together with new durable asphalt tile floors. Modern kitchen, 10½x8 ft. with facilities for serving meals. Also modern convenient rest rooms for men and women.

Large barroom, 17x20 ft., all furnished in attractive knotty pine with the same hard finish asphalt tile flooring throughout. There is a fully equipped 28 ft. bar with 12 bar stools, four tavern tables, all lighting equipment, neon signs and transformers, candy racks, cash register, blue flash refrigeration cabinet, clock and venetian blinds throughout the building, also bottle gas range, hot water heater, juke box and pool table. Building is heated by oil burning furnace.

This property is located on one of the busiest arteries to the north woods. It is situated on a 1½ acre tract which could very profitably be used as a wayside, or as a site for a tourist court or drive-in. Eight lakes within eight miles. One-quarter mile to public school; bus to high school; one block to grocery and garage. An excellent location, a real profit maker, and an ideal investment.

Building will be open for inspection up to the time of sale. Approximately \$111,000.00 can be financed.

Sale Conducted by BARTELT REAL ESTATE AGENCY, Kewaskum, Wis.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK — Product and package design has become a \$100 million-a-year, big business in America and all because of two principal reasons, according to Walter F. Margulies of Lippincott & Margulies, industrial design firm.

The reasons are: The eye-appeal factor in the buying habits of women, who make 85 per cent of all purchases; and the mushrooming growth of self-service retailing. The \$100 million is spent solely for appearance and nothing else.

These and other facts were brought out by the company's survey of firms like itself and the design departments of major companies.

The importance of product design has always been accepted but the great concentration on packaging design is comparatively recent. Margulies believes that the trend towards self-service retailing cuts down the number of salesmen available to make a sales talk and the product, thru its own eye-appeal and attractiveness of display, must sell itself.

Self-service alone does not account for the booming expenditures for design, though. The survey indicates that automobiles—which the customer will never be able to pick off the shelf on an impulse—account for the largest share of payments to the people who contrive eye-catching "packages."

PAYOFF—The full benefits of the Conference on the Future, sponsored by the Mutual Insurance 200th Anniversary Committee in New York, will be revealed next October in Philadelphia when mutual fire and insurance associations meet to climax the bi-centennial year.

Special committees have been appointed and are already at work on the material presented by 12 recognized scientists and scholars at the conference. The speakers traced the development of their specific fields over the last 200 years and made "informed guesses" on what may occur in the future.

The committee will spend several months studying the presentations and will make specific recommendations for action by mutual insurance in the light of the valuable material obtained at the conference.

THINGS TO COME—A whirlwind cleaning brush is now equipped with an attachment which automatically feeds a detergent through a tube in its handle.

An inexpensive packaged water system for small homes, shops and service stations sells for less than \$100. It holds 12 gallons of water and features a reciprocating-type pump with an automatic pressure switch and a motor which cannot be overloaded.

Huge barbecue frying pans come in two sizes—10 and 12 pounds—and can fry six chicken halves at once. Everything from tin cans to tree stumps can be picked up by the huge vacuum cleaner on the latest highway cleaning machine, the maker claims.

Wide-angle lenses in a new pair of binoculars provide sports fans with a full view of sporting events.

FRESHER THAN FRESH—A new method of cooling sweet corn on the farm and packing it in ice in wet-proof, triple-wall bags promises something new in the way of flavor and tenderness.

The method was used in a test shipment last year, according to A & P Food Stores, which has participated in the experiment. Corn was shipped several hundred miles and looked better on arrival than at departure.

You see, the flavor and general quality of a kernel of corn are keyed directly to its sugar content, which is rapidly changed to starch by heat from the sun and heat generated in the husk. The new method slows or stops that process.

The new system using wet-proof bags will be used in many growing regions this summer and is expected to provide consumers with a better product and create a much broader market for producers.

BITS O' BUSINESS—The Bakers of America Program is launching a nation-wide campaign setting up July as National Picnic month and intensifying the promotion of its theme "Summer Time Is Sandwich Time" . . . About 560,000 telephones were installed by the Bell System during the first quarter—bringing the total in operation to almost 38 million . . . Winter wheat production will be about 946 million bushels, the third largest winter wheat crop in the nation's history . . . Refined copper shipments amounted to 112,625 tons in March. February shipments totaled 108,795 tons.

The right time to fall in love seldom has anything to do with the action itself.

Marines Revive Summer Training For Reserves

A full-scale summer training program for Marine Reservists, the first since the outbreak of Korean hostilities in June 1950, will get underway this month at Marine bases on both coasts, the Marine Corps announced today.

The Fourth Infantry Battalion will undergo its two-week training period from 15 to 30 June. The unit will be air-lifted to Camp Lejeune, N. C., on the 15th and will return to the Twin Cities area at the end of the program. It is expected that about 100 officers and men from the newly organized unit will participate.

The Marine Air Detachment plans to consolidate the training of Marine Fighter Squadron 213 and the recently activated Marine Ground Control Intercept Squadron 16 in the Twin Cities-Bemidji area. The summer training program for the Marine Air Reservists will be conducted during the period 16-30 August.

Annual field training for Marine Reservists was cut short in 1950 with the rapid mobilization of all organized ground units and the eventual ordering to active duty of Reserve aviation squadrons for duty during the Korean emergency. For the same reason, training plans for the summer of 1951 were suspended.

The Marine Corps started rebuilding its Reserve in October 1951, a few short months after it began releasing its Reservists to inactive duty. Organized ground units now activated throughout the country number nearly 100, with an additional 42 Reserve squadrons located at 25 Naval Air Stations.

Setting a precedent among its sister-services, the Marine Corps also has established separate platoon-size units for its Women Reservists. The platoons were first established in April 1949. When the reserve was mobilized in 1950, 13 of them reported for active duty. These platoons are attached to larger ground units and receive training in military specialties such as administration, supply, disbursing, and classification, as well as basic subjects. Women platoons will attend summer training at the same time as parent units.

Because re-establishment of organized units has been underway for only a little more than six months, the Corps expects attendance at this year's summer training to be less than during the years following World War II. Combined attendance from the organized and volunteer components, however, is expected to reach about 8000 officers and enlisted personnel this year.

The Marine Reserve reached a strength of more than 128,000, combining ground and aviation, following World War II. About 90 per cent of the personnel with ground units were called to active duty shortly after United Nations' forces were committed in Korea. At that time, the organized Marine Corps reserve totaled 138 ground units and 42 aviation squadrons. A considerable number of volunteer reservists were also ordered to duty for the Korean emergency.

Plans for the post-Korea Reserve include 184 ground units and 42 aviation squadrons to be established by June 30 of this year. Included are 14 Women Marine Platoons. A substantial increase in the number of units is planned during the coming fiscal year.

Plans for the post-Korea Reserve include 184 ground units and 42 aviation squadrons to be established by June 30 of this year. Included are 14 Women Marine Platoons. A substantial increase in the number of units is planned during the coming fiscal year.

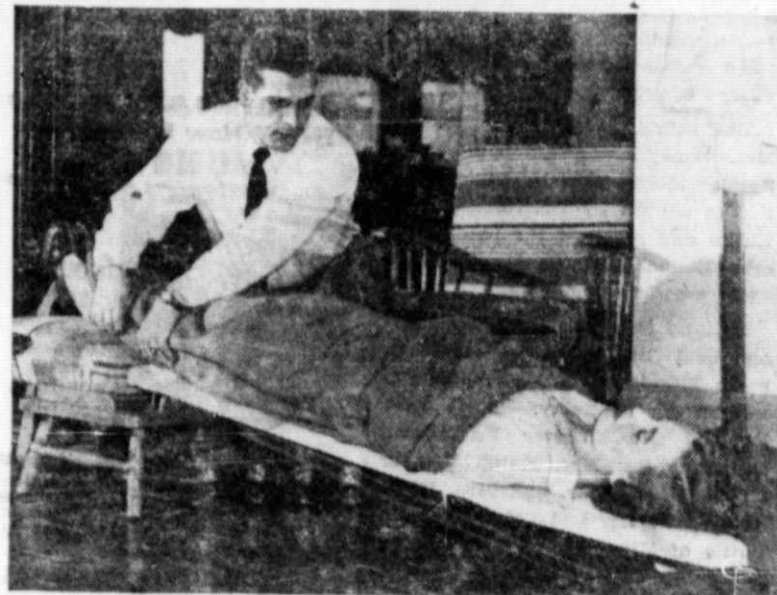

SOON HIS "SON"—Sgt. Raymond Hill of Joplin, Mo., demonstrates the art of G.I. bed making to six-year-old Chong So Yong, a Korean orphan he wants to adopt. In Missouri Mrs. Hill and daughter Vicky Lynne, 3, are awaiting the arrival of Vicky Lynne's "new brother." Slated for return to the U. S., Sgt. Hill plans to stay in Korea until securing the adoption.

FIRST AID for Everybody

IV--Prevention and Treatment of Shock

(This is another of a series of articles, written especially for Central Press Association and this newspaper on first aid, a subject gripping the nation in the light of threatened atomic aggression. The articles are based on the American Red Cross First Aid course. First aid principles, applicable to atomic as well as other disasters, are outlined. The Red Cross offers a 22-hour course free which teaches fully the technique of first aid.)

Except in cases of head injuries, feet of shock victims should be elevated.

By Central Press

SHOCK IS EASIER to prevent than to cure, so the Red Cross textbook on first aid teaches the first aiders to begin treatment of injured persons immediately without waiting for symptoms of shock to develop.

In case of severe bleeding, bad burns, broken bones, crushing injuries, shell, bomb and bullet wounds treatment of shock is urgent. The kind of shock that comes with severe injuries is a state of collapse in which all bodily functions are depressed due to failure of circulation.

Other factors—pain, rough handling, improper transportation, continued bleeding, exposure to heat and cold or fatigue—may contribute to it. The aged and the very young are likely to suffer most.

THE FOLLOWING points are listed in the first aid directions for treatment of shock:

Keep the patient lying flat. If the injury is severe, raise the feet 12 inches or so, except for head injuries. If there are chest in-

juries, raise the head and shoulders slightly so the victim can breathe. Never force a victim to stand. Even if a wall is falling after a bomb blast, it is better to drag him away on a coat or by his coat collar rather than make him walk.

The victim should be kept warm, not hot. Cover him with a blanket, coats or newspapers. Place covering under him for protection against dampness and cold. Even in an atomic catastrophe, don't permit him to stand if it can possibly be avoided. Here the standard Red Cross course may be followed.

Don't ever give water or other liquids to an unconscious person. If he is conscious and can swallow and is not nauseated, he may be

given small amounts of warm water, broth, milk, tea or coffee. You may need to feed him with a spoon. Do not give liquids, however, if there is an abdominal injury.

The use of stimulants in first aid treatment of shock is without value. The textbook points out that although coffee and tea are stimulants, they are given for their heating values.

The victim, it is emphasized, should not be disturbed by unnecessary questioning or handling. Utmost care to minimize pain should be taken and bleeding must be stopped.

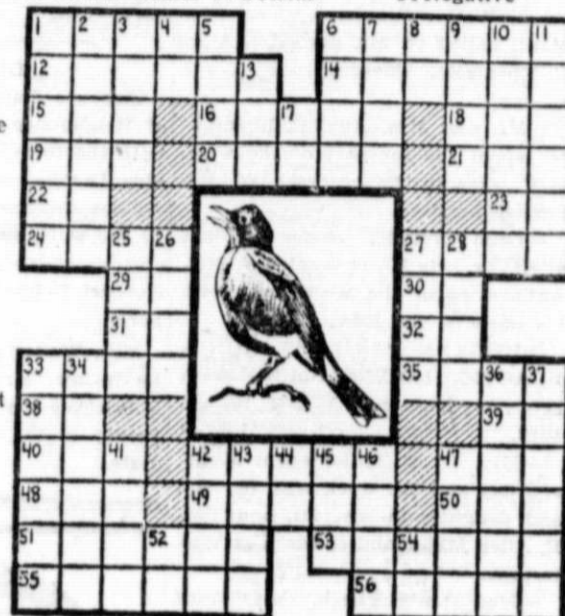

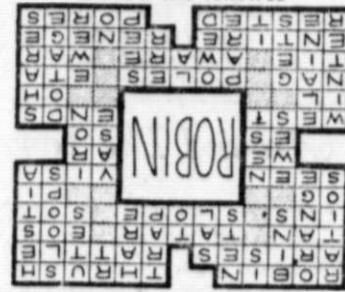

(Tomorrow's article will deal with burns.)

Here's the Answer

Sports Afield

By Ted Kesting

Anyone who does much outdoor living soon learns that the most important single item of personal equipment is what goes on his feet. Hat, coat, pants, shirts can be of any quality from indifferent to good, but the boots and shoes must fit well and wear well or the day or trip can be spoiled completely.

Bill Wolf says "Footgear that doesn't function properly is a painful and uncomfortable abomination." Unfortunately since there is no one all-purpose boot or shoe, it is necessary to own a number of kinds—as many as your pocketbook will afford—if you are to be properly shod for outdoor activities. This is a big expense so it pays to take proper care of your footwear.

The chief items in the care of leather shoes and boots are a tin of Propert's or some other good saddle soap, waterproofing

and leathersoftening compound, and lots of elbow grease. You can't waterproof a dirty boot, so clean it first with saddle soap. Then, apply the waterproofing. Neat's-foot oil is the basic ingredient of most waterproofing and leathersoftening compounds, and is good by itself. However, the various commercial compounds contain other helpful substances.

Apply the dressing by rubbing it into the leather with the palm and the fingers. The body warmth from vigorous rubbing helps open the leather pores to admit the dressing. Pay particular attention to the seams, especially those where the vamp joins the sole. Rub it in. The dressing should be allowed to soak in at least overnight in a warm room before the boot is worn. Boots and shoes should be dressed after each damp day in the field.

They should never be dried by artificial heat—even in strong sunlight—because too much heat ruins the leather fibers. Several firms make a boot tree for holding open leather boots so the inside can dry.

Rubber boots and shoes should be dried thoroughly on the interior after each use, and so should waders. They should be stored by hanging upside down by the soles with one of the wire hangers on the market.

Some advise coating the outside of rubber boots with glycerin before hanging away for the winter, but I have found that a boot which has been thoroughly cleaned needs no extra care other than hanging it where the temperature will be moderate, and never too warm. Heat destroys rubber.

Gentleness brings victory to him who attacks, and safety to him who defends.—Lao-Tsze.

We can do nothing well without joy, and a good conscience which is the ground of joy.—Richard Sibbs.

A Pair of Skirts

Any resemblance to an idea long used by the man of the family is certainly accidental. The extra skirt provided with this ensemble is for double fashion. One skirt is plain as photographed, and the other, not shown, is in fine black and white checked fabric to match the coat. The whole outfit is doubly practical, too, because it is made of a durable bengaline of Celanese acetate, which is soil resistant and wrinkle-shedding. The folded cuff on the jacket is adjustable.

Unfinished

A man had been talking for hours about himself and his achievements.

"I'm a self-made man, that's what I am—a self-made man," he said.

"You knocked off work too soon," came a quiet voice from the corner.

The person who is willing to do community work usually gets the opportunity to do it.

No Change

Johnson returned to his native town after some years abroad.

"Has he changed much?" asked one who had not yet seen him.

"No, but he thinks he has."

"In what way?"

"He persists in talking about what a fool he used to be!"

Ticklers

By George

"What a dandy place to have floods!"

TRI-DIMENSIONAL WHEEL—Something new in the projection of three-dimensional movies has been invented by Alberto and Adriano Betti. Instead of giving spectators glasses, the Roman twins synchronize a projector with this revolving glass disc which has alternating mirrors and transparent segments. Two images are projected through the disc, one reaching the viewing screen, left, while the second is reflected by the mirrors to another screen, right, and from this back to the viewing screen, giving a third dimensional appearance to the movie.

TRIPLETS 84 YEARS OLD

Marlboro, Mass.—The Coughlin triplets—Faith, Hope and Charity—observed their eighty-fourth birthday here on March 27th. The oldest living triples in this region—and probably in this county—are all widows now: Mrs. Annie Faith Macdonnel, Mrs. Ellen Hope Daniels and Mrs. Nora Charity Murphy.

QUESTION: I would like to dig a cellar under my frame ranch style home, working through a small floor opening in a utility closet. The central girder rests on 4 piers, which are 3 feet apart. The foundation, both resting on a footing. The ground is sandy.

ANSWER: It is doubtful that you could accomplish this job without danger of collapse of the house and excavation, with injury to yourself. You'd have to move heavy shoring timbers through that small opening, and carry out tons of earth, both virtually impossible.

QUESTION: If shingles on a new home stand up at times, will they eventually settle down, or must something be done with them?

ANSWER: New shingles, being flexible, can be raised slightly by wind action. Eventually they will become brittle, and adhere to one another from summer heat, and ice flat.

QUESTION: Could you tell me how to plaster around a built-in bath tub? The plaster I put in does not seem to stick.

ANSWER: If you are using ordinary plaster on porcelain or metal, it will not stick. Go over the surfaces with fine grit sand paper to remove grease and loose particles and lightly roughen the surface, then apply one of the special tile patching cements now available in hardware stores. They will stick.

QUESTION: We have been mopping around a kitchen utility closet, and when we move it there are rust spots on the linoleum? How do I remove the spots, and prevent them?

ANSWER: Rust stains can be taken from linoleum with lemon juice, or by scrubbing with steel wool. Set the cabinet on short wood blocks to keep the metal base from contact with water when mopping takes place.

This column is prepared by the editors of THE FAMILY HANDYMAN MAGAZINE as a service to home owners. If you have any questions or problems relating to your own home, please address a letter, stating your problem to THE FAMILY HANDYMAN, 211 East 37th Street, New York, New York, Attention of News Syndicate Editor. If the question has wide spread appeal in the opinion of the editors, it will be printed with the answer in this column at a later date. However, we cannot undertake to enter into detailed correspondence with everyone.

THESE WOMEN!

By d'Alessio

"This is ONE blind date when I won't have to take the one with the glasses!"

The Sperm Whale

© 1951 National Wildlife Federation Sperm Whale

Before petroleum was pumped from wells, the world got most of its oil from whales. In those days, fleets of sailing ships roamed the seas in search of the ocean giants. Many a fierce battle was fought between men armed with harpoons and the powerful creatures whose bodies could be turned into oil.

The big fellows were waging a game, but losing battle for existence when two discoveries were made. Men found it was easier to get oil from the ground, and they learned that electricity gave better light than whale oil. Thanks to the rise of the petroleum industry and the invention of electric lights, whales were spared.

But today, says the National Wildlife Federation, they face a new threat. Whale oil, though no longer needed for lamps, is a valuable raw material in the manufacture of textiles, cosmetics, and candles. In some countries, people buy and eat whale meat.

To meet these demands, 20th Century whale hunters rove in deadly packs. Leading the chase, in each whaling fleet, is a factory ship. It is outfitted with machinery to butcher a record haul of whales on a single voyage. The crew is seldom idle, because small killer ships keep bringing in fresh victims—all of them snared by accurate, hard-firing harpoon guns.

Among the prizes caught in this way are the massive Sperm Whales. They live in all the oceans of the world, staying in warm currents when they can, but often swimming in the frigid Antarctic.

The male is among the largest of the entire whale family. He sometimes grows to be 60 feet long, and he may weigh as much as 60 tons. The female Sperm Whale is about half as big.

Both are dark in color and shaped like gigantic tadpoles. They have big, blunt heads and powerful teeth. With the aid of their side flippers and their broad, forked tails, they can swim at speeds of three to four knots with ease. When pursued, they can plow ahead at ten or twelve knots. For food they eat mostly squids or cuttle-fish, but

Back to Earth
"Darling," said the sentimental young man, "wouldn't you like to beam—just you and me together—towards those twinkling stars where all is infinite, even love. Ah we could dwell in eternal bliss far from—"

"Oh, I couldn't Jimmy—not tomorrow," interrupted the girl. "I have an appointment with my hair-dresser at four."

Seeing Is Believing
Woman: Do you have a very large piece of beef?
Butcher: Yes, ma'am.
Woman: Would you please cut off 15 pounds in one piece?
Butcher: Here you are, Ma'am. Shall I wrap it up?
Woman: No, I just wanted to see what 15 pounds looked like. That's how much I lost on my diet.

Now You Know
It was late when the daughter of the house came down to breakfast. Her mother greeted her with a smile.

"Darling," she said, "you were awfully late coming in last night. I'm afraid I'm dreadfully old-fashioned, but I should like to know where you go."

The daughter smiled. "Certainly I'll tell you Mummy," she replied. "I dined with—oh, well you don't know him anyway; and then we went to several places and that I don't suppose you've been to; and we finished up at a queer little club—I forget its name. It's all right, isn't it, Mummy?"

"Of course it is, darling. It's only that I like to know."

STRICTLY BUSINESS by McFeatters

"Can't you speak more clearly, Mr. Pottleby?"

SEA POWER AT MALTA—Anchored in Sliema Creek, destroyers and frigates of the British Home and Mediterranean fleets make an imposing picture against the background of the Malta waterfront. Commanded by Adm. Sir George Cressy, the fleet is carrying out spring exercises.

Watch For Youngsters On Foot, On Bicycle

Warmer weather and longer days will mean youngsters will be outdoors more frequently and for longer periods.

For drivers, this is a sure sign of spring, and a signal to double alertness at the sight of any children seen near the street or highway. Youngsters will be using their bikes more, now that roadways are clear of snow and ice. They'll be using their wagons, scooters, roller skates, kites, jumping ropes and engaging in the games that boys and girls love to play.

The safety division, state motor vehicle department, reports that in 1951, Wisconsin traffic accidents cost the lives of 28 preschool tots, 23 children between five and nine years of age, 20 children between 10 and 14 years old, and 90 teen-agers between 15 and 19 years.

"GOD'S PROVIDENCE"

Grand Rapids, Mich.—Paralyzed and unable to walk since she suffered a fall six years ago, injuring her spine, Betty Postema is walking again as the result of another fall. Doctors say the second fall apparently freed adhesions. Betty says, "It was something that happened in God's providence."

sometimes they gulp down larger creatures.

From the time they are born, at a length of ten or twelve feet, until they reach full size, Sperm Whales grow thick layers of blubber around their bodies. It is from this coating of fat that much whale oil is taken. An even finer grade of oil comes from their heads.

Besides oil, the Sperm Whales sometimes produce a valuable substance called ambergris. It is a gray or blackish mass of material which forms inside them when they are sick. Though to look at, it is a highly prized ingredient in the making of fine perfumes. A 400-pound chunk of ambergris once sold for more than \$100,000.

ON THE BALONEY LINE—During the recent floods an army of dike workers had to be fed and people like Marjorie Sittler, an insurance clerk, stepped forward to lend a hand. Marjorie's shown above in Omaha, Neb., as she skinned part of the 25,000 pounds of baloney the Salvation Army served in the Omaha area.

ANSWERS TO Intelligence Test

1—horse. 2—Superior. 3—Greece. 4—Chaucer. 5—a guide book. 6—Virginia. 7—(A) France; (B) Britain; (C) Portugal; (D) United States.

EDITOR THE MILWAUKEE JOURNAL WOMAN'S PAGES

"Gimmicks" seem to hold special interest for every woman—club leader, working girl and sweet young housewife. But for the style conscious woman, be she 14, 40 or 64, the fashion "gimmick" proves almost as interesting as a man from Mars, says Betty Ann Gimmicks are fun, gay, crazy and above all, decidedly different! For proof positive, we want to cite current "gimmicks" which are winning favor with Hollywood film folk.

Edith Head, screen designer, is adding patch pockets to spring petticoats. Miss Head adds one large pocket or a series of small ones near the hemline of her favorite petticoats. Then she uses the pockets as "carry-alls" to house her mad money, handies, lipstick and other feminine necessities.

Starlet Barbara Rush has a detachable peplum of fine braided straw which she teams with simple, cotton afternoon frocks. Artificial and real flowers of matching or contrasting colors spill out of the corners of the peplum, giving each dress flower freshness.

Instead of shortie coats or waist length "toppers," pretty Teresa Wright favors brief artists' smocks of lettuce crisp organdy, starched lace and striped silk. The smocks are just below the waist length, have balloon sleeves and pleated or gathered backs. They're ideal toppers for bare date frocks or strapless evening gowns.

Favorite "gimmick" of Marion Marshall is the dress bib. This young leading lady has bits of all shades and fabrics. She ties them round her neck, baby style, and frosts them with embroidered monograms, miniature nose-gays, appliques of suede, gold and silver charms and large triangles of red, blue, green and gold brilliants. Once again, a girl's best "fashion friend" is her ingenuity, not her pocketbook.

These pretty pastel salad bowls make a springlike luncheon or dinner salad. Combine crisp shredded lettuce with carrot shreds, pineapple chunks and smooth buttery rich avocado. Toss lightly with a lemony french dressing so as not to bruise the delicate avocado.

Ingredients are one avocado, one and one-half cups shredded carrot, one cup drained pineapple chunks, two cups crisp shredded lettuce, lemon french dressing and salt and greens.

Cut avocado into halves lengthwise and remove seed and skin. Cut avocado into cubes. Combine with carrot, pineapple and lettuce. Toss together lightly with lemon french dressing. Serve in individual salad bowls lined with crisp greens. Serves six.

Feeling low at the sight of dishes and piles of laundry, streaked floors, and a ring around the bathtub? Get the soap suds going on one job at a time, say the experts, instead of staring at all your household duties at once. The first piece of work accomplished gives the satisfaction that carries you through the next.

Maraschino Cherry Cake

For large cake, grease and flour two nine-inch layer pans or 13 by 9 inch oblong pan. Sift together three cups sifted cake flour or two and three-fourths cups sifted flour, one and three-fourths cups sugar, four teaspoons baking powder and one teaspoon salt. Add two-thirds cup soft shortening, one-third cup juice from cherries, two-thirds cup milk and 16 maraschino cherries, cut in eighths. Beat for two minutes. Add five egg whites (two-thirds cup), unbeaten. Beat for two minutes. Fold in one-half cup chopped nuts.

Pour into prepared pans. Bake. Cool. Finish with cooked white frosting made with cherry juice in place of water. Decorate with bright red cherries. Temperature: 350 degrees (moderate oven). Time: Bake 30 to 35 minutes for layers; square or oblong 35 to 40 minutes.

For small cake, follow the above procedure, using there ingredients: Two and one-fourth cups sifted cake flour or two and one-eighth cups sifted flour, one and one-third cups sugar, three teaspoons baking powder, three-fourths teaspoon salt, one-half cup soft shortening, one-fourth cup juice from cherries, one-half cup milk, 12 cherries, four egg whites (one-half cup), unbeaten; three-eighths cup chopped nuts. Use two eight-inch layer pans or nine inch square pan.

Village Board

(CONTINUED FROM PAGE ONE) placing of another street light standard on Main street. Also that the Electric Co. furnish the Village of Kewaskum recommendations and an estimate of cost for the addition of transformers in the park and also for the addition of transformers to the street light system.

Motion by A. Martin, seconded by E. Schaefer and carried that the land owned by the Water Dept. west of its No. 1 pump house be used for village purposes only.

Motion by M. Schaefer, seconded by L. Kohn and carried that the Recreation Committee present at the next board meeting a program for the children's summer recreational activities.

Motion by G. Hansen, seconded by A. Martin that the village appropriate one hundred dollars (\$100) to the Robert G. Romaine Post 384, American Legion to help defray the Memorial Day expenses.

Motion by L. Kohn, seconded by J. Eberle and carried that the accounts receivable of the Water Dept. be turned over to the village attorney for examination and the collection of all past due accounts.

The report of Accountant Ralph J. Marx on the audit of the records of the Kewaskum Municipal Water Dept. was read to the board. Motion by M. Schaefer, seconded by L. Kohn and carried that this report be accepted as read and placed on file in the commissioner's office.

Motion by G. Hansen, seconded by E. Schaefer and carried that the 2% fire dept. dues received from the State of Wisconsin be added to the fire dept. budget appropriation.

Motion by G. Hansen, seconded by E. Schaefer and carried that the village auditor be consulted on the advisability of making an audit on the State Treasurer's income tax allotment.

The sewer committee was instructed to check on the advisability of installing a storm sewer on Clinton street near the Ed. Schaefer residence.

Motion by L. Kohn, seconded by J. Eberle and carried that Elsie's Flower Shop be authorized to plant the flower box in the lobby of the Municipal Building.

Motion by A. Martin, seconded by E. Schaefer and carried that all bills and wages as recommended by the finance committee be allowed and paid.
