

Month-Long Polio Drive Launched in County This Week

The month-long 1953 March of Dimes was launched in Washington county and throughout the nation over the week end, with polio fighters everywhere still reeling under the impact of 1952, the year of polio's severest epidemic.

Both Michael Goring and Alan Pick, co-chairmen for the 1953 drive in the northern portion of Washington county, joined with Ray Jeffords of Hartford, chairman of the southern portion, in announcing the opening of the drive. Volunteer chairmen for the various townships and villages in the county are being contacted at this time, and a full list of these volunteers will be published in a future issue of the Statesman.

An estimated million and a half Americans are set to raise more money than ever before to provide vital ammunition for the fight against polio. It is estimated that 80,000 patients received direct financial aid from March of Dimes in 1952. Of these, over one-half were stricken in previous years, but still needed and received help.

In commenting upon the need for a month-long campaign, Washington county's chairman agreed with Paul O'Connor, president of the National Foundation, who noted that, "It appears that polio is mobilizing all of its forces to attack mankind. But, meantime, scientists supported by March of Dimes research grants, are approaching closer to conquest of the disease. We must not falter now, and we must contribute more than ever before to the 1953 March of Dimes."

A "Mothers March on Polio," similar to the Porelight Parade which was so successful here last year, will be held again in 1953, Chairman Goring announced. The drive in Washington county will be held on Thursday, January 20. Further details on this part of the campaign will be announced later.

Fifty per cent of all money contributed to the March of Dimes is used by the Washington county chapter to help pay costs of treating local patients, or, in emergencies, polio patients elsewhere. The other half is used to finance the research, professional education, and epidemic aid programs of the March of Dimes organization.

Of the 300,000 cases reported in the past 15 years, almost two-thirds were stricken since 1948. Last year set an all-time record, with more than 55,000 cases reported in the nation.

This, in spite of a record March of Dimes last year, the National Foundation for Infantile Paralysis entered 1953 with unpaid bills to the tune of \$7,000,000. This marks the fifth successive year that the polio fighting organization has wound up in the red.

In an effort to win this grim struggle with the only epidemic disease still on the increase in America, local members of the March of Dimes organization have arranged a full month's schedule of events designed to raise more money in 1953. These events will be announced throughout January.

KAREN ANN KOHN IS BAPTIZED SUNDAY

The daughter of Mr. and Mrs. Lester Kohn, Kewaskum, was baptized Sunday in Holy Trinity parish. The name given her is Karen Ann. Sponsors were Kathryn Kraemer of Campbellsport and Clayton Kohn, Jr. A five o'clock dinner was served to the following guests in honor of the occasion: Mr. and Mrs. Alfred Ludwig, Mr. and Mrs. Mike Kohn, Sr., Kathryn Kraemer, Clayton Kohn, Jr., Mr. and Mrs. Clayton Kohn, Sr., Mr. and Mrs. Wallace Engelmann. The baby wore her father's baptismal dress.

NOTICE OF ANNUAL MEETING

The annual meeting of the Auburn German Mutual Fire Insurance company, for the election of directors, and to transact such other business as may properly come before such meeting, will be held at Lawrence Boccaccio's hall in the village of New Fane, Wisconsin, on the twentieth day of January, 1953, at 1 p. m.

Local Hearing Program Volunteers Attend Class

Local volunteers attending a training class conducted by J. D. Marx, state hearing consultant, at the municipal building on Dec. 2. These following volunteers are giving the audiometric tests in the schools in this vicinity from Jan. 5 to Jan. 15: Mmes. W. P. Schneider, Joseph Miller, E. E. Miller, Robert Kauth, Donald Koerble, Dan Scheid, Theo. Rohlinger, John Raschbacher, Marvin Martin, Clyde Smith, Henry Rosenheimer, Louis Oppenorth, Allen Tessier, David Hanrahan and Charles Miller. The schools where these tests are being conducted are: Kewaskum Graded, Kewaskum High, Holy Trinity, St. Michaels, Spring, Mullen, Kohlsville, Marx, Elm Grove and Schnurr.

All Washington county pupils will receive the hearing tests during January. The Bureau for Handicapped Children has formulated a plan by which each county will have a hearing program every three years. Those children who failed the volunteers' hearing tests will be rechecked by Mr. Marx, hearing consultant, during the week of Feb. 5. He will determine which children should attend the Otological clinic on March 5.

Kathryn Ann Kempf is New Year's First Baby

The New Year's first baby born at St. Joseph's hospital, West Bend, is Kathryn Ann Kempf, daughter of Mr. and Mrs. Marvin Kempf, R. 2, West Bend, who was born only a few minutes after the beginning of 1953. The time of birth was listed as 12:27 a. m. on Jan. 1 and the attending physician was Dr. R. G. Edwards of Kewaskum. The Kempf family has two other children, Ronald Lee, 3, and Dale Allen, 1. Kathryn Ann is Washington county's first baby of 1953 as far as is known.

The little girl has four grandparents and four great-grandparents living. The four generations living on her mother's side are her grandparents, Mr. and Mrs. Manville Schneider, R. 1, Adell, and her great-grandparents, Mr. and Mrs. Charles Backhaus, R. 1, Adell. The four generations living on her father's side include her grandparents, Mr. and Mrs. Ervin Kempf, R. 1, Kewaskum, and her great-grandparents, Mr. and Mrs. Fred Kempf, Sr.

LOCAL RED CROSS RECEIVES URGENT APPEAL FOR NURSES

Miss Clara B. Jaehrig, executive secretary of the local chapter of the American Red Cross, received an urgent appeal for polio nurses from Helen Flanagan, midwest director of the Red Cross Nursing Service. Nurses are needed at once in Topeka, Kansas, according to the telegram which arrived last week.

Inactive registered nurses who wish to sign up for a minimum two-month period are asked to contact Miss Jaehrig at the Red Cross office in the library building, West Bend. Their transportation will be paid to and from Topeka by the Red Cross, while the National Foundation for Infantile Paralysis will take care of their quarters and living expenses. Salary for the two months is \$275 per month.

More Betrothals Are Made Known

Mr. and Mrs. Emil J. Schmitz, R. 2, Campbellsport, announced the engagement of their daughter, DeLores, to Dick Pfaertsch, son of Mr. and Mrs. Roland Pfaertsch, of Milwaukee on New Year's. Miss Schmitz is employed in the office at L. Rosenheimer, Kewaskum.

The engagement of Miss Judy Nigh to Jerry Striegel, son of Mr. and Mrs. Ray Striegel, 503 Greenwood Road, Kohler, was recently announced by her parents, Mr. and Mrs. Walter Nigh, 234 Elizabeth st., Plymouth. The Nighs are former residents of the town of Auburn, near Kewaskum. Miss Nigh is employed in Milwaukee. Her fiancé is a dental technician in the U. S. Navy.

Circuit Judge Louis J. Fellenz Died Thursday

Circuit Judge Louis J. Fellenz, 70, of Fond du Lac, died at his home Thursday, Jan. 1, shortly after 10 p. m. following a heart attack. The circuit over which he was judge comprises Adams, Columbia, Fond du Lac, Green Lake and Marquette counties. He announced his retirement Dec. 16 effective Jan. 4, 1954.

He was born in the town of Ashford. He attended district schools and Oshkosh State Normal school. He taught in Ozaukee county from 1901 to 1902 and received his law degree from the University of Wisconsin in 1907.

Judge Fellenz practiced at Fort Atkinson two and a half years, then returned to Fond du Lac where he was elected district attorney. He served in this capacity until 1919. In 1928 he was elected state senator from the 8th district as a Republican and served until 1934. He was appointed circuit judge in 1947 to succeed Clayton F. Van Pelt, who resigned.

Surviving are his wife; one son, Atty. Louis J. Fellenz, Jr. of Fond du Lac, and two daughters, Mrs. Betty O'Connor of Fond du Lac and Mrs. G. Afieldt of West Allis. Private funeral services were held at the Zacherl Funeral home, Fond du Lac, at 2 o'clock Saturday. His body was cremated.

FINAL PLANS MADE FOR WOMAN'S CLUB BANQUET

Final arrangements have been made by the Kewaskum Woman's club to hold its annual banquet at the Bauer Hotel, Campbellsport, on January 17. The cocktail hour will be from 6 to 7 p. m. and family style chicken dinner will be served promptly at 7. Price: \$2.25 per person.

Anyone who has already sent in their cards and would like to bring guests can call Mrs. L. N. Peterson. Music will be furnished for dancing and cards will be played. Mrs. Peterson, the chairman, has asked that all cards be sent in by Saturday, January 10, as reservations should be completed by the following Monday.

BIRTHS

BERNARD—A son to Mr. and Mrs. Ivan Bernard, Kewaskum, Saturday, Jan. 3.
FLYNN—A daughter to Mr. and Mrs. Milton Flynn, Kewaskum, Saturday, Jan. 3.
LAWRENZ—A son to Mr. and Mrs. Jacob Lawrence, 1129 N. Milwaukee st., Milwaukee, at Milwaukee County General hospital, Thursday, Jan. 1. Mrs. Lawrence is the former Viola Perkins, daughter of Mr. and Mrs. Dorwin Perkins, Kewaskum. A picture of the baby appeared in the Milwaukee Sentinel along with other New Year's day babies.

HOSPITAL NEWS

Mrs. Dorothy Guggisberg, Kewaskum, is a patient at St. Joseph's hospital, West Bend, where she is submitting to medical treatment.

Mrs. Ellen Stelplflug, Kewaskum, was a patient at the hospital several days.

Chevs Beat Dalers For Fifth in Row

LAND OF LAKES STANDINGS

Team	Won	Lost
KEWASKUM	5	1
Mayville	5	1
Random Lake	4	2
Horicon	3	2
Oakfield	3	2
Watertown	3	2
West Bend	3	4
Slinger	1	4
Hartford	1	5
Rosendale	1	5

Results last week end—Kewaskum 58, Rosendale 48; Mayville 59, West Bend 58; Mayville 71, Slinger 48; Random Lake 66, Horicon 63; Watertown 56, Hartford 55.

Games Saturday, Jan. 10—Watertown at Rosendale, Random Lake at Hartford, Slinger at Oakfield. Games Sunday, Jan. 11—Random Lake at Kewaskum, Slinger at Horicon, Hartford at Mayville, Oakfield at Watertown.

Kewaskum won its fifth straight Lakes game at Rosendale Saturday night, 55-43. Although the league leading Chevrolets won their game, they now share first place with Mayville, which team tied them by virtue of two victories over the week end. Mayville is the team that beat the Chevs in the season's opener there.

Wayland Tessier had his best night of the season at Rosendale and paced his team in the win with 16 points, followed by brother Alvin with 10. Allison, high scoring Daler guard, led both quints with 17 points. Center Brooks contributed 12 for the losers.

After a close initial quarter in which Kewaskum took a slim 12-12 lead, the winners went ahead in the second period and stayed there. They tallied 15 points and Rosendale 10 to make the half time count 21-22. The scoring was pretty even again in the third period which ended 44-44 and the Chevs outscored their opponents in the final quarter to win by a margin of 48 big points.

Considering the small Rosendale floor, the game was very cleanly played, only 13 fouls being called. Both teams hit well on gift tosses, Kewaskum sinking 7 out of 8 and the Dalers 7 out of 9.

This Sunday the Chevs meet second place Random Lake here. They have the two leading scorers in the loop on their team and this will be an important contest.

Kiwanis Club New Officers Installed

Kiwanis president-elect Robert McCord of Sheboygan was present at the Kewaskum organization's regular weekly meeting Monday evening, Dec. 29, to preside over the installation of the new officers of the local club.

Installed as officers of the Kewaskum Kiwanis club were Henry Rosenheimer, president; Dr. R. G. Edwards, vice-president; Willard Bartlett, secretary, and Ralph Marx, treasurer.

Directors for the coming year are Clifford Rose, Dr. Robert Kauth, Daniel Scheid, John Stelplflug, Edward Miller, Dr. John Raschbacher, John Marx, and Lehman Rosenheimer, Jr.

Chairmen of the following committees were appointed: Agricultural Conservation—Daniel Scheid; Public and Business Affairs—Ralph Marx; Support of Church and Spiritual Aims—Roy R. Rosenbeck; Boys and Girls Work—Paul Landmann; Membership and Attendance—Carl Schaefer; Inter-club Relations—Bruce Koth; Kiwanis Education and Fellowship—Louis Bath; Public Relations—E. M. Komaine; House and Reception—L. N. Peterson; Music—Pete Ayer.

In the Service

PFC. NORMAN LUDWIG RETURNS TO KOREA

Pfc. Norman Ludwig, son of Mr. and Mrs. Vilas Ludwig, R. 2, Campbellsport, has returned to Korea. Pfc. Ludwig entered the service on March 22, 1951. He was stationed at Fort Leonard Wood, Mo. until July, 1951, and then was sent to the island of Hawaii, where he served until December, 1951, and then was sent to the island of Hokkaido, where he served with the 1st Cavalry.

PFC. DELMAR GATZKE HOME

Pfc. Delmar Gatzke, son of Mr. and Mrs. Norbert Gatzke of the town of Auburn, R. 2, Campbellsport, spent the holidays with his parents and friends. His address is as follows: Pfc. Delmar E. Gatzke R.A. 1936208, Hq. Co., XVIII Abn. Corps, Fort Bragg, North Carolina.

KOUGL RETURNS TO SHIP

John H. Kougl, RD3, left Monday for San Diego, Calif. to return to his ship, the USS. Ozburn, after spending a two week leave with his parents, Mr. and Mrs. Francis Kougl, R. 1, Kewaskum.

IT'S STILL possible for modern children to be seen and not heard.

If you play the radio loud enough.—Homer Phillips

WEST BEND MAN KILLED IN BREWERY EXPLOSION

Norbert Nennig, 28, R. 5, West Bend, was fatally injured Monday afternoon when a pressurized vat exploded at the Slinger brewery at Slinger.

It was reported that the blast occurred just after the vat had been emptied of beer by an air pressure process. Nennig apparently was going to turn off the pressure when the blast hurled him against a wall. He suffered a skull fracture, internal injuries and shock and died a few hours later at St. Joseph's hospital at Hartford.

BAND PARENTS PLAN TO HOLD BENEFIT CARD PARTY

On Wednesday evening, Jan. 7, the regular meeting of the Band Parents organization was held at the high school. It was decided to hold a benefit card party at the Legion House on Tuesday evening, Feb. 10. There will be a door prize and other prizes awarded and a lunch will be served. Tickets at 75c will be on sale by the band members. The organization authorized Mr. Ayer to purchase two alto horns. The next regular meeting will be held on Wednesday evening, Feb. 4.

HOLY NAME COMMUNION AND BREAKFAST SUNDAY

The Holy Name society of Holy Trinity church will receive monthly Holy Communion in a body during the 8 a. m. mass Sunday and this will be followed by a breakfast in the parish hall. Charles R. Fickler, Filmore, 16 10 30

New Sheriff of County, Deputies Take Office

Sheriff-elect George Brugger and his new staff of deputies of Washington county were sworn in last week at the West Bend court house. They received their badges at the same time. They took office on Monday of this week.

While a set of sheriff badges were being presented to Brugger, he handed down his No. 1 county traffic officer badge to William Johnson of Slinger. Traffic Officer Forrest Brown, Kewaskum, handed the two new sheriff badges to Brugger. Johnson, who has been on the county motor police force almost as long as Brugger, over 20 years, then gave his No. 2 badge to Ray Jeffords, Hartford. Allen Becker, Allenton, is now No. 3, Brown No. 4 and David Backhaus, Kewaskum, new addition to the force, is No. 5.

Men who will assist the new sheriff during his term in office are: Bill Johnson, Slinger; Wilbur Hensler, Germantown; Louis Zueri, Slinger; D. W. Leubeneimer, Richfield; Harry Hoppe, Hartford; John Kimia, West Bend; David Backhaus, Kewaskum; Wilfred Ruffing, Allenton; Ray Jeffords, Hartford; Marvin Schaefer, Kewaskum; Allan Becker, Slinger; Mel Guse, Slinger; Alvin Schmidt, Newburg; Paul Humbel, West Bend, and Forrest Brown, Kewaskum.

Girl Scouts and Committee Register

On Tuesday evening, Jan. 6, the Girl Scout committee meeting was held at the home of Mrs. Charles Miller. The committee members registered in the National Girl Scout organization for the fifth consecutive year. The committee members are: Mrs. Theo. Rohlinger, chairman, Mrs. Paul Landmann, secretary; Mrs. Gottlieb Wale, treasurer; Mrs. Norman Jaeger, returning chairman; Mrs. Lavorne Hyon, Mrs. F. E. Notting and Mrs. Joseph Schwind. The leaders are: Mrs. Kenneth Koepke and Mrs. Charles Miller.

On Tuesday afternoon, Jan. 13, the Girl Scouts will re-register during their regular meeting at the Legion House. The membership dues are \$1 for each scout, the entire amount of which is sent to the National Girl Scout organization. Service underlies the whole Girl Scout philosophy and program. To serve is the commitment of every girl who makes the promise: "to help other people at all times."

The Holy Name society of Holy Trinity church will receive monthly Holy Communion in a body during the 8 a. m. mass Sunday and this will be followed by a breakfast in the parish hall. Charles R. Fickler, Filmore, 16 10 30

Pfc. Justman's Body to Arrive Sunday Evening

Word has been received by Mrs. Hilary Justman that the body of her husband, Pfc. Hilary W. Justman, 22, will arrive at Campbellsport on the 10:02 p. m. train Sunday, Jan. 11. Pfc. Justman, son of Mr. and Mrs. Herbert Justman of Kewaskum, was killed in action in Korea last Nov. 3 and word of his death was received on Nov. 13.

The young man was killed while on patrol duty on the Korean front, where he was serving in the 9th Regiment, 2nd Infantry Division, since July 7, 1952.

The body will lay at the Twobig Funeral home in Campbellsport from Monday morning until 2:00 p. m. Tuesday, when funeral services will be held at the funeral home. It will be a military funeral.

Cpl. William J. Frieberg will accompany the body to Campbellsport and remain with it until after the burial service in the Campbellsport cemetery.

Pfc. Justman, whose wife is the former Mildred Sorwe, is survived by his widow, his parents, two sisters, and eight brothers.

GRASSLAND FARM MEETING AT ROCKFIELD ON TUESDAY

You are invited to attend a grassland farming program meeting at the Rockfield Inn on Tuesday, Jan. 12, at 10 a. m. Below is the program to be presented:

- 10:00-10:30—Film, "Farmers Working Together."
- 10:30-11:15—Livestock Feeding, George N. Werner, dairy specialist of the College of Agriculture.
- 11:15-12:00—Grassland Farming, F. V. Bureau, agronomist, College of Agriculture.
- Noon—Judging Hay and Silage Samples.
- 1:30-2:15—Results of Hay and Silage Judging, George M. Werner.
- 2:15-3:00—Our 1953 Grassland Program, F. V. Bureau.
- 3:00-3:20—Your Commercial Fertilizer Needs for 1953 and other announcements.

Farmers are asked to bring in a small bundle of hay and a 3/4 peck sample of corn or grass silage for judging and evaluation. Bring the samples when you come. Prizes will be awarded for the best samples brought in.

There will be morning and afternoon attendance prizes; also prizes for the quality hay and best silage entries.

All prizes are donated by the Washington Co-op Farm Supply, Rockfield, Robert Crawford, manager. This Co-op Farm Supply is affiliated with the County Farm Bureau organization.

Problems of livestock feeding, growing the home feed supply, producing quality hay and silage feeds, and other topics of interest will be discussed. You cannot afford to miss this meeting. So be sure and attend.

IN MEMORIAM

In memory of our beloved parents, who were summoned by the Master's call on the dates as follows: Mr. H. W. Schnurr June 12, 1946; Mrs. H. W. Schnurr January 6, 1946;

They lived within the many hearts of those who loved them best. Whose lives they brightened day by day.

More than they ever guessed. They walked serene, with kindred heart.

To meet the setting sun—Their hands in God's and unafraid To let His will be done!

Sadly missed by Lonella E. Schnurr, Mrs. H. F. Belger and family.

GUESTS AT BAPTISM

Mr. and Mrs. Eugene Zehren and family and Mrs. Aloys Zehren and family of Kewaskum were among the guests entertained at a 4:30 supper at the home of Mr. and Mrs. Florentine Zehren in West Bend Sunday in honor of the baptism of their infant daughter in Holy Angels church there. The baby was named Sharon Ann. Sponsors were Mrs. Margaret Zehren and Eugene Zehren of Kewaskum.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK — Commodity prices, after a long slide during the fall months, seem to have turned a corner. They are still 5 per cent below the 1951 highs, but the increase that has shown up since October's lows appears solid. Grains, cotton, hides, rubber, mercury and tin have all moved up in December.

The upturn has a firm economic base. Industrial production in November reached a postwar high of 229 on the FRB index. Wage rates are still moving upward. All indexes of consumer spending show a net increase, although department stores are complaining of low volume.

In most years, such a general upward move would have stiffened prices before this. The summer weakness seems to have had two causes. New productive facilities kept supplies in step with demand, sometimes a little ahead. And business had been thoroughly warned to fear a business recession in 1953.

Now, with confidence in the near-term future restored—as witness the 20-year highs in the stock market—orders are being increased, industry is buying farther ahead, and prices have faced about.

SATURATION DEFERRED—Refrigerator makers have been haunted the last few years by fears of a saturated market, a condition which has tripped many industries. The answer to saturation, of course, is expansion of demand, and in this case Servel, Inc., is providing it.

In the last four months this company has announced production of two entirely new household refrigeration products. The first was a portable refrigerator, called the Electric Wonderbar, which looks like a piece of furniture and hence can serve anywhere in the house for all the non-kitchen uses one has for refrigeration. A flood of orders has borne out the belief that two refrigerators in every home can be made a reality.

The second novelty, introduced this week, is a household refrigerator which freezes ice cubes, or rather ice circles (they are crescent-shaped), stores them in a basket and automatically replaces them as they are used—without using ice-trays!

THING TO COME—The child your wife has been parking on a dime-in-the-slot pony while she shops will soon have his choice of a rabbit, a red-nosed reindeer or a space ship with flashing lights and a siren-like howl. . . . Aluminum foil casseroles will soon be available. Throw them away after serving their contents. . . . Two companies are working on machines which can tell a potato from a rock, to ease a shortage of hand pickers. . . . A new powdered mix makes gravy for 3 cents a teacupful. . . . A 16-inch plastic globe will teach geography to the young this school term and can be used next summer as a beach ball.

GETTING CROWDED—If every motor vehicle owner in the United States went out for a ride some Sunday afternoon, there would be a passenger car or truck every 12 yards on every paved street and highway in the nation. A new study of automobile usage and driver habits, compiled by the B. F. Goodrich Company, shows that 1952 will end with total motor vehicle registration of 53,363,000, and hard-surfaced road mileage at a new high of 356,211 miles.

Drivers are increasingly aware that traffic jams cost millions of dollars in wasted time, the study found. Since it is estimated there will be 65.5 million cars and trucks registered by 1960, there seems to be little chance the congestion will become less. Many car and truck owners, the company says, feel that a start must be made at once on an expanded national highway program, improved parking and unloading facilities, and revisions of outmoded traffic regulations, if the traffic problem is to be solved.

BITS O' BUSINESS—The cotton crop, estimated at 15 million bales, is 2 per cent above the first government forecast. . . . More than 100 movie theaters are now equipped to telecast fights, operas, etc., on a closed circuit. . . . Money supply rose \$2 billion between September 24 and October 31, sparked by business loans. . . . Turkey abandons oil nationalization, asks foreign firms to come find more petroleum. . . . Senator Byrd promises a bill to abolish RFC. . . . Coal companies say they won't raise prices to cover the last 40 cents granted the United Mine Workers by President Truman.

Farmer co-ops in Minnesota, according to a University survey, have assets of \$227,083,000, of which \$113,091,000 is current, against total liabilities of not quite \$86,000,000, of which \$68,981,000 are current.

PLEA FOR BARD—London actor C. Francis J. Stanislaw presented a petition to the new Lord Mayor of London requesting him to "nurture a project that London City may have a Shakespeare theater." Holding the petition aloft while giving his eloquent plea, the actor made the request at London's traditional Lord Mayor Show.

Pen Barns Can Yield Good Milk Without Bacteria

You can produce just as good milk in a pen type barn as in a stanchion barn.

That is the conclusion reached by University of Wisconsin bacteriologists after five years of testing milk samples from cows housed in both types of barns.

They say there is practically no difference either in the number or in the kind of bacteria in the milk as it comes from the cow.

You can, of course, produce poor milk from either type of barn, but don't blame it on the barn, the bacteriologists maintain.

To double-check their findings, the researchers tried more bacteria counts at the time the milk reached the milk plant. Again the tests showed the two types of barns to be equal.

The researchers point out that differences in bacteria count that sometimes come up are due to the way the milk is handled after it leaves the cow. If you are now producing Grade A milk in a stanchion barn, chances are you could do the same in a pen type barn.

Cheese Spread

Blend 1/2 3-oz. package of cream cheese, 3 tablespoons blue cheese and 1 tablespoon drained bottled horse-radish. Spread on thin sliced rye bread.

New Lift For House Plants

Got some tired house plants which could use a lift? If the dirt in the flower pots has become hard-packed and dry so that no amount of soaking will help, Green Gold, the new soil conditioner, is just the remedy you need. It's the new miracle chemical for conditioning soil (not a fertilizer) that changes the soil structure so that hard-packed masses become smooth, easily-worked, crumbly loam. Plants begin to thrive once again as more air, moisture, and plant food are made available to their roots as soon as the conditioner is applied.

Application is quite simple. The contents of the House Plant package is mixed with one quart of hot water and stirred well. After loosening the top soil around the plant, the mixture is applied with a tablespoon, according to directions.

Tested and proved at one of the nation's leading universities by one of the world's foremost soil experts, this new chemical conditioner is fast becoming the first aid treatment for house and window box plants. Many people are now working it into the soil of newly-potted plants, too, to insure better aeration and moisture conditions. It comes in powder form in two sizes—29c and the larger \$1 economy package, and can be purchased at garden supply stores or wherever you buy your seeds and plants.

GOOD HEALTH

Answer to Question No. 1
Yes. Today we are healthier than at any other time in our history. Life expectancy in the United States is now 19 years higher than it was in 1900—a gain of 39 per cent; and our death rate has dropped 45 per cent. Infant deaths since 1900 have been reduced from 162.4 per 1000 to 31.3. Advances in medical science, increased use of medical facilities, control of communicable diseases and improved nutrition and sanitation have been the major factors responsible for our gains in health.

Answer to Question No. 2:
Some wasp-stings may be very serious and, in rare cases, even

fatal. Most bites cause severe pain and nothing more. It is best to have a doctor look at the bite since he can prevent serious complications and at the same time lessen the discomfort.

Answer to Question No. 3:
It is a pain an individual feels as coming from a limb or part of a limb which has been removed through an accident or by surgery. It can be cured by an operation on the spinal cord. In this operation, the sensory (pain-conducting) nerves involved are severed, and as no sensation can then pass to the brain, the pain disappears.

Brains Plus Chains Equal Sound Advice For Winter Driving

Chicago—Brains plus chains equals sound advice on snow and ice!

That is a streamlined summary of the many important recommendations contained in "Basic Winter Driving Rules," a new booklet just published by the National Safety Council which sets down for the first time the results of 11 years of test research by the Council's committee on Winter Driving Hazards.

The booklet is aimed at reducing the high death and accident rates resulting from inadequate traction and reduced visibility—the major winter driving problems from November through February.

Six basic rules for safe winter driving are offered:

1. **Get the feel of the road.** Try your brakes occasionally, while driving slowly and away from other traffic, to find out just how slippery the road is.

2. **Slow down.** Adjust your speed to road and weather conditions so that you can stop or maneuver safely.

3. **Keep windshield clear.** You must see danger to avoid it, so be sure your headlights, windshield wiper blades and defrosters are in top-notch condition.

4. **Use tire chains on snow and ice.** They cut stopping distances about in half, and increase starting and hill-climbing traction by four to seven times. Even with the help of chains, however, lower than normal speeds are a must on snow and ice.

5. **Pump your brakes to slow down or stop.** Jamming them on can lock the wheels and throw your car into a dangerous skid.

6. **Follow at a safe distance.** Keep well back of the car ahead so you have room to stop. Remember that without tire chains it takes three to 12 times as far to stop on snow and ice as on dry concrete.

Other important findings by the committee, composed of 33 experts in fields of automotive engineering, law enforcement and traffic safety education, include the following:

All tires, except big truck sizes, are now made largely of synthetic rubber. Synthetic tires wear better, perform normally on dry or wet pavements and have other advantages. But on snow and ice they skid about 8 per cent farther and have 14 to 35 per cent poorer forward traction ability than pre-war natural rubber tires.

Special winter tires of 25 different types were tested for traction. The tests showed that while some tires gave improved traction under certain conditions over conventional tires, their overall improvement is not great enough to warrant less caution when driving on slippery surfaces. The same tests also demonstrated that special winter tire treads do not approach the performance of reinforced tire chains, and the report concludes that "while some of these tires can be considered a palliative, they certainly are not the answer to severe snow and ice conditions."

Describing tire chains as the best self-help available to the driver, the committee said reinforced tire chains reduce braking distances on both snow and ice about half, increase forward traction on ice about seven times, and on packed snow out pull conventional tires nearly four times.

Bible Comment:

We Have Need of Religious Training Within Our Homes

THE formerly common practice of religious education in the atmosphere of one's own home had some fine results as far as impressing the spiritual standards of religious life on members of the family was concerned.

In the Jewish faith, the stately passage: "Hear, O, Israel, the Lord, our God is one Lord; and thou shalt love the Lord thy God with all thy soul and with all thy might," is held in much the same reverence as the Lord's Prayer is in church worship of today.

But the full effect of these words went beyond the walls of the synagogue. Jewish families have long been bound together with strong home ties and home religious practices. These practices have had a profound influence. Many people may bemoan the fact that the younger generation does not follow in the footsteps of its elders but this is not a new complaint.

It may be partly true, but decline and recurring revival of interest in religion is not uncommon in the religious history of many peoples.

In many Christian homes the reading of the Bible and family prayers are common parts of the family life. But in all probability these homes are not as numerous as they once were. In many homes there is probably no religious activity at all.

It would be possible to view the future of our country much more hopefully if the parents in every home would take the responsibility of teaching their children principles of religion in the way the ancient Jews were told to do. Perhaps in the second half of our present century we will see a new surge of interest in this neglected field.

Question: My basement does not have a drain. Could you tell me how to put one in? The floor is cement. —W. F., Indianapolis, Ind.

Answer: Since a drain works by gravity flow, and to the near by sewer or septic system or dry well, unless these points are lower, the drain system will not work. In such cases, you'll need a catch basin with a sump pump to lift drain water to a higher level to flow into those outlets. The catch basin may be a cement-lined pit large enough to accommodate the sump pump. If gravity flow is not a factor, locate the drain at the lowest point on the floor, build a small basin, cement lined, with an outlet pipe laid beneath the floor which must be broken along the line, punched through the foundation, and so on to the sewer.

Question: I have a large picture window on the front of the house, which when the light is lit inside, attracts numerous bugs. Is there anything I could put on the glass to keep them off without obscuring vision through the window? —P. W. S., Nashville, Tenn.

Answer: You might try one of the aerosol-propelled DDT sprays which leave a colorless film on the window. It may not discourage all insects, but the majority—particularly the soft-bodied ones—will quickly die. You will have to repeat the spray after hard rains.

Question: What kind of paint is suitable to use on a concrete floor before a furnace where hot clinkers are occasionally dropped? —K. G. L., Elmhurst, Ill.

Answer: Metal-covering paints, such as those used on radiators, or tractor paint may serve the purpose. These are heat-resistant, at least. However, no paint is going to look well under such treatment, for more than a short while.

Question: I recently purchased a home with a pine paneled bedroom formerly used as an office. There were many shelves which, when removed, left marks and holes. How can I fill the holes, remove the marks, and get a natural finish? —R. B. Keene, N. H.

Answer: Fill the holes with plastic wood, then sand the entire surface until all wood is bare. Apply two coats of shellac, and when dry, apply a hot solution of 1/3 white beeswax and 2/3 turpentine. After 48 hours, buff heavily for a satin-like finish.

GRAPE CATSUP—Wash, stem 5 lbs. Concord grapes. Cook with 1/2 cup water. Put through colander, sieve, or food mill. Should be 9 cups pulp. Stir in 5 cups sugar, 2 cups white vinegar, 1 teaspoon salt. Tie in cheese cloth. Add to grape pulp. Cook slowly until thick, stirring occasionally. Remove spices. Pour into hot, sterilized jars or bottles and seal. Store in dark, cool place. Makes about 4 pints.

Sports Afield

By Ted Kesting

There is a good choice of bolt-action shotguns on the market this year and they offer the opportunity of getting off on the right side of the cash register. Pete Brown, our arms expert, reports:

"I made a survey of the bolt-actions on the market this year and have done some shooting with them. I am not a bolt-action fan where shotguns are concerned, but I will say this. If a better shotgun was going to stand between me and the chance to get out in the field, I would get a bolt-action. Where ballistic performance is concerned, the bolt-action will shoot just as hard and far as any other shotgun."

When it comes to functioning, the bolt-actions are in a class by themselves. As repeaters, any of them are rather clumsy and not as fast as the other types of repeaters. In the first place, the bolts are of necessity long, large in diameter and heavy. The bolt handles are far forward—shotgun butt stocks (from butt to trigger) are about one inch longer than rifle stocks and the bolt handles are pretty well forward as it is. When loading a second shot, it is necessary—unless you are a long-armed guy—to do some reaching for the bolt handle. Therefore, you won't get that second well-directed shot off as quickly as you will with other types of repeaters. The bolt-action shotguns are not what you would call smooth operating and, generally speaking, they are not a beautiful gun.

Still, they're excellent for the beginner. You get a lot of gun in one of these bolt-actions and they are guns you can use safely—you can also bag game and enjoy shooting them. If I wasn't going to do a lot of shooting and wasn't sure that I would stay in

the sport, I would be tempted by the bolt-actions. They are a good proposition for a young fellow starting out. He can find out whether he wants to stick with the sport and at the same time come to a better decision on what to get when he decides to buy a more expensive gun.

If you have the opportunity of looking at various models before making a selection, by all means do so. There is no substitute for seeing and feeling.

Minnesota harvests something over a million acres of barley a year. Kindred is the most popular variety, Wisconsin 38 next.

LINES BY SOGLOW

If you would help the cause of peace, listen: Through strength, we can have peace. Your help is needed now to make America strong. Handy Jim's FIX-UP TIPS For Farm and Home

'Peck-Proof' Poultry Feeder

EFFICIENT feeding of the laying flock is as important as providing a properly-balanced ration. To assure maximum egg production, the poultry raiser must provide ample feeding space for the hens. Several portable, sturdy, dry mash feeders are the answer to the feeding problem.

Experience indicates that every 100 hens should have not less than 30 or 32 feet of space at the trough. In a 20' x 20' house containing 100 hens, four reel mash feeders, like the one shown, should be provided. This U-bottom feeder minimizes waste and keeps the

feed clean. Feed is readily accessible. With plenty of feeding room, even the non-aggressive hen will get her share. Reel mash feeders, which get their name from the revolving piece of 1" x 2" lumber mounted on spikes to keep the hens from perching over the trough, are 4' long, 21" high and 16" wide. Recommended for the trough portion is Masonite 1/2" Tempered Preswood, because of its toughness and durability. A piece 4' long and 1 1/2" wide is needed. Other material required: One piece of 1 by 6 lumber 7 1/2 feet long, a 1 by 4 of 8-foot length, another that is 2' long, and a 1 by 2 that is a half inch longer than 4'; a half pound each of eight-penny and four-penny nails.

A detailed plan of the U-bottom feeder may be obtained free by writing to Farm Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill., and asking for Plan No. AFB-183.

Hormone Pellets Can Be Used For Broilers

Should we use hormone pellets for our poultry flock?

Here are recommendations for hormone pellets from J. L. Adams, poultry specialist at the University of Wisconsin.

First, he says, that the United States Food and Drug Administration has permitted the use of only one of several chemical compounds for fattening poultry to be sold across state lines. That compound is called diethyl-stilbestrol. It should be the active ingredient you use.

Adams gives the following general recommendations based on experimental work at Wisconsin and other experiment stations:

1. Pellets can be used for fattening broilers of both sexes.
2. Pellets can be used to improve market grade of old cocks.
3. Pellets can be used on turkeys, especially hens, to improve finish.

Pelleting laying hens is not recommended. It will stop egg production and does not greatly improve meat quality.

Hormone pellets are injected behind the comb on the back of the bird's neck, Adams points out.

WARNING - West Berliners, walking near the Soviet zone border, meet the glowering look of the poster seen above showing a starving prisoner behind the barbed wire of a Russian concentration camp. Translated, the sign says: "Pay Attention—Only 10 More Meters."

Roast Turkey Is a Taste-Delighting Feast!

BY DOROTHY MADDOX

TURKEYS are more plentiful now than they have ever been before. And for parties and holidays, there is nothing quite so festive. To preserve fine flavor and assure best results: (1) Keep a quick-frozen, ready-to-cook bird frozen until ready to cook, allowing time for defrosting. Defrosting will take 2 to 3 days in the refrigerator, or 4 to 6 hours with the unwrapped bird under running cool water.

(2) Remove any pinfeathers with strawberry huller or tweezers. If necessary, singe the bird. Remove any bits of lung and kidney from the cavity.

Stuff the turkey just before roasting.

Fill with stuffing, shaking the bird gently to settle it, but do not pack it lest it emerge after roasting in a solid, compact mass. Close the opening by placing skewers across the opening and lacing shut with cord.

Cover with cheesecloth. Roast in a shallow open pan with rack. No cover and no water.

The oven temperature. "Low and slow" is the rule. Low temperature means less shrinkage and loss of juices, better flavor and appearance. At a constant low temperature of 325 degrees F. the turkey needs little or no attention.

If the cheesecloth dries, spoon fat over it from bottom of the roasting pan or remove and remoisten with melted fat.

Start the bird about a half hour ahead of schedule. It may take a little longer time than is given in the timetable.

When is the turkey done? To judge doneness, test 15 to 30 minutes before turkey should be finished. Press the thickest part of the drumstick, protecting fingers with cloth or paper. It should feel soft.

Ready-to-Cook Weight (Pounds)	Oven Temperature	Total Cooking Time Approximate Hours
4 to 8	325 degrees F.	3 to 4
8 to 12	325 degrees F.	4 to 4 1/2
12 to 16	325 degrees F.	4 1/2 to 5
16 to 20	325 degrees F.	5 1/2 to 7
20 to 24	325 degrees F.	7 to 8 1/2

THESE WOMEN!

"Jim! Today's your birthday and you forgot to leave me money for your present!"

Good Care Urged For Your Hands

Your hands are important tools and they rate the best care you can give them every day.

Today's health bulletin from the Minnesota State Medical association urges regular and thorough washing followed by an application of an efficient cosmetic preparation containing fats and oils—not just once, but many times a day.

Smooth, clean hands are attractive. But they are more than that, according to doctors. They are more efficient than chapped rough hands and much less liable to infection.

Of course, good hand care should also include awareness of the dangers involved in neglect of even apparently trifling burns, cuts and scratches. Prompt first aid for any such accidents is especially important for housewives whose hands are constantly in and out of water and exposed to infections.

The average woman subjects her hands to all sorts of cleaning agents and detergents more frequently than is good for them. Any efficient cleanser for household purposes, no matter how mild it may seem, will remove skin oils from hands along with the dirt. The result, unless oils are promptly restored, may be chapping so severe, in some cases, that the name "housewives' eczema" has been bestowed on it. Grandmother's favorite remedy for chapped hands was mutton tallow.

Nowadays there is a great variety of cosmetic preparations, most of which are efficient and all of which smell and look prettier than Grandma's favorite. The most efficient are those which contain the most fats and oils, such as toilet lanolin. Regular use of one of them is a basic requirement for healthy hands.

MRS. D. D.: Does rinsing your mouth with salt water help to prevent pyorrhea?

ANSWER: Pyorrhea can be prevented and controlled by a dentist, with careful mouth hygiene under his direction. Rinsing the mouth with salt water is no definite advantage.

Give Dairy Cows Clip From Head To Tail

Even with cold weather ahead, it's a good idea to clip milk cows from head to tail, says N. N. Allen, dairy husbandman at the University of Wisconsin.

Farmers started the idea. Their milk plants insisted that they clip the udder and flank. Some of them didn't like the looks of the partly-clipped animals, so they went on and clipped the whole cow.

Farmers claimed that complete clipping made the cows more comfortable and got rid of lice. Some of them insisted that the clipped cows gave more milk.

Experiments were run at the university to check on these claims. It was found that clipping does help to keep down the bacteria count. It was also found that the farmers were right about the lice.

Experiments are now being run at the Marshfield Branch Agricultural Experiment Station to see if the clipping actually affects milk production.

Two clippings, one in the late fall and another in mid-winter, kept lice under control all winter. The clipped cows were quite comfortable in the ordinary stanchion barn, even in coldest weather.

The clipped cows can go out for water and exercise just as if they had long hair. After the first day or two, cold doesn't seem to bother them.

Allen is not ready to recommend all-over clipping for cows in cold, pen barns until experiments have been run to see how the cows fare. He wants to find out also if it takes extra feed to keep the clipped cows warm in pen barns.

Ticklers

By George

"I'm suffering from an occupational disease . . . I keep hearing bells!"

State Government Has Budget Problem

Election excitement and victory handshakes concluded, the commanders of the Wisconsin state government settled down to the hard work of their jobs this week. The emphasis was upon the "hard." For the first task of Gov. Walter J. Kohler and his staff will be to prepare the state's new biennial budget of appropriations, under circumstances more difficult than have faced a state administration in some years.

The problem is identical with that faced by the heads of many private households—how to make ends meet with a static or nearly static income, with expanding expenditures, and relentless demands for additional spending.

Gov. Kohler wishes to avoid additional taxation during his new term. But if he can manage that achievement it will surprise many of the sideline observers at the statehouse. For the continuing expenditures of the state, aside from such extraordinary things as building new institutions and starting new services as demanded by various pressure groups, are almost certain to be greater than the state's prospective income.

That situation has obtained for some time. The state has been dipping into the big war-made surpluses in the treasury to make up the difference. Those surpluses have now largely disappeared. The time for reckoning, as a result, is at hand.

The Problem. Gov. Kohler got more votes in the recent election than any other man who ever offered himself for the governorship and defeated his rival by a larger margin than at any other election in modern times. Perhaps he could slash expenditures to balance the budget, but it would require a heavy and arbitrary hand to do so. It would also require more cooperation from the legislature than politicians have learned to expect. Virtually every legislature in the past had loaded appropriations onto the governor's budget.

But Kohler cannot hope to start with the present level of spending, it has already become evident. Requests will be substantially above the present budget allowances. Two examples in recent days sufficed to show the trend. The University of Wisconsin published what is called an "economy" budget—which was more than \$5,000,000 above the present level of its spending. And the governor's friend, John Trumbull, head of the state's big and costly welfare services, after months of anxious calculations came up with total requests about \$3,000,000 higher than his present budget provides.

Teacup Topics By Betty Ann EDITOR THE MILWAUKEE JOURNAL WOMAN'S PAGES

When you put your pretty foot out, your costume is either made or broken by the shoes you wear, says Betty Ann. Your choice of styles is flexible, but in type, fabric and color, shoes should be a harmonious extension of your sports, daytime or party clothes. There's no choice, though, about keeping them in condition. That's an integral part of good grooming.

Shoes with run-down heels should be run right over to the shoemaker and while he has them on his list, have him check the tips as well. And ask him to put a little polish around the edge of the soles if they have that gray fatigued look.

A change in jewelry can do a lot for a dress. Any smart girl knows she can make the gown she wears to the party look quite different on another occasion with a different assortment of jewelry—and even win fresh acclaim at the Valentine formal later.

It seems a girl never has enough costume jewelry—which means she'll be delighted to get more for her birthday. She'll know how to wear a blazing rhinestone pin in solitary splendor high on one shoulder; how to combine a glowing amethyst necklace, a duet of amethyst pins for a firework of jewels on the same neckline; how to achieve a new costume look with a pair of rhinestone paved bar pins (that can also double as barrettes), rhinestone hoop earrings, a ruby plaque bracelet.

Give one spectacular jewel or a complete ensemble of necklace, earrings, bracelet and pin.

White spots on mahogany can be banished by covering with a thick coat of petroleum jelly and allowing it to stand 48 hours before wiping off.

Claret Cherry Bowl. Four cups claret or burgundy, two cups pitted red cherries, one cup water, one-half cup sugar, one stick cinnamon, two cups sparkling water. Make a syrup with the sugar and water. Bring to boiling point. Add cherries and stick cinnamon, and cook slowly for 10 minutes. Cool, remove cinnamon, and chill. Add chilled wine to the cherry juice and the cherries. Add the sparkling water immediately before serving. Twelve servings.

Chili Cheesewiches. Make sure there's plenty of chili on each serving of these chili cheesewiches. Split and butter frankfurter buns. Heap with grated sharp aged cheddar cheese and heat them on a cooky sheet under the broiler unit until the cheese is melted. At the same time heat canned chili con carne to a bubbling boil. Serve over toasted cheese buns.

When guests are coming for dinner and you're looking for a dish that's different, delicious but economical, try serving frankfurters and sauerkraut dressed in party style. Wrapped and cooked in a jacket of cheese flavored pastry or combined with vegetables and baked in green pepper cups these two flavorful foods are sure to earn compliments.

Taffy Apples. One cup granulated sugar, one cup brown sugar, one-half cup cream, one-half cup boiling water, two tablespoons butter, six Jonathan apples, six wooden skewers. Melt one-half cup of the granulated sugar over a burner. Add the boiling water and cook to a smooth syrup. In a separate pan cook the milk or cream with remaining sugar and butter to the soft ball stage or to 236 degrees. Combine the two syrups and cook until drops of syrup will form a hard ball in cold water or to a temperature of 250 degrees. Cool the syrup to lukewarm. Place apples on skewers and swirl them in the caramel syrup. Dip them immediately in ice water to harden the caramel.

Here's a quick dessert trick for a children's party. Place canned peach halves, cup side up, on a baking tray. Fill each peach half with a marshmallow and place under broiler until marshmallow melts. Serve at once.

Until along in the '40s beef led pork by quite a margin in this country's annual meat consumption. In 1951 pork soared to 72 pounds per capita, leaving beef at 63.

SO YOU WANT to lose weight?

You might give this a try: It can be done, they say, by developing hobbies that require great concentration, keep your hand and, or, brain so busy there's no time for extra calories.

Sixteen states produce cotton, Texas leading, with California, Mississippi, Arkansas, Arizona following in that order.

WINTER FOLLIES

"Am I glad I bumped into you, Tom... my windshield wipers ain't workin!" NATIONAL SAFETY COUNCIL

Test Your Intelligence

Score yourself 10 points for each correct answer in the first six questions.

1. Find the word below which does not match the other three. —Hour —Day —Minute —Wristwatch
2. Which country was the first to use gunpowder? —Russia —Holland —China —India
3. Which of the following documents is credited with being the foundation document of Great Britain's democratic government? —The Stamp Act —The Corn Laws —The Magna Carta —The Exclusion Act
4. The smallest state in the United States is listed below. Can you find it? —Delaware —Vermont —Rhode Island —Long Island
5. If a tie vote occurs in the Senate, who is permitted to cast his vote and break the tie? —The President —Chief Justice of the Supreme Court —The Vice President —The Secretary of State
6. Puppets are operated by inserting the hands inside the doll. Marionettes are operated with —Magnets —Weights —Strings —Levers
7. Match the following national symbols to their particular countries. Score yourself 10 points for each correct choice. (A) Bear —France (B) John Bull —America (C) Uncle Sam —England (D) Cockaded hat —Russia

Total your points. A score of 0-20 is poor; 30-60, average; 70-80, superior; 90-100, very superior.

ANSWERS TO INTELLIGENCE TEST

- 1—Wristwatch; 2—China; 3—The Magna Carta; 4—Rhode Island; 5—The Vice President; 6—Strings; 7—(A) France; (B) America; (C) England; (D) Russia.

STATE OF WISCONSIN, COUNTY COURT, WASHINGTON COUNTY
NOTICE OF APPLICATION FOR TAKING PROOFS OF HEIRSHIP AND NOTICE TO CREDITORS
IN THE MATTER OF THE ESTATE OF AGNES WESTERMAN, deceased.
The will of Agnes Westerman having been admitted to probate, Notice is hereby given that all claims against the said Agnes Westerman, deceased, late of the Town of Kewaskum, in Washington County,

Wisconsin, must be presented to said County Court at West Bend, in said County, on or before the 31st day of March, 1953 or be barred; and that all such claims and demands will be examined and adjusted at a term of said Court to be held at the Courthouse in the City of West Bend, in said County, on Tuesday, the 2nd day of June, 1953, at 10 o'clock in the forenoon of said day, at which time proofs of who are the heirs of said decedent will be taken.

Dated December 18, 1952.
By Order of the Court,
F. W. Bucklin, Judge,
K. Wm. Haebig Attorney. 12-26-52

Dundee

Mr. and Mrs. Cyril Gilboy visited New Year's day with Mr. and Mrs. Robert Hatch in Ashford.

Mr. and Mrs. Leo Becker of Campbellsport visited Sunday with Mr. and Mrs. George Gilboy.

Pvt. Melvin Sook of Fort Sam Houston, Texas, visited Friday morning with Charles Roethke.

Fr. and Mrs. David Wotho of Green Bay visited the week end with the former's parents, Mr. and Mrs. Wm. Wotho.

Mr. and Mrs. Chas. Sparks of Kewaskum visited Sunday with the latter's brother and sister-in-law, Mr. and Mrs. Clarence Reigle.

Anton Waramius of Fond du Lac visited with his parents, Mr. and Mrs. John Waramius and other friends in the village Saturday.

Miss Bernice Trapp of Kewaskum visited the week end with her sister and brother-in-law, Mr. and Mrs. Francis Gilboy, on Long Lake drive.

Mr. and Mrs. C. W. Baetz and Charles Roethke visited Tuesday evening with Mr. and Mrs. Arno Triebensee and Paul Heilmer at Cascade.

Mr. and Mrs. Ronald Dins and son were entertained New Year's day at the home of the latter's parents, Mr. and Mrs. W. Luecker in West Bend.

Mr. and Mrs. Clarence Reigle and son Gary visited Sunday with the latter's sister and husband, Mr. and Mrs. Ray Schwartz, at Fond du Lac rural route.

Mrs. Herbert Leitke and family

of Milwaukee visited the week end with her parents, Mr. and Mrs. Chas. Pagel, and with Mr. and Mrs. Marvin Ramthun.

Mr. and Mrs. Francis Gilboy were entertained New Year's day at the home of the latter's brother and sister-in-law, Mr. and Mrs. Louis Trepp in West Bend.

Mr. and Mrs. George Thayer and daughters Danice and Betty visited Sunday and Monday with Mrs. Thayer's parents, Mr. and Mrs. Richard Dipple in Milwaukee.

Miss Bethel Kahrs returned Sunday to Fort Atkinson where she is teaching school, after spending her Christmas vacation with her parents, Rev. and Mrs. H. A. Kahrs.

Mrs. Lorena Dettmann and Frank and Sylvester and, Mr. and Mrs. John Wahnschaffe of Kewaskum visited Sunday with Mr. and Mrs. Herbert Heider and Mrs. Emma Heider.

Mr. and Mrs. Werner Koepke and sons Werner, Jr. and Kenneth, Albert Koepke and daughter Lulu were entertained New Year's day at the home of Mr. and Mrs. August Krueger at Cascade.

Miss Anna Kahrs returned Monday to New Ulm, Minnesota, where she is attending Dr. Martin Luther college, after spending her Christmas vacation with her parents, the Rev. and Mrs. H. A. Kahrs.

Mr. and Mrs. Anton Langenkamp of Milwaukee visited New Year's day with Mr. and Mrs. Carl Dins and Mrs. Clara Dins, the latter accompanying them home, where she will visit for an indefinite time.

Mr. and Mrs. V. J. Richards entertained New Year's day at their home Mr. and Mrs. Harvey Tor Mast and children of Campbellsport and Mr. and Mrs. Jack Rich-

ards of Long Lake.

Mr. and Mrs. Florian Hall and children Ben, Raymond and Mary Ann of Elmora, Mr. and Mrs. Arnold Hall and children Joan and Louise of Ashford, and Clarence Bauers of Menomonsee Falls visited Sunday with Mr. and Mrs. George Gilboy and Mrs. Regina Bauers.

Mr. and Mrs. Frank Backhaus entertained at their home New Year's day. Guests were: Mr. and Mrs. Herbert Roehl and son Steve

of Mitchell, Mr. and Mrs. Vilas Roehl and children of Round Lake, Mr. and Mrs. Edward Kempf and

children of West Bend, and Mr. and Mrs. Otto Roehl of here.

Ford

A new Standard in Style
Never before did your car dollar bring you so much fine car beauty. This new 1953 Ford is longer-looking, lower-looking, more massive looking. It's a match in style for any car at any price. And you get that trend-setting curved one-piece windshield.

White sidewall tires optional at extra cost. Equipment, accessories and trim subject to change without notice.

Again Ford sets the trend!
It's the New Standard of the American Road.
With 41 "Worth More" features it's worth more when you buy it . . . worth more when you sell it.
While others were scampering to catch up, Ford again forged far out front to bring you the greatest car value ever.

does it again!

A new Standard in "GO"
You can choose Ford's 110-h.p. Strato-Star V-8 . . . the only V-8 in Ford's field. Or Ford's 101-h.p. Mileage Maker Six . . . the most modern Six in the low-price field.

A new Standard in Build
Ford's quality design Crestmark Body and Ford's new Miracle Ride that shields the car from road shocks, will keep your Ford feeling and looking young for years.

See it . . . Value Check it . . . Test Drive it! '53 FORD.

AMERICA'S DAIRYLAND

...the finest dairy products feed our nation

Down through the years, Wisconsin has enjoyed its reputation as America's Dairyland. Now, 85 per cent of all Wisconsin Dairy foods are marketed outside the State.
Wisconsin dairymen, through their interest in quality production, have been responsible for developing and maintaining this state's leadership in the dairy industry.

QUALITY IS THE KEY
to the expansion of Wisconsin dairy food markets

Support of the dairy quality program is essential to successful promotion and marketing of Wisconsin dairy products. In accepting the challenge of quality production, Wisconsin dairymen helps to build his own market. We salute these dairy farmers.

Grapefruit Gives You A Great Lift

Florida is a nice place to go when it starts getting cool, but even if you can't go south, you can enjoy Florida's big juicy grapefruit now being shipped to almost every section of the country.

Here are four ways to serve vitamin C-rich grapefruit halves—all of them a little different. Everyone will love grapefruit if you make it easy to get the succulent fruit out of the shell. To properly prepare it, cut the fruit in half; remove core. Cut around each section, loosening fruit from membrane. Do not cut around entire outer edge of fruit. Here's how to do the four variations shown:

Broiled Grapefruit: Sprinkle grapefruit half with 1 tablespoon sugar and a dash of cinnamon, mace or nutmeg, if desired; dot with 1 teaspoon butter. Place grapefruit on broiler rack 8 inches from heat. Broil slowly 15 to 20 minutes or until grapefruit is slightly brown and heated through. Grapefruit may also be baked in a moderately hot oven (400° F.) 15 to 20 minutes. Serve hot.

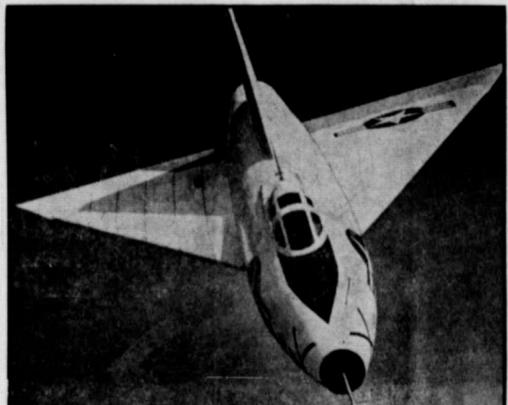

Grapefruit With Grape Garnish: Slice seedless grapes in half. Arrange 7 or 8 halves in center of grapefruit to represent bunch of grapes as shown above.

Grapefruit With Cranberry Garnish: Cut slice of cranberry jelly with small star shaped cookie cutter. Place cranberry star in center of grapefruit half.

Grapefruit Salad Bowl: Follow directions for preparing grapefruit halves. Remove sections from half; reserve. Cut out membrane remaining in shell to make "Salad Bowl." Combine grapefruit sections with diced celery and chicken, shrimp or tuna. Moisten with mayonnaise. Refill shells with salad and garnish with watercress.

BABY BEEF TRIO—So rare they are born only once in every 600,000 bovine births, triplet Aberdeen Angus calves line up for Willard Hearn of Tipton, Tenn. The calves starred at the International Livestock Show in Chicago as the main attraction.

DELTA DARTS OVER THE DESERT—Convair's XF-92-A research interceptor swishes across the desert sky high over Mojave sands. Piloted by Air Force Maj. Charles Yeager, first man to fly faster than sound, the triangle-shaped pioneer of delta-wing planes was snapped from a B-25 bomber tail-gunner's position. An experimental model, the ship carries a movie camera in the tail fin which photographs each flight.

KILT AND KIMONO MEET

The Tartan plaid and Nippon silk spar for prominence at a Spanish embassy party in London as Sir Shane Leslie, Bart., first cousin to Prime Minister Winston Churchill chats with Madame Yoshio Suzuki, wife of the Japanese embassy's commercial councillor.

Psychiatry Lesson

By Orin Ross Yost, M. D.

Sometimes the course of an individual's life is wrecked because of the immaturity of his thinking and acting. Statisticians state that 50 per cent of the more than two billion inhabitants of the world today are illiterate and hence immature. Since immaturity breeds abnormalities, perhaps the paramount need of the hour might well be termed emotional maturity of individuals.

It is to the immaturity of many dominant individuals who were obsessed with the desire to lead or to rule, that much of the aggression, fanaticism and tensions today may be attributed. Prince Hamlet's words, "The time is out of joint," are indeed applicable today, when mistrust, calumny, lynchings, divorce, misrule, strikes, socialism, fascism, communism and malfeasance are the pattern of the times.

Interesting psychological studies have been made of numerous characters of world fame whose ruthless compulsive acts have brought disaster upon individuals and nations. For instance, Prince William of Prussia, congenitally afflicted with a withered arm, early resolved to show his bitter resentment toward all healthier men and women of the world. Somehow the embittered soul, the aggravated pain and the inferiority complex would find compensation. His consciousness of military power afforded him deep satisfaction. This developed in him megalomania (type of delusion) that "bristled all over his personality like the needles of a porcupine." Early he began to visualize himself as the future ruler of the world, to be seated by the side of God, as it were, where he would rule everyone and hate everyone, especially his mother. Was it not she, the daughter of England, a country peopled by a race inferior to the Prussians, who was responsible for his maimed physique. Upon coming into possession of his throne Kaiser William ruled with an iron will, considering his subjects but instruments for carrying out his dictates.

"There is but one law," he told his soldiers, "and that is my will." Because of his distorted vision, he considered himself the supreme authority on every subject known to man. Likewise he believed that his army would actually conquer the world. The heartless tyrant, with a gift of braggadocio, and with the will of an obstinate, spoiled child, was pitifully miscast in his sixty-year role on the German stage of life; and his life was finally passed in exile in Doorn.

It is not difficult to understand how obsession of the wrong kind can prove very dangerous. In a would-be leader such intense obsessions torment the mind and lead to reactions of an exceedingly dangerous nature.

There is no limit to the gross injustices inflicted also upon the populace subjected to the rule of an unprincipled, immature abnormal leader. Hitler, for example psychologically trained German youth for warfare and transforming the flower of German manhood into ravening beasts. Hence the mature action is seen in individuals, groups and nations.

Clipper's Klub

By Helen Leckrone

IN LOS ANGELES there's a restaurant that boasts: "Our steaks are so tender we wonder how the cow ever walked."

One of Author Corey Ford's hobbies is collecting New England jokes. The latest he's told us concerns a Woodstock, Vermont, woman who went to the hair dresser. When she emerged with a new coiffure, she was confronted by a lady neighbor. "Why, Emma," the neighbor said, "what in the world have you done to your hair? It looks like a wig."

"It is a wig," Emma replied. "Well, my goodness," said the

neighbor. "I'd never have known it."

A story is told of Thomas K. Beecher, who could not bear defeat in any form. Finding that a clock in his church was habitually too fast or too slow, he hung a placard on the wall above it. It read in large letters: DON'T BLAME MY HANDS—THE TROUBLE LIES DEEPER.

The Grape Gatherer

By Esther Wood

The air is wine, the sky is blue And goldenrod is there. He stands and gathers purple grapes As frosty as his hair.

He turns his sunburned face to watch

A sparrow in a tree, As old men do who seem to know There's little time to see.

The readiness of fruit and man— Two ripenesses are there; Each comes upon its season's end, And each is autumn fair.

GRAPE JUICE—Wash & stem ripe Concord grapes. Put in each hot, sterilized quart jar: 2 cups grapes, 1/2-c. sugar. Fill with boiling water, stir till sugar dissolves. Process in pressure canner 5 minutes at 5 lbs., or in hot water bath 15 minutes. Store in cool dark place, or wrap jars with newspapers to preserve color. Let stand 4 to 6 weeks before using.

For Thou art my rock and my fortress; therefore for Thy Name's sake lead me, and guide me.—(Psalm XXXI, 3.)

Of what benefit or value is the leadership or advice of the wisest and ablest of men if they themselves are without the guidance of God? We know from the Bible that such blessed guidance is not, however, reserved to any one set of men but is available to the least of us who, through righteousness, will make ourselves worthy in the sight of the Lord and seek His help.

THOSE WERE THE DAYS

STRICTLY FRESH

A LONDON lady argued for the right to carry Queen Elizabeth's towel during coronation ceremonies. To accompany Knights of the Bath no doubt!

Paris police searched the city for a missing city-owned newspaper, finally found the culprits were night duty gendarmes who took it for replacement. Guess it takes a cop to catch a cop.

A Brazilian bigamist was caught by wife number two when he wore a shirt home which was a present

from number one. Now his shirts come from the government. Striped ones.

Two prisoners disappeared without a trace from a New Jersey reformatory. Officers found no holes, openings, missing bars or broken locks. Phantom fugitives eh!

A master magician reported two men made exactly \$180 disappear with a wave of a loaded pistol. They left his wand, guess theirs was better!

MARY WORTH'S FAMILY

HAIR BREADTH HARRY

HOW TO DAMP PROOF A FLOOR

Houses without basements often have the problem of damp floors and baseboards. This type of dampness is caused by moisture coming up through the floors, and by condensation, due to the cold temperature of the floors.

Be sure that dampness, or surface water drains away from the house. A sump pump may be necessary to carry water away.

Be sure that the space under the house is well ventilated.

A good method is to paint the under side of the floor with a good tar waterproofing. Paint both subfloor and floor joists.

Another precaution is to install either board or blanket type insulation. This may be installed between the joists or across the bottom of the joists.

In either case, make sure that all cracks are filled, and that there is an air space between the subfloor and the insulation.

Use insulation which has a vapor seal on one side. Be sure that the vapor seal is down toward the ground.

ORDER TODAY

"MR. FIXUM'S HANDY HINTS" is a collection of 31 selected jobs from this column, printed in attractive form, for 35c. Send coins, not stamps, to Ernie Gardner, 14189 Faust Avenue, Detroit 23, Michigan.

Minn. Gasoline Tax Will Top 40 Million

State gasoline tax collections in Minnesota this year will reach \$40,294,000, Mr. H. M. Whisman, Executive Secretary of the Minnesota Petroleum Industries Committee, predicted.

He estimated that the 1952 Minnesota gasoline tax receipts will be nine per cent higher than in 1951, when the state levy produced \$36,938,000.

Motorists in Minnesota pay five cents tax to the state and two cents tax to the federal government—or a total of seven cents tax—on each gallon of gasoline they buy.

Mr. Whisman noted that state gasoline tax collections this year are expected to run 81 per cent ahead of receipts for 1946, the first full year of the post-war era.

He explained that the projected 1952 gasoline tax total is based on official Minnesota collection reports covering the first half of this year.

Least Bittern
©1952 National Wildlife Federation

Not infrequently during the fall or spring migration of birds someone may come upon an ungainly, streaked brown bird about a foot long most of which length is taken up by the neck and head. The tail is only a couple of inches long and the wings when fully spread extend about 18 inches. Usually the bird holds its beak erect with its neck bent to form the letter S. The behavior leads one to suspect something of the snake about to strike when the bird is in a defensive or hiding position.

This smallest of our bitterns, the Least Bittern, has many of the characteristics of the American Bittern whose length is twice that of the Least Bittern. It walks like an ungainly wren but infinitely more cautiously. It may hold a given position for a long time during which if it is in its natural setting of reeds and rushes it may practically vanish from sight. Its hiding ability is such it may live long in an area without its presence being even suspected. During the migration season it flies at low altitudes, at night with the result that not too uncommonly it crashes into some obstruction and is found in difficulties in an environment not suited to satisfy its hiding instincts.

The Corey's Least Bittern is a rare color phase of the Least Bittern and is characterized by being deep chestnut where the more typical form is light brown. There are two subspecies, the western ranging more or less generally from Oregon south through central lower California for its nesting range and on to western Guatemala for its winter range. It may winter as far north as Arizona and southern California. The eastern subspecies breeds from Maine through southern Quebec to central Minnesota and south to southern Mexico and the West Indies. It winters from Texas to eastern Guatemala and east to the West Indies.

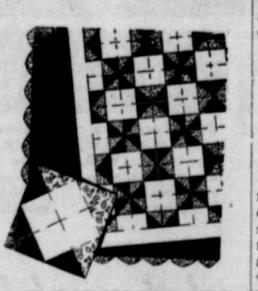

For 17 days the 3 to 6 eggs may be incubated by both parents in a plant platform nest among plants in a marsh or swamp. The eggs are bluish green to blue and 1 by 1-1/5 inches in size. The young are awkward, naked or nearly naked youngsters and there may be two annual broods in the South though there is but one in the northern part of the range. The food consists of the smaller animals of the bird's wet environment. The bird can hardly be considered of economic importance because of its small numbers and because it lives in terrain that usually yields little that man sees fit to cultivate.

When frightened, the Least Bittern may fly a short distance awkwardly and apparently with effort. It may give a soft repeated "coo" while in flight. Even in flight it is sometimes possible by those who know the birds well to distinguish the males from the females and young. The back and some other spots that are dark brown in the female and young are lighter in the males.

These birds are not game birds in any sense and in a way they express the spirit of the swamps and marshes in which they live. They are protected by law and the National Wildlife Federation hopes that they may long survive in their native territory.

—By E. Laurence Palmer

ARROWHEAD PUZZLE QUILT

An outstanding design plus scraps of material cut into easy-to-sew pieces makes this an ideal quilt. The pattern comes complete with cutting guides, material yardage requirements, number of each piece required and directions for setting quilt together. Quilt will measure approximately 96 x 108 without a border. Send for quilt pattern C3244, 20c.

Economy-minded homemakers find baked macaroni casseroles accompanied by raw vegetable salad with glasses of tangy beer easy on the budget.

- Delicious macaroni casseroles can be prepared in a jiffy by adding leftover meats or stuffed green pepper halves. Your favorite raw vegetable salad with plenty of zesty dressing, hot crusty rolls, and sparkling beer is a meal with plenty of appetite appeal. A budget-building hearty main dish, macaroni casseroles are a prime favorite with everyone.
- Macaroni-Stuffed Peppers**
(Makes 4 to 6 servings)
- 8 ounces elbow macaroni
 - 2 or 3 medium green peppers
 - 2 tablespoons butter or margarine
 - 1 large onion, chopped
 - 1/2 pound ground beef

- 1 10 1/2 ounce can condensed cream of mushroom soup
 - 1 cup milk
 - 1 1/4 cups grated Cheddar cheese
 - Salt and pepper to taste
- Cook macaroni according to package directions. Cut peppers crosswise into halves; remove seeds. Cook uncovered in rapidly boiling salted water until tender (5 to 10 minutes). Drain. Melt butter in skillet over low heat. Add onion and beef; saute until tender. Add soup, milk, one cup cheese, cooked macaroni and seasonings. Fill pepper halves with mixture, placing remaining portion in individual casseroles. Center each casserole with filled pepper half. Top with remaining cheese. Cover and bake in moderate oven, 375°, 20 minutes.

Because the food value is very high in cheese you get good returns for your money. It is available in appetizing variety and should be a must on your grocery list.

- Cheese Stuffed Peppers**
- 4 medium green peppers
 - 1/2 cup blue cheese
 - 1/4 cup bread crumbs
 - 1/4 cup mayonnaise
 - 1/2 cup milk
 - 1 tablespoon butter
- Start your oven at 350 degrees. Cut off 1/8 inch slice from top of peppers and take out seeds, core and membrane carefully. Crumble cheese into small pieces & mix with bread crumbs, mayonnaise and milk. Fill peppers up to 1/2 inch from top and dot with butter. Set in baking dish, pour 1/2 inch hot water in bottom of dish and bake 30 to 40 minutes. Serve hot.

- Frozen Cheese and Fruit Salad**
- 2 3-oz. packages cream cheese
 - 3 tablespoons maraschino cherry juice
 - 1/2 cup mayonnaise
 - 1/3 cup maraschino cherries cut fine
 - 4 slices pineapple, diced
 - 2/3 cup canned apricots, sliced
 - 1/2 cup chopped nuts
 - Salad greens
- Mash cream cheese, add cherry juice and blend. Stir in mayonnaise. Fold in thoroughly drained fruits and nuts. Pour into freezing tray and freeze. When ready to serve, cut in slices. Arrange on salad greens. Serve with mayonnaise.

Biggest meat-eating year in history was 1947, 155 pounds per capita in the U. S.

Print plainly NAME, ADDRESS with ZONE, SIZE and STYLE NUMBER.

JUNKY DONKEY DIME STORE—A walking ten-cent store is appreciated by housewives in Seville, Spain. They flock to pick and choose from the bargains dangling on the decked-out donkey's back. The proprietor is pleased with his four-legged store because rent is no problem. Also, the patient Andalusian beast of burden is a very colorful tourist attraction and tourists make good customers.

FINGER-TIP CONTROL—Delicately balancing the basketball on his finger tip is Minneapolis Lakers' star Slater Martin who has just sidestepped Ernie Vanderweghe of the New York Knickerbockers. In spite of Martin's skill, the New York team won, 100-91, in New York's Madison Square Garden.

TOUCH SYSTEM—Seeing with their fingers, three sightless women learn the secrets of good cooking under the sharp-eyed tutoring of pretty East Ohio Gas Company instructor Clara De Crane. Seen above, in a class at Cleveland Society for the Blind, from left: Miss Mary Bestick, Mrs. Elizabeth Smith, Miss Shirley Gostick, and Miss De Crane.

IKE'S ENTRY—Looking much as he will when entering Washington on Inauguration Day, President-elect Dwight Eisenhower waves to cheering Capitol crowds along historic Pennsylvania Ave.

- Entirely New **SAFETY**
- Entirely New **DURABILITY**
- Entirely New **POWER STEERING**

Chevrolet's lower in height, with long, flowing, smoothly rounded, modern lines to give you the newest, smartest look in cars!

New 115-h.p. "Blue-Flame" engine with Powerglide.* Advanced 108-h.p. "Thrill-King" engine in gearshift models.

New automatic starting and passing range gives flashing getaway, greater passing ability in city driving.

Go farther on every gallon of gas! And, again in 1953, Chevrolet is the lowest-priced line in the low-price field.

Greater ease and safety. Greater visibility with a new, one-piece curved windshield. Finer, smoother brakes.

Heavier, stronger, more rigid construction means even longer life for a car always famous for durability.

You park and steer with finger-tip ease, yet retain the feel of the road. Optional at extra cost.

*Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine optional on "Two-Ten" and 84 Air models at extra cost. (Continuation of standard equipment and trim illustrated is dependent on availability of material.)

Entirely **NEW** through and through! **CHEVROLET** MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!
