**Be Ready To Treat Shock, Doctors Say**

Just about everybody will be at the scene of an accident at some time in his life. For that reason, the Minnesota State Medical association today advises that every man, woman and child, from boy scout age up, be thoroughly informed on the basic principles of first aid and, particularly, on the immediate steps to be taken to combat the condition called "shock."

Shock results primarily from loss of blood or fluids, or the draining of blood from the brain and other parts of the body to a pool in the veins of the abdomen or stomach. The victim is usually pale and sweating, drowsy, and breathing rapidly. He needs a blood transfusion as soon as possible; but the following are five things the bystander can do until expert help arrives. They may be life-saving.

1. He can stop bleeding by a pressure bandage or by tourniquet, because shock nearly always follows upon severe loss of blood.
2. He should do his best to calm the victim's fears, because nervous reflexes caused by fright will sometimes produce shock of themselves.
3. He should cover the patient warmly while he waits for help.
4. He should lower the victim's head so as to counteract loss of blood from the brain.
5. He should give the victim

fluids, warm coffee or fruit juices, if he is conscious, so as to counteract loss of fluids in sweating and otherwise.

The sixth thing named in the bulletin also rates as number one at all times, in the opinion of the doctors. That is to donate blood regularly, if possible, so that the supply of life-saving blood and blood plasma will never fail.

**MARY T:** Is a "health food" containing sea weed a good addition to the diet?

**ANSWER:** Sea weed of various kinds does contain vitamins and minerals and may be included in your diet if you find it palatable. You can easily get the same vitamins and nutrients, however, in other foods.

**Expanded ADA Program Urged**

Chicago—A Madison dairy farmer, Lyman D. McKee, was elected vice president of the national American Dairy Association at the annual meeting held in Chicago March 23-24. Merrill Warnick, Pleasant Grove, Utah, also a dairy farmer, was elected president to succeed C. R. Schoby of Algona, Ia.

McKee is president of the ADA of Wisconsin and has served during the past year as chairman of the advertising committee of the national association. McKee and his brother operate a large dairy farm south of Madison.

Wisconsin moved into the limelight at the national meeting as a result of the expanded ADA program adopted by the Badger state ADA March 18. The national ADA

representing 42 states, adopted the Wisconsin program of a year around set-aside at the rate of two cents per cwt. of milk.

Secretary of Agriculture Ezra Taft Benson, featured speaker at the meeting, urged the dairymen to expand the ADA program to sell dairy foods instead of letting butter, cheese and milk powder pile up in government warehouses. In a press conference the secretary stated that he was pleased when he learned of the action taken by Wisconsin dairymen.

As soon as more funds become available advertising and other promotion of dairy products will be expanded into new fields. Lester J. Will, general manager of the national ADA, stated that proposed programs for selling more dairy foods will be prepared immediately for presentation to producers across the nation.

**ANOTHER VIEW OF THE TEACHER SHORTAGE**

Commenting on a statewide conference to consider the critical shortage of teachers, a member of the profession said "Teaching is the only work where experience is discriminated against." Low salaries alone, says this observer, are not responsible for the decline in numbers of teachers. "It is heart breaking to find a high profession degenerating into a commercialized political racket. Three hundred thousand dollars in scholarships to attract prospective teachers? Why not correct some of the faults, recognize experience and loyalty, and let high ethical standards be the attraction." Such is one suggested solution to a serious problem.

STORAGE SPACE FOR THE HOME WORKSHOP

Seldom do home workmen agree on the arrangement of shelf and storage space in the basement or garage workshop. But they do get ideas, then go home and improve on what the other fellow had. Illustrated, is the general plan of my workbench, as I plan to rebuild it. At each end of the bench is a cabinet for small nails, screws, tacks, staples, faucet washers, glazier points, and dozens of other odds and ends, stored in glass jars.

In the center and underneath the bench are two drawers to hold sandpaper and finishing supplies, and such tools as I do not care to hang on the tool panel.

At the ends, and underneath, are six shelves for the storage of tote boxes, scraps of lumber and various other articles. You never have too much space.

I have found the tote box the answer to many problems. It is simply a box made to use for carrying tools and materials needed for small household repair jobs.

In one I carry jars of screws of various sizes which I most commonly need. There is also space for screw drivers, hand drills, steel tape, and other tools.

Another box contains small nails of various sizes up to 1 1/2" in length, along with tools apt to be needed.

A third box contains the larger nails, while a fourth contains plumbing supplies, such as faucet washers and pipe wrenches.

A special feature is the small metal tray attached to each side of the handle with a hook. These are removable. The purpose is to hold small nails so that you can pick them up with your fingers. Pour the nails from the glass jars into the trays when you want to use them. Pour them back into the jars when you have finished.

When you fix up your workbench you will probably have a better idea.

So Goes The Mind

By Orin R. Yost, M. D.  
Medical Director, Edgewood Sanitarium

(Editor's Note: Dr. Yost is a graduate of the Medical College of Virginia at Richmond, studied psychiatry at St. Elizabeth's Hospital in Washington, D. C., taught psychiatry at Columbia University, New York, was division psychiatrist of the 79th division in World War II, and is presently Medical Director of Edgewood Sanitarium Foundation.)

THE IMPORTANCE OF PSYCHOLOGICAL TRAINING DURING EARLY CHILDHOOD

Is it possible that an effective program for training little children could improve our American way of life? Unquestionably, yes.

Until recent years parents were concerned with meeting only the physical, intellectual and, upon occasion, the spiritual needs of their little ones. When the child was ill, a doctor was summoned; when he attained his sixth or seventh year, he was sent to school. Dressed in his "Sunday best," the child was generally sent also to Sunday School on the Sabbath day so that his religious experiences might be increased.

Today, however, psychology and psychiatry teach that psychological needs also must be adequately met, else the little one is likely to develop quirks of personality which, in time prove both handicapping and unwholesome. In order that wholesome patterns of emotional stability might be developed, it is necessary to lay foundations for such during the early days of infancy. Therefore control of the emotions in the life of the growing child is left principally in the hands of its parents, its teachers or others to whose care the plastic individual is entrusted. Through vigilance, patience, intelligence and conscientious effort such molders of the young child's early development during this formative period must strive to create an emotional climate free from situations which might injure the child or move it to chronic fear or anger.

The very process of growing creates many needs, including not only food, warmth, sleep and opportunities for play but also psychological needs for love, security, belongingness, happiness and friendship. In fact, the emotions most commonly encountered in psychiatric practice are lack of love or of security, rejection, inferiority feelings, guilt and the type of ambition attended by envy and unwholesome competition.

When an infant comes into the world, life for him becomes a struggle. Situations cannot be avoided but must be faced. The babe is moved to act according to his instinctual drives, and thus he seeks an increase of pleasure and a reduction of the painful, disagreeable stimuli. But according to our cultural pattern some of the infant's primitive instincts are bound to come into conflict with environmental demands, as a result of which his personality begins to develop.

If a child is supplied with a solid, intelligent foundation of living, in which his environment, his parental training, and his background steer him toward unselfish goals, he is likely to become an emotionally stable individual. If, on the other hand, his parents are overstrut or too severe; or if they unwisely handle his childhood problems and fail to recognize individual differences, they themselves can predispose the little one to emotional disturbances later on in life.

Tasty Platter Partners

Attractive and mighty good eating is the combination of canned asparagus served with a tart, lemon Normandy Sauce and good thick pork chops.

Enjoy the convenience and variety of flavorful canned vegetables. Budget watchers will especially appreciate finding that prices have remained low. In fact, the canned food dollar today is worth more than other food dollars. So reach for a canned vegetable to round out the meal.

- Asparagus Normandy With Pork Chops
  - 1 No. 2 can asparagus spears
  - Light cream
  - 2 tablespoons butter, or margarine
  - 2 tablespoons flour
  - 1 tablespoon lemon juice
  - 1/4 teaspoon Tabasco
  - Salt and pepper
  - 4 pork chops
  - 1 hard cooked egg
- Drain liquid from asparagus and boil down to about a third. Add enough cream to make 1 cup liquid. Melt butter and stir in flour. Add liquid and cook until thickened, stirring. Remove from heat and add lemon juice, Tabasco and seasonings to taste. Arrange heated asparagus and cooked chops on platter. Top asparagus with sauce and garnish with sliced egg. Four servings.
- TRY: Spinach Normandy with Broiled Canadian Bacon  
Green Beans Normandy with Juicy Hamburgers or Meat Loaf  
Snappy Cheese Sauce Partners
- Use the recipe for Normandy Sauce but leave out the lemon juice, and add a half cup grated sharp cheese and a fourth cup diced pimiento.

Pork has been a staple food for years and most folks have their own favorite ways of fixing it. Here are some pork dishes that are special favorites with the menu.

- Barbecued Spareribs
  - 2 side spareribs
  - Salt, pepper, paprika
  - 2 tablespoons lard
  - 1 large onion
  - 1/2 cup catchup
  - 2 tablespoons vinegar
  - 1 teaspoon sugar
  - 1 teaspoon Worcestershire sauce
  - 1/4 teaspoon chili powder
  - 1/4 teaspoon celery seed
- Have spareribs cut into serving pieces; sprinkle with salt, pepper and paprika. Melt lard in pressure cooker and in it brown spareribs a few at a time until all are well browned. Slice onion; mix catchup with rest of ingredients. Put half the spareribs in the pressure cooker; cover with half the sliced onions and sauce. Place cover on pressure cooker and cook for 15 minutes at 15 pounds pressure. Reduce pressure slowly according to directions for your cooker. Serve with buttered lima beans and a molded vegetable salad.

- Hawaiian Pork Chops
  - 4 pork chops
  - 1/2 cup vinegar
  - 1/2 cup catchup
  - 2 oz. can crushed pineapple
  - 1 tablespoon soy sauce
  - 3 tablespoons brown sugar
  - 1/2 teaspoon salt
  - 2 cups cooked rice
- Trim a little fat from edge of pork chops and fry out in a heavy skillet. Remove pieces. Flour chops and brown in hot fat. Combine remaining ingredients. Spoon fat from skillet and pour catchup mixture over and around chops. Cover and cook over low heat 1 1/2 hours or until very tender. Spoon sauce over chops once or twice during cooking and add a little water as needed. Serve chops and sauce with cooked rice.

- Pork Steak Stacks
  - 4 pork shoulder steaks
  - Salt, pepper, flour
  - 1 cup cooked rice
  - 4 slices tomato 1/2 inch thick
  - 4 slices onion 1/4 inch thick
  - 4 teaspoons chopped green pepper
  - 1 can sliced mushrooms
- Trim a little fat from the edge of the pork steaks and fry out in skillet. Remove pieces. Sprinkle steaks with salt and pepper; flour and brown in the hot fat. Remove steaks to a roasting pan. On each steak, place 1/4 cup cooked rice, 1 slice tomato, 1 slice onion and 1 teaspoon green pepper. Sprinkle with salt and pepper. Top with well drained mushroom and add water to cover bottom of pan. Cover and bake at 350 degrees for 1 hour. Add water as needed; baste steaks several times during cooking. Serve with some of the drippings spooned over meat and vegetables.

- Fruited Pork Steaks
  - 4 pork shoulder steaks
  - Flour, salt, paprika
  - 2 cooking apples
  - Raisins, brown sugar
- Trim fat from edge of pork steaks and fry out in a large skillet. Remove pieces. Flour pork steaks and bacon on both sides in hot fat. Core apples, but do not pare; cut into thick slices. Top each steak with one or two apple slices and fill center with raisins. Sprinkle apples with brown sugar. Pour 1/4 cup water around steaks, cover and cook over low heat for 45 minutes. Baste once or twice during cooking with liquid in pan. Add more water if needed. Serve with sweet potato soufflé and cold slaw.

Food Sense -- Not Nonsense

ANOTHER MTH EXPLODED

It's Time to Talk of Teeth

Another fallacy about food and teeth has been blasted. It simply isn't true that all foods high in carbohydrate wreck havoc with our teeth.

Used to be, that those who faced a possible losing battle with tooth decay were advised to cut down on the amount of refined carbohydrate foods as the only known way of meeting the dental caries problem. Among foods singled out, were those made from white flour.

That foods high in starch do not bring about dental decay is demonstrated by dental health surveys made in several countries where the diet consists mainly of such foods. In Italy where 70 per cent of the calories are obtained from bread, spaghetti and macaroni, a 60-year old person can be expected to have as good teeth as a 13-year old American child. In China and India where refined rice dominates the diet, dental decay is low.

Good thinking demands some "brushing-up" on the facts regarding decay. It results indirectly from the activity of micro-organisms living on the covering of the teeth, known as "the plaque." The organisms produce acids from sugars; the acids in turn attack the enamel of teeth. Research shows that the breaking down of starch by these organisms to its final product, acid, is so slow that the ever-present saliva can offset the acid formed.

Recent studies emphasize the long-known fact that proper use of the tooth brush will greatly decrease dental decay. It isn't always convenient to brush one's teeth after a meal, but it is possible to gently rinse the mouth with a drink of water to remove sugars and any particles of other foods which might have remained after eating.

Fifty-fourth Annual Report of the Washington County Hospital and Home—Trustees, Superintendent, and Matron

To the Honorable Board of Supervisors, Washington County: The Trustees, Superintendent, and Matron herewith present our Annual Report of the Washington County Hospital and Home for the year ending June 30, 1952.

We have this year completed our New Addition, and some additional repairs to the old building, to give us more office space and room for employees. We are happy to say it has worked out very nicely, and has also done much to improve the appearance of the Hospital Building.

We have had television installed in the Wards, and the patients have enjoyed this immensely. We had our heating equipment installed, and found the Oil Burner very satisfactory over all Stoker firing. We have added a Hay Baler, and a few other improvements to our Farm Equipment.

Our plans to improve the kitchen, serving room, and Ward toilet and bath rooms, are still pending. We hope that you will give this your next consideration. Our population is steadily increasing, and we are considerably overcrowded, making it more imperative every day, that this remodeling be done in order to adequately take care of our patients.

Our patients have been well in general. Much of this is attributed to the excellent medical care given by Dr. Kauth, the dental care given by Dr. Marth, and to the many efforts of our employees.

We wish to thank the Society of Barber Shop Quartettes for their donation of a Movie Projector and Screen. With this we have been able to show more movies, which our people really enjoy. Our thanks also to the Police Department for the co-operation; to the Clergy, who have donated their time for their spiritual welfare, and to the various Organizations, who contributed to the Christmas party, and to the Institution throughout the year.

ROY W. GONNERING, Superintendent MRS. THECLA GONNERING, Matron

ANNUAL PHYSICIAN'S REPORT of the Washington County Hospital and Home

To the Honorable Board of Supervisors, Washington County: Gentlemen: For statistical purposes I shall take the deaths in the Hospital and Home separately—

During the last year, 16 patients died at the Hospital at an average age of 73 years. Of this number, 10 were women and 6 were men. Causes of death were as follows:

Table with 2 columns: Cause of death, Number of deaths. Includes Apoplexy, Pneumonia, Cardio-Renal, etc.

At the Home there were 9 deaths, 3 women, and 6 men. Their average age was 80 years, and the cause of death was given as follows:

Table with 2 columns: Cause of death, Number of deaths. Includes Arterio-Sclerosis, Uremia, Cardiac Diseases, etc.

Altogether there has been the general state of health as obtains in these Institutions. Conditions generally, from my standpoint, are very good, and the patients seem to appreciate anything that has been done by the management and the help for their care and comfort, especially commendable is the television equipment.

Respectfully submitted, P. M. KAUTH, M.D.

ANNUAL DENTISTS REPORT of the Washington County Hospital and Home

To the Honorable Board of Supervisors, Washington County: Gentlemen: Definite progress has been made during the past year in improving the dental health of a goodly number of patients at the County Hospital.

The removal of infected teeth from many patients has brought them noticeable improvement in disposition, health, and comfort. The relatively small number of dental cavities that appear is noticeable. I would attribute this favourable condition chiefly to well balanced, wholesome meals.

A number of patients, who do physical labor on the farm, laundry, and about the Hospital have been fitted with dental plates, which were badly needed.

Dental troubles are promptly reported by the attendants with the good result that I seldom find a patient with severe dental pain. The harmony among the hospital staff, and the kindly co-operation of the Superintendent and the Matron sustains my interest in my work.

Respectfully submitted, A. CARL MARTH, D.D.S.

WASHINGTON COUNTY HOSPITAL AND HOME

To the Honorable Board of Supervisors of Washington County: Gentlemen: The Superintendent of the Washington County Hospital, Farm, and Home respectfully submits to you the Annual Report for the year ending June 30, 1952. The following is the Financial Statement:

Report No. 43 of the Budget and Finance Committee, regarding periodical audits was read to the Board. Moved by Mr. Schroeder, seconded by Mr. Campbell that Report No. 43 be adopted and filed. Motion carried.

REPORT No. 43
REPORT OF FINANCE COMMITTEE ON AUDIT
Your Committee on Finance respectfully reports that we have examined and compared the vouchers in the County Clerk's office and found the same to be true and correct.

REPORT No. 42
REPORT TO THE COUNTY BOARD OF
WASHINGTON COUNTY ON INSPECTION OF
PICK MANUFACTURING COMPANY BUILDING

Pursuant to the direction of the Chairman of the County Board, Members of the Highway Committee, the Highway Commissioner, Patrol Superintendent, Shop Superintendent and the Chairman of the County Board met at the Pick Manufacturing Company Plant on Western Ave., in the City of West Bend at 10:30 o'clock A.M., on February 11, 1953 for the purpose of determining the feasibility of utilizing said plant building for storage of highway equipment, etc., as suggested in a proposal sent by Mr. Carl Pick by letter to members of the County Board.

Upon inspection of said building, your committee reports as follows:
1. There are not now adequate entrances to the building to allow entry of the heavier and larger equipment.

2. The ceiling clearances in the newer part of the building (which ceilings are higher than the older part) are not enough to take care of the heavier and larger equipment.

3. The arrangement of the posts supporting the roof in the building would prevent maneuvering equipment inside the building for the purpose of servicing the same, etc.

Your committee has reached the conclusion that the cost of remedying the matters above would be prohibitive. Further, your committee feels that the separation of the operation of the Highway Department in the City of West Bend would, in any event, certainly reduce the efficiency of the Highway Department and unnecessarily increase the cost of its operation.

the County Treasurer, West Bend, Wisconsin, for interest due that day on its Highway Garage Bond, dated as of April 1, 1953, No. ....

ATTEST:
County Clerk

Section 4. That said bonds shall be advertised for sale by the County Clerk in the manner provided by law. This Board of Supervisors will adopt proceedings so as to award said bonds, fix the interest rate thereon in accordance with the bid accepted, and levy taxes to meet principal and interest thereon at maturity as required by law.

Dated at West Bend, Wisconsin, this 2nd day of March, 1953. H. B. WOLDT, JOHN VAN BEEK, ALBERT BLOEDORN, GUIDO SCHROEDER, LEO P. GEIB.

Resolution No. 75 was given second reading and unanimously adopted on roll call, vote of members present: 26 ayes, no nos, 2 absent.

RESOLUTION No. 75

WHEREAS, the Supervising Teacher for Washington County has heretofore been reimbursed for mileage at the rate of six cents (.06c) per mile, and

WHEREAS, the said reimbursement for mileage does not cover the actual expenses incurred by said Supervising Teacher in the operation of her automobile, and

WHEREAS, all other personnel of Washington County receiving reimbursement on a mileage basis have been receiving such reimbursement at the rate of eight cents (.08c) per mile.

NOW THEREFORE BE IT AND IT IS HEREBY RESOLVED by the Board of Supervisors of Washington County that Washington County shall reimburse its Supervising Teacher at the rate of eight cents (.08c) per mile effective as of the execution of the new Supervising Teacher contract.

Dated this 2nd day of March, 1953.

Introduced by: NORMA B. COURTNEY, HARVEY DETTMANN

Moved by Mr. Schmidt, seconded by Mr. Helm that the board return to the rules. Motion carried. Board proceeded on rules.

The chair designated the building committee as the committee responsible for obtaining information regarding the costs of recommended jail improvements and they were further instructed to provide this information available for the board at their next meeting.

The clerk was instructed to make various contacts and to obtain estimates on costs of fire escapes, fireproofing and other improvements that would be necessary to make the present jail an approved jail for housing all types of prisoners.

Moved by Mr. Cleary, seconded by Mr. Helm that the board adjourn until April 21st at 10:00 a.m. Motion carried. Meeting adjourned.

Respectfully submitted, ANTON P. STARAL, County Clerk.

Supervisors of Washington County Rules of Order of the Board of

Section 1. The Board shall choose by ballot one of their members to occupy the chair. He shall be styled "Chairman of the Board" and shall hold this office during one year, or during the time that said Board was elected to serve. He shall take the chair at the hour to which the Board is adjourned and call members to order, and if a quorum be present he shall direct the minutes of the preceding day to be read and mistakes if any, corrected. He shall preserve order and decorum, and shall decide questions or order, subject to an appeal to the Board. He shall, unless otherwise directed by the Board appoint all committees; he shall vote on the calls of yeas and nays. The Board shall also elect one of their number as vice-chairman. In the absence of the chairman and vice-chairman the Board shall appoint a chairman pro tem.

Section 2. Any two members may make a call of the Board and require absent members to be sent for; but a call of the Board can not be made after the voting has commenced, and the call of the Board being ordered and the absentees noted, the doors shall be closed and no members permitted to leave the room until the report of the sheriff shall be received and acted upon, or further proceedings under the call be dispensed with by a vote of the majority of the members elect.

Section 3. All questions shall be put in this form. Those who are of the opinion (as the case may be) say "aye," those of the contrary opinion say "no," and in doubtful cases any member may call for a division.

Section 4. When a motion is made and seconded it shall be stated by the chairman or clerk previous to debate. If any member requires it, all motions, except to adjourn, postpone or commit, shall be in writing. Any motion may be withdrawn by consent of the Board before the decision for amendment.

Section 5. Every member present when a question is put or when his name is called, shall vote unless the Board shall, for special cause, excuse him; but it shall not be in order for a member to be excused after the Board has commenced voting.

Section 6. A motion to adjourn shall always be considered in order and be not debatable, and a call for the previous question and a motion to lay on the table, shall be decided without debate; but a motion to adjourn shall not be received when the Board is voting on another question.

Section 7. When any member is about to speak in debate, or deliver any matter to the Board, he shall arise from his chair and respectfully address himself to the chairman and shall confine himself to the question under the debate and avoid personality.

Section 8. When two or more members shall arise at once, the chairman shall name the member who is to speak first.

Section 9. No committee shall absent themselves by reason of their appointment during the sitting of the Board without special leave.

Section 10. Every resolution or other matter shall be introduced on leave and referred to the appropriate committee if considered necessary. All resolutions shall be laid over for a second reading before voted upon. All resolutions carrying an appropriation shall after the first reading be referred to the budget committee for their recommendation as to its effect upon the same day that it is introduced except by suspension of the rules.

Section 11. When a motion or question has once been made and carried in the affirmative or negative, it shall at any time on the same or succeeding day be in order for any member of the majority, or when the Board is equally divided, for a member who voted in the negative to move for a reconsideration thereof.

A motion to reconsider being put and lost shall not be renewed. Section 12. No member or officer of the Board shall be permitted to read newspapers or magazines within the bar of the Board, while the Board is in session.

Section 13. All resolutions brought in by any member or committee shall be endorsed by the member of the committee bringing the same.

Section 14. When a member is called to order he shall sit down and shall not speak except in explanation, until the chairman shall have determined whether he is in order or not; and every question or order shall be decided by the chairman, subject to an appeal to the Board by any member, and if a member be called to order for words spoken, the exceptional words shall be taken down in writing, that the chairman and the Board may be better enabled to judge.

Section 15. A majority of all the members elected to the Board must be present to constitute a quorum for the transaction of business; and three of their number, however, can adjourn from time to time and have a power to compel the attendance of absent members.

Section 16. Any committees required to or entitled to report upon a subject referred to them may make a majority and minority report.

Section 17. All appropriations of money shall require the affirmative vote of not less than a majority of the members present and shall be voted for by the roll call vote, and entered among the proceedings of the Board. In all resolutions where a roll call vote has been requested, or is required, the names of all members voting thereon be published in the annual report and that said report show which members voted for or against said resolution.

Section 18. The following standing committees shall be appointed by the chairman of the County Board and each committee shall consist of the number of members and its duties shall be as follows:

COURT CLAIMS-To audit all circuit court, county court, sheriff's and justices of the peace accounts; to consist of five members.

GENERAL CLAIMS-To audit all other accounts which are not enumerated above; to consist of five members.

FINANCE AND BUDGET COMMITTEE-To audit all vouchers every three months and take care of all matters which come under the heading of finance. The preliminary budget of Washington County is to be presented to the County Board on or before November 1, and the final budget is to be presented to the Board before the end of November session. The committee is to consist of five members.

EQUALIZATION COMMITTEE-To take care of the equalization of taxes of Washington County. All County Board members as a committee of the whole shall act on this committee.

COUNTY INSTITUTIONS-To supervise the welfare of the Washington County Hospital, Washington County Home, and the Public Welfare Department of Washington County; to consist of five members.

SALARY COMMITTEE-To supervise all salaries paid to Washington County officials and employees except those of the highway employees; to consist of five members.

EDUCATION-To provide aid for public schools, supervising teachers, and anything else pertaining to education; to consist of three members.

COUNTY FAIRS-To supervise the county's fairs and take care of the supervision and maintenance of the fair buildings of Washington County; to consist of three members.

AGRICULTURAL-To take care of the agricultural activities and 4-H Club activities of Washington County; to consist of five members.

PUBLIC PROPERTY-To have the supervision of the court house and jail of Washington County and the equipment therein, and the printing of Washington County; to consist of five members.

INSURANCE COMMITTEE-To handle all the insurance of Washington County; to consist of the following five members: chairman of the County Board, chairman of the finance and budget committee, chairman of the highway committee, chairman of county institutions committee, and chairman of the county fairs committee.

SHERIFF'S COMMITTEE-To set hours of work, vacations, compensation, duties and general rules of employment of traffic patrolmen.

THE HIGHWAY COMMITTEE shall be elected as provided by the Wisconsin Statutes, shall consist of three members and shall fix the salary of all employees of the County Highway Department, shall have charge of the supervision and maintenance of all county highway buildings and shall have such further duties and powers as provided by law.

No person shall be appointed to standing committees of the County Board except members of the County Board unless where the law provides that certain other persons shall be appointed. Section 19. No rule shall be suspended or amended without concurrence of two-thirds of the members present.
