

Jac. Bruessel, Jr., H. Wesenberg and Others Pass Away

Jacob A. Bruessel, Jr., 48, widely known resident of the town of Kewaskum, passed away Wednesday morning, July 14, at St. Joseph's hospital, West Bend, following an illness of seven months with heart and kidney trouble. He would have reached the age of 49 next month.

Mr. Bruessel was engaged in farming on the Bruessel homestead in the town of Kewaskum located about 1 1/2 miles southwest of the village for many years and later was employed at Regal Ware, Inc. here. He was born there on Aug. 7, 1905 and lived on the same farm all of his life.

The deceased was married to Miss Bernetta Reindl on May 5, 1932 by the late Rev. Philip J. Vogt. His wife survives along with five children, namely Pvt. Jacob K. Bruessel of Fort Leonard Wood, Mo., Misses Doris, Janice, Lavilla and Carol Ann Bruessel, all at home. He is further survived by his aged father, Jacob Bruessel, Sr., Kewaskum; one sister Elsa (Mrs. Clifford Stautz), Kewaskum; two brothers, Edwin Bruessel, Allenton, and Walter Bruessel, Campbellsport; his father-in-law and mother-in-law, Mr. and Mrs. Geo. Reindl; many nieces, nephews and other relatives. His mother, nee Emma Klumb, died 15 years ago.

Mr. Bruessel was a member of the Knights of Columbus and the Holy Name society of Holy Trinity parish, Kewaskum.

The body is in state at Miller's funeral home, from where services will be held at 9 a. m. Saturday to Holy Trinity church at 9:30 o'clock. The Rev. F. C. La Buwi will officiate and burial will be in the new Holy Trinity cemetery. Members of the Knights of Columbus and Holy Name society prayed the rosary in a body at the funeral home Friday night at 8 p. m.

HERMAN WESENBERG

Herman Wesenberg, 74, retired farmer, and lifelong resident of the town of Auburn, passed away on Tuesday, July 13, after ailing for the past two years.

He was born on March 8, 1880 in the town of Auburn, a son of the late Henry and Fredericka Wesenberg. He never married.

The only survivors are two brothers, Robert Wesenberg of the town of Auburn and Albert Wesenberg of the town of Kewaskum.

Funeral services were conducted at 2 p. m. Thursday at Miller's funeral home, Kewaskum, the Rev. F. C. Rodenbeck presiding. Interment was in the Penes church cemetery.

MRS. CASPER KLUNKE

Mrs. Casper Klunke, 82, nee Anna Wiskirchen, a town of Scott native and former resident of the town of Farmington many years, died Thursday, July 8, at 11 p. m. at her home, 821 Cedar Street in West Bend. She had been ailing for the past year.

Mrs. Klunke was born on April 18, 1872 in the town of Scott, Sheboygan county. She resided there until the age of 14 years when she moved with her parents to the town of Farmington. She was married to Casper Klunke on May 16, 1893, at St. Michael's church in the town of Kewaskum. The couple settled on a farm in the town of Farmington, where they made their home 15 years, and then moved to Boltonville. There they operated a general store until 1918, when they moved onto the former Washington county farm in the town of Jackson. After retiring in 1943 they moved to their present home in West Bend.

The deceased is survived by her husband, two children, Theola and Leonard, both of West Bend, and a sister, Miss Elizabeth Wiskirchen, West Bend.

Mrs. Klunke was a member of St. Ann's altar society of Holy Angels church, West Bend.

The funeral was held Monday morning at 9 o'clock from the Schmidt funeral home, West Bend, and at 9:30 in Holy Angels church, the Rt. Rev. Magr. Edward Stehling presiding. Burial was in the church cemetery.

Blood Donor Clinic Is Scheduled Here

Two blood donor clinics have been scheduled in Washington county in August. The first will be held Monday, Aug. 2, in Kewaskum and the second is to be on Thursday, Aug. 5, in West Bend. The goal for each will be 100 donors. The clinics will provide residents of the county to give their Community Blood Donor club "bank" a real boost.

Persons may register for the Kewaskum clinic by phoning or contacting Henry Rosenheimer, chairman, or for West Bend by calling Mrs. S. M. Hetland, acting chairman, at 137 in that city.

The 100-donor clinic will be the new "streamlined" type started in May which are to be held more frequently with a smaller goal of donors. This policy has been requested by the Junior League Blood Center in Milwaukee which services and provides all the facilities for maintenance of the County-West Bend Community Blood Donor club in return for a half-share of whole blood. Scheduling of donors for the clinic is being started this week, well in advance, to give everyone an opportunity to come at whatever time in the afternoon and evening they desire.

Board Adopts Athletic Field Lighting Motion

Special Meeting July 2, 1954

The Village Board of Kewaskum, Washington County, Wisconsin, met in special meeting with President C. Miller presiding and all Board members present.

Motion by J. Reigle and seconded by J. Eberle that the agreement presented previously by Joint School Dist. No. 5 to the Recreation Committee regarding the use and maintenance of the school athletic field lighting system during the summer months be accepted with the stipulation that the maintenance clause shall not include the cost of replacing or repairing any transformers, poles or underground wiring. Upon roll call, all members present voting "aye", the motion was so adopted.

Because of the scheduled school board meeting on July 6th, it was moved by J. Stelpling, seconded by M. Schaefer and carried that the regular July meeting of the Village Board be postponed to July 5, 1954 at 8:00 P. M.

William S. Martin
Village Commissioner

UNDEFEATED GREAT DANE FINISHES CHAMPIONSHIP

Soreness of Stone Hedge, the Great Dane dog owned by Mr. and Mrs. Ned W. Sengpiel of Kewaskum, recently finished her championship at Lake Geneva. This fine dog has been undefeated in her last nine shows, a remarkable record. The dog's wins include three Best of Breeds awards, four Best of Opposite Sex, and seven Best of Winners.

BIRTHS

BARTELT—A daughter to Mr. and Mrs. Willard Bartelt, Kewaskum, Tuesday, July 13. The Bartelts also have a son, Tommy, Mrs. Bartelt is the former Audrey Koch.

PETERMANN—A fourth daughter to Mr. and Mrs. Delbert Petermann, Kewaskum, Saturday, July 10.

THEUSCH—A son to Mr. and Mrs. Leonard Theusch, Kewaskum, R. R. Thursday, July 8.

Advertise in the Statesman.

EDWARD H. RADEMANN

Edward H. Rademann, 62, of Hartford, father of Mrs. Clarence Werner of Kewaskum, passed away on Wednesday, July 7.

Besides his daughter, Delores (Mrs. Werner) here, he is survived by two other daughters, Hazel (Mrs. John Burle) of Waukesha and Ruth (Mrs. Earl Potter) of West Bend; three sons, Wallace, Carlton and Edward of Hartford; three brothers and four sisters.

Funeral services were held at the Berndt funeral home, Hartford at 2 p. m. Saturday, July 10.

Miss Sippel Weds Alvin Wiesner, Jr.

In a nine o'clock nuptial mass read in St. Bridget's church, St. Bridgets, by the Rev. F. C. La Buwi on Saturday morning, July 10, Alvin Wiesner, Jr., son of Mr. and Mrs. Alvin Wiesner, Sr., R. 3, Campbellsport, took as his bride Miss Frances Jane Sippel, daughter of Mr. and Mrs. Alex Sippel, St. Bridgets.

The bride, given in marriage by her father, wore a floor length gown of scalloped Chantilly lace and nylon tulle with long sleeves. Lace trimmed the full nylon tulle skirt and her finger tip veil cascaded from a sweetheart bodice of pleated tulle and orange blossoms. She carried red roses tied with white ribbons and streamers to form a cascade bouquet.

Donna Wiesner, sister of the bridegroom, attended as maid of honor. She was attired in a pink net over taffeta gown fashioned with a full skirt of ruffled lace and net with ruffled trimmed bodice. She carried blue and pink edged carnations. Miss Patricia Wiesner, sister of the bridegroom, and Miss Josephine Goebel, a friend of the bride, who served as bridesmaids, were identically dressed in blue gowns like that of the honor attendant. Their bouquets were formed of blue and pink carnations. Little Miss Lorinda Wiesner, another sister of the bridegroom, acted as flower girl in a gown of white net over taffeta. She carried a miniature bouquet of red roses. Presiding at the organ was Mrs. Ben Klesmich.

Serving as best man was Raymond Sippel, the bride's brother, and Alois Wiesner, brother of the bridegroom, was groomsman. Ushers were Bernard Gau and Richard Theusch.

A reception was held at Fahn's Round Lake resort, following a dinner and reception held at the home of the bride's parents.

The bridegroom, a graduate of Kewaskum High school, is employed as a machinist at Gehl Brothers Manufacturing company in West Bend. The bride graduated from St. Mary's Springs academy.

BLATZ INVITES KEWASKUM FRIENDS TO PARTY FOR M. RAFENSTEIN IN MILWAUKEE

The Blatz Brewing company, Milwaukee, and the Bintlizer-Waehler Post 347 of Lomira invite relatives and friends in Kewaskum and community to an evening of real Milwaukee gemütlichkeit at the fabulous million dollar Blatz auditorium on Friday night, July 23, from 7:30 to 11 p. m. in celebration of the 70th birthday of Mike Rafenstein and his 25th anniversary as a member of the Blatz quartette. The quartette sang at the Kewaskum picnic last Saturday night.

The Diane Trio will furnish music for dancing, there will be plenty of Blatz beer, a delicious "Friday" buffet will be served and the Blatz Quartette will sing. Admission will be by ticket only. FREE tickets may be had by contacting the chairman: Elmer Rafenstein, 2525 N. 56th St., Milwaukee, or Frank Brodzeller, Lomira, or by calling for them at Heister's tavern, Kewaskum. Mr. Rafenstein is a brother-in-law of Mrs. Louis J. Heister. Mike has many friends here as a result of his frequent visits.

Mike's friends here are invited to pick up their free tickets now.

SHAUDVITIS DAUGHTER IS BAPTIZED SUNDAY

The infant daughter of Mr. and Mrs. Leonard Shaudvitis was baptized Sunday, July 11, by the Rev. Leonard Stockmeier in the Evangelical and Reformed church at Campbellsport. The little miss received the name Diane Doris. The grandparents, Mr. and Mrs. Harold C. Johnson of Campbellsport, were the sponsors. Diane's daddy is serving in England with the army.

NEW HOME GOING UP

Work is progressing on another new home here being built by Mr. and Mrs. Jack Flynn of Kewaskum in the new Belzer addition on the east side of town.

85 Attend First Meeting of New Grade School Dist.

BOARD MEMBERS ELECTED; MEETING ADJOURNED TO TUESDAY, JULY 20

The first annual meeting of the electors of the newly created Kewaskum Consolidated Grade School district was held in the high school auditorium at 8 o'clock on July 12, with 85 electors present.

Deane Bascom, chairman of the Washington County School committee, called the meeting to order and outlined the work to be considered. In response to Bascom's request for the election of a temporary chairman, L. N. Peterson was elected.

An annual salary of \$200.00 was voted board members Peterson then called for nominations for board members. Electors nominated William Becker, Arnold Bier,

COMMUNITY HIGH SCHOOL ADJOURNED MEETING WEDNESDAY, JULY 21

The adjourned meeting of the Kewaskum Community High School will be held in the high school auditorium on Wednesday evening, July 21. This is a very important meeting and all electors should be present.

August Koch, Paul Landmann, Carl Mellahn, Louis Ogenorth, Henry Rosenheimer, Ray Schaefer, and Clifford Stautz. Of those nominated Landmann and Schaefer were elected to serve for three years, Rosenheimer and Stautz for two years and Koch for one year.

Chairman Peterson called for the secretary and clerk reports from all of the districts comprising the newly created district. However, not all reports were ready for presentation so it was deemed advisable to postpone any further attempt to conclude the meeting and the chair entertained a motion that the meeting be adjourned to Tuesday evening, July 20, at 8 o'clock.

At an organization meeting of the Board of Education held immediately following the annual meeting, Rosenheimer was elected director, Landmann, clerk, and Stautz treasurer.

ALL ELECTORS ARE URGED TO ATTEND THE ADJOURNED MEETING OF THE NEW GRADE SCHOOL DISTRICT, JOINT DISTRICT NO. 1, WHICH WILL BE HELD ON TUESDAY, JULY 20, 1954 AT 8 O'CLOCK IN THE HIGH SCHOOL AUDITORIUM IN THE VILLAGE OF KEWASKUM.

LOCAL MAN, TWO OTHERS ENLIST IN AIR FORCE

Three Washington county men recently enlisted in the U. S. Air Force and have left for 12 weeks of basic training at Lackland Air Force base. It was announced by T/Sgt. Bill Hicks, local recruiter.

The recruits include John Kaulfuert, R. 3, Kewaskum, son of Joseph Kaulfuert; Lewis Techtman, R. 4, West Bend, son of Mr. and Mrs. Edward Techtman, and King Lyance Spradon, R. 3, West Bend, son of Mr. and Mrs. Edward Spradon.

BILGOS HAVE LITTLE DAUGHTER BAPTIZED

The infant daughter of Mr. and Mrs. August Bilgo, Jr., Kewaskum, was baptized by the Rev. Gerhard Knapp in St. Lucas Ev. Lutheran church on Sunday afternoon, June 27. She was given the name Debra Kay. Sponsors were Roger Bilgo of Milwaukee, brother of the daddy, and Shirley Schloemer of West Bend, sister of the mommy.

| Kewaskum | 3 | 1 |
| West Bend | 3 | 1 |
| Barton | 3 | 1 |
| Slinger | 3 | 1 |
| Newburg | 0 | 3 |
| Campbellsport | 0 | 3 |

Results last week end—Slinger 21, West Bend 1; Barton 20, Newburg 4, Kewaskum 14, Campbellsport 12.

Game Sunday—Kewaskum at Slinger.

Lunch Room Again Changes Hands

Ed. Albrecht of Fond du Lac, who purchased Lenore's Lunch in the Harry H. Maaske building on North Fond du Lac avenue on June 21, has resold the business to Mr. and Mrs. LeRoy Schultz of R. 2, Kewaskum, who took possession last Friday.

After buying Lenore's Lunch, Albrecht changed the name of the lunch room to Eddie's Diner. He conducted the business for only two and one-half weeks before selling it again. Albrecht has returned to his home in Fond du Lac.

Mr. and Mrs. Schultz plan on opening the restaurant at 7 a. m. during the week and at 11 a. m. on Sundays. They have changed the name to The Village Inn. The personnel will be the same with extra help added.

See the Schultzes announcement on another page of this issue regarding their home cooking and baking. They will feature chicken and ham dinners on Sundays.

Port Shades Chevs in 11 Innings, 4-1

The Kewaskum Chevrolets opened second half play in the Lakes league by surprising the strong Port Washington team and forcing them to go 11 innings here Sunday to eke out a 4-1 victory. Port tied Grafton for first place in the first half of the race. The Chevs, who ended up in the cellar in the first half, wasn't expected to give the visitors too much of a battle.

A two-run single by Mike Monahan in the top half of the 11th inning gave Port its triumph over Kewaskum.

KEWASKUM DEFEATED IN SEMI-PRO TOURNEY

The Kewaskum Chevrolets participated in the Northeastern Wisconsin Semi-Pro district tournament held at Plymouth last week. In their opening game the Chevs were defeated by Log Cabin of Fond du Lac, 10-2, eliminating them from further competition. It was played Thursday night, Port Washington won the meet by defeating Kiel in the finals Sunday night, 17-16.

Don Meisenheimer buried the first seven innings for Kewaskum and pitched good ball until the 6th when Fondy exploded for seven runs. The score was 3-2 up to that time. Killy Honeck twirled the final two frames. Kewaskum got only four hits and three of them were made by Augie Bilgo.

waskum in a real pitcher's duel, Manager Doug Ritchie toed the rubber himself to save his regular pitchers for the Plymouth district tournament which Port won Sunday night by defeating Kiel in the finals, 17-16 in a slugfest.

Ritchie hurled shutout ball until the ninth inning when Kewaskum tied it up at 1-1. He allowed only six hits in the extra-long contest, including a double by Dick Edwards that drove in the tying run. Edwards also garnered another hit and Gordie Wierman, Augie Bilgo and Bob Felix each coined one.

Glen Backhaus and Killy Honeck handcuffed the Port batters until the final frame. They were touched for nine hits in all, including a double and two singles by dangerous John DeMerit. But it was Monahan's blow that saved the game. Ritchie aided his cause with a triple that scored a run.

This coming Sunday the Chevrolets have an even tougher assignment when they play at Grafton. Grafton tied Port for the first half title and then went on to win the playoff tilt.

| Kewaskum | 0 | 1 |
| Grafton | 0 | 1 |
| Cedarburg | 0 | 1 |

Scores last Sunday—Port Washington 4, Kewaskum 1 (11 innings); Saukville 6, Grafton 3; West Bend 13, Cedarburg 8.

Wallentelsz Property, Others Sold by Maaske

Harry H. Maaske, Kewaskum real estate broker, this week announced the sale of several properties in the village and surrounding area.

The Lawrence Wallentelsz electric store and home located on the Kewaskum hill a short distance south of Kewaskum, which was up for sale at public auction recently, has been sold to Donald Miodzik of Kewaskum.

The Orville Petermann home just north of the village was sold to Norbert Broecker, Kewaskum, at a public auction held on the property last Saturday, July 10.

In another transaction, the Alex Backhaus farm at New Fane was sold to Herbert Thorn of North Lake.

The Frank Gitter property at Boltonville was sold to Walter Mohr of Dundee. An auction was to be held on the property this Saturday, July 17, but it was sold prior to the auction.

Maaske's newly completed home on the east end of the village has also been sold, the buyer being Merlin Luedtke of Kewaskum.

Maaske announces that as a result of the above sales he needs more properties for other buyers. He also lists auctions.

Cancer Drive in County Tops Goal

Washington county residents have once again exceeded their quota in the fund drive conducted on behalf of the American Cancer society, County Chairman Thomas J. Kenny announced Tuesday that the 1954 campaign had exceeded the goal, with total contributions in the voluntary drive, including the donations received from the West Bend-Barton and Hartford Community Chests, reaching \$4,017.07.

Expressing thanks to all who helped put the drive over the top, Kenny said residents of Washington county could be proud of their record in support of the vital research and educational activities of the American Cancer society in its fight to conquer cancer. He pointed out that the drive was conducted entirely on a voluntary basis, with a letter being sent to every resident of the county, and said the fact that no personal solicitation was conducted made the results of the campaign that much more a credit to those who helped to the quota.

Kenny also thanked volunteer workers who assisted in the campaign, giving special mention to the various precinct chairmen, workers who helped with the task of preparing and mailing nearly ten thousand letters, and the vice-chairman for the county, H. E. Pelzer, of Hartford.

"The success of the campaign leaves unbroken Washington County's record of never having failed to give its wholehearted support to the vital work of American Cancer society, and we are grateful to everyone who helped in any way," Kenny concluded.

AUTOS INVOLVED IN TOWN AUBURN CRASH

A car driven by Mark F. Smith, Shorewood, was damaged in a collision with a vehicle operated by Elaine D. Buswell, Kewaskum, R. 3, on County Trunk G in the town of Auburn at 2:15 p. m. Sunday.

The radiator, hood, fender and bumper of the Smith car were damaged. Police said the Buswell car stopped suddenly when the driver saw a truck turning onto G and Smith explained that he could not stop in time to avoid striking the rear of the Buswell auto. There was no damage to the Buswell car.

NOTICE

My shop will be closed from Monday, July 19, through Monday, July 26.

Oscar's Shoe Repair

Games this Sunday—Kewaskum at Grafton, Mequon at Cedarburg, Saukville at Port Washington. (West Bend at Germantown postponed because of Germantown picnic).

Firemen-Legion Picnic Over Week End Great Success

The annual picnic sponsored by the Kewaskum firemen and American Legion Post 384 in the village park Saturday night and Sunday again was an outstanding success both socially and financially. The weather was fine and large crowds filled the park, especially on Sunday afternoon and evening.

Slightly chilly weather Saturday evening and other activities held down the attendance some but the turnout was good.

The festivities Sunday began with the parade at 12:30 p. m. Throngs of people lined the streets to watch the parade which was one of the best and longest in several years. There were a number of beautiful and original floats, many children's groups and individual floats. Kewaskum High school band and other musical units, old time rigs, visiting firemen and Legionnaires, and other units.

Mel's Circus Clown band furnished music from the stage and circulated through the crowd in the afternoon and evening. They greatly amused onlookers with their comical antics. Free acts of roller skating, magic and acrobatics were also held on the stage in the afternoon and night. The folks remained in the park and even during the supper and chore hour the stands were kept busy. The evening turnout was equally as large as that in the afternoon.

Twenty big and valuable prizes, on which advance tickets were sold, were awarded in the evening. The lucky prize winners were as follows:

1. 12-ft. plywood boat (\$195.00)—Joe Campagna, Campbellsport.
2. Contour chair (\$129.95)—Alvin Haug, 747 3rd Ave., West Bend.
3. Power mower (\$99.95)—Larry Balzer, 5626 No. 60th, Milwaukee.
4. Two snow tires (\$52.95)—AL Theusch, Barton.
5. China set (\$17.50)—Wallace Geidel, Kewaskum.
6. Radio (\$14.55)—Eileen Heister, Kewaskum.
7. Electric percolator (\$12.95)—Paul Landmann, Kewaskum.
8. Electric clock (\$11.95)—Wm. Wunder, R. 1, Kewaskum.
9. Case of oil (\$11.20)—Henry Weddig, Kewaskum.
10. 2 Sealbeam fog lights (\$10.95)—Sylvester Muckerheide, Kewaskum.
11. Box of groceries (\$10.00)—Emil Schmitz, Campbellsport, R. R. 12, 100 lbs. of sugar (\$10.00)—Rich. Roese, Kewaskum.
13. Beverage set (\$9.95)—Lee Honeck, Kewaskum.
14. Outdoor grill (\$7.95)—West Bend Lithia Co., West Bend.
15. Fishbox (\$6.95)—Marvin Porckin, Kewaskum.
16. Gallon of fly spray (\$6.95)—Morrie Rosenheimer, Kewaskum.
17. Snack set (\$4.95)—Louis Bath, Kewaskum.
18. Flashlight (\$4.50)—R. G. Kroncke, Kewaskum.
19. Case of beer (\$2.80)—Florence Rindt, Kewaskum.
20. Case of beer (\$2.80)—Mrs. Ed. Dreher, Kewaskum.

Parade prizes were won by the following participants:

- Commercial floats—1. "Kettle Moraine" by Kiwanis club, \$15; 2. "Queen of the Kitchen" by Regal Ware, Inc., \$10; 3. "Honor the Dead by Helping the Living" by V. F. W. Post #329, \$5.
- Children's group floats—1. Kewaskum Fire Dept. Ambulance, \$5; 2. Doggle in the Window, \$3; 3. Kewaskum Pig Fair, \$2.
- Children's individual floats—1. "Uncle Sam" by Pat Bruesch, West Bend, \$3; 2. "Red, White and Blue Doll Buggy" by Gloria Schwind, \$2; 3. "Popcycle on Bicycles" by Roger Yeadeke, \$2; 4. "Doll Buggy" by Stephanie Landmann, \$1; 6. "Tricycle" by Dick Marx, \$1.

The firemen and Legionnaires wish to extend their sincere thanks to all who helped at the picnic and attended it, traffic officers, judges and all others who helped make it a marked success.

SMORGASBORD SUPPER

Reserve August 15 for the annual Smorgasbord supper at Holy Trinity church, Kewaskum.

Teacup Topics

By Betty Ann

Editor, The Milwaukee Journal
Woman's Pages

No matter how carefully you make up your face, you can't expect to look your best at this time of year unless you give some attention to grooming your neck and shoulders, says Betty Ann. Warm weather fashions demand it.

To encourage circulation and thus give your skin a pretty, soft, pink glow, use a complexion brush on your neck and shoulders during your daily bath. Brush with a light rotary motion. Then to stimulate circulation further, wrap your shoulders in a turkish towel that has been wrung out in hot water. Press it against you firmly. When you remove it your skin will really glow.

While the skin is still warm and glowing, apply a lubricating cream or baby oil. Mold the shoulders as you apply it. Then finish with this exercise:

Standing erect in perfect posture, with elbows bent and forearms close to sides and extended, push your chest forward as you push elbows back as far as possible. Then bring the elbows forward and contract the chest. Do this five times at first; work up gradually to 20 times.

Tuna Supper Salad

3 pints broken salad greens; 2 medium sized tomatoes; 1 cucumber; 1 6 1/2 or 7 ounce can tuna; 1 medium sized avocado; 1/4 cup salad oil; 1 1/2 tablespoons wine vinegar; 2 teaspoons salt; 1/4 teaspoon black pepper; 1 teaspoon grated onion.

Break salad greens into bite sized pieces. Dice tomatoes. Peel and dice cucumber. Add coarsely cut avocado and remove seed and skin. Cut into large cubes. Blend together oil, vinegar, salt, pepper and onion. Pour over combined salad ingredients and toss very lightly. Serve at once. Serves five for whole meal salad.

A stalk of celery will keep longer if not quartered or broken apart until prepared for serving. Simply trim, wash thoroughly and store in the vegetable compartment or other covered container. Remember, those fresh green leaves should not be discarded for they serve well in soups, various meat dishes and salads.

Rhubarb Custard Pie

Crust: 3/4 cup flour; 1/2 teaspoon salt; 1/4 cup cold lard; 1 teaspoon cold water. Mix flour, salt and lard; add cold water. Put two cups rhubarb, finely cut, into unbaked pie shell.

Custard: 3 egg yolks; 1 cup sugar; 1 tablespoon flour; 3/4 cup milk. Combine ingredients for custard and pour over rhubarb. Bake at 375 degrees until custard sets, about one-half hour.

Meringue: 3 egg whites; 1 teaspoon salt; 3/4 cup sugar; 1/2 teaspoon vinegar; 1/2 teaspoon vanilla. Whip egg whites, add salt, sugar, vinegar and vanilla. Bake on custard in a 300 degree oven until brown.

Melon Delight Cocktail

1 cup melon balls; 3/4 cup halved seeded grapes; 3/4 cup apricot whole fruit nectar; 1 tablespoon lemon juice.

Combine melon balls and juice, pour over fruit and chill grapes. Blend nectar and lemon juice, pour over fruit and chill thoroughly. Serves four to five.

To cook young tender greens cut from the tops of beets, put the leaves in a covered pan with-out water and steam about 10 minutes. If you have just washed the leaves there will be enough water clinging to them to make steam.

It is a good idea to buy marjoram in powdered form; this way its fine flavor is quickly absorbed and thoroughly distributed through the food on which it is used. Try sprinkling a little powdered marjoram over snap beans or green peas.

Wash fresh coffee, tea, cocoa or chocolate stains in soapy water; if the stain doesn't come out, use a mild bleach. Naturally this treatment is only for removing these stains from washable fabrics.

The time to fish for bullheads is after a rain when the water is discolored.— Sports Afield.

The barbels around the mouths of bullheads are harmless—but the spines in their forward fins are not.— Sports Afield.

About Your Home

By FRANCES DELL

"It's too hot to cook," is a common statement made by almost all housewives this time of year. In all but a few sections of the country, it is quite true. Not only is it very unpleasant to cook a big hot meal but hot food is not too appealing right now.

Look through your salad recipes. You will find many of them easy to fix and nutritional, even for growing children. Chicken salad, tuna, veal, beef and ham are great favorites.

Dietitians tell us that every meal should include one hot item to aid digestion. This can be a hot drink, soup or vegetables.

Cold baked ham, potato salad, and hot baked beans—chicken salad, sliced tomatoes and hot fresh garden peas. Corn-on-the-cob is hard to beat and goes well with any number of cold meats and salads.

Try to do much of your cooking as possible in the cooler morning hours. Also, don't forget about the favorite of all ages—a picnic. Hamburgers, hotdogs, steaks, cooked in the back yard, seem to taste better and cooking outdoors in the summer takes away much of the drudgery.

Outdoor cooking is so popular now that hundreds of books have been written on the subject. If you can get the man of the house interested—you've got it made.

Take advantage of the delicious summer fruits in season now. Unusual combinations always give you a meal a festive air.

Planned with thought, it is possible to stay fairly cool while you cook for a family.

THINGS TO COME—Add to your kit for summer barbecues and campfires a tannic-acid first aid solution in a spray container. . . . A chemical nose, which shows what it knows by changing color in a permanganate solution, will soon be available to food packers and canners for testing flavor and aroma. . . . Next year, says the maker of two machines for making plastic engravings, it will have an attachment for making clear engravings from fuzzy pictures. . . . Plastic spirals, like the protector of a telephone cord only gaily colored, can be obtained to dress the handlebars, frames and wheel spokes of bicycles.

Izaak Walton advised a sweet bait for carp.— Sports Afield.

Let Guests 'Tailor' Their Sundaes to Order

By DOROTHY MADDOX

CAKE-SHELL sundaes, each made to individual taste, can provide each guest at your next party with two portions of fun. Fun in the making and in the eating.

Arrange two large trays so everything can be easily transported. On one tray, place firmly frozen ice cream balls, a selection of jams and jellies, canned pineapple tidbits and nuts, cherries and strawberries for that super touch. On the other tray arrange ready-to-serve cake shells. The even texture of the cake shells makes a tip-top base large enough to hold a generous serving that will satisfy every appetite. Your grocer has them, and they're specially wrapped to help keep them fresh.

You'll find that both teen-agers and oldsters have fun creating a tailor-made dessert with a dab of this and a filip of that.

Tailor-Made Cake Sundaes (6 servings)

Six cake shells, 6 scoops of ice cream, firmly frozen; 12 maraschino cherries, with stems; 12 whole nuts (pecans or walnuts), 1 cup jelly (any sweet variety), 1 cup jam (any sweet variety), 1 No. 2 can pineapple tidbits, drained; 1/2 pint of fresh strawberries, with hulls; 1/2 pint heavy cream, whipped.

The pleasant cake sundae suggestion came from Barbara Starr, consumer service director of Tip-Top Bakers. Here are two more of her suggestions that we've used and really enjoyed. They are good for people who watch their weight.

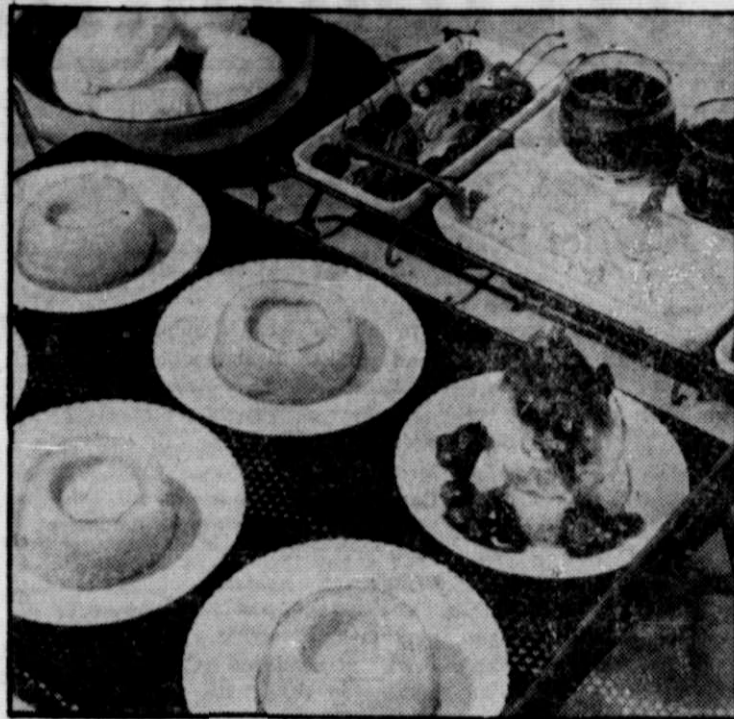

Hot Finger Sandwiches (Makes 8 sandwiches)

One-quarter pound liverwurst, unsliced; 3 tablespoons pickle relish, 8 slices protein bread, 4 tablespoons melted butter. Mix together liverwurst and pickle relish and roll mixture into 8 sausage-shaped pieces. Cut the crusts from the protein bread. Place one liverwurst sausage diagonally across each slice of protein bread. Bring opposite edges of bread together, and secure with toothpicks.

Brush canapes with melted butter and broil for 5 minutes, or until protein bread is golden brown. Serve hot.

Cheese-Bread Casserole

Five cups toasted, 1/2-inch protein bread cubes (about 15 slices),

Offer a trayful of eating pleasure to dessert-hungry guests at your next party. Tailor-made sundaes are food-fun for all.

1/2 pound grated cheese, 3 eggs, beaten; 1/2 teaspoon salt, 1/2 teaspoon paprika, 1/2 teaspoon dry mustard, 2 1/2 cups milk.

Alternate layers of bread cubes and grated cheese in a greased 1 1/2-quart casserole, ending with cheese as a top layer. Combine eggs, salt, paprika, mustard and milk.

Pour this liquid mixture over the bread cubes and cheese in the casserole. Bake in a moderate oven (375 degrees F.) for just 45 to 50 minutes.

NIAGARA FALLS is undergoing a \$17,000,000 "beauty treatment." A joint U. S.-Canadian project, it is designed to save the Falls' beauty from further damage by erosion.

A 17th century manuscript containing new evidence of a "lost" play by William Shakespeare—"Love's Labors Won"—is now in possession of the University of Illinois.

The United States hopes to have a temporary "West Point of the Air," an Air Force Academy, in operation by 1955 and the permanent organization activated by 1957.

The first day nursery opened in New York City in 1854, and today there are more than 3500 throughout the nation.

Soap Not Enough For Hot Weather Grooming

You need more than soap and water for good grooming when the weather gets warm, according to a bulletin issued recently.

The reason why soap and water alone won't do the job is because soap and water won't remove all of the bacteria. Remaining bacteria resume growth after a short time; and it is the activity of these bacteria on perspiration which cause odor troubles at all times of year, but especially in hot weather.

Efficiency of a new soap containing a drug called hexachlorine or G-11, AT-7 or K-34 has been hailed enthusiastically as a deodorant, but its effectiveness is still in doubt, the doctors say. And fortunately, most commercial deodorants, used in addition to soap and water, are safe both for skin and clothing, if properly used.

What these preparations do is remain on the skin for hours, or days, and they inactivate growth of skin bacteria while they are there. On the other hand, ordinary soap and water, even doctored up with antiseptics, will not stop bacteria activity for more than a short time.

Children don't need deodorant preparations because their secretory glands are not yet functioning, the bulletin points out. Gland activity is reduced in some older people, too, and there are some people at the age of greatest glandular activity who appear to have less perspiration troubles than others. For that reason the efficiency of any one cream or lotion may not be the same for everybody who uses it.

Shaving underarm areas makes any soap, cream or lotion more effective the bulletin concludes. Those who wish to try out the deodorant soap with hexachlorine are warned, furthermore, that the effect, if any, is supposed to be cumulative and it will be destroyed if any other preparations are used.

MARY R.: Does soaking overnight of dried peas or beans destroy their vitamin content?

ANSWER: Long soaking and cooking do destroy considerable vitamin content of any food but do not affect protein or carbohydrate content of the foods.

Family Recreation Aid to Mental Health

There is still much we do not know about mental health, but we are sure that emotional good health has its best chance when founded on a happy, healthy childhood. Daily family fun and frequent planned activities are among the best ways parents can assure their children of such a childhood.

As the family plays together the atmosphere of security and love, which children need if they are to develop normally, takes form. When the child is made to feel a part of the family group through participation in family play—and work—projects, then the child has a mentally healthy environment in which to grow and live.

Parents should set aside some time each week which they can share with their children without interruption. A fishing trip once a year for junior and dad isn't enough. If we as parents show that we have time for our children and keep close to them, without becoming too protective; our children in turn will feel free to come to us with minor problems, and there won't be any major ones which can't be worked out together.

Men and women who have a sense of well-being, a zest for working and playing, an ability to get the greatest possible satisfaction from personal relationships, are said to be mentally healthy. If the parents are like this, their children will probably be mentally healthy too.

For good mental health the best thing parents can give their children is security, companionship and love at home. Family recreation will do much to achieve each of these.

A special census reports there are now 24 of the rare whooping cranes—an increase of just three birds.— Sports Afield.

MEN MOST NUMEROUS

In 1850, according to Minnesota's first federal census, 61.2% of the male persuasion, 38.2 were rugged pioneer females, sometimes erroneously referred to as "the weaker sex." Greatest change in ratio was during that decade; the 1860 census showed the female percentage up to 45.9, male down to 54.1. From then on the change has been almost imperceptible to a practical balance in 1950; last census showed Minnesota's population 49.7% female, 50.3% male. Of our men, 5.7% are widowers, 29.6% single, 64.7% married; of the women 12.4% are widows, only 22.7% single, 64.9% married—and don't be puzzled by the .2% difference between the figure for married women and married men—since there are more men the percentage is less. Incidentally, Minnesota has a higher percentage of single men than the country as a whole; 29.6% here compared with a national ratio of 26.2% unmarried.

Bible Comment:

St. Luke Gave Us Priceless Record Of the Gospel

SAINT LUKE, author of the Third Gospel, was not one of the Twelve Apostles. But to him we owe a great deal of our knowledge about them.

For the history of the early church, we again depend upon St. Luke, whose Book of Acts is a valuable supplement to the Pauline Epistles.

Of the Gospel incidents, Luke was not an eyewitness (Luke 1:2); but in relating what eye-witnesses told him Luke brought to his Gospel the same power of narration so vividly displayed in his reports of things of which he was a part.

Two parables of Luke's are notable: the Prodigal son, recorded only by him, and the Lost Sheep.

Though Man thinks in terms of numbers—we estimate the seriousness of a calamity by the number of lives lost—Luke, following the Master, reveals God's concern for a single soul in his unforgettable parable of the Lost Sheep.

Of Luke, himself, we have but a limited knowledge. References in Colossians IV indicate he was a Gentile convert.

That he was the companion of Paul in much that he narrates is implied in passages where "we" appears, and it seems probable that Luke became a Christian through Paul.

What is certain, apart from all conjecture, is the place that Luke occupies in preserving for all time the most complete record of the Gospel story.

He has given the world the life and work of Jesus, and also the vivid story of how Christianity spread from Jerusalem to Antioch and to Europe.

About half the cars sold in the U. S. during 1953 were four-door sedans.

Alexander Hamilton was killed in a duel with Aaron Burr on July 11, 1804. Hamilton reportedly had fired in the air.

The days of the week are all named in honor of ancient mythological gods.

The cornerstones of the wings of the U. S. Capitol Building were laid in 1851.

Delegates to the recent Tenth Inter-American Conference at Caracas, Venezuela, voted to condemn racial discrimination and called for laws to end it.

COUNTRY PLATTERS

By LES CARROLL

THE train theme seems to be in vogue in country music these days, whether the songs are love, blues or sacred numbers.

George McCormick's "Sun-down Train" is an excellently performed blues with a haunting melody that shows his voice to good advantage. And "The Golden Train," by Slim Bryant, is of the spiritual type, and featuring good, close harmony. Both MGM.

"Sunshine Special" is a nice, rhythmic love song by Roy Acuff, with an old-time instrumental backing (Capitol).

An unusually fine blues number is "Old Man Blues," sung by Columbia's Johnny Bond. It is somewhat reminiscent of Jimmy Rodgers' style, and features excellent guitar playing.

Martha Carson uses a choir in her latest sacred recording, "He'll Part the Water," which blends well with her fine style of singing (Capitol). Another excellent sacred release is Eddie Arnold's "Chapel on the Hill" (Victor).

Jerry Rowley's "Wee Willie,"

on Faber, is a catchy novelty number with a Gay Nineties flavor. And "Beat in on the Ding Dong," by Jim Reeves, is one of those nonsensical songs that will keep running through your mind (Abbott).

Betty Amos does a sweet singing job on a tearful ballad, "Yesterday's Sweetheart." Another beautiful but sad ballad is Allen Flatt's "Vacant Lot." Both Mercury.

"Rebound," by Hawkshaw Hawkins, on Victor, makes use of trick recording to echo parts of his song with a pleasing novel effect.

OTHER GOOD RELEASES are "Too Late to Cry Over You" (Smiley Maxedon, Columbia); "I Don't Hurt Anymore" (Hank Snow, Victor); "These Lonesome Blues" (Jimmie Logsdon, Decca); "Waltzing" (Charline Arthur, Victor); "Honky-Tonk Girl" (Hank Thompson, Capitol); "Under the Moon" (Autry Inman, Decca); "Foggy Mountain Top" (Davis Sisters, Victor); "Jilted" (Red Foley, Decca), and "I Wanna Go There" (Wally Fowler, Dot).

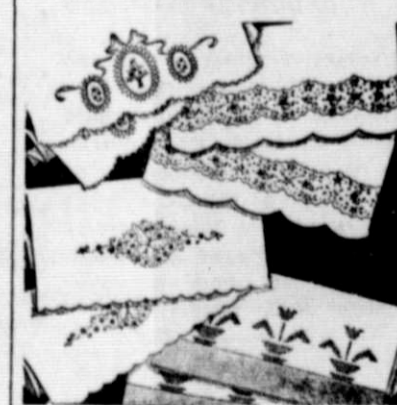

STRICTLY BUSINESS

by McFeatters

"Lady wants to insure her husband's fidelity?"

Desert Beauty

The colorful blooms of the Hedgehog Cactus, the cooling greens of the plants themselves and the browns of the desert sand make this one of the loveliest luncheon and apron combinations to appear. The design could be embroidered or painted (as shown in inset). Designs for luncheon cloth, napkins and apron included as well as directions for making apron. Ask for C3322, 20c. Send order to Handcraft Service, The Colonial Company, Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

REMOTE-CONTROL STING

This B-47E Stratojet, being fitted at Wichita, Kan., packs a remote-control sting in her tail. The turret, mounting a twin 20-mm. cannon, depends on recognition of an "enemy" image on a radar screen. Once sighted, automatic devices supply firepower when the foe is in range—unless the operator counteracts the "brains" order. A GE development for the huge Boeing ship, it operates on an all-weather basis.

THESE WOMEN!

"I'm a one-man woman. I wish I knew which one!"

Ticklers

By George

"Haven't you heard? Joe here is going to Chicago to be a big TV star. He says he's a cinch to get on 'Welcome Traveler.'"

SPORTS AFIELD

By Ted Kesting

I suspect the two most frequently asked questions in angling are: How do you make bait for catfish? How do you make doughballs for carp? So here's how, recipes courtesy of fishing expert Bill Wolf:

You can make a simple cold mix from molasses or honey (Izaak Walton preferred sugar or honey), white flour, corn meal and possibly a bit of cotton. Work them together until they form a rubbery mass. Carry the bait in a damp cloth.

For a hot mix, bring sweetened water to a boil, pour in corn meal to make a mush and boil until it leaves the sides of the pan. Remove and roll and kneed in white flour until the mixture becomes rubbery. Some anglers add mashed potatoes. (Incidentally, boiled potatoes, canned peas and whole kernel corn are fine carp baits.) Pull a small piece of dough from the main mass, roll until it's the size and shape of a pea or navy bean, and put on a correspondingly tiny hook.

If you're lazy, buy a loaf of baker's white bread. It is doughy enough so you can easily roll your own doughballs.

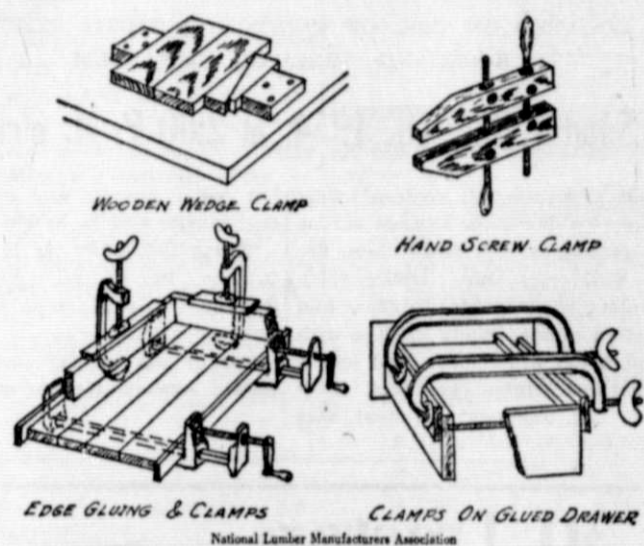

Catfish baits are in a class by themselves, although they will take doughballs, too. And channel catfish sometimes hit spinners, spoons and plugs, but are more likely to take live bait such as minnows, crawfish, insects and worms.

But the favorite bait is often a chemist's nightmare, consisting of rotting and putrid substances such as chicken blood and entrails, decaying fish flavored with anise oil or asafetida, even spoiled meats of various kinds.

If you want to make up a stink bait, as these masses are elegantly named, you might try setting some salted tripe out in a hot sun to spoil, and flavor the tripe with a bit of anise oil. This isn't too unpleasant to use, and stays on the hook well. However, it is significant that some of the best among men who run trotlines for catfish use only large, live minnows as bait.

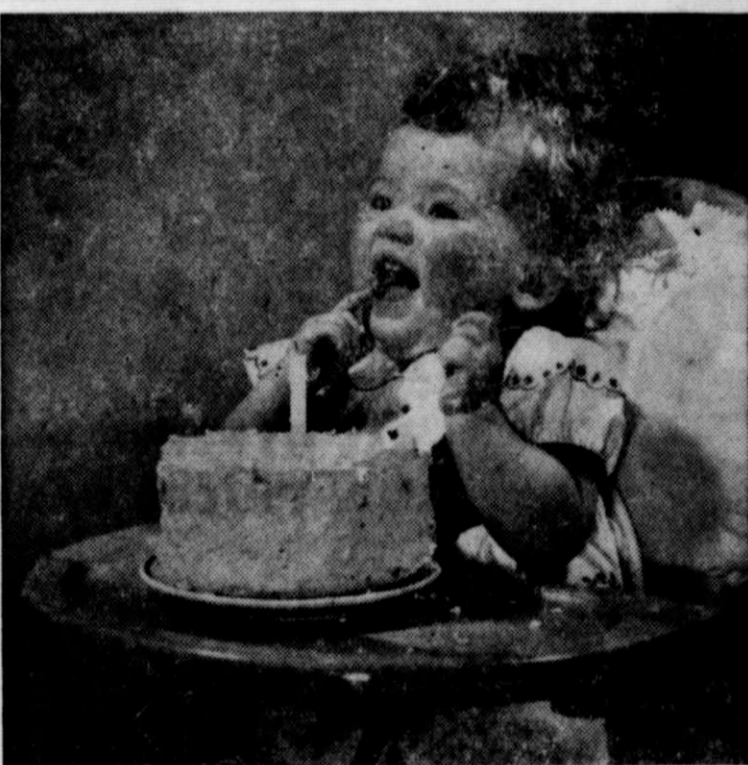

HERE'S HOW . . .

MAKE GLUE JOINTS

Modern, easy-to-use glues make gluing technique easy for the home craftsman to master. The new glues come ready to use without heating, and produce strong joints. It is important to follow closely the directions of the glue manufacturer in using these special preparations, among which are resorcinol resin glue, urea resin glue, and casein glue. Wood surfaces must be clean and dry, and should be planed, not sanded, to provide a snug fit all along the glue line. After the glue is applied, according to the manufacturer's directions, the job must be clamped together while the glue sets. Some of the more common clamps are shown in the drawings. Clamps should be spaced to provide even pressure over the entire glue line; and the job should be protected from clamp "bites" by use of thin strips of wood beneath the clamps. Excessive pressure should be avoided as this may cause pieces to buckle. When two or more clamps are used on the same job, the clamp bars should be parallel; otherwise they may cause the pieces to slide as pressure is applied.

The SNAPSHOT GUILD

This picture is fine, but on an occasion like this, be sure to take a whole series of snapshots.

Make the Most of Your Opportunities

HOW do you make the most of your picture-taking opportunities? That's a question which might be answered in several different ways. For instance, we could say by making the best picture possible each time. But that's not what we are thinking of today—it's the idea of taking more than one picture when good snapshot situations are at hand.

Let's assume that you're making pictures on baby's first birthday. There is no question as to the importance of the occasion—and it is an event guaranteed never to be repeated. It is a perfect example of a now or never picture-taking situation. It's not only a time for picture taking, but a time for taking a whole series of pictures.

Shooting a series of such an occasion has two purposes. First of all, it's a matter of picture insurance. If you snap a whole role of film, you just can't miss having one or more terrific shots. In addition, you can trace the whole story of what happened through your pictures. You can easily snap a series that will be a picture story.

Chances are that all your pictures will be good. But, it is equally certain that some will be better than others. Things just work out that way.

After all, when we think that taking just one picture is enough on any occasion, we are actually saying that we're better than the professional photographers. All of them we've ever known always take two, when they can only use one. You know when you have a portrait made the photographer always makes several shots—and you have the proofs from which to choose the one you like best.

When you see a beautiful commercial photograph in a magazine or display, you can be very sure that the photographer didn't shoot just once to get it. He looked at the scene from all angles and tried it from most of them.

We know that in your snapshotting you aren't seeking the same sort of perfection, but you can take a cue from the commercial practices and get greater satisfaction from your own pictures. —John Van Gulder

Progress of THE RAZOR

Our Neolithic forebears used stone chips to shave their chins. The Phoenicians invented the straight razor. For 5,000 years razors remained straight with little change in design. At the turn of the 20th century, a Yankee salesman, King C. Gillette, invented and patented the first safety razor, and whiskers all over the world went phh-tt! Since then protection offered by our Patent System has inspired the invention of electric and many other types of razors.

PATENTS INSPIRE INVENTIONS . . . INVENTIONS BUILD AMERICA!

Testing Groups Urge Safety in Automobiles

Testing organizations continue to tell the American buying public that American automobile manufacturers are not giving sufficient attention to safety considerations. In thorough and scientific tests it has been demonstrated that several simple changes in automobile body structure could save many lives, and prevent many disfigurements annually.

One of the safety features which could easily be installed in automobiles is an overhead brace, or rail, as racing drivers call it, which would prevent the roof of automobiles from caving in if they turn over. Although we are aware of the fact that automobiles are not built to be turned over, the fact is that a number of them are turned over every day of the year. And in these accidents an unnecessary number of drivers and passengers lose their lives because the roof caves in and crushes the occupants.

Another safety factor which most automobiles should include is safer braking. Most analytical tests prove that the type of brakes used on a vast majority of U. S. built automobiles loses its efficiency when brakes are applied over a sustained application.

Another safety device which would probably save more lives than any other thing, and certainly prevent more permanent disfigurements, is the safety-strap. Safety-straps should be worn by all those who are going to do prolonged high-speed driving. Every responsible test ever made proves that safety straps protect occupants and the driver from what might be a fatal injury in a large percentage of automobile accidents. Another safety factor which could be more carefully considered by manufacturers is weight distribution, the improper distribution of which causes skids, and therefore many accidents.

The next time you buy a car, or the next time you are talking with your dealer, suggest to him that you would like your next car to be designed with the thought of keeping you alive, in addition to being designed for beauty, power and speed. It is a rather poor commentary on the automotive trade, and the buying public generally, to realize that most of us are driving death traps, slaughtering American citizens at the rate of better than 500 a week, and doing very little about it.

Factual News About The Eyes

It's getting to be almost as odd to have only one pair of glasses as to have a single dress or necktie. The Better Vision Institute points out. Maybe Grandma only owned a pair or two, but we moderns go in for real variety.

In the first place, anyone who is very dependent upon glasses should have more than one pair for safety's sake. You never can be sure you won't break those essential lenses when you're off on a week end a hundred miles from nowhere.

Then, a great many eyeglass-wearers need different types of lenses for different activities. For example, a draftsman may do his work with bifocals equipped with large, high segments, but he won't find the same glasses practicable for walking on the street or playing golf.

Multiple eyewear is demanded by fashion as well as by functional factors. The specs that look right on a tennis court are out of tune with business life, and those that are appropriate for office wear fall short of the ideal for evening parties. Moreover, the frame that harmonizes nicely with certain outfits may clash with others.

It won't be long before almost every eyeglass-wearer has a wardrobe of different models, the Institute predicts. For precious eyes deserve not only the best of scientific care but the most flattering of glasses to emphasize their beauty.

On better Wisconsin soils, barley can out-produce oats, and may be a good crop to plant on acres taken out of corn and wheat this year.

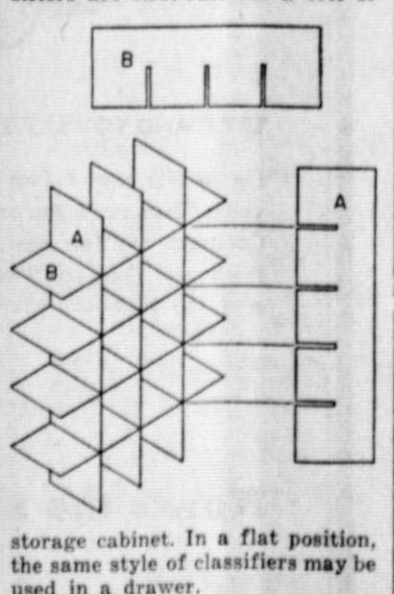

Need No Bicarb

Dumb animals are the ones that can satisfy their appetites without taking something to stop the misery.—Buffalo Evening News.

To Make 'Classifiers'

IN THE well-ordered home, there is ample opportunity to use "classifiers" in cabinets and drawers. Probably the simplest kind is the egg-crate type illustrated.

As shown, these pigeonhole classifiers are first-rate for a tool or storage cabinet. In a flat position, the same style of classifiers may be used in a drawer.

One-eighth-inch slots should be sawed into pieces of Masonite 1/2" Tempered Duolux, a strong, smooth, two-sided hardboard which won't snag the finest fabrics and which wears indefinitely. Each slot should be cut half the width of the hardboard. To make the egg-crate construction, fit the slots together.

Rate Your Wife

A London judge, Scovell Armstrong, says there are four types of women men should beware of. The 76-year-old judge, who presides over a divorce court, lists the types, as follows: 1. Women with catty eyes. The judge suggests a careful look at the eyes of women, which should be warm and kind, he said. If catty, leave her alone.

2. Women who spend their lives in church. Sainly women, the judge says, are rather difficult for ordinary humans to live with.

3. The wife who always wants to go out for amusement, and on the town, should be avoided. They are very trying, according to the judge.

4. The fourth category includes stupid women. Judge Armstrong believes marriage to a stupid woman will be a drab affair, no matter how sweet she is, and, moreover, he thinks she will have stupid children.

We suggest that the average husband rate his wife, on this test, passing if she qualifies on only three of the four objectives. In this way, the advice will cause little domestic strife, since the sweet thing can't be both a saintly woman and an amusement fan, and thus cannot score four for four under any condition.

EAGER BEAVERS AT IT

St. Joseph Mo.—When county commissioners decided to straighten Bee Creek, they didn't count on the objection of the beavers. Workmen dug a new channel. The next morning, they found the beavers had built a dam across it, forcing the stream back into the old channel. A few sticks of dynamite removed the dam, but not for long. Within a week, the beavers had built a new one with the same result. After a tug-of-war with the eager beavers, the commissioners blasted away not only the dam but part of the bank on each side as well. That ended the fight—it is hoped.

Liberty Bell

The Liberty Bell was thrice cast and thrice cracked, says the National Geographic Society. Cracked on its first test after arrival from England in 1752, the famous Philadelphia bell was melted down and recast twice by American bell founders before a satisfactory tone was achieved. The bell then was used until 1835, when it cracked while tolling for the funeral of Chief Justice John Marshall. The crack grew longer when, after attempted repairs, the bell was rung to celebrate Washington's birthday in 1846.

Carp were imported to the U.S. in the 1850's.—Sports Afield.

REAL "GONG" GOOSE—

Pauline's the belle of the barnyard on a farm near Tallahassee, Fla. She's learned how to ring the dinner bell, and it's a safe bet there won't be roasts on the menu for a long, long time to come.

Behind The Scenes In American Business

By Reynolds Knight

NEW YORK—New York is a good place from which to observe that world trade is settling back on an even keel. Exchange of goods between the United States and the other nations of the world is more nearly in balance than it has been since before the war. At that time its total was only a sixth of what it is now.

Exports of commercial goods from the United States in the first four months of 1954 totaled \$4.1 billion. Imports were \$3.5 billion. Carried out to the full year, this would mean exports of \$12.3 billion, a sharp drop from last year's \$15.7 billion. A full year's imports at the indicated \$10.5 billion rate would almost match last year's \$10.9 billion.

European countries seem to be confident the indicated \$1.8 billion-a-year gap between our imports and our exports will close further. Western Germany, best U. S. customer on the continent, recently lifted restrictions on purchasing goods which had to be paid for with dollars. That's a good sign that sales of goods are expected to balance purchases. Holland took the same action.

PROFITABLE SERVICE—In spite of the wide favor factoring has gained in recent years, this form of commercial financing remains the object of many misconceptions. A recent survey by an old-line factoring firm revealed that business men still tend to associate factoring with financing weakness. Actually, the reverse is true.

When a factor purchases the accounts receivable of a company, assuming all the risks and costs involved in their collection, he first makes sure that the factored company is sound, with a management of integrity and enterprise. The factor's small fee is based on the client's sales volume. His profit depends upon continuing relationships with clients whose sales volume rises.

Total assets of some factored firms amount to more than those of the firms that factor them. Many large concerns employ factoring for the services the factor provides in addition to the ready cash he makes available for working funds. Through factoring a company relieves itself of both credit and collection operations, while it gains an invaluable market counseling service based on the factor's widespread knowledge of trends, public preferences and economics in general.

THINGS TO COME—Radioactive strontium 90, an atomic bomb by-product, goes into markers several times as bright in the dark as the old radium dials. . . A motorized revolving door moves enough for most passers-through, slips its clutch to avoid impeding those in a hurry. . . Plywood panels with an inlay of fine woods are offered for use by the home workshop builder. . . A miniature tool kit, imported from Germany, packs hammer, wood chisel, file, drill, screwdriver and knife into a case the size of a pack of cigarettes. . . A cookie cutter with two molds can cut cookies in 22 designs.

RELIABLE RUMOR—The most reliable rumor in Detroit these days is that tubeless tires will be mounted as standard equipment on the 1955 models of some leading automobiles. Informed sources call this the beginning of the end of the inner tube. Once the tubeless tire is offered as a major engineering advance on one line of new cars, other makers are expected to follow.

There are more than three million tubeless tires on the road today—all bought by individual car owners as replacements either for worn-out tires or for conventional tires on new cars.

GLITTERING OMEN—If you are a little bewildered by the oracles that read the future economic course of the country from the Federal Reserve Board Index, money in circulation, car-loadings, forward orders of steel companies, tonnage of the paperboard industry and the like, give a thought to that more frivolous indicator, the junk jewelry business.

For some reason, costume jewelry manufacture in this country centers in Rhode Island. A quick look around Providence, and you have seen it all.

Costume jewelry sales crashed last year. Goods ordered for the Christmas trade stuck in the stores, and re-orders were few. However, after four months of slack business, Providence manufacturers report their order books are filling up again. If you believe in signs, there's a hopeful one—costume jewelry is about the dearest purchase most of us make.

Emergency Crops Provide Pasture in Hot Weather

Fifty cows graze on this 25-acre Sudangrass pasture during the day and are turned into permanent pasture in the evening. They have no worry about feed during the hot summer months.

It's good business for a dairyman to have all the nutritious, palatable pasture his livestock can eat every day that weather is fit for grazing. Abundant, luxurious pasture boosts milk production and keeps down feed cost.

Good planning can provide adequate pasture during hot summer months when ordinary permanent stands are usually unproductive. It is always better to plan for a margin of safety than to run short at a critical time and run the risk of a break in a continuous milk supply.

There are several ways that a summer pasture shortage can be avoided.

1. Provide liberally for early spring pasture which with usual spring rainfall will leave some to be cut and put in the silo for a midsummer shortage or if not needed then will be available for later use. This is always good business.

2. Early harvest of heavy growth of such crops as alfalfa or orchardgrass which have outstanding ability to recover rapidly after early cutting to produce abundantly in July and August. Heavy fertilization encourages early growth of such crops.

3. Irrigation where water supply and equipment are available for use in summer months. This method is coming into use more each year even though in some

KNIGHTHOOD BLOOMS AGAIN—Although it's been a long time since knighthood was in flower, 80 youngsters who attend the West Side YMCA in New York City intend to see that it blooms again. Promising to "defend the helpless, protect all women, and be merciful to men," one company of the Junior Knights of the Round Table, above, raise their swords in salute during a meeting.

HARE-RAISING EXPERIENCE — "Kirre," the rabbit, is no dumb bunny. Clover, grass and garden vegetables aren't for him. At left, he begs for milk from owner Isidor Soderqvist, of Stockholm, Sweden, and at right Kirre reaches for an apple—his favorite fruit. Soderqvist acquired his pet after Kirre's mother was killed during the hunting season.

POCKET-PRESS — Tiny newspapers, below operator's right hand, and at right on table are turned out by this miniature model of a huge newspaper press, which was on display at the International Paper and Printing Exhibition in Dusseldorf, West Germany. Complete in all its operations, the miniature machine delivers, cut and folded, a four-page paper which comes off the press at point between the operator's hands.

FATHER OF '54—Paul G. Hoffman, automobile executive and former chairman of the Economic Cooperation Administration, has been named "1954 Father of the Year" by the National Fathers Day Committee. Himself the father of seven children, the nation's "Dad," who'll have his "day" Sunday, June 20, is congratulated in New York by Girl Scout Carol Kunzer, 13, and Al Stewart, 11, who is a member of the Boys' Clubs of New York.

CRESTED IRIS
© 1953 National Wildlife Federation

From late April through May and sometimes into June rich woodlands, bluffs and bottom lands of southeastern United States may boast a beautiful iris that may to some rival the Blue Flag of the wetter marshlands. The range of this attractive flower extends from the District of Columbia west to Indiana and Missouri and south to Oklahoma, Arkansas, Mississippi, Alabama and North Carolina.

While the possibly better-known Blue Flag may reach a height of 3 feet or more, our subject, the Crested Dwarf Iris, rarely exceeds 6 inches in height. It is therefore most appropriately named as a dwarf iris. The flowers of the Crested Iris are daintily colored and rather fragile in appearance. The flowers are pale violet. The crested character which appears in the name stems from the nature of the broader outer divisions of the flowers.

The leaves of this splendid plant may be to 9 inches long and about 1/2 inch wide. They are flat, pointed, with unbroken margins and instead of standing erect may spread somewhat, thus reducing the total height of the plant. They may sheath the flowering stems which are themselves only to about 3 inches long and bear 1 or 2 flowers.

The fruit which is formed during early summer is pointed at each end, definitely triangular in cross section, about 1/2 inch thick and to 3/4 of an inch long. It bears many flattened, crowded seeds.

The matter of cross pollination is effected by a rather intricate arrangement whereby the stamens are hidden under the spreading tips of the pistil. Insects probing to the base of the pistil for food find themselves dusted with pollen which they rub off on the pistil as they leave but more likely when they visit another flower and continue their search for a meal. It should be easier to investigate the pollination story of an iris by using the common Blue Flag or even some garden iris. Besides it seems a shame to destroy an attractive wild iris to learn a lesson which may be mastered for the most part by using grosser, more

abundant flowers to be found in almost any garden in early summer.

As is the case with most irises, the underground part of the Crested Dwarf Iris is a substantial horizontal structure swollen at the end of a year's growth. This portion of the plant of course lives from year to year. It is relatively slender when compared

with similar structures of other irises but this may be in keeping with the dwarfed character of the whole plant.

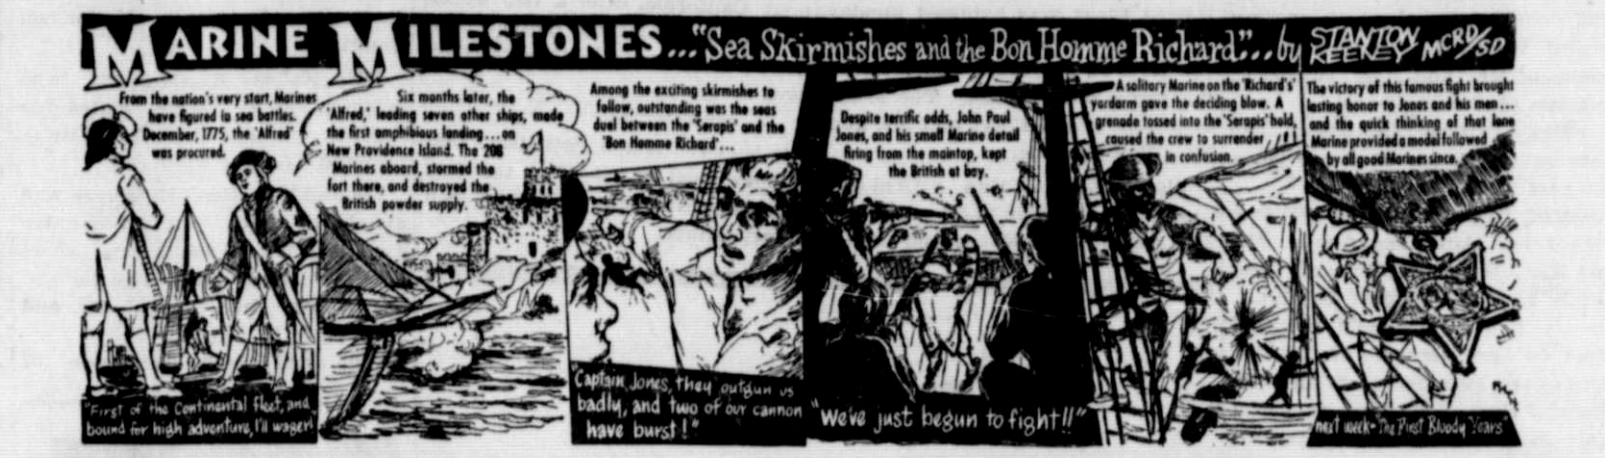

The greatest and the most amiable privilege which the rich enjoy over the poor is that which they exercise the least—the privilege of making them happy.

—C. C. Colton.

OUT OF THE PAST

Forty years ago Alfred Torgerson lost his purse and a silver dollar on a farm at Milan; ten years ago his father, Dan Torgerson, found the decayed purse; this year a neighbor, Norman Hagen, helping with the corn, found the dollar. . . . May 17, 1870, at the age of six months, John Simmons reached American shores

from Wales; May 17, 1954, at the age of 84, he celebrated by buying afternoon lunch for nearly 200 of his fellow townsmen at Montevideo. . . . August 14 and August 22 Hinkley will stage a spectacular pageant commemorating the rebuilding of the town after the destructive and deadly forest fire of September 1, 1894.

A Famous American Ship

The **WESTERN WORLD**, a 337-foot, \$250,000 floating palace built a century ago, was the superliner UNITED STATES of her day on the Great Lakes. Her paddle wheels were as high as a four-story office building, according to the American Merchant Marine Institute. Stained glass domes and rosewood furniture adorned her saloon. A 2,000-ton monster she could steam between Buffalo and Detroit in 14 hours. Note the huge wooden "hog frame" or struss which was necessary on ships of her size until the development of iron hulls. Then as now American built and operated ships are unsurpassed. An American ship line on every world trade route insures our sources of supply for imports and stimulates the sale abroad of our produce.

Miracle Sandwich Spread

Perfumed Ghost Ship Found

A short time ago workers were building a road circling the Great Pyramid of Giza. The pyramid was built by Cheops almost 5,000 years ago. It was the belief of the Egyptians of this day that their souls survived death and that they could cruise through the upper and lower arc of the heavens in their burial ships.

Cheops had built himself the mightiest tomb of all Egyptians, and travelers and tourists have been admiring it for thousands of years.

The workmen building the road around the great pyramid were engaged in an effort to make it easier for more tourists to view the magnificent Giza pyramid, which was in effect—Cheops' burial monument. They came upon a large limestone block as they cleared the roadway.

Kamal el Malakh, director of archaeological work for Giza and lower Egypt, was informed of the discovery. He immediately inspected the uncovered blocks and suspected they might contain an important historical secret. Two years ago a slab containing hieroglyphics telling of a southern tomb at the side of the pyramid had been found. No southern tomb had ever been uncovered.

A short time ago workmen under Malakh completed chiseling through one of the fifteen-ton limestone blocks which had been found. Malakh had two other Egyptian scientists with him. They peered through the small hole which had been made in the huge block. They smelled perfume.

Then they saw a wooden deck. They could hardly believe their eyes but then the pieces of the puzzle suddenly came into place. What they had been viewing, the first humans to view it in almost 5,000 years, was one of Cheops' burial ships. Cement had been used over the blocks to keep the burial chamber airtight, and the perfume and wood used in the tomb were still intact!

Two wooden oars on a deck were observed. Linen ropes were still in place. And Malakh thinks another ship lies behind this first one. It was the greatest archaeological discovery in years!

Robbers have looted every other funeral chamber of the pyramids, except one—discovered in 1925—and thus scientists now have a second burial chamber to study which has not been stripped by profiteers beforehand.

Although it is a rooster and grubber, the carp isn't a dirty feeder. He lives on plants and small aquatic life which he finds on the bottom.—Sports Afield.

The poor is hated even of his own neighbor, but the rich has many friends.—Old Testament, Proverbs.

If you can stand a shock, look up your budget records for 1939 and note the difference in the cost of living. That was just fifteen years ago.

The rich farm lands of Arizona produce more revenue than the State's celebrated mines and cattle country together, says the National Geographic Society. The average yield per acre of one crop—cotton—last year was the highest of any State.

Lions are capable of 8 to 10 foot vertical leaps.

A poor man is a healthy man; a healthy man is a rich man.—German Proverb.

Sarah Anne's COOKING CLASS

Triumphs With Thrifty Tid-Bits

Seasoning is the secret of the best cooks, and frequently they turn out dishes to delight gourmets with the most economical of ingredients, flavored with distinction and a knowing hand.

You don't need a long list of seasonings, either, to achieve good results. Matter of fact, three familiar friends, Tabasco, salt and onion will do the trick with almost any meat dish you can name. You've probably used Tabasco most often with sea food, but it has a way with meat, just as have salt and onion. Chop the onion, add it, a good pinch of salt, and about ¼ teaspoon of Tabasco to chopped steak when making hamburger patties. Include these three seasonings in stews, vegetable soups, and shepherd's pie when you're making the most of left-over bits of meat, and you'll find they add an elegant flourish to such economy dishes.

Shepherd's Pie

4 tablespoons fat
4 tablespoons flour
1 1-lb. can peas
Water
1 teaspoon salt

1½ cups cooked carrots
1½ cups cooked white onions
2 cups diced cooked meat
¼ teaspoon Tabasco
2 cups hot mashed potatoes

Melt fat in skillet; stir in flour gradually; continue cooking until browned, stirring constantly. Drain peas and add water to liquid to make 2 cups. Add liquid, salt and cook, stirring constantly, until mixture thickens and boils. Mix in carrots, onions and meat and heat slowly, stirring occasionally. Stir in Tabasco. Turn into 2 quart casserole. Place mashed potatoes around edge of casserole and bake in a moderately hot oven (400°F.) about 15 minutes until potatoes are light brown.

YIELD: 6 servings.

These cakes will be a feast for the eyes as well as a feast of flavor—or so delight your family as well as your friends with one of them.

Frosted Ice Cream Cake

1 ounce square unsweetened chocolate
1-4 cup milk
1-3 cup confectioners sugar
1-2 teaspoon vanilla extract
1-2 pint cream
1 layer sponge cake 1 1-2 inches thick
1-4 cup toasted chopped almonds

Melt chocolate over hot water; add milk and sugar, stir until smooth. Add vanilla. Whip cream to custard consistency. Fold into first mixture. Freeze until stiff mush. Cut sponge cake to fit refrigerator tray. Remove frozen mixture from tray, stir thoroughly and pour over sponge cake. Sprinkle top with almonds and return to refrigerator to freeze.

Whipped Cream Cake

3 egg whites stiffly beaten
1 cup cream whipped
1-2 cup cold water
2 cups cake flour
1 teaspoon almond flavoring
1 1-2 cups sugar
3 teaspoons baking powder
Salt

Carefully fold whipped cream into beaten egg whites. Gradually fold in cold water and flavoring. Sift flour, measure and sift with sugar, salt, and baking powder. Pour into 2 8-inch cake pans which have been lined with waxed paper. Bake in an oven 325 degrees for 30 to 35 minutes. Frost as desired.

Sponge Cake

4 egg whites
1 cup sugar
4 egg yolks
1 teaspoon vanilla
1 1-2 tablespoons water
1 1-2 tablespoons lemon juice
1 cup cake flour
1 1-4 teaspoon baking powder
1-4 teaspoon salt

Sift flour, salt and baking powder 4 times. Beat egg whites until stiff but not dry. Beat in 1-2 cup sugar and set aside. Without washing beater, beat egg yolks until thick and lemon colored, add vanilla, cold water and lemon juice. Stir in remaining sugar. Pour the mixture over whites and fold together with a spoon until well blended. Fold flour mixture gently into egg mixture. Do not beat. Pour into 2 8-inch cake pans. Bake in an oven 350 degrees for 25 minutes.

Gold Cake

1-2 cup butter
1 cup sugar
1 egg
5 egg yolks
1 3-4 cups cake flour
2 1-2 teaspoons baking powder
1-4 teaspoon salt
1-2 cup milk
1-2 teaspoon vanilla

Sift flour with salt and baking powder. Cream butter, add vanilla and sugar. Beat until fluffy. Add egg yolks. Add flour mixture and milk alternately. Beat just enough to blend well. Beat egg whites stiff and fold into batter. Pour into greased and floured tin 9"x12". Bake in an oven 350 degrees for 45 minutes. Frost with coffee frosting sprinkled with coconut.

Coconut Torte

1 cup flour
1 tablespoon baking powder
3-4 teaspoon salt
2 cups graham cracker crumbs
3-4 cup butter or margarine
1 1-2 cups sugar
1 1-2 cups shredded coconut
1 teaspoon vanilla
1 1-4 cup milk
4 egg whites beaten stiff
1 1-2 cups cream whipped

Sift together flour, baking powder and salt; add crumbs. Thoroughly cream butter and sugar. Stir in coconut and vanilla. Add dry ingredients alternately with the milk. Fold in well beaten egg whites. Pour into two 8"x8"x2" pans. Bake in an oven 375 degrees for 30 to 35 minutes. Cool. Spread whipped cream between layers and on top.

French Cheese Cake

1-2 cup sugar
1 lb. cream cheese
3 tablespoons flour
1-4 teaspoon salt
3 eggs
3-4 cup cream
1 teaspoon vanilla extract
Pie dough
Currants
Powdered sugar

SAVE

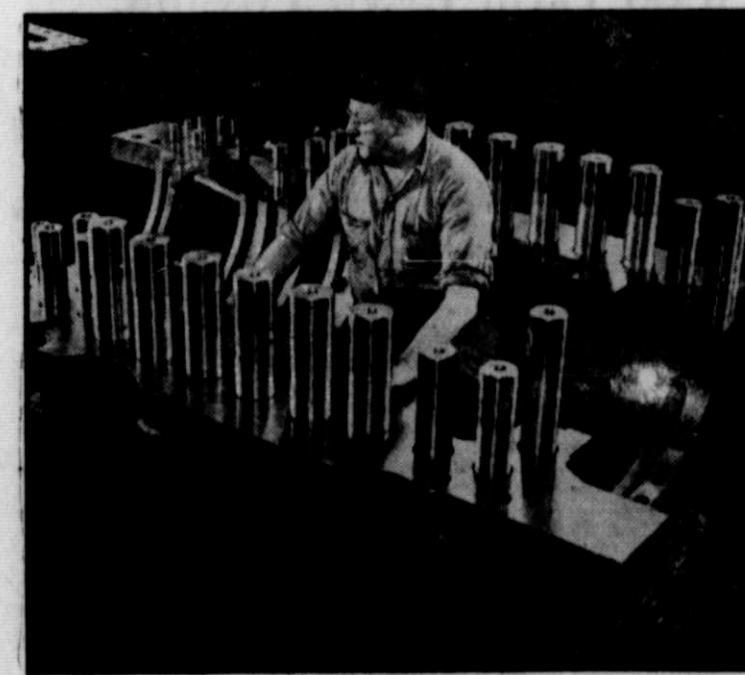

Do you ever point your finger at yourself and say sternly, "Time you began to save, my man—it's later than you think?" Answer yourself—"You're right! I will." Sign up for Payroll Savings Bonds, you work or arrange with your bank for regular monthly purchases of United States Savings Bonds. Then you can look yourself and your future straight in the eye. You're bright enough to save regularly, and the future will be bright, too.

FLYING LENS—Newest photo-reconnaissance plane to be put into service by the Strategic Air Command is this Boeing RB-47E Stratojet, on display at Seattle, Wash. A longer-nosed version of the standard six-jet medium bomber, it is manned by a pilot, copilot and photographer-navigator, and mounts at one time any seven of the 16 cameras it is equipped to carry. From point of "V," toward plane: Cartridge flares, 15 cameras and bomb-like photo-flash bombs. Two objects at either side of cameras are photocell-operated shutter-trip units.

FIREMAN'S HELMET FITS FIVE—"Five Alarm" keeps a motherly eye on her five-kitten litter after moving in on the Hartford, Conn., fire department. She established residence on a tarpaulin, but firemen thought a helmet would be a safer place for the kittens should one of the trucks roll out on a call.

HE PLAYS POWER-FULL "ORGAN"—Inspecting the lower half of a casing for the most powerful propulsion turbine ever planned for use on a warship, a worker at General Electric's Lynn, Mass., plant appears to be seated at the console of a modernistic organ. A symphony of power will be delivered by the huge machine when it is installed in the super aircraft carrier U.S.S. Saratoga, now building at the New York Naval Shipyard, Brooklyn, N. Y.

"IT'S AN ILL WIND"—It's just a breeze for Steve Baker, 3, at basket, and cousin Jimmie Connor, 6, to make baskets on the outdoor basketball court near Steve's home in Fort Scott, Kan. A tornado which blew into town pounded the adult-size standard down to goal-scoring height for little boys.

Proxmire for Governor Club Formed in County

Gust Geschke, R. 5, West Bend, this week announced the formation of a Proxmire for Governor club in Washington county. Geschke is president of the club. Club headquarters are in the VFW hall at Chick's Bar, 201 S. Main St. West Bend, where an organizational meeting of the group was conducted recently.

Besides Geschke, officers of the new club are Elmer Fuller, Barton, secretary, and Albert Neuy, West Bend, treasurer. Members of the group's executive committee include Ben Heiting, Victor Pizak, Elroy Dunst, John Flitter, all of West Bend; Frances Jeffords and Clarence Daly of Hartford; George Heinicke, Barton and Orville Hannan, Richfield.

"The purpose of our organization," Geschke said, "is to help nominate and elect William Proxmire as governor of the state of Wisconsin on the Democratic ticket."

In attendance at the club's organizational meeting was Russell S. Johnson, Eldorado, Wis. president of the Wisconsin State Council of Machinists, who is a candidate for congressman of the Sixth Wisconsin district.

4-H Club News

THE KEWASKUM 4-HERS
The meeting of the Kewaskum 4-Hers was held Friday evening, July 9, at 8 o'clock at the Kewaskum Municipal building.

The meeting was called to order by Loran Butzlaff, president. The Pledge of Allegiance and the 4-H pledge were given. Roll call was taken by each member answering to a name of a fish.

Reports were given about Camp Awana by the girls who attended. Betty Kober, Patty Edwards, and Janet Butzlaff took charge of the three games we played.

Delicious refreshments were served by Gwen Edwards, Janet Butzlaff, and Loran Butzlaff.

The game committee for the next three meetings is Diane Becker, Joanne Schmidt, and Mary Ann Lecher.

Patty Edwards, Ethan Etta, and Duane Etta will serve the refreshments at the next meeting.

Mrs. William Becker will have a cooking project meeting at her home on August 5.

The girls taking sewing will meet at Mrs. Borchert's home on July 21. The announcement was made that

the Dress Revue will be held July 28.

The next regular 4-H meeting will be held at the Kewaskum Municipal building, Friday, the 13th of August at 8 p. m.

Don't forget the County Fair! Good luck to those who are entering exhibits!

News Reporter,
Carol Miller

KETTLE MORAIN 4-H CLUB

The July meeting of the Kettle Moraine 4-H club was held at Gage school.

Roll call topic was answered with "What I Plan to Exhibit at the Fair". The 4-H club tour and picnic will be held on July 25 at Odekir's cottage. The committee for the tour is Alice Odekir, chairman; Dixie Blumer, Karl Haack, Rachel and Ronald Petermann.

Those who gave demonstrations were Karl Haack, on "Making a Jar Rack for Nails", Harriet Odekir, "How to Sew on Buttons Different Ways", and Norman Heberer, "How to Make a Cow Blanket".

There was a food, nutrition and handicraft meeting at the home of Rachel and Ronald Petermann on July 13. Mrs. Harry Odekir and Mrs. Art Petermann attended the July leaders' meeting at Fond du Lac at which Mrs. Petermann was chosen to go to Madison.

Refreshments were served by Ronald and Kenneth Bales. Recreation was in charge of Karl Haack, Norman and Myron Heberer.

Next meeting will be held at Gage School, August 4.

500 BROWN SWISS BREEDERS HOLD ANNUAL STATE PICNIC AT COUNTY FAIRGROUNDS

About 500 Brown Swiss breeders and members of their families attended the annual Brown Swiss picnic held at the Slinger fairgrounds last Saturday.

50 head of top Brown Swiss were shown from Canton No. 7 which is the local area.

Judges of the show were: Prof. Geo. Werner, Dairy Department, University of Wisconsin; Victor Magnussen, breeder, Lake Mills, Wis.; Jake Voegell, breeder, Monticello, Wis.

In the dairy queen contest, queens from seven of the ten organized cantons competed. The winner and new "Alice of Switzerland" was the contestant from Canton No. 10, Caryl Teasdale, of Darlington, Wis. She is 18 years old and a student at Stout Institute, Menomonee, Wis.

In the men's judging contest teams from 5 cantons competed. The first three teams placed as follows: 1st, Canton No. 2; 2nd, Canton No. 10; 3rd, Canton No. 5.

In the women's team contest 6 teams competed with the top three cantons placing as follows: 1st, Canton No. 9; 2nd, Canton No. 10; 3rd, Canton No. 3.

where they are shaded from the direct sunlight. Fields that show a fairly heavy infestation should be carefully checked each day for damage.

Control measures can be carried out by spraying with Toxaphene, either by aeroplane or means of ground equipment. If ground equipment is used, it should be well washed out to free the sprayer of any 2, 4-D and rinsed with household ammonia.

The best way of spraying is by means of an aeroplane when little damage is done to the grain crop. The cost of aeroplane application is about \$3.00 per acre complete and is about as cheap as it can be done with ground equipment. In either case the recommended application is two (2) pounds of actual Toxaphene per acre.

Burning the candle at both ends makes an awful drip.—Menomonee Falls News.

in the day and place of the weekly visit of a representative of that office to West Bend. Starting in July, the representative will be at the Public Library, 715 Elm street, second floor, every Thursday from 10:00 a. m. to 12:30 p. m.

Any questions about Social Security can be answered and an explanation of the rights of a wage earner and his family will be given, Albrecht said. After a wage earner has reached 65 he should secure information promptly to determine when it is to his advantage to file his application. This also applies to the man who is self-employed. In the case of the death of a person who has worked in employment covered by the law, or was in business for himself, some member of the family should inquire about possible benefits to survivors.

Thursday, July 8, was the first visit to the West Bend Public Library.

WASHINGTON COUNTY FAIR OPENS JULY 29

The opening date, namely Thursday, July 29, of the Washington County Fair will be in about two weeks. Plans are underway for the usual good fair. A complete program of the fair will be published in this paper next week. A number of good stage acts will be presented daily along with the music of a popular band.

Dates for this year's junior livestock shows are as follows: Central Wisconsin, Friendship, Sept. 3 to 10; Northwestern Wisconsin, Green Bay, Sept. 13 to 15; Northwestern Wisconsin, Eau Claire, Sept. 27 to 29; and the Madison show Oct. 18 to 20.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief

Good Farm Lawn Possible With Well Chosen Grasses

An Attractive Farm Lawn.

Every farm home owner would like to have an attractive lawn and ordinarily he can have one if he wants to make the necessary effort. The climate in most parts of the United States favors the growth of some kind of grass, and rainfall usually is adequate to maintain the life of a lawn even though it is sometimes insufficient for limited periods to promote the best growth.

The farm home owner usually does not demand the fine-textured and expensive bentgrass sward of the golf course but he would like a uniform, vigorous turf that presents a good appearance under favorable growing conditions and withstands wear and drought.

Because farm lawns do not ordinarily have artificial irrigation, special attention should be given to the other factors necessary for a good lawn such as a good top soil 3 to 4 inches deep containing plenty of organic matter, adequate drainage so that proper aeration is obtained, a good well-fertilized seedbed and high quality seed of the right kinds. Avoid using any of the "cheap" lawn mixtures on the market. The best seed of adapted varieties always gives best results. Liberal fertilization at the time of sowing and frequently thereafter helps materially to make up for periods of short water supply.

Alta or Ky 31, is probably one of the most suitable types to use where a close turf is not required. In the North it can be combined with Kentucky bluegrass and in the South with Bermudagrass. The Zoysias may be combined with any of the other adapted grasses in either region. In the sub-humid areas of the Great Plains some of the dry-land grasses such as buffalograss, crested wheatgrass and blue grama may be used.

The best time to sow grass seed in most of the Northern and Central States is in late summer or fall from August 15 to October 15, provided there is adequate moisture at time of sowing or soon afterwards. The seedbed should be prepared from 2 to 4 weeks before the seeding date so that the weeds may be killed by the final raking. Spring seedings sometimes bring fair results if completed before mid-April.

Farm lawns have certain advantages over city lawns. Farm manure is available and farm equipment can be used for thorough preparation of seedbed including weed eradication, drainage and grading, distributing fertilizer, sowing seed, and frequent mowing.

Seed sown on most unfertilized soils usually fails entirely or produces a poor turf. An application of 40 pounds of a 5-10-5 fertilizer to each 1,000 square feet of lawn area gives good results. On very poor soils use up to double this amount. Holding in mind a few of these salient points, almost any farmer can have a good lawn to beautify his home surroundings.
