

Kewaskum Trims Lakes All-Stars Here, 111 to 95

Kewaskum's Land o' Lakes league northern division champions slowed the reason why they copied first place and continued their winning ways by soundly trouncing the Lakes All-Stars, 111-95, Saturday night in a game played in the local gym. The All-Star squad was made up of players from the other teams in the loop.

The Chevrolet's victory was even more one-sided than the final score indicates. They roared off to a 37-17 first quarter lead and broadened the marking to 30 points at half-time when the score stood at 59-29. In running up their big lead, the Chev's made only one free throw, the rest of their score resulting from 29 field goals.

With Kewaskum coasting and relaxing their defense in the second half, the Stars caught fire and whittled 14 points off the Chev's lead. But the Lakes champs still possessed a big 16-point advantage when the tilt ended.

"Meisy" run up a total of 31 points in the game but had to relinquish top honors to Kenny Frank of West Bend, who went wild with 39 points. He tallied 33 of his 39 points in the last half, many of them in the closing minutes, to pace the Stars in their attempt to overcome the Chevrolet's.

Other scorers for Kewaskum were Ramthun 9, Hanrahan 13, Bilgo 22, Krueger 12, Keller 12, and Dreher 6. The rest of the All-Stars lineup included these players and the points they scored: D. Wondra, Campbellsport, 14; Belling, Rosendale, 14; Kieckhafer, West Bend, 11; Serwa, Campbellsport, 4; A. Wondra, Campbellsport, 4; Giombetti, West Bend, 2; Madigan, Rosendale, 5; Klug, West Bend, 2. The third quarter score was 32-26, Kewaskum.

Manager "Cisco" Backhaus and his players will wind up a very successful season this Saturday evening with a victory banquet at the Republican Hotel at 6:30 p. m.

In a preliminary to the All-Star tilt Saturday, a group of Kewaskum Old Timers mixed together for a game. The Lakes managers were scheduled to play the Old Timers but only Bob Meyer, West Bend and "Cisco" Backhaus showed up in uniform. Wayland Tassar led the "skins" to a 41-18 win over the "bares."

RED FOX FAILS TO HIDE, LOSES HIS BOUNTY

Adolph Wahlen of R. 3, Kewaskum, who resides near St. Killian, sighted a "friendly" red fox in a field near his home last Saturday noon. The bold fox seemed unafraid and stayed within sight of Wahlen while he worked nearby. Adolph jumped into his truck, drove home, got his shotgun, and bagged the animal.

Wahlen will receive a \$250 bounty from the county and an equal amount from the state for his shot, he reported that there also are a great number of opossums around the Kewaskum area this year. This has been reported by many farmers and hunters who state that they are so plentiful that they are becoming a nuisance.

County Clerk Anton P. Staral, "the payer of bounties," warns residents of Washington county to be careful if foxes seem too bold and approach as they may have rabies. A resident of another part of the state was attacked by a rabid fox.

JUNIOR FFA BOYS WIN BASKETBALL TOURNAMENT

The Kewaskum chapter of the Future Farmers of America held the final games of the chapter basketball tournament on Sunday afternoon, March 13. The junior class defeated the seniors for the championship while the up-and-coming sophomores defeated the frosh easily for consolation honors.

PARISH BAKE SALE

The Women's Guild of Peace E and R church will sponsor a bake sale on Saturday, March 26, at 8 a. m. on a 1-11-3; Saturday, Mar. 19.

Firemen Called in Storm, Need Plow to Open Road

The Kewaskum fire department received a call at about 10:30 a. m. Tuesday during the peak of the raging blizzard. The call was to the Albert Koepke farm in the town of Kewaskum but the firemen were unable to reach the farm because of the drifted roads.

Even though the fire truck was equipped with chains and sent a village truck with a snow plow mounted on it ahead to clear a path, the equipment got only as far as Brussels's corner and could proceed no further. Some of the firemen were brought back by a motorist to Johnson's Restaurant just south of the village where the Washington County Highway Department was called upon to give assistance.

The highway department sent a snowplow to open the town road extending westward from the intersection of the southern junction of County Trunk Hwy. H and Hwy. 45 to the Koepke farm so firemen could reach the scene of the fire. It took almost two hours before the fire department reached the Koepke farm and extinguished the chimney fire. The blaze had already passed its peak but the firemen used chemicals to clean the chimney. No loss resulted.

The local firemen also answered a chimney fire call to the Arnold Amerling farm in the town of Kewaskum, northwest of the village, at 7:30 a. m. Thursday. The fire caused the house to be filled with smoke. Except for the smoke, there was no other damage.

Firemen Attend Meeting, Banquet of Badger Ass'n.

The annual midwinter meeting and banquet of the Badger firemen's association held at the Nightingale ballroom, Highways 145 and 74, near Milwaukee last Sunday, Mar. 20, was a decided success.

Delegates of the Kewaskum department at the afternoon meeting were Assistant Chief Arnold Martin, Marvin Schaefer and Armin Oppermann. Close to 20 members of the local department attended the banquet in the early evening. Most of the group made the trip in a special bus. A delicious chicken dinner was served by the Ace Catering Service of Milwaukee.

At 2:30 p. m. the business session was held by the chiefs and delegates of 19 departments from Milwaukee, Waukesha, Ozaukee, Washington and Sheboygan counties. Topics and problems for the volunteer firemen were on the program.

At 6 p. m. the annual banquet was held with speakers I. F. Statz, supervisor of fire prevention of Madison; Deputy Chief James R. Moher of the Milwaukee Fire Department School of Instruction and Training, and ex-chief Arthur J. Rahn of Two Rivers. The speakers all dwell on the present problems of the volunteer fire departments, their equipment, duties, etc.

In all 380 meals were served, with representative firemen from the 19 departments.

Civil defense was given some consideration, also the restoration of bingo in the state.

Chief Carl Peters of West Bend announced that the Badger association annual tournament would be held in West Bend June 11 and 12 in conjunction with the V.F.W. celebration.

It was announced that the annual fall meeting in October would be held in Cedarburg, the last Sunday in October. More information will be published later on the annual tournament.

Officers of the association are John Feutz, president, Slinger; Ernst Schneider, vice-president, Cedarburg; and George J. Armbruster, secretary-treasurer, Cedarburg.

BIRTHS

EICHSTEDT—A son to Mr. and Mrs. Oliver Eichstedt, R. 2, Kewaskum, Sunday, Mar. 20.

SCHULTZ—A son to Mr. and Mrs. Leonard Schultz, Kewaskum, Friday, Mar. 18.

GIESE—A son to Mr. and Mrs. Donald Giese, R. 3, Campbellsport, 1-11-3; Saturday, Mar. 19.

Little Tommy Buss, Bernard Volm Die

Infant Thomas Alan Buss, six-months-old son of Mr. and Mrs. Arthur E. Buss of Kewaskum, passed away Saturday evening, March 19, at Milwaukee Children's hospital, after an illness of several months with heart trouble and bronchial pneumonia. His mother was the former Lillian Werner.

Little Tommy was born Aug. 28, 1954, in St. Joseph's hospital, West Bend. Surviving along with the parents are a sister, Barbara, eight years old; two brothers, James, five years, and Arthur Jr., two years, and his paternal grandmother, Mrs. Elsie Buss of the town of Auburn.

The body was in state at Miller's Funeral home from 7 p. m. Monday until the time of services. Funeral rites were held at 2 p. m. Wednesday at Miller's Funeral home, the Rev. Gerhard Kaniess officiating. Burial took place in Lutheran Memorial Park.

BERNARD VOLM

Bernard "Ben" Volm, 64, of 127 N. 7th Ave., West Bend, a resident of the town of Kewaskum all his life until three years ago, passed away at St. Joseph's hospital in West Bend on Friday, March 18, after an illness of four weeks. He was an employee of the West Bend Aluminum company.

Mr. Volm was born in the town of Kewaskum on Jan. 18, 1891, and was married to Helen Theusch in Kewaskum on May 19, 1925. After their marriage the couple resided on the Volm homestead in the town of Kewaskum until three years ago when they moved to West Bend to make their residence.

Deceased is survived by the widow; three children, Alice (Mrs. Alfred Proeber) of the town of Addison, Francis Volm of the town of Wayne, and Edward Volm of the homestead; four grandchildren; three sisters, Mae (Mrs. Frank Katzenberger) and Catherine (Mrs. Frank Hroff) of West Bend, and Barbara (Mrs. George Peter) of the town of Wayne, and a brother, William Volm of the town of Kewaskum.

Funeral rites were held on Tuesday morning at 9 o'clock from the Kapfer-Gehl Funeral home in West Bend and at 9:30 at Holy Angels church in that city. The Rev. Messrs. Edward Stelling presiding. Burial was in the parish cemetery.

ALOYSIUS HARTER

Jacob Harter of the village received the sad news of the death of his brother Aloysius Harter at Oakland, California. His death was caused by cancer of the throat.

He was the son of the late Mr. and Mrs. John Harter. He was born in the town of Auburn on the Harter homestead, Feb. 15, 1887 and was never married. He owned a fruit range at California.

Mr. Harter leaves to mourn his demise the following brothers and sisters: Jacob of this village, John and Mrs. John Enders of Wabeno, Mrs. John Volk of Cincinnati, Ohio, Alfons of Alaska, Gregor of Campbellsport, Sr. Adelaide of St. Clair hospital at Monroe.

Funeral services were held at San Francisco, California.

MRS. EMIL HAMMERMEISTER

Mrs. Emil Hammermeister passed away at her home at Long Lake Sunday at 1:30 p. m. at the age of 61, after several months' illness. She leaves to mourn her husband, two sons, Donald and Edward, two daughters-in-law, four grandchildren and a host of relatives and friends. She was in state at Heiden and Lange Funeral home in Milwaukee and laid to rest in the Evergreen cemetery, Milwaukee. The funeral was Wednesday with services at 1:30 p. m. The Rev. H. A. Nahrns from Dundee officiated.

OUTDOOR MOVIES SHOWN TO SPORTSMEN'S CLUB MEMBERS

Members of the Kettle Moraine Sportsmen's association of Kewaskum met at the Kewaskum Opera House Monday evening. Following a brief meeting on game and fish planting, outdoor and sport movies were shown to the members by a representative of the Kessler Liquor Co.

Spring Blizzard Tuesday Worst of Season Here

LATE MARCH STORM, HIGH WINDS PILE UP HUGE DRIFTS, TIE UP TRAFFIC CAUSE ACCIDENTS

On the second day of spring Tuesday, winter finally arrived. A late March blizzard, by far the worst of the season, swept through this area Tuesday, tying up traffic, blocking highways, slowing activity to a snail's pace, and closing schools. The storm left from three to eight inches of fresh snow on the ground and was accompanied by terrific winds, with gusts up to 70 miles per hour, that piled up huge snowdrifts which measured yards deep in many places.

The blizzard made driving very treacherous, roads slippery, and in some places halted traffic completely. The high winds and driving

LOCAL DRIVER INVOLVED IN SNOWSTORM CRASH

Cars driven by Jos. C. B. Biers, 29, R. 5, West Bend; Carlo Bove, 24, Kewaskum, and Edgar Westphal, 30, Iron Ridge, figured in a three car collision on Hwy. 43 about 4 1/2 miles west of West Bend in the blinding snowstorm Tuesday.

The worst tie-up in the county occurred on Hwy. 144 near Barton where four cars and a truck collided and were badly damaged. One driver, Wyman Gessner, R. 3, West Bend, was injured when struck by a car while pushing his own stalled machine. He was taken to the West Bend hospital.

LOCAL DRIVER COLLAPSES FROM OVER-EXERTION

James Falk, 18, of Kewaskum, a driver for the Decorah Dairy, West Bend, collapsed from over-exertion at Birchwood Drive and the Decorah Road in West Bend when he attempted to push his stalled truck in the snowstorm. He was removed to St. Joseph's hospital where his condition was reported good.

RANDALL SCOTT GIESE IS BAPTIZED SUNDAY

The infant son of Mr. and Mrs. Walter Giese, R. 2, Kewaskum, was baptized Sunday in St. Lucas Ev. Lutheran church, Kewaskum by the Rev. Gerhard Kaniess. He was given the name Randall Scott. Sponsors were Miss Lorinda Giese, William Giese of Edgemoor, and Ellsworth Frost of West Bend. A number of relatives were entertained in honor of the occasion.

IN THE SERVICE DREHER HAS NEW ADDRESS

Pvt. Jules K. Dreher, son of Mr. and Mrs. Earl Dreher, Kewaskum, who is taking basic training at Fort Leonard Wood, Mo., has the following new address: Pvt. Jules K. Dreher, RA 16483285, Btry. A, 93 Arm., F. A. Bn., 4th Arm. Div., Fort Leonard Wood, Mo., 4th Plat.

Pvt. Dennis Bingen, who enlisted with Pvt. Dreher, has this address at present: Pvt. Dennis Bingen, RA 16483284, Btry. D, 61PT AAA AW BM, Fort Leonard Wood, Mo.

ATTEND STATE MEET

Members of the Kewaskum high school basketball team and their coaches spent Friday and Saturday at Madison where they were guests at the state high school basketball tournament games.

GUR POLICE CHIEF SAYS

Leaving your automobile motor run unattended is an invitation to auto thieves.

High School Plans Musical Activities

With the first signs of spring come the annual music festivals, and members of the Kewaskum High School musical organizations are preparing themselves for this year's events.

The East-Central Solo-Ensemble Music Festival will be held on March 26 at Fond du Lac. Kewaskum will be well represented with 27 solos and 6 ensembles.

Students who are playing or singing solos this year are: Gladys Becker, melophone; Kenneth Blank tuba; Jim Bradke, alto sax; Sharon Dreher, clarinet; Gwen Edwards, clarinet; Diane Engelletter, trumpet; Marcell Engelletter, clarinet; Donna Engelmann, alto sax; Joanne Ferber, Fr. hor; Mary Ellen Jaeger, trumpet; Audrey Kral, soprano; Yvonne Mellahn, clarinet; Carol Miller, piano; Rachel Peterman, tenor sax; Mark Rosenbemer, clarinet; Gloria Schaefer, soprano; Richard Schaefer, bass; Carol Schultz, alto sax; Alice Schwind, B. clarinet; Aldwin Seefeldt, Snare drum; Robert Sparks, alto sax; Zora Stark, baritone and alto; Tom Tassar, tuba and bass; Richard Wesenberg, trumpet.

Included in the ensembles are Adeline Ketter, Audrey Kral, Jorila Schaefer, Carol Rohlinger, Judy Weddig, Gwen Edwards, Sue Weddig, Mary Ellen Jaeger, and Sharon Dreher in a triple trio; Robert Sparks, Richard Schaefer, Mark Rosenbemer, and Tom Tassar in a quartet; Gladys Becker and Joanne Ferber, horn duet; Judy and Sue Weddig, trombone and trumpet duet; Charlene and Donna Vetter, vocal duet; Judy and Sue Weddig, vocal duet.

On May 7 the band of 38 members and the mixed chorus of 48 voices will participate in the band and chorus tournaments of the East-Central District at Fond du Lac.

Radio broadcasts will be made by the high school music groups over Station WPKV on Sundays, April 3 and 17, at 3:00 p. m. The mixed chorus under the direction of Arthur H. Zens will be featured on the first broadcast and the band will perform on the last broadcast.

An exchange concert will be played by the band at Campbellsport on March 29 for their student body. The Campbellsport band will journey to Kewaskum at a later date.

A spring concert is also planned for sometime in May. Watch this paper for further notices.

LOCAL PAISHES EXCEED CHARITIES DRIVE QUOTAS

It was learned this week that Holy Trinity parish of Kewaskum exceeded its \$1,500 quota on Sunday, the very first day of the annual Catholic Charities and Seminary fund campaign. The parish captain at Holy Trinity is Ralph Remmel.

The parish captain reported that the goal was topped even though many members of the congregation are still to be contacted. Sunday's contributions all were voluntary without any personal contacts being made. A full report on the drive will not be made until the campaign is completed.

The mission parish at St. Bridget's also topped its quota on the very first day of its campaign. The sum of \$581 was subscribed the first day and the parish was one of the first to have achieved its goal. H. Westerman is St. Bridget's parish captain.

The Charities and Seminary fund campaign began Sunday in parishes throughout the Milwaukee archdiocese. It will extend through Sunday, April 3. A goal of \$750,000 has been established, part of which will be used to enlarge and renovate St. Francis seminary at Milwaukee.

WEDDING AT ST. KILLIAN

E. Leonardelli of A. G. Koch, Inc. Kewaskum was among the dealers who attended a Power Choring training meeting on the new Jamesway shuttle stroke barn cleaner conducted by members of the branch staff of the James Mfg. Co., Ft. Atkinson, Wis. at Ft. Atkinson recently.

The meeting of authorized dealers in this area was part of a nationwide program to introduce the new Jamesway cleaner designed specifically for small and medium sized barns.

Company representatives also reviewed the entire line of Jamesway Power Choring equipment, including cattle feeders and silo unloaders, which are designed to help reduce the 55 percent of a farmer's time spent in doing chores in and around his farm buildings.

PICNIC AT ST. KILLIAN PLANNED FOR JULY 17

The annual picnic of St. Killian's parish, St. Killian, as usual is held the third Sunday in July. This year's date will be July 17.

Please reserve July 17 now for a good time at the St. Killian picnic. As in previous years a good time is promised to all who attend.

EVERLE BEAGLE FIRST IN MANITOWOC FIELD TRIAL

Joe Eberle attended the Manitowoc Beagle Club's derby trial Sunday at Manitowoc. Joe's dog, Eberle's Lawyer, placed first in the 15 inch derby class. This qualifies the dog to run for its state championship the first part of May.

Complete Adult Farmer Meetings at Kewaskum

The winter adult farmer meetings at Kewaskum High school and at the Washington Grade school have been completed for this year. According to O. E. Behnke, vocational agriculture instructor at the high school who conducts these classes, 41 adults from the ages of 24 to 64 were enrolled. Thirty-two of them attended 50 per cent of the meetings. Classes started at 8 p. m. and usually lasted until 10:15, or occasionally until 11 o'clock, depending on the discussions. The most successful thing about the meetings was the discussion and related experiences contributed by the farmers.

The course covered topics on marketing of farm products, cooperative marketing, grass silage, and loose housing.

To highlight the discussions speakers were called in. "Hig" Murray from the Milwaukee livestock yards, Werner Johnson and Chester Stahl of Random Lake to discuss cooperative marketing, L. J. Behnke of Valdora on egg marketing, Harold Berndt to discuss marketing lumber and improving the farm wood lot, were a few of the visitors. Others included Charles Geiger of Heinemann Dairy and Dr. F. Birch of White House Condenseries who commented on marketing dairy products, and Clyde Schloemer, attorney on farm income tax.

These farmers from Sheboygan Fond du Lac, and Washington counties attended 75% or more of the meetings: Walter Krueger, Julius Gessner, Roy Reysen, Antone Klein, Allen Kleinbans, Kar Schultz, Rudy Koepke, Earl Bremser, Albert Theisen, Walter Liepert, Wilfred Spartz, Herman Panzer, Fred Belger, Isadore Stahl, John Youngbauer, Richard Degnitz, Carl Herriges, August Becker, Ed. Beck, and Albert Pillar.

ATTEND NATIONAL HOME IMPROVEMENT CONVENTION

Messrs. Carroll W. Haug, Roman "Jimmy" Miller, Bernard Strobel and Lee Miller representing the local firm of P. J. Haug, roofing and siding contractor, spent Tuesday, March 15, in Chicago attending the annual National Home Improvement Show of N E R S I C A, INC., held at the Hotel Sherman the past week. The show represented all segments of the home improvement industry; 172 booths of nearly 150 manufacturers were on display.

One of the most interesting displays at the convention was the Johns-Manville exhibit for the new SEAL-O-MATIC shingle. The Seal-O-matic shingle, a recent development, is a very important contribution to roofs for home and farm buildings—a roof of traditional shingle design that is self-sealing. The sun's heat seals the tabs automatically because of a special factory applied asphalt cement strip on the underside of each shingle. A test conducted by the Navy shows that these shingles having been sealed down resisted a 140 mile an hour wind. Mr. Haug reports that already nearly 1,200 squares of the Seal-O-matic shingle have been applied in this locality and throughout Washington county and since this shingle will eliminate "blow-off" caused by high winds, it is a very welcome product on the market.

ATTENDS JAMESWAY TRAINING MEETING

The meeting of authorized dealers in this area was part of a nationwide program to introduce the new Jamesway cleaner designed specifically for small and medium sized barns.

Company representatives also reviewed the entire line of Jamesway Power Choring equipment, including cattle feeders and silo unloaders, which are designed to help reduce the 55 percent of a farmer's time spent in doing chores in and around his farm buildings.

LAY LUMBER TEAM WINS BOWLING CHAMPIONSHIP

The Lay Lumber Co. team of the Women's Little Five league at Lighthouse Lanes took first place and the championship trophy in the season just closed. Members of the Kewaskum team, who bowled Monday nights were: Dorothy Martin, captain; Irene Honeck, Evelyn Nolt, Frances Rohlinger, Frances Van Blarcom, Lorraine Korth, and Harriet Steltpflug.

ATTEND STATE MEET

Members of the Kewaskum high school basketball team and their coaches spent Friday and Saturday at Madison where they were guests at the state high school basketball tournament games.

GUR POLICE CHIEF SAYS

Leaving your automobile motor run unattended is an invitation to auto thieves.

Five Candidates Seek 3 Village Trustee Offices

Last Friday, March 18, was the deadline for candidates to file nomination papers with Village Commissioner William S. Martin for the village offices to be elected in the spring election on Tuesday, April 5.

Five candidates are seeking the three trustee offices to be elected. The present incumbents, Joseph Eberle, Charles Sparks and John G. Steltpflug, all are seeking re-election. They will be opposed on the ballot by two newcomers, Ned W. Scarpel and Wayland Tassar.

Village President Charles F. Miller will be unopposed for re-election, as will Edwin A. Bartelt, assessor; Edwin M. Romaine, supervisor, and Lyle W. Bartelt, justice of the peace.

Other trustees who hold over in office another year are Marvin Schaefer, Carl Schaefer and James Reigle.

ATTEND NATIONAL HOME IMPROVEMENT CONVENTION

Messrs. Carroll W. Haug, Roman "Jimmy" Miller, Bernard Strobel and Lee Miller representing the local firm of P. J. Haug, roofing and siding contractor, spent Tuesday, March 15, in Chicago attending the annual National Home Improvement Show of N E R S I C A, INC., held at the Hotel Sherman the past week. The show represented all segments of the home improvement industry; 172 booths of nearly 150 manufacturers were on display.

One of the most interesting displays at the convention was the Johns-Manville exhibit for the new SEAL-O-MATIC shingle. The Seal-O-matic shingle, a recent development, is a very important contribution to roofs for home and farm buildings—a roof of traditional shingle design that is self-sealing. The sun's heat seals the tabs automatically because of a special factory applied asphalt cement strip on the underside of each shingle. A test conducted by the Navy shows that these shingles having been sealed down resisted a 140 mile an hour wind. Mr. Haug reports that already nearly 1,200 squares of the Seal-O-matic shingle have been applied in this locality and throughout Washington county and since this shingle will eliminate "blow-off" caused by high winds, it is a very welcome product on the market.

ATTENDS JAMESWAY TRAINING MEETING

The meeting of authorized dealers in this area was part of a nationwide program to introduce the new Jamesway cleaner designed specifically for small and medium sized barns.

Company representatives also reviewed the entire line of Jamesway Power Choring equipment, including cattle feeders and silo unloaders, which are designed to help reduce the 55 percent of a farmer's time spent in doing chores in and around his farm buildings.

PICNIC AT ST. KILLIAN PLANNED FOR JULY 17

The annual picnic of St. Killian's parish, St. Killian, as usual is held the third Sunday in July. This year's date will be July 17.

Please reserve July 17 now for a good time at the St. Killian picnic. As in previous years a good time is promised to all who attend.

EVERLE BEAGLE FIRST IN MANITOWOC FIELD TRIAL

Joe Eberle attended the Manitowoc Beagle Club's derby trial Sunday at Manitowoc. Joe's dog, Eberle's Lawyer, placed first in the 15 inch derby class. This qualifies the dog to run for its state championship the first part of May.

ANSWER THE CALL—Your Red Cross needs a whopping \$36,640,000 to support its services to the Armed Forces and veterans in 1955. This is vital service. Join and serve today.

PRE-OLYMPIC WORKOUT—A workday application of muscle skill is displayed at Melbourne, Australia, where workmen demolish portion of a stadium grandstand at Melbourne Cricket Ground in preparation for the 1956 Olympic Games. New grandstand will seat 43,000 and total spectator capacity of the grounds will be 104,000.

Healthy Old Age Result of Good Habits In Youth

The average expectancy of life is constantly being extended. In fact, with each passing year an increasing proportion of our people are in the older age group.

The facts of aging, and the diseases and disabilities common to aging are therefore of interest to us all. The retaining of good health throughout our entire lifetime—"the adding of life to our years, as well as years to our life," is the goal of each of us.

Good health during our advancing years is largely a personal responsibility. Each of us must in large measure be the architect and builder of his own health under the wise guidance of an interested physician.

The most critical period of life from the standpoint of normal aging is not the later years themselves, but rather those of middle age or earlier. It is then that many diseases and disabilities commonly associated with "old age" have their beginnings. These often begin unnoticed, develop slowly without much warning, and consequently are the more deceptive and damaging.

Rheumatic fever, contracted during childhood, may be the cause of heart disease of older years. Rheumatic fever can be prevented in some instances or if contracted, many of the undesirable after effects can be controlled. Cancer, the number two killer, can be cured in about half the cases if discovered early enough to permit eradication.

Wise eating habits—selecting the basic foods essential to good health and avoiding overweight—will do much to keep us free from heart disease, hardening of the arteries, or diabetes—diseases that are among the chief killers or causes of ill health during advanced years.

Our best insurance for health in our older years is the observance of good health habits from infancy, plus regular visits to our family physicians so that they have an opportunity to detect evidence of disease in its early stages when attention offers the best chance of recovery.

Creative hobbies have a distinct place in our plans for later years. They will help us maintain an interest in life, stimulate physical and mental activity, help us overcome loneliness, and often be

 2. Ralph (Tiger) Jones.
 3. British heavyweight, talked as opponent for Rocky Marciano.
 4. Irv Noren.
 5. Next year, 1956.

If you live by high principles, you won't have to tell many people.

made productive and profitable. Old age need not be just endured, it can be thoroughly enjoyed. But a contented and a healthy old age just doesn't happen. Each of us must do his own part.

progress of the PEN

Very little is recorded about the history of the pen. But the pen itself has recorded all the history of the ages. It has been used to validate the documents of peace, war, and the destiny of nations. For centuries the wing of the goose provided the quill pen, which goes back to the writings of St. Isidore of Seville in the 7th century. George Washington used a quill to sign the first Patent law, April 10, 1790. The Patent System has had many American inventors to improve pens since that time. Abraham Lincoln used a steel pen to sign the historic documents of his day. Several types of fountain pen were later invented and patented in the United States. But none were successful until Lewis Edson Waterman invented his capillary-action fountain pen. He was granted a patent in 1884. President Eisenhower of course has available both the fountain pen, and the more recent invention, the ballpoint pen.

A Famous American Ship

The EDWARD SEWALL, 1899-1936, was the last of the great steel American windjammers. She was a true champion of the seas in the finest traditions of the American Merchant Marine. She fought nature, as defended by the raging white horses of Cape Horn's worst gales. She fought man, as represented by the all-conquering steamship. Her traditions of service and seamanship are ably carried on today by the men of our American Merchant Marine.

"Mister Fixum's Handy Hints"
BY ERNIE GARDNER

Wiring a House is Expert's Job
Because of the fire hazard from wiring not properly installed, I recommend that all electric wiring be installed by a licensed electrician.

However, many people feel that they can do the job themselves just as well. In that case, I recommend they convince the department of building safety, and get a permit to do their own wiring.

The work must stand inspection before the wallboard or lath is installed.

Have ceiling outlet controlled by a wall switch located inside the doorway where you enter the room. Then fixtures plugged in at wall outlets may be used after the ceiling light has been turned off.

Another plan is to have the ceiling fixture controlled by one switch, and the wall outlets by a second switch.

Because of the great number of electric appliances in use today in the modern home, heavy duty wiring is often installed. The difference in cost is small, and it will carry a larger load than standard wiring.

If you have more than one room in the attic, it is well to have two circuits. This means two cables run from the new fuse panel in the basement.

The average size bedroom should have three to five outlets, located at handy points around the room. Furniture arrangement will determine the location.

Of course it would be much easier to run wires up from some wall box in a room below. But by doing this, you are apt to overload that circuit, and will be bothered with blowing fuses.

Instead, another cable should be run from the service switch in the basement, to a new fuse panel. Then run the cable to the attic, where the wiring may be done as illustrated.

ing is often installed. The difference in cost is small, and it will carry a larger load than standard wiring.

A Joint Religious Undertaking Builds New Radio-TV Center

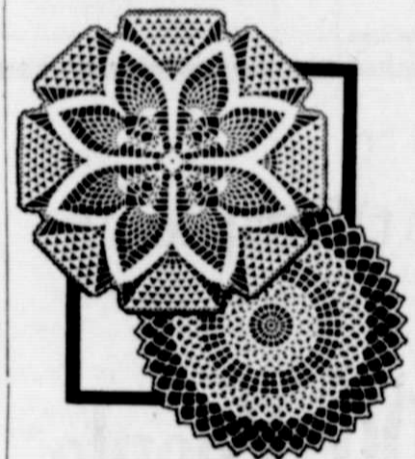

Five religious denominations have joined in an undertaking which is unique in the history of religious activities. The five have combined their efforts to build a radio and television center, which cost over \$400,000 and which will beam spiritual programs to all parts of the United States and to every area of the world.

The five denominations—Presbyterian U. S., Methodist, Presbyterian U. S. A., Episcopal and United Lutheran—opened their new radio-TV center in Atlanta, Georgia, recently. The new home of this unique religious institution is something different in the way of a spiritual organization.

The various denominations contributed various things to the radio-TV center. From time to time representatives of the different denominations will be in charge of the production of both radio and TV programs. The same programs will go out to all areas, whether they be produced by members of one denomination or another. Television will become a larger and larger part of this spiritual operation as time goes on and already some television work is being done.

We think the idea behind the cooperation of the denominations is a progressive one and constitutes an example which other denominations should follow. It should be remembered that all religions seek to accomplish the same general end, and that one of the first steps in resolving our differences and making this world a better place in which to live is to get the various denomination to cooperate and join together in a collective effort.

FOUR PART HARMONY CLUSTER ALL AROUND

Two lovely doilies which are quickly and easily crocheted are included on one pattern. "Four Part Harmony" is an unusual pineapple doily which can be expanded into a much larger piece if desired. "Cluster All Around" is a very simple design which is quickly made. Complete directions for both on one sheet. Doilies measure 9 1/2" x 8" respectively. C3362, 20c.

Send orders to Handcraft Service (The Colonial Co.), Journal Pub. Co., Inc., 1243 Swift, Kansas City 16, Mo.

Pattern of the Week

Pattern 9146 — an apron, a jerkin, or a beachcoat. Misses' Sizes 12, 14, 16, 18, 20. Size 16 takes 2 3/4 yards 35-inch fabric.

Send Thirty-five cents in coin for this pattern—add 5 cents for each pattern if you wish 1st-class mailing. Send to 170 Newspaper Pattern Dept., 232 West 18th St., New York 11, N. Y. Print plainly NAME, ADDRESS with ZONE, SIZE and STYLE NUMBER.

Sarah Anne's COOKING CLASS

Molasses Glean To A Meal

Unsulphured molasses, on the American food scene since colonial years, is both sweetener and flavorer. Here with baked ham, sweet potatoes and apple rings, the sugar cane enchanter provides a ready-made glaze.

The ham glaze, truly excellent and simple, calls for equal portions of unsulphured molasses and prepared mustard applied the last 45 minutes of baking time. The sweet potatoes and apple rings get their caramel flavor touch and sheen by being simmered 15 minutes in unsulphured molasses and butter.

Molasses Glazed Ham

1/4 cup unsulphured molasses 1/4 cup prepared mustard
Bake ham as directed. Forty five minutes before ham is done, take from oven. Score the fat surface; stud with cloves. Mix together unsulphured molasses and mustard. Brush ham heavily with the glaze; return to oven and complete baking. Brush with remaining glaze last 15 minutes baking time.

Grandma's Apple Sweet Potatoes

6 medium red apples 1/2 cup butter or margarine
1/2 cup unsulphured molasses 2 pounds small sweet potatoes, cooked
Core apples; cut in approximately 1/2-inch slices. Heat unsulphured molasses and butter in skillet; add whole or halved sweet potatoes and apple slices. Turn to cover with molasses-butter mixture. Simmer gently 15 minutes, turning and basting occasionally.
YIELD: 8 servings.

Feeding unexpected guests is an easy task when you can go to the freezer and get out dishes you have prepared earlier in the month.

ROLLS

1 cup mashed potatoes warm
2/3 cup sugar
2/3 cup melted shortening
2 eggs
2 teaspoons salt
1 yeast cake
Flour, about 6 to 7 cups
1/4 cup lukewarm water
Dissolve yeast in lukewarm water. Mix potatoes, sugar, eggs, milk and melted shortening. Add flour, enough to make the dough just barely firm enough to handle. Knead and let rise until double in bulk. Roll out on floured board about 1/3 inch thick. Cut with a round cutter and let rolls rest 10 minutes. Crease through the middle with floured knife handle. Brush with melted butter and fold double. Bake 40 minutes in an oven 275 degrees. Leave in pan 20 minutes. Cool at room temperature. Divide in convenient portions, wrap in freezer paper and freeze. When ready to serve, place on unbuttered cookie sheet. Bake until brown in an oven 400 degrees.

SWEET POTATO BALLS

2 1/2 cups mashed sweet potatoes
1 teaspoon salt
Pepper
1 cup salted peanuts, chopped
1 cup dark corn syrup
3 tablespoons butter
Season potatoes with salt and pepper. Shape into 2 inch balls and roll in peanuts. Put butter and syrup into a frying pan over low heat. When syrup is hot, add potato balls. Turn them over and over in the hot syrup. Cool. Place on a metal trimmed paper plate. Wrap and freeze. To serve, reheat in paper plate without thawing in an oven 350 degrees about 45 minutes.

SHRIMP JAMBALAYA

3 bacon slices diced
1 large onion minced
1 clove garlic minced
4 tablespoons celery chopped
2 tablespoons parsley chopped
3 tablespoons green pepper chopped
4 cups tomatoes canned
1 teaspoon salt
Few grains cayenne
2 teaspoons tomato paste
1 cup chicken stock
1 pint oysters
4 cups cooked rice
3 cups cooked shrimp broken in pieces
Saute bacon until crisp. Add onions, garlic, celery, parsley and pepper. Cook until onion is yellow. Add tomatoes and chicken stock, simmer gently for 20 minutes. Add shrimp, oysters and

paste. Simmer for 5 minutes, stirring frequently. Cool. Pour into freezer containers. Freeze. Pack cold rice in freezer containers and freeze. To serve, thaw jambalaya in container in food department of refrigerator several hours, then heat in double boiler. Thaw rice in container at room temperature, then place in a greased baking dish, cover—heat for 1 hour in an oven 350 degrees—serve jambalaya over hot rice.

FROZEN CREAM PUFFS

1/4 cup butter
1/2 cup boiling water
1/2 cup flour
2 eggs unbeaten
Add butter to water and heat until butter melts. Add flour all at once and stir vigorously until ball forms in center of pan. Remove from heat and let stand 5 minutes. Add 1 egg and beat until thoroughly blended. Add 2nd egg and beat as before. Mixture should be very stiff. Arrange by spoonfuls, 2 inches apart, on a buttered cookie sheet. Bake in an oven 375 degrees about 40 minutes or until there are no beads of moisture on puffs. Cool. Split from top to bottom, fill half the puff with one flavor ice cream and the other with another kind of ice cream. Carefully pack puffs into a freezer container and freeze. To serve, just before dinner place a puff on each dessert plate. Let stand in food compartment of refrigerator for 20 minutes. Pour chocolate sauce over them and serve.

FROZEN WHIPPED CREAM

Whip and sweeten heavy cream until it stands in peaks. Line cookie sheet with waxed paper. Arrange mounds, individual servings on sheet. Freeze. Remove mounds from paper and place in plastic bag and return to freezer. To serve, place frozen mounds on servings of dessert. Let thaw 20 minutes.

HYPTONIC ELECTRONICS—It's not the gaze that Chicago electronics engineer Neil Satter has fixed on his wife, Lillian, that's hypnotic; it's the device he's adjusting. Satter calls it the "electronic hypnosis inducer," says it has been used successfully in treatment of insomnias, and in "painless" childbirth routine. Light source of alternating brightness atop the machine is projected at patient's eyes, coupled with a varying sound tone. Both are synchronized to patient's breathing rate, and frequency is decreased gradually until rate of respiration reaches sleep level.

JET-PROPELLED "SELF DEFENSE"—Japanese Maj. Shoji Muramatsu, left, checks tail assembly of a T-33 jet trainer with Capt. Stanley E. Corvin, of Levelland, Tex., at Tsuiki, Japan, as the Japanese Defense Force begins to sprout wings. Major Muramatsu is one of the first five officers of Japan's self-defense air arm to pilot up-to-date jet aircraft, under tutelage of the USAF 6025th Flying Training Squadron.

Mr. and Mrs. Clifford Rose spent several days at Madison last week.

PAINS THROUGH ARMS AND SHOULDERS USUALLY NEURITIS

Pains through the shoulders and arms are usually more prevalent at this time of the year. This condition is a form of rheumatism known as neuritis which means nerve inflammation. This can be attributed to the sudden changes in temperature and humidity. The body and blood stream alters to meet these changing climatic conditions. Nerves that are sick or not up to par, because of some mechanical irritation in the spine or some former injury to the nerve, seem to be affected by these changes in the blood stream. Hidden infections also cause changes in the blood which irritate these sick nerves.

The Chiropractor locates and adjusts the cause of irritated nerves and allows nature to heal them. Climatic conditions do not affect normal nerves.

TEACUP TOPICS

By BETTY ANN

Here are some easy to follow tips guaranteed to produce a perfect skirt hem says Betty Ann.

To prevent sagging later, always allow jersey garments to hang a few days before putting the hem up.

Instead of making a new hem on a child's dress that is too long, just make a wide tuck on the underside of the original hem. This can be ripped out when the child has grown, and the original hem will still be good as new.

All but forgotten, the dress weights used by famous old Paris couturiers are still the best way to keep skirts hanging arrow straight. Sew one in the hem at each seam of the skirt.

For a built-in flare, you don't have to wear a dozen stiff petticoats. Sew three inch wide crinoline in the hem of a full skirt or dress before it is turned up.

There is no longer any need to sew hems by hand. The new sewing machine will baste, sew over pins, even blind stitch hems. Most of all, they save time and eliminate monotony in adjusting hems, ordinarily one of the most tedious jobs in sewing to do oneself, and one of the most expensive jobs to have done outside.

If your doctor has put you on a strict diet, it may seem like the most important thing in life to you for the moment. But remember it isn't important to others. So don't talk about your diet constantly.

"I never mind driving by to pick up Mrs. Jones," one woman said of another, "because she always has her hat on and is ready to go." If you want others to do favors for you, make it as easy for them as possible.

To make flat, strong buttonholes in thin material, rub a little library paste on the wrong side before starting.

There is the bride's question: Whether to buy heavy muslin sheets and pillowcases or the softer, smoother percales and finer muslins when stocking a new linen supply.

Both types of sheets have advantages, and the wise choice depends on the qualities that meet the special needs of the household, textile specialists say. Heavy muslin sheets of 140 type are buys for durability. Because the fabric is heavy, the sheets tend to wrinkle less in use than finer, softer sheets. But their weight may add to laundering cost if they are sent to laundries that charge by the pound.

In contrast, the so-called luxury sheets, percales of 200 type or finer muslins of 180 type, are the buys for smoothness and softness, but they can't take such hard wear as heavy muslins.

Whether to invest in new types of sheets, such as the popular fitted sheets, is another question often asked. Many find that a small purchase as a tryout is a good idea. Fitted sheets may save ironing and give greater comfort because their close fit makes them wrinkle less. But how well they fit the mattress on which they will be used is important. If the mattress is too thick, it may be hard to pull them on, and that extra pull may cause extra wear—and even tear.

Apricot Muffins

¾ cup dried apricots; 2 table-spoons shortening; 1/3 cup granulated sugar; 1 egg; 1 cup sour milk or buttermilk; ¾ cup all-purpose flour; 3 teaspoons baking powder; ¼ teaspoon soda; ½ teaspoon salt; 1 cup whole wheat flour.

Rinse apricots. Cover with hot water and boil 10 minutes. Drain and chop. Cream shortening with sugar. Add lightly beaten egg, milk and apricots. Sift all-purpose flour with baking powder, soda and salt and mix with whole wheat flour. Stir into liquid mixture and mix thoroughly. Fill greased muffin pans two-thirds full. Bake in hot oven, 400 degrees, about 20 minutes. Makes 12 to 14 medium muffins.

To remove unsightly and uncomfortable foot callouses, soak the feet in warm salt water. After the skin has softened, rub the callouses with pumice stone. If a callous is a big one, don't try to remove it all at one time. Wait a day or so and do it again. Finish off each session by holding a cotton square soaked in a good quality witch hazel against the affected area.

A chicken croquette properly fried with chicken and not left over veal, is a rare treat. Try putting a spoon of currant or cranberry jelly in each croquette before dipping in egg, crumbing and frying.

Atomic radiation retards the spoilage of potatoes.

Meal-in-a-Pot Saves Work, Satisfies Heartiest Appetites

BY DOROTHY MADDOX

MORE time to enjoy your family and just as much good eating—that's what this one-burner, one-pot dinner offers. Meat and potatoes (lots of them), plus vegetables, tender and flavorful. This meal will satisfy the heartiest of family appetites.

Sunday Dinner in One Pot (Serves 6 or 7 generously)

Three and one half to 4-pound piece eye-round of beef, ½ piece of fresh pork fat, 2 onions, 1 teaspoon chopped garlic, ½ teaspoon black pepper, 1 bay leaf, ¼ teaspoon thyme, ¼ cup tomato sauce, 1 tablespoon salt, 12 to 15 3-inch stalks celery, 5 carrots, cut in ¼-inch rings; 5 large potatoes, scraped, peeled and cut in two; water.

Start this meal about four hours before dinnertime, or cook meat on previous day to point where vegetables are to be added. Cut pork fat diced small, and heat in Dutch oven until brown and crisp. Add beef and brown well on all sides.

Now add onion, garlic, seasonings and two cups of water. Cover tightly and cook over low heat, turning meat occasionally to permit even absorption of flavors. After 2½ hours add potatoes and enough water just to cover.

Fifteen minutes later add carrots and celery. Make sure all vegetables have a chance to cook in liquid for a time. When vegetables are tender, pour liquid off into saucepan.

Skim off fat. Reheat and serve as gravy. Arrange meat and vegetables on one large platter.

When friends drop in for Sunday supper, try these cheeseburger snacks.

Cheeseburger Snacks (Yield: 8 to 10 servings)

Two and one half pounds ground beef, ½ cup chopped onion, ½ teaspoon dry mustard, 8 to 10 slices processed cheese, butter or margarine, 4 or 5 hamburger buns.

Combine ground beef, onion, salt and mustard. Mix to blend well. Divide into 8 to 10 portions and form into flat patties. Place

Out of the pot and on to the table, a whole meal at one cooking. It's hearty, delicious fare for the "can't-fill-em-up crowd."

on baking sheet and broil until well browned on both sides. Cover each patty with a slice of cheese. Broil a minute or until cheese is hot. Serve each cheeseburger on a buttered half bun.

Bible Comment

Man Fails To Execute God's Plan

THE Bible is our chief source for the knowledge of God.

It is a record of how saints and prophets revealed what they had found, and what God revealed of Himself to them.

What then does the Bible say concerning God's plans for men? The record is very clear and plain. As God is the source of life, it is His plan and will that man should live. Early in the story of mankind is the commandment, "Thou shalt not kill." The sacredness of human life is emphasized in the early records of Israel, in the brand of the murderer upon Cain. It is again emphasized in mention of the cities of refuge in which even a wrongdoer might find protection, and in early measures to promote hygiene.

It might be said that life is the supreme theme of the Bible, rising to the declarations of Jesus: "The gift of God is eternal life," and "I am come that they might have life, and that they might have it more abundantly."

But life as mere existence would be of little worth. God's life for man is a life of righteousness and justice, of mercy and peace. Measured against God's will and God's plan, how deep has been man's failure!

Must failure ever be the story? The answer is "no." The faithful carry within themselves the spark that will someday ignite the nations, fire them with the worthiness to keep covenant with their God and make His will and plan their supreme purpose.

Factual News About The Eyes

A thoroughbred Pekingese dog is wearing contact lenses now-a-days, according to the Better Vision Institute. The dog belongs to a rich lady in Florence, Italy, and has won a number of contests. When a veterinarian discovered that it was nearsighted, it became the first dog in the world to wear contact lenses.

In the nineteenth century it wasn't only a matter of style for young girls to have their ears pierced for earrings, according to the Better Vision Institute. There was also an old, lingering superstition that this custom was helpful to vision.

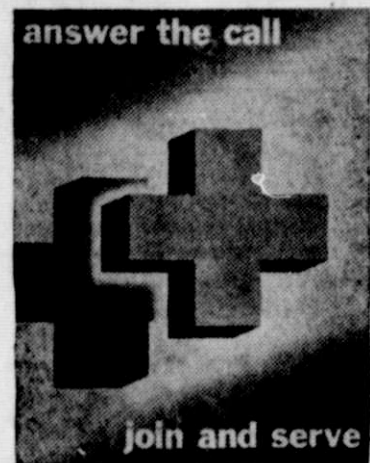

In a recent study of adolescent American boys and girls, it was found that most of them are failing to eat enough of the right kind of food, according to the Better Vision Institute. A great many of the teen-agers have visual trouble resulting from poor diet.

Poor vision can add up to a pain in the neck quite literally, says the Better Vision Institute. In trying to see better, one may unconsciously adopt a posture which will strain the neck muscles and make them ache. This type of pain in the neck is apt to grow in intensity and come back repeatedly.

If a girl's eyes sparkle more than her escort's, it doesn't necessarily indicate a one-sided romance, says the Better Vision Institute. The fact is that women's eyes naturally water more than men's. In both sexes, tear production decreases with increasing age, so that at 40 one's eyes water only half as much as they did at 10. As a rule, one eye produces more tears than the other, but healthy eyes don't water during sleep.

Which?

Hostess—Our dog is just like one of the family.
Bored Visitor—Which one?

Happy Marriage Is A Partnership

Marriage relations experts are increasingly turning their attention to the problem of dissolving marriages in the United States. More and more the conclusion is being reached that each partner in marriage must accept the other for what he or she really is.

The really successful marriages are those in which couples learn to live, progress and improve together. This knack of growing, learning and developing together is the key to a successful marriage, according to marriage relations experts.

A trend noted in recent years is that of younger average ages for marriages, and many of today's experts believe this is a healthy development. Early marriage is a handicap only when the couple concerned is marrying after a short infatuation, against the wishes of their parents and friends, without proper consideration of that step, or for some other reasons. However, when those most likely to be closely concerned with the marriage are not opposed, and when the couple concerned has given the question serious thought and adequate consideration, marriages among younger people are today not being discouraged.

One can look back upon the exploits of many of history's greatest figures to see that youngsters in the very early age brackets have often transformed the course of history, and achieved results which constantly surprised their elders. However, if the trend is toward marriage at a younger age, it also should be toward intelligent appraisals, which include the individual's backgrounds, emotions, companionship, family relationships and personalities. The experts are almost unanimous in predicting that the background of an individual is inevitably a source of happiness or unhappiness which will come to the surface, sooner or later, in one's married life.

Timely Tips

Don't let that urge for doing that comes with crisp weather wear you down. There always are easy ways to do things. Here are a few tips to help make light of your chores:

To loosen tight screws or bolts, put a few drops of peroxide on them and let it soak in for a few moments. They'll come away much easier.

Nail a rubber heel to the bottom of your ladder or stool legs and they won't slip.

Painting your steps? Do every other one, then let them dry so you can walk on them while you paint the remaining half.

To prevent spotting hinges or latches when painting a door, rub a little petroleum jelly on them first. Stray paint will then rub off with a wisp of a cloth.

Four melted-paraffin in the bottom of your garbage can to prevent rust.

ter to cleanse your skin from the inside.

Are you troubled with broken capillaries and petechial? These are little red points which appear particularly on chest, arms and hands. They can be caused by a number of things, but one way to help prevent them is to step up your consumption of citrus fruits and non-starchy vegetables. Use a bluish-covering cream to hide these imperfections.

If you bruise easily and the bruises seem to take a long time to fade, you may not be getting enough vitamin C. Eat more citrus fruit and leafy green vegetables. The other cause might be glandular. Check with your doctor if you think this is the case.

A wart is a very ugly sight and a common one. They are caused by a virus which enters the skin through a break. The best way to get rid of a wart is to go to your doctor. He can remove it at once with acid, x-ray or plastic-surgery.

A bad case of poison ivy is certainly a beauty problem. If you accidentally come into contact with the plant, wash well right away with a strong laundry soap and warm water. Next wipe the exposed skin with alcohol. Change your clothes and have them washed or dry-cleaned before you wear them again.

If you begin to show signs of the poisoning, your doctor may prescribe one of the anti-histamines to relieve itching. Use calamine lotion to dry up the blisters. Avoid hot baths and over-exercising.

Surplus Butter May Be Turned Into Ghee

The Government believes it has found a solution to a serious food surplus which has been plaguing the Department of Agriculture for years. It believes it has found a market for thousands of tons of surplus U. S. butter.

The market is supposed to be in the Near and Far East, where natives are very fond of ghee, a butter product. Ghee is actually the more liquid part of melted butter, which is poured off the top of warmed butter.

Although this is a rather rancid-tasting product to Americans, it is very tasty to the natives of India, Pakistan, Burma and nations in the Near East.

Solving the surplus butter problem would be a major step forward for this government, since our large holdings of butter have made other butter-selling countries apprehensive lest we dump it on the world market, and it has also posed a problem for this country.

Recently, the Soviet Union has been considered as a possible market for this surplus. Over a year of work and study have gone into the problem of converting butter into ghee, and of selling it, and the establishment of this new market is a significant step forward in our agricultural program.

Kind, sincere words will take the average man or woman a long way along the journey of life.

FEATHERS FRUIT 'N' FOOLERY—The hats pictured above are among the thousands Fashion's been trying on for springtime wear. Bird-of-Paradise plumes, at left, adorn this London, England, creation. They top a small chiffon-and-satin beret, cascade almost to the shoulder line. Black-and-white straw, center, resembles an overturned fruit basket with red, berry-like adornment. Modeled in Rome, Italy, sunglasses are berry-trimmed to match. In a lighter mood, Italy's milliners have turned out the beach hat at right. Of rough straw, it has an artificial peach to set off the topknot.

SPORTS AFIELD

By Ted Kesting

Just what should you look for in a boat to be used on a pond, or a sluggish river? As far as safety is concerned, you need only sufficient stability, and enough puncture resistance so holes can't be poked through the bottom by rocks or stumps. These aren't very tough requirements.

With safety not demanding much, you have lots of room to choose what fits your own ideas of comfort. And you'll have lots of leeway when you come to consider the last and often important point—what sort of craft is best to tote over road, trail, meadow, wood or swamp that lies between you and the pond.

Willard Crandall, boating editor of Sports Afield magazine, reminds us that on a pond, side-to-side tip is the least with flat-bottom boats, the most with round-bottoms. But this is all too often overlooked by the pond angler, who worries about the problems of durability and portability. But if you can't keep your mind on the fish because your boat always seems like a nervous snake, what fun is fishing?

What else is desirable for a pond boat? Ordinarily it should be easily guided and maneuvered. Which means a boat that is long, narrow and light, with a tapering, rising stern, when used with paddles or oars. Some sportsmen can't see any sense in using an outboard where distances are short, but not only have these motors been improved, but so has the design of boats for them. With these modern motors, anyone can make a boat do almost any sort of twist or turn. You can, certainly, use a boat about as wide and comfortable as you like and

still have enough speed with the lightest of motors.

The one quality that most sportsmen want in their pond boat above anything else is portability. The trick here is not to buy more portability than you need. The more portable the boat, the more some other feature has to be slighted—strength or durability.

Ponds take much the same sort of boats for hunting as for fishing: steady, light, easily handled. Hunters, though, usually stress stability more, and like low sides.

What do we consider a pond? A pond is a body of water small enough so that rough water is never a problem to the smallest boat, no matter how hard the wind blows (except for tornadoes and hurricanes).

Without federal aid to fish and wildlife, there would be a serious vacuum in research and conservation programs in this country. —Sports Afield

Main purpose of a swivel is to prevent fishing line from twisting and most swivels will do this if not under excessive tension. —Sports Afield

Varnish may give your boat deck a svelte look, but it has no place underfoot. So paint your decks. There are several nonskid paints on the market that are good. —Sports Afield

Fastest way to remove a set in a bamboo spinning rod is to use all the heat your hands can bear and bend it slightly the other way. Or hang it up for awhile with a weight on the lower end. —Sports Afield

Prehistoric Indians Solved The Problem of Co-Existence

Prehistoric Indians of the American Southwest offer an example to today's discordant world of how man once solved a co-existence problem—successfully.

More than 900 years ago two contrasting cultures met head-on within the confining walls of a remarkable communal dwelling, Pueblo Bonito, in what is now northwestern New Mexico. As different as were their life, the two peoples, about 1,000 in all, lived peacefully together for a century.

The story of Pueblo Bonito is detailed in a new book, "The Material Culture of Pueblo Bonito," written by Neil M. Judd, associate in anthropology at the United States National Museum of the Smithsonian Institution and leader of a series of National Geographic expeditions to the site.

Society Initiated Research In 1920 the Society initiated a program of archeological research into the remains of the vanished Indian cultures in Chaco Canyon National Monument. Mr. Judd conducted preliminary surveys of the vast abandoned "apartment house" of Pueblo Bonito there. Extensive excavations followed from 1921 through 1927.

Today the ruins stand as a broken pile of terraced homes dug from under thousands of tons of earth, stone and sand. A maze of rooms revealed the record of the past in earthenware vessels, agricultural tools, ornaments and ceremonial paraphernalia, some displaying great beauty of form and decoration. No written material was found.

Pueblo Bonito originated in the ninth or early tenth century as a cluster of rudely built masonry houses. Newcomers, presumably from the north, joined the older farm settlers near the mid-eleventh century.

These immigrants were cul-

turally more advanced. They took over management of the community without destroying the old inhabitants. They possessed progressive architectural ideas and completely surrounded the first village in their initial building program. Twice thereafter they unhesitatingly razed their own and neighboring houses to make way for new structures. They made the pueblo nearly impregnable and added third and fourth stories to some dwellings.

Differences between the two peoples are evident in many ways," Mr. Judd says. "The one group was old-fashioned, unchanging; the other, alert and progressive. Each had its preferences in architecture; each had its favored shapes for kitchen utensils."

"Old Bonitian houses were built of sandstone slabs as wide as the wall was thick. Quantities of mud were required to bed the slabs evenly. In contrast, late Bonitian architecture consists of a core of rubble and adobe faced on both sides by neatly laid stonework."

The original settlers stayed longer at Pueblo Bonito. When the farm soil deteriorated the eleventh-century immigrants, used to a higher standard of living, left for greener pastures. What finally became of them, or of the Old Bonitians, remains a mystery.

Hen & Rooster Yard Ornament

Two delightful characters are these clever yard ornaments. The hen is bedecked in her best dress and most becoming hat while the rooster sports his striped trousers and tails. They can be used with or without signs, as shown in illustration. A real eye stopper! C3363. Hen 20c C3364. Rooster 20c

WRONG PLACE TAPPED Indianapolis, Ind.—A man, who had just bought a bottle of whisky and slipped it into his overcoat pocket, stopped at a downtown corner to talk to a policeman. The officer gave him a friendly tap with his night stick. It broke the bottle.

Protect Your Linoleum LINOLEUM, asphalt or plastic tiles are excellent floor coverings, but their life and appearance depend a good deal on what's underneath. Oftentimes this is a finished, wood floor which has grown rough and unsightly. It might be, instead, just the rough flooring.

In any case, it's a good idea to have a smooth surface for the new floor covering. Many applicators recommend and use Masonite Underlayment because of its smooth-

ness, even thickness and low cost. The floor covering will look better and wear longer because of the underlayment.

Unless they are covered, uneven boards very likely will begin to "mirror" right through the floor covering, and when that happens you may be sure that the boards are wearing through and the surface will be broken before long.

Masonite Underlayment comes in 4 x 4 or 4 x 3-foot sizes and is available at lumber yards. It's approximately 1/4" thick—215 inches, to be exact. Directions for its application come right with the bundles, or full details may be obtained free by writing the Home Service Bureau, Suite 2037, 111 West Washington St., Chicago 2, Ill.

ANSWER THE CALL—Your Red Cross supplies 40 per cent of the blood used in hospitals, needs an estimated \$14,287,000 to finance the program this year. Join and serve during March.

HERE'S HOW...

MAKE A BIRD FEEDER
 This feeder makes an attractive lawn decoration. Add the bottom, beveling it to fit between the sides. Then add the perch supports; insert the dowels, securing them with 3/8-inch brads. Remove the temporary top, and join the top pieces with 1 1/2-inch butt hinges. Insert glass, and add the top, nailing one piece to the ends. Mount the feeder, with 3-inch wood screws, to a 2 by 4-inch treated or decay resistant post.

STRICTLY BUSINESS

"I'll have that letter pretty soon, Mr. Birdog — I've located the file cabinets!"

Behind The Scenes in American Business

By Reynolds Knight

"Households and Families, by Type: 1947 to 1954" is the snappy title of a just-issued bulletin of the Census Bureau. The style of its five pages throughout has about the same amount of zing as the title.

Even so, the bulletin will capture the attention of those who take a long-run view of the country's industrial development. It traces two profound changes:

A. The urge to get married and start families, which gripped the nation so firmly between 1940 and 1947, has waned a little. The increase in husband-wife households was 577,000 a year in the earlier period. Between 1950 and 1954, it declined to 441,000. As the Bureau observes, 67 per cent of the adult population consisted of husbands and wives in 1949, compared with 60 per cent in 1940; the rate of new-family formation had waned. In April, 1954, the Bureau calculates, there were 35.8 million husband-wife households.

B. The rush to the country continues. Rural non-farm families increased from 7.9 million to 9 million in four years, a rise of 13.9 per cent, while urban families rose from 21.7 million to 23.1 million, or 6.5 per cent. Considering that the Bureau regards as urban any town of 2500 or more persons, it is plain that we have just begun to grapple with the problems of suburban schools, roads, etc.

TECHNOLOGICAL GAIN — A self-spacing feature which expedites installation of ceramic wall tile has been put into production by leading manufacturers of such tile throughout the United States. Under the new process, all tiles are made with small bars or studs on each edge, to provide a joint of 1/32 or 1/16 inch between them.

This eliminates the necessity for the tile-setter to provide this space. Clay wall tile in bathrooms and kitchens goes into place faster, and the final work has more uniform joints.

Built-in space-bars are the second major step of the clay tile industry in recent years to reduce the time needed for installing ceramic tile, thereby lowering cost to the consumer. The first was adhesive installation, which permits ceramic wall and floor tile to be put in place over any existing surface that is in proper condition. This reduces remodeling cost and disorder, and is also used in new dry-wall homes.

THINGS TO COME—You can now buy the moppets a "Sky Zoo," projecting the mythological animals of the constellations on the ceiling to help identify their places in the heavens. . . A single shaker for salt AND pepper which comes out. . . A portable air freshener operates by generating ozone to dissipate organic odors. . . A plastic pushbutton dispenser for the kitchen does out exactly one level teaspoonful per push.

BAROMETER RISING — More and more, as anyone can see in the super market or the department store, the person who buys merchandise in this country buys a bit of paperboard along with it. That is why this form of packaging is an excellent indicator of the state of the nation's business.

All during 1954 paperboard mills ran at 89 per cent of capacity. They only attained this level by a strong upsurge in the Christmas shopping season.

Now, mills report, they are humming along at a 94 per cent rate. What makes this better is that some paperboard capacity was installed last year, so the higher percentage is on a higher base. New orders, as February began, were at the highest level since November, 1953.

BITS O' BUSINESS — Housing starts in January set a new high for the month, at 88,000. . . Steel output last week was estimated at 2,129,000 tons. . . Auto production in the February 7 week was the highest in history. . . Hearings begin today on a bill for \$1.6 billion of Federal highway aid per year for the next five years.

Easy The knife thrower in a carnival touring the country had imbibed too freely and had injured his assistant. However he promptly found another target for his hurling cutlery—Lazy Luke, a local store porch sitter. "You're plumb crazy—takin' that job, Luke," said an acquaintance.

"Why?"—drawled the loafer. "Oh, I've got to stand up durin' the act, all right, but the gent throwin' the knives does all the work."

Don't neglect an open cut or burn or wound from a knife, cleaver or other utensil.

FOOD... through the ages...

"JIM BO" IT SWIMS

JIM BO—the most sensational invention in the history of fishing—the artificial minnow that swims no more live bait to buy. This is the lure sensation of the 20th century.

IT SWIMS—no springs, uses no fuel, it swims as long as you leave it in the water. Swims by unique process of balance and gravity. Fish any desired depth—in lake, stream, gulf, bay. Any fish that will strike a minnow will strike **JIM BO**. This is no gadget. Looks and swims like a live minnow.

This is the lure of all lures—beautiful silver leaf plastic. Buy one for your friends also. Satisfaction guaranteed. Send \$1.00 only, for each lure. Send check or cash. We pay postage. Sold by mail only. **J & R TACKLE CO.** P.O. Box 741. Large Fla.

the evening the ladies attended the card party held at the Winnebago Lutheran academy.

Mr. and Mrs. Geo. H. Meyer called on Mr. and Mrs. John Bowser at Sheboygan Falls Monday afternoon.

Mr. and Mrs. Frank Klostermann attended the L. & M. card party at Barton Saturday night.

Mr. and Mrs. Leo Bowen of Plymouth and Mrs. Frank Bowen spent Saturday afternoon at Fond du Lac.

On Saturday afternoon Mr. and Mrs. Frank Klostermann, Sr. and Mrs. Emma Linda of Milwaukee visited Mr. and Mrs. Frank Klostermann, Jr.

Mr. and Mrs. George H. Meyer and Edith were dinner guests at the home of Simon Lennartz and daughter Evelyn in Milwaukee on Sunday.

Miss Kolleen Klostermann spent the week end visiting her parents

4-H Club News

KETTLE MORaine 4-H CLUB
The meeting of the Kettle Moraine 4-H club was held at Gage school.

We received many compliments on our window display at L. Rosenheimer's store, in which we were observing National 4-H Week.

We wish to thank the committee in charge and also Rosenheimer's for the use of their show window.

The Talent Nite program on March 29 will be held at Fond du Lac and those of our club taking part and also others are asked to

come to practice March 25 at 8 o'clock at Gage school.

We are proceeding with our plans for a dance to be held at the Opera House in April.

Demonstrations were given by Janice Bartelt on "How to Make a Scarf with Fringes;" Billy Heberer, "How to Make Egg Shell Tulle;" Myron Heberer, "How to Plant a Tree;" and Norman Heberer gave a talk on dairy cows.

Next meeting will be held April 4 at Gage school.

Refreshments were served by Dixie Blumer and Delores Ludwig.

CARD OF THANKS

Our heartfelt thanks are extended to our relatives and friends for their kindness and sympathy shown us in our bereavement, the sickness and sad loss of our beloved little son Thomas. We are especially grateful to Rev. Kanies, the donors of floral and memorial tributes, and all who showed respect in any way.

Mr. and Mrs. Arthur Buss

NOW ON DISPLAY! New Chevrolet Task-Force Trucks!

It's the largest and finest fleet of trucks ever built by the nation's No. 1 truck builder. Whatever your task or trade, there's a new Chevrolet truck to make or save you money on the job. Come and look 'em over!

Now Chevrolet introduces "Work Styling"—an exclusive development in truck design. Plus new engines—new capacities—new Overdrive and Power Steering—new features and advantages throughout!

Here's what happens when America's leading truck builder pulls out all the stops! Here are trucks that are new from the drawing board out!

New styling in trucks
Fleet, functional styling that fits your job! For the first time in any truck line, two distinctly different styling treat-

ments are offered—one in light- and medium-duty models, another in heavy-duty. Your handsome new Chevrolet truck will be a profitable advertisement-on-wheels for you and your business!

A new outlook for the driver
Truck driving was never like this! The new Flite-Ride cab is everything a

driver could wish for, from its big Sweep-Sight windshield to its concealed Safety Step that keeps clear of mud or snow! The new instrument panel and controls are the latest word in truck driving convenience!

Six new "high-voltage" engines
With a new 12-volt electrical system for quicker, surer cold-weather starting and increased generator capacity! Plus more efficient cooling and lubrication systems, an improved fuel system, and completely redesigned engine mountings.

And much more that's new
Like the smoother, load-steady ride... new High-Level ventilation... tubeless tires, standard on 1/2-ton models... Power Brakes* for all models, standard in 2-ton models... new 18,000 lb. max. G.V.W. in 2-ton models. And there's a new choice of transmissions, including new Overdrive* and Hydra-Matic*. New Power Steering* for all models. Come in and see the newest things in trucks!

*Optional at extra cost. Overdrive available on 1/2-ton models, Hydra-Matic on 1/2-, 3/4- and 1-ton models.
