Businessmen Plan Farm-City Day Mar. 21, Extra Surprise Bonuses on Friday Nights

Alice in Dairyland, Guest Speakers to Attend Event Here

The Kewaskum Business association monthly meeting was held last week with approximately 30 members present. The secretary reported that the association's membership now totals 53 paid-up members.

The group formulated plans for a Farm-City Day to be held on Saturday, Mar. 21 in the new high school. This very informative and entertaining program will be conducted in co-operation with the local F.F.A. chapter headed by Bernard Murray, high school agriculture instructor; Maurice Hovland, county agent, and the Kewaskum Business association.

Two guest speakers from the University of Wisconsin have been engaged for the program and also in attendance will be the 1959 Alice in Dairyland, Miss Barbara Haslow. A committee was appointed to work with the F.F.A. and county agent to further make this one of the most outstanding projects to affect both the rural and village population this year.

The members also voted to offer one or two surprise bonuses each Friday night in addition to the regular big bonus. Some Friday nights there will be two extra surprise bonuses, sometimes one, and on others there may be only the regular one. The amount of these extra bonuses will also be a surprise. It may be \$5.00, \$10.00, \$25.00, etc.

Last Friday night two surprise bonuses were offered besides the big \$75.00 one. The name of Orin Boettcher, R. 3, West Bend, was selected for the \$75 but he was not present. The name selected for the first \$10 surprise bonus was Arnold Frost, R. 2, Kewaskum. He was present and collected the amount. The one selected for the second \$5 surprise was August Bilgo, Jr., Kewaskum, who was not present. Because the winner was not present last week the regular bonus tonight will jump from \$75 to a big \$100 one.

Dick Edwards reported that membership decals for all the business places and vehicles were in the process of being made up and will be ready for distribution within the next few weeks.

NATIONAL AUTHORITY ON SELLING SPEAKS TO 100 EXECUTIVES

L. W. (Red) Flieman, vice-president of Regal Ware, Inc., Kewaskum, addressed 100 executives in Chicago at a Sales & Distribution Seminar sponsored by National Premium Sales executives on Jan. 15. Flieman is a past president of the NPSE, and a nationally recognized authority on direct selling.

An increase of 7 to 8 percent in the number of companies selling direct to American homes during the past year was reported by Flieman, who spoke in part:

"A terrific growth began in this field immediately after World War II, but it is still continuing at a good pace, with many specialized direct-selling organizations entering the business.

"By-products of this increased activity," Flieman declared, "have been a sharp rise in the number of companies catering to the specialized distributors and installment firms who call on the housewife in her home—and a distinct new air or respectability for direct selling itself."

Flieman also told the seminar meeting that "direct selling has really come into its own, and will continue to show increases. It is a basic function of our free-enterprise system, giving the American consumer an opportunity to buy a wider range of merchandise in the most convenient way.

Improved merchandising techniques for keeping up with future expansion of America's economy and living standards were explored by the 100 executives at the all day seminar. Representing more than 30 different industries, the executives gave particular attention to ways of integrating premium promotions and related sales methods into a manufacturer's total marketing program.

Lawrence W. Bell, publisher of Premium Practice magazine, was director of the seminar. Participating executives heard five experts on different phases of merchandising, and then met in separate groups for round-table discussions of specific marketing problems. Featured speaker was J. B. (Kip) Anger, merchandising manager of Zenith Radio Corp.

T. W. White, vice-president of Club Aluminum Products Co., spoke on trading stamps; L. W. Flieman of Regal Ware on direct selling; Raymond L. Icely vice-president of Wilson Sporting Goods Co. on salesmen's incentives, and E. G. Bentley, president of E. G. Bentley Co. on the premium coupon plan.

Moderators who conducted the group sessions were Arthur F. Brault, premium sales manager of Amity Leather products Co., West Bend, and president of NPSE; James G. Coakley, vice-president of Washington Forge Inc.; Robert F. Drapper, vice-president of National Presto Industries Inc.; Larry Prigozen, vice-president of Helbros Watch Co.; W. B. Ray Zelmet is at present employed at Neenah.

Mrs. Olga Muenk and daughter are now occupying the first flat of the Joe Reindl residence, having moved Saturday.

Joe Eberle sold three of his valuable beagle hounds. One was shipped to Woonsocket, Rhode Island, one to New York City and the third to Pittsfield, Mass.

Oscar Zimmermann, 16, who has been employed by Alex Walschewske on Mrs. Chas. Geidel farm at the north village limits, had a miraculous escape from being cut to pieces with a circle saw attached to a saw rig. He was, however, badly cut on the back side of his right leg from hip to below the knee and is convalescing at the Milwaukee hospital. Walschewske and Zimmermann were preparing to saw wood and both assisted in turning the flywheel of the engine to start same. Not realizing that the circle saw was in motion, Oscar accidentally backed onto same. The only thing that saved the boy's life is that he was thrown about 20 feet away.

Fire Saturday morning destroyed the Boltonville cheese factory. The fire was first noticed by Jack Schoetz when the flames had already found their way through the roof. Boltonville firemen responded but nothing could be done as the flames spread rapidly. Aid was received from the Beechwood, Fillmore, Waubeka and Batavia fire departments. The building was destroyed and attention was given to adjacent buildings. The loss will exceed \$2,000.

Two more civil works projects were started in the village, one being that of widening the shoulder on the east side of Hwy. 55 alongside the Herbert Backhaus property. Large sized stones and rocks are being hauled to build a side wall and the project will require considerable filling. The second project is plastering four rooms in the high school, which work is in charge of John Kohn and Hugo Vorpahl. Village officials have another large project in view, which will give many additional men work. The good effect of having many men on the CWA payroll has brought smiles to the faces of the men employed. Business is im-

proved, the spirit of work has returned and eventually a death blow will be dealt to "old man depression." The county CWA payroll for the week totaled \$15,113.98, with 997 men employed.

Lester Casper and William Schaefer motored to Madison Saturday where they witnessed the Marquette - Wisconsin basketball game.

Deputy Sheriff George Kippenhan was at West Bend where he attended a tear gas demonstration given to all officials of the sheriff's staff.

John Fellenz, residing north of St. Michaels, was kicked by a cow and the blow received was so forcible that the ligaments of the left leg were torn.

RALPH KIES CHAIRMAN OF COUNTY EASTER SEAL SALE

TAX FACTS #2 Don't Pay Tax On Non-Taxable Items

(This is one of a series of articles on federal income tax filing. The articles are based on information provided by the American Institute of Certified Public Accountants and the Wisconsin Society of Certified Public Accountants, in cooperation with the Internal Revenue Service.)

YOU may think that listing your income is the easiest part of preparing a tax return. Actually, according to the Internal Revenue Service, this is where taxpayers make the greatest number of errors.

Not all of the money that may have come to you during 1958 needs to be reported on your tax form. For example, don't report:

(1) "Dividends" received on an insurance policy. They are considered merely a refund of part of the premium you paid.

(2) Social Security benefits, Railroad Retirement Act benefits, or payments received under Workmen's Compensation laws.

(3) Property or cash gifts received from other people, although the giver may have to pay a gift tax. Tips and other compensation for services must be reported, however.

(4) Inheritances and bequests. The estate may be taxed, but not the recipient.

If you were injured and received damages, this is not considered taxable income and it makes no difference whether your damages were awarded by a court or settled out of court.

When listing income you can also forget about most government benefits to veterans and their families. Dividends paid on veteran's Government insurance is not considered taxable income, but non-disability retirement pay and the interest on terminal leave bonds must be included.

Sick Pay Benefits
 If you were absent from work due to injury or sickness and received payments from your employer or his insurance company, these payments are non-taxable within these two limitations:

First, the maximum amount is \$100 per week, plus any amounts which came from your own contribution to the plan.

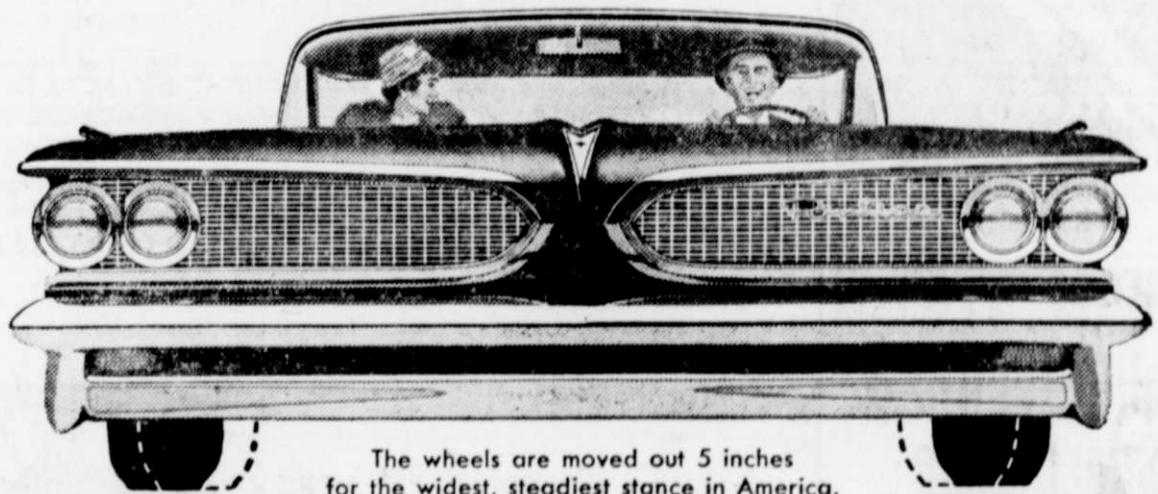

Second, unless the absence was for sickness during which you were hospitalized for one day or for a personal injury, the payments are not tax free until after the first 7 calendar days of absence.

If these payments are included in the wages shown on your withholding slips, you should subtract the proper amount from your income in the place provided on the first page of the tax return (Form 1040). Attach an explanation as described in the official instruction book. You are entitled to exclude this amount even if you do not itemize deductions.

Rules on Prizes
 There is an interesting rule on prizes. Generally all prizes and awards are taxable. However, prizes awarded for scientific, literary or other achievements without any action by you to bring about your selection, are not considered as taxable income to you. Most scholarships granted to college students are not taxable, and the value of the award does not have to be included in the student's contribution to his support.

The official instructions contain a list of the types of income which should or should not be included in your tax return. It is important to check this list carefully.

Winter Wonderland?

That's what we have with approximately 12 inches of snow on the level in the past 2 weeks as we are "enjoying" one of the most severe winters in years. It ain't only the snow but we have already had 25 days of below zero weather with plenty of winter remaining.

Looking at the main streets one wouldn't think we had that much snow because village crews were busy most of the week hauling the white stuff away. They worked overtime and even nights to clear the streets. The snow was dumped on the village park property on the east side of the river near the bridge but that's just about full, so no more heavy snows, please.

Last week we had the biggest snowstorm of the winter one day and the coldest weather the next. Sure are lucky that we live here and can be right on the scene for such pleasantries. There was so much snow that one organization called off their tobaggan party. First time we ever heard of a tobaggan party being cancelled by snow. Another club called off their dachshund meeting. No use mentioning this, however, because we don't think many dachshunds read the paper anyway.

Did you see that lovely full moon Friday morning at about 5 a. m. with the temperature reading 18 degrees below zero (according to the one we read)? It was beautiful if you were inside looking out.

Don't imagine there were many outside looking in at that time. One ice fisherman reported that it was so cold while he was digging a hole with the ice bar that by the time he got to the bottom of the hole the top was froze solid again and he had to start over.

Cheers, only a few more weeks before the Braves start spring training. We'll see you if we don't freeze to death or get stuck in the snow in the meantime. It's tough sledding — too deep.

Forecast at this writing: Snow

—Yes it's Miller's at Kewaskum for quality home furnishings at most reasonable prices. Open daily until 6, Fridays until 9 p. m. Free deliveries.

READ THIS CAREFULLY

it will help you be a winner

This contest is fun for the whole family. Besides, you may win a major electric appliance that will help you live better electrically. So, read this information carefully and then go ahead and complete the three easy steps to enter this contest.

Backbone of the All-Electric kitchen and laundry is an electric wiring system that will assure Full Housepower. For Full Housepower you need a big enough service entrance and enough circuits, outlets, and switches so that you can use as many appliances and lights as you want at any one time.

This requires a service entrance of at least 100 amperes and branch circuits in most homes as follows:

- Six to eight 15-ampere 120-v lighting circuits.
- Two 20-ampere 120-v appliance circuits in the kitchen.
- One 20-ampere 120-v appliance circuit in the basement.

PLUS individual 240-v circuits for major appliances such as range, dryer, water heater, and air conditioning.

Convenience outlets should be placed so that you never have to use unsightly extension cords or move furniture to plug in lamps and appliances. In general, there should be a convenience outlet for every six linear feet of usable wall space.

With wiring for Full Housepower, you can connect and use all the electric equipment that you want in your kitchen and laundry.

An All-Electric kitchen and laundry is easy to plan because electric appliances can be placed anywhere for the greatest convenience and efficiency. This is very important, especially in deciding the location of your cooking equipment, your electric clothes dryer, and electric water heater.

These appliances use electric heat, and electric heat is pure energy. It is flameless and therefore does not give off any products of combustion. Electric heat adds no impurities to the air and therefore no vents for removing fumes are required.

Nature provides pure, fresh, clean air—rich in oxygen that is important to health and growth. Electric heat is the only type of heat that does not consume oxygen of the surrounding air.

Appliances that use electric heat have many advantages. Because electric heat is pure, everything in your home stays cleaner. Your home has a fresher atmosphere because there are no fumes or fuel odors.

HERE'S ALL YOU DO!

1. See the spaces marked "All-Electric Kitchen" and "All-Electric Laundry." In the "All-Electric Kitchen" space write the names of 15 electric appliances that you consider most important in an "All-Electric Kitchen." In the "All-Electric Laundry" space write the names of 5 electric appliances that you consider most important in the "All-Electric Laundry."

You can enter this contest as many times as you wish. Additional entry blanks are available at your appliance dealer. While you are there, take time to look at the many electric appliances on display. You will get additional ideas for appliances to include in your lists.

2. Answer the quiz questions. Below are 15 questions. Information contained in this advertisement will help you answer the questions. Note that there are 3 answers to each question. All you have to do is put an "X" on the line

opposite each answer you believe to be correct. Be sure to mark all the right answers to each question. In each case there is at least one right answer, and in some cases, all 3 answers are correct; so be careful.

EXAMPLE: Because electric appliances can be placed anywhere in the house—

- they make home planning easier.
- they can be placed in the most convenient locations.
- work is saved.

3. Complete in 25 words or less the statement in the entry blank, "I want to live the All-Electric way because..."

Fill in your name and address (PLEASE PRINT) Cut out the entry blank on the dotted line and mail it to "REDDY KILOWATT," Wisconsin Electric Power Company, Milwaukee 1, Wisconsin.

Indians Tip Germantown For 2nd in Row, 53-46; Move Out of Basement

The Kewaskum Indians, a peaceful tribe all season, are back on the warpath again. After losing their first four games they have now won two in succession and moved out of the Scenic Moraine conference basement. Washington High of Germantown, whom the Indians defeated Friday night, 53-46, succeeded them as last place holders. Kewaskum upset league leading Campbellsport the week before.

In the opening contest of the season played at Germantown, the Warhawks slipped past the Indians, 38-36, but Kewaskum avenged this setback on the home floor by 8 points. After a close opening period Coach Walt Bade's boys held a 10-8 lead. They then outscored Washington High, 20-12, to take a sizable 10-point, 30-20 advantage at the intermission. Scoring 12 points to the Warhawks' 10, Kewaskum increased the lead to 42-30 going into the final stanza. Germantown rallied some, scoring 16 points to the Indians' 11, but it wasn't enough to close the gap.

Leading Kewaskum to victory and copping top honors was veteran Butch Rodenkirch with 21 points, followed by Kon Sadownikow, a sophomore, with 11 and Danny Coulter with 8. The big point men for Germantown were forwards Strack with 20 points and Schwartz with 14.

Tonight (Friday) the Indians take a trip to North Fondy to take on the second place Orioles (4-2). Fondy was the winner in the first meeting between the two and Kewaskum has a big job on its hands to reverse the outcome.

Hospital News

Lakes Cagers Nosed Out at Slinger, 72-70

PLAY THIENSVILLE, FIRST HALF CHAMPS, HERE SATURDAY NIGHT

The Kewaskum Chevrolets hopes of copping the second half title in the Land o' Lakes loop received a jolt Sunday night when the team was shaded at Slinger, 72-70 in a tight battle. The loss came as no surprise because Slinger and the Chevs engaged in a very close game in their first meeting here.

Thiensville's undefeated first half champs lost their second tilt in a row over the week end when they were upset by Cedarburg to drop them into a tie for the cellar. Slinger's win gave them a 2-0 record and placed them in a tie for first place with Horicon, also unbeaten this half.

The contest at Slinger was a complete reversal of the one played here earlier. In the first meeting Slinger was ahead for three quarters but the Chevs came from behind in the final period to win. At Slinger Sunday Kewaskum was ahead the first three quarters and Slinger came from behind to cop. The Chevs led, 17-14, at the quarter, 36-31 at the half, and by 8 points, 53-46, at the close of the third stanza after outscoring Slinger in every period and adding to their lead. Then Kewaskum slipped

in the final quarter, scoring 17 points while Slinger got hot with 26, enough to overcome the 8 point deficit and win by 2.

High scorer was Slinger's Ciracks with 21 points, with mates Renzaglia and Dondlinger chipping in 15 and 12 respectively. Augie Bilgo was the Chevs' top man with 20, while most of the rest of the point making was evenly divided between Bob Stenman with 12, Ken Felix with 11, and George Hanrahan and Frank Krueger, 10 a-piece. Big Don Meisenheimer was held to 3 points and this hurt.

This Saturday night on the home court the Chevs will be out to avenge their only defeat in the first half when they get another crack at Thiensville's titlists. Kewaskum

was nosed out at Thiensville, 70-65, after being ahead at the end of the third quarter. This heartbreaker cost the team the first half championship and the team don't intend to let it happen again.

CHEESE TOMATO RAREBIT WITH SHRIMP

Here's an easy and new way to make that favorite cheese dish — Cheese Rarebit. In this recipe condensed tomato soup and shredded Cheddar cheese are heated along with mustard and Worcestershire sauce. The tomato flavor combines so deliciously with the cheese and is the flavor secret. The cheese-tomato rarebit is served over low cost, easily cooked rice and garnished with hot shrimp.

CHEESE-TOMATO RAREBIT WITH SHRIMP

- (6 servings)
 - 1 cup uncooked white rice
 - 1 teaspoon salt
 - 2 cups water
 - 1 10½-oz. can condensed tomato soup
 - ½ cup milk
 - 1 lb. Cheddar cheese, grated
 - 1 teaspoon salt
 - 1 teaspoon prepared mustard
 - 1 teaspoon Worcestershire sauce
 - ¼ teaspoon paprika
 - About 1 lb. hot cooked shrimp (cleaned and deveined)
- Put the rice, 1 teaspoon salt and water in a 2-quart saucepan. Bring to a vigorous boil. Turn the

heat as low as possible. Cover with a lid and simmer over this low heat 14 minutes. Remove the saucepan from the heat but leave the lid on 10 minutes. While the rice cooks, heat the tomato soup and milk in a saucepan over a

low heat. Add the cheese, salt, mustard, Worcestershire sauce and paprika. Stir until the cheese melts. Serve the cheese sauce over the rice and arrange the hot shrimp over the cheese-tomato sauce.
