## 2 Local Students Win 'A' Ratings in State Forensic Program

W. PETERSEN, R. GROH FIRST AS SCHOOL COMPLETES SUCCESSFUL YEAR

Three Kewaskum Community High school students competed in the State Forensic program at Madison on Saturday, April 14, and two of them received "A" ratings in two of the nine different speaking events. Gold medals were awarded to more than 550 winners in the largest annual State Speech contest ever held by the Wisconsin High School Forensic association.

Representing 350 high schools, the 1,300 finalists through state-wide eliminations begun last February, completed in all-day sessions held throughout the University of Wisconsin campus. The 60 judges, selected from the faculties of the UW, UW-Milwaukee, and Wisconsin state colleges, rated participants "A" (gold medal) and "B" or "C" (certificates of achievement).

Walborg Pettersen, Kewaskum exchange student from Norway, received an "A" rating in the division of four minute speech. Her topic was "The Importance of An AFS Program."

The most difficult category in the entire forensic program is the division of extemporaneous speaking. One hour before the student speaks, he draws a topic. This can be from any state, national or international question which confronts the world today. He then has one hour to prepare his speech. Ralph Albrecht received a "B" rating on his speech, "Urban Affairs and the United States." Richard Groh, who won an "A" rating, spoke on "Latin American Relations to the United States."

Mrs. James Nelson accompanied the students to Madison.

In order to be eligible for competing in the state program, a student must have received an "A" rating in the local, league and district contest. The following local students competed in the Scenic Moraine conference forensic contest which this year was held in Kewaskum on Mar. 3:

## KEWASKUM YOUTH, 7, IS KILLED INSTANTLY WHEN STRUCK BY TRAIN ON RAILROAD TRESTLE HERE

Funeral directors Edw. E. "Pat" and Joseph Miller and members of the Kewaskum rescue squad are shown in the top picture as they removed the body of Danny Wietor, 7, from the North Western railroad tracks at the south end of the village after Sunday's tragic accident which claimed his life when he was struck by a fast passenger train as he attempted to flee from a trestle.

The lower photo, left to right, shows Matt Goeden, Jr., county coroner; funeral director Joe Miller and Chief of Police Roland Pledl investigating at the spot on the trestle where the little boy was struck by the train. The camera is facing south over the trestle on which Danny was trapped.

## Daniel Wietor Is Victim of Mishap Sunday Morning

SEVERAL PLAYMATES JUMP TO SAFETY TO ESCAPE SPEEDING TRAIN

Daniel Joseph Wietor, seven-year-old son of Mr. and Mrs. Cyril Wietor of 1163 Park View dr. in Kewaskum, was killed instantly at about 11:10 a. m. Sunday, April 15, when he was struck by a fast, northbound North Western passenger train on a trestle over a creek at the southern limits of the village.

Daniel was the youngest of three sons of the Wietors, who live less than a block away, just across a field from the scene of the tragedy. The boy was a first grade pupil at Holy Trinity school.

The accident occurred while Danny was playing along the railroad tracks with a group of about six young companions. The group apparently was crossing the trestle or playing on it when the northbound train, No. 239, suddenly came around a curve about 1,500 feet to the south of the trestle.

Little Daniel's companions ran back off or jumped off the near south end of the trestle to safety but Danny apparently became confused and ran in a northerly direction, across the trestle and away from the train in an attempt to flee from the rapidly approaching streamliner. His companions shouted futile warnings for him to leap from the trestle, it was reported.

Danny almost made it but the train overtook and struck him about 12 feet from the north end of the trestle. Witnesses of the mishap said the boy may have fallen or got his foot caught while attempting to escape the oncoming train.

The youth was dragged about 128 feet by the train. Although the accident occurred in the town of Kewaskum, the boy's body was dragged to a point within the village limits. The trestle, which is 140 feet long, is an "open type" bridge with spacing between the railroad ties as it crosses over the creek at the south end of town.

Because of a curve in the right-of-way, the vision of the train engineer, Harold Wegner of Fond du Lac, was obstructed until approximately 1,500 feet from the accident scene. Wegner was unable to bring his train to a stop in time to avoid the tragedy.

Following an investigation, Washington county coroner Matt Goeden, Jr. pronounced the death accidental. Chief of Police Roland Pledl and members of the fire department squad were present at the scene to aid in the investigation and give assistance.

Eye witnesses to the tragedy included Ralph McElhatton, 46, Madison, and James Dorn, 15, Kewaskum.

Daniel Joseph Wietor was born on Mar. 25, 1955, at St. Joseph's

hospital, West Bend. Surviving besides his parents are two brothers, Richard Lee and David Frank Wietor, both at home; his maternal grandparents, Mr. and Mrs. Dave Hanrahan, R. 2, Kewaskum; uncles, aunts, and many other relatives.

Friends called at Miller's Funeral home after 3 p. m. Tuesday. The casket was closed. Funeral services were held at 10 a. m. Wednesday at Holy Trinity Catholic church, the Rev. J. T. Budde officiating. Burial was in the new parish cemetery.

### TWO GRASS FIRE CALLS ANSWERED BY FIREMEN

Kewaskum firemen answered a grass fire call at 7 p. m. last Friday on a lot owned by Honeck Chevrolet, Inc. on Roseland drive near the southwest village limits. It is believed the blaze was started by playing children. A member of the fire department, who lives in the neighborhood, had the fire out when firemen arrived.

On Thursday afternoon of this week the firemen extinguished a grass fire near the town of Kewaskum dump off Kettle Moraine drive, about two miles southeast

of the village. Cause of the fire, which spread over a sizable area in a brisk wind, was unknown. There was no damage except for the burned grass.

### IDEAS THAT MAY HELP YOU WIN

Here's fun for the whole family. Read the contest rules and enter today. Perhaps these ideas will help you win:

Reddy Kilowatt says, "Maybe the reason folks like the things I do for them so much is that everybody loves a bargain — and electricity is one of today's very best bargains."

That's right, Reddy. In the past 10 years, for example, the cost-of-living has gone up more than 15 per cent — but *not* the cost of electricity. During that time, the average cost per kilowatt-hour of electricity used in the homes we serve has actually gone *down*! That's why folks can afford to use so much more electricity than they did 10 years ago. In 1961, the average annual use of electricity by the homes we serve was almost twice what it was 10 years ago.

You get big values in convenience, cleanliness, comfort, economy and safety from every dollar you spend for electricity. Reddy Kilowatt is a busy little guy. He helps you protect the health and safety of every member of your family—he preserves and cooks your food, makes housework easier, provides daily bargains in comfort, good light and entertainment. He cools your home in the summer and now he heats it in the winter. In fact, the popularity of flameless electric heating is gaining steadily. It is the choice of many modern home builders because it has so many exclusive advantages. For example, it is the very cleanest of all heat. Since there is no flame, there are no products of combustion — no fuel grime to dirty up walls, draperies and furnishings. Electricity just can't make dirt! With electric heat, each room can have its own thermostat. You maintain the desired temperature in any room without affecting the rest of the house. You will find, too, that electric heat costs less than most people think. Flameless electric heating is the heat of the future — but it's here *today*!

As you check the list of electric appliances in the Contest Entry Blank, just think of the many ways in which Reddy Kilowatt helps to make life better for you and your family. Think how reasonable his daily wages are for doing all these things for you day in and day out. You'll soon realize what a big value electricity really is. You'll be ready to write a prize-winning 25-word statement about the VALUE of electricity. Good luck!
