Regal Ware Purchases Buckeye Division of Mardigian Corp. in Ohio

New Factory Is Aid To Regal; Personnel Will Remain Same

PROPERTIES AND BUSINESS PURCHASED; CO. NAMED BUCKEYE WARE, INC.

Regal Ware, Inc. and Mardigian Corporation have reached an agreement on the acquisition by Regal Ware, Inc. of the properties and business of the Buckeye Division at Wooster, Ohio, it was announced Thursday by Mr. J. O. Reigle, president of Regal Ware, Inc. and Mr. Edward Mardigian, president of Mardigian Corporation.

Mardigian Corporation has established a reputation for quality products. Its tool and die factory in Detroit, Michigan, is the largest independent in the United States and a supplier to major automobile manufacturers. The Buckeye Division, located in Wooster, Ohio, has a fine record of success in the production and marketing of aluminum and stainless steel cookware, small electrical appliances, step stools and other household products.

Regal Ware, Inc., Kewaskum has an outstanding reputation for producing quality aluminum and stainless steel cookware, small electrical appliances, gift ware and specialty items, and a phenomenal record of growth since it was founded in 1945 by Mr. J. O. Reigle.

The new company is being established as a separate and distinct corporation, and will be known as Buckeye Ware, Inc. effective March 31, 1964. The two plants have and will continue to have the same type of operations.

The Buckeye plant will continue to operate with the same personnel it has had in the past, according to Mr. Reigle and Mr. Mardigian. Although Mr. Mardigian will not participate in the management of the corporation, he will remain associated as a stockholder and retain a vital interest in its welfare and growth. His brother, Mr. Armand Mardigian, will remain as vice-president in charge of manufacturing.

Mr. Reigle emphasized that the acquisition of the new factory and facilities in Wooster, Ohio, will be a substantial aid to Regal Ware, Inc. in marketing, manufacturing, warehousing and distribution.

Only 61 Votes Cast Here in Primary Tuesday

Tuesday's state-wide judicial primary election drew one of the lightest votes in years in the village with only 61 voters turning out to cast their ballots. This was expected as the only balloting locally was for justice of the supreme court. Some other cities and villages nominated candidates for local officers and voted on referendum issues.

The vote on the Washington county level was also very poor. The county vote was only 4,684 out of an estimated vote of approximately 17,000 or only about 27 per cent. And 2,492 of these votes were cast in the city of West Bend, also very light in view of the fact that an important bond referendum of almost \$2 million was submitted for a vote and candidates were nominated for office in one ward of that city.

The vote for supreme court justice in the village was carried by Howard Boyle of Beaver Dam by a narrow margin. He polled 27 votes here compared to 24 for Horace W. Wilkie, Madison, the incumbent, and 10 for Harry E. Larsen, Superior. Boyle also carried the county, receiving 1,964 votes compared to 1,322 for Wilkie and 1,217 for Larsen. Wilkie and Boyle were nominated on the state level, with the former being the top vote getter, and will oppose each other for a 10 year term on the state supreme court in the April 7 general election. Larsen was eliminated from the race.

A light vote also resulted in the town of Kewaskum balloting which was done in the Labor Center in the village. A total of 45 votes were cast, which was better than expected in comparison to the village voting. Surprisingly, Boyle ran far ahead of his two opponents in the township balloting. He received 28 votes, while Wilkie and Larsen were given only 10 and 7 respectively.

AREA IS BLANKETED BY NEW SNOWFALL SUNDAY

With residents of this village and area barely dug out from the severe snowstorm of last Wednesday and Thursday which dumped over a foot of snow over the area, another fall of approximately six inches on Sunday afternoon and evening further increased snow removal problems.

Village crews have cleared and hauled most of the snow off the main streets this past week and they are in good shape again. Much of the snow has melted with the mild temperatures this week which reached the low 40's the past couple of days.

My teacher dear, I just can't write

Any kind of poem tonight, I've thought and thought some more

Until my brain is really sore. I'm not a Poe or Whittier I'm just an unknown commoner, I'd really like to write a poem That you'd be proud to show at home.

But now I guess I'll have to say I'm going upstairs and hit the hay.

Goodnight

—By Curtis Romaine

Harold Smith (a sophomore) was so excited when he was on his way to the store to buy his girl friend a present that he drove right into a tree.

The Rev. A. A. Graf, who has been pastor of Salem Reformed church at Wayne for nearly nine years, resigned his pastorate to accept one at Tillamook, Oregon. He will leave with his family next month. Rev. Graf organized the Wayne church band and was a member of the Kewaskum Community Concert band.

Mrs. George Romaine of New Prospect was painfully injured in a mishap at her home when her hand became wedged between the revolving wringers of a washing machine. Ten stitches were required to close the wounds on her mutilated hand. She is the mother of Elwyn Romaine of this village.

One hundred sportsmen gathered at the high school auditorium for the meeting of the new

organized Kewaskum Sportsmen's club to view movies of the state game farm at Poynette. They easily recognized Frank Hopkins, formerly stationed at Mauthe lake, as the man removing pheasant chicks from an incubator. Mr. Polkenhorn, conservation department aid, presented a fine talk about the game farm. Al Reif, local director of the Kettle Moraine state forest, and Bob Lake, county game warden, also spoke a few words. Next week Warden Lake will meet with the club to discuss building, feeding and shelter pens for game birds.

Mr. and Mrs. Otto Dickman of the town of Auburn recently observed their golden wedding anniversary.

50 YEARS AGO

March 8, 1914

John Miller of Batavia, a carpet weaver, brother of August Miller of the town of Kewaskum, passed away due to dropsy of the heart.

United States Deputy Marshal William Rankel of Milwaukee was in the village to subpoena witnesses in the trial against the four alleged yeggmen who attempted to burglarize the post office in this village last July 8. The four, in getting away, stole a team of horses and a rig from Grell & Wollensak, driving to Fond du Lac, where the team and rig were found the next morning. It is supposed that they boarded a train at Fond du Lac and went to Chicago, where, before entering the city, post office inspectors having a clue arrested them. Witnesses from this village were Marshal Brandt, Arthur and Erwin Koeh, Edw. C. Miller, August Bilgo, Jos. Oppenorth, Wm. Brandstetter, Wm. Hess, Alex Klug, Roland Backus, S. Wollensak and A. A. Perschbacher.

COUNTRY COUSINS

Our March 9 meeting was at the home of Mrs. Margie Janssen. We started the evening with a pot luck supper and as usual the selection of foods was varied and delicious. Our hostess served the dessert, a wonderful torte with a German name I couldn't spell, and coffee.

Mrs. Vern Dahlman, president, called the meeting to order. Secretary, Mrs. Sally Reindl, read the minutes of the previous meeting. The treasurer's report, by Mrs. Therese Oelhafen, showed our treasury slowly climbing into a respectful sum. Mrs. Gladys Ramei, health officer, handed out a booklet entitled "Heart Quiz."

Those interested in the trip with the Kewaskum Kitchenettes handed in their names to make reservations. This trip will be on May 6 to Ripon. There were no candidates for center chairman as we felt we were too new a club to be able to represent the area adequately.

Two linen handkerchiefs with tating and a beaded hot plate pad were the items auctioned off. There was no further business so we adjourned to have our project meeting.

Mrs. Ione Schmidt and Mrs. Lucy Lecher handed out slips of paper on which were typed questions about county welfare in Washington county. We each read our question and answered it from the brochure they had brought along from the project meeting at Kewaskum that afternoon. There were a lot of misconceptions about welfare that they cleared up for us. It was a surprise to realize how large the welfare budget for this county was. The leaders told of the many openings of positions in the welfare department. These openings require 6 years of college preparation. Something of the scope of welfare work was explained to us and it really covers individuals from birth to old age.

The next meeting will be on April 8 at the home of our president, Mrs. Vern Dahlman.

REALLOCATION OF VETS' LOAN FUNDS TO PROVIDE COUNTY WITH \$38,289.00

The March 1 reallocation of state veterans housing loan funds will provide Washington county with \$38,289.00 for the next four month period, John R. Moses, director of the Wisconsin Department of Veterans Affairs, announced today. This marks a slight increase over the November, 1963, allocation.

This money is now available and veterans interested in getting a housing loan should contact their local county veterans service officer.

As a result of legislative action last year, an emergency loan fund is now available for the use of those counties which exhaust their fund allocation before the end of June. During the last four month period this amount was adequate to meet the need for loans in counties which ran out of funds.

The next reallocation of housing funds will be made July 1 when the allocated loan funds which are not used will be turned back and redistributed according to the veteran population in each county as determined by the 1960 census.

Appointed Memorial Gifts Co-Ordinator For Heart Ass'n.

MISS DORIS ROGERS WILL ACCEPT GIFTS IN COUNTY

Miss Doris Rogers has been appointed memorial gifts co-ordinator for the Wisconsin Heart association in Washington county, according to Dr. Charles W. Crumpton, Madison, W.H.A. president.

Miss Rogers will accept memorial gifts honoring the memory of a relative or friend who has died of heart disease. She said the memorial contributions, a growing trend in this area, which are periodically sent to the state Heart association office, are used to help find the causes and cures of heart disease through research, professional and public education, and for community service projects such as rheumatic fever clinics.

To make a memorial gift, Miss Rogers said, the donor need only send a contribution and specify the name and address of the bereaved family to whom a memorial card will be sent. The donor will receive an acknowledgement receipt for income tax purposes.

Memorial contributions can be sent to Miss Doris Rogers in care of Courthouse Annex, Box 116, West Bend.

Miss Rogers stated today that four recently deceased residents of the West Bend area have been honored by memorial gifts to the Heart association. As memorial

How to get MORE out of your tax refund

When you get your '63 tax return (Form 1040), take a look at line 23 on the bottom of the page.

It gives you the option of taking your refund in U.S. Savings Bonds instead of a check for the total amount.

There are two big advantages:

1. Taking your refund in Savings Bonds gives you an easy way to hang onto it.
2. When your Bonds mature, your refund becomes 33 1/3% bigger. You get back \$4 for every \$3.

You also get a nice red, white and blue feeling from knowing you're helping your country's future as well as providing for your own.

Think it over when you ask for your refund this year.

Quick facts about Series E Savings Bonds

- You get 33 1/3% more money when they mature
- You can get your money when you need it
- Your Bonds are replaced free if lost, destroyed or stolen
- You can defer the tax on accumulated interest until the Bonds are cashed

Keep freedom in your future with U.S. SAVINGS BONDS

SHOOTING PRESERVES INCREASING IN COUNTY

Shooting preserves are increasing in Washington county. Some are the property of individuals who have purchased farms here, others are on leased lands and operated by clubs. Either way it

closes off the area to anyone except the owner, his guests or the club member. Much of this land is our better game habitat, swamp and marsh land, such as we have in the public hunting grounds.

The man who wishes to hunt in the future should be very kind to his farmer friend, join a club or insist that we have more land for public hunting grounds.

We were unable to obtain the Washington county court house for the annual conservation hearing. It will be held this year at the Moose Lodge.

Annual County Conservation Congress Hearing April 20

Over the years it has been recognized that the number of people attending the conservation congress hearings has been a small segment of the people who fish, hunt and trap. We would like a much greater number at these meetings.

Your conservation congress meeting this year will be Monday, April 20. You are indeed fortunate to have this opportunity to make your recommendations known regarding fishing, hunting and trapping regulations.

Over the years, a large majority of the recommendations of the congress have become official conservation commission regulations.

Each year we get various complaints and suggestions (usually just after the hunting season) relative to the season, the bag limit, the amount of game we have, etc. Your conservation congress hearing is the proper place for these discussions.

Mark your calendar and plan now to attend your conservation congress hearing at 8:00 p. m., Monday, April 20 at Moose lodge. This is on the corner of 18th ave. and Chestnut st, three blocks south of Highway 33 and ten blocks west of Highway 45.

LAST FARM FORUM MEETING

The last formal meeting of the Washington County Farm Forum club will be Tuesday, March 17, at 8:00 p. m., at the Slinger High school. They have just moved into their new building and it has been difficult to schedule outside activities; however, we hope to have this meeting at Slinger. The subject will be soil fertility. Leo Walsh of the University of Wisconsin soils department, will be with us. He will talk about the proper use of fertilizer on crops, and it should be very interesting. We invite everyone to attend.

We also call your attention to the "Materials Handling Field Day" at the Dane county fair grounds on March 18-19-20. Any of the three days you would be able to go would be most enjoyable and profitable. Mostly you will hear about how to handle feeds — that is, moving it from one place to another. These programs are sponsored by the power companies of this area. There is no charge, except for a small fee for your noon lunch. There isn't another place where you will find so much feed handling equipment in one spot.

WILL HOLD BARN TOUR

The Farm Forum club of this county will hold a "barn tour" on Friday afternoon, March 20. Any farmer interested in going should meet at the extension office, on the second floor of the old court house, at 1:30 p. m. We will take about 10 minutes to talk about what we are going to see, then use as many cars as we need and be on our way.

We will be seeing three barns. One is a remodeled barn. One is a new barn which has tilt-up sides that have not previously been

seen in this part of Wisconsin. At this time all that is up are the walls and the roof; there may be more by the 20th. And we will see an extremely well-planned dairy barn that shows many of the features that we like to see.

We invite you to meet at the extension office at 1:30 p. m. Friday, March 20, to go on this tour.

CLUB HEARS SPEAKERS

Last week we heard Elwood Brickbauer and Dwayne Rohweder at the Farm Forum club. Among other things they talked about many of the small grain varieties and forage varieties that we know in this part of the state. One thing we want to call special attention to is what kind of forage you should be planting. If you are buying alfalfa or clover, which one should you buy?

We are especially interested in alfalfa, and we have heard many varieties of it being recommended in Wisconsin today. Yet our university agronomy department still recommends Vernal. The question was asked of Dwayne Rohweder the other night, "How is it that some of the other varieties seem to outyield and outgrow Vernal?" The only answer that Dwayne

gives (and he has worked in this field for many years) is this: "There is no comparison plot in Wisconsin where Vernal is grown alongside other varieties, where Vernal has not been way above all the other varieties in its total production of forage."

When we explored this further with Dwayne, he said that it does yield better, there are more leaves, it does live better, it resists winter injury, it resists wilt, all of which are very common in this part of the state. Therefore, his advice to all farmers at that meeting and to all other farmers in Washington county is that, when all things are considered, there is no variety of alfalfa that is a better one to grow in this part of the state than Vernal alfalfa.

GIRL SCOUT TROOP 72

At our meeting on March 10 Troop 53 treated us with some beautifully decorated cupcakes in honor of the Girl Scouts' 52nd birthday. We talked about the North Star and the compass. We also talked about the centerpieces which we are making for the Legion's social night. One of our patrols the Beatles, presented a skit in honor of their new name. Debra Schlosser, Scribe

Have you ever sat down with yourself and made an honest evaluation of your previous season's garden? It's more satisfactory than making New Year's resolutions, for you get results. Which types of flowers or vegetables grow best for you? Which do you want to grow again and which

not? Where are the places in your garden that need pepping up with colorful blooms? These are the kinds of questions you should ask yourself. Then read the seed catalogs, now arriving, for suggestions to help you have a finer garden this year.

Indians Reach Finals in Regional Tournament at Mayville, Lose to Homestead in Championship Game

Defeat Hamilton in Semi-Finals, Bow to Braveland Champs

The Kewaskum Indians gave a very good account of themselves in WIAA regional tournament play at Mayville the past week by reaching the finals before being eliminated by Homestead, Braveland conference champion, in the championship game Saturday night. The Indians placed second in the tourney and in doing so had to beat schools with larger enrollments.

In sub-regional tournament action last Tuesday Kewaskum blasted Germantown, 89-48, and Hamilton High of Sussex shaded Mayville, 62-60. The two winners then advanced to the regional tourney on Friday and Saturday, in which they were joined by two seeded teams, Homestead and Cedarburg of the Braveland conference. In the semi-finals Friday Kewaskum bested Hamilton, 63-60, and Homestead defeated Cedarburg badly, 80-53. Kewaskum and Homestead advanced to the championship finals Saturday, in which the Highlanders, with their superior height, were a little too much to cope with for the Indians, who lost, 81-64, after a fine showing against the champs. The winner, Homestead, moved up to the sub-sectional tournament at Sussex Hamilton Tuesday, where they were eliminated by Grafton, 74-65.

The Indians, who placed second in the Scenic Moraine conference with an 11-3 record, did remarkably well considering that they had to face Homestead, champion of the Braveland loop. Port Washington of the same Braveland conference, which finished well below Homestead in the standings, won their regional tourney by beating West Bend of the Little Ten in the finals. This speaks highly of the brand of basketball played in the Scenic Moraine. Further proof is the fact that Grafton, unbeaten Scenic champion, quite easily beat Homestead's Braveland titlists in the sub-sectional meet Tuesday, while Port, with a so-so record in that league, went

on to win regional honors. Grafton also won over Horicon of the Little Ten loop in their regional finals at Grafton Saturday.

Figure this one out. Grafton, with a 21-1 overall record for the season, lost its only game to Cedarburg early in the campaign. Yet Homestead smothered Cedarburg in the tournament and then Grafton handily won over Homestead in the sub-sectional meet. The Indians lost twice to Grafton during the season but gave Homestead a much closer battle in the tournament than did Cedarburg, the winner over Grafton.

In the regional semi-finals at Mayville Friday, Hamilton gave Kewaskum a real close tussle before losing 63-60. The Indians jumped to a 17-15 first quarter lead and 32-26 advantage at halftime. But Kewaskum saw its lead melt to two points at the end of the third quarter, which ended 46-44, then held a 17-16 advantage in the fourth period to win by three.

Hamilton held a 24-23 edge in field goals but Kewaskum sank 17 of 31 free throws while the Highlanders made only 12. Mike Coulter scored 19 points and Bob Rossow added 18 for the Indians, while Hamilton's Don Grevlick

topped all scorers with 22 points. Advancing to the tournament championship game with Homestead Saturday, the Indians were finally eliminated in this one. Starting early, Homestead led at quarter, 24-16, and at halftime, 46-29, before Kewaskum rallied in the third period to close the gap to eight points and give the Highlanders a scare. However, Homestead then ran off 10 straight points to again assume control of the game. Down by a 58-48 count as the fourth quarter opened, the Indians were outscored by a 23-16 margin in the final period.

Homestead had a big height advantage but the Indians fought the odds all the way. John Liggitt and Steve Schwandt, both 6 feet, 5 inches tall giants, led the Highlanders with 22 and 21 points respectively, while Hafner chipped in 18. Much shorter Dan Survis scored 26 points for Kewaskum to take game honors. Mike Coulter, second high scorer in his conference, added 15 as the Indians closed the season with a commendable 16-5 overall record.

AN ELECTRIC CLOTHES DRYER STRETCHES FAMILY WARDROBES

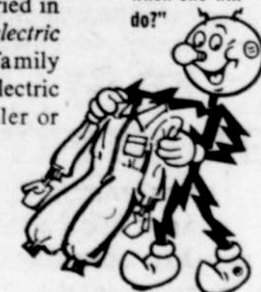

Clothes just naturally go further—especially toddlers' togs—when you own an electric clothes dryer. Washing and drying indoors—easily, as often as you please—you can replenish wardrobes overnight, make a single garment do the job that two or more used to do.

It's the same with outdoor things, like the youngsters' snowsuits.

When they get wet, just pop them in the dryer, and they're warm, dry and ready for more play before lunch or nap is over.

Clothes last longer when dried in clean, gentle, sunshine-fresh electric heat. So start saving on family clothes right now—with an electric clothes dryer from your dealer or The Electric Company.

"Why buy two when one will do?"
