LeRoy Bier Is Seriously Hurt In Auto Crash

FOUR OTHERS INJURED IN TWO CAR COLLISION NEAR DOTYVILLE ON SATURDAY

LeRoy C. Bier, 30, Kewaskum jeweler, who resides at R. 2, Kewaskum, was seriously injured and four other persons, two of them from Kewaskum, were hurt in a two car collision at the intersection of the Walnut and Town Line roads about a mile west of Dotyville in Fond du Lac county at 12:50 p. m. Saturday.

Bier, driver of one of the autos, who was the only one seriously injured, suffered a concussion, back and possible internal injuries. Fond du Lac county traffic officers Arnold Dankert and Robert Daul, who investigated, had Bier transported by ambulance to St. Agnes hospital in that city, where he still is a patient and his condition remains quite serious.

His companions in the car, Arnold Bier, father of LeRoy, of R. 2, Kewaskum, and Gerald Zimmer, his brother-in-law, also of R. 2, Kewaskum, who is employed at the Bank of Kewaskum, were treated for minor injuries. The trio was enroute to Lake Winnebago to go ice fishing.

The driver of the other car, Lyle C. Krug, Milwaukee, and his passenger, Rickey L. Snyder, R. 1, Eden, suffered minor cuts.

The crash occurred as the Bier vehicle, traveling north, and the Krug car, which was eastbound on the Town Line road, crashed at the mid-intersection. The Krug auto is reported to have struck Bier's car on the driver's side. Both vehicles were badly damaged.

Four Hurt in Local Crash

Four persons were injured in a two car crash at the intersection of Hwy. 45 and County Trunk Hwy. V just north of Kewaskum at approximately 12:50 p. m. last Friday. The mishap occurred when a car driven by Robert E. Blank, 22, of West Bend skidded when the driver attempted to stop for the arterial sign at the intersection and skidded on ice and snow and went through the intersection and collided with a northbound auto operated by Francis A. Toeller, 63, of rural Campbellsport. Both of the cars crashed into the guard rail at the intersection following the crash.

Injured were Leo M. Rausch, 68, of R. 3, Campbellsport, who suffered a fracture of the left leg; Ruth Toeller, 61, rural Campbellsport, head cuts, chest pains and left ankle injury; Francis A. Toeller, left leg cut and possible fracture, and Blank, who suffered a lacerated chin.

Both Mr. and Mrs. Toeller and Rausch were removed to St. Joseph's Community hospital, West Bend, in Kewaskum fire department's rescue squad ambulance.

WALT ROELSE SPEAKER

On Saturday night, Jan. 16, the Kewaskum fire department entertained all their active and retired members and wives at the annual banquet held at the Glacier Inn. A chicken and roast beef dinner was served at 7:30 p. m. Although several firemen and their wives were unable to make it, a total of 76 persons were served.

The dinner was followed by an interesting program. Chief Armin Oppermann spoke briefly and presented a plaque to Arvin Merwin, a retiring member of the department, for 15 years of active service. Assistant Chief William Martin served as master of ceremonies. Harry J. Schaefer, now of Milwaukee, who formerly served as chief of the department for 31 years, was introduced as were the two newest members of the department, Dennis Konkel and Dave Nigh. Announcement was made of the retirement as an active fireman of Leroy Keller, Jr., who moved outside the village. Other retired members of the department present were introduced. The main speaker was Walt Roelse, captain of No. 3 engine company of Sheboygan fire department, who gave a very informative talk on fire precautions in the home and spiced his talk with frequent humorous stories. A surprise, novel door prize was given and was won by Lieut. Ollie Staehler, Jr. The door prize was a gift-wrapped door.

All in attendance spent an enjoyable evening and the department wishes to thank Honeck Chevrolet, Inc. for their generous contribution to the banquet.

Balloon Released Here in September Found in Michigan

Last Sept. 16 members of the sixth grade science class at the Kewaskum Elementary school released balloons filled with helium. Postcards were attached to the balloons requesting information on the location where they were found and containing the return address of the pupil who sent the balloon up.

One of the balloons released here by Debra Oppermann was found on New Year's day near Muskegon, Mich. The postcard returned to Debra contained the information that the balloon was found at 11 a. m. on Jan. 1, 1965, in Fruitland township, section 25, Muskegon, Mich. by Michael K. It is of vast importance for every citizen to write his or her congressman and senators urging them to use all their influence to keep the United States strictly neutral in the European war. Congress met to consider amendments to the neutrality law abolishing the embargo on sales of munitions and war materials. If you want the U. S. to keep out of this war—write or telegraph your senators and representative in congress (Frank B. Keefe, Oshkosh) demanding that they vote against any anti-neutrality bill.

Economic Opportunity Act program was held in the auditorium of the court house in West Bend at 10:00 a. m. on Monday, Jan. 18. Carl Olien, state director of the Economic Opportunity Program in Wisconsin was present. Olien is a staff member of the State Resource Development office in Madison.

The first meeting on this legislation was held on Jan. 6.

Many of the state programs are school related projects which involve the students who have dropped from school or who are experiencing difficulty in remaining in school because of financial reasons.

The school administrators plan to meet within the near future to evaluate the county school situation and formulate plans for joint action, if the local situations warrant further planning.

Olien advised the group that his general observation from statistics, which we already have, caused him to believe that the county most certainly has need for a neighborhood youth corps

The following people were in attendance:

Forster, Wisconsin State Employment Service, Waukesha; Clara Jaehrig, nurse, West Bend Red Cross chapter; Stanley Sprehn, superintendent, Slinger schools; R. J. Power Squadron To Hold Piloting Class for Boaters

FREE CLASSES AT FOND DU LAC VOCATIONAL SCHOOL

Free classes in "piloting" with wide range of subjects will be offered to the public by the Fond du Lac Power Squadron. Registrations and classes began Thursday, Jan. 21, 7:15 p. m. in Room 801 at the Vocational school. The classes will be 2 hours.

Dr. Adolph M. Hutter, 349 Ma-

ple ave., Fond du Lac, is commander of the Power Squadron; Richard E. Ackley, 615 Guinette ave., is the squadron educational officer; and Ronald C. Hill, 211 South Marr st., is chairman of the local piloting course program.

The Fond du Lac Power Squadron is one of 352 units of the United State Power Squadron. This national non-profit civilian educational organization is dedicated to increasing safety and enjoyment of boating through education. This organization conducts free boating classes for the public and advanced courses for the members to increase their skill and knowledge in boating and their ability to teach others. All instructors are members of the Power Squadron.

The state conservation department reports that, at the present time, there are approximately 2,500 registered boat owners from Fond du Lac county. The free class in "piloting" provides an opportunity for the boaters to acquire the proper methods in making boating a pleasure and to contribute to the growing need for safe boating. The course will consist of 10 to 12 weekly lectures.

Subjects covered include, "rules of the nautical road," "equipment

required by law," "seamanship," "the compass," and "chart work." An examination concludes the course. Classes are open to men and women regardless of whether they own a boat.

This year will be the 10th year of squadron educational work in this area. Course material and instructions are furnished by the United States Power Squadron without obligation of any kind on the part of any student. "All persons interested in furthering their knowledge and enjoyment of boating are urged to attend these classes," Dr. Hutter said last week.

Washington County Agent

Farm Management Service

We would like to remind you of the farm management service available to you through the Southeastern Wisconsin Farm Management association. If you would like further information about this program, contact your county agent, or Gilbert Stoffel, who is the director from Washington county and the president of the association. You can also talk with other members of the association, who will be glad to give you the information.

Farming a Growing Industry?

Did you ever hear that farming is a declining industry? Earl Butz, dean of the College of Agriculture at Purdue university, doesn't think so.

Earlier this month I heard the dean as he talked to the 1965 convention of county and district fair managers. Let me give you an idea of how declining he thinks farming is.

Butz told us that farming is an 80-billion-dollar industry. How can anything be so large and still decline? Rather, it is a growing and dynamic industry which will change rapidly the next few years from what it has been.

Seven percent of the American people live on farms. In 1910 it was 45%. Butz also points out how fortunate this country is that this situation exists, and compared it to nations where 40% to 75% of their people are needed to produce food.

In our country 93% of the people are available to produce TV's, radios, boats, new homes, and automobiles. He pointed out that the ratio is 3 people per car in America. In England it is 7 people per car, and in Russia the ratio is 700 people per car. He offered to guess that the car would be a bit overloaded if it carried its share in Russia. He says agriculture is growing, with an increasingly less number of people, using huge sums of capital, most of it borrowed, and all the new technology available. Just the borrowed capital is a change in thinking. It wasn't too many years ago that borrowing money was thought of as very distasteful. Today business operates on borrowed capital simply because nobody has enough to operate otherwise.

And so changes will continue. There are those who will not be able to keep up, and they will find other means of employment. Those who remain in the farming business will get stronger and larger. Said Butz, "You cannot strengthen the weak by weakening the strong." This advice is good for farmers to keep in mind.

How Can You Fight Birth Defects? March of Dimes Has Good Advice

What would you do if a defective child were born in your family or to friends or neighbors? Would you know where to turn?

To answer these questions, marching mothers, more than a million strong, will distribute a new leaflet with sound advice for every family in the nation as they call on their neighbors during January for support of the March of Dimes fight against birth defects.

More than a quarter of a million babies are born each year in the U.S. with serious birth defects.

The leaflet being distributed by Mothers' March volunteers is called "THINGS TO DO IF..."

IF You Are About To Be Married,

- Select a family physician;
- Each partner should have a complete medical examination, providing the doctor with complete medical histories;
- Learn your blood groups and Rh factors (+ or -);
- Consult your physician together for advice important to your marriage, particularly if either family has a history of birth defects or if there is Rh incompatibility.

IF You Are Expecting a Baby,

- See a physician as early as possible to confirm pregnancy;
- Keep in close touch with him, reporting any unusual discomfort or bleeding;
- Follow the diet prescribed by your doctor;
- Do not take any drugs or medicines unless he tells you;
- Do not knowingly expose yourself to infectious diseases — particularly German measles;
- Tell any doctor you consult that you are pregnant so he may avoid prescribing harmful X rays or medication.

IF a Birth Defect Occurs in Your Family,

- Seek the best medical advice and treatment. Modern skills can often prevent or correct serious disability;
- Don't feel ashamed of yourself or the child born defective. No one is to blame so long as the stricken child is

JANE WYATT, National Mothers' March Chairman, reads to Tina Tidwell, 4, who was born with an open spine and is a patient at a March of Dimes Birth Defects Center in Los Angeles, Calif.

helped to make the most of his precious gift of life;

- Do not despair. Professional help from physicians, clergy and others experienced in dealing with these problems can lead to a wholesome adjustment;
- Remember that there are many persons and organizations such as The National Foundation-March of Dimes that stand ready to help. Seek them out.

IF You Have Friends With a Defective Child,

- Treat them as you would any other friends. They do not desire pity, but the sympathetic understanding of true friendship is always welcome;
- Avoid giving advice. Let them make their own decisions with the aid of competent professional consultation.

The National Foundation-March of Dimes is using the experience gained in the fight against polio, which led to the

development of both the Salk and Sabin vaccines, to back its attack on birth defects. March of Dimes funds now support:

- more than 50 March of Dimes Birth Defects Centers across the U.S. which make the most advanced medical care and treatment for birth defects available to young victims and their families;
- a national research program which finances the work of scientists studying the causes of birth defects and seeking ways to prevent or correct them;
- a professional education program to train medical professionals in diagnosis and detection, and in practical application of scientific advances to treatment techniques;
- a public education program, of which the marching mothers' leaflet is a part, to alert the people to the magnitude of the birth defects problem and to let them know how much can be done to help defective children.

Indians Upset Plymouth, Lose To Random Lake

The Kewaskum Indians broke even in two games played on consecutive nights last weekend. They scored a 74-61 upset win over Plymouth High school Saturday night here in a non-conference game that had been postponed from an earlier date by bad weather. The night before, Friday, they lost a Scenic Moraine conference tilt at Random Lake, 83-69, which dropped the team into fifth place.

The Indians proved to Plymouth that the Scenic conference is a strong one. Plymouth, the largest city in the Eastern Wisconsin conference, is tied for first place with New Holstein, both with 6-1 records. Kewaskum, on the other hand, is down in fifth place in the Scenic loop with a mediocre 3-3 record. Yet they defeated the Panthers by a 13-point margin.

Plymouth possessed a slim 16-15 lead at the quarter but the Indians then went ahead to stay, outscoring the Panthers in all of the last three periods. At half-time Kewaskum was on top, 42-37, and increased their advantage to 57-47 at the end of the third quarter and 74-61 at the final horn.

Eight of Coach Walt Bade's players hit the scoring column, led by Dick Wietor with 16 points, Bob Coulter 14, Bob Miller 12, Czaja 10 and Larry Coulter 9. However, the high scorers in the contest were two Plymouth aces, Don Resimius with 25 points and Jack Gebler with 23. Only five players scored for the losers. Heavy fouling by the Panthers, who were charged with 27 personals, proved costly. The Indians sank 26 free throws to Plymouth's 17.

Playing at Random Lake Friday, it was the Indians who had an off night and were blitzed, 83-69, by the Rams, who hold third place with a 4-3 record.

The Rams, hitting the comeback trail, fired a 51-point second half to dump the Indians. Guards Joe Arredondo and Eugene Preder, who scored 28 and 19 points, respectively for the Rams, helped break up the Kewaskum press and that allowed them to heap up points. Dunphy chipped in 15 points. Top scorers for the Indians were Bob Coulter with 14 points, Oelhafen and Wietor with 12 a-piece.

Poor free throw shooting proved costly to Kewaskum. They hit on only 11 charity tosses while the Rams sank 23, which almost accounted for the margin of victory. In other games leading Grafton,

6-0, continued its methodical march toward a third straight conference title by jolting North Fondy, 78-46; Campbellsport rebounded with a big win over invading Slinger, 88-51, and Pewaukee turned the tables on Germantown, 73-57.

This Friday the Indians play at Slinger against the tail enders and should win. Tuesday, undefeated Grafton, defending champ, plays at Kewaskum and second place Campbellsport comes here next Friday.

Looking Thru the Field Glasses...

By Bob Lake, Conservation Warden, Washington County

VANDALS REMOVE NAMES FROM FISHING SHANTIES

The 1965 beaver and otter trapping regulations are now available at all Wisconsin Conservation Department field stations as well as the offices of the county clerks.

Owners of ice fishing shanties have complained that vandals have removed the boards attached to the building with the name and address thereon. The law indicates that each fish shanty or shelter

used for fishing purposes on the ice of any waters, shall have the name and address of the person owning or using it painted on the outside so as to be readily seen and read at all times.

Sturgeon Spearing Opens Feb. 13

The 1965 sturgeon spearing season this year will open Feb. 13 and close on Mar. 1 on Lake Winnebago, Little Lake Butte des Morts and the connecting waters downstream to the uppermost dam in the city of Appleton. There will also be a special two-day season on Lakes Butte des Morts, Poygan and Winneconne on Feb. 13 and 14 only.

All speared sturgeon must be immediately tagged and registered by 6 p. m. on the day speared. Registration stations will be located at numerous places around the lake.

The bag limit is again one sturgeon per season and must be at least 40 inches in length.

It is unlawful to have in possession or under control, any spear or similar device in any building, tent or similar enclosure on the waters of Lake Butte des Morts, Winneconne, Poygan, Winnebago, Little Lake Butte des Morts, or any connecting waters including the Wolf river from the Shawano dam downstream and the Fox river from Mile Post 63 in Green Lake county downstream except during the open season for spear-

ing sturgeon where such open season is in effect or specified waters named above.

A license is required for all sturgeon fishermen at a fee of \$2.50 and may be issued only to persons 14 years of age or older. Therefore, persons under 14 years of age may not take part in this sport. The tag furnished at the time you purchase your license must be locked to the tail of the sturgeon immediately after it is speared.

The spearing hole may be cut 48 hours before the opening of the season.

All shanties must be removed by March 5, 1965. I would like to caution you to make arrangements to insure this is done prior to March 5 because of the heavy snowfalls and deteriorating ice conditions prevailing at this late date.
