"Gateway to the Kettle Moraine State Forest"

VOLUME 73

KEWASKUM, WISCONSIN, FRIDAY, NOVEMBER 24, 1967

NUMBER 4

180 Deer Killed In County Over First Weekend

Hunters had another good deer kill in Washington county over the opening weekend of the season as 180 animals were reported registered at the five checking points in the county Monday morning. The kill was below the record 209 kill over the comparable weekend last year. The county deer kill had gone over the 200 mark by Tuesday morning.

However, most of the local hunters who hunted in the surrounding area and were successful over the weekend bagged their deer in the Kettle Moraine state forest area in neighboring Fond du Lac county, while others were successful in nearby Sheboygan county. These are not included in the Washington county total kill, which would have been greatly swelled by the number of deer shot by local hunters just outside of the county.

A large percentage of the hunters in this area succeeded in shooting a deer. Those hunting in groups locally reported better success than most of the parties who hunted in the northland, many of whom returned with only one or two deer in their group. The surrounding area had a heavy kill judging by the large number of deer seen on cars here over the weekend, especially on Saturday.

With the "any deer" season, which comprised the first two days of the hunt in the county, now past, registrations fell off considerably for the remainder of the week. The season closes on Sunday, Nov. 26, and only bucks can be taken since Monday. Quite a few registrations are still anticipated before the season ends.

Registrations began early Saturday as hunters bagged their deer in the surrounding areas soon after the season opened. There were some fine specimens of does, bucks and young animals brought in. It was surprising how many youthful hunters, boys in their teens, were successful in getting a deer. Most of the deer taken in the area were well filled out, apparently well fed on crops and other plentiful vegetation.

A break-down of registrations in Washington county as of 9 a. m. Monday indicated the following numbers at the various checking points: Sheriff's department, 116; Del Frank's tavern, Jackson, 22; Hartford police department, 23; Tally Ho Inn, 10; Breitenbach's Resort, 4. Game Warden Bob Lake registered five deer in the field to bring the total to 180.

The lack of snow cover in the county was probably the greatest contributing factor in a fall-off in the kill from last year as deer are apparently plentiful in the area. The number of deer taken also was curtailed because of motorists who have accidentally killed numerous deer throughout the year on area highways, especially lately when the animals have been on the move during the breeding season.

Then there is the fellow who picks up trash and calls himself a collector of residue.

Wall Knocked Out, 3 Cars Damaged in Crash Into Garage

ONE OTHER MISHAP CAUSED BY THREE HORSES ON ROAD

Two cars parked in the garage were shoved through the garage wall in a crash at the home of Atty. Roger McKenna, 1195 Hillside dr., at 6:55 p. m. Sunday when they were struck by an auto driven by Allen R. Roth, 28, of 114A Sumner st., Hartford.

Roth was driving west on Roseland dr. and where the street ended at Hillside dr. he went straight ahead instead of making a turn. His car entered the McKenna private driveway and continued straight into the garage, on which the door was open, and crashed into the two autos parked in the building. Roth's vehicle struck the cars with such impact that they were shoved right through the rear wall of the garage, which was knocked out. One of McKenna's autos was shoved all the way through the wall while the other was driven almost half way through.

The entire front end of Roth's 1962 Buick convertible was damaged and the rear and front of both of McKenna's cars, a 1964 Chevrolet sedan and a 1960 Chevrolet sedan, were damaged. Damage to Roth's vehicle was estimated at \$550, to McKenna's '64 car at \$600 and his '60 auto at \$400. Damage to the garage was estimated at \$1,000.

According to the report of Patrolman Donald Hlavaty and Dennis Scott of the Kewaskum police department, Roth stated that he fell asleep at the wheel. He was charged with inattentive driving. Roth's car showed 20 feet, 10 inches of skid marks on the driveway.

The McKenna family was home at the time of the crash and Roger jokingly said the first thought that entered his mind was "what did my twin boys, Pat and Mike, do now?" But he really believed the crash was too loud to have been caused by them. Which goes to show that you aren't even safe in your own home.

Local Woman Hurt in Crash

Bonnie C. Kluever, 37, 1226 Meadow lane, Kewaskum, suffered a back injury when a car driven by her husband, Earl F. Kluever, 33, braked and skidded and went off the right side of Hwy. H about 400 feet east of CTH B, two miles west of Kewaskum at 11:30 p. m. Sunday.

Washington county authorities reported that Kluever was east-bound when he saw three horses on the road and braked his auto sharply to avoid striking them. Mrs. Kluever was taken to St. Joseph's Community hospital, West Bend, in the Kewaskum firemen's ambulance.

FIREMEN ANSWER CALLS TO REGAL WARE, DUMP

Kewaskum firemen were called out twice over the weekend to minor blazes.

Last Friday morning they were summoned when a spark apparently ignited dust in an exhaust duct at the Regal Ware, Inc. plant. The plant fire brigade had the blaze under control by the time firemen arrived. No damage resulted but there was some smoke in the building.

At 6 p. m. Sunday the fire department answered another alarm. This was a call to the village dump on the Otto Giese farm west of Kewaskum, which was a blaze. Firemen hauled an extra load of water to the dump in their tanker and got the blaze under control without causing any damage.

Plymouth Edges Indians on Free Throws, 58 to 54

The Kewaskum Indians were tipped for the second time in non-conference action at Plymouth Friday night when they were shaded by the Eastern Wisconsin conference team, 58-54.

Kewaskum held the edge in every quarter but the third, in which the Indians hit a cold streak and this bad period cost them the ball game. After leading Plymouth, 10-8, at the quarter and 24-23 at the intermission, the In-

INDIANS BEAT ROSENDALE

After two pre-season setbacks, the Kewaskum Indians won a non-conference game at Rosendale Tuesday night, 53-43, for their initial win of the season. Details will be published in next week's issue.

dians were badly outpointed in the third period, 17-9, giving the eventual winners a 40-33 advantage. Kewaskum came back once more to outscore Plymouth in the final stanza, 21-18, but it wasn't enough to quite close the gap.

The Indians made only 6 of 15 free throw attempts and this flub erased an otherwise fine effort. On the other hand, Plymouth sank 22 free throws, giving them a 16-point advantage there and winning the contest for them. The Indians outshot Plymouth from the floor, 24-18.

George Martin was high scorer for Kewaskum with 22 points to take honors for the evening, while teammate Al Bohn accounted for 18. Top scorers for Plymouth were Dreder with 18 (10 of them free throws) and Richards and Kausmann, each with 12.

In other games Friday involving Scenic Moraine conference teams, North Fondy was shaded by Oakfield, 59-57. Campbellsport lost to Lomira, 74-49. Slinger defeated

Horicon, 74-67, and Germantown lost to Hartford, 94-59. Grafton also lost the past week to Cedarburg's Braveland conference champions and Random Lake lost to Oostburg. Slinger also beat Hartland Arrowhead Tuesday for its second win.

Following the Thanksgiving recess, Kewaskum will open its conference season at Germantown next Friday, Dec. 1.

Klumb Re-Appointed Brotherhood Week District Chairman

Richard A. Klumb, West Bend, has been re-appointed a district chairman for Wisconsin's 1968 Brotherhood Week observance. Klumb is vice-president and director of engineering for the West Bend Equipment Company.

The appointment was announced by the state chairman, the Hon. Nathan S. Heffernan, associate justice of the Wisconsin Supreme Court. Klumb will be responsible for the over-all organization and execution of the Brotherhood Week program and finance campaign in Dodge, Fond du Lac, and Washington counties.

Brotherhood Week, sponsored annually since 1934 by the National Conference of Christians

and Jews, is scheduled for its 35th annual observance during the week of Feb. 18-25, 1968.

Locally, as well as nationally, the week will be devoted to programs emphasizing the basic NCCJ concept that where there is understanding and respect, people of different social, racial, and religious backgrounds can work harmoniously together on matters of civic concern without in any way compromising personal or religious convictions.

Through committees to be named by Klumb, the National Conference will seek 80 such programs in the churches, community and other organizations of the three counties. The year-around educational program of NCCJ in this district will be sustained by a budget of \$2,400 to be obtained by public appeal for voluntary contributions. The state-wide

goals are 2,000 programs and \$80,000 budgetary goal.

Area Farmers Tour Research Center

Several area feed dealers and their farmer customers were among 250 agricultural leaders who were recent guests of Allied Mills when they toured the Wayne Research Center in Libertyville, Ill., to learn of new profit opportunities in animal agriculture.

They included Jack Bauer, Wayne dealer of Bauer Feed & Grain, Campbellsport; Gilbert Stoffel, Kewaskum farmer; Dale Glander, outside salesman of Campbellsport; Ray Franda, Wayne salesman of Elkhart Lake.

While touring the feed firm's applied research facilities, agri-

cultural leaders saw research projects underway on the modern 638-acre Wayne Research Farm Center. Visitors saw and heard what's needed for tomorrow's feeders to take full advantage of opportunities involved in producing meat, milk, poultry and eggs for a 400-million population anticipated in the next 35 years.

"For the man who takes advantage of new feeding technology, profits from livestock farming have never looked brighter," stated Dr. Merle J. Brinegar, director of research. Dr. Brinegar and his staff of livestock specialists demonstrated that livestock production at an 80 per cent level of efficiency instead of 100 per cent efficiency could cut farm profits in half.

Two wise guys drove into a small town and asked an old gentleman, "How long has this town been dead?"

"Well, not too long," the old man said. "You two are the first buzzards I've seen."

Give someone a piece of a satellite this Christmas.

Give someone an Accutron® timepiece. It has the same basic movement as the timing devices aboard the Explorer, Telstar, TIROS, Syncom, and Pegasus satellites. And the Gemini spacecraft. Vibrations of a tiny tuning fork divide each second into 360 equal parts. And keep the Accutron timepiece right to within a month... an average of two seconds a day. No watch on earth is guaranteed more precise.

The old-fashioned balance wheel principle is used in all watches, not the Accutron movement. The Accutron tuning fork makes possible the first guarantee of accuracy ever given.

ACCUTRON "425" Waterproof, sweep second hand, applied roman numerals, rust alligator strap. \$135.00

ACCUTRON SPACEVIEW "H" Clear view dial arrangement, waterproof, luminous hands and dots. Adjustable band. \$150.00

Steps to Follow for Admission to UW Center Devised by Registrar's Office

REQUIREMENTS ARE LISTED TO ALLEVIATE CONFUSION OF STUDENT

A prospective college student today begins to think about the process of higher learning long before he receives his high school degree. The competitive push toward entering the college or university of his choice forces him to think ahead. But he is usually uncertain, and has doubts and questions concerning his prospective university.

"Answering questions about the University of Wisconsin and its centers is one of our reasons for being here," said Gladys Meier, center system registrar and director of admissions. "We attempt to guide the student from the very beginning, so that he will avoid unfortunate mistakes in registration."

College applications can be confusing. In order to alleviate the guesswork and nervousness that accompany this preliminary task, the University Center System registrar's office has devised these simple steps to follow.

For admission to the centers as an undergraduate, a student must meet the following requirements, which are identical for all centers including the new one at West Bend as well as for the Madison and Milwaukee campuses:

1) Graduation from an accredited high school and completion of 16 units in this manner: English, 3 units; mathematics, 2 units; 2 units in two of these areas, foreign language, history and social studies or natural science; and 7 units of electives.

2) Test scores from one of the two national tests required for admission, either the American College Test (ACT) or the Scholastic Achievement Test (SAT) given by the College Entrance Examination Board. Scores must be sent directly from the testing

service.

3) Transcript of high school grades.

4) Written recommendations submitted by the principal, guidance counselor, and teachers.

The question of how and when to apply is easily solved. The same application form is used for all campuses of the University of Wisconsin. A student may obtain a blank from his high school guidance counselor, or Center Student Affairs office or he may write to the Registrar, University of Wisconsin Center System, 602 State Street, Madison, Wisconsin 53706.

Applications for all terms are now being accepted for next fall. Students are urged to apply during their senior year, and if they are eligible for admission, they will be issued a permit to register on the basis of grades from their junior year and subjects taken during the senior year.

For further information, including the Center System catalog and other UW publications, write to the Center Student Affairs office at West Bend.

Easy-To-Do Decorations And Punches To Brighten Yule

The time will soon be here for hanging the Christmas wreath to announce that special hospitality season and best loved holiday of the year. Long before the bells jingle, why not ring in the fun by involving the whole family in Yuletide preparation?

Take a tip from the easy-to-make ornaments found in holiday cartons of Coca-Cola. Everyone in the household, artist or not, youngster or oldster, can add something clever to the tree, the table and other trim around the home with these decorative assets. Just snip, fold 'n paste (that quick!). Stars, snowflakes, icicles and a host of other festive dangles in rich luster colors are included free in a new series of folders containing twenty different decorations.

Ready for a second holiday hint? The hostess who spends much time in the kitchen misses out on the fun. Those cartons of Coke hold the answer to the favorite easy-to-serve refresher for evenings of decoration-making, the impromptu platter party and the open house when friends drop in.

Another timely tip sure to transform any party into the splash of the month is the party punch. Sprite is the keyword here to fill the bowl with good-taste-to-serve with time-to-spare. For a tart tempter to liven up any happening, try "Tingle Bells Punch." Made in a jiffy, it makes music as sweet as jingle bells.

TINGLE BELLS PUNCH
2 quarts cranberry juice
1 can (6 oz.) frozen lemonade concentrate, thawed
1/2 cup maraschino cherry juice

6 bottles of Sprite (10 oz. each), well chilled

Combine all ingredients. Serve over ice in punch bowl. Garnish with lemon slice topped with cherry or with lemon slice, orange wedge and cherry alternated on cocktail picks. Makes about 40, 4-oz. servings.

Accompaniment: Stuffed olives and cocktail onions alternated on cocktail picks. An onion sour cream dip served with melba toast rounds.

"Tingle Bells" is one of five great punch ideas tucked in cartons of Sprite. Untuck a few for Christmas and have a tingling holiday!

An appeal to every public-spirited American from
Postmaster General LAWRENCE F. O'BRIEN

**“Help prevent the worst
 mail jam in history”**

The letter you mailed today joined over 200 million other letters and packages—all mailed today!

Never before has our post office had to cope with such an enormous flood of mail. It is threatening to create a “mail jam” in some key post offices.

This is both irritating and costly. And it is completely unnecessary, because we have the tool to help prevent the mail jam almost overnight!

Its name is Zip Code. Zip enables our postal workers to sort mail faster and move it by more direct routes. With Zip, they will use modern electronic machines that “read” Zip numbers and sort mail fifteen times faster than ever before.

But the sad truth is that millions of Americans are still not using Zip Code on their mail.

Obviously, our Zip system depends on the cooperation of every citizen. To help your post office give you faster, more efficient service, here is what to do:

1. Zip Code the address of every letter and package you mail. If you do not know the proper Zip Code, call your post office or look it up in their Zip Code Directory. Local Zips can be found on the Zip Map in the business pages of your phone book.

2. Always include your own Zip Code in your return address. That makes it easy for others to Zip their mail to you.

Zip Code is an efficient, practical way to control and direct the flow of mail. Without it, we could be buried under an avalanche of letters. With it, you can count on having the finest, fastest postal service in the world.

HOW ZIP CODE WORKS

Suppose the Zip Code is 60635. The “6” says it goes to the Midwest. The “06” narrows it down to Chicago. The last two digits—“35”—pinpoint the local post office. This eliminates many handling procedures. The letter is sorted faster, and sent more directly to its destination.
