Official groundbreaking ceremonies for St. Joseph's Community Hospital's \$28.5 million expansion and redevelopment project was held, Monday, Nov. 23 at 3 p.m. at the site of the new Cancer Care Center at St. Joseph's Community Hospital.

The event kicked off the most significant building project in the history of the hospital, which first opened its doors in 1930.

When completed in the year 2000, the overall project will increase the physical size of the hospital by 45 percent and will include major new improvements, including new inpatient and outpatient surgical suites, and improvements to the emergency and admitting departments. The hospital will also have a new, contemporary covered main entrance.

The Cancer Care Center is a key element of the project and will be built at a cost of \$4 million on the southeast portion of the hospital campus. In

June, the center received a \$2 million gift from an anonymous donor; a fund drive is being conducted to raise an additional \$2 million. To date, the fund drive has raised \$643,207. The Cancer Care Center will offer medical oncology services and will have a linear accelerator to provide radiation therapy.

The entire project has a contemporary design, with materials that blend with both the surrounding residential neighborhood and the current hospital building.

General contractor for the project is C.G. Schmidt. Plunkett Raysich Architects is providing architectural services.

More information about the project and the fund drive is available by calling Margie Klink, manager of public relations and development, at 414-334-8576.

## SCHOOL BOARD MEMBER SEEKS INPUT

DEAR FRIENDS,

As a member of the Kewaskum School Board, I've always thought the will of the people should be followed, not personal agendas. For this reason, I would like to stay open-minded to know what you, the district residents, are thinking... what direction you would like to pursue now that two referendums have failed.

I would like to get your opinion on these 11 questions. I would like you to clip out this article and check the appropriate boxes. If you have a different idea, please write me a brief letter along with the survey (50 words or less, please). I don't need your name, for this can be an anonymous survey. I am hoping this will encourage honesty. Please... no politics... vote only once and mail to Tom Timblin, P.O. Box 479, Kewaskum, WI 53040. I will not count your vote from a phone call, for I would like written documentation.

This is not and should not be construed as an official school board survey. It is my personal questionnaire to try to feel the pulse of the people. In two weeks I will write another letter to report the results of the survey. None of these questions were written with the intent to provoke anyone. I'm looking for honesty and common sense. Over 4,000 people voted in the last election. There is a passion here. Be part of the process... let me know what you think!

## Wagner Elected as Official to the League

Shown in the photograph are the new League Officers (from left to right); Ted Pamperin, President (Village President of Ashwaubenon); Mike Miller, Past President (Mayor of West Bend); Joe Laux, Vice President (Mayor of Menasha) and Bob Wagner Second Vice President (Village President of Kewaskum).

The League of Wisconsin Municipalities would like to announce the election of Bob Wagner, Village President of Kewaskum, as the 1999 Second Vice President.

The League is comprised of 565 cities and villages throughout the state. The League lobbies in Madison and is a strong unified voice for all the municipalities and their residents.

The League provides training, professional and technical support to municipal officials; it is a forum for the exchange of ideas and collaboration on municipal problem solving.

In October Bob was unanimously elected at the League's 100th Annual Conference held in Middleton Wis. Bob will serve one year as Second Vice President, then move up to

Vice President for one year and finally step up to be the President of the League.

When interviewed, Wagner said he was very excited to be elected by the League membership and, "happy to give my time to such an important organization. There are many very talented municipal personnel and officials that I have worked

with in the past from throughout the State, and to be picked by them is quite an honor.

It is important to remember that there many things going on outside of our Village boundaries that can directly impact our well-being, pocketbooks and home rule. Being the Village President, it is my job to be ever vigilant of the welfare of our village and its residents.

Municipalities need to stick

and work together for the common good. I would hope that this appointment will bring some prominence and clout to our Village when dealing with our Governor and State Legislators in Madison.

Once I'm Vice President and also as President I will be representing the League and the Village of Kewaskum at the National Conference of the League of Cities; this is where Mayors from throughout the country get together to discuss issues and share in their common problems.

## St. Francis Holiday Programs Benefit Local Organizations that Support Families

St. Francis Bank has planned a busy holiday season to support community benefit programs. Through a series of promotions, co-sponsorships and employee events, the bank will provide food and financial support for area families throughout Southeastern Wisconsin.

### Food For Families

Between November 23 and December 26, each of the bank's 22 branch offices will serve as collection sites for the Food For Families program sponsored by the Hunger Task Force of Milwaukee and WISN-TV.

Tom Perz, St. Francis Bank President and Chief executive Officer, announced that the Food For Families program also will be supported through the sale of "holiday greeting" gift tags and a matching contribution from the bank. Customers and employees can purchase gift tags for \$1 each to personalize and decorate their holiday packages. Copies of the tags also will be posted as holiday decorations in the banks' branch offices. The bank will make a matching contribution of \$1 with the first 5,000 gift tag purchases.

To encourage food donations among employees, the bank has initiated a casual day for St. Francis representatives bringing food items on November 23.

### Smooth Jazz Collection For Penfield

Another holiday offering to benefit a community organization will launch in November as the Bank begins sale of "Smooth Jazz Holiday" compact disc, a specially compiled collection featuring Milwaukee favorites Warren Wiegratz and Daryl Stuermer,

along with national favorites.

The collection is available only at St. Francis Bank locations. The promotion is co-sponsored by radio station WJZI. Cost for the "Smooth Jazz Holiday" compact disc is \$9.33 to correspond with WJZI's radio frequency. All proceeds from compact disc sales will be donated to the Penfield Children's Center, a non-profit Milwaukee-based organization that provides rehabilitation services to children with disabilities.

Perz said this is the third

year St. Francis has teamed up with WJZI to raise funds for Penfield through a holiday collection of jazz favorites. During the first two years, more than \$22,000 was generated for Penfield.

Founded in 1923, St. Francis Bank serves communities throughout Milwaukee, Ozaukee, Kenosha, Racine, Waukesha, Walworth and Racine Counties.

# Hospital Expansion

New Main Entrance

St. Joseph's Community Hospital of West Bend, Inc.

Cancer Care Center

Plankott Rysich Architects

(Continued from Page 1)

## About Our New Facility...

• Groundbreaking Monday, Nov. 23, 1998, marks the start of the most significant building project in the 68-year history of St. Joseph's Community Hospital. It's a nearly \$29 million project that brings a new level of health care to the people we serve.

• The Cancer Care Center, to be built on this site, represents a unique collaborative effort by the hospital; Advanced Healthcare and its local physician group, the West Bend Clinic; and Aurora Health Care and its local physician group, the General Clinic. Together, we will provide medical oncology and radiation therapy.

• In a new facility on the north side of the hospital, new, integrated inpatient and outpatient surgical suites and procedure rooms will be constructed - creating spaces that work for patients, doctors and staff.

• New, expanded areas for outpatient evaluation and treatment will provide "one stop" access to many laboratory tests, as well as X-ray exams, MRIs and EKGs.

• St. Joseph's busy rehabilitation and respiratory care providers will benefit from more spacious and updated service areas.

• Observation beds in the current ambulatory surgery unit will be added.

• Renovation of the admitting department will help provide an improved triage area in the emergency department and more comfortable care for patients and families.

• Throughout the project, corridors and interior spaces will be redesigned to improve

traffic flow and privacy. Materials management and central supply departments will be relocated for efficiency.

• We're adding space for meetings and health-related community education programs. And we're planning a community health resource library with access to computer resources and the internet, and print and video materials on all kinds of health topics.

• We're adding space for meetings and health-related community education programs. And we're planning a community health resource library with access to computer resources and the Internet, and print and video materials on all kinds of health topics.

• We're building an enclosed docking space for mobile technology, like magnetic resonance imaging and lithotripsy.

• Our kitchen and cafeteria will be relocated and modernized. And a new, expanded gift shop operated by Partners of St. Joseph's Community Hospital (the hospital's volunteer organization) will also be constructed.

• There will be a special, non-denominational meditation room to be used for quiet reflection by patients, families and staff.

# The Believe It Or Not Rock

The Faith Haven non-profit Corp. has just had delivered to its Drive Thru Sculpture Garden on County W.W., Town of Wayne, a forty-four thousand (22 ton) memorial stone.

"Little did I think when I purchased this stone from the state of Wisconsin that it would take three years for me to find someone brave enough to miracle-move this rock," explained the Rev. L. C. Riesch, secretary of the Faith Haven organization. "My very special thanks to Mr. Roy Rohlinger of Lomira who made it possible to lift it from its Hwy. 60 Slinger site and transport it to our Sculpture Garden in Wayne township."

The huge rock has been placed by the Faith Haven board of directors as a memorial to a Richfield lady who dearly loved the beautiful rocks of Wisconsin and faithfully loved the Lord Jesus Christ, Mrs. Karl Ohm (Jerry Ohm). Mr. Paul Robertson, the owner of Blast Craft Services, Inc., West Bend has blasted onto this glacier spawned wonder stone both the name of Jerry and an inspirational scriptural message from her for all to enjoy.

The greater community is welcome to tour both the Sculpture Garden as well as the little replica Log Chapel and the People's Futuristic Chapel just north of the Memorial Rock.

## Community Help is Needed to Raise Final United Way Funds

Community thermometers in Washington County are set at the 90% mark this week, reflecting the campaign's total of \$958,688 in gifts and pledges counted towards the goal of \$1,065,000 as of November 20.

"Our volunteers and donors continue to help us work toward our goal," said Ray Lipman, chairman of the campaign. "With a little more than one week to go until our Thank You Celebration on December 3, we need everyone's help to make the goal," he said.

"We're pleased with the progress so far, and note many success stories," said Lipman.

Those divisions still working toward their goals and amounts needed are: Attorneys - \$1,230; Contractors - \$390; Dentists - \$740; Financial - \$10,865; Non-profits and Health Care - \$6,040; Real Estate - \$1,310; Professional Specialties - \$700; Hartford - \$14,021; Jackson - \$961; Kewaskum - \$5,281; Slinger

- \$4,185; Newburg - \$382; Richfield, Hubertus and Colgate - \$676; and the West Bend Divisions: Commercial - \$3,901; Education - \$745; Industrial and Manufacturing - \$1,742; Special Gifts - \$5,302; Transportation - \$2,231; and Key Firms - \$56,769.

"There is still time to contribute and make a real difference in helping people in 1999," said Lipman. "Our campaign goal is based on the needs of those member agencies serving thousands of people here in Washington County."

In the current year, funding is distributed in eight key service areas: Family Assistance - 21%; Emergency Services - 9.2%; Youth Services - 21%; Senior Services - 5.5%; Health Services - 12.8%; Volunteer Services - 2%; Services for the Disabled - 18%, and Substance Abuse - 11%.

"We urge past supporters and new residents and businesses to step up to the

plate if they have not already done so," he said. "Our agencies are counting on the donations to be able to provide needed programs and services in the coming year."

If you want to make a real difference, please call the United Way office to make a contribution. Their number is 338-3821.

# Kiwanis Students Selected

Clint Herrick, left, and Aggie Friedel

KHS seniors Clint Herrick and Aggie Friedel have been named "Kiwanis Students of the Month."

Aggie has been active at Kewaskum High School in a number of areas. She is currently in her fourth year of student council, serving as President for the second straight year. She was recently inducted into the National Honor Society, and is a member, too, of FLAGS. She has earned both an academic letter and the Lamp of Knowledge pin, signifying high honor roll status.

Musically, Aggie was a cast member of the tremendously successful KHS musical, "Grease," and is a member of the Swing Choir, the Pep Band, and has participated in Solo Ensemble competition. Additionally, Aggie is a member of Symphonic Band and Concert Choir. She has also been a drum majorette for three

years.

Away from school, Aggie has spent time on outreach with her church youth group (Community Church of West Bend). She has traveled to help others in Charlotte, North Carolina, Hollywood, California, and three cities in Mexico: Puebla, Cuernavaca, and Taxco. She has directed childrens' Christmas plays at her church, as well.

Aggie has entered concerto contests, taught and taken piano lessons, and is a member of Moraine Musicians. In what's left of her free time, Aggie is a clerk at Tennesse True Value in West Bend.

She plans to attend UW-Washington County in the fall, possibly as the first step towards a career as a music therapist.

Clint Herrick is also a recent inductee to the KHS National Honor Society. His

academic standing has earned him an academic letter and the Lamp of Knowledge pin (high honor roll). A further interest of his is shown in his two year participation in Art Club.

Clint has also been very involved in sports while at Kewaskum High School. He has played football for four years (playing running back for this year's squad), as well as golf. His first two years at KHS, he even went out for basketball.

Clint also participated in several Junior PGA golf tournaments this past summer, which he says was challenging, but a very good experience.

Clint volunteers at Kewaskum Elementary School, working as a tutor. He has also volunteered at both the Washington County Mental Health Institute and the Wisconsin Dyslexia Institute.

Additionally, Clint works, making lenses at

Eye Care Optical in West Bend.

This fall, Clint will attend UW-Platteville, to pursue a degree in mechanical engineering.

# Government Spending... Enough is Enough!

By Representative Glenn Grothman

I would like to thank all of the voters of the 59th Assembly District for returning me to the state legislature. It is an honor to represent you in Madison. My staff and I are currently working hard in preparing for the third state budget in my tenure. The two year state budget will be approximately 38 billion dollars.

In preparation for the budget, all individuals, organizations and local units of government which want more state dollars will spend the next eight months contacting the Governor and legislators making their case why they must spend more or why a new program will solve society's ills or save dollars in the long run.

They will also send out press releases which will be reported uncritically in newspapers, radio, and on television, claiming that more money is needed for the schools, the universities, the counties, the non-profit agencies, state departments, etc. General taxpayers, too busy with their

jobs and uninformed as to when hearings are held will be mostly absent from the budget process.

I will oppose most of these spending requests and so that you can see why, let me share with you some figures I just received from the Legislative Fiscal Bureau. Over the past ten years in the state of Wisconsin, inflation was 38%. During that time, property taxes went up 56%. Sales tax collections went up 83%. Income tax collections went up a whopping 123% -- more than doubling.

The combined take of all levels of government on the three major sources of revenue went up 83% between 1988-1998, while the cost of goods and services provided by business went up only 38%. This happened during a time when the economy is booming and presumably less people need governmental assistance than ten years ago. This, also, during a time when we had a Republican Governor in office who describes himself

as a conservative who is constantly attacked by his enemies for not spending enough!

There is no reason for the cost of government to go up so much quicker than the cost of everything else. I do not remember government being too small in 1988. We should also remember government grew significantly in the 20 years prior to 1988.

Inflation is now 1.3%. This is what social security checks will go up in January. I will spend the next eight months fighting big-spending Democrats and big-spending Republicans who are going to try to increase the take from taxes by well over 1.3% per year in the next two years.

I will be called an extremist and ultra-conservative for trying to meet this modest goal. I do not want to dismantle the government -- just hold its increase in cost to the rate everything else is going up. I hope all of you stand behind me in this endeavor. # Making Healthy Choices at KES

AODA specialist Jessica Deutsch from the Washington County Council on Alcohol and Other Drug Abuse demonstrates the effect of second-hand smoke on an actual pig's lung. # Serigraph Elves Collect Food, Gifts for Local Charities

(West Bend, Wisconsin, November 18, 1998) Representatives from Serigraph Inc. will walk the West Bend Christmas Parade, scheduled for November 29th at 5 p.m., collecting food and gifts for the Toys for County Kids Campaign and the West Bend Full Shelf Food Pantry. The Serigraph "elves" will wear red Santa hats and carry white Serigraph boxes.

According to Kelley Peterson, employee services coordinator, "The idea to walk the parade route came about because of the great success we had with a recent food-drive campaign sponsored by the Corporate Giving Council. The employees are really excited about carrying that enthusiasm over to the West Bend Christmas parade." The company expects over a dozen "elves" to participate in the event. "The school-to-work students will also be involved in the coordination of publicizing the event and collecting the donations," Peterson

added. Serigraph is one of the nation's largest industrial screen printing companies, employing over 1,000 people at five West Bend area plants. For more information, call (414) 335-7200.

# J is for Juggling

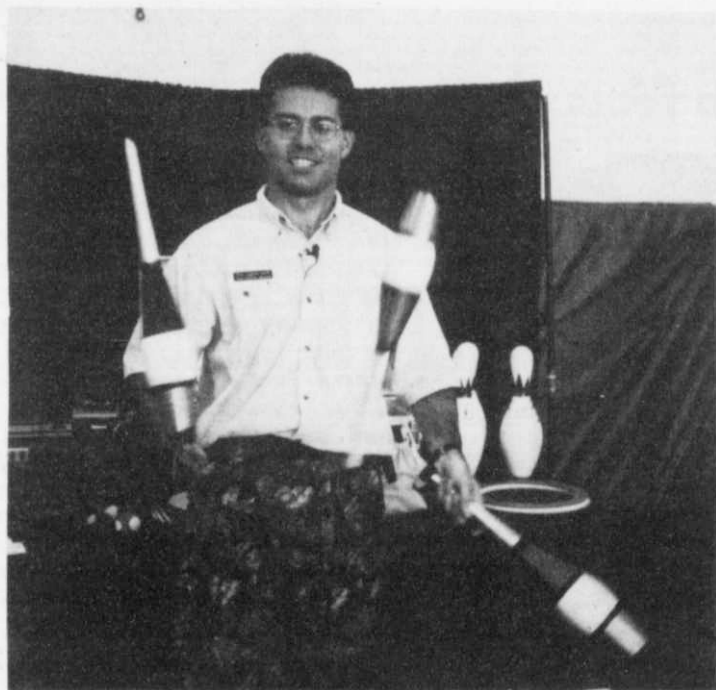

As Mrs. Hubbard's class files past, "The Juggler With Yellow Shoes" peddles around his tiny bicycle.

Things were up in the air at Kewaskum Elementary School recently -- things such as feathers, rings and juggling pins -- when Dan Kirk, "The Juggler With Yellow Shoes," performed for the students in the KES gym. The show was a continuation of the school's circus theme for the year: KES, The Greatest School On Earth.

Mr. Kirk included lots of audience volunteers while entertaining students and faculty alike with his adept handling of everything from traditional juggling balls to his riding of a foot-tall bicycle.

The juggling theme will be entering the classrooms as well. Materials and instructions are available for classroom teachers to help their students make their own juggling balls. There will be juggling contests and exhibitions later in the year, too.

It's all part of the fun at The Greatest School On Earth.

Dan Kirk, "The Juggler With Yellow Shoes," smiles while juggling the juggling pins during his assembly at Kewaskum Elementary School.

Teacher volunteers work on balancing a feather on their fingertips. From left, Mrs. Noegel, Mr. Breese, and Mrs. King).

The respect in a time of sorrow is still overwhelming to his wife Carla, his family and friends.

We wish to thank God for blessing us for having John with us for 31 years. Father Mark Jones, Father Elroy Pesch, St. Joseph's Community Hospital, Miller Funeral Home, and all of the many law enforcement, fire dept., community organizations, businesses, and friends for their memorials. Donations, acts and deeds.

*Thank you very much,  
from the family of  
John M. (Spike) Schmitt*

### CARD OF THANKS

We'd like to thank everyone who showed kindness to us, in any way, at the time of the death of our mother. Those who gave memorials, flowers, food, cards, condolences, and shared God's word at the church service.

A special thanks to Rev. Robinson, pallbearers, organist, Miller Funeral Home and ladies who served the lunch. Also the caregivers at Beechwood Rest Home.

God bless you one and all!

In Loving Memory of  
**ROBERT J. SCHAIRER, JR.**  
Who Went To His Eternal Rest November 27, 1995

It happened three years ago on that snowy day  
God said it is time for you to go His way  
He took your hand and said, "Come with Me"  
From earthly burdens you are now free  
All you needed to do here is done  
The time for your heavenly reward has begun  
Life will have to go on for those left behind  
It will be difficult because so many memories come to mind  
Family gatherings will never be the same  
Tears fill our eyes with the mention of your name  
We have to accept our loss as best as we can  
We are just unable to understand God's plan  
There were so many lives that you have touched  
You are loved so deeply and missed so much.

*Sadly missed by,  
Mom, Dad, Michelle, Laurie & Devin  
Tony, & other family & friends*

### Letter to the Editor:

The staff and students of St. Lucas Evangelical Lutheran School in Kewaskum would like to express their sincere thanks to Prudential Securities and Mr. Paul Becht. Mr. Paul Becht, who coordinated the donation, is an insurance agent with Prudential and a member of St. Lucas Church. Because of Prudential's generous donation of 23 computers and monitors, St. Lucas will be able to offer their students basic computer classes to keep abreast with today's computer era.

### IN MEMORY

In loving memory of JANE EGGERT, who passed away five years ago on Nov. 25, 1993:

God saw you getting tired, and a cure was not to be, So He put His arms around you, and whispered, "Come with Me." With tearful eyes we watched you suffer and saw you fade away. Although we loved you dearly, We could not make you stay. A golden heart stopped beating, You're now at peaceful rest, God broke our hearts to prove to us He only takes the best

Sadly missed by her Dad & Mother Harold & Esther Eggert and family.

### Yuletide Open House, Holiday Auction Sunday

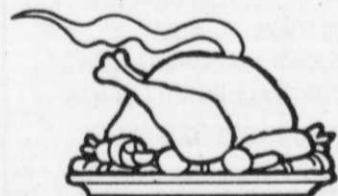

The Washington County Historical Society will host its Yuletide Open House and Holiday Auction on Sunday, November 29, from 1 to 4 p.m. This annual holiday event will be held in the Society's Old Courthouse Museum, 320 S. Fifth Avenue, West Bend.

This event is free to the public and will serve as the opening reception for the new "Making Music" exhibit, which celebrates the area's local bands and orchestras: The Four Strings Quartet and the River City Irregulars' brass section will provide the afternoon's musical entertainment.

The Museum will be decorated for Christmas and there will be an exhibit of antique Christmas Cards.

The public is invited to enjoy some delicious holiday treats that Sunday and also discover the unusual gift-giving ideas available in the Museum's Treasurer's Vault Gift Shop. Also planned is a silent auction and raffles of unique items from area merchants. To name a few items: a \$100 Savings Bond, Boyd's Collectible Bears, a framed print, and a lamp with a holiday motif, plus, various objects being received daily.

For the football fans, the Packers Game will be available on television.

## INVESTING: How to Get Started

By Paul C. Becht, Kewaskum, Financial Advisor

To the novice investor, the increasing number of investment choices available can seem confusing. Most financial advisors agree that you should follow a few basic steps when just getting started in investing:

1. *Determine your financial objectives.* There are many reasons for investing. Some of the most common include: earning more current income; building your net worth; saving for a home, college education for children or your retirement; and reducing your tax burden.

Each of these objectives suggests different investment strategies and different types of investments. For example, if you want more current income, you might do better with a fixed income investment, such as a bond, rather than a growth company stock.

2. *Understand your current financial position.* Calculate your net worth by adding up all of your assets (value of your home, personal property, investments, bank accounts, pension/profit-sharing plans, etc.) and then subtract your liabilities (money you owe for such things as mortgages, car loans, credit card debt and other bills).

If most of your assets are in real estate (which is true for many people), you may need to convert your investments to cash in an emergency. Therefore, you may not want to invest in long-term instruments. However, if you have assets that can be converted easily to cash (e.g., money market funds or stocks), you might want to invest longer-term for a higher return.

Similarly, you should calculate an annual household budget by adding up all of your income for the year (salary, interest and dividends on investments, distributions by pension/profit sharing plans, alimony) and then subtracting your regular, essential expenses (mortgage or rent payments, food, utilities, clothing, etc.). The balance is the amount you have to spend on personal uses, such as vacations and gifts, or to invest.

3. *Understand your tolerance for risk.* Most investments have some measure of inherent risk. If you have sufficient assets and income, you might be willing to accept greater risk in exchange for a potentially larger gain. However, if you cannot afford to lose your investment principal, you probably should consider low-risk investments which, while relatively safe, usually do not earn a high return.

4. *Understand your investment.* Before you invest, you should understand how the investment works. If, for example, you want to buy the common stock of a

company, take the time to learn about the company and the industry (or industries) in which it operates by reading the company's annual report or an analyst's research report about the company.

Likewise, a mutual fund may seem to be a simple investment because your money will be managed by professionals. However, you should know such things as the fund's performance over the short- and long-term compared with that of other funds, the investment objectives and strategy (what the fund invests in -- stocks, government bonds, municipal bonds, etc.), and what your costs will be to invest or withdraw your money. These questions usually are answered in the fund's prospectus.

5. *Seek professional advice.* As briefly outlined above, there are many things you should know before you invest. As experienced financial advisor can

help you at every step -- from helping you set financial goals, to explaining various investments, to helping you monitor the success of your account.

As with your investments, be sure you understand how a financial advisor will charge for his or her services, and select an advisor that is comfortable with your objectives. Some advisors will work only with aggressive, high-risk investors, while other advisors are well suited to long-term, security-conscious individuals.

If you take the time to understand your financial situation, set reasonable goals, and work with a qualified financial advisor, your initial experience with investing should be successful.

## Governor's Y2K Commission Told Utilities are Prepared for Year 2000

The Governor's Blue Ribbon Commission on Year 2000 Readiness was briefed by the Public Service Commission November 12 on the preparedness of the electric, gas, telephone and water utilities for the Year 2000 conversion.

"The good news is the large utilities are in excellent shape, and fully expect to be Y2K ready or compliant as the clock strikes 12 on December 31, 1999. Almost all of the electric utilities surveyed by the PSC say they have not only assessed and started to make changes to their systems, but have come up with contingency plans in the event something goes wrong," according to Lieutenant Governor Scott McCallum, a member of the Commission.

According to the survey, 10 Investor Owned Utilities, Dairyland Power Cooperative, 20 Cooperatives who get their power from DPC, Wisconsin Public Power

Inc., and 80 of 82 Municipal electric utilities responded to the survey. A majority of them said they started to work on Y2K issues as early as 1995, have put a lot of time and money into finding and fixing problems, have found fewer problems than anticipated and are developing contingency plans for an extra measure of safety.

"There is still a slight concern with the smaller utilities, some of which have not yet looked into Y2K readiness. The upside of that is many of the smaller utilities have few, if any, digital controls and often rely on the larger utilities as their source for electric power and for transmitting power to their service territories," McCallum said.

The PSC survey also indicated all natural gas utilities in the State of Wisconsin said they will meet the December 31, 1999 date for Y2K preparedness. Fourteen major telecommunications providers in

Wisconsin and the Wisconsin State Telecommunications Association reported different stages of readiness, but none anticipated a problem with being prepared before the Year 2000. Water utilities are also addressing the Y2K readiness of critical processes in their operations.

"The PSC survey results should be encouraging to everyone in Wisconsin. However, we cannot assume everything will run smoothly without testing and re-testing those systems that are being put into place. Cooperation between the public and private sector is essential to solving the Y2K problem," McCallum added.

The Commission is expected to form subcommittees in the areas of infrastructure, public safety, health and business at future meetings. A report will be presented to the Governor in June of 1999.

## New Trend In School Bond Referenda Emerges

Voters Reject Attempts to Borrow or Exceed Revenue Caps

MADISON -- Recent election results offered few surprises to candidates and political leaders, but a possible trend in school bond referenda might be emerging, notes a new report from the Wisconsin Taxpayers Alliance (WTA), a nonpartisan watchdog organization.

On November 3, there were at least 60 school referenda in 39 districts. Of them, 44 were for construction borrowing, while 13 sought permission to exceed the state-imposed revenue caps, and three asked voters' opinions on district boundaries or the locations of new buildings. Voters approved 23, or about half, of the construction referenda, and only three of the revenue-cap referenda.

"In looking at school spending referenda over the past five to seven years, there is some indication that voter support for school borrowing might be lessening," WTA President Todd A. Berry said.

School bond referenda passed at increasing rates during 1994, 1995 and 1996 -- the first years after the new law that required the state to provide, on average, two-thirds of local school revenues beginning in 1996. Approval rates increased from 38% in 1993 to 63% in

1996. "Yet we find that only 52% of building referenda passed on November 3," WTA President Berry observed. Only 43% of such ballot questions were OK'd during October.

An even more noticeable trend can be found in referenda to increase allowable school revenues beyond state limits. Approval rates ranged from 50% (1996) to 64% (1995). However, during October, 43% of such referenda passed; in November, that percentage fell to 23%.

One trend has not changed. Total school borrowing sought from October to November 3, 1998, was \$525.4 million -- higher than for all of 1991 (\$308.3m) or 1992 (\$497.2m).

For a free copy of the report, write to: Wisconsin Taxpayers Alliance, 335 W. Wilson St., Madison, WI 53703-3694; or send an e-mail to wtataxes@itis.com.

## Best Students Name Best Area Teachers

A select group of America's teachers are being honored by their toughest critics... their former students, in the fifth edition of *Who's Who Among America's Teachers, 1998*.

All of the approximately 130,000 teachers being honored were selected by their former students who themselves are currently listed in *Who's Who Among American High School Students* or *The National Dean's List*, publications which recognize 5% of our nation's high school and college students respectively. Paul Krouse, publisher of *Who's Who Among America's Teachers*, said, "there is no greater honor teachers can receive than to be recognized by former students for their excellence and dedication. In this publication we clearly have the best teachers in America selected by the best students."

The students were requested to nominate teachers who "made a difference in their lives" by helping to shape their values, inspiring interest in a particular subject and/or challenging them to strive for excellence.

Many of the students

commented about the enthusiasm and knowledge their teachers demonstrated in the classroom, and many praised their teachers for their ability to relate to youngsters on a personal as well as a professional level. One student wrote about her teacher saying, "she made education something pleasurable, instead of a dreadful ordeal, by letting me spread my wings and showing me the best way to fly."

Local educators honored in *Who's Who Among America's Teachers, 1998*, include:

YES  NO

(5) The school board just doesn't get it! I don't want to build anything. Just continue to patch and repair what we have. We will get by somehow!

TRUE  FALSE

(6) I support opening Beechwood School.

YES  NO

(7) If it is deemed by the school board that Beechwood School will not be opened they should:

# Indians Gear Up for New Basketball Season

The NBA may be walking a picket line, but the Kewaskum boys basketball team has been running their wind sprints in preparation for the 98-99 season. Tom Timblin will begin his second year as head coach. Scott Pritzel will again assist. The Indians new Jayvee coach will be Jeff Gosse.

Coach Gosse has spent his previous nine seasons as the head girls varsity coach at Milwaukee Vincent (Vincent has won the boys Division I state title for the last three straight years). The freshman coach will again be Jamie Jastrab.

The Indians graduated only one senior from last year's 6-15 season, David Gerhartz, who was Honorable Mention All Conference.

In assessing this year's goals and strengths and weaknesses, Coach Timblin said, "We will definitely miss David's leadership and outside shooting," adding that he is looking for, "overall improvement fundamentally across the board in all categories."

He also stated, "We certainly won't make any bold predictions. This year we are striving to develop the whole program, not just the varsity. All four coaches are rotating with all three teams to give the kids a feeling of ownership and continuity with our offensive and defensive systems."

This year's team will have more experience with eight returning letter winners. John Warnecke (last year's MVP), 6'2" senior center, and Andy Christophersen, a 6'2" senior power forward will be counted on to carry the bulk of the rebounding and scor-

ing load.

Josh Gaffke, 5'9" senior, Billy Cook, 5'10" junior and Shaun Timblin, 5'11" senior will make up a hopefully quick, potent back court.

Aaron Seiser, 5'10" junior, Doug Wenzel, 6'1" senior and Jessie Boegel, a 6'2" junior, will contribute at the center and forward spots, while Chris Koth, 5'8" junior, Brad Schrauth, 5'11" senior and Todd Wright, a 5'8" junior, will help out at the guard and small forward positions.

The biggest worry? According to Coach Timblin, it is again the rebounding factor. He stated, "Last year, we were outrebounded in 19 of our 21 games and believe it or not, this year's team is shorter than last years. We work on it every day. We are banking on our quickness, our hustle and our execution on both sides of the court if we are to take that next step up the ladder of success."

The junior varsity and freshmen teams are both looking strong in practice. We will report their scores and chart their progress as the season unfolds. The Indians open the season on Wednesday night at Slinger. The JV game is at 6 p.m. followed by the Varsity at 7:30 p.m.
