## 'Gesture of Good Faith' to Village County Won't Pursue \$160,000 Claim Against Kewaskum in Labor Day Fatality

Washington County has informed the Village of Kewaskum that it does not intend to pursue a worker's compensation claim against the village resulting from a September 7, 1998, accident. The claim of more than \$160,000 occurred from an accident in which a county deputy was killed and a second deputy injured while responding to a mutual aid call from Village police. Doug Johnson, County Administrative Coordinator, announced this decision of the Human Resources Committee, which

is responsible to oversee the county's self-insured worker's compensation program.

Johnson described to members of the County Administrative Committee that this decision is a gesture of good faith to the Village of Kewaskum. The decision to forego reimbursement of claims paid by the county was based upon the recommendation of the County Attorney, but also took into consideration the importance of mutual aid among law enforcement agencies serving the citizens of Washington County.

He further noted that others may still make a claim under a different mutual aid statute dealing with third party claims against the county. The decision of how to respond to such a claim is under the exclusive authority of the county's insurance company. If third party claims are pursued, the insurance company has the legal right to determine if reimbursement will be requested under the mutual aid statute. The county is not aware of any decision yet made by its insurance company in this regard.

## Kewaskum Blood Drive Coming Soon, Can You Help?

What good is a blood donor? A blood donor is good for people who go through windshields and red lights. For someone with cancer, hemophilia or anemia. Or hepatitis. Or ulcers. For people being operated on... For people who are almost out of life because they're almost out of blood.

For the little girl who doesn't know that leukemia has happened to her or why. For a little boy who needs something revved up that wound down... like energy. For people who have open-heart surgery... for people feudin' and fightin'. For people burned pretty bad... for dare-devils... tree climbers... for people in the wrong place at the wrong time. A blood donor is good for people who are in a lot worse shape than most people you know. For someone who needs a little of your blood... a lot.

On Wednesday, March 3rd, the Kewaskum Community Blood Drive will be held at the Kewaskum High School Choir Room from 1:00 to 6:00 p.m. This will be your opportunity to help others who might find themselves in need. More than 450 pints of blood are needed everyday to meet the needs of patients in 29 southeastern Wisconsin hospitals. All this

blood must come from volunteer donors. In recent years, the record number of volunteer donors for the Kewaskum Community Blood Drive is 76. Organizers are hoping to do as well or better on March 3rd.

Donors must be 17 years old or older, weigh at least 110 pounds, be free for symptoms of a cold, sore throat, flu or allergies on the day you donate and not have had hepatitis.

All donors will be asked to provide their social security number and must present some form of identification when making their blood donation. Acceptable forms of identification are a picture I.D. with a signature or blood donor I.D.

The actual donation of a pint of blood takes approximately seven minutes. Plan 20 minutes prior to the donation to give medical history and to have your temperature and blood pressure taken and 10-15 minutes after the donation for some refreshments.

Please seriously consider donating with a special appeal for first time donors. You may help a total stranger or someone here in our community. Reserve an hour on Wednesday, March 3rd. Those you help will be grateful you took the time and gave such a generous gift.

The board entertained two public hearings. The first pertaining to a conditional use permit for the placement of a 50 foot tower in the backyard of Brian Brendemhil. The tower will be used to support an amateur radio tower.

The second addressed the application on a combination class "B" Fermented Malt Beverage and Intoxicating Liquor License for Norman Scott Henry of the Salt H2O Cafe. The police chief stated no objections.

Police Chief Richard Knoebel gave the board his January report. He stated the new squad is up and running with new markings. He also stated that the camera system is also up and running.

Director of Public Works, Jerry Gilles gave his bi-monthly report. He presented the board with specs for the new skidster loader. He stated his department is looking into any "Y2K" problems. Currently everything should be fine for next year.

Park and Recreation Chairperson, John Kenworthy gave a synopsis of a committee meeting earlier in the evening.

He stated that there is a dire need for someone to manage

the youth baseball leagues. A notice for this will be placed in next weeks Statesman. The board also authorized the advertisement for part-time summer recreation employees. In closing he asked the board to consider to continue adding water apparatuses to the community pool. The board accepted a bid from Arnold's of Saukville for the portable toilets. The cost will be \$60 per unit per month.

Plan Commission representative, Warren Dums announced a Plan Commission meeting to be held Tuesday, Feb. 23.

Library chair, Kenworthy announced things are running very well at the library.

The board then approved the conditional use permit for Brian Brendemhil.

The board also approved the application for the combination class "B" Fermented Malt Beverage and Intoxicating Liquor License for Norman Scott Henry of the Salt H2O Cafe.

The board acted on a transfer of control of cable television franchise. This came due to the recent purchase of Marcus Cable by Vulcan.

The board was presented with a proposed ordinance creating an ethics code for the Village of Kewaskum. This ordinance would put in place a code of ethics for the village board. This will be looked at a meeting to be held in March.

With no miscellaneous business the board closed their meeting.

## TO WHOM IT MAY CONCERN: From the Kewaskum Village Board:

February 16, 1999

The Park and Recreation Committee met to prepare for not only the summer season, but the downtown beautification ongoing project. This is the purchase and placement of some precast planters, waste receptacles and benches. The purchase of these items were discussed in fall during the budget process as suggested by a number of organizations in 1997. It was again felt the Village should work with any of the organizations over a number of years to improve the downtown area.

The Village Board did again budget for the purchase of six (6) flower planters, three (3) benches and three (3) waste receptacles. The Village is also hopeful that 1/2 the budgeted money will be donated from the different organizations. The Village would be interested in proceeding with the ordering of these items as soon as possible, so if your organization is willing to participate in this worthwhile program please advise the Village Office by March 16, 1999.

The cost for the planters is \$215.00, the cost of the waste receptacles is \$323.00 and the cost of the benches is \$373.00. If you have any question please call the Municipal Building (414) 626-8484.

Thank You!

## Statement of Congressman Sensenbrenner on Senate Votes On Articles of Impeachment

(Washington, DC) - Rep. F. James Sensenbrenner, Jr. recently released the following statement on the Senate's vote in the impeachment of President William Jefferson Clinton:

"I am deeply saddened by the Senate's vote of acquittal today in the matter of the impeachment of President Clinton. Regardless of that vote, I am proud of the work of the House managers. We adhered to the Constitution

while others sought expediency. We stuck to our principles while others responded to polls. We defended the rule of law while others defended a double standard."

"It is my firm belief history will vindicate those who placed their oaths of office and their commitment to the truth above more trivial considerations. I take leave from this unwelcome duty with a clear conscience."

## UWWC Students Help Save Lives

By Sue-Anne Towne

**West Bend** - When most people think of saving a life, they think of retrieving a drowning victim, or rescuing a burn victim from a fire.

But saving a life is easier than that, say the students of the University of Wisconsin - Washington County. When you donate blood, they say, you save a life.

UWWC is holding its once-a-semester blood drive from 9 a.m. - 1 p.m. Wednesday, Feb. 24 in the college gym. The college is located at 400 University Drive, West Bend. Members of the public are welcome to come and help by contributing to the blood drive.

UWWC students are volunteering an hour out of their busy schedules to give people from Southeastern Wisconsin a second chance at life by donating blood in the college gym. Students can pre-register in the Rathskeller, the recreation room in the college, or non-students can also donate on a first-come, first served basis.

The student government association at UWWC organizes the event to make it easier for students to donate blood and to do it in a comfortable setting, with the hope that they will continue throughout their

lives helping others.

"It's a very simple thing to do," says Moe Masiarchin, SGA president. "The risks are low, and staff from The Blood Center of Southeastern Wisconsin is always on hand to reassure and assist if needed."

Spokesmen for local blood banks say they frequently face shortages of blood supply in our area, because people don't have time, are afraid, or don't think it will make a difference to donate. But students at UWWC have participated in blood drives, once every semester, for about 8 years. Consider that forever 8 times someone donates, they have given a gallon of blood and saved a few lives in the process.

Studies show that, every three minutes, a hospital patient in our area will need a transfusion. More than 500 pints of whole blood and blood components are transfused to patients in our area everyday of the year.

The average adult has 10-12 pints of blood in their body, and after only 72 hours after donating, the plasma in your body is replaced, and the other components return to normal in just a few weeks. Blood can't be manufactured in any

otherway besides the natural process of our body.

"One of those pints of blood could someday save your own life," said Masiarchin. "One hour of time could save your own life. This is your chance to help."

Donating is not risky, but donors must be healthy and disease-free, 17 years or older, and weigh at least 110 pounds. The blood center staff is required to ask a list of questions regarding infections, medications and history, and in order to donate blood, the donor must meet all of the qualifications.

For anyone interested in donating blood, contact The Blood Center of Southeastern Wisconsin, or come to the UWWC Blood Drive, or Debbie Butschlick, SGA Advisor, at (414) 335-5238.

## LETTER TO THE EDITOR

February 15, 1999

To the Editor,

I apologize for the mistake I made in last week's letter. The labor increase over 1998 is really \$6,052 and the amount over the budget is \$5,913.

Now let us take some more figures from the budget that the board is standing by. Road labor for 1998 is as follows: salary \$28,680; hourly labor \$5,000; employee benefits \$2,640; social security \$2,580; and workmen's compensation \$1,110. This adds up to \$40,010. Now let us list for 1999 in the same order the above expenses: \$44,625, \$1,100, \$6,200, \$3,500, \$1,800. Total is \$57,225.

We did not buy any road equipment. We did not add any roads, but we have an increase of labor of \$17,215 over 1998.

The increase of the recycling center was \$6,052. When you add these two together, the increase for total labor for these two projects is \$23,267. There will be no change to the service to the town residents.

I challenge the town board to write up a justification for roads and recycling. The only answer that I can come up with is wasteful government spending.

A Town of Scott Taxpayer,  
Ira Weber

## Contacting Social Security: Your Choice

People who need to contact Social Security for any reason should know that they have a range of choices that should make it convenient and easy for them, according to Mary Byrns, Social Security manager in West Bend.

"You can contact us by phone, by E-mail or by visiting any Social Security office," Byrns said. "And you can set up an appointment to take care of your business at your convenience. I especially recommend setting up an appointment prior to filing a claim. This way we can provide service to you without delay."

Most Social Security business can be conducted by phone, Byrns stated. Social Security toll-free number, 1-800-772-1213 -- permits a person to call free from anywhere in the world. Telephone service is available 24 hours a day.

To speak to a representa-

tive, you should call between 7 a.m. and 7 p.m., Monday through Friday. After that, recorded services and information are available 24 hours a day, including weekends and holidays. The lines are busiest early in the week and early in the month, so if your business can wait, it's best to call at other times.

Requesting information through the Internet is made by Social Security's Internet Website, Social Security Online, at <http://www.ssa.gov>. You can request a copy of your Social Security "Personal Earnings and Benefit Statement," an application for a new or replacement Social Security card, or information about programs and publications.

"The important thing is to recognize that we are organized to make it easy for you to get in to touch with us and to serve you," Byrns said.

## Keep Your Children's Smiles Healthy in 1999

As we now approach the 21st century, the phrase that comes to mind is "The Future is Now." The way children care for their bodies will have an impact on their health as adults.

The good news is that preventative dental care has dramatically improved the oral health of American children. It's now possible for many children to reach adulthood without ever experiencing tooth decay.

February is National Children's Dental Health Month and the Wisconsin Dental Association has these tips for parents and caregivers:

- \* Take your child to see the dentist regularly, beginning by the child's first birthday.

- \* Put only water in a child's naptime or bedtime bottle.

- \* Start brushing as soon as the first tooth appears.

- \* Begin flossing when two teeth begin to touch.

- \* Brush and floss your child's teeth daily until the child can be taught to do

this alone.

- \* Make certain your child gets the fluoride needed for decay resistant teeth. ask your dentist how this should be done.

- \* Ask your dentist about dental sealants, a thin protective barrier that shields the chewing surface of back teeth against tooth decay.

Good oral health practices should begin in infancy and continue throughout adult life. In your child's early years, you must provide this care. Later you will need to instruct, monitor and motivate your child to help maintain good oral health habits.

Attitudes and habits established at an early age are critical in maintaining good oral health throughout life.

The Wisconsin Dental Association, established in 1870, is the state's largest organization representing dentistry. The association is headquartered in Milwaukee and has over 2,800 members statewide.

# Son of West Bend Resident Defends Democracy Overseas

Aircraft launch from the deck of USS Enterprise on their way to strike targets in Iraq during the first phases of Operation Desert Fox.

photo by Jacob L. Hollingsworth

by David W. Crenshaw

**ABOARD USS ENTERPRISE** -- Forward deployed. Ready on arrival. Anytime, anywhere. For Daniel J. Michols, these are more than just catch phrases, they're a way of life.

Michols, son of Tim Michols of West Bend, is a crewmember with VF-32, a Navy fighter squadron aboard the aircraft carrier USS Enterprise.

Enterprise left its homeport of Norfolk, Va., in November for a routine six-month deployment to the Mediterranean Sea. Since then, Enterprise and its 10-ship battle group have been demonstrating America's resolve for worldwide democracy and protecting international interests, through such actions as Operation Desert Fox, the most recent response to Iraqi aggression.

Michols is at the tip of the spear. He's an aviation storekeeper, ensuring his shipmates have the parts they need to maintain the squadron's F-14 Tomcats.

"I'm responsible for parts that range in price from a dollar to \$170,000," said the 19-year-old Navy airman apprentice. "I like my job because it's different every day. I come across different problems and obstacles I have to work through. It's sometimes a real challenge."

As an aircraft carrier, the Enterprise provides a formidable forward presence. Enterprise serves as a highly-visible deterrent to would-be aggressors, and if deterrence fails, it offers the most versatile and powerful weapons systems available.

At the heart of the platform is the more than 80 aircraft in Enterprise's air wing with mul-

tipurpose strike capability, like those provided by VF-32.

According to Army Gen. Henry H. Shelton, chairman of the Joint Chiefs of Staff, it was the Enterprise and its support ships that carried out the strike sorties on the first night of Operation Desert Fox. Before it was all over, U.S. and British warplanes, including planes launched from Enterprise's flight deck, flew more than 650 strike and support sorties, and other Navy ships in the region launched more than 325 Tomahawk cruise missiles.

Nearly 100 Iraqi military targets were attacked, selected because of their significance to the Iraqi regime, including the targets' contribution to Iraq's ability to produce, store, maintain and deliver weapons of mass destruction -- with consideration given to minimizing collateral damage without adding undue risk to U.S. combatants.

And Michols said although these operations can sometimes prove stressful, he has learned a great deal personally and professionally. "I've learned how to be more responsible," he said. "I've never had to account for millions of dollars worth of equipment before. I've also learned how to be more patient with people, especially being in a job that's tied to customer service."

A 1997 graduate of West

Bend West High School, Michols joined the Navy the same year. "I wanted something more for my family," said Michols, who has a 1-year-old daughter, Samantha. "I didn't think any of the other jobs I was being offered were any good."

And Michols says his time in the Navy has offered him many exciting experiences. "It was pretty cool visiting St. Thomas, in the Virgin Islands," he noted. "I got to see a different culture, and learn about the people there."

Even still, Michols says he hasn't made any firm decisions regarding the length of his military career.

"It's too early in my enlistment to tell," he said. "My goal, though, is to get as much education as I can from the Navy, and they help me accomplish this by sending me to school and giving me educational benefits such as the G.I. Bill."

Sailors like Michols are on station around the clock and all-year long in areas like the Mediterranean and Persian Gulf regions, forward deployed and ready on arrival should they be needed. For the Enterprise and its battle group, it's meant spending the holiday season away from their families, but Michols and the rest of the Sailors and Marines know the difference they're making in an unstable world.

## ST. JUDES NOVENA

May the Sacred Heart of Jesus be adored, glorified, loved and preserved throughout the world, now and forever. Sacred Heart of Jesus, pray for us. St. Jude, worker of miracles, pray for us. ## IN MEMORY

In loving memory of GRANT HUEBNER, who passed away one week ago, Feb. 7.

You will not be forgotten, No one will ever fill your vacant place. As you were a friend to whom you would face.

You were the kind of person who would help everyone, Even to those who would laugh and make fun.

Your voice will no longer be heard as before, As time goes by we miss you more.

But now you'll be at a place that is best. For a person just like you, to rest!

God Bless you Grant

Sadly missed by a lot of friends.

Trying to be happy is like trying to fall asleep; you won't succeed unless you forget you are trying.

## Remember Victims of Heart Disease, Stroke During February Heart Month

February is American Heart Month...a time to remember friends and loved ones who have been victims of cardiovascular disease.

Memorial gifts to the American Heart Association provide a living tribute to those special people by supporting heart-health education, community programs and medical research into the causes, prevention and treatment of heart disease and stroke -- the leading killers in Washington County.

Contributions of any size will be accepted by Florence Kissinger, AHA memorial gifts chairperson for Washington County.

"Heart disease and stroke touch us all," Kissinger said. "Someone close to you has probably been a victim - a relative, a neighbor, a co-worker or the parent of a friend. If heart disease or a stroke has claimed a life that has touched yours, you can remember that person in a special way during

February" Kissinger said.

To make a memorial gift to the AHA, donors should provide their name and address, the name of the person to be honored, and the name and address of the person to whom an acknowledgment card should be sent. A check for the contribution made payable to the American Heart Association should be mailed with the above information to Florence Kissinger, M & I First National Bank, 321 N. Main St., West Bend, WI 53095.

Every memorial contribution to the AHA is acknowledged by a memorial sympathy card sent to the family on behalf of the contributor. The amount of the contribution is not disclosed to the card recipient.

To make a memorial contribution using a credit card, or if you need more information, call the AHA office nearest you at 1-800-AHA-USA1.

## How to Weather Employer Cuts of Retiree Health Benefits

It's becoming increasingly common for companies to reduce or eliminate promised health care benefits for retirees, and there is nothing the retiree can do to stop the changes. But with preparation, retirees, and future retirees can ensure critical health care coverage and minimize the financial impact.

A 1998 survey by William M. Mercer, Inc. found that only 38 percent of large employers offer health care coverage for retirees, down from 46 percent in 1993. They also found companies boosting premiums and co-payments, and pushing retirees into managed care plans.

Early retirees generally have the biggest worry. Someone retiring at age 55 or 60 must cover health benefits for several years until they become eligible for Medicare, the government-sponsored health care program. If their former employer amends or terminates their plan, they may find themselves underinsured or uninsured. The problem could worsen if Congress raises the age, now 65, at which workers can start to collect Medicare benefits. President Clinton has proposed that early retirees without health care coverage could enter the Medicare program before age 65 by paying \$300 to \$400 a month in premiums, but that proposal has not been enacted.

So what can you do if you are counting on your former employer's health benefits to either cover you until you become eligible for Medicare or supplement costs not covered by Medicare?

## 'Bowl For Kids' At West Bend

Big Brothers Big Sisters of Washington County is proud to announce its thirteenth annual "Bowl For Kids" event. This fund-raiser is being held on February 19, 20, and 21 at Weiland's FUN Center in West Bend.

All proceeds from the event are used to support Big Brothers Big Sisters mentoring efforts on behalf of Washington County youth.

Teams of five bowlers can register to bowl by calling 334-7896. A minimum pledge of \$60.00 qualifies each team member to receive a specially designed t-shirt, two free games of bowling, a lunch, and the chance to win fabulous raffle and door prizes. In addition, a minimum pledge of \$125 qualifies each bowler to receive two chances to win 2 round trip air tickets, courtesy of Shooting Star Travel.

The prizes for the highest pledge amounts collected includes \$500 in cash and YMCA memberships.

Big Brothers Big Sisters is celebrating its 30th year of helping kids in 1999. Call 334-7896 and Do It For The Kids!

**Documents.** Everything starts with the language of the health care plan document. What's caught many retirees by surprise is that although their companies may have promised in brochures and letters to fully pay for health care coverage for life, the plan documents themselves contained clauses that gave the employer the right to amend or terminate coverage. That's the clause, say the courts, that overrides any other promises.

**Review Your Summary Plan Description.** The plan that's in effect when you retire is the important one to you. What exactly does it promise? The Department of Labor's Pension and Welfare Benefits Administration says that unless the language specifically promises that health benefits after retirement will continue at a specified level for a specified time, you probably aren't guaranteed coverage. Any language that gives the employer the right to amend or terminate the plan will usually trump any other promises. Review the plan language with your financial planner and a company benefits specialist.

**Watch Early Retirement Offers.** Early retirees sometimes accept lower buyout offers in exchange for guaranteed health care coverage. It's attractive because health benefits are expensive. But again, it's important to carefully review any documentation both in the formal plan or any written early retirement contract. If it's apparent from the documents that the guarantees are not legally ironclad, you may want to reconsider a buyout offer. Although not always the case, employees often can negotiate early retirement packages. You may want to bring in legal counsel to negotiate.

**Use COBRA.** You also can use a federal program called COBRA to extend health care coverage if your employer drops your plan within the first 18 months of your retirement. However, you can use COBRA only for the balance of the 18 months. For example, if you've been retired for a year when your employer drops coverage, you could use COBRA for only another six months. If you have been retired longer than 18 months when your employer drops coverage, you can't use COBRA at all. Also, you must pay the entire premium costs, plus a two percent administrative fee.

**Buy Private Insurance.** This is the most expensive route for retirees, but it may be your only choice. One option is to convert the group plan you were covered under to individual coverage. The insurer can't deny you coverage because of pre-existing conditions, but your premiums will probably skyrocket. You may do better finding other private coverage.

Either way, planners recommend that people build a savings fund to help pay for out-of-pocket health care coverage. You may even want to

consider funneling extra money into tax favored accounts, if possible, which can be withdrawn penalty free after age 59 1/2 to help cover premium costs.

## Lady Indians Defeat Warriors, Lose to Jets

The Kewaskum girls varsity stopped a four game losing streak by beating Ozaukee at home by a score of 39-35 on Tuesday, Feb. 9. Then turned around and lost by the same score to Manitowoc Roncalli on Saturday the 13.

Sarah Williams broke the ice against Ozaukee after almost four minutes of play with a three-pointer. Jenny Kraft followed soon after with the first of her 3 three-pointers of the game. The first quarter ended with a score of 12-6 with KHS on top.

Ozaukee rebounded in the second quarter by outscoring KHS 12-8, and cutting the deficit to two points by half-time.

Kewaskum outscored the Warriors in the third quarter

despite major foul trouble out of three starters. Led by Williams' six points they extended the lead to seven, at 31-24.

Fortunately for the Indians, Ozaukee failed to convert at the free-throw line in the second half, only being able to cut into the deficit by three in the fourth quarter. For the game, Ozaukee went to the free-throw line 25 times to the Indians seven.

Leading the scoring for Kewaskum was Kraft with 13, Sarah Schwinn with 11, and Williams with nine.

Facing the Jets, the Indians jumped out to an 18-10 lead at the end of the first half, in a game marked by poor shooting and aggressive defensive play by both teams.

The third quarter marked the Indians down fall, as they were outscored 15-4, only being able to muster two baskets.

Against Roncalli, the free-throw discrepancy again was apparent as the Jets went to the free-throw line 27 times to the Indians 10.

Sarah Schwinn led the Indians with 10 points, followed by Jenny Kraft with eight.

The Indians only have two regular season games remaining, before they open tournament play at Campbellsport on Tuesday, Feb. 23.

## KHS Frosh Boys Attempt to Stay Focused

The Kewaskum Boys Freshman basketball team continues to work hard and stay positive even with two losses this past week. The team traveled to Manitowoc Roncalli on Tuesday, Feb. 9, to play the Jets. The boys came out on the short end of a 54-36 ending score. Josh Repovsch led the team with 14 points, including six for six from the free-throw line. Lucas Kehres worked hard on the boards pulling down nine. Brian Cotter and Bryan Kraft each had three steals.

The young Indians traveled to Plymouth on Friday, Feb. 12. The Plymouth freshman boys are currently undefeated in the EWC. They won by a score of 61-38. Kewaskum stayed close in the first quarter with the ending score being 14-9. Plymouth used their height advantage and took control in the second quarter and did not look back. Josh Repovsch led the team with 10 points. Bryan Kraft was next with nine. Tony Fitts contributed seven points and three steals. Lucas Kehres and Brian Cotter had six points each.

The Indians play on Thursday, the 18, at Chilton which is a rescheduled game. They also have a home game on Saturday afternoon against Sheboygan Falls.

## KHS JV Girls Win in OT Over Ozaukee, 40-38

Recovering from a loss against Two Rivers (51-15) on Feb. 5, the Kewaskum JV Girls fought hard for a win against Ozaukee on Tuesday, Feb. 9. Kewaskum was missing four players due to flu. Kewaskum never led once in the game. In the third and fourth quarters they tied the score to go into overtime. Kewaskum outscored Ozaukee to take the win 40-38.

Ozaukee led at the end of the first quarter 10-8. Seven of Ozaukee's 23 points in the first half game were from free throws. In the third quarter Kewaskum scored 10 points, twice as many points as Ozaukee to tie up the score at

28 points apiece. Kewaskum and Ozaukee stayed at an even pace to end the fourth quarter still tied. Each scored five points to make the score 33-33. Kewaskum scored seven points and Ozaukee scored five in overtime.

High scorers for Kewaskum were Lynn Wiesner and Molly Strobel each with 10 points. Strobel also led KHS with seven rebounds. Emily Rinzel led the team with six steals. Wiesner also blocked four shots.

Pintor of Ozaukee led her team with 12 points.

## Huskies Seize JV Indians

The Kewaskum Girl's JV Basketball team fought out a close game against New Holstein on Tuesday, Feb. 2. The Indians and Huskies battled against each other through the whole game trying to get a lead on each other. In the fourth quarter New Holstein gained a lead to win 41-34.

The first quarter was close, New Holstein led 8-7. In the second quarter the lead switched over to Kewaskum when they made a comeback on offense. New Holstein regained the lead in the third quarter, 27-25.

With minutes left in the game, the score was tied. Kewaskum tried fouling to prevent New Holstein from getting a larger lead after they scored. Kewaskum's plan backfired when New Holstein made all of their free throws. Missed free throws by Kewaskum throughout the game tuned out to be costly (4/12).

Molly Strobel and Lynn Wiesner were high scorers for Kewaskum with 10 points each. Strobel lead the team with eight rebounds. Emily Rinzel had six steals for KHS. Kelly Dorn had two assists.

KEWASKUM - Strobel 10; Wiesner 10; E. Rinzel; Polzean 4; Gosa 2.

# Indians Lose at Roncalli, Plymouth

The schedule makers didn't do the boys varsity basketball team any favors last week as they had to trek the two hour bus ride up to Manitowoc Roncalli last Tuesday night and then visit Plymouth on Friday night.

The coaching staff was worried about KHS coming out flat against the host, Jets, who boasted a 10-0 Eastern Wisconsin Conference mark. The fear was justified as Roncalli's full court pressure gave KHS problems all night long. "They are one of the few schools we play that have more team quickness than us and it showed" Coach Tom Timblin explained.

The Jets jumped to an early lead and never looked back as they took a 33-22 halftime advantage. Some adjustments helped the Indians play better in the second half, but cold shooting, especially from 3 point land, sealed the Indian's fate for a 66-45 final.

John Warnecke and Andy Christophersen had eight points, while Josh Gaffke, Shaun Timblin and freshman Tommy Ogi each added six. "We were 2-19 from beyond the arch, 11% isn't going to get it done!" Timblin said. We also had 20 turnovers and only two team assists, but on the other side of the coin we out-rebounded them and made 85% of our free throws."

The Indians game plan against Plymouth was to keep Josh Iserloth (the conference leader scorer, 23.0 PPG) and Dave Peters, their 6'8" post players away from the basket. In their first meeting the two combined for 52 points.

The first half went according to plan as the two were held to 11 points total. The Indians tight zone defense challenged the panthers to beat them from the outside, meanwhile Josh Gaffke and John Warnecke each popped in nine points to keep the Indians within striking distance, 26-29 at the half. "They made five-3 pointers in the first half, we felt like they couldn't keep up that pace," Coach Timblin said. "We were playing our game and were comfortable with where we were at the half."

In the third quarter, like the flu bug, a shooting virus overtook the entire KHS team. Kewaskum incredibly missed 19 straight shots, but were down by only nine points going into the fourth quarter.

Andy Christophersen led the late surge as he scored 12 fourth quarter points. He was

aided by Kevin Miller's four points. The Indians forced numerous turnovers with their full court press late in the game. With 53 seconds remaining KHS cut the Panther lead to four points, but Nic Giebler converted seven of seven free throws late to seal the Indian's fate 65-58.

"We held their big kids in check, but we didn't think they could make nine three-pointers like they did," Timblin stated. "Again we out rebounded them, made 17 of 20 free throws and kept our turnovers in single digits. We did everything right except put the ball in the hole, 29% shooting for the game, that's a shame." Timblin went on, "Our team is playing a lot like my normal golf game, we can't seem to put all the different facets of the game together for a complete round."

The Indians now 3-8 in Eastern Wisconsin action are 3-13 overall. They travel to Chilton on Thursday night and host Sheboygan Falls in a rare

Saturday afternoon game. Freshmen and JV's at 1:00, Varsity at 2:30.
